THE STATE OF TEXAS §
§
COUNTY OF HARRIS §

THIS AGREEMENT, made and entered into by and between HARRIS COUNTY, a body corporate and politic under the laws of the State of Texas, _____ THE CITY OF KATY _____, a municipal corporation under the laws of the State of Texas, hereinafter sometimes referred to as the "City," Waller County, a body corporate and politic under the laws of the State of Texas, and Fort Bend County, a body corporate and politic under the laws of the State of Texas, the latter two entities hereinafter sometimes collectively referred to as "Adjacent Counties,"

W I T N E S S E T H

WHEREAS, the City has elected to have its population included as a portion of that population of Harris County in Harris County's "urban county" application to the U. S. Department of Housing and Urban Development for the eighth, ninth and tenth years funding for the Community Development Block Grant Program, said application being hereinafter sometimes referred to as the "Grant Application;" and

16

WHEREAS, the City's area and population is within the boundaries of Harris County and the Adjacent Counties; and

WHEREAS, Harris County is willing to include all of the City's population and area in the Grant Application and to cooperate with the City in the implementation of the City's Community Development Program; and

WHEREAS, the Adjacent Counties desire that that portion of the City's population and area located within the boundaries of Adjacent Counties be included in the Grant Application; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at Art. 1269L-4, Tex.Rev.Civ.Stats., which provides, in part, for the authorization of cities to implement a community development program; and

WHEREAS, the Texas Legislature has further enacted "The Interlocal Cooperation Act," codified at Art. 4413 (32c), Tex.Rev.Civ.Stats., which authorizes Harris County to contract with the City and the Adjacent Counties to perform governmental

functions and services for the City and the Adjacent Counties; and

WHEREAS, The Congress of the United States of America has enacted the Housing and Community Development Amendments of 1979, Pub. L. No. 96-153, which authorizes at 42 U.S.C.A. §5306(b)(5), Harris County to include in the Grant Application that portion of the City located within the boundaries of the Adjacent Counties;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That Harris County, the City, and the Adjacent Counties in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the Adjacent Counties agree to allow Harris County to include the City's population and area with that of Harris County in the Grant Application, and Harris County agrees to include the same in the Grant Application. Unless otherwise specifically stated herein, said population and area as used in this agreement includes, but is not limited to, that portion of the same which is located within the boundaries of the Adjacent Counties. The City and the Adjacent Counties further agree not to include, or permit the inclusion of, in any other application for a grant for a community development program pursuant to the Housing and Community Development Act of 1974, as amended, that portion of the City's population and area located solely within the boundaries of the Adjacent Counties.

II.

The City and the Adjacent Counties agree to allow the U. S. Department of Housing and Urban Development to use the City's population, area, and other necessary demographic characteristics in the determination of whether Harris County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

III.

Harris County and the City agree to cooperate in undertaking, or assisting in undertaking, essential community renewal and lower income housing assistance activities, specifically urban renewal and publicly assisted housing.

IV.

The City and the Adjacent Counties acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of

Housing and Urban Development and that no determination has been made at the time of execution of this agreement as to where and for what purposes the eighth, ninth, and tenth years funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that Harris County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such funds for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, Harris County may, in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City and the Adjacent Counties have received no assurance, written or oral, from Harris County to the contrary, and are aware that the execution of this contract does not constitute any guarantee on the part of Harris County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

V.

This agreement shall remain in full force and effect for the entire eighth, ninth, and tenth years funding period covered by the Grant Application (July 1, 1982 through June 30, 1985). The City and the Adjacent Counties acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit Harris County to allow the City and the Adjacent Counties to withdraw from this agreement or otherwise terminate the term of this agreement at any time after December 1, 1981.

VI.

In the performance of this agreement, the City, Harris County and the Adjacent Counties shall observe and comply with all applicable Federal, State, County, and City statutes, ordinances, rules and regulations.

VII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this agreement for any reason, Harris County may terminate this agreement by giving written notice of the same to the City and the Adjacent Counties.

11 RE: MS. JOHN MARKS, PHEASANT CREEK SUBDIVISION - PRESENTATION OF PETITION IN SUPPORT OF INCREASED SHERIFF'S DEPARTMENT PROTECTION:

Ms. John Marks, of Pheasant Creek Subdivision presented to the court a petition signed by 102 residents, supporting the sheriff's request for additional Sheriffs Deputies for Fort Bend County. The Petition reads as follows:

> Petition to support request for additional Sheriffs Deputies for Fort Bend County:
>
> October 16, 1981
>
> To: The Commissioners of Fort Bend County:
>
> We, the undersigned are residents and voters to the county. We moved here to get away from the crowded and impersonal life of neighboring Houston. In recent months, our homes have been burglarized, our women have had rape attempts, and our cars and possesions have been vandalised. We held a general meeting to see what we could do to help alleviate this disturbing situation.
>
> We were informed, by the Sheriff's Department, that our complaints were recorded and would be investigated, "as soon as possible.". The response was too long in coming. After some personal inquiries, it became very apparent that there is a frightening shortage of manpower in the Sheriff's Department. Currently, there is one deputy for every two-hundred-square miles of our county. We believe that it is impossible for such a limited number of deputies to provide adequate law enforcement to the residents of Fort Bend County.
>
> Statistically, over the past three years, 12,000 new people a year take up residence in our county. During this same time, the Sheriff's Department has seen only four new officers on the street.
>
> The Sheriff's Department has voiced a request for a desperate need of twenty-six new men and ten new cars to patrol our county. We, the undersigned, fully support these requests. We petition you to examine this alarming situation and act deliberately.

On Motion of Commissioner Elton King, seconded by Commissioner Alton B. Pressley,and duly passed, the court approved the payment in the amount of $3440.00 to the State Treasurer as County's portion of installation of safety signals at Pitts Road Railroad Crossing east of Richmond, to be paid from Precinct 4. Agreement as follows:

STATE DEPARTMENT OF HIGHWAYS AND PUBLIC TRANSPORTATION

RAILROAD SIGNAL MASTER AGREEMENT
FOR FEDERAL AID PROJECTS

THIS AGREEMENT, made and entered into this 18th day of July, 19 79, by and between the State of Texas, hereinafter called the STATE, and the Southern Pacific Transportation Company, hereinafter called the RAILROAD.

WITNESSETH:

WHEREAS, the STATE and the RAILROAD propose to install highway-railroad grade crossing warning systems at the crossings shown on the lists marked EXHIBIT L, attached hereto and made a part hereof,

NOW, THEREFORE, in consideration of the mutual undertakings as herein set forth, the parties hereto agree as follows:

16

10

1. RIGHTS. The RAILROAD hereby gives the STATE and certain MUNICIPALITIES the right to install the grade crossing warning systems and to use the crossings across its property at the intersections of the track, highways and streets listed on EXHIBIT L.

2. CONDITIONS. These rights, given hereby, shall not in any way conflict or interfere with any prior or existing rights of the RAILROAD at the crossings. It is agreed that if there are future track modifications at the crossings, the RAILROAD will restore the highways or streets to proper condition and restore the functional operation of the warning systems.

3. PLANS AND DESIGN. The STATE and the RAILROAD agree jointly to prepare plans and estimates based on specifications approved by the STATE for the proposed grade crossing warning systems and after having been approved in writing by the STATE, said plans and estimates are to be marked EXHIBIT B which, by reference to, are to be made a part hereof.

4. RESPONSIBILITIES.

a. The RAILROAD, unless otherwise provided, shall make changes or alterations in the tracks, wire lines, drainage or other facilities located in the crossing rights-of-way which may be required by construction. Such work will include continuous rail and road operation and restoration to former condition upon completion of the projects.

16

b. The STATE shall furnish the MUNICIPALITIES (with jurisdiction over streets and roads not on the State Highway System as shown in EXHIBIT L), appropriate plans which shall be approved by signature upon these plans by the duly authorized official representing the MUNICIPALITY, prior to any work done at the site of the project.

c. The STATE shall make reimbursement to the RAILROAD for all approved work performed, as specified under paragraph 6, "PAYMENTS." The STATE will be reimbursed from Federal funds for these projects; therefore, the RAILROAD hereby agrees to abide by directives established under the following:

(1) Federal Highway Administration, Federal Highway Program Manual (FHPM), Volume 1, Chapter 4, Section 3. (Reimbursement)

(2) Federal Highway Administration, Federal Highway Program Manual (FHPM), Volume 6, Chapter 6, Section 2, Subsection 1. (Railroad-Highway Projects)

(3) Federal Highway Administration, Federal Highway Program Manual (FHPM), Volume 6, Chapter 6, Section 2, Subsection 2. (Insurance)

(4) Title VI of the Civil Rights Act of 1964.

(5) State Department of Highways and Public Transportation current policies and practice on submission of plans, estimates and billings.

and any supplements thereto or revisions thereof, which, by reference hereto, are made a part hereof.

5. CONSTRUCTION. The STATE agrees to furnish such construction stakes and elevations as are required for the installation. The RAILROAD shall commence the installation of the individual projects within two weeks after receipt of WORK ORDER from the STATE for such individual projects, and shall proceed diligently to completion of the installation. Materials and labor required for the installation of the warning systems are to be furnished by the RAILROAD. Materials are to be of the kind and quality detailed in the EXHIBIT B. Assembly of materials should be undertaken sufficiently in advance to assure prompt delivery to the job site. Payment for any expense whatsoever in connection with the project will be contingent upon issuance of a WORK ORDER.

10

6. PAYMENT - ACTUAL COST. Estimates for each individual project shall be furnished to the STATE for review and approval prior to any installation work. These estimates shall be sufficiently detailed to show the work to be done and the materials to be installed.

The RAILROAD may submit monthly bills of at least $500.00 prepared in satisfactory form for work performed and materials installed. Payment will be made for as much as 90% of the costs detailed on the bill.

The RAILROAD will, in any event, submit a complete and final bill, including all costs, when the project is completed and the STATE will pay to the RAILROAD as much as 90% of the costs detailed on the bill.

After the final audit, the STATE will make a final payment of the remaining balance due the RAILROAD.

The RAILROAD may also request, under current STATE policies, payment for materials in reasonable proximity to project, but not in place.

The RAILROAD shall retain adequate cost accounting records for auditing purposes for three years after the final payment.

16

7. MAINTENANCE. The RAILROAD shall maintain and operate these highway-railroad grade crossing warning systems as installed and in accordance with the design of operation as shown in the EXHIBIT B. No changes are to be made in the design, operation or location of the warning systems without the written approval of the STATE or MUNICIPALITY of jurisdiction.

8. All provisions concerning the STATE which are stipulated herein shall automatically cease and terminate upon official completion of the projects and payments of the final bill, where the crossings covered herein are not on the State Highway System. The MUNICIPALITIES of jurisdiction in such case shall assume the rights of the STATE after payment of the final bill.

9. PROJECT ADDITIONS AND CANCELLATIONS. Individual projects may be added to or cancelled from the EXHIBITS L attached hereto and made a part hereof with the mutual consent of the STATE and RAILROAD.

As the Federal Government plans to continue contributing funds for improvement and/or installation of warning devices for at least four years, the STATE may submit additional EXHIBITS L listing additional individual projects to be attached hereto and made a part hereof.

_____, 1981

EPS Real Estate Partnership
1114 River Oaks Bank & Trust Building
Houston, Texas 77019

Gentlemen:

Based upon recent discussions, EPS Real Estate Partnership, a Texas partnership (the "User") desires to acquire and construct an industrial and manufacturing facility, more particularly described in Exhibit 1 attached hereto, in Fort Bend County, Texas (the "Project"), which Project is suitable for the promotion and development of new and expanded industrial and manufacturing enterprises to provide and encourage employment and the public welfare. The Fort Bend County Industrial Development Corporation (the "Corporation"), duly created, approved and authorized by Fort Bend County, Texas (the "Unit") pursuant to the provisions of the Development Corporation Act of 1979, Article 5190.6, Vernon's Texas Civil Statutes Annotated, as amended, (the "Act") is authorized by the Act to issue bonds to finance the costs of "projects", to acquire, construct, improve, equip and furnish, and to lease or sell "projects", as such term is defined in the Act, or to make loans for the purpose of providing financing for all or part of the costs of a project. Accordingly, in order to induce the User to incur expenses for the commencement of such Project and its financing, the Corporation agrees to issue one or more series of its industrial development bonds (the "Bonds") for the purpose of carrying out the public purposes set forth in the Act, upon substantially, and subject to, the following terms:

16

1. The Bonds will be in an aggregate principal amount now estimated not to exceed $5,000,000, and will be issued only pursuant to a resolution or resolutions of the Board of Directors of the Corporation. The Bonds will be issued in such aggregate principal amount, mature at such time or times not exceeding 40 years, bear interest at such rates, and be

EXHIBIT A

subject to such other terms as shall be agreed upon by the User, the Corporation and the buyer of the Bonds.

2. The proceeds of the Bonds will be used for the making of a loan in the amount of all or part of the cost of the Project. The Bonds will be issued in an aggregate principal amount not to exceed the then estimated cost of the Project, including the cost of issuance.

3. The Corporation will lend to the User the net proceeds of the issuance of the Bonds, and the User will execute and deliver to the Corporation, or a trustee, as the case may be, a note or notes in a sum sufficient in the aggregate to pay the principal of, interest on, and redemption premiums, if any, together with fees of a trustee and paying agent, with respect to the Bonds, as and when the same become due and payable, all pursuant to the terms of a loan agreement to be entered into between the User and the Corporation, secured by the interest of the User in the Project.

16

4. The Corporation will enter into a trust indenture with a trustee pursuant to which it will collaterally assign for the benefit of the holders of the Bonds the note payments due to the Corporation from the User.

5. The payment of the Bonds will be guaranteed by the User.

6. The principal of and interest on the Bonds will be secured by a pledge of the revenues and receipts derived by the Corporation from the loan to the User made by the Corporation with respect to the Project and may be secured by a mortgage covering all or part of such Project, including any enlargements of and additions to such Project thereafter made.

7. The principal of and the interest on the Bonds issued by the Corporation will be payable solely from the funds provided for such payment and from

EXHIBIT A

the revenues of the Project. The Bonds will never be deemed to constitute an indebtedness or pledge of the faith and credit of the State of Texas, the Unit, or any other political corporation, subdivision or agency of the State.

8. Costs payable out of Bonds proceeds, as applied to the Project, will include only those items specified in the definition in the Act of the term "Cost" ("Project Costs"). All Project Costs incurred by the Corporation, including legal fees, in connection with the issuance and sale of the Bonds, will be paid from the proceeds of the Bonds. Provision will also be made for the payment by the User of all costs incurred by the Corporation in administering the Bonds subsequent to the issuance through final maturity and payment, and such other payments as will be agreed upon in writing between the User and the Corporation.

16

9. The User agrees, as required by the applicable rules of the Texas Industrial Commission (a) to pay all Project Costs which are not or cannot be paid or reimbursed from the proceeds of the Bonds; and (b) at all times, to indemnify and hold harmless the Corporation against all losses, costs, damages, expenses, and liabilities of whatsoever nature (including but not limited to attorneys' fees, litigation and court costs, amounts paid in settlement and amounts paid to discharge judgments) directly or indirectly resulting from, arising out of or related to the issuance, offering, sale or delivery of the bond or the design, construction, installation, operation, use, occupancy, maintenance or ownership of the Project.

10. The Corporation and the User agree that the Bonds may be issued either at one time or in several series from time to time as the User will request in writing. A request in writing for issuance of one or more series of Bonds will not affect the obligation hereunder of the Corporation to issue the remaining Bonds as written requests therefor are received. The Corporation and User further agree that the proceeds of the Bonds or portions

EXHIBIT A

thereof, whether or not issued in a series, shall not be invested so as to constitute the Bonds or a portion thereof as arbitrage bonds within the meaning of Section 103(c) of the Internal Revenue Code of 1954, amended (the "Code") and applicable regulations promulgated pursuant thereto.

11. It is anticipated that the Project will be leased in whole or in part to Integrated Power Systems Corporation, and the lease payments collaterally assigned to the trustee for the benefit of the holders of the Bonds.

The obligations of the Corporation hereunder are further contingent upon the following: 16

a. An opinion of bond counsel mutually acceptable to the Corporation and the User, to the effect that interest on the Bonds will be exempt from federal income taxation under Section 103(b)(6) of the Code, and such other rulings, approvals, consents, certificates, opinions of counsel, and other instruments, agreements, undertakings and proceedings as are mutually acceptable to the User and to the Corporation. The form and content of all resolutions, contracts, the loan agreement, the trust indenture, and all other documents will be mutually acceptable to the User and the Corporation.

b. The terms of the Bonds shall be as authorized by the Act, and shall be mutually satisfactory to the parties.

c. The Texas Industrial Commission shall give its approval pursuant to the Act.

d. Should no Bonds have been issued pursuant hereto within 12 months from the date hereof, the obligation of the Corporation to issue Bonds will cease.

e. The governing body of the Unit shall have adopted a resolution no more than 60 days prior to the date of delivery of the Bonds specifically approving the resolution of the Corporation providing for the

issuance of the Bonds.

f. The User may, without the consent of the Corporation, transfer or assign this agreement or transfer or assign any or all of its rights and delegate any or all of its duties hereunder to any of its affiliates currently existing or hereafter created, but no such transfer, assignment or delegation shall, without the written consent and approval of the Corporation, relieve the User of its liability for payment of its obligations under Paragraph 9.

g. Compliance with any and all other requirements of law.

This agreement is intended to constitute "some other similar official action" toward the issuance of the Bonds within the meaning of Section 1.103-8(a)(5) of the Treasury Regulations issued pursuant to Section 103(b) of the Code.

Upon issuance of the Bonds, all terms and all obligations of the Corporation, and all other matters, shall be determined as set forth in the documents related thereto, which shall supersede all terms and obligations of this agreement, except for the obligations of the User set forth in Paragraph 9 above, which shall remain in full force and effect.

Upon the acceptance of the User hereof, the Corporation agrees to cooperate with the User with respect to the issuance and sale of the Bonds, and, if arrangements which are satisfactory to the User and the Corporation can be made, the Corporation will authorize the execution of such documents and will take such further actions as may be necessary or advisable for the authorization, issuance and sale of the Bonds, and the User shall pay to the Corporation an amount equal to all reasonable costs so incurred by the Corporation in cooperation with the User should the Bonds not be issued. The User will have no other obligation under this agreement, except for the obligations of the User set forth in Paragraph 9 above, which shall remain in full force and effect.

16

If the terms of this agreement are acceptable, please execute and return the copies attached.

PETITION FOR THE ISSUANCE OF REMAINING BONDS HERETOFORE VOTED FOR FORT BEND COUNTY LEVEE IMPROVEMENT DISTRICT NO. 2 AT SUCH RATE OR RATES OF INTEREST AS MAY BE AUTHORIZED BY LAW

THE STATE OF TEXAS §
§
COUNTY OF FORT BEND §

TO THE HONORABLE COUNTY JUDGE AND COMMISSIONERS' COURT OF FORT BEND COUNTY, TEXAS:

The undersigned (herein the "Petitioners") being Fort Bend County Levee Improvement District No. 2 (the "District") and the owners of a majority of the acreage included in the District (the "Landowners"), acting pursuant to the provisions of Chapter 57, Title 4, Texas Water Code, respectfully petition the County Judge and Commissioners' Court of Fort Bend County, Texas, for the authorization to sell its remaining unissued Bonds herein described (the "Bonds") at such higher rate or rates of interest as may be authorized by law at the time of issuance of each issue or series of bonds and would respectfully show the following:

16

I.

The District was created by the Commissioners' Court of Fort Bend County, Texas, by order dated February 10, 1975.

II.

The District is organized and exists under the terms and provisions of Article XVI, Section 59, Texas Constitution, and Chapter 57, Title 4, Texas Water Code.

III.

The undersigned are Chairman and Secretary of the Board of Directors of the District and the owners of a majority of the acreage included in the District, respectively.

IV.

Pursuant to the provisions of Sections 57.151 through 57.156, Texas Water Code, the engineer's report and survey were submitted and approved by the Texas Water Development Board on August 17, 1976, and adopted by the Board of Directors of the District on September 28, 1976, and December 13, 1976, as the District's Plan of Reclamation. Further, on March 21, 1978, and Amended Plan of Reclamation was approved by the Texas Water Development Board.

V.

Pursuant to orders of the County Judge and of the Commissioners' Court of Fort Bend County, Texas, two elections were held within Fort Bend County Levee Improvement District No. 2 on January 15, 1977, and June 10, 1978 on the question of the issuance of the bonds in the maximum principal amount of $38,720,000 for the purposes set forth in the District's Plan of Reclamation and Amended Plan of Reclamation and in the propositions which were submitted to the

EXHIBIT "A"

voters. The elections resulted favorably to the issuance of said bonds, and the Board has issued four series of said bonds in the aggregate principal amount of $16,800,000.

VI.

The propositions approved at said elections provided that said bonds may be sold at any price or prices and may bear interest at any rate or rates, provided that the net effective interest rate, as defined by Article 717k-2, Vernon's Texas Civil Statutes, as amended, on any issue or series of said bonds shall not exceed ten percent (10%) per annum; and it has been determined that because of economic conditions prevailing generally at this time, the remaining bonds authorized at said elections cannot be sold at a net effective interest rate equal to or less than ten percent (10%) per annum;

VII.

The Landowners and the District now wish to secure authorization from the voters to sell said remaining unissued bonds at such higher rate or rates of interest as may be authorized by law at the time of issuance of each issue or series of said bonds.

VIII.

The Landowners and the District, therefore, request that an election be held in the District to determine whether or not the remaining $21,920,000 unissued bonds may be sold at such higher rate or rates of interest as may be authorized by law at the time of issuance of each issue or series of said bonds. It is requested that at such election the following proposition be submitted:

PROPOSITION

SHALL THE BOARD OF DIRECTORS OF FORT BEND COUNTY LEVEE IMPROVEMENT DISTRICT NO. 2, BE AUTHORIZED, AS NOW OR HEREAFTER PROVIDED BY LAW, TO ISSUE THE BONDS OF THE DISTRICT IN ONE OR MORE ISSUES OR SERIES IN THE MAXIMUM AMOUNT OF $21,920,000 MATURING SERIALLY OR OTHERWISE IN SUCH INSTALLMENTS AS MAY BE FIXED BY SAID BOARD OVER A PERIOD OR PERIODS NOT EXCEEDING THIRTY (30) YEARS FROM THEIR DATE OR DATES, BEARING INTEREST AT ANY RATE OR RATES AND TO SELL SAID BONDS AT ANY PRICE OR PRICES, PROVIDED THAT THE NET EFFECTIVE INTEREST RATE, ON ANY ISSUE OR SERIES OF BONDS SHALL NOT EXCEED THE MAXIMUM LEGAL LIMIT IN EFFECT AT THE TIME OF ISSUANCE OF EACH SUCH ISSUE OR SERIES, ALL AS MAY BE DETERMINED BY THE BOARD OF DIRECTORS OF SAID DISTRICT, FOR THE PURPOSE OR PURPOSES OF ACQUIRING, PURCHASING, BUILDING, CONSTRUCTING, COMPLETING, CARRYING OUT, MAINTAINING, PROTECTING, MODIFYING, REPAIRING, IMPROVING, ADDING TO AND REBUILDING, ALL WORKS, IMPROVEMENTS, FACILITIES, EQUIPMENT, AND APPLIANCES, INTERESTS IN PROPERTY, AND CONTRACT RIGHTS, NEEDED THEREFOR AND ADMINISTRATIVE FACILITIES NEEDED IN CONNECTION THEREWITH, TO PROVIDE A SYSTEM OF LEVEES, DRAINAGE DITCHES, DRAINAGE STRUCTURES, GATES, CULVERTS, BRIDGES, AND OTHER IMPROVEMENTS NECESSARY OR PROPER TO FULLY ACCOMPLISH A RECLAMATION PLAN FOR DRAINING LAND IN THE DISTRICT, RECLAIMING LAND IN THE DISTRICT FROM OVERFLOW OR DAMAGE BY WATERS FROM STREAMS OR RIVERS INSIDE OR ADJACENT TO THE DISTRICT WHICH MAY

IX.

The Sum of Two Hundred Dollars ($200.00) accompanies this petition to cover expenses incident to the requested election and other expenses that may be properly incurred before the Bonds are sold and issued.

X.

Nothing herein shall affect the District's ability to issue the remaining $21,920,000 unissued bonds voted on January 15, 1977, and June 10, 1978 or the ability of the District to levy a maintenance tax as authorized in the election of January 15, 1977, whether or not the election on the issuance of the remaining unissued bonds at such higher rate or rates of interest as may be authorized by law at the time of issuance of each issue or series of said bonds carries or fails.

16

WHEREFORE, the undersigned respectfully pray: that this petition be properly filed as provided by law; that upon filing of this petition, the Honorable Commissioners' Court of Fort Bend County, Texas, if it be in session, and if not, then the Honorable County Judge of Fort Bend County, Texas, order that an election be held within the District for the purpose of submitting to the qualified voters within the District the proposition hereinabove described; that such election order be entered in the minutes of the Commissioners' Court of Fort Bend County, Texas; that the County Clerk be ordered to issue and give to the Sheriff a notice stating in substance the contents of the election order and the time and place of the election; that the Sheriff or his Deputy be directed to post a copy of the notice as required by law by posting notice of such election at the courthouse door and at four (4) different places in the District for at least ten (10) days before the date of the election; that the Sheriff or person posting the notice be ordered to make return to the County Clerk, and that a return by an individual other than the Sheriff be made under oath before some person authorized by law to administer oaths; that the election be held and conducted and returns made to the Commissioners' Court of Fort Bend County, Texas, in accordance with the Election Code of the State of Texas as modified by Chapter 57, Title 4, Texas Water Code; and for such other proceedings and orders as are proper and necessary and appropriate to the issuance of the Bonds and the conduct of the aforesaid election.

Mrs. Joyce Tompkins
County Auditor
Fort Bend County
Richmond, Texas

Dear Joyce:

We are pleased to have this opportunity to propose on assisting you and the County in identifying and rectifying the problems which exist in your area relative to the new data processing system.

Approach and Scope

We will be doing a detailed review of the accounting system and data processing operations as they effect the County Auditor's office. The operations of the tax system are not included in our work. These systems will be documented to the extent we feel is necessary for a through understanding of your problems.

We will then present a report of recommendations for improvements, and will provide supervisory assistance in implementing these recommendations.

In addition, we will present recommendations for implementation of a County Data Processing Steering committee (discussed later in this proposal.)

Our approach will be to assign Mr. Michael Binder, a Supervisor, as project director with overall responsibility for the successful completion of this engagement. He will be assisted by Mr. Claude Mundy who is a senior consultant in our office. Mr. Robert Lemer, a Partner in our firm, will remain as Client Service Executive with responsibility for overall client relationship.

Role of Client Personnel

The successful completion of this engagement will depend to a large degree upon the extent of cooperation of County personnel.

This cooperation will be necessary in three different areas:

1) County Auditor's staff will be required to furnish a major part of the input concerning the present system. This input will take the form of interviews, samples of reports, and other things.

2) Data Processing staff cooperation will be required to furnish information on the current systems and on implementation of the new systems.

3) County executives cooperation will be required in the formation and functioning of the steering committee.

Functions of the Steering Committee

It has been our experience that a properly organized steering committee can be a valuable aid to the successful operations of any data processing project. This committee should be made up of department heads from the various County departments which are impacted by data processing the most. Ideally it should consist of 3-5 people. We will assist in selecting these people and will provide written guidelines as to the proper functioning of the committee.

16

Support by Top County Personnel

A major key to the successful completion of the engagement is the expressed support of senior County executives, department heads, and the Commissioners Court. Because so many of the County's operating departments will ultimately be impacted by data processing, this broad based support is needed.

Progress Reports

During the course of the engagement, periodic reports of progress will be made. The format of these reports will vary depending on the work being done. A major interim report will be the report of recommendations for improvements and a tentative timetable for implementing these improvements. Once the steering committee is established we would anticipate making oral reports of progress to the committee at its regular meetings.

Nature of Final Engagement Output

Because this engagement covers supervising the implementation of our recommendations, the final report we issue will be a summary of the work completed only.

Fees, Timing, and Billing

Our fees for professional services are based upon our estimates of the work involved. Based on the review work we have done to date, we estimate our fees will be $14,000-16,000. Out of pocket expenses are billed in addition to fees for professional services. Should our actual hours incurred be less than we estimated, we will bill you at the lesser rate. Should we run into unexpected problems which we feel would cause our fees to exceed our estimates, we will discuss it with you before proceeding. Billing will be monthly with current payment terms.

We would anticipate beginning work upon receiving approval. The preliminary work and recommendations for improvement would be completed 3-4 weeks after starting. The supervision of the implementation would be done at one-half to one day per week over the next 3-4 months.

Thank you again for this opportunity to propose our assistance to you. You can be assured that if approved we will give this our closest attention. If you have any questions, please contact either Mr. Lemer or Mr. Binder at 751-1200.

16

Very truly yours,

Ernst & Whinney

THE STATE OF TEXAS §

COUNTY OF HARRIS §

THIS AGREEMENT, made and entered into by and between HARRIS COUNTY, a body corporate and politic under the laws of the State of Texas, The City of Missouri City, a municipal corporation under the laws of the State of Texas, hereinafter sometimes referred to as the "City," and Fort Bend County, a body corporate and politic under the laws of the State of Texas, hereinafter sometimes referred to as the "Adjacent County,"

W I T N E S S E T H

WHEREAS, the City has elected to have its population included as a portion of that population of Harris County in Harris County's "urban county" application to the U. S. Department of Housing and Urban Development for the eighth, ninth and tenth years funding for the Community Development Block Grant Program, said application being hereinafter sometimes referred to as the "Grant Application;" and

WHEREAS, the City's area and population is within the boundaries of Harris County and the Adjacent County; and

WHEREAS, Harris County is willing to include all of the City's population and area in the Grant Application and to cooperate with the City in the implementation of the City's Community Development Program; and

WHEREAS, the Adjacent County desire that that portion of the City's population and area located within the boundaries of Adjacent Counties be included in the Grant Application; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at Art. 1269L-4, Tex.Rev.Cit.Stats., which provides, in part, for the authorization of cities to implement a community development program, and

WHEREAS, the Texas Legislature has further enacted "The Interlocal Cooperation Act," codified at Art. 4413 (32c), Tex.Rev.Civ.Stats., which authorizes Harris County to contract with the City and the Adjacent County to perform governmental

functions and services for the City and the Adjacent County; and

WHEREAS, the Congress of the United States of America has enacted the Housing and Community Development Amendments of 1979, Pub. L. No. 96-153, which authorizes at 42 U.S.C.A. §5306(b)(5), Harris County to include in the Grant Application that portion of the City located within the boundaries of the Adjacent County;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That Harris County, the City, and the Adjacent County in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the Adjacent County agree to allow Harris County to include the City's population and area with that of Harris County in the Grant Application, and Harris County agrees to include the same in the Grant Application. Unless otherwise specifically stated herein, said population and area as used in this agreement includes, but is not limited to, that portion of the same which is located within the boundaries of the Adjacent County. The City and the Adjacent County further agree not to include, or permit the inclusion of, in any other application for a grant for a community development program pursuant to the Housing and Community Development Act of 1974, as amended, that portion of the City's population and area located solely within the boundaries of the Adjacent County.

16

II.

The City and the Adjacent County agree to allow the U. S. Department of Housing and Urban Development to use the City's population, area, and other necessary demographic characteristics in the determination of whether Harris County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

III.

Harris County and the City agree to cooperate in undertaking, or assisting in undertaking, essential community renewal and lower income housing assistance activities, specifically urban renewal and publicly assisted housing.

IV.

The City and the Adjacent County acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of

Housing and Urban Development and that no determination has been made at the time of execution of this agreement as to where and for what purposes the eighth, ninth, and tenth years funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that Harris County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such fund for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, Harris County may, in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City and the Adjacent County have received no assurance, written or oral, from Harris County to the contrary, and are aware that the execution of this contract does not constitute any guarantee on the part of Harris County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

16

V.

This agreement shall remain in full force and effect for the entire eighth, ninth, and tenth years funding period covered by the Grant Application (July 1, 1982 through June 30, 1985). The City and the Adjacent County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit Harris County to allow the City and the Adjacent County to withdraw from this agreement or otherwise terminate the term of this agreement at any time after December 1, 1981.

VI.

In the performance of this agreement, the City, Harris County and the Adjacent County shall observe and comply with all applicable Federal, State, County and City statutes, ordinances, rules and regulations.

VII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this agreement for any reason, Harris County may terminate this

agreement by giving written notice of the same to the City and the Adjacent County.

VIII.

This agreement shall be of no force and effect unless and until it is executed by all parties hereto and certified by counsel for all parties hereto on the forms set forth below.

IN TESTIMONY WHEREOF, this instrument has been executed in four originals, each to have the force and effect of an original as follows:

I.

The City and the Adjacent County agree to allow Harris County to include the City's population and area with that of Harris County in the Grant Application, and Harris County agrees to include the same in the Grant Application. Unless otherwise specifically stated herein, said population and area as used in this agreement includes, but is not limited to, that portion of the same which is located within the boundaries of the Adjacent County. The City and the Adjacent County further agree not to include, or permit the inclusion of, in any other application for a grant for a community development program pursuant to the Housing and Community Development Act of 1974, as amended, that portion of the City's population and area located solely within the boundaries of the Adjacent County.

16

II.

The City and the Adjacent County agree to allow the U. S. Department of Housing and Urban Development to use the City's population, area, and other necessary demographic characteristics in the determination of whether Harris County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

III.

Harris County and the City agree to cooperate in undertaking, or assisting in undertaking, essential community renewal and lower income housing assistance activities, specifically urban renewal and publicly assisted housing.

IV.

The City and the Adjacent County acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of

Housing and Urban Development and that no determination has been made at the time of execution of this agreement as to where and for what purposes the eighth, ninth, and tenth years funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that Harris County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such fund for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, Harris County may, in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City and the Adjacent County have received no assurance, written or oral, from Harris County to the contrary, and are aware that the execution of this contract does not constitute any guarantee on the part of Harris County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

16

V.

This agreement shall remain in full force and effect for the entire eighth, ninth, and tenth years funding period covered by the Grant Application (July 1, 1982 through June 30, 1985). The City and the Adjacent County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit Harris County to allow the City and the Adjacent County to withdraw from this agreement or otherwise terminate the term of this agreement at any time after December 1, 1981.

VI.

In the performance of this agreement, the City, Harris County and the Adjacent County shall observe and comply with all applicable Federal, State, County and City statutes, ordinances, rules and regulations.

VII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this agreement for any reason, Harris County may terminate this

12

agreement by giving written notice of the same to the City and the Adjacent County.

VIII.

This agreement shall be of no force and effect unless and until it is executed by all parties hereto and certified by counsel for all parties hereto on the forms set forth below.

IN TESTIMONY WHEREOF, this instrument has been executed in four originals, each to have the force and effect of an original as follows:

14 RE: HEAR REPORT AND CONSIDER TAKING ACTION ON FORT BEND COUNTY GRIEVANCE COMMITTEE RECOMMENDATIONS:

On Motion of Commissioner Johnnie Pustka, seconded by Commissioner Elton King, and duly passed, the court accepted the Grievance Committees' recommendation, raising the Justice of Peace salaries from $21,600.00 to $25,000.00 annually, beginning January 1, 1982.

On Motion of Commissioner W. Lee Schmidt, seconded by Commissioner Alton B. Pressley, and duly passed, the court authorized to raise the Constable Precinct 2, salary from $12,000.00 to $19,800.00 annually beginning 1, 1982.
To be paid for out of the proposed 1982 ending balance of the General Fund.

Grievance Committee report as follows:

FORT BEND COUNTY GRIEVANCE COMMITTEE MEETING,
November 20, 1981

A Grievance Committee composed of County Judge Jodie E. Stavinoha as Chairman, County Tax Assessor-Collector Kathy Norvell Black, County Treasurer M. Elizabeth Williams, County Clerk Pearl Ellett, District Clerk Irene Wleczyk, District Attorney William Meitzen, Sheriff Ervin Hurta, Mrs. Ruth Myers of Missouri City, Texas, Mr. Lewis Smith of Missouri City, Texas, and Mr. Bill Shaver of Sugar Land, Texas met at 9:00 a.m., on November 20, 1981 in the Commissioners Courtroom at the Courthouse Annex, Richmond, Texas for the purpose of hearing grievances from the Justices of the Peace of all four precincts and the Constable of Precinct 2 concerning salaries.

The Justices of the Peace requested an increase in their proposed 1982 salaries from $21,600 to $30,800. This request was rejected by the committee with 5 votes "against and 4 votes "for".

A motion was made by District Attorney Bill Meitzen, seconded by Bill Shaver, that the Justices of the Peace salaries be raised to $25,000 beginning January 1, 1982. This motion carried by a vote of 8 "for" and 1 "against", by Lewis Smith.

During the discussion, it was the feeling of the committee that the Commissioners Court should try to make every effort to increase the salaries of the Justices at a greater percentage each year until those salaries are brought in line with the other elected officials' salaries.

Constable Wesley Oberhoff, Precinct 2, requested that his 1982 salary be raised from $12,000 annually to $19,800 annually which is the salary of the other three Constables. Constable Oberhoff maintained that he was a full-time Constable and therefore deserved full-time pay.

The vote on Constable Oberhoff's request was 8 "for" and 1 "against", by Kathy Black.

The above actions by the Grievance Committee will be submitted to the Commissioners Court as recommendations of this committee.

The Grievance Committee adjourned at 11:15 a.m.

Dear Judge Stavinoha,

I have always enjoyed being a part of such a professional organization as the Fort Bend County Emergency Medical Services. There has been many accomplishments during the past year in upgrading the service to it's present standard; this would not have been possible if not for your support and the support of the Fort Bend County Commissioner's Court.

However, due to personal reasons that have arisen, I respectfully resign as E.M.S. Director, effective December 31, 1981.

PASSED AND APPROVED this _____ day of November, 1981.

AGREEMENT TO ISSUE BONDS

THIS AGREEMENT TO ISSUE BONDS, entered into as of the ____ day of November, 1981, by and between Fort Bend County Industrial Development Corporation (the "Corporation"), created pursuant to the authority of the Development Corporation Act of 1979, Article 5190.6, Vernon's Annotated Texas Civil Statutes, as amended (the "Act"), and Tek-Rap, Inc., a Texas corporation (the "User"), for the purpose of carrying out the public purpose set forth in the Act, including the promotion and development of industrial and manufacturing enterprises to promote and encourage employment and the public welfare;

W I T N E S S E T H:

WHEREAS, Harris County, Texas (the "Unit"), has authorized and approved the creation of the Corporation to act on behalf of the Unit for the public purpose of furthering on behalf of the Unit the promotion and development of industrial and manufacturing enterprises to promote and encourage employment and the public welfare; and

WHEREAS, the Corporation is authorized by the Act to acquire, construct, improve, maintain, equip and furnish and to lease or sell "projects," as such term is defined in the Act, or to make loans for the purpose of providing financing for all or part of the costs of a project, and the Corporation is further authorized to issue its bonds for the purpose of paying all or part of the costs of a project; and

WHEREAS, the User desires to acquire and construct a facility, more particularly described in Exhibit "A" attached hereto, within the Unit (the "Project"), which Project is suitable for the promotion of manufacturing and industrial development and expansion, the promotion of employment in the Unit and for use by manufacturing or industrial enterprises; and

WHEREAS, pursuant to the Act, the Corporation is authorized to issue the bonds hereinafter described, which bonds shall never constitute an indebtedness or pledge of the faith and credit of the State of Texas (the "State"), of the Unit, or of any other political corporation, subdivision or agency of the State within the meaning of any State constitutional or statutory provision, shall never be paid in

13

whole or in part out of any funds raised or to be raised by taxation or any other funds of the Unit, and shall never be paid in whole or in part out of any funds of the Corporation except those derived from or in connection with the sale or lease of the Project or the loan of funds to finance the Project; and

WHEREAS, to promote and encourage employment and the public welfare, the Corporation agrees to issue at the request of the User, one or more series of the Corporation's industrial development revenue bonds (the "Bonds") for the purpose of paying all or part of the cost of constructing and acquiring the Project, or for the purpose of loaning the proceeds to the User in order to provide temporary or permanent financing of all or part of the cost of constructing and acquiring the Project, and the Corporation and the User deem it desirable and proper that this Agreement to Issue Bonds constitute a formal record of such agreement and understanding in order that the User may proceed with or provide for the acquisition and construction of the Project; and

16

WHEREAS, the User has evidenced a desire to cooperate with the Corporation in the acquisition and construction of the Project and for the Corporation to authorize and issue the Bonds in the aggregate principal amount now estimated not to exceed $6,000,000 to provide the funds to defray all or part of the cost of the acquisition and construction of the Project; and

WHEREAS, the Corporation and the User contemplate that the Project will be sold on an installment payment basis or leased to the User or that proceeds of the Bonds will be loaned to the User in order to provide temporary or permanent financing of all or part of the costs of the Project and that the installment purchase, rental or loan payments therefor will be sufficient to pay the principal of and any premium and interest on the Bonds; and

WHEREAS, it is the desire of the Corporation that the acquisition and construction of the Project occur at the earliest possible time so as to promote and encourage employment and the public welfare within the Unit; and

WHEREAS, it is intended that this Agreement to Issue Bonds shall constitute "some other similar official action" toward the issuance of the Bonds within the meaning of

Section 1.103-8(a)(5) of the Treasury regulations issued pursuant to Section 103(b) of the Internal Revenue Code of 1954, as amended (the "Code");

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration and of the mutual benefits, covenants and agreements herein expressed, the Corporation and the User agree as follows:

1. The User shall commence with the acquisition and construction of the Project, which Project will be in furtherance of the public purposes of the Corporation and the Unit as aforesaid, and the User will provide, or cause to be provided, at its expense, the necessary interim financing to expedite the commencement of the acquisition and construction of the Project. On or prior to the issuance of the Bonds, the User will enter into a purchase, lease or loan agreement on an installment payment basis (herein called the "Agreement") with the Corporation under which the Corporation will sell or lease the Project to the User or make a loan to the User for the purpose of providing temporary or permanent financing of all or part of the costs of the Project and the User will make installment payments sufficient to pay the principal of and any premium and interest on such series of Bonds. The Bonds shall never constitute an indebtedness or pledge of the faith and credit of the State, of the Unit, or of any other political corporation, subdivision or agency of the State within the meaning of any State constitutional or statutory provision, and the Bonds shall never be paid in whole or in part out of any funds raised or to be raised by taxation or any other funds of the Unit, and shall be payable from the funds of the Corporation derived from or in connection with the sale or lease of the Project or the loan of the proceeds of the Bonds.

16

2. On receipt of a ruling from the Internal Revenue Service (or the opinion of nationally recognized bond counsel) that interest paid on the Bonds is exempt from federal income taxation, the Corporation hereby agrees to issue, pursuant to the terms of the Act, the Bonds, or from time to time the portion thereof as may be the subject of such a ruling or opinion as aforesaid, in an appropriate principal amount not exceeding that which is the subject of a ruling or opinion as aforesaid, maturing in such amount and times, bearing interest at the rates, payable on the dates and having such optional and mandatory redemption features and

prices as are approved in writing by the User. The Corporation will deliver the Bonds to the purchaser designated by the User and will cooperate to the fullest extent in facilitating delivery of the Bonds.

3. The Corporation and the User agree that the Bonds may be issued either at one time or in several series from time to time as the User shall request in writing; provided, however, that the parties agree that the Bonds will be issued in an aggregate principal amount as will not exceed the amount which is the subject of a ruling or rulings or opinion or opinions as aforesaid. A request in writing for issuance of one or more series of Bonds shall not affect the obligation hereunder of the Corporation to issue the remaining Bonds as written requests therefor are received. It is further agreed that the proceeds of the Bonds or portions thereof whether or not issued in a series, shall not be invested so as to constitute the Bonds or a portion thereof as arbitrage bonds within the meaning of Section 103(c) of the Code and applicable regulations promulgated pursuant thereto.

16

4. The payment of the principal of and any premium and interest on the Bonds shall be made solely from moneys realized from the sale or lease of the Project or from moneys realized from the loan of the proceeds of the Bonds to finance all or part of the costs of the Project.

5. The costs of the Project (hereinafter the "Project Costs") may include any cost of acquiring, constructing, reconstructing, improving and expanding the Project. Without limiting the generality of the foregoing, the Project Costs shall specifically include the cost of the acquisition of all land, rights-of-way, property rights, easements and interests, the cost of all machinery and equipment, financing charges, interest prior to and during construction and for one year after completion of construction whether or not capitalized, necessary reserve funds, costs of estimates and of engineering and legal services, plans, specifications, surveys, estimates of cost and of revenue, other expenses necessary or incident to determining the feasibility and practicability of acquiring, constructing, reconstructing, improving and expanding the Project, administrative expenses and such other expenses as may be necessary or incident to the acquisition, construction, reconstruction, improvement and expansion of the Project, the placing of the Project in

13

operation and all incidental expenses, costs and charges relating to the Project not enumerated above. The parties agree, upon request, to provide or to cause to be provided to each other any data or information which may be reasonably required to verify any of the Project Costs enumerated in this paragraph. The User agrees that it will be responsible for and pay any Project Costs incurred prior to issuance of the Bonds and will pay all Project Costs which are not or cannot be paid or reimbursed from the proceeds of the Bonds.

6. The User agrees that it will at all times indemnify and hold harmless the Corporation and the Unit against all losses, costs, damages, expenses and liabilities (collectively referred to hereinafter as "Losses") of whatsoever nature (including, but not limited to, attorneys' fees, litigation and court costs, amounts paid in settlement and amounts paid to discharge judgments) directly or indirectly resulting from, arising out of or relating to one or more Claims, as hereinafter defined, even if such Losses or Claims, or both, directly or indirectly result from, arise out of or relate to, or are asserted to have resulted from, arisen out of or related to, in whole or in part, one or more negligent acts or omissions of the Corporation or the Unit or any of the officers, employees, agents, servants or any other party acting for or on behalf of the Corporation or the Unit. The term "Claims" as used herein shall mean all claims, lawsuits, causes of action and other legal actions and proceedings, involving bodily or personal injury or death of any person or damage to any property (including, but not limited to, persons employed by the Corporation, the Unit, the User or any other person and all property owned or claimed by the Corporation, the Unit, the User, any affiliate of the User or any other person) or involving damages relating to the issuance, offering, sale or delivery of the Bonds brought against the Corporation or the Unit or to which the Corporation or the Unit is a party, even if groundless, false or fraudulent, that directly or indirectly result from, arise out of or relate to the issuance, offering, sale or delivery of the Bonds or the design, construction, installation, operation, use, occupancy, maintenance or ownership of the Project or any part thereof. The obligations of the User shall apply to all Losses or Claims, or both, that result from, arise out of or are related to any event, occurrence, condition or relationship prior to termination of this Agreement to Issue Bonds, whether such Losses or Claims, or both, are asserted prior

16

to termination of this Agreement to Issue Bonds or thereafter. Neither the Corporation nor the Unit shall be liable to the User for, and the User hereby releases each of them from, all liability to the User for any injuries, damages or destruction to all or any part or parts of any property owned or claimed by the User that directly or indirectly result from, arise out of or relate to the issuance, offering, sale or delivery of the Bonds or the design, construction, installation, operation, use, occupancy, maintenance or ownership of the Project or any part thereof, even if such injuries, damages or destruction directly or indirectly result from, arise out of or relate to, in whole or in part, one or more negligent acts or omissions of the Corporation or the Unit or any of the officers, employees, agents, servants or any other party acting for or on behalf of the Corporation or the Unit. The Corporation and the Unit, as appropriate, shall reimburse the User for payments made by the User to the extent of any proceeds, net of all expenses of collection, actually received by them from any insurance with respect to the Loss sustained. The Corporation and the Unit shall have the duty to claim any such insurance proceeds and the Corporation and the Unit, as appropriate, shall assign their respective rights to such proceeds, to the extent of such required reimbursement, to the User. In case any action shall be brought against the Corporation or the Unit, in respect of which indemnity may be sought against the User, the indemnified party shall promptly notify the User in writing and the User shall have the right to assume the investigation and defense thereof including the employment of counsel and the payment of all expenses. The indemnified party shall have the right to employ separate counsel in any such action and participate in the investigation and defense thereof, but the fees and expenses of such counsel shall be paid by the indemnified party unless the employment of such counsel has been authorized by the User. The User shall not be liable for any settlement of any such action without its consent but, if any such action is settled with the consent of the User or if there be final judgment for the plaintiff of any such action, the User agrees to indemnify and hold harmless the Corporation and the Unit from and against any Loss by reason of such settlement or judgment. The provisions of this paragraph shall survive the expiration or termination of this Agreement to Issue Bonds.

16

7. If within three (3) years from the date hereof (or such later date as shall be mutually satisfactory to the Corporation and the User) the Corporation and the User shall

not have agreed to mutually acceptable terms for the Bonds and for the sale and delivery thereof and mutually acceptable terms and conditions of the Agreement, the User agrees that it will pay the Corporation for all unpaid Project Costs which the Corporation shall have incurred and this Agreement to Issue Bonds shall thereupon terminate. In the event that the User elects, prior to any such termination, not to proceed with the issuance of the Bonds for any reason, it shall so notify the Corporation in writing and shall promptly pay to the Corporation all Project Costs incurred by the Corporation prior to such notification, and if payment is so made, the User's obligations under paragraph 5 above shall terminate from and after the date of such notification.

8. The User may, without the consent of the Corporation, transfer or assign this Agreement to Issue Bonds or transfer or assign any or all of its rights and delegate any or all of its duties hereunder to any of its subsidiaries or affiliates currently existing or hereafter created, but no such transfer, assignment or delegation shall, without the written consent and approval of the Corporation, relieve the User of its liability for payment of Project Costs under paragraphs 5 and 7 hereof or indemnification under paragraph 6 hereof.

This Agreement to Issue Bonds and accompanying authorizing resolution shall be deemed and construed a resolution authorizing the issuance of the Bonds and other similar official action of the Corporation, acting by and through its Board of Directors, toward the issuance of the Bonds as herein contemplated. 16

NOW, THEREFORE, THIS CONTRACT, made and entered into by and between the County of Fort Bend, Texas, a body politic and corporate, acting herein, and by and through the Commissioners Court, joined by the State Property Tax Board of the State of Texas, hereinafter styled First Party, and Lester Van Slyke, Jr. and Steven John Gilbert of the County of Fort Bend, State of Texas, hereinafter styled Second Party:

WITNESSETH

I.

First Party agrees to employ and does hereby employ Second Party to enforce by suit or otherwise, and to aid and assist the local officers in the enforcement of the collection of all delinquent State and County ad valorem taxes, penalty and interest, and all delinquent taxes, penalty and interest (except taxes of independent school districts and incorporated cities and towns collected by the County Tax Collector on a separate tax roll) due any and all political subdivisions or defined districts of said county and State which are listed on the County tax roll and which the County Tax Collector receives and receipts for, under the provisions of Article 7254, Revised Statutes, 1925, and shown to be delinquent upon the

6

delinquent tax records of said county from 1939 to the date of the termination of this contract as fixed in Section IX hereof (including such personal property or insolvent taxes as the Commissioners Court and Second Party mutually deem collectible.)

II.

Taxes which become delinquent during the term of this contract shall become subject to the terms of this contract on July 1st of the year in which the same shall become delinquent. And further, with reference to taxes which may have fallen delinquent on February 1st or subsequent thereto next preceding the date of this contract, it is agreed that where suit is or has been brought on any property for prior years delinquent taxes, Second Party shall include in his action all taxes on the property involved, delinquent before trial, whether before or after July 1st of such year; and where the State and County are impleaded or intervene in a suit brought by another taxing unit, it shall be Second Party's duty to include in his answer or intervention all taxes delinquent before trial on the property involved, regardless of when such taxes become delinquent; in all such cases Second Party shall be entitled to the commission herein provided for collecting delinquent taxes.

III.

16

Second Party is to call to the attention of the County Tax Collector or other officials any errors, double assessments, or other discrepancies coming under his observation during the progress of the work and all charges on the tax rolls that show from 1939 to the date of the termination of this contract to be delinquent, which are caused through error, conflicts, double renditions, illegal assessments, etc. A certificate shall be prepared on forms furnished by the State Property Tax Board, Austin, Texas, showing how such errors came about, and which shall be sufficiently full and complete as to justify the Commissioners Court in ordering a certificate issued, and that will meet with the approval of the State Property Tax Board, Austin, Texas.

IV.

Second Party hereby agrees and obligates himself to communicate with each and every person, firm, association or corporation owing any of such taxes, with a view of collecting same; and shall, before filing suits for the recovery of delinquent taxes for any year or years prepare delinquent tax statements, and shall mail a tax notice to the owner or owners of said property at their last known address, covering all delinquent taxes shown to be due on the tax rolls of said county. This tax notice shall state the year or years delinquent, the amount of tax, penalty and interest due up to the date the tax notice is mailed and a correct description of the property. Second Party shall keep adequate records of the tax notice mailed so that the Tax Assessor-Collector of said county can verify that such notices were mailed. Once the tax notice has been mailed to the owner or owners as shown on the tax roll, the records of tax notices mailed and the tax statement shall be made available upon request to the Tax Assessor-Collector of said County at the Tax Assessor-Collector's office for his information and use. In the event that the taxes, together with penalty and interest, are not paid within thirty (30) days from the date such notices are mailed, then Second Party shall prepare, file and institute, as soon as practical therafter, a suit for the collection of said taxes, penalty and interest, which suit shall include all past due taxes for all previous years on such tract or tracts; and where there are several lots in the same addition or subdivision delinquent, belonging to the same owner or owners, all said delinquent lots shall be made the subject of a single suit, and which suit shall be prosecuted with dispatch to final judgment and sale unless said taxes are sooner collected.

V.

Second Party, in preparation for mailing notices for the enforced collection of delinquent taxes on real property, shall, on the tax statements prepared under Section IV, show the amount of delinquent taxes due against each and every tract, lot or parcel of land, and shall show the number of acres

so delinquent and a correct description of the property, the year or years delinquent, and how it was charged upon the tax roll. This statement shall further contain the name of the owner or owners of the property at the time it became delinquent as indicated by the delinquent tax records.

Further when suit becomes necessary this statement shall also indicate the current owner, the Volume and Page of public record of his or their Deed or other title evidence which is of record and any other pertinent information gained through a diligent search. It shall further show the name of any and all outstanding lien-holders of record, and all other information necessary for the proper preparation and filing of suit or suits for the collection of delinquent taxes. Second Party shall perform these services at his own cost and expense; however, where it is necessary to file suit for the enforced collection of delinquent taxes on real property, Second Party shall have the authority to procure on behalf of First Party the necessary additional data and information as to the name, identity and location of necessary parties and in the procuring of necessary legal descriptions of the property and may sue in the name of First Party for the recovery of the actual cost of this information as court costs, as authorized by Article 7345B, Section 6, Vernon's Annotated Civil Statutes. It is agreed and understood that First Party will not be liable for any of the above mentioned cost.

VI.

Second Party shall prepare, or aid and assist the County or District Attorney in preparing, all petitions, citations, notices by publication, personal service citations, notices by posting, judgments, notices of sale, orders of sale and any and all other things necessary or required to be done for the collection of all delinquent taxes, and shall render all necessary and proper assistance to each of the other officers to the end that all taxes assessed or unknown and unrendered now delinquent, or that may become delinquent during the life of this contract and be so reported on State Property Tax Board forms provided therefor, may be collected; and when collections are not made, to assist in reducing same to final judgment and sale.

VII.

It is further agreed and understood that Second Party shall furnish, at his own expense, all stationery, legal blanks or forms, stamps, envelopes and printing, together with all labor necessary to complete said contract including labor and expense incurred in procuring date and information as to the name, identity and location of necessary parties, and in procuring necessary legal descriptions of the property as provided in Paragraph V in all cases where such expenses are not collected as costs against the defendant or defendants in the tax suit, but in no event shall such cost be paid to Second Party, either directly or indirectly; and Second Party shall pay off and discharge any and all bills for any other expenses incurred in the prosecution of said work, and it is hereby understood and agreed that said First Party shall not be responsible for the payment of such expense or any part thereof. However, expenses incurred in citing the defendant(s) by publication will be paid by the County to the newspaper making such publication as soon as practicable after receipt of the publisher's claim for payment pursuant to Article 7345(b)-2, V.C.S. Provided further that no costs shall be incurred for publications without prior approval of First Party's governing body.

VIII.

First Party agrees to pay to Second Party as compensation for the services hereunder required 15% percent (not to exceed fifteen (15) percent) of the amount collected of all delinquent taxes, penalty and interest subject to this contract actually collected and paid to the Collector of Taxes during the term of his contract, which Second Party is instrumental in collecting, including collection of taxes on property not appearing on the assessment rolls nor shown delinquent, but which would have been so shown had it been properly assessed, discovered by said Second Party, as and when collected, following the end of each month within the period of this contract, accordingly as the Collector makes up his

monthly reports. The percent of compensation here referred to shall be contingent upon the collection of such taxes as by Act of the Legislature are required to be collected. Should any remission of penalty and interest on taxes appearing on the delinquent records be made by legislative enactment effective during the period of this contract, the same shall not be collected nor commission allowed thereon. Also, ad valorem taxes, delinquent, levied against State-owned property for county and district purposes, the payment of which is to be taken care of by legislative appropriation provided for by Statute, are excluded from the provisions of this contract. Second Party shall not receive or collect any taxes, penalty or interest under this contract, but the same shall be paid to the Tax Assessor-Collector as other delinquent taxes.

IX.

This contract shall be in force from 1/1 19 82, to 12/31 19 82, both dates inclusive, (not to exceed beyond December 31, 1982, the end of the present administration of the Commissioners' Court), and at the expiration of said period this contract shall terminate, except the contractor shall be allowed six (6) months in which to prosecute to trial court judgment suits filed prior to 12/31 19 82, terminating date of this contract, and shall handle to conclusion all suits in which trial court judgments are obtained during the period of this contract and which are appealed by any party. Further, if the Parties execute a renewal or extension contract within 30 days after the above termination date, Second Party is entitled to the compensation provided in Section VIII for 30 days after the above expiration date. The Commissioners' Court and the State Property Tax Board shall have the right to sooner terminate this contract for cause, giving thirty (30) days written notice of such intention, with a statement of the cause or reasons for such termination, after giving Second Party a reasonable opportunity of explaining or rectifying the same. In case of such termination, Second Party shall be entitled to receive and retain all compensation due up to the date of said termination.

16

X.

Before any commissions are paid out under the terms of this contract, Second Party shall furnish a good and sufficient bond, payable to the County Judge and to his successors in office, in the sum of $500.00 Dollars, (not to be less than $250.00 accordingly as the Commissioners' Court deems just and proper) to be executed by a solvent surety company; or if executed by private parties, the bond shall be signed by at least three good and sufficient sureties owning unencumbered real estate subject to execution, of value equal to the amount of bond and conditioned upon the specific performance of the terms hereof, and further conditioned that he shall forthwith pay over to the Tax-Collector, or other persons justly entitled thereto, any money or commissions paid him by mistake, through error, or otherwise. Said bond shall be approved in open Commissioners' Court, signed by the County Judge, filed and recorded in the County Clerk's office, and a certified copy of same furnished to the State Property Tax Board.

XI.

At the end of each month, or as soon thereafter as the Tax Assessor-Collector shall have made up his report showing collections made for such month, the County Tax Assessor-Collector is hereby authorized and directed to deduct the above specified percent of said taxes, penalty and interest, or such amount as can be allowed under the penalty and interest restriction, to which Second Party is entitled, and to pay the same to him unless otherwise herein directed, and to take his receipt as provided for by the State Property Tax Board, which when received in the Board's office will be the Board's authority to allow said Tax Assessor-Collector credit for the amount so paid. The Tax Assessor-Collector, before complying with the provisions of this Section, shall first satisfy himself that the bond required of Second Party under the provisions of Section X of this contract has been approved and placed on record in the office of the County Clerk and that this contract has been approved by the State Property Tax Board and the Attorney General; and it is hereby further provided, that should any questions arise regarding commission or an

amount equal thereto, placing the same in escrow, and apply to the State and County, accordingly as they may be affected, for information and direction as to the proper amount of commission due to be allowed under the terms of this contract.

XII.

It is further agreed and understood that this contract is for personal services and is not transferable or assignable without the written consent and approval of First Party. It is also agreed that the Commissioners' Court of said county shall furnish suitable space in or near the courthouse, as convenient to the records of said county as may be, for the purpose of carrying out the obligations of this contract by Second Party.

XIII.

It shall be the duty of the Commissioners' Court and of all other officials of said county to cooperate with and render such reasonable assistance to said Second Party as the circumstances may require. Said assistance, however, is not to include the actual performance of the work herein designated to be performed by Second Party; and it being the duty of the County Attorney or of the District Attorney (where there is no County Attorney) to actively assist Second Party in the filing and pushing to a speedy conclusion all suits for the collection of delinquent taxes, it is hereby provided that where the County Attorney or District Attorney (where there is no County Attorney) shall fail or refuse to file and prosecute such suits in good faith, the Attorney prosecuting suits under this contract is here fully empowered and authorized to proceed with such suits without the joinder and assistance of said County or District Attorney. Second Party shall not become the purchaser of any property at tax sales under his contract, nor shall Second Party benefit directly or indirectly from the performance of this contract except to the extent of compensation provided in Paragraph VIII of this contract.

IN CONSIDERATION of the terms and compensation herein stated, the Second Party hereby accepts said employment and undertakes the performance of said contract as above written.

WITNESS the signature of all parties hereto in triplicate originals, this the 14 day of December, A.D. 1981, Fort Bend County, State of Texas.

THE STATE OF TEXAS §
COUNTY OF FORT BEND §

THIS AGREEMENT, made and entered into by and between SUGAR CREEK HOMES ASSOCIATION, a corporation duly organized and existing under the laws of the State of Texas, and FORT BEND COUNTY, a body corporate and politic under the laws of the State of Texas.

W I T N E S S E T H :

16

WHEREAS, SUGAR CREEK HOMES ASSOCIATION desires to have five (5) Deputies of the Sheriff devote substantially all of their working time to the area known as SUGAR CREEK in Fort Bend County, Texas; and

WHEREAS, the Sheriff of Fort Bend County does not have a sufficient number of deputies, nor an adequate budget, to enable him to permit or require a deputy to devote substantially all his working time to said area; and

WHEREAS, SUGAR CREEK HOMES ASSOCIATION is willing to pay FORT BEND COUNTY an amount equal to the salary and expenses of five (5) deputies of the Sheriff so as to enable the Sheriff to appoint five (5) deputies for such purpose;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That in consideration of the mutual covenants, agreements and benefits to both parties, it is AGREED as follows:

I.

FORT BEND COUNTY agrees to authorize the Sheriff of Fort Bend County to appoint or continue to keep five (5) additional deputies effective January 1, 1982 so as to enable (but not require) the Sheriff to appoint or continue to keep five (5) deputies to devote substantially all their working time to the area known as SUGAR CREEK in Fort Bend County, Texas so as

to permit 24-hour daily duty in the area known as SUGAR CREEK. FORT BEND COUNTY agrees to provide the motor vehicle to be used by the Sheriff's deputies together with the cost of maintenance, gasoline and other repairs for patrol use at SUGAR CREEK.

II.

SUGAR CREEK HOMES ASSOCIATION agrees to pay FORT BEND COUNTY One Hundred Twenty Two Thousand One Hundred ($122,100.00) Dollars to be used by FORT BEND COUNTY for the purpose of paying the salaries, the expenses of said deputies of the Sheriff and expenses of a motor vehicle for a period of one year beginning January 1, 1982 and ending December 31, 1982. The said sum of $122,100.00 shall be due and payable in twelve (12) equal installments of $10,175.00. The first monthly installment shall be due and payable on or before the 1st day of January, 1982 and each installment thereafter shall be due and payable on or before the 1st day of each and every month for a total of twelve (12) consecutive months.

III.

It is expressly understood and agreed that such deputies (if such deputies are employed by the Sheriff) shall be subject to the control and supervision of the Sheriff to the same extent as other deputies, and that such deputies, if any, shall have no duty or obligation to SUGAR CREEK HOMES ASSOCIATION or SUGAR CREEK other than those duties and obligations which they have to the public generally; provided, however, except for the purpose of emergencies, it is intended that at least one of the Sheriff's deputies shall remain on patrol in SUGAR CREEK during such deputy's entire 8-hour shift and each successive shift of deputies to remain in SUGAR CREEK so as to provide 24-hour, 7-day-a-week patrol in SUGAR CREEK.

IV.

It is further understood and agreed that this agreement is not intended (nor shall it be construed) to obligate the Sheriff of Fort Bend County in any manner whatsoever, and that FORT BEND COUNTY shall have no liability whatsoever to SUGAR CREEK HOMES ASSOCIATION other than to refund the money paid by SUGAR CREEK HOMES ASSOCIATION to FORT BEND COUNTY pursuant to the agreement, if the Sheriff does not assign five (5) deputies of the Sheriff to devote substantially all their working time to said area. If one or more deputies are removed from such assignment or if for some other reason five (5) deputies do not devote substantially all their working time to said area for the entire one year term, then in that event, SUGAR CREEK HOMES ASSOCIATION shall be obligated to pay FORT BEND COUNTY only that proportionate part of this total contract consideration that is equal to that portion of the one year period that five (5) deputies devoted substantially all their working time to said area, or the proportionate amount thereof based upon the number of said deputies which do devote substantially all of their working time to said SUGAR CREEK area, and if the amount paid by SUGAR CREEK HOMES ASSOCIATION to FORT BEND COUNTY exceeds said amount, then SUGAR CREEK HOMES ASSOCIATION shall be entitled to a refund from FORT BEND COUNTY of the excess amount paid for the preceding month.

16

V.

The Sheriff of Fort Bend County will furnish SUGAR CREEK HOMES ASSOCIATION a monthly report of the activities of his deputies in SUGAR CREEK during the preceding month, with the form and details of such monthly report to be at the Sheriff's discretion. Said montly report shall also advise the approximate percent of working time the five (5) deputies devoted to the SUGAR CREEK area during such preceding month, and SUGAR CREEK HOMES ASSOCIATION will remit its contract monthly installment payment for the current month in the same proportion to agree with the same percent of such working time for the prior month. The consideration in this contract is based upon 100% of such estimate service

cost to FORT BEND COUNTY and the parties desire that the five (5) deputies will be able to devote substantially all their working time to the SUGAR CREEK area, but realize that such may not be possible and have therefore so provided for such payment adjustment when required by such facts.

VI.

It is further agreed and provided that in the event the salary cost per sheriff deputy paid by FORT BEND COUNTY should be increased during the term of this Agreement, then the amount of consideration to be paid by SUGAR CREEK HOMES ASSOCIATION to FORT BEND COUNTY monthly under the terms hereof shall be increased by the amount of said salary increase for the remainder of the term of this Agreement beginning at the effective date of said salary increase. Said salary cost per sheriff deputy shall include the monthly salary paid the deputy, plus cost of his retirement, social security, and insurance benefit that is paid by FORT BEND COUNTY. In the event of such increase, then FORT BEND COUNTY shall notify SUGAR CREEK HOMES ASSOCIATION as to the amount and effective date thereof.

Dear Sir:

We have recently made a traffic and engineering investigation at the above named location to determine if conditions warrant the installation of a traffic signal. It is our opinion that signals will be warranted in the near future and that we plan to include traffic signals in the roadway widening project which will be let soon.

In the meantime, there does exist a severe traffic problem due to the very tight radius of the Dulles intersection in the northwest quadrant of this intersection. In order to minimize this problem we would be happy to issue a permit to Fort Bend County to extend the drainage structures and improve the radius in that area, should you wish to do the physical work. It is our opinion that such an improvement would significantly improve the operation of the intersection for the school buses and would be the minimum improvement warranted at the present time.

Very truly yours,

RETIREMENT:

Mandatory Retirement with Fort Bend County shall be governed by State and Federal laws and regulations.

The County joined the Texas County and District Retirement System on January 1, 1972. The employee contribution to this system is 7% of gross salary which is deducted from the employee's pay check, and is matched with County funds of 7%.

Should an employee leave the employment of the County prior to qualifying for retirement benefits, that employee shall have the right to apply for a refund of the employee's contribution to the system along with interest earned on his contribution. The employee shall not be entitled to the County's portion contributed to the system on his behalf should the employee withdraw from the system.

Each full-time employee of the County MUST become a member of the Retirement System upon the first day of the month following the date of employment. Exception: New employees sixty years old or older have the option of entering the retirement system.

Full details regarding the Retirement System are available through your Department Head, the Auditor's office or the Personnel Office of the County.

HOSPITALIZATION INSURANCE:

All full-time County employees are provided hospitalization insurance for self and family. Life and accidental death and dismemberment insurance for employee - both of these are provided at no cost to the employee.

NAME OF INSURANCE COMPANY: REPUBLIC NATIONAL LIFE INSURANCE CO.

NAME OF LOCAL AGENT OF RECORD: RAYMOND CHACHERE

LIFE INSURANCE COVERAGE:

Employee Life Insurance- A.D. & D. : $10,000.00

Elected & Appointed Officials- A.D. & D.: $15,000.00

Each insured employee receives his or her own individual insurance policy: which sets forth in detail the coverage afforded.

LONGEVITY PAY:

To reward all employees including elected officials for loyalty to the County we have longevity pay. For each year that a person works for the County he will be paid an extra five dollars a month. This amount will be added automatically to the persons check on his anniversary month of employment.

This policy went into effect in April of 1979 and at that time employees were credited with a maximum of three years of longevity pay regardless of length of prior service.

MILITARY LEAVE:

Full-time, permanent employees of the County may receive leave with partial pay if ordered to annual training duty in the National Guard or any Armed Forces Reserve Unit of the United States Government. Leave for military duty with pay and without loss of other benefits is limited to fifteen days per year. Part-time, temporary and probationary employees may receive time off for military duty without pay.

The maximum compensation paid to an employee on military leave is the difference between his/her regular salary as an employee of the County and the compensation received by the employee for active duty with the reserves. In order to qualify for this benefit, the employee must submit the appropriate certifications and documents verifying both the amount of compensation received and the period of the training duty.

16

Military leave must be approved in advance, and employees should notify their supervisors as soon as possible after receiving their orders to report to training camp.

Additional days off without pay may be granted for emergency duty documented by the military. In the event an employee is called into active service as the result of a National Emergency, the County's policies concerning military leave shall be governed by all applicable Federal laws.

EMPLOYEE TERMINATION AND SUBSEQUENT RE-EMPLOYMENT

Any termination of County employment for a period of ninety days or longer will cancel the accrual of benefits which have not theretofore been vested. Re-employment after the termination of said period or longer is treated as new employment. Any benefits which accrue on the basis of length of County employment may not be had except as any new employee qualifying for said benefits. If the employee draws out his/hers retirement funds upon termination he/she relinquish all County benefits.

If an employee transfers from one department to another and no break in time occurs during the transfer a new physical is not required. If any length of time occurs during the transfer the employee must take another physical.

16

HOLIDAYS:

At the regular session of the Commissioners Court of Fort Bend County on the second Monday in January each year the Commissioners will set the holiday schedule for the County. If any of these days fall on a Sunday, the following Monday will be observed. If any of these days fall on Saturday, the prededing Friday will be observed.

16

MATERNITY LEAVE

Expectant mothers may continue to work as long as they can perform their duties adequately and the work does not endanger their health. Employees on maternity leave may elect to use accumulated sick leave or paid vacation time during their absence from work. They may also request maternity leave without pay, or they may elect to resign. The time when an expectant mother should cease work or return to work will be determined on an individual basis upon the advise of a physician, and depends on the physical condition of the employee and the nature of her job.

The County may, as in the case of all employees on sick leave, require an employee requesting maternity leave (or sick leave) to submit a certificate from a physician verifying her disability for the period in which the employee cannot or should not perform her job. Requests for maternity leave without pay up to 30 days beyond the medically certified period of " temporary disability" may be granted by the County Judge. Requests for more than thirty days leave for this purpose must be approved by the County Judge.

16

Any illness or other incapacitation resulting from pregnancy, miscarriages, abortion, childbirth, or recovery therefrom will be treated as a " temporary disability" for the period in which the employee cannot or should not (on medical advice) perform her job, and the County's regular sick leave policy shall apply.

An employee taking maternity leave shall not lose any of the benefits she has accrued as a County employee provided she returns to work on the first day of business after the medically certified period.

All maternity leave in excess of accumulated sick leave and vacation time is taken without pay. Employees do not earn additional benefits while on maternity leave. Only full-time, permanent employees of the County are eligible to take maternity leave.

DEFERRED COMPENSATION:

Deferred Compensation is a benefit available to public employees of cities, counties, and states. This benefit is not available to employees in private industry. Fort Bend County has joined the National Association of Counties Deferred Compensation Program that provides you, as a Fort Bend County employee, an outstanding new voluntary benefit program.

This program through special tax laws, allows you to defer a portion of your income and the taxes on that income and use both to build a bigger fund for supplemental retirement income, as well as for other purposes. Because of the mass purchasing power of more than 1,900 member counties and their employees, this program offers you remarkable investment opportunities for small amounts (as little as $20.00 a month) - opportunities that would otherwise be available only to large investors.

16

For additional information on Deferred Compensation please contact the Fort Bend County Personnel Department.

Approved by Commissioner Court of Fort Bend County and entered into the minutes of Commissioners Court on January 11, 1982.

Dear Judge Stavinoha:

The above Program for the installation of automatic warning systems has been approved by the State Highway and Public Transportation Commission Minute Order 78764, dated August 31, 1981. The financing of this Program is 5% State, 5% local political subdivision and 90% Federal funds.

Through the State Priority System, the grade crossing selected for improvement is at the intersection of Long ~~Lake~~ LANE Rd Road and the Atchison, Topeka and Santa Fe Railway Company track, East of Orchard. Your agreement to participate will be noted by your execution and return of one of the attached Certification Statements for this project. Do not send your check at this time.

You will be invited later to an on-site diagnostic inspection of the crossing to assist in determining the type of automatic protective devices to be installed. Following receipt of your Certification Statement and the Railroad's Detailed Estimate of Cost, we will forward a copy of the finaled State-Railroad Agreement with the required exhibits and request, at that time, your contribution of 5% of the total estimated cost for this installation.

Such projects normally take about two years from inception to installation and we therefore request your prompt handling and response to minimize this time frame.

Very truly yours,

On Motion of Commissioner Johnnie Pustka, seconded by Commissioner Alton B. Pressley, and duly passed, the court approved the current revised proposed agreement between Fort Bend County and Agripost, Inc., as follows:

16

AGREEMENT

This Agreement is hereby entered into on this 8th day of February 1982, by and between Fort Bend County, a political subdivision of the State of Texas, hereinafter referred to as the "County" and AGRIPOST, INC. a Florida corporation, hereinafter referred to as the "Company".

WITNESSETH:

WHEREAS, The County recognizes the need for a permanent non-polluting solution to the solid waste disposal requirements of Fort Bend County; and

WHEREAS, The recycling of the resources contained in municipal solid waste is preferred to long-term landfilling; and

WHEREAS, the Fort Bend County Commissioners Court, by Resolution, dated February 8, 1982, and attached hereto, has decided to reach an understanding with the Company pursuant to which the Company would finance, construct and operate a solid waste resource recovery composting facility (the "Project"); and

WHEREAS, the facility would be known as the Agripost Recycling Facility (hereinafter referred to as the Recyling Facility); and

WHEREAS, the County wishes to accept the representations submitted by the Company as evidenced by the terms and conditions as set forth in this agreement.

NOW, THEREFORE, in consideration of the sum of Ten Dollars ($10.00) and other good and valuable consideration and the mutual covenants and promises contained herein, it is hereby agreed by the County and the Company as follows:

1. INCORPORATION BY REFERENCE. Any attached exhibits are incorporated herein by reference as part of this agreement and constitute the basic agreement between the County and the Company; provided, however that where the terms of this Agreement are inconsistent with the terms of the said Exhibits the terms of the specific provisions set forth in the paragraphs that follow shall be controlling.

2. SITE. The site of the Recycling Facility shall be determined by the Company. The County will assist the Company in site selection. The site will be decided only after careful evaluation of area drainage, land use, community growth patterns, and other factors associated with the public interest.

16

3. TERM OF AGREEMENT. This Agreement shall become operative and effective on the date on which the Fort Bend County Commissioners Court approves this Agreement by resolution and upon the execution and delivery hereof on behalf of the County. The Agreement shall continue in existence for a term of fifteen (15) years commencing on the date twelve months from the date on which all permits and licenses necessary to construction and operation have been issued.

4. DEFINITION OF WASTE. The Term "waste" shall mean all types of general municipal solid waste, including paper, glass, stones, food, metals, rubber, wood, textiles, moistures, street sweepings and other debris, but shall not include pathogenic, toxic, explosive and radioactive material and other hazardous wastes, which require, by law or regulation, special handling in their collection and/or disposal. The company may refuse to accept deliveries which do not constitute waste. The Company shall have title to all waste upon delivery at the site.

5. TIPPING FEE. The County understands that the commercial users of the Agripost Recycling Facility (private haulers, cities, etc.) will pay the Company a tipping fee for receiving the solid waste. The initial tipping fee will be $11.00 per ton. This fee will be indexed annually by 50% of the Consumer Price Index for Urban Wage Earners and Clerical Workers as prepared by the United States Department of Labor. Determination shall be made at each anniversary date of the first full

operating year of the Plant and adjustments applied to the fee sixty (60) days following.

A special fee will be determined for "citizen loads," (non-commercial pick-up trucks, etc. one ton or less). This special treatment for "citizen load" users is intended to allow easy access for the private citizens of Fort Bend County without regular garbage collection service. The intent of this easy access is to keep the County roads free of unauthorized dumping. A minimum fee schedule will be established equal to the County's most recent minimum fee schedule, as of the beginning of operations of the Agripost Recycling Facility. The special fee will be indexed annually by the same percentage as the regular tipping fee, above, rounded to the nearest 10¢.

The Company will grant permission to the County to dump reasonable amounts of waste from time to time at no charge to the County. Such permission will not be unreasonably withheld.

6. MEETING FLOOD CRITERIA. The Company agrees that it will, at its cost, meet the elevation requirements of the National Flood Criteria Insurance Program as well as County Drainage District flood criteria before the site may be used by the Company for the purpose intended.

7. ON AND OFF-SITE IMPROVEMENTS. The Company shall assume sole responsibility for on-site improvements including, but not limited to the Recycling Facility, roads, buildings, equipment, machinery, arrangement for utility services to said site, landscaping and utilities requisite to construction and operation of the Recycling Facility. Design and construction of the Recycling Facility will meet the requirements of the appropriate Building Codes and other applicable governmental codes and regulations. The project's site plan is to be approved by the County's Department of Engineering/ Drainage District. Upon obtaining the approval of said Department and all other requisite permits and licenses necessary to the construction and operation of the facility, the Company shall use its best efforts to arrange for the financing of the construction of the Recycling Facility and shall proceed diligently to construct the Facility once all the necessary financing has become available therefor. The County will assist the Company in arranging for utility services to said site.

8. ENVIRONMENTAL TESTING PROCEDURES. By virtue of federal, state and county rules, regulations and requirements, the Company is

required to undertake environmental testing during its processing of waste. The Company shall, at any and all times, provide all or any portion of its environmental test results to the County upon request.

9. INDEMNIFICATION. The Company shall defend, indemnify, and save harmless the County, its officials, officers, employees, representatives and agents, from any and all claims, liability, losses and causes of action which may arise out of the performance by the Company, its contractors, subcontractors, independent contractors, employees or agents, of the work required by this Agreement. In addition, the Company shall pay any royalties or license fees that may be needed in connection with the operation of the Facility. The Company shall also defend all suits or claims for infringements of any patent rights in connection with the operation of the Facility and shall hold the County harmless from any loss on account thereof. Without limiting the generality of the foregoing, such indemnity shall extend to costs and attorney fees in any proceeding whether arbitration, trial, appellate review, or collateral proceeding.

16

10. INSURANCE. The Company shall insure the improvements and equipment installed at the site against any and all damage or loss from the time of the effective date of this Agreement until the termination of this Agreement including exercised options to renew. Said insurance shall cover any loss during transport from its place of manufacture (including place of dealer preparation) to the site in the amount equal to one hundred percent (100%) of the amount to be paid for the improvements and equipment referred to. Said insurance shall be issued by companies authorized to do business under the laws of the State of Texas, with the following qualifications as to management and financial strength: The Company

> must be rated no less than "A" as to general policyholder's rating, and no less than "AAA" as to financial rating in accordance with the latest edition of Best's Key Rating Guide, published by A.M. Best Company, Inc.

11. CONTRACT FOR CONSTRUCTION. The Company will be permitted to employ a contractor or competent subcontractors to construct the facility.

12. ASSIGNMENT AND DELEGATION. This Agreement cannot be assigned or performance of the duties hereunder delegated without the prior, express written consent of the parties hereto except as otherwise herein provided. The County acknowledges, however, that an

assignment of this Contract or certain contractual rights of the Company hereunder may be necessary or desirable to facilitate the financing of the construction of the Recycling Facility, and the Company may make such an assignment to any or all participants in such financing, including, but not limited to, persons or entities which undertake to construct and operate the plant in conjunction with or on behalf of the Company, or holders of revenue bonds or any other instrument of indebtedness secured by revenues generated by the project or by Company Property or persons on behalf of such holders.

13. SPECIAL TERMINATION. The County recognizes that the benefits to the citizens of Fort Bend County, to be derived from a permanent recycling facility, are appreciable. The County also recognizes that recycling facilities, however economically and technologically viable, do not presently exist in the State of Texas. Furthermore, the Company hereby expresses its intent to use its best efforts to obtain financing for the project. However, both parties recognize that due to circumstances beyond their control financing may not be obtainable. If financing for the construction of the Recycling Facility is not obtained within nine months of the effective date of this agreement, or within three months of the effective date of the appropriate Solid Waste Permit, whichever is later, then either party may terminate this agreement by written notice to the other party with no further liability.

14. NONDISCRIMINATION IN EMPLOYMENT. In accordance with Fort Bend County policy, the Company agrees to make no discrimination because of race, color, creed, or national origin with respect to employment of personnel on this project, and further agrees that all citizens having the experience and skill necessary to perform the work shall be afforded equal opportunity of employment for the work to be performed at the site of this project.

15. CORPORATE CITIZENSHIP. It is the intent of the Company to be a good corporate citizen. The Company believes that it has a corporate responsibility to participate financially in worthwhile civic and cultural projects. Therefore, the Company hereby expresses its intent to contribute $.15 per ton of Agrisoil sold from the Agripost Recycling Facility to a Cultural Fund, to be administered by the Fort Bend County Commissioners Court. The Cultural Fund may be used at the discretion of the Commissioners Court for projects such as the Fort Bend County Library.

16. PLANT CAPACITY AND FORT BEND COUNTY GROWTH. The County and the Company both recognize the rapid population growth rate in Fort Bend County. It is the intent of both parties to provide solid waste processing capacity which is sufficient to serve the County's needs now and in the future. The County will, therefore, not restrict the facility's processing enough non-Fort Bend County solid waste to succeed economically at or near 400 tons per day. The Company understands that the County is in no way assuring delivery of 400 tons per day. The non-Fort Bend County solid waste accepted at the facility will be reduced as the Company determines that delivery of solid waste from within the County has increased sufficiently to permit such reductions.

17. PROJECT SUPPORT BY COUNTY. The County recognizes the desirability of financing the Agripost Recycling Facility outside of County funds. The County further understands the assurances required by private enterprise lending institutions regarding the long-term economic viability of the facility. To this end the County assures the Company that it will give its full support, exclusive of financing, to this Project, including assistance from the County as would normally be given to businesses operating in the County. Such assistance does not, however, relieve the Company of its responsibility for obtaining required permits. The County agrees not to endorse or support any other solid waste processing facility which would cause the Agripost Recycling Facility to fail economically.

16

The County specifically reserves the right to exercise its powers, as set forth in the County Solid Waste Control Act of 1971, Article 4477-8, V.C.S., over the disposition of any and all solid waste generated in the County in excess of four hundred (400) tons/day. Said powers may also be exercised if the proposed facility is not successful.

The Company recognizes the desirability of having a County landfill to be used prior to the commencing of operations of the Facility and at such other times that the supply of waste in Fort Bend County exceeds the rated capacity of the Facility. The Company further recognizes the desirability of the existence of such landfill as a backup in case of an extreme emergency, beyond the control of the Company. It is understood that such a disposal facility is not to compete with the Agripost Recycling Facility in such a manner as would cause the Agripost Recycling Facility to fail economically.

18. AGREEMENT GOVERNED BY LAWS OF TEXAS. This Agreement shall be governed by the laws of the State of Texas.

19. VENUE. Venue for any suit or action to enforce the terms and conditions of the Agreement shall be in any court in Fort Bend County, Texas, having jurisdiction over the subject matter.

20. REVISIONS PERMITTED. The parties hereto recognize that they may have to modify this Contract in certain respects in order to meet certain requirements of underwriters and lenders in the future. The parties covenant to one another that each will endeavor to accommodate the other in order to meet the requirements of underwriters and lenders.

21. NOTICES. Any formal notice that the County wishes to give to the Company under this agreement shall be given by registered or certified mail or by hand delivery to the President of the Company at the Company's registered offices, which are presently located at 990 Southwest First Street, Miami, Florida 33130. Any formal notice that the Company wishes to give to the County under this agreement shall be given by registered or certified mail or by hand delivery to the Fort Bend County Judge at his designated office which is presently the Fort Bend County Court House Annex at 50 Liberty, Richmond, Texas 77469.

16

22. ENTIRETY OF AGREEMENT. This Contract constitutes the entire agreement and supersedes all prior agreements and understandings both written and oral, among the parties with respect to the subject matter hereof and may be executed simultaneously in several counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

23. MISCELLANEOUS PROVISIONS. The failure of either party to enforce at any time, or for any period of time, any of the provisions of this agreement, shall not be construed as a waiver of such provisions, or of the right of the party thereafter to enforce each and every such provision.

Invalidity or unenforceability of any provision of this agreement shall not affect the other provisions hereof, and the agreement shall be construed in all respects as if such invalid or unenforceable provisions were omitted.

IN WITNESS WHEREOF, the parties hereto have caused this Contract to be executed by their appropriate officials, as of the date first above written and delivered in Fort Bend County, Texas.

2 RE: LETTER FROM TEXAS JUSTICE COURT TRAINING CENTER - TRAINING COURSE FOR JUDGE CARL BENTLEY:

County Judge Jodie E. Stavinoha read into the minutes of the court the following letter from the Texas Justice Court Training Center, completion of twenty hour course by Judge Carl Bentley.

TEXAS JUSTICE COURT TRAINING CENTER

SOUTHWEST TEXAS STATE UNIVERSITY
San Marcos, Texas 78666
(512) 245-2349

February 10, 1982

Hon. Jodie E. Stavinoha
Fort Bend County
Courthouse
Richmond, Texas 77469

Dear Judge Stavinoha:

During the week of February 2-5, 1982, Judge Carl Bentley successfully completed a twenty hour course in the responsibilities of the office of Justice of the Peace. Article 5972 of the Texas Revised Civil Statutes requires each newly elected/appointed Justice of the Peace to complete a forty hour course in the responsibilities of the Justice of the Peace office and additionally to complete a twenty hour course each year thereafter. This article encompasses all justices who took office since August 30, 1963 and are not licensed attorneys. This training program is provided at virtually no cost to the county through a grant from the Governor's Office, Criminal Justice Division.

We at the Training Center realize how important it is to you and the people you serve to insure that your county Justices of the Peace are properly trained and equipped to carry out the duties and obligations of the office. As ninety to ninety-five percent of our citizenry have their one and only contact with a lower court judge, it is imperative that this contact be as judicious as possible.

You may wish to enter this letter in the minutes of your next commissioners court meeting in order that it may become a permanent record. If we at the Training Center can ever be of assistance, please do not hesitate to call.

Sincerely,

Ronald D. Champion
Executive Director

KNOW ALL MEN BY THESE PRESENTS:

BEFORE ME, the undersigned, a Notary Public in and for said County, State of Texas, on this day personally appeared A.E. WOODARD to me well known to be a credible person, and who, after being by me duly sworn, on his oath did state:

I am a resident of Houston, Harris County, Texas, employed by Dan J. Harrison, III and Bruce F. Harrison, who are engaged in the exploration and production of oil and natural gas.

That they are the fee owners of a tract of land in the James Perry Survey A-299, Fort Bend County, Texas, on which they have installed a tank battery for the temporary storage of oil production. Directly to the north in the William Stanley Survey A-599, Fort Bend County, they drilled and completed an oil well. Separating these two surveys is a gravel road known as Canal Road, which is maintained by Fort Bend County. In order to flow the oil from the producing well to the tank battery it will be necessary to bore under the County Road.

Dan J. Harrison, III and Bruce F. Harrison are not common carriers, but the Commissioner's Court, under Vernon's Texas Civil Statute, Article 2351, Paragraph 6 is granted the right to authorize such crossings of county roads by individuals who are not common carriers.

On September 17, 1979, I was appointed Agent and Attorney-in-Fact for Dan J. Harrison, III and Bruce F. Harrison and I am acting in such capacity.

16

Gentlemen;

Please accept this letter as a certified bid proposal for the concessions at the court house annex only. I do noy wish to bid on the concessions in the court house. It is also agreed that if this proposal is accepted by the commissioners court, that the sale of any and all cocession merchandise be handled through Boss Vendors only. No other vendor, vending machines, or counter concessions will be allowed in this concession area with out the written approval of Boss Vendors. EXHIBIT "A"

PETITION FOR CREATION, ORGANIZATION AND ESTABLISHMENT OF FIRST COLONY LEVEE IMPROVEMENT DISTRICT OF FORT BEND COUNTY, TEXAS

THE STATE OF TEXAS §
§
COUNTY OF FORT BEND §

TO THE HONORABLE COUNTY JUDGE AND COMMISSIONERS COURT OF FORT BEND COUNTY, TEXAS:

The undersigned, the owners of a majority of the acreage in the territory hereinafter described (herein the "Petitioners"), acting pursuant to the provisions of Chapter 57, Texas Water Code, as amended, and in keeping with the provisions of Article XVI, Section 59, of the Constitution of Texas, respectfully petition for the organization of a levee improvement district and would show as follows:

I.

The name of the proposed levee improvement district shall be First Colony Levee Improvement District of Fort Bend County, Texas (herein the "District").

II.

The District shall contain an area of approximately 1,991.0624 acres of land situated wholly within Fort Bend County, Texas, described by metes and bounds in Exhibit "A" attached hereto and made a part hereof for all purposes.

16

III.

The District shall be organized for the following purposes:

1. to construct and maintain levees and other improvements on, along, and contiguous to rivers, creeks, and streams within and adjacent to the District;

2. to reclaim lands within the District from overflow from these streams;

3. to control and distribute the waters of rivers and streams within and adjacent to the District by straightening and otherwise improving them; and

4. to provide for the proper drainage and other improvement of the reclaimed land within the District;

all as contemplated by Chapter 57, Texas Water Code, as amended, and Article XVI, Section 59, of the Constitution of Texas.

IV.

The general nature of the work proposed to be done at this time by the District is the building, acquisition, construction, completion, carrying out, maintaining, protection, and, in case of necessity, the addition to and

rebuilding of all works and improvements within the District necessary or proper to fully accomplish a reclamation plan for draining land, constructing levees on land, and reclaiming land of the District from overflow or damage by waters from streams inside or adjacent to the District which may affect land in the District and, where necessary, the straightening of streams which may injure the land of the District.

V.

There is a necessity for the organization of the District and the proposed improvements for the reason that the territory to be included in the District is being or will be developed for residential, commercial, and/or industrial purposes, and the health and welfare of the present and future residents of the District and the protection of lands, property, residences, and commercial and industrial establishments within the District requires the construction of such proposed improvements.

VI.

The proposed improvements are feasible in that the necessary levees, bridges, drains, and other reclamation improvements can be acquired or constructed at reasonable costs, and taxes at reasonable rates can be levied within the District which will be sufficient to amortize all debt incurred by the District for the purpose of acquiring or constructing the needed improvements and to provide for the payment of all costs of proper maintenance, upkeep, and repair, and additions to the levees and other improvements in the District, and other costs or improvements authorized by Chapter 57, Texas Water Code, as amended.

16

VII.

The Petitioners propose that taxes to be levied by the District can not feasibly be levied on the benefit basis and should rather be levied on the ad valorem basis; provided, however, such proposal shall not be considered as limiting the authority of the Commissioners Court or the Board of Directors of the District from assessing, levying, and collecting taxes on the benefit basis, or a combination of ad valorem and benefit bases or in such other manner as may now or hereafter be authorized by law.

VIII.

The sum of Fifty Dollars ($50) has been deposited with the County Clerk of Fort Bend County as Ex-Officio Clerk of the Commissioners Court to cover expenses incident to the hearing on this petition.

WHEREFORE, the undersigned respectfully pray: that this petition be properly filed as provided by law; that upon filing of this petition, the Honorable Commissioners Court of Fort Bend County, Texas, if it be in session, and if not, then the Honorable County Judge of Fort Bend County, Texas, order that a hearing be set on this petition before said Commissioners Court or County Judge during the period beginning with the fifteenth (15th) day and ending with the thirtieth (30th) day after the date of such order; that the County Clerk be ordered to issue notice informing all persons concerned of the time and place of such hearing and of their right to appear at the hearing and contend for or contest the creation of the District; that such notice be given and posted as required by law by posting notice of such hearing at the courthouse door and at four (4) different places inside the proposed District for at least ten (10) days before the date of the hearing; that the County

Clerk be ordered to mail notice of the hearing to the Texas Water Development Board, Austin, Texas, stating that this petition has been filed and including a statement of its general purpose and the time and place of the hearing; that said hearing be held and conducted as required by law and, if upon such hearing it be found that this petition sets forth and conforms to the requirements of law and is signed by the owners of a majority of the acreage in the proposed District, that notice of the hearing was given, that the proposed improvements are desirable, feasible, and practicable and would be a public utility and public benefit and conducive to public health, and that the District should be created, that the Commissioners Court so find and render its judgment reciting such findings and creating and establishing the District; that the Commissioners Court appoint three (3) persons to serve as directors of the District in the manner provided by law; and for such other proceedings and orders as are proper and necessary and appropriate to the organization of said District and to the execution of the purposes for which said District shall be organized.

On motion of Commissioner Johnnie Pustka, seconded by Commissioner with Commissioner Alton B. Pressley opposing W. Lee Schmidt,/and duly passed the Court approved inducement resolution for Kestran, Inc. for application to Fort Bend County Industrial Development Corp. for Revenue Bonds. (Recorded in minutes in full)

RESOLUTION CONCERNING ISSUANCE OF BONDS
TO FINANCE A PROJECT FOR
KESTRAN, INC.

WHEREAS, pursuant to the Development Corporation Act of 1979, Article 5190.6, Vernon's Texas Civil Statutes, as amended (the "Act"), the Fort Bend County Industrial Development Corporation, a nonprofit corporation (the "Corporation"), has been duly created and approved by Fort Bend County, Texas (the "Unit").

WHEREAS, the Issuer, on behalf of the Unit is empowered to finance the cost of projects to promote and develop industrial and manufacturing enterprises to promote and encourage employment, the public health, and the public welfare by the issuance of obligations of the Issuer, which projects will be inside the Unit's boundaries.

16

WHEREAS, Kestran, Inc. (the "User") has filed an application which is attached hereto as Exhibit "A" and made a part hereof for all purposes (the "Application") requesting that the Issuer finance a project described in the Application (the "Project") within the boundaries of the Unit and further that the Issuer adopt this Resolution with respect to the acquisition, construction, and installation of the Project;

WHEREAS, the User has advised the Issuer that a contributing factor which would further induce the User to proceed with providing for the acquisition and construction of the Project would be a commitment and agreement by the Issuer to issue industrial development revenue bonds pursuant to the Act (the "Bonds") to finance and pay for the Project;

WHEREAS, in view of rising construction costs and the necessity of compliance with administrative regulations, it is considered essential that construction of the Project be completed at the earliest practicable date but, at the same time, the User wishes to begin construction of the Project after satisfactory assurances from the Issuer that the proceeds of the sale of the Bonds, or other obligations, of the Issuer in an amount necessary to pay the costs of the Project will be made available to finance the Project;

WHEREAS, the Issuer finds, intends, and declares that this Resolution shall constitute its official binding commitment, subject to the terms hereof, to issue Bonds, or other obligations, pursuant to the Act in an amount prescribed by the User now contemplated to be up to $7,415,000 (but not to exceed $10,000,000 in any event) and to expend the proceeds thereof to acquire, construct, and install the Project and to pay all expenses and costs of the Issuer in connection with the issuance of the Bonds; and

WHEREAS, the Issuer finds, considers, and declares that the issuance and sale of the Bonds in the amount and for the purpose hereinabove set forth will be appropriate and consistent with the objectives of the Act, and that the adoption of this Resolution is and constitutes and is intended as (i) an inducement to the Issuer to proceed with providing for the acquisition and construction of the Project and (ii) the taking of affirmative official action by the Issuer, acting by and through its Board of Directors, towards the issuance of the Bonds within the meaning of federal income tax law with respect to interest on the Bonds to finance certain facilities to be financed by the issuance of exempt small issue bonds or exempt facilities, including Treas. Reg. §1.103-8(a)(5);

16

THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE FORT BEND COUNTY INDUSTRIAL DEVELOPMENT CORPORATION THAT:

Section 1. Subject to the terms hereof, the Issuer agrees that it will:

(a) Issue the Bonds, and if the User and the Issuer agree, other evidences of indebtedness providing temporary financing of the Project which will be issued after the date hereof and be refunded by the Bonds pursuant to the Act, or any other Texas legislation heretofore or hereafter enacted which may provide a suitable method of financing in addition to or in substitution for the Act.

(b) Cooperate with the User with respect to the issuance of the Bonds, and, if arrangements therefor satisfactory to the User and the Issuer can be made, the Issuer will take such action and authorize the execution of such documents and will take such further action as may be necessary or advisable for the authorization, execution, and delivery of any contracts or agreements deemed necessary or desirable by the User or the Issuer in connection with the issuance of the Bonds (collectively, the "Contracts"), providing among other things for payment of the principal of, interest on, redemption premiums, paying agents' charges, and Trustee's

fees, if any, on the Bonds; payment of fees and charges of the Issuer or the Unit; acquisition, construction, and improvement of the Project; payment of fines and penalties; and use, operation, and maintenance of the Project (and the execution of any appropriate and necessary guaranty agreements), all as shall be authorized, required, or permitted by law and as shall be mutually satisfactory to the Issuer, the Unit, and the User.

(c) If the proceeds from the sale of the Bonds are insufficient, take such actions and execute such documents as may be necessary to permit the issuance from time to time in the future of additional bonds on terms which shall be set forth therein, whether on a parity with other series of bonds or otherwise, for the purpose of paying the costs of completing the acquisition, construction, and installation of the Project, as requested by the User and within then applicable limitations.

16

(d) Take or cause to be taken such other actions as may be required to implement the aforesaid undertakings or as it may deem appropriate in pursuance thereof.

The Bonds shall specifically provide that neither the State of Texas, the Unit, nor any political issuer, subdivision, or agency of the State of Texas shall be obligated to pay the same or the interest thereon and that neither the faith and credit nor the taxing power of the State of Texas, the Unit, or any political issuer, subdivision, or agency thereof is pledged to the payment of the principal of, premium, if any, or interest on the Bonds.

Section 2. It is understood by the Issuer and the Unit, and the User has represented to the Issuer, that in consideration of this Resolution and by filing the Application, and subject to the terms and conditions hereof, the User has agreed that:

(a) Prior to or contemporaneously with the sale of the Bonds in one or more series or issues from time to time as the Issuer and the User shall hereafter agree to in writing, the User will enter into the Contracts with the Issuer under the terms of which the User will obligate itself to pay to the Issuer (or to a Trustee, as the case may be) sums sufficient in the aggregate to pay the principal of, interest on, redemption premiums, paying agents' fees, and Trustee's fees, if any, on the Bonds, as and when the same become due and payable, with such contract to contain the provisions described in Section 1 hereof and such other provisions as may be required or permitted by law and to be mutually acceptable to the Issuer and the User.

(b) The User will (1) pay all Project costs which are not or cannot be paid or reimbursed from the proceeds of the Bonds and (2) at all times indemnify and hold harmless the Corporation and the Unit against all losses, costs, damages, expenses, and liabilities (collectively referred to hereinafter as "Losses") of whatsoever nature (including, but not limited to, attorneys' fees, litigation and court costs, amounts paid in settlement and amounts paid to discharge judgments) directly or indirectly resulting from, arising out of or relating to one or more Claims, as hereinafter defined, even if such Losses or Claims, or both, directly or indirectly result from, arise out of or relate to, or are asserted to have resulted from, arisen out of or related to, in whole or in part, one or more negligent acts or omissions of the Corporation or the Unit or any of the officers, employees, agents, servants or any other party acting for or on behalf of the Corporation or the Unit. The term "Claims" as used herein shall mean all claims, lawsuits, causes of action and other legal actions and proceedings, involving bodily or personal injury or death of any person or damage to any property (including, but not limited to, persons employed by the Corporation, the Unit, the User or any other person and all property owned or claimed by the Corporation, the Unit, the User, any affiliate of the User or any other person) or involving damages relating to the issuance, offering, sale or delivery of the Bonds brought against the Corporation or the Unit or to which the Corporation or the Unit is a party, even if groundless, false or fraudulent, that directly or indirectly result from, arise out of or relate to the issuance, offering, sale or delivery of the Bonds or the design, construction, installation, operation, use, occupancy, maintenance or ownership of the Project or any part thereof. The obligations of the User shall apply to all Losses or Claims, or both, that result from, arise out of or are related to any event, occurrence, condition or relationship prior to termination of this Agreement to Issue Bonds, whether such Losses or Claims, or both, are asserted prior to termination of this Agreement to Issue Bonds or thereafter. Neither the Corporation nor the Unit shall be liable to the User for, and the User hereby releases each of them from, all liability to the User for any injuries, damages or destruction to all or any part or parts of any property owned or claimed by the User that directly or indirectly result from, arise out of or relate to the issuance, offering, sale or delivery of the Bonds or the design, construction, installation, operation, use, occupancy, maintenance or ownership of the Project or any part thereof, even if such injuries, damages or destruction

16

directly or indirectly result from, arise out of or relate to, in whole or in part, one or more negligent acts or omissions of the Corporation or the Unit or any of the officers, employees, agents, servants or any other party acting for or on behalf of the Corporation or the Unit. The Corporation and the Unit, as appropriate, shall reimburse the User for payments made by the User to the extent of any proceeds, net of all expenses of collection, actually received by them from any insurance with respect to the Loss sustained. The Corporation and the Unit shall have the duty to claim any such insurance proceeds and the Corporation and the Unit, as appropriate, shall assign their respective rights to such proceeds, to the extent of such required reimbursement, to the User. In case any action shall be brought against the Corporation or the Unit, in respect of which indemnity may be sought against the User, the indemnified party shall promptly notify the User in writing and the User shall have the right to assume the investigation and defense thereof including the employment of counsel and the payment of all expenses. The indemnified party shall have the right to employ separate counsel in any such action and participate in the investigation and defense thereof, but the fees and expenses of such counsel shall be paid by the indemnified party unless the employment of such counsel has been authorized by the User. The User shall not be liable for any settlement of any such action without its consent but, if any such action is settled with the consent of the User or if there be final judgment for the plaintiff of any such action, the User agrees to indemnify and hold harmless the Corporation and the Unit from and against any Loss by reason of such settlement or judgment. The provisions of this paragraph shall survive the expiration or termination of this Agreement.

Section 3. It is understood by the Issuer that all commitments of the Issuer and the User with respect to the Project and the Bonds are subject to the condition that the Bonds shall have been issued no later than December 31, 1984, or such other date as shall be mutually satisfactory to the Issuer and the User.

Section 4. The User may, without the consent of the Corporation, transfer or assign this Agreement or transfer or assign any or all of its rights and delegate any or all of its duties hereunder to any of its subdidiaries or affiliates currently existing or hereafter created, but no such transfer, assignment or delegation shall, without the written consent and approval of the Corporation, relieve the User of its liability for payment of Project costs or indemnification under Section 2 hereof.

Section 5. The adoption of this Resolution, as requested in the Application, shall be deemed to constitute the acceptance of the User's proposal that it be further induced to proceed with providing the Project and the Application and this Resolution shall constitute an agreement between the Issuer and the User effective on the date that this Resolution is adopted, and this Resolution is affirmative of official action taken by the Issuer towards the issuance of the Bonds.

2 RE: LETTER FROM TEXAS JUSTICE COURT TRAINING CENTER UPON JUDGE CALVIN WATSON COMPLETION OF TWENTY HOUR COURSE, READ INTO THE MINUTES:

County Judge Jodie E. Stavinoha read into the minutes a letter from Texas Justice Court Training Center stating the completion of twenty hour course completed by Judge Calvin Watson. Letter as follows:

TEXAS JUSTICE COURT TRAINING CENTER
SOUTHWEST TEXAS STATE UNIVERSITY
San Marcos, Texas 78666
(512) 245-2349

March 12, 1982

Hon. Jodie E. Stavinoha
Fort Bend County
Courthouse
Richmond, Texas 77469

Dear Judge Stavinoha:

During the week of March 9-12, 1982, Judge Calvin Watson successfully completed a twenty hour course in the responsibilities of the office of Justice of the Peace. Article 5972 of the Texas Revised Civil Statutes requires each newly elected/appointed Justice of the Peace to complete a forty hour course in the responsibilities of the Justice of the Peace office and additionally to complete a twenty hour course each year thereafter. This article encompasses all justices who took office since August 30, 1963 and are not licensed attorneys. This training program is provided at virtually no cost to the county through a grant from the Governor's Office, Criminal Justice Division.

We at the Training Center realize how important it is to you and the people you serve to insure that your county Justices of the Peace are properly trained and equipped to carry out the duties and obligations of the office. As ninety to ninety-five percent of our citizenry have their one and only contact with a lower court judge, it is imperative that this contact be as judicious as possible.

You may wish to enter this letter in the minutes of your next commissioners court meeting in order that it may become a permanent record. If we at the Training Center can ever be of assistance, please do not hesitate to call.

Sincerely,

Ronald D. Champion
Executive Director
