Dear Judge Stavinoha:

During the week of April 14-17, 1981, Judge L. E. Eguia successfully completed a twenty hour course in the responsibilities of the office of Justice of the Peace. Article 5972 of the Texas Revised Civil Statutes requires each newly elected/appointed Justice of the Peace to complete a forty hour course in the responsibilities of the J.P. office and additionally to complete a twenty hour course each year thereafter. This article encompasses all justices who took office since August 30, 1963 and are not licensed attorneys. The funding of this program, which provides free room and board for the judges at the seminar, is made possible through a grant from the Governor's Office, Criminal Justice Division.

We at the Training Center realize how important it is to you and the people you serve to insure that your county Justices of the Peace are properly trained and equipped to carry out the duties and obligations of the office. As ninety to ninety-five percent of our citizenry have their one and only contact with a lower court judge, it is imperative that this contact be as judicious as possible.

You may wish to enter this letter in the minutes of your next commissioners court meeting in order that it may become a permanent record. If we at the Training Center can ever be of assistance, please do not hesitate to call.

Sincerely,

Ronald D. Champion
Executive Director

RE: MR. RICHARD SELLEH - PRESENT PERSONNEL FROM SOCIAL SECURITY TO DISCUSS THE SOCIAL SECURITY SYSTEM:

Two representatives from the Social Security office told Commissioners of the benefits of the Program. The Court requested the presentation before considering filing a letter of withdrawal from the retirement system; The following a is an outline presented by the Social Security office.

What Does SS Have Going For It? Mary Stakes - Georgia Teachers Retirement System

1. Those with two retirement pensions get larger retirement benefits.
2. Range of benefits cannot be matched or replaced at same or similar cost by any plan.
3. SS provides portability.
4. Cost-of-living adjustments are provided.
5. SS benefits are not subject to income tax.
6. Moral issue involved in taking advantage of system by withdrawing.
7. Withdrawal is irrevocable.
8. SS will be financed from general revenues if necessary.

Pertinent Questions for Withdrawing Groups in Considering Alternate Plans

What is cost of alternate plan?

What is present and future value of replacement retirement benefits? 15

What disability coverage is provided?

What survivor coverage is provided for wife and children?

Is there an automatic cost-of-living adjustment mechanism?

What medical protection is provided?

Other Pertinent Facts

Most states have authority to withdraw coverage without employees consent. Some states (a minority) have passed legislation requiring a referendum of employees prior to termination.

For a withdrawal to be effective for State and Local employees, coverage must have been in existence for five years and a two-year written notice must be given.

To withdraw a withdrawal notice, notice must be given in writing. An extension of the withdrawal notice period may be granted.

129,531 employees have withdrawn since 1949 or about 1%.

During the period 1974-79, 105,634 new State and Local employees were covered under SS.

In Alaska, the Mercer Co. estimated that full replacement of all SS benefits would require 22% of employees pay.

In Hawaii, the Alexander Grant and Co. recommended that the State remain in because of protection provided by the program.

In New York City, the Commission on Municipal Finances estimated the cost of replacing only basics of SS benefits would cost City $60 million more than SS contributions.

In California, the Wyatt Co. recommended against withdrawal due to high cost of replacing SS benefits.

17 RE: DISCUSS PROPOSAL SUBMITTED BY BROWN & ROOT FOR LANDFILL STUDY:

The following proposal was submitted to the court by Brown & Root on the Sanitary Landfill study.

Brown & Root, Inc. Post Office Box Three, Houston, Texas 77001
A Halliburton Company

April 7, 1981

The Honorable Jodie E. Stavinoha
County Judge
Fort Bend County Courthouse
Richmond, TX 77469

Dear Judge Stavinoha:

It was a pleasure for our Mr. Lancaster, Dr. Liu, and Ms. Johnson to meet you and to discuss the current and future Fort Bend County landfill operations. As you know, the existing landfill will be completed by 1985 based on historical per capita fill rate and population growth. Quick action must be taken to alleviate the intensifying problem of refuse disposal space.

A viable technique to extend the life of the present landfill site would be to add a baling operation at the site. A balefill requires less equipment, less cover material and substantially increases site life with the high bale densities. It can be operated effectively by one person. Environmentally, virtually all blowing trash is eliminated and operational noise is reduced.

To assist the County in making the best determination for a baling operation, Brown & Root would be pleased to perform the following work.

1. Determine the average and peak incoming loads to the site.
2. Determine appropriate equipment based on (a) production rates, (b) compaction ratio, (c) maintenance, (d) durability, etc.
3. Determine mobility of the unit for relocation purposes. .

4. Provide preliminary engineering design, including site location, foundation, and building dimensions.

5. Determine costs of installation and operation.

We estimate that this work could be performed in a period of two (2) months for a fixed cost of $26,000 based on the attached terms and conditions. The work would be under the direction of Mr. John Mitchell and the principal investigators would be Dr. Liu and Ms. Johnson.

We are also providing some articles on high density baling systems, which may be of interest to you.

We look forward to hearing from you. Please contact us if we may assist you further.

Mr. Jonas M. Berk, Registered Professional Engineer of State of Texas and employed by Thoas. Y. Pickett & Co. Inc.for the Utility Fuels Inc. at the W. A. Parish Plant in Fort Bend County.

The Coal handling facility, handle machinery & equipment and conveying equipment at the W. A. Parish plant.

The other facility is the Coal Inventory.

100% Coal Inventory is $23,277,040.00 - 90%of that cost or $20,949,330.00 representing the market value of the coal stock pile.

Coal Cars at the W. A. Parish Plant with the present worth of $45,654,580.00. Time of coal cars in the State of Texas is 45.0937% x $45,654,580.00 = $20,972,570.00 which is the market value of coal cars assessable to Fort Bend County, bases on total amount time in the State of Texas.

In summary the present worth is $40,538,910.00, Market value of coal cars $20,972,570.00, Coal Inventory $20,949,330.00 being a total of $82,460.810.00.

Mr. C. K. "Chuck" Reed, Property Tax Manager of Houston Light and Power Company and also, Representing Utilities Fuels, Inc. maintained that the taxes levied against the coal cars only,should be based on 2% of time spent in the county and not 45% of the time.

His contention is the property proposed to be assessed at 100% of the true market value, saying that 50% is nearer correct as the 100% market value

---

The court recessed at 12:15 P.M.

The Court re-convened the Board of Equalization at 2:45 o'clock P.M.

Utilitity Fuels Inc. - W. A. Parish Houston Lighting & Power Plant

Mr. Jonas M. Berk, statement in regards to W. A. Parish Power Generation Plant and appurtenances thereto that the 100%/market value of Plant proper is $638,396,170.00. Houston Lighting & Power Company rendered the property at $596,040.030.00.

15

Mr. T. "Herb" Haney, Senior Porperty Tax Agent for Houston Lighting & Power Company asked the court to consider the 100% market value of the W. A. Parish Power Plant.

Mr. C. K. "Chuck" Reed, Property Tax Manager of Houston Lighting & Power Company and Utility Fuels, Inc. informed the court that the two expert appraisers, making two different appraisals, and asking to make a decision, which is correct. Asked to court to equalize Houston Lighting Power property with local property.

The court ordered that the appraisal value of T. Y. Pickett stands as set out.

Mr. C. K. "Chuck" Reed with Utility Fuels Inc. voiced his formal protest with the Board of Equalization over the Coal Car Cost.

Mr. T."Herb" Haney, Propert Tax Agent for Houston, Lighting & Power Company. Both value of Generating facility and the discrepancy in the assessment ratio applied to Houston Lighting & Power Plant versus local properties.

There being no further business now necessary to be transacted by said Board of Equalization, it is ordered that said Board do no now recess at 3:30 o'clock P.M., until a later date, at which time said Board of Equalization will further resume the transacation of such business as may then come before it.

NOW THEREFORE, KNOW ALL MEN BY THESE PRESENTS:

That for and in consideration of the mutual convenants and agreements hereinafter set forth, it is agreed by and among the

parties hereto that:

1. The original 40 foot road reflected by the dedication of "Burlington Colony" Suburban Gardens according to the plat recorded in Volume 69, Pages 550 and 551 of the Fort Bend County Deed Records, affecting property owned by the District, is hereby abandoned between the east lot lines of Lots 5 and 12 of said Subdivision and the east line of Chimney Rock Road;

2. 4. In order to accomplish the matters recited in the preceeding four (4) paragraphs, each party to this agreement has conveyed and released each of the following tracts of land so that the presently constituted sixty-foot (60') road right-of-way consists of tracts B, D, E, F, G, and H, and the District owns the land adjoining the right-of-way along its north line free of any easement, right-of-way or claim by the Public or any other party hereto. Specifically, and without limitation, the County releases any claim of the Public in tract C, I, J and K, and all rights granted to it in tract A by instrument recorded in Volume 547, Page 111, Fort Bend County Deed Records, and Blue Ridge conveys tract A to the District.

15

To have and to hold the above described tracts, together with all and singular the rights and appurtenances thereto in anywise belonging, unto the said Fort Bend County and Fort Bend Independent School District, their successors and assigns forever, subject to the previous mineral and royalty reservations of record.

RE: UPDATE A RESOLUTION SUPPORTING INDUSTRIAL GROWTH IN FORT BEND COUNTY:

On Motion of Commissioner W. Lee Schmidt, seconded by Commissioner Johnnie Pustka, and duly passed, the court authorized to update a Resolution supporting Industrial growth in Fort Bend County, as follows:

20

On Motion of Commissioner W. Lee Schmidt, seconded by Commissioner Johnnie Pustka, and duly passed the Court adopted a policy to entertain industrial development in Fort Bend County and for the Fort Bend County Drainage District.

The Fort Bend County Drainage District stands ready to assist new and expanding industrial development by evaluating the potential nature and extent of drainage problems related to a given site within our jurisdiction.

Our evaluation can include drainage engineering studies and recommendations. Some physical improvements within our chartered powers and the bounds of reason may be possible.

We will make our services available to prospective industries and look forward to opportunities for service.

The Fort Bend County Commissioners Court recognizes the importance of growth in the industrial sector of our economy. 15

We stand ready within reason to improve roads and drainage to insure the availability of, and accessibility to, industrial sites in our area. Additionally, we are able under the Texas law to grant a free port tax exemption for goods in process, raw materials and finished products destined for out of State shipment within a nine month production cycle.

This free port exemption can make our County particularly attractive for many industries.

We have always been quite responsive to the needs of industry when the arrangement is one of mutual benefit to our citizens, and look forward to being of service.

REQUEST TO USE COUNTY BRIDGES

Shell Oil Company, hereinafter sometimes referred to as "Shell", hereby requests that Fort Bend County, Texas, acting through its County Commissioners, and hereinafter sometimes referred to as the "County", grant Shell permission to use three bridges situated on the Fort Bend County road commonly referred to as Sawmill Road, the approximate locations of said bridges being depicted on the plat attached hereto, in order to access the locations of two wells that Shell proposes to drill inside the boundaries of the Hale Ranch State Park. RESOLUTION OF FORT BEND COUNTY INDUSTRIAL DEVELOPMENT CORPORATION
AUTHORIZING ISSUANCE OF BONDS AND APPROVING DOCUMENTS

WHEREAS, the Development Corporation Act of 1979, Article 5190.6, Vernon's Annotated Texas Civil Statutes (the "Act"), authorizes and empowers the Fort Bend County Industrial Development Corporation (the "Corporation") to issue revenue bonds on behalf of Fort Bend County (the "Unit"), to finance the cost of projects comprising land, buildings, equipment, facilities and improvements, found by the Board of Directors of the Corporation (the "Board") to be required or suitable for the promotion of commercial or industrial development and expansion, for the promotion of employment, or for use by commercial, manufacturing or industrial enterprises; and

WHEREAS, the Board adopted a resolution on August 28, 1980, pursuant to which a certain Agreement to Issue Bonds between the Corporation and Warren Automatic Tool Company, a Texas corporation (the "User"), was executed and delivered, whereby the Corporation agreed to provide for the financing of the cost of the User's project (the "Project") which was initially described in Exhibit "A" to said Agreement to Issue Bonds and is more fully described in Exhibits A and B to the Loan Agreement between the Corporation and the User referenced below, in accordance with the provisions of the Act; and

WHEREAS, for purposes of financing the cost of the Project, the Corporation now desires (i) to authorize the issuance of its Industrial Development Revenue Bonds, Series 1981 (Warren Automatic Tool Company Project) (the "Bonds"), in the maximum aggregate principal amount of $3,400,000, pursuant to the terms and provisions of a trust indenture, (ii) to provide for the sale of the Bonds to the purchaser described herein, (iii) to provide for the payment of the principal of and premium, if any, and interest on the Bonds with revenues derived from the loan of proceeds of the sale of the Bonds (except for any amount representing accrued interest on the Bonds) to the User to finance the costs of the Project pursuant to the terms and provisions of a loan agreement and (iv) to take and authorize certain other actions in connection with the foregoing; and

WHEREAS, it is expected that on July 27, 1981, the governing body of the Unit will adopt a written resolution specifically approving this resolution of the Corporation providing for the issuance of the Bonds; and

WHEREAS, the Board has examined proposed forms of a trust indenture, a loan agreement, a collateral assignment and security agreement, a letter of credit and a letter of representation, all comprising a part of this resolution, and the Board finds that the form and substance of

such documents are satisfactory and the recitals and findings contained therein are true, correct and complete and hereby adopts and incorporates by reference such recitals and findings as if set forth in full in this resolution, and finds that it is in the best interest of the public and the Corporation and assists in carrying out the public purpose of the Corporation and of the Act to authorize the execution and delivery of such documents; and

WHEREAS, the Board has examined the proposed form of a guarantee agreement pursuant to which Jasper N. Warren, Allan C. King and Paul D. Tilley (the "Guarantors") all natural persons and holders of a portion of the outstanding capital stock of the User, will irrevocably and unconditionally guarantee the full and prompt payment of the principal of and premium, if any, and interest on the Bonds to the extent set forth in said guarantee agreement, comprising a part of this Resolution, and the Board finds the form and substance of such document is satisfactory, and that the agreements of the Guarantors contained therein constitute a material inducement to the Corporation to issue and sell the Bonds and in reliance upon such agreement of the Guarantors to issue and sell the Bonds and in reliance upon such agreement of the Guarantors, the Board is willing to adopt this resolution and authorize the actions to be taken hereby; and

WHEREAS, the Board has examined the proposed form of a deed of trust, security agreement, assignment of rents and financing statement from the User to Alexander C. IN THE MATTER OF TERMINATION	§	IN THE COMMISSIONERS' COURT
	§	
AND ABANDONMENT OF	§	OF FORT BEND COUNTY, TEXAS
	§	
DAM ROAD	§	

O R D E R

On this 27 day of July, 1981, came on to be heard by the Commissioners' Court of Fort Bend County, Texas, the Application of SUGARLAND PROPERTIES INCORPORATED, a Texas corporation ("Applicant"), for an Order of this Court to terminate and abandon DAM ROAD ("Subject Road") located within Fort Bend County, Texas, being a gravel surfaced roadway of varying width situated north of State Highway No. 6 and extending northward from its intersection with State Highway No. 6 to its intersection with Oyster Creek Drive; such southerly portion ("Southerly Portion") of Subject Road being more particularly described as that certain 1.248 acre strip of land conveyed to the State of Texas in the instrument of record in Volume 580, Page 688 of the Deed Records of Fort Bend County, Texas, and such northerly portion ("Northerly Portion") of Subject Road being a tract or parcel of land located in the S.M. Williams League, A-97, Fort Bend County, Texas, more particularly being a portion of that certain 5928.817 acres conveyed to Sugarland Properties Incorporated by instrument of record in Volume 607, Page 101, et. seq., of the Deed Records of Fort Bend County, Texas; being more particularly described in Exhibit "A" attached hereto and made a part hereof for all purposes;

Applicant has requested the return of the Northerly Portion of Subject Road back into acreage as it existed before such roadway was encumbered with a street right-of-way and applicant has requested that Fort Bend County abandon and release any and all right, title and

interest which it owns or claims to the street right-of-way over, under and across the Southerly Portion of the Subject Road, all as more particularly set forth in said Application, and said Application and the evidence submitted in support thereof having been fully heard and considered by the Court, the Court finds:

(1) That Subject Road is bounded by property owned in fee by Applicant;

(2) That the Southerly Portion of Subject Road was conveyed to the state of Texas in the instrument of record in Volume 580, Page 688 of the Deed Records of Fort Bend County, Texas;

(3) That the Northerly Portion of Subject Road is located in the S.M. Williams League, A-97, Fort Bend County, Texas, more particularly being a portion of that certain 5928.817 acres conveyed to Sugarland Properties Incorporated by instrument of record in Volume 607, Page 101, et. seq., of the Deed Records of Fort Bend County, Texas;

(4) That no person, firm, corporation or other entity would be adversely affected by the termination and abandonment of Subject Road nor would any established rights of any such person, firm, corporation or other entity be interfered with by such termination and abandonment of Subject Road;

(5) That the termination and abandonment of Subject Road will not thwart or otherwise impede the orderly street development in the area surrounding Subject Road;

(6) That Applicant plans to develop Subject Road and the surrounding property in such a manner that it will be undesirable for Subject Road to remain encumbered as a street right-of-way, and such termination and abandonment, as requested by Applicant, is reasonable, proper and necessary;

And the Court being of the opinion that Subject Road should be terminated and abandoned as applied for, and the Application should be granted it is accordingly

The new organization will be called Emergency Medical Services Association of Fort Bend County. The major purpose of forming an organization is to have a more effective method of receiving donations made to the county's emergency medical services and using the donations more nearly as the donors would like to have them used.

The local association will not be affiliated with the government of the County itself. Its laws and bylaws clearly outline its purposes and how money given the group can and cannot be spent.

The court recessed at 11:00 o'clock A.M. for closed session to discuss personnel matters. No action taken.

The Court re-convened at 1:00 o'clock P.M. when the following order was had.

14 RE CONSIDER TAKING ACTION ON NOMINATIONS FOR CENTRAL APPRAISAL DISTRICT BOARD OF DIRECTORS:

A discussion was had on the nomations of candidates for the Central Appraisal District Board of directors. Commissioner Pressley suggested each Commissioner be allowed to cast his vote individually, splitting the county's 1404 votes evenly, which motion died for lack of second.

Commissioner Johnnie Pustka contended that the county should vote as a body, to insure the county would have a member on the appraisal board, as did County Judge Jodie Stavinoha, agreed that the county should concentrate on finding one candidate all commissioners could support, since the county in the only taxing entity that represents all the people in the county.

The Court took no action at this meeting. Commissioners will decide next Monday who they nominate for the board.

15

The court recessed at 11:00 o'clock A.M. for closed session to discuss personnnel matters.

The court took no action at the closed session.

There being no further business the court adjourned at 11:40 o'clock P.M.
