THIS AGREEMENT TO ISSUE BONDS, entered into as of the 28th day of October, 1982, by and between Fort Bend County Industrial Development Corporation (the "Corporation"), created pursuant to the authority of the Development Corporation Act of 1979, Article 5190.6, Vernon's Annotated Texas Civil Statutes, as amended (the "Act"), and John Donald Hull (dba Hull Airport), a sole proprietorship (the "User"), for the purpose of carrying out the public purposes set forth in the Act, including the promotion and development of industrial and manufacturing enterprises to promote and encourage employment and the public welfare;

WITNESSETH:

WHEREAS, Fort Bend County, Texas (the "Unit"), has authorized and approved the creation of the Corporation to act on behalf of the Unit for the public purpose of furthering on behalf of the Unit the promotion and development of industrial and manufacturing enterprises to promote and encourage employment and the public welfare; and

WHEREAS, the Corporation is authorized by the Act to acquire, construct, reconstruct, improve and expand and to lease or sell "projects," as such term is defined in the Act, or to make loans for the purpose of providing financing for all or part of the costs of a project, and the Corporation is further authorized to issue its bonds for the purpose of paying all or part of the costs of a project; and

WHEREAS, the User desires to acquire and construct a facility, more particularly described in Exhibit "A", within the Unit (the "Project"), which Project is suitable for the promotion of manufacturing development and expansion and for the industrial development and expansion of airport facilities and other industrial facilities and facilities related to any of the foregoing, the promotion of employment in the Unit and for use by manufacturing or industrial enterprises; and

WHEREAS, pursuant to the Act, the Corporation is authorized to issue the bonds hereinafter described, which bonds shall never constitute an indebtedness or pledge of the faith and credit of the State of Texas (the "State"), of the Unit, or of any other political corporation, subdivision

or agency of the State within the meaning of any State constitutional or statutory provision, shall never be paid in whole or in part out of any funds raised or to be raised by taxation or any other funds of the Unit, and shall never be paid in whole or in part out of any funds of the Corporation except those derived from or in connection with the sale or lease of the Project or the loan of funds to finance the Project; and

WHEREAS, to promote and encourage employment and the public welfare, the Corporation agrees to issue at the request of the User, one or more series of the Corporation's industrial development revenue bonds (the "Bonds") for the purpose of paying all or part of the cost of constructing and acquiring the Project, or for the purpose of loaning the proceeds to the User in order to provide temporary or permanent financing of all or part of the cost of constructing and acquiring the Project, and the Corporation and the User deem it desirable and proper that this Agreement to Issue Bonds constitute a formal record of such agreement and understanding in order that the User may proceed with or provide for the acquisition and construction of the Project; and

WHEREAS, the User has evidenced a desire to cooperate with the Corporation in the acquisition and construction of the Project and for the Corporation to authorize and issue the Bonds in the aggregate principal amount now estimated not to exceed \$2,000,000 to provide the funds to defray all or part of the cost of the acquisition and construction of the Project; and

WHEREAS, the Corporation and the User contemplate that the Project will be sold on an installment payment basis or leased to the User or that proceeds of the Bonds will be loaned to the User in order to provide temporary or permanent financing of all or part of the costs of the Project and that the installment purchase, rental or loan payments therefor will be sufficient to pay the principal of and any premium and interest on the Bonds; and

WHEREAS, it is the desire of the Corporation that the acquisition and construction of the Project occur at the earliest possible time so as to promote and encourage employment and the public welfare within the Unit; and

WHEREAS, it is intended that this Agreement to Issue Bonds shall constitute "some other similar official action" toward the issuance of the Bonds within the meaning of Section 1.103-8(a)(5) of the Treasury regulations issued pursuant to Section 103(b) of the Internal Revenue Code of 1954, as amended (the "Code");

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration and of the mutual benefits, covenants and agreements herein expressed, the Corporation and the User agree as follows:

1. The User shall commence with the acquisition and construction of the Project, which Project will be in furtherance of the public purposes of the Corporation and the Unit as aforesaid, and the User will provide, or cause to be provided, at its expense, the necessary interim financing to expedite the commencement of the acquisition and construction of the Project. On or prior to the issuance of the Bonds, the User will enter into a purchase, lease or loan agreement on an installment payment basis (herein called the "Agreement") with the Corporation under which the Corporation will sell or lease the Project to the User or make a loan to the User for the purpose of providing temporary or permanent financing of all or part of the costs of the Project and the User will make installment payments sufficient to pay the principal of and any premium and interest on such series of Bonds. The Bonds shall never constitute an indebtedness or pledge of the faith and credit of the State, of the Unit, or of any other political corporation, subdivision or agency of the State within the meaning of any State constitutional or statutory provision, and the Bonds shall never be paid in whole or in part out of any funds raised or to be raised by taxation or any other funds of the Unit, and shall be payable from the funds of the Corporation derived from or in connection with the sale or lease of the Project or the loan of the proceeds of the Bonds.

2. On receipt of a ruling from the Internal Revenue Service (or the opinion of nationally recognized bond counsel) that interest paid on the Bonds is exempt from federal income taxation, the Corporation hereby agrees to issue, pursuant to the terms of the Act, the Bonds, or from time to time the portion thereof as may be the subject of such a ruling or opinion as aforesaid, in an appropriate principal amount not exceeding that which is the subject of a ruling

or opinion as aforesaid, maturing in such amount and times, bearing interest at the rates, payable on the dates and having such optional and mandatory redemption features and prices as are approved in writing by the User. The Corporation will deliver the Bonds to the purchaser designated by the User and will cooperate to the fullest extent in facilitating delivery of the Bonds.

3. The Corporation and the User agree that the Bonds may be issued either at one time or in several series from time to time as the User shall request in writing; provided, however, that the parties agree that the Bonds will be issued in an aggregate principal amount as will not exceed the amount which is the subject of a ruling or rulings or opinion or opinions as aforesaid. A request in writing for issuance of one or more series of Bonds shall not affect the obligation hereunder of the Corporation to issue the remaining Bonds as written requests therefor are received. It is further agreed that the proceeds of the Bonds or portions thereof whether or not issued in a series, shall not be invested so as to constitute the Bonds or a portion thereof as arbitrage bonds within the meaning of Section 103(c) of the Code and applicable regulations promulgated pursuant thereto.

4. The payment of the principal of and any premium and interest on the Bonds shall be made solely from moneys realized from the sale or lease of the Project or from moneys realized from the loan of the proceeds of the Bonds to finance all or part of the costs of the Project.

5. The costs of the Project (hereinafter the "Project Costs") may include any cost of acquiring, constructing, reconstructing, improving and expanding the Project. Without limiting the generality of the foregoing, the Project Costs shall specifically include the cost of the acquisition of all land, rights-of-way, property rights, easements and interests, the cost of all machinery and equipment, financing charges, interest prior to and during construction and for one year after completion of construction whether or not capitalized, necessary reserve funds, costs of estimates and of engineering and legal services, plans, specifications, surveys, estimates of cost and of revenue, other expenses necessary or incident to determining the feasibility and practicability of acquiring, constructing, reconstructing, improving and expanding the Project, administrative expenses and such other expenses as

may be necessary or incident to the acquisition, construction, reconstruction, improvement and expansion of the Project, the placing of the Project in operation and all incidental expenses, costs and charges relating to the Project not enumerated above. The parties agree, upon request, to provide or to cause to be provided to each other any data or information which may be reasonably required to verify any of the Project Costs enumerated in this paragraph. The User agrees that it will be responsible for and pay any Project Costs incurred prior to issuance of the Bonds and will pay all Project Costs which are not or cannot be paid or reimbursed from the proceeds of the Bonds.

6. The User agrees that it will at all times indemnify and hold harmless the Corporation and the Unit against all losses, costs, damages, expenses and liabilities (collectively referred to hereinafter as "Losses") of whatsoever nature (including, but not limited to, attorneys' fees, litigation and court costs, amounts paid in settlement and amounts paid to discharge judgments) directly or indirectly resulting from, arising out of or relating to one or more Claims, as hereinafter defined, even if such Losses or Claims, or both, directly or indirectly result from, arise out of or relate to, or are asserted to have resulted from, arisen out of or related to, in whole or in part, one or more negligent acts or omissions of the Corporation or the Unit or any of the officers, employees, agents, servants or any other party acting for or on behalf of the Corporation or the Unit. The term "Claims" as used herein shall mean all claims, lawsuits, causes of action and other legal actions and proceedings, involving bodily or personal injury or death of any person or damage to any property (including, but not limited to, persons employed by the Corporation, the Unit, the User or any other person and all property owned or claimed by the Corporation, the Unit, the User, any affiliate of the User or any other person) or involving damages relating to the issuance, offering, sale or delivery of the Bonds brought against the Corporation or the Unit or to which the Corporation or the Unit is a party, even if groundless, false or fraudulent, that directly or indirectly result from, arise out of or relate to the issuance, offering, sale or delivery of the Bonds or the design, construction, installation, operation, use, occupancy, maintenance or ownership of the Project or any part thereof. The obligations of the User shall apply to all Losses or Claims, or both, that result from, arise out of or are related to any event, occurrence, condition or relationship

prior to termination of this Agreement to Issue Bonds, whether such Losses or Claims, or both, are asserted prior to termination of this Agreement to Issue Bonds or thereafter. Neither the Corporation nor the Unit shall be liable to the User for, and the User hereby releases each of them from, all liability to the User for any injuries, damages or destruction to all or any part or parts of any property owned or claimed by the User that directly or indirectly result from, arise out of or relate to the issuance, offering, sale or delivery of the Bonds or the design, construction, installation, operation, use, occupancy, maintenance or ownership of the Project or any part thereof, even if such injuries, damages or destruction directly or indirectly result from, arise out of or relate to, in whole or in part, one or more negligent acts or omissions of the Corporation or the Unit or any of the officers, employees, agents, servants or any other party acting for or on behalf of the Corporation or the Unit. The Corporation and the Unit, as appropriate, shall reimburse the User for payments made by the User to the extent of any proceeds, net of all expenses of collection, actually received by them from any insurance with respect to the Loss sustained. The Corporation and the Unit shall have the duty to claim any such insurance proceeds and the Corporation and the Unit, as appropriate, shall assign their respective rights to such proceeds, to the extent of such required reimbursement, to the User. In case any action shall be brought against the Corporation or the Unit, in respect of which indemnity may be sought against the User, the indemnified party shall promptly notify the User in writing and the User shall have the right to assume the investigation and defense thereof including the employment of counsel and the payment of all expenses. The indemnified party shall have the right to employ separate counsel in any such action and participate in the investigation and defense thereof, but the fees and expenses of such counsel shall be paid by the indemnified party unless the employment of such counsel has been authorized by the User. The User shall not be liable for any settlement of any such action without its consent but, if any such action is settled with the consent of the User or if there be final judgment for the plaintiff of any such action, the User agrees to indemnify and hold harmless the Corporation and the Unit from and against any Loss by reason of such settlement or judgment. The provisions of this paragraph shall survive the expiration or termination of this Agreement to Issue Bonds.

7. If within three (3) years from the date hereof (or such later date as shall be mutually satisfactory to the Corporation and the User) the Corporation and the User shall not have agreed to mutually acceptable terms for the Bonds and for the sale and delivery thereof and mutually acceptable terms and conditions of the Agreement, the User agrees that it will pay the Corporation for all unpaid Project Costs which the Corporation shall have incurred and this Agreement to Issue Bonds shall thereupon terminate. In the event that the User elects, prior to any such termination, not to proceed with the issuance of the Bonds for any reason, it shall so notify the Corporation in writing and shall promptly pay to the Corporation all Project Costs incurred by the Corporation prior to such notification, and if payment is so made, the User's obligations under paragraph 5 above shall terminate from and after the date of such notification.

8. The User may, without the consent of the Corporation, transfer or assign this Agreement to Issue Bonds or transfer or assign any or all of its rights and delegate any or all of its duties hereunder to any of its subsidiaries or affiliates currently existing or hereafter created, but no such transfer, assignment or delegation shall, without the written consent and approval of the Corporation, relieve the User of its liability for payment of Project Costs under paragraphs 5 and 7 hereof or indemnification under paragraph 6 hereof.

This Agreement to Issue Bonds and accompanying authorizing resolution shall be deemed and construed a resolution authorizing the issuance of the Bonds and other similar official action of the Corporation, acting by and through its Board of Directors, toward the issuance of the Bonds as herein contemplated.

18

IN WITNESS WHEREOF, the Fort Bend County Industrial Development Corporation acting pursuant to a resolution of its Board of Directors, and John Donald Hull (dba Hull Airport) have caused this Agreement to Issue Bonds to be executed and attested by their duly authorized officers, as appropriate, as of the year and date first above written.

On Motion of Commissioner Alton B. Pressley, seconded by Commissioner W. Lee Schmidt, and duly passed, the court approved the Resolution concerning issuance of Bonds by and between Fort Bend County Industrial Development Corporation and Castone Development Corporation to finance a project for Castone Development Corporation.

Whereas, the issuer finds, intends and declares that this Resolution shall constitute its official binding commitment, subject to the terms hereof, to issue bonds, or other obligations, pursuant to the Act in an amount prescribed by the user now contemplated to be up to \$2,000,000.00 (but not to exceed \$10,000,000 in any event) and to expend the proceeds thereof to acquire, construct, and install the project and to pay all expenses and costs of the issuer in connection with the issuance of the Bonds.

RESOLUTION CONCERNING ISSUANCE OF BONDS
TO FINANCE A PROJECT FOR
CASTONE DEVELOPMENT CORPORATION

18

WHEREAS, pursuant to the Development Corporation Act of 1979, Article 5190.6, Vernon's Texas Civil Statutes, as amended (the "Act"), the Fort Bend County Industrial Development Corporation, a nonprofit corporation (the "Corporation"), has been duly created and approved by Fort Bend County, Texas (the "Unit").

WHEREAS, the Issuer, on behalf of the Unit is empowered to finance the cost of projects to promote and develop industrial and manufacturing enterprises to promote and encourage employment, the public health, and the public welfare by the issuance of obligations of the Issuer, which projects will be inside the Unit's boundaries.

WHEREAS, Castone Development Corporation (the "User") has filed an application which is attached hereto as Exhibit "A" and made a part hereof for all purposes (the "Application") requesting that the Issuer finance a project described in the Application (the "Project") within the boundaries of the Unit and further that the Issuer adopt this Resolution with respect to the acquisition, construction, and installation of the Project;

WHEREAS, the User has advised the Issuer that a contributing factor which would further induce the User to proceed with providing for the acquisition and construction of the Project would be a commitment and agreement by the Issuer to issue industrial development revenue bonds pursuant to the Act (the "Bonds") to finance and pay for the Project;

WHEREAS, in view of rising construction costs and the necessity of compliance with administrative regulations, it is considered essential that construction of the Project be completed at the earliest practicable date but, at the same time, the User wishes to begin construction of the Project after satisfactory assurances from the Issuer that the proceeds of the sale of the Bonds, or other obligations, of the Issuer in an amount necessary to pay the costs of the Project will be made available to finance the Project;

WHEREAS, the Issuer finds, intends, and declares that this Resolution shall constitute its official binding commitment, subject to the terms hereof, to issue Bonds, or other obligations, pursuant to the Act in an amount prescribed by the User now contemplated to be up to \$2,000,000 (but not to exceed \$10,000,000 in any event) and to expend the proceeds thereof to acquire, construct, and install the Project and to pay all expenses and costs of the Issuer in connection with the issuance of the Bonds; and

WHEREAS, the Issuer finds, considers, and declares that the issuance and sale of the Bonds in the amount and for the purpose hereinabove set forth will be appropriate and consistent with the objectives of the Act, and that the adoption of this Resolution is and constitutes and is intended as (i) an inducement to the Issuer to proceed with providing for the acquisition and construction of the Project and (ii) the taking of affirmative official action by the Issuer, acting by and through its Board of Directors, towards the issuance of the Bonds within the meaning of federal income tax law with respect to interest on the Bonds to finance certain facilities to be financed by the issuance of exempt small issue bonds or exempt facilities, including Treas. Reg. §1.103-8(a)(5);

THEREFORE, BE IT RESOLVED BY THE BOARD OF DIRECTORS OF THE FORT BEND COUNTY INDUSTRIAL DEVELOPMENT CORPORATION THAT:

Section 1. Subject to the terms hereof, the Issuer agrees that it will:

(a) Issue the Bonds, and if the User and the Issuer agree, other evidences of indebtedness providing temporary financing of the Project which will be issued after the date hereof and be refunded by the Bonds pursuant to the Act, or any other Texas legislation heretofore or hereafter enacted which may provide a suitable method of financing in addition to or in substitution for the Act.

(b) Cooperate with the User with respect to the issuance of the Bonds, and, if arrangements therefor satisfactory to the User and the Issuer can be made, the Issuer will take such action and authorize the execution of such documents and will take such further action as may be necessary or advisable for the authorization, execution, and delivery of any contracts or agreements deemed necessary or desirable by the User or the Issuer in connection with the issuance of the Bonds (collectively, the "Contracts"), providing among other things for payment of the principal of, interest on, redemption premiums, paying agents' charges, and Trustee's

fees, if any, on the Bonds; payment of fees and charges of the Issuer or the Unit; acquisition, construction, and improvement of the Project; payment of fines and penalties; and use, operation, and maintenance of the Project (and the execution of any appropriate and necessary guaranty agreements), all as shall be authorized, required, or permitted by law and as shall be mutually satisfactory to the Issuer, the Unit, and the User.

(c) If the proceeds from the sale of the Bonds are insufficient, take such actions and execute such documents as may be necessary to permit the issuance from time to time in the future of additional bonds on terms which shall be set forth therein, whether on a parity with other series of bonds or otherwise, for the purpose of paying the costs of completing the acquisition, construction, and installation of the Project, as requested by the User and within then applicable limitations.

(d) Take or cause to be taken such other actions as may be required to implement the aforesaid undertakings or as it may deem appropriate in pursuance thereof.

The Bonds shall specifically provide that neither the State of Texas, the Unit, nor any political issuer, subdivision, or agency of the State of Texas shall be obligated to pay the same or the interest thereon and that neither the faith and credit nor the taxing power of the State of Texas, the Unit, or any political issuer, subdivision, or agency thereof is pledged to the payment of the principal of, premium, if any, or interest on the Bonds.

Section 2. It is understood by the Issuer and the Unit, and the User has represented to the Issuer, that in consideration of this Resolution and by filing the Application, and subject to the terms and conditions hereof, the User has agreed that:

(a) Prior to or contemporaneously with the sale of the Bonds in one or more series or issues from time to time as the Issuer and the User shall hereafter agree to in writing, the User will enter into the Contracts with the Issuer under the terms of which the User will obligate itself to pay to the Issuer (or to a Trustee, as the case may be) sums sufficient in the aggregate to pay the principal of, interest on, redemption premiums, paying agents' fees, and Trustee's fees, if any, on the Bonds, as and when the same become due and payable, with such contract to contain the provisions described in Section 1 hereof and such other provisions as may be required or permitted by law and to be mutually acceptable to the Issuer and the User.

(b) The User will (1) pay all Project costs which are not or cannot be paid or reimbursed from the proceeds of the Bonds and (2) at all times indemnify and hold harmless the Corporation and the Unit against all losses, costs, damages, expenses, and liabilities (collectively referred to hereinafter as "Losses") of whatsoever nature (including, but not limited to, attorneys' fees, litigation and court costs, amounts paid in settlement and amounts paid to discharge judgments) directly or indirectly resulting from, arising out of or relating to one or more Claims, as hereinafter defined, even if such Losses or Claims, or both, directly or indirectly result from, arise out of or relate to, or are asserted to have resulted from, arisen out of or related to, in whole or in part, one or more negligent acts or omissions of the Corporation or the Unit or any of the officers, employees, agents, servants or any other party acting for or on behalf of the Corporation or the Unit. The term "Claims" as used herein shall mean all claims, lawsuits, causes of action and other legal actions and proceedings, involving bodily or personal injury or death of any person or damage to any property (including, but not limited to, persons employed by the Corporation, the Unit, the User or any other person and all property owned or claimed by the Corporation, the Unit, the User, any affiliate of the User or any other person) or involving damages relating to the issuance, offering, sale or delivery of the Bonds brought against the Corporation or the Unit or to which the Corporation or the Unit is a party, even if groundless, false or fraudulent, that directly or indirectly result from, arise out of or relate to the issuance, offering, sale or delivery of the Bonds or the design, construction, installation, operation, use, occupancy, maintenance or ownership of the Project or any part thereof. The obligations of the User shall apply to all Losses or Claims, or both, that result from, arise out of or are related to any event, occurrence, condition or relationship prior to termination of this Agreement to Issue Bonds, whether such Losses or Claims, or both, are asserted prior to termination of this Agreement to Issue Bonds or thereafter. Neither the Corporation nor the Unit shall be liable to the User for, and the User hereby releases each of them from, all liability to the User for any injuries, damages or destruction to all or any part or parts of any property owned or claimed by the User that directly or indirectly result from, arise out of or relate to the issuance, offering, sale or delivery of the Bonds or the design, construction, installation, operation, use, occupancy, maintenance or ownership of the Project or any part thereof, even if such injuries, damages or destruction

directly or indirectly result from, arise out of or relate to, in whole or in part, one or more negligent acts or omissions of the Corporation or the Unit or any of the officers, employees, agents, servants or any other party acting for or on behalf of the Corporation or the Unit. The Corporation and the Unit, as appropriate, shall reimburse the User for payments made by the User to the extent of any proceeds, net of all expenses of collection, actually received by them from any insurance with respect to the Loss sustained. The Corporation and the Unit shall have the duty to claim any such insurance proceeds and the Corporation and the Unit, as appropriate, shall assign their respective rights to such proceeds, to the extent of such required reimbursement, to the User. In case any action shall be brought against the Corporation or the Unit, in respect of which indemnity may be sought against the User, the indemnified party shall promptly notify the User in writing and the User shall have the right to assume the investigation and defense thereof including the employment of counsel and the payment of all expenses. The indemnified party shall have the right to employ separate counsel in any such action and participate in the investigation and defense thereof, but the fees and expenses of such counsel shall be paid by the indemnified party unless the employment of such counsel has been authorized by the User. The User shall not be liable for any settlement of any such action without its consent but, if any such action is settled with the consent of the User or if there be final judgment for the plaintiff of any such action, the User agrees to indemnify and hold harmless the Corporation and the Unit from and against any Loss by reason of such settlement or judgment. The provisions of this paragraph shall survive the expiration or termination of this Agreement.

18

Section 3. It is understood by the Issuer that all commitments of the Issuer and the User with respect to the Project and the Bonds are subject to the condition that the Bonds shall have been issued no later than December 31, 1984, or such other date as shall be mutually satisfactory to the Issuer and the User.

Section 4. The User may, without the consent of the Corporation, transfer or assign this Agreement or transfer or assign any or all of its rights and delegate any or all of its duties hereunder to any of its subsidiaries or affiliates currently existing or hereafter created, but no such transfer, assignment or delegation shall, without the written consent and approval of the Corporation, relieve the User of its liability for payment of Project costs or indemnification under Section 2 hereof.

Section 5. The adoption of this Resolution, as requested in the Application, shall be deemed to constitute the acceptance of the User's proposal that it be further induced to proceed with providing the Project and the Application and this Resolution shall constitute an agreement between the Issuer and the User effective on the date that this Resolution is adopted, and this Resolution is affirmative of official action taken by the Issuer towards the issuance of the Bonds.

RE: CANVASS RETURNS FROM THE NOVEMBER 2ND GENERAL ELECTION:

Before the court started the canvass of the returns of November 2nd General Election, the following petition was presented to the court for a Post election examination of programs, procedures, and other material; and probable recount of votes.

The District Attorney declared that the following petition did not meet the requirement of the election code.

CAUSE # _____

THE STATE OF TEXAS I

THE 268th DISTRICT COURT

COUNTY OF FORT BEND I

JUDGE A. REAGAN CLARK

PETITION FOR A POST ELECTION EXAMINATION OF
PROGRAMS, PROCEDURES, AND OTHER MATERIAL;
AND PROBABLE RECOUNT OF VOTES.

IN ACCORDANCE with the procedures outlined in V.A.T.S.
ELECTION CODE, Article 7.15, subdivision 23, we, the undersigned
petitioners, formally request that the authority charged with the
duty of canvassing the returns of the General Election held on
the 2nd day of November, 1982 defer the canvass of the votes in
the determination of the Constitutional Amendments and the office —
of the Justice of the Peace, Precinct 3, Fort Bend County, Texas —
until the procedures outlined below have been completed:

page 7

- (1) Permission to examine the program used in counting the ballots.
- (2) Permission to examine the materials used in making the test counts.
- (3) Permission to make a recount of the test count, using the program and the test materials.
- (4) If it is determined that there is an error in the above procedures, and that it affected the true count of the ballot, a recount of the ballot for all the election precincts using corrected materials and procedures.

IT HAS BEEN determined, through investigation and discussions with some precinct election judges, that the vote in the indicated areas has not been properly tabulated. A telephone conversation with the office of the Secretary of State in Austin, Texas, Mr. Horace Jennings, III, clearly indicate that the provisions outlined in V.A.T.S. ELECTION CODE, Article 6.06: How to Mark Ballot, were not followed in the Justice of the Peace, Precinct 3, Fort Bend County race; in that certain votes were not counted properly and were possibly given to one of the other candidates.

PAGE TWO: PETITION FOR A POST ELECTION EXAMINATION OF PROGRAMS, PROCEDURES, AND OTHER MATERIAL; AND PROBABLE RECOUNT OF VOTES.

WE ASK THE GRANTING of this petition in order that the tally, which reflects the true vote of the people, is correct without prejudice; that the integrity of the ballot is fully protected from wilful or accidental manipulation and distortion; and, that the constitutional right of a voter to vote as he or she chooses, for any qualified candidate or proposition, and that vote be properly counted and recorded as required by established law, not be circumvented, denied or counted for another candidate by the misuse of proper and required procedures. Convenience of counting the ballot should not and must not inhibit or deny the voter his or her right to vote their choice by any person or machine.

The Public hearing began with messages from developers, municipal and civic representatives and residents speaking as individuals supporting the proposal presented by Stanley Kucherka, Fort Bend County Engineer for the Fort Bend County Drainage District.

Addendum to 1983 Budget request as follows:

In the 1950's Fort Bend County constructed a drainage system primarily for agricultural drainage. Since that time land use has changed drastically and none of our major drains are adequate for flood control on the developing areas. This not only affects the land being planned for residential or commercial development, but also the existing farmland which is experiencing more flooding due to increased runoff on surrounding lands.

Fortunately the first development took place in areas that were near adequate drains in Harris County or near the Brazos River. These could be handled by limited off site construction. But now as growth continues it is impossible for landowners to construct the downstream improvements the many miles necessary to drain their land. It has become necessary to either construct detention facilities, which I do not feel is the best method, or not change land use and have it in pastureland. Detention is a costly and questionable solution and should only be used as a temporary solution until permanent facilities are available.

I would suggest that we not propose an immediate, very costly crash program to alleviate the situation, but a well planned on-going solution that grows with increased values and increased necessity for facilities. It is my suggestion that this program be implemented only if we see that there is wide based support for a solution to our flood control problem.

The program would consist of a 4¢ tax rate being set for major improvements only to major drainways in areas where present or anticipated land use would dictate improvements. This could be either accomplished by setting the 4¢ rate in Drainage or Lateral Road and Flood Control which are legal areas for this type of work.

The areas that would eventually require improvements, possibly in order of priority would be Oyster Creek and Flatbank Creek, Big Creek and its laterals, Ditch H to the Brazos River from North of Sugarland, Willow

Fork, Rabbs Bayou, Jones Creek, Mustang Creek and others as need arises.

A 4¢ rate would bring in approximately \$2,000,000 in 1983 and possibly more as the value in the County grows. At that rate we could start providing an adequate system in 1983 and have a fairly complete major outlet system in about 10 years. But while it was being developed we would be using it and paying for it.

An anticipated budget for 1983:

4¢ rate - income approximately	\$2,000,000.00
Begin major improvements on Oyster & Flatbank Creek	
Begin major improvements on Big Creek	\$ 650,000.00
Begin major improvements on Dry Creek	\$ 500,000.00
Begin major improvements on Ditch H	\$ 150,000.00
Bridge replacement program	\$ 200,000.00
	\$ 500,000.00

It would require no additional personnel in the Engineering Office, but probably some contract engineering for the major projects. We would anticipate using one big dragline we now have, but additional work would be contracted. One of the first items would be acquiring the needed additional right of way. Developers would still be required to provide adequate outlets, structures, etc., but we would be providing a system for carrying that runoff.

The following persons spoke to the Commissioners Court to support the Drainage District proposal.

The following resolutions were presented to the court.

RE: APPROVE 4TH QUARTER PAYMENT TO CENTRAL APPRAISAL DISTRICT IN THE AMOUNT OF \$42,036.25

On Motion of Commissioner Alton B. Pressley, seconded by Commissioner W. Lee Schmidt, and duly passed, the court approved the 4th quarter payment to Central Appraisal District in the amount of \$42,036.25.

RE: MR. AL DOBSON, ADULT PROBATION OFFICER - ADULT PROBATION BUILDING AND DISCUSS AND CONSIDER PLANS FOR EXPANSION OF COUNTY JAIL;

Architect Christopher DiStefano presented the court with preliminary sketches for expansion work for the County Jail, at no charge to the county.

He suggested the addition of a less expensive minimum security wing now, but also suggested laying a foundation for that wing which would be capable of supporting as many floors as the county feel will be necessary in the coming years.

DiStefano suggested that office space added to the jail for later use could be utilized by adult probation officers, which Al Dobson, Chief Adult Probation Officer, could not go along with that suggestion. However, Dobson agreed to check with the State Commission on adult probation and the district court to find out whether there are any guidelines pertaining to a probation department being located inside a jail.

The court will continue examining the jail expansion next week and decide whether or not it wants to formally engage DiStefano.

The court recessed to go into closed Session to discuss matter pertaining to litigations.

Closed session ended at 11:25 A.M. with no action taken in open court.

The court to continue their meeting at 1:15 P.M. to approve bills.

RE: CONSIDER APPROVING A RESOLUTION TO THE 68TH TEXAS LEGISLATURE IN SUPPORT OF INCREASED FUNDING FOR HIGHWAY CONSTRUCTION AND MAINTENANCE:

On Motion of Commissioner Alton B. Pressley, seconded by Commissioner W. Lee Schmidt, and duly passed, the court approved the Resolution to the 68th Texas Legislature in support of increased funding for highway construction and maintenance. Resolution as follows:

RESOLUTION:

State Highway Funding

The 72,000-mile Texas highway system, once recognized as the best in the nation, is deteriorating. According to studies of the Federal Highway Administration, Texas has 17,200 deficient bridges and 7,740 miles of highway rated in poor condition. Motorists in all parts of the state are suffering a continuing loss of mobility. Major problems have been observed on Farm to Market roads, rural primary highways, Interstate routes, and urban freeways.

Current funding sources available to the State Department of Highways and Public Transportation are inadequate to maintain the existing highway system and to improve the system to keep up with the growth of the state. It is estimated that the state's population will increase 50% by the year 2000. This anticipated growth will place substantially higher demands on the state's transportation facilities and services.

We urge the 68th Texas Legislature to act expeditiously to provide additional funding for highway construction and maintenance. We recommend that the level of state funding for highways be at least equivalent to defined state highway user fees and taxes. We further recommend that the state highway user fees be increased if necessary to meet the highway funding needs documented in the revised 20-Year Plan of the State Department of Highways and Public Transportation.

RE: CONSIDER APPROVING PETITION FOR DETACHMENT AND ANNEXATION OF TERRITORY BY FORT BEND INDEPENDENT SCHOOL DISTRICT:

On Motion of Commissioner Alton B. Pressley, seconded by Commissioner Johnnie Pustka, and duly passed, the court approved the Petition for detachment and annexation of territory by Fort Bend Bend Independent School District. Petition as follows:

TO THE COMMISSIONERS COURT OF FORT BEND COUNTY, TEXAS,
ACTING AS THE COUNTY BOARD OF EDUCATION

PETITION FOR DETACHMENT AND ANNEXATION OF TERRITORY BY
FORT BEND INDEPENDENT SCHOOL DISTRICT

TO THE HONORABLE COURT:

Now Come Fort Bend Independent School District (FBISD) and Stafford Municipal School District (SMSD) and hereby petition the Commissioners Court of Fort Bend County, Texas, acting as the County Board of Education, for approval of the detachment from SMSD and annexation of certain territory by FBISD. In support hereof petitioners would respectfully show unto the Court the following:

I.

FBISD is the owner of a 42.460 acre tract of land which is situated within SMSD and is contiguous to the common boundary line of FBISD and SMSD. This tract of land constitutes a part of the FBISD Dulles Campus whereon FBISD operates and maintains school and administration facilities. The 42.460 acre tract of land is more particularly described in Exhibit "A" attached hereto and made a part hereof for all purposes. Petitioners respectfully request that this 42.460 acre tract of land be detached from SMSD and annexed to FBISD.

II.

The tract of land described in Exhibit A is owned by FBISD, a governmental unit; therefore, the land and any improvements thereon are fully tax exempt and there is no effect on either school district's assessed valuation. There are no persons residing on any of the three tracts of land; therefore, there is no impact of the number of scholastics attending either school district. The change of boundaries between FBISD and SMSD requested by this petition will not affect, nor require any adjustment to, the outstanding indebtedness of either school district.

III.

The change of boundaries between FBISD and SMSD requested hereby are not designed to, nor do they in fact, create, maintain, reinforce, renew, or encourage a dual school system based on race, color, or national origin.

Wherefore, premises considered, Petitioners pray that an Order be entered transferring the territory and redefining the boundaries of FBISD and SMSD as requested herein.

Respectfully submitted,

FORT BEND INDEPENDENT SCHOOL DISTRICT

RE: DISCUSS AND CONSIDER SPECIFICATIONS ON COUNTY INSURANCE:

Since taking bids for County Insurance is a new ruling the Attorney Generals' Office informed that it would be very difficult to get specifications written for insurance before the end of the year and advised to renew the insurance for another year, but in the mean-time, show good faith in getting specifications and insurance needs in order so that will give the insurance company enough time to bid, and would consider that in compliance with the new ruling.

No action taken.

HOUSTON-GALVESTON AREA COUNCIL

Office of the President

December 14, 1982

The Honorable Jodie Stavinoha
County Judge, Fort Bend County
Fort Bend County Courthouse
Richmond, Texas 77469

Dear Jodie:

I am writing concerning Fort Bend County's 1983 dues to the Houston-Galveston Area Council.

I believe membership in H-GAC is an important resource for local governments in several important areas including:

- o criminal justice planning and services
- o water and sewer program assistance
- o parks program assistance
- o voluntary cooperative purchasing
- o local transportation planning

and many other services.

H-GAC's local elected official Board of Directors is vigilant to insure that our organization responds to local needs, and we believe H-GAC can be of even greater value in the future as programs and decision-making shift to the state and regional level. For that reason, H-GAC's elected official officers urge your continuing participation.

An H-GAC dues invoice is enclosed, and you will be pleased to learn that our dues are the same as last year, despite inflation. Finally, if you have any questions about H-GAC's programs or services, I hope you will contact me or Jack Steele our Executive Director.

Sincerely,

Mary E. Wilbanks

Councilwoman, City of Baytown

TO: COMMISSIONERS COURT
FROM: JIM H. BOOTH, SANITARY LANDFILL MANAGER
SUBJECT: LANDFILL FEES

I have discussed the current fee structure with Mrs. Sebesta, Office Manager. The last increase was effective in July 1981. As you are well aware our operating expenses have increased considerably in the last 19 months. I would recommend an increase not to exceed $12\frac{1}{2}\%$ of our current \$2.00 a cubic yard fee. The minimum charge we recommend to be .75¢ against our current .50¢ minimum.

The commercial haulers are definitely the benefactors of our low fees and charges by the cubic yard. The 30 yard compacted load at a current \$60.00 charge is quite cheap for some 30,000 lbs. as compared to 8 bags of garbage in a pickup for \$2.00. Consider a commercial fee differential.

The landfill took in \$1,025,979.50 in 1982, while the total expense to operate was \$815,911.23. I feel a $12\frac{1}{2}\%$ increase would be sufficient to maintain our profit structure.

You Commissioners have a much broader view of county business than do we here at the landfill. The decisions you make will be, as always, in the best interest of the citizens of Fort Bend County. We would like to give a notice of 30 days before any change would become effective.

Thank you for your consideration.

Respectfully submitted,

Jim H. Booth

Re: Petition for Speed Control and
Enforcement in Pecan Grove
Plantation Sub-Division

We, the undersigned residents of Pecan Grove Plantation Sub Division, Richmond, Texas, respectfully request that you give your serious consideration and attention to this petition.

Pecan Grove Plantation is only three and a half years old, but due to the rapid growth of this residential area, we have out-grown our existing speed control signs. The few signs that we have are totally inadequate to handle the density of daily traffic traveling our streets.

Our sub division is filled with two and three car families, teenagers on motor cycles, children on bikes, and golfers in their carts. Because we are still a development neighborhood under constant construction, our streets are used by hundreds of contractors, sub-contractors, and construction workers driving their cement trucks, pick-up trucks and eighteen wheelers. A great number of these trucks do not adhere to reasonable or safe speeds while in our sub division. The children in our community attend two different school districts, Ft. Bend and Lamar Consolidated, therefore, we have two groups of school buses running twice daily.

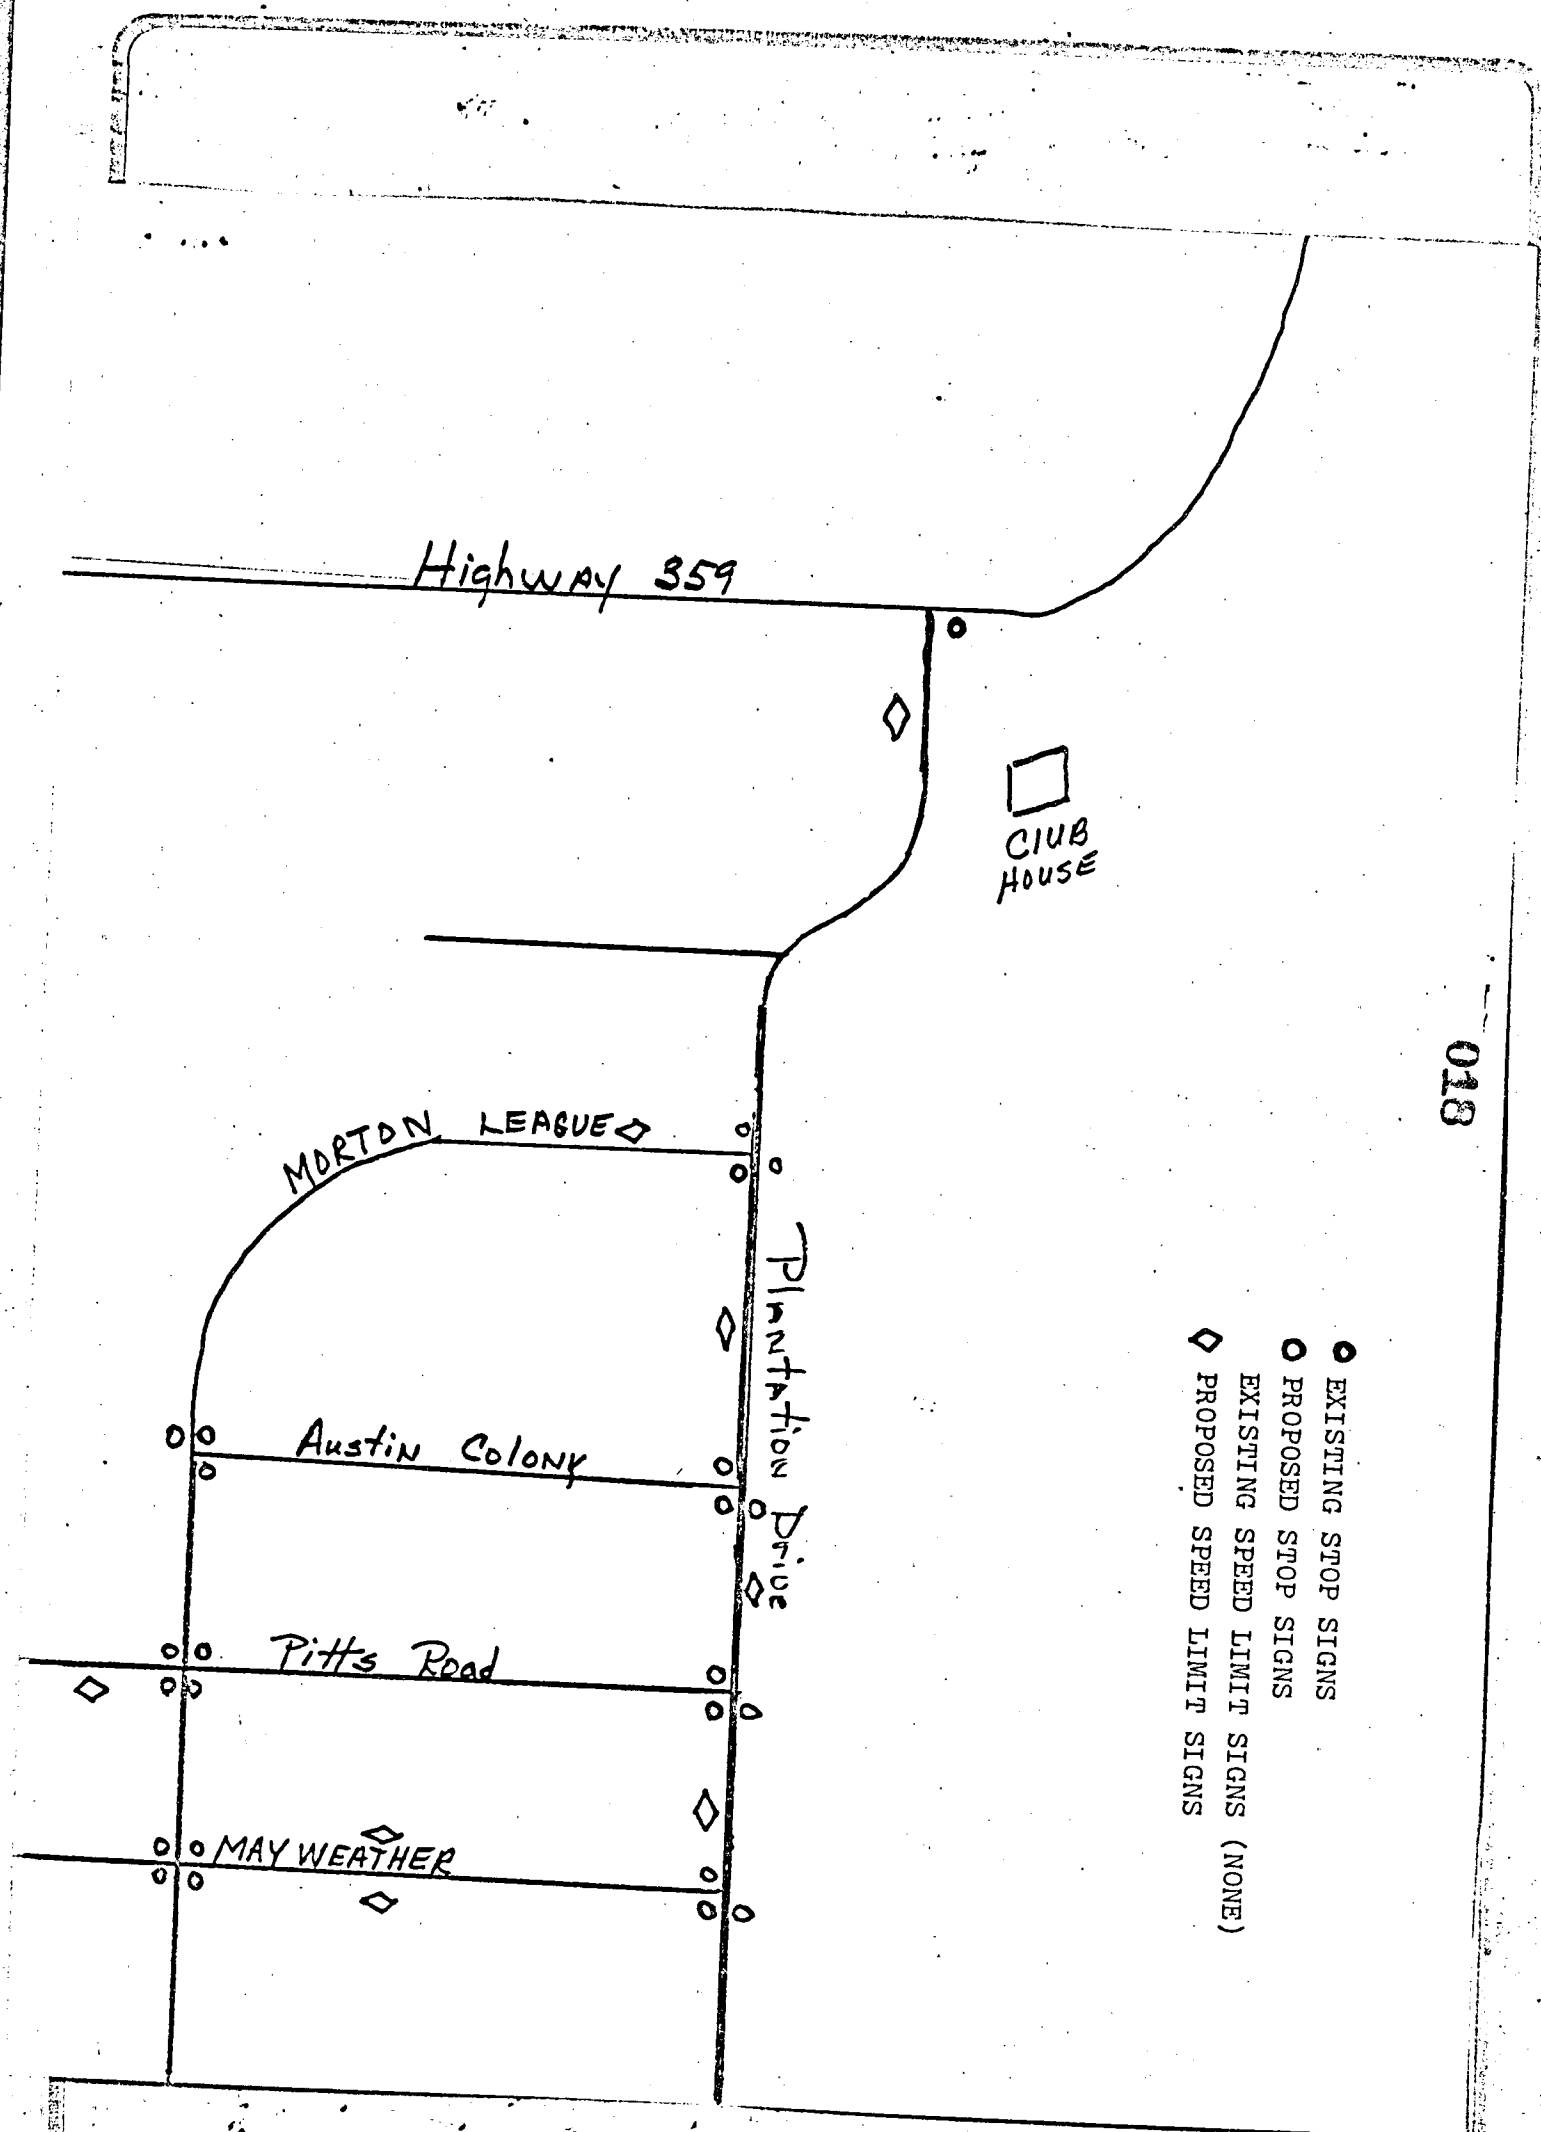

We are in desperate need of speed control signs at various dangerous intersections and on our streets to at least slow down the momentum gained from long stretches of pavement bearing no speed limit signs or stop signs.

We have talked to the Developer of our area and he recommended that we call the County. We called the County with our requests and they informed us that they are not responsible for our streets. We talked to the County Commissioner and he said that "his hands are tied" regarding this matter. We, as a community, have the funds to purchase these speed control signs, but we have no authority to do so. What few signs we do have cannot even be enforced by the County Sheriff because they have no jurisdiction. Only the Department of Public Safety has jurisdiction over our area, but they do not patrol neighborhoods.

We appeal to you for your assistance in helping us to obtain the necessary speed control signs that we feel are vital for a safer community. We plead for your support before a tragedy necessitates an even more desperate request!

and Enforcement

AGREEMENT

THE STATE OF TEXAS §
COUNTY OF FORT BEND §

THIS AGREEMENT, made and entered into by and between SUGAR CREEK HOMES ASSOCIATION, a corporation duly organized and existing under the laws of the State of Texas, and FORT BEND COUNTY, a body corporate and politic under the laws of the State of Texas.

WITNESSETH:

WHEREAS, SUGAR CREEK HOMES ASSOCIATION desires to have four (4) Deputies of the Constable - Precinct 3 - devote substantially all of their working time to the area known as SUGAR CREEK in Fort Bend County, Texas; and

WHEREAS, the Constable - Precinct 3 - of Fort Bend County does not have a sufficient number of deputies, nor an adequate budget, to enable him to permit or require a deputy to devote substantially all his working time to said area; and

WHEREAS, SUGAR CREEK HOMES ASSOCIATION is willing to pay FORT BEND COUNTY an amount equal to the salary and expenses of four (4) deputies of the Constable - Precinct 3 - so as to enable the Constable to appoint four (4) deputies for such purpose;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That in consideration of the mutual covenants, agreements and benefits to both parties, it is AGREED as follows:

1.

FORT BEND COUNTY agrees to authorize the Constable - Precinct 3 - of Fort Bend County to appoint or continue to keep four (4) additional deputies effective February 1, 1983 so as to enable (but not require) the Constable - Precinct 3 - to appoint or continue to keep four (4) deputies to devote substantially all their working time to the area known as SUGAR CREEK in Fort Bend County, Texas, so as to permit 24-hour daily duty in the area known as SUGAR CREEK. FORT BEND COUNTY

-463

agrees to provide the deputies of the Constable's Department - Precinct 3 - an automobile allowance of Four Hundred Fifty Dollars (\$450.00) per month to cover cost of maintenance, gasoline and other repairs to reimburse each deputy for the operation of his vehicle used to patrol SUGAR CREEK.

11.

SUGAR CREEK HOMES ASSOCIATION agrees to pay FORT BEND COUNTY One Hundred Nineteen Thousand Eight Hundred Fifty - nine Dollars and Ninety - six cents (\$119,859.96) to be used by FORT BEND COUNTY for the purpose of paying the salaries, the expenses of their motor vehicles for a period of one year beginning February 1, 1983 and ending December 31, 1983. The said sum of \$119,859.96 shall be due and payable in twelve (12) equal installments of \$10,896.36. The first monthly installment shall be due and payable on or before the 1st day of February 1, 1983 and each installment thereafter shall be due and payable on or before the 1st day of each and every month for a total of eleven (11) consecutive months.

111.

It is expressly understood and agreed that such deputies (if such deputies are employed by the Constable - Precinct 3) shall be subject to the control and supervision of the Constable - Precinct 3 - to the same extent as other deputies, if any, shall have no duty or obligation to SUGAR CREEK HOMES ASSOCIATION or SUGAR CREEK other than those duties and obligations which they have to the public generally; provided, however, except for the purpose of emergencies, it is intended that at least one of the Constable - Precinct 3 - deputies shall remain on patrol in SUGAR CREEK during such deputy's entire 12-hour shift and each successive shift of deputies to remain in SUGAR CREEK so as to provide 24-hour, 7-day-a-week patrol in SUGAR CREEK.

018

IV.

It is further understood and agreed that this agreement is not

intended (nor shall it be construed) to obligate the Constable - Precinct 3 - of Fort Bend County in any manner whatsoever, and that FORT BEND COUNTY shall have no liability whatsoever to SUGAR CREEK HOMES ASSOCIATION other than to refund the money paid by SUGAR CREEK HOMES ASSOCIATION to FORT BEND COUNTY pursuant to the agreement, if the Constable - Precinct 3 - does not assign four (4) deputies of the Constable - Precinct 3 - to devote substantially all their working time to said area. If one or more deputies are removed from such assignment or if for some other reason four (4) deputies do not devote substantially all their working time to said area for the entire one year term, then in that event, SUGAR CREEK HOMES ASSOCIATION shall be obligated to pay FORT BEND COUNTY only proportionate part of this total contract consideration that is equal to that portion of the one year period that four (4) deputies devoted substantially all their working time to said area, or the proportionate amount thereof based upon the number of said deputies which do devote substantially all of their working time to said SUGAR CREEK area, and if the amount paid by SUGAR CREEK HOMES ASSOCIATION to FORT BEND COUNTY exceeds said amount, then SUGAR CREEK HOMES ASSOCIATION shall be entitled to a refund from FORT BEND COUNTY of the excess amount paid for the preceding month.

V.

The Constable - Precinct 3 - of Fort Bend County will furnish SUGAR CREEK HOMES ASSOCIATION a monthly report of the activities of his deputies in SUGAR CREEK during the preceding month, with the form and details of such monthly report to be at the Constable's discretion. Said monthly report shall also advise the approximate percent of working time the four (4) deputies devoted to the SUGAR CREEK area during such preceding month, and SUGAR CREEK HOMES ASSOCIATION will remit its contract monthly installment payment for the current month in the same proportion to agree with the same percent of such working time for the prior month. The consideration in this contract is based upon 100% of such estimate service cost to FORT BEND COUNTY and

451

the parties desire that the four (4) deputies will be able to devote substantially all their working time to the SUGAR CREEK area, but realize that such may not be possible and have therefore so provided for such payment adjustment when required by such facts.

VI.

It is further agreed and provided that in the event the salary cost per Constable - Precinct 3 - deputy paid by FORT BEND COUNTY should be increased during the term of this Agreement, then the amount of consideration to be paid by SUGAR CREEK HOMES ASSOCIATION to FORT BEND COUNTY monthly under the terms hereof shall be increased by the amount of said salary increase for the remainder of the term of this Agreement beginning at the effective date of said salary increase. Said salary cost per Constable - Precinct 3 - deputy shall include the monthly salary paid the deputy, plus cost of his retirement, social security, and insurance benefit that is paid by FORT BEND COUNTY. In the event of such increase, then FORT BEND COUNTY shall notify SUGAR CREEK HOMES ASSOCIATION as to the amount and effective date thereof.

Sheriff Hurta;

After long and studied deliberations, the Sugar Creek Homes Assn. has decided not to renew the contract with Ft. Bend County, which provides for 24 hour a day Sheriff's Department deputy patrol of Sugar Creek. We would like to continue with our present contract patrol, with your consent, the consent of Judge Stavinoha, District Attorney Meitzen and the Fort Bend County Commissioners, the remainder of January, effecting a cessation 12:01 a.m., February 1, 1983.

The cooperation and attention you and your excellent department extended us over the years made this a very painful decision. However, a format that offers the residents a greater voice in security matters mandated the change. We are very grateful for the sacrifices made that provided the residents of Sugar Creek with a personal type of protection that was unique in Ft. Bend County at its inception.

A continuing relationship of welcome and cooperation is extended to you and your department by the entire community you serve so well.

Sincerely,

John A. Lynch

Honorable County Judge Jodie Stavinoha
and Comnty Commissioners

Let me thank you for your time and consideration. I am writing this letter on behalf of citizens of Arcola, City Council and myself a concerned tax payer. We have learned that our county commissioner has requested the desire to lease a five acre tract of land on McKeever Road, belonging to Mr. McCann and associates, for an estimated \$2000.00 per month.

We, the tax payers feel that the county already owns approximately 5 acres of land in Arcola on Coen Rd. (which is the old school) plus FBISD has approximately 5 acres on so on FM 521 at the Fresno Volunteer Fire Dept. that could be utilized for this use. I understand that the county might be able to purchase this land in Fresno. I realize that a working barn is the reason for this lease. Lets be realistic about his \$2000.00 a month is alot of money we believe that before you'll approve this lease that you'll take a look at other alternatives such as,, a shed on Coen Rd. could be built and could be used year after year a lot samller fee and would belong to the county and no more leases required. The other alternative would be to purchase some land and put a building on it. Please compare these alternatives.

I personally believe that I do not want to my tax money be spent this way especially when you take a look at our road full of pot holes that the county has failed to maintain or our ditches that have not been cleaned in years. Also some of the money could be spent on trying to get some sort of playground or recreation center for the kids in the Arcola-Fresno Area. None exist not nor have I heard of any that the county is trying to set one up either. We as the citizens of Arcola see our needs but do not have any funds to set one up- so I am asking the county for help. The money could be used in better ways than to lease land that the county already has land to build on. or add on.

The other issue I would like to address to you today is the NEW DUMP starting to set up in the Fresno Area. I thought we were trying to get rid of one further away from us on FM 2234 and now we are looking into a landfill less than 2 miles from Arcola. We feel that this would not work out either. Maybe the other tax payers in other areas of the county do not mind this but for us or the residence of Fresno it would not be fair to allow this NEW DUMP I have fought hard to try and stop the dumping in our city and county and have slowed it down considerable and will continue to do so. By allowing this new dump, more trash falls off the trucks going to this dump. It is never picked up by the trash truck drivers. I know this I live in this area. So before taking any action please b look into it more carefully.

Again let me give you thanks for all your time and cooperation and if any one of you has any solutions or can be of any assistance to us please contact me.

Ward successfully completed a forty hour course in the duties of the office of Justice of the Peace.

Honorable Jodie E. Stavinoha
County Judge
Fort Bend County, Texas

Your Honor;

By presentation of this letter, the Board of Directors of Sugar Creek Homes Association formally requests your approval and execution of an agreement between the Association and County whereby the Sugar Creek subdivision will compensate the County for and will receive patrol services from the Fort Bend County - Precinct 3 office. It is our understanding that this agreement was considered and approved by your Honorable Court on January 17, 1983.

This agreement is identical in form and content to prior agreements between the County and the Association with the exception that the earlier agreements related to patrol service provided by the Ft. Bend County Sheriff's department and stipulated a different amount of compensation.

In arriving at the decision to request service from the Constable's office as opposed to the Sheriff's department, the Association was motivated principally by the fact of the Precinct 3 Constable's office being located immediately adjacent to the subdivision's boundaries, thus affording better access and communication. Our decision was in no way an express or implied criticism of the services heretofore rendered by the Sheriff.

Your action in approving and implementing this agreement is greatly appreciated by the residents of Sugar Creek. We hope you share in our view that this type of agreement enhances the County's ability to meet its law enforcement responsibilities without committing additional tax dollars.

Very truly yours,

John A. Lynch

Hon. Jodie E. Stavinoha
Fort Bend County
Courthouse
Richmond, Texas 77469

Dear Judge Stavinoha:

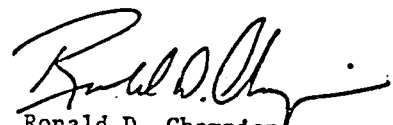

During the week of January 9-14, 1983, Judges Gary Frederickson, Robert Stahl and Mary S. Ward successfully completed a forty hour course in the duties of the office of Justice of the Peace. Article 5972 of the Texas Revised Civil Statutes requires each newly elected/appointed Justice of the Peace to complete a forty hour course in the duties of the Justice of the Peace office and to also complete a twenty hour course each year thereafter. This article affects all justices who took office since August 30, 1963 and are not licensed attorneys. This training program is provided at virtually no cost to the county through a grant from the Governor's Office, Criminal Justice Division.

018

We at the Training Center realize how important it is to you and the people you serve to insure that your county Justices of the Peace are properly trained and equipped to carry out the duties and obligations of the office. As almost ninety percent of our citizenry have their one and only contact with a lower court judge, it is imperative that this contact be as judicious as possible.

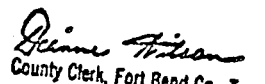

You may wish to enter this letter in the minutes of your next commissioners court meeting in order that it may become a permanent record. If we at the Training Center can ever be of assistance, please do not hesitate to call.

Sincerely,

Ronald D. Champion
Executive Director

THE STATE OF TEXAS §
COUNTY OF FORT BEND §

THIS AGREEMENT, made and entered into by and between SUGAR CREEK HOMES ASSOCIATION, a corporation duly organized and existing under the laws of the State of Texas, and FORT BEND COUNTY, a body corporate and politic under the laws of the State of Texas.

W I T N E S S E T H :

WHEREAS, SUGAR CREEK HOMES ASSOCIATION desires to have four (4) Deputies of the Constable - Precinct 3 - devote substantially all of their working time to the area known as SUGAR CREEK in Fort Bend County, Texas; and

WHEREAS, the Constable - Precinct 3 - of Fort Bend County does not have a sufficient number of deputies, nor an adequate budget, to enable him to permit or require a deputy to devote substantially all his working time to said area; and

WHEREAS, SUGAR CREEK HOMES ASSOCIATION is willing to pay FORT BEND COUNTY an amount equal to the salary and expenses of four (4) deputies of the Constable - Precinct 3 - so as to enable the Constable to appoint four (4) deputies for such purpose;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That in consideration of the mutual covenants, agreements and benefits to both parties, it is AGREED as follows:

1.

FORT BEND COUNTY agrees to authorize the Constable - Precinct 3 - of Fort Bend County to appoint or continue to keep four (4) additional deputies effective February 1, 1983 so as to enable (but not require) the Constable - Precinct 3 - to appoint or continue to keep four (4) deputies to devote substantially all their working time to the area known as SUGAR CREEK in Fort Bend County, Texas, so as to permit 24-hour daily duty in the area known as SUGAR CREEK. FORT BEND COUNTY

agrees to provide the deputies of the Constable's Department - Precinct 3 - an automobile allowance of Four Hundred Fifty Dollars (\$450.00) per month to cover cost of maintenance, gasoline and other repairs to reimburse each deputy for the operation of his vehicle used to patrol SUGAR CREEK.

11.

SUGAR CREEK HOMES ASSOCIATION agrees to pay FORT BEND COUNTY One Hundred Nineteen Thousand Eight Hundred Fifty - nine Dollars and Ninety - six cents (\$119,859.96) to be used by FORT BEND COUNTY for the purpose of paying the salaries, the expenses of their motor vehicles for a period of one year beginning February 1, 1983 and ending December 31, 1983. The said sum of \$119,859.96 shall be due and payable in twelve (12) equal installments of \$10,896.36. The first monthly installment shall be due and payable on or before the 1st day of February 1, 1983 and each installment thereafter shall be due and payable on or before the 1st day of each and every month for a total of eleven (11) consecutive months.

111.

It is expressly understood and agreed that such deputies (if such deputies are employed by the Constable - Precinct 3) shall be subject to the control and supervision of the Constable - Precinct 3 - to the same extent as other deputies, if any, shall have no duty or obligation to SUGAR CREEK HOMES ASSOCIATION or SUGAR CREEK other than those duties and obligations which they have to the public generally; provided, however, except for the purpose of emergencies, it is intended that at least one of the Constable - Precinct 3 - deputies shall remain on patrol in SUGAR CREEK during such deputy's entire 12-hour shift and each successive shift of deputies to remain in SUGAR CREEK so as to provide 24-hour, 7-day-a-week patrol in SUGAR CREEK.

L 018

IV.

It is further understood and agreed that this agreement is not

intended (nor shall it be construed) to obligate the Constable - Precinct 3 - of Fort Bend County in any manner whatsoever, and that FORT BEND COUNTY shall have no liability whatsoever to SUGAR CREEK HOMES ASSOCIATION other than to refund the money paid by SUGAR CREEK HOMES ASSOCIATION to FORT BEND COUNTY pursuant to the agreement, if the Constable - Precinct 3 - does not assign four (4) deputies of the Constable - Precinct 3 - to devote substantially all their working time to said area. If one or more deputies are removed from such assignment or if for some other reason four (4) deputies do not devote substantially all their working time to said area for the entire one year term, then in that event, SUGAR CREEK HOMES ASSOCIATION shall be obligated to pay FORT BEND COUNTY only proportionate part of this total contract consideration that is equal to that portion of the one year period that four (4) deputies devoted substantially all their working time to said area, or the proportionate amount thereof based upon the number of said deputies which do devote substantially all of their working time to said SUGAR CREEK area, and if the amount paid by SUGAR CREEK HOMES ASSOCIATION to FORT BEND COUNTY exceeds said amount, then SUGAR CREEK HOMES ASSOCIATION shall be entitled to a refund from FORT BEND COUNTY of the excess amount paid for the preceding month.

V.

The Constable - Precinct 3 - of Fort Bend County will furnish SUGAR CREEK HOMES ASSOCIATION a monthly report of the activities of his deputies in SUGAR CREEK during the preceding month, with the form and details of such monthly report to be at the Constable's discretion. Said monthly report shall also advise the approximate percent of working time the four (4) deputies devoted to the SUGAR CREEK area during such preceding month, and SUGAR CREEK HOMES ASSOCIATION will remit its contract monthly installment payment for the current month in the same proportion to agree with the same percent of such working time for the prior month. The consideration in this contract is based upon 100% of such estimate service cost to FORT BEND COUNTY and

the parties desire that the four (4) deputies will be able to devote substantially all their working time to the SUGAR CREEK area, but realize that such may not be possible and have therefore so provided for such payment adjustment when required by such facts.

VI.

It is further agreed and provided that in the event the salary cost per Constable - Precinct 3 - deputy paid by FORT BEND COUNTY should be increased during the term of this Agreement, then the amount of consideration to be paid by SUGAR CREEK HOMES ASSOCIATION to FORT BEND COUNTY monthly under the terms hereof shall be increased by the amount of said salary increase for the remainder of the term of this Agreement beginning at the effective date of said salary increase. Said salary cost per Constable - Precinct 3 - deputy shall include the monthly salary paid the deputy, plus cost of his retirement, social security, and insurance benefit that is paid by FORT BEND COUNTY. In the event of such increase, then FORT BEND COUNTY shall notify SUGAR CREEK HOMES ASSOCIATION as to the amount and effective date thereof.

RE: Speed limits in the Sugar Creek subdivision

Gentlemen:

On October 1, 1982, the Commissioners' Court of Fort Bend County was approached by the Sugar Creek Homes Association to request a reduction in the prima facie speed limit of 30 m.p.h. to 25 m.p.h. on all the streets in the Sugar Creek subdivision.

It has been determined that, at this time, the Commissioners' Court has the authority to set such a speed limit only on those roads that are publicly maintained.

These roads are found in the following sections: Sugar Creek, Section 1 (except Tiffany Lane), Sections 2, 3, 4, 5, 7, 9, 21, 23, 24 and 26 and Southwestern Blvd.

The only detrimental effect on traffic flow with this speed limit reduction could be a backing-up of vehicles. After studying the amount of traffic generated, it is felt that this backing-up effect will not occur on any of the roads in this subdivision that are presently County maintained.

Fort Bend County Engineering Department feels that there will not be a traffic flow problem with a speed limit reduction to 25 m.p.h. if that is what the residents of Sugar Creek want.

Very truly yours,

or agency of the State within the meaning of any State constitutional or statutory provision, shall never be paid in whole or in part out of any funds raised or to be raised by taxation or any other funds of the Unit, and shall never be paid in whole or in part out of any funds of the Corporation except those derived from or in connection with the sale or lease of the Project or the loan of funds to finance the Project; and

018 WHEREAS, to promote and encourage employment and the public welfare, the Corporation agrees to issue at the request of the User, one or more series of the Corporation's industrial development revenue bonds (the "Bonds") for the purpose of paying all or part of the cost of constructing and acquiring the Project, or for the purpose of loaning the proceeds to the User in order to provide temporary or permanent financing of all or part of the cost of constructing and acquiring the Project, and the Corporation and the User deem it desirable and proper that this Agreement to Issue Bonds constitute a formal record of such agreement and understanding in order that the User may proceed with or provide for the acquisition and construction of the Project; and

----- WHEREAS, the User has evidenced a desire to cooperate with the Corporation in the acquisition and construction of the Project and for the Corporation to authorize and issue the Bonds in the aggregate principal amount now estimated not to exceed \$4,000,000 to provide the funds to defray all or part of the cost of the acquisition and construction of the Project; and

WHEREAS, the Corporation and the User contemplate that the Project will be sold on an installment payment basis or leased to the User or that proceeds of the Bonds will be loaned to the User in order to provide temporary or permanent financing of all or part of the costs of the Project and that the installment purchase, rental or loan payments therefor will be sufficient to pay the principal of and any premium and interest on the Bonds; and

WHEREAS, it is the desire of the Corporation that the acquisition and construction of the Project occur at the earliest possible time so as to promote and encourage employment and the public welfare within the Unit; and

WHEREAS, it is intended that this Agreement to Issue Bonds shall constitute "some other similar official action" toward the issuance of the Bonds within the meaning of Section 1.103-8(a)(5) of the Treasury regulations issued pursuant to Section 103(b) of the Internal Revenue Code of 1954, as amended (the "Code");

NOW, THEREFORE, in consideration of the premises and other good and valuable consideration and of the mutual benefits, covenants and agreements herein expressed, the Corporation and the User agree as follows:

1. The User shall commence with the acquisition and construction of the Project, which Project will be in furtherance of the public purposes of the Corporation and the Unit as aforesaid, and the User will provide, or cause to be provided, at its expense, the necessary interim financing to expedite the commencement of the acquisition and construction of the Project. On or prior to the issuance of the Bonds, the User will enter into a purchase, lease or loan agreement on an installment payment basis (herein called the "Agreement") with the Corporation under which the Corporation will sell or lease the Project to the User or make a loan to the User for the purpose of providing temporary or permanent financing of all or part of the costs of the Project and the User will make installment payments sufficient to pay the principal of and any premium and interest on such series of Bonds. The Bonds shall never constitute an indebtedness or pledge of the faith and credit of the State, of the Unit, or of any other political corporation, subdivision or agency of the State within the meaning of any State constitutional or statutory provision, and the Bonds shall never be paid in whole or in part out of any funds raised or to be raised by taxation or any other funds of the Unit, and shall be payable from the funds of the Corporation derived from or in connection with the sale or lease of the Project or the loan of the proceeds of the Bonds.

2. On receipt of a ruling from the Internal Revenue Service (or the opinion of nationally recognized bond counsel) that interest paid on the Bonds is exempt from federal income taxation, the Corporation hereby agrees to issue, pursuant to the terms of the Act, the Bonds, or from time to time the portion thereof as may be the subject of such a ruling or opinion as aforesaid, in an appropriate principal amount not exceeding that which is the subject of a ruling

2 018

or opinion as aforesaid, maturing in such amount and times, bearing interest at the rates, payable on the dates and having such optional and mandatory redemption features and prices as are approved in writing by the User. The Corporation will deliver the Bonds to the purchaser designated by the User and will cooperate to the fullest extent in facilitating delivery of the Bonds.

3. The Corporation and the User agree that the Bonds may be issued either at one time or in several series from time to time as the User shall request in writing; provided, however, that the parties agree that the Bonds will be issued in an aggregate principal amount as will not exceed the amount which is the subject of a ruling or rulings or opinion or opinions as aforesaid. A request in writing for issuance of one or more series of Bonds shall not affect the obligation hereunder of the Corporation to issue the remaining Bonds as written requests therefor are received. It is further agreed that the proceeds of the Bonds or portions thereof whether or not issued in a series, shall not be invested so as to constitute the Bonds or a portion thereof as arbitrage bonds within the meaning of Section 103(c) of the Code and applicable regulations promulgated pursuant thereto.

4. The payment of the principal of and any premium and interest on the Bonds shall be made solely from moneys realized from the sale or lease of the Project or from moneys realized from the loan of the proceeds of the Bonds to finance all or part of the costs of the Project.

5. The costs of the Project (hereinafter the "Project Costs") may include any cost of acquiring, constructing, reconstructing, improving and expanding the Project. Without limiting the generality of the foregoing, the Project Costs shall specifically include the cost of the acquisition of all land, rights-of-way, property rights, easements and interests, the cost of all machinery and equipment, financing charges, interest prior to and during construction and for one year after completion of construction whether or not capitalized, necessary reserve funds, costs of estimates and of engineering and legal services, plans, specifications, surveys, estimates of cost and of revenue, other expenses necessary or incident to determining the feasibility and practicability of acquiring, constructing, reconstructing, improving and expanding the Project, administrative expenses and such other expenses as

may be necessary or incident to the acquisition, construction, reconstruction, improvement and expansion of the Project, the placing of the Project in operation and all incidental expenses, costs and charges relating to the Project not enumerated above. The parties agree, upon request, to provide or to cause to be provided to each other any data or information which may be reasonably required to verify any of the Project Costs enumerated in this paragraph. The User agrees that it will be responsible for and pay any Project Costs incurred prior to issuance of the Bonds and will pay all Project Costs which are not or cannot be paid or reimbursed from the proceeds of the Bonds.

6. The User agrees that it will at all times indemnify and hold harmless the Corporation and the Unit against all losses, costs, damages, expenses and liabilities (collectively referred to hereinafter as "Losses") of whatsoever nature (including, but not limited to, attorneys' fees, litigation and court costs, amounts paid in settlement and amounts paid to discharge judgments) directly or indirectly resulting from, arising out of or relating to one or more Claims, as hereinafter defined, even if such Losses or Claims, or both, directly or indirectly result from, arise out of or relate to, or are asserted to have resulted from, arisen out of or related to, in whole or in part, one or more negligent acts or omissions of the Corporation or the Unit or any of the officers, employees, agents, servants or any other party acting for or on behalf of the Corporation or the Unit. The term "Claims" as used herein shall mean all claims, lawsuits, causes of action and other legal actions and proceedings, involving bodily or personal injury or death of any person or damage to any property (including, but not limited to, persons employed by the Corporation, the Unit, the User or any other person and all property owned or claimed by the Corporation, the Unit, the User, any affiliate of the User or any other person) or involving damages relating to the issuance, offering, sale or delivery of the Bonds brought against the Corporation or the Unit or to which the Corporation or the Unit is a party, even if groundless, false or fraudulent, that directly or indirectly result from, arise out of or relate to the issuance, offering, sale or delivery of the Bonds or the design, construction, installation, operation, use, occupancy, maintenance or ownership of the Project or any part thereof. The obligations of the User shall apply to all Losses or Claims, or both, that result from, arise out of or are related to any event, occurrence, condition or relationship

018

prior to termination of this Agreement to Issue Bonds, whether such Losses or Claims, or both, are asserted prior to termination of this Agreement to Issue Bonds or thereafter. Neither the Corporation nor the Unit shall be liable to the User for, and the User hereby releases each of them from, all liability to the User for any injuries, damages or destruction to all or any part or parts of any property owned or claimed by the User that directly or indirectly result from, arise out of or relate to the issuance, offering, sale or delivery of the Bonds or the design, construction, installation, operation, use, occupancy, maintenance or ownership of the Project or any part thereof, even if such injuries, damages or destruction directly or indirectly result from, arise out of or relate to, in whole or in part, one or more negligent acts or omissions of the Corporation or the Unit or any of the officers, employees, agents, servants or any other party acting for or on behalf of the Corporation or the Unit. The Corporation and the Unit, as appropriate, shall reimburse the User for payments made by the User to the extent of any proceeds, net of all expenses of collection, actually received by them from any insurance with respect to the Loss sustained. The Corporation and the Unit shall have the duty to claim any such insurance proceeds and the Corporation and the Unit, as appropriate, shall assign their respective rights to such proceeds, to the extent of such required reimbursement, to the User. In case any action shall be brought against the Corporation or the Unit, in respect of which indemnity may be sought against the User, the indemnified party shall promptly notify the User in writing and the User shall have the right to assume the investigation and defense thereof including the employment of counsel and the payment of all expenses. The indemnified party shall have the right to employ separate counsel in any such action and participate in the investigation and defense thereof, but the fees and expenses of such counsel shall be paid by the indemnified party unless the employment of such counsel has been authorized by the User. The User shall not be liable for any settlement of any such action without its consent but, if any such action is settled with the consent of the User or if there be final judgment for the plaintiff of any such action, the User agrees to indemnify and hold harmless the Corporation and the Unit from and against any Loss by reason of such settlement or judgment. The provisions of this paragraph shall survive the expiration or termination of this Agreement to Issue Bonds.

7. If within three (3) years from the date hereof (or such later date as shall be mutually satisfactory to the Corporation and the User) the Corporation and the User shall not have agreed to mutually acceptable terms for the Bonds and for the sale and delivery thereof and mutually acceptable terms and conditions of the Agreement, the User agrees that it will pay the Corporation for all unpaid Project Costs which the Corporation shall have incurred and this Agreement to Issue Bonds shall thereupon terminate. In the event that the User elects, prior to any such termination, not to proceed with the issuance of the Bonds for any reason, it shall so notify the Corporation in writing and shall promptly pay to the Corporation all Project Costs incurred by the Corporation prior to such notification, and if payment is so made, the User's obligations under paragraph 5 above shall terminate from and after the date of such notification.

8. The User may, without the consent of the Corporation, transfer or assign this Agreement to Issue Bonds or transfer or assign any or all of its rights and delegate any or all of its duties hereunder to any of its subsidiaries or affiliates currently existing or hereafter created, but no such transfer, assignment or delegation shall, without the written consent and approval of the Corporation, relieve the User of its liability for payment of Project Costs under paragraphs 5 and 7 hereof or indemnification under paragraph 6 hereof.

This Agreement to Issue Bonds and accompanying authorizing resolution shall be deemed and construed a resolution authorizing the issuance of the Bonds and other similar official action of the Corporation, acting by and through its Board of Directors, toward the issuance of the Bonds as herein contemplated.

0618

IN WITNESS WHEREOF, the Fort Bend County Industrial Development Corporation acting pursuant to a resolution of its Board of Directors, and Champion Chemicals, Inc. have caused this Agreement to Issue Bonds to be executed and attested by their duly authorized officers, as appropriate, as of the year and date first above written.

Dear Judge Stavinoha:

I am a resident of Pecan Grove Plantation Subdivision. My home is located on Plantation Drive. Construction trucks and cars regularly drive down the street in excess of 40-50 miles per hour. I consider this to be an extremely hazardous situation, especially for the children on the street.

I urge you at your meeting on February 14, 1983 to institute and enforce speed controls for the benefit of those Fort Bend County residents living on these heavily trafficked streets.

Yours very truly,

RE: RENTAL AND LEASE PROPERTY

In reference to your inquiry about rental and lease property I owned approximately twenty-two (22) acres of land. This land is located between McKeever Road and Highway 6 in Arcola. I do have approximately two (2) acres leased to L. E. Meyers, electrical contractor for Houston Lighting and Power.

I am receiving \$800.00 per month for the two (2) acres of raw land leased to L. E. Meyers. This land is used for parking and equipment storage. There is one road entering into the property and no building involved.

Thank you for your inquiry and I will be happy to assist in any way I can.

A. Problem Statement -

There were 331 status offenders referred to the Ft. Bend County Probation Department during the year of 1982. We need continued support of the status offender program in Ft. Bend County. There is a need for a Non Threatening Environment for status offenders in crisis. This type of Emergency Shelter Facility can be used in lieu of detention and is more cost effective to contract these services through Youth Opportunities Unlimited Inc. located in Richmond, Texas.

B. Project Plan -

The primary purpose is to decrease the number of Juveniles Detained in Detention by referral and placement in Non-Secure Emergency Shelter Care.

C. Anticipated Results -

The primary objective is to decrease the number of juveniles detained in detention by referral and placement in non-secure emergency shelter care.

D. Existing Resources -

Youth Opportunities unlimited Inc. Emergency Youth Shelter - Good for 30 days.

FOR CONTINUATION PROJECTS ONLYE. Achievements -

1982 - We placed 37 juveniles in Emergency Shelter for a total of 358 days. Fort Bend County has recently opened a Juvenile Detention Facility which will increase our need for Emergency Shelter.

Dear Judge Stavinoha:

During the week of January 30-February 4, 1983, Judge Jim Scott successfully completed a forty hour course in the duties of the office of Justice of the Peace. Article 5972 of the Texas Revised Civil Statutes requires each newly elected/appointed Justice of the Peace to complete a forty hour course in the duties of the Justice of the Peace office and to also complete a twenty hour course each year thereafter. This article affects all justices who took office since August 30, 1963 and are not licensed attorneys. This training program is provided at virtually no cost to the county through a grant from the Governor's Office, Criminal Justice Division.

We at the Training Center realize how important it is to you and the people you serve to insure that your county Justices of the Peace are properly trained and equipped to carry out the duties and obligations of the office. As almost ninety percent of our citizenry have their one and only contact with a lower court judge, it is imperative that this contact be as judicious as possible.

You may wish to enter this letter in the minutes of your next commissioners court meeting in order that it may become a permanent record. If we at the Training Center can ever be of assistance, please do not hesitate to call.

Sincerely,

Scott Smith

Honorable Jodie E. Stavinoha

Dear Judge Stavinoha:

This is to advise you that Steep Bank Creek, 1.2 Mile S. of SH 6 has been selected for replacement or rehabilitation on the subject program of work.

We have enclosed an agreement for each structure in your area covered by this program to be completed and returned to us for further handling. Before the preliminary engineering can begin this document will have to be approved by the FHWA.

This 32' X 140' structure is estimated to cost \$216,000. A more detailed estimate will be made later when the plans are nearing completion. If you anticipate you will be unable to provide the necessary 20% of the cost as outlined in the agreement, please advise so we can cancel the project at an early stage.

If you have any questions regarding this program, please advise.

Very truly yours,

Omer F. Poorman

Dear Judge Stainoha:

We have a traffic problem on Paso Del Sol in our addition. This is one of the main entrance to our addition. Our Recreational Center is located at Paso Del Sol and Paso Dobbie Drive. Automobiles parked on Paso Del Sol in the 7000, 7100 and 7200 block of Paso Del Sol could block the vision of seeing little children going to the Recreational center. Some of these children have to cross Paso Del Sol.

During the peak rush hour, Automobiles parked on each side makes it almost impossible for two Autos meeting to pass each other. It is even worse when large 18 wheel trucks park in these blocks.

We would appreciate your consideration in ordering this hearing.

If the Commissioner's Court should approve, we would appreciate it if the Commissioner would install No Parking Signs.

Thanking you, I remain

Yours truly,

W. S. Arthur

ARTICLE 1

ARCHITECT'S SERVICES AND RESPONSIBILITIES

BASIC SERVICES

The Architect's Basic Services consist of the five phases described in Paragraphs 1.1 through 1.5 and include normal structural, mechanical and electrical engineering services and any other services included in Article 15 as part of Basic Services.

1.1 SCHEMATIC DESIGN PHASE

1.1.1 The Architect shall review the program furnished by the Owner to ascertain the requirements of the Project and shall review the understanding of such requirements with the Owner.

1.1.2 The Architect shall provide a preliminary evaluation of the program and the Project budget requirements, each in terms of the other, subject to the limitations set forth in Subparagraph 3.2.1.

1.1.3 The Architect shall review with the Owner alternative approaches to design and construction of the Project.

1.1.4 Based on the mutually agreed upon program and Project budget requirements, the Architect shall prepare, for approval by the Owner, Schematic Design Documents consisting of drawings and other documents illustrating the scale and relationship of Project components.

1.1.5 The Architect shall submit to the Owner a Statement of Probable Construction Cost based on current area, volume or other unit costs.

1.2 DESIGN DEVELOPMENT PHASE

1.2.1 Based on the approved Schematic Design Documents and any adjustments authorized by the Owner in the program or Project budget, the Architect shall prepare, for approval by the Owner, Design Development Documents consisting of drawings and other documents to fix and describe the size and character of the entire Project as to architectural, structural, mechanical and electrical systems, materials and such other elements as may be appropriate.

1.2.2 The Architect shall submit to the Owner a further Statement of Probable Construction Cost.

1.3 CONSTRUCTION DOCUMENTS PHASE

1.3.1 Based on the approved Design Development Documents and any further adjustments in the scope or quality of the Project or in the Project budget authorized by the Owner, the Architect shall prepare, for approval by the Owner, Construction Documents consisting of Drawings and Specifications setting forth in detail the requirements for the construction of the Project.

1.3.2 The Architect shall assist the Owner in the preparation of the necessary bidding information, bidding forms, the Conditions of the Contract, and the form of Agreement between the Owner and the Contractor.

1.3.3 The Architect shall advise the Owner of any adjustments to previous Statements of Probable Construction Cost indicated by changes in requirements or general market conditions.

1.3.4 The Architect shall assist the Owner in connection with the Owner's responsibility for filing documents required for the approval of governmental authorities having jurisdiction over the Project.

1.4 BIDDING OR NEGOTIATION PHASE

1.4.1 The Architect, following the Owner's approval of the Construction Documents and of the latest Statement of Probable Construction Cost, shall assist the Owner in obtaining bids or negotiated proposals, and assist in awarding and preparing contracts for construction.

1.5 CONSTRUCTION PHASE—ADMINISTRATION OF THE CONSTRUCTION CONTRACT

1.5.1 The Construction Phase will commence with the award of the Contract for Construction and, together with the Architect's obligation to provide Basic Services under this Agreement, will terminate when final payment to the Contractor is due, or in the absence of a final Certificate for Payment or of such due date, sixty days after the Date of Substantial Completion of the Work, whichever occurs first.

1.5.2 Unless otherwise provided in this Agreement and incorporated in the Contract Documents, the Architect shall provide administration of the Contract for Construction as set forth below and in the edition of AIA Document A201, General Conditions of the Contract for Construction, current as of the date of this Agreement.

1.5.3 The Architect shall be a representative of the Owner during the Construction Phase, and shall advise and consult with the Owner. Instructions to the Contractor shall be forwarded through the Architect. The Architect shall have authority to act on behalf of the Owner only to the extent provided in the Contract Documents unless otherwise modified by written instrument in accordance with Subparagraph 1.5.16.

1.5.4 The Architect shall visit the site at intervals appropriate to the stage of construction or as otherwise agreed by the Architect in writing to become generally familiar with the progress and quality of the Work and to determine in general if the Work is proceeding in accordance with the Contract Documents. However, the Architect shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of such on-site observations as an architect, the Architect shall keep the Owner informed of the progress and quality of the Work, and shall endeavor to guard the Owner against defects and deficiencies in the Work of the Contractor.

1.5.5 The Architect shall not have control or charge of and shall not be responsible for construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, for the acts or omissions of the Contractor, Sub-

contractors or any other persons performing any of the Work, or for the failure of any of them to carry out the Work in accordance with the Contract Documents.

1.5.6 The Architect shall at all times have access to the Work wherever it is in preparation or progress.

1.5.7 The Architect shall determine the amounts owing to the Contractor based on observations at the site and on evaluations of the Contractor's Applications for Payment, and shall issue Certificates for Payment in such amounts, as provided in the Contract Documents.

1.5.8 The issuance of a Certificate for Payment shall constitute a representation by the Architect to the Owner, based on the Architect's observations at the site as provided in Subparagraph 1.5.4 and on the data comprising the Contractor's Application for Payment, that the Work has progressed to the point indicated; that, to the best of the Architect's knowledge, information and belief, the quality of the Work is in accordance with the Contract Documents (subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to the results of any subsequent tests required by or performed under the Contract Documents, to minor deviations from the Contract Documents correctable prior to completion, and to any specific qualifications stated in the Certificate for Payment); and that the Contractor is entitled to payment in the amount certified. However, the issuance of a Certificate for Payment shall not be a representation that the Architect has made any examination to ascertain how and for what purpose the Contractor has used the moneys paid on account of the Contract Sum.

1.5.9 The Architect shall be the interpreter of the requirements of the Contract Documents and the judge of the performance thereunder by both the Owner and Contractor. The Architect shall render interpretations necessary for the proper execution or progress of the Work with reasonable promptness on written request of either the Owner or the Contractor, and shall render written decisions, within a reasonable time, on all claims, disputes and other matters in question between the Owner and the Contractor relating to the execution or progress of the Work or the interpretation of the Contract Documents.

1.5.10 Interpretations and decisions of the Architect shall be consistent with the intent of and reasonably inferable from the Contract Documents and shall be in written or graphic form. In the capacity of interpreter and judge, the Architect shall endeavor to secure faithful performance by both the Owner and the Contractor, shall not show partiality to either, and shall not be liable for the result of any interpretation or decision rendered in good faith in such capacity.

1.5.11 The Architect's decisions in matters relating to artistic effect shall be final if consistent with the intent of the Contract Documents. The Architect's decisions on any other claims, disputes or other matters, including those in question between the Owner and the Contractor, shall be subject to arbitration as provided in this Agreement and in the Contract Documents.

1.5.12 The Architect shall have authority to reject Work which does not conform to the Contract Documents. Whenever, in the Architect's reasonable opinion, it is

necessary or advisable for the implementation of the intent of the Contract Documents, the Architect will have authority to require special inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not such Work be then fabricated, installed or completed.

1.5.13 The Architect shall review and approve or take other appropriate action upon the Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for conformance with the design concept of the Work and with the information given in the Contract Documents. Such action shall be taken with reasonable promptness so as to cause no delay. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component.

1.5.14 The Architect shall prepare Change Orders for the Owner's approval and execution in accordance with the Contract Documents, and shall have authority to order minor changes in the Work not involving an adjustment in the Contract Sum or an extension of the Contract Time which are not inconsistent with the intent of the Contract Documents.

1.5.15 The Architect shall conduct inspections to determine the Dates of Substantial Completion and final completion, shall receive and forward to the Owner for the Owner's review written warranties and related documents required by the Contract Documents and assembled by the Contractor, and shall issue a final Certificate for Payment.

1.5.16 The extent of the duties, responsibilities and limitations of authority of the Architect as the Owner's representative during construction shall not be modified or extended without written consent of the Owner, the Contractor and the Architect.

1.6 PROJECT REPRESENTATION BEYOND BASIC SERVICES

1.6.1 If the Owner and Architect agree that more extensive representation at the site than is described in Paragraph 1.5 shall be provided, the Architect shall provide one or more Project Representatives to assist the Architect in carrying out such responsibilities at the site.

1.6.2 Such Project Representatives shall be selected, employed and directed by the Architect, and the Architect shall be compensated therefor as mutually agreed between the Owner and the Architect as set forth in an exhibit appended to this Agreement, which shall describe the duties, responsibilities and limitations of authority of such Project Representatives.

1.6.3 Through the observations by such Project Representatives, the Architect shall endeavor to provide further protection for the Owner against defects and deficiencies in the Work, but the furnishing of such project representation shall not modify the rights, responsibilities or obligations of the Architect as described in Paragraph 1.5.

1.7 ADDITIONAL SERVICES

The following Services are not included in Basic Services unless so identified in Article 15. They shall be provided if authorized or confirmed in writing by the Owner, and they shall be paid for by the Owner as provided in this Agreement, in addition to the compensation for Basic Services.

2.2 If the Owner provides a budget for the Project it shall include contingencies for bidding, changes in the Work during construction, and other costs which are the responsibility of the Owner, including those described in this Article 2 and in Subparagraph 3.1.2. The Owner shall, at the request of the Architect, provide a statement of funds available for the Project, and their source.

2.3 The Owner shall designate, when necessary, a representative authorized to act in the Owner's behalf with respect to the Project. The Owner or such authorized representative shall examine the documents submitted by the Architect and shall render decisions pertaining thereto promptly, to avoid unreasonable delay in the progress of the Architect's services.

2.10 The Owner shall furnish required information and services and shall render approvals and decisions as expeditiously as necessary for the orderly progress of the Architect's services and of the Work.

ARTICLE 3

CONSTRUCTION COST

3.1 DEFINITION

3.1.1 The Construction Cost shall be the total cost ~~estimated~~ to the Owner of all elements of the Project designed or specified by the Architect.

3.1.2 The Construction Cost shall include at current market rates, including a reasonable allowance for overhead and profit, the cost of labor and materials furnished by the Owner and any equipment which has been de-

signed, specified, selected or specially provided for by the Architect.

3.1.3 Construction Cost does not include the compensation of the Architect and the Architect's consultants, the cost of the land, rights-of-way, or other costs which are the responsibility of the Owner as provided in Article 2.

3.2 RESPONSIBILITY FOR CONSTRUCTION COST

3.2.1 Evaluations of the Owner's Project budget, Statements of Probable Construction Cost and Detailed Estimates of Construction Cost, if any, prepared by the Architect, represent the Architect's best judgment as a design professional familiar with the construction industry. It is recognized, however, that neither the Architect nor the Owner has control over the cost of labor, materials or equipment, over the Contractor's methods of determining bid prices, or over competitive bidding, market or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Project budget proposed, established or approved by the Owner, if any, or from any Statement of Probable Construction Cost or other cost estimate or evaluation prepared by the Architect.

3.2.2 No fixed limit of Construction Cost shall be established as a condition of this Agreement by the furnishing, proposal or establishment of a Project budget under Subparagraph 1.1.2 or Paragraph 2.2 or otherwise, unless such fixed limit has been agreed upon in writing and signed by the parties hereto. If such a fixed limit has been established, the Architect shall be permitted to include contingencies for design, bidding and price escalation, to determine what materials, equipment, component systems and types of construction are to be included in the Contract Documents, to make reasonable adjustments in the scope of the Project and to include in the Contract Documents alternate bids to adjust the Construction Cost to the fixed limit. Any such fixed limit shall be increased in the amount of any increase in the Contract Sum occurring after execution of the Contract for Construction.

3.2.3 If the Bidding or Negotiation Phase has not commenced within three months after the Architect submits the Construction Documents to the Owner, any Project budget or fixed limit of Construction Cost shall be adjusted to reflect any change in the general level of prices in the construction industry between the date of submission of the Construction Documents to the Owner and the date on which proposals are sought.

3.2.4 If a Project budget or fixed limit of Construction Cost (adjusted as provided in Subparagraph 3.2.3) is exceeded by the lowest bona fide bid or negotiated proposal, the Owner shall (1) give written approval of an increase in such fixed limit, (2) authorize rebidding or renegotiating of the Project within a reasonable time, (3) if the Project is abandoned, terminate in accordance with Paragraph 10.2, or (4) cooperate in revising the Project scope and quality as required to reduce the Construction Cost. In the case of (4), provided a fixed limit of Construction Cost has been established as a condition of this Agreement, the Architect, without additional charge, shall modify the Drawings and Specifications as necessary to comply

with the fixed limit. The providing of such service shall be the limit of the Architect's responsibility arising from the establishment of such fixed limit, and having done so, the Architect shall be entitled to compensation for all services performed, in accordance with this Agreement, whether or not the Construction Phase is commenced.

ARTICLE 4

DIRECT PERSONNEL EXPENSE

4.1 Direct Personnel Expense is defined as the direct salaries of all the Architect's personnel engaged on the Project, and the portion of the cost of their mandatory and customary contributions and benefits related thereto, such as employment taxes and other statutory employee benefits, insurance, sick leave, holidays, vacations, pensions and similar contributions and benefits.

ARTICLE 5

REIMBURSABLE EXPENSES

5.1.6 Expense of any additional insurance coverage or limits, including professional liability insurance, requested by the Owner in excess of that normally carried by the Architect and the Architect's consultants.

ARTICLE 6

PAYMENTS TO THE ARCHITECT

6.1 PAYMENTS ON ACCOUNT OF BASIC SERVICES

6.1.1 An initial payment as set forth in Paragraph 14.1 is the minimum payment under this Agreement.

6.1.2 Subsequent payments for Basic Services shall be made monthly and shall be in proportion to services performed within each Phase of services, on the basis set forth in Article 14.

6.1.3 If and to the extent that the Contract Time initially established in the Contract for Construction is exceeded

or extended through no fault of the Architect, compensation for any Basic Services required for such extended period of Administration of the Construction Contract shall be computed as set forth in Paragraph 14.4 for Additional Services.

6.1.4 When compensation is based on a percentage of Construction Cost, and any portions of the Project are deleted or otherwise not constructed, compensation for such portions of the Project shall be payable to the extent services are performed on such portions, in accordance with the schedule set forth in Subparagraph 14.2.2, based on (1) the lowest bona fide bid or negotiated proposal or, (2) if no such bid or proposal is received, the most recent Statement of Probable Construction Cost or Detailed Estimate of Construction Cost for such portions of the Project.

6.2 PAYMENTS ON ACCOUNT OF ADDITIONAL SERVICES

6.2.1 Payments on account of the Architect's Additional Services as defined in Paragraph 1.7 and for Reimbursable Expenses as defined in Article 5 shall be made monthly upon presentation of the Architect's statement of services rendered or expenses incurred.

6.3 PAYMENTS WITHHELD

6.3.1 No deductions shall be made from the Architect's compensation on account of penalty, liquidated damages or other sums withheld from payments to contractors, or on account of the cost of changes in the Work other than those for which the Architect is held legally liable.

6.4 PROJECT SUSPENSION OR TERMINATION

6.4.1 If the Project is suspended or abandoned in whole or in part for more than three months, the Architect shall be compensated for all services performed prior to receipt of written notice from the Owner of such suspension or abandonment, together with Reimbursable Expenses then due and all Termination Expenses as defined in Paragraph 10.4. If the Project is resumed after being suspended for more than three months, the Architect's compensation shall be equitably adjusted.

ARTICLE 7

ARCHITECT'S ACCOUNTING RECORDS

7.1 Records of Reimbursable Expenses and expenses pertaining to Additional Services and services performed on the basis of a Multiple of Direct Personnel Expense shall be kept on the basis of generally accepted accounting principles and shall be available to the Owner or the Owner's authorized representative at mutually convenient times.

ARTICLE 8

OWNERSHIP AND USE OF DOCUMENTS

8.1 Drawings and Specifications as instruments of service are and shall remain the property of the Architect whether the Project for which they are made is executed or not. The Owner shall be permitted to retain copies, including reproducible copies, of Drawings and Specifications for information and reference in connection with the Owner's use and occupancy of the Project. The Drawings and Specifications shall not be used by the Owner on

other projects, for additions to this Project, or for completion of this Project by others provided the Architect is not in default under this Agreement, except by agreement in writing and with appropriate compensation to the Architect.

8.2 Submission or distribution to meet official regulatory requirements or for other purposes in connection with the Project is not to be construed as publication in derogation of the Architect's rights.

ARTICLE 9

ARBITRATION

9.1 All claims, disputes and other matters in question between the parties to this Agreement, arising out of or relating to this Agreement or the breach thereof, shall be decided by arbitration in accordance with the Construction Industry Arbitration Rules of the American Arbitration Association then obtaining unless the parties mutually agree otherwise. No arbitration, arising out of or relating to this Agreement, shall include, by consolidation, joinder or in any other manner, any additional person not a party to this Agreement except by written consent containing a specific reference to this Agreement and signed by the Architect, the Owner, and any other person sought to be joined. Any consent to arbitration involving an additional person or persons shall not constitute consent to arbitration of any dispute not described therein or with any person not named or described therein. This Agreement to arbitrate and any agreement to arbitrate with an additional person or persons duly consented to by the parties to this Agreement shall be specifically enforceable under the prevailing arbitration law.

9.2 Notice of the demand for arbitration shall be filed in writing with the other party to this Agreement and with the American Arbitration Association. The demand shall be made within a reasonable time after the claim, dispute or other matter in question has arisen. In no event shall the demand for arbitration be made after the date when institution of legal or equitable proceedings based on such claim, dispute or other matter in question would be barred by the applicable statute of limitations.

9.3 The award rendered by the arbitrators shall be final, and judgment may be entered upon it in accordance with applicable law in any court having jurisdiction thereof.

ARTICLE 10

TERMINATION OF AGREEMENT

10.1 This Agreement may be terminated by either party upon seven days' written notice should the other party fail substantially to perform in accordance with its terms through no fault of the party initiating the termination.

10.2 This Agreement may be terminated by the Owner upon at least seven days' written notice to the Architect in the event that the Project is permanently abandoned.

10.3 In the event of termination not the fault of the Architect, the Architect shall be compensated for all services performed to termination date, together with Reimbursable Expenses then due and all Termination Expenses as defined in Paragraph 10.4.

10.4 Termination Expenses include expenses directly attributable to termination for which the Architect is not otherwise compensated, plus an amount computed as a percentage of the total Basic and Additional Compensation earned to the time of termination, as follows:

- 1 20 percent if termination occurs during the Schematic Design Phase; or

11.2 Terms in this Agreement shall have the same meaning as those in AIA Document A201, General Conditions of the Contract for Construction, current as of the date of this Agreement.

11.3 As between the parties to this Agreement: as to all acts or failures to act by either party to this Agreement, any applicable statute of limitations shall commence to run and any alleged cause of action shall be deemed to have accrued in any and all events not later than the relevant Date of Substantial Completion of the Work, and as to any acts or failures to act occurring after the relevant Date of Substantial Completion, not later than the date of issuance of the final Certificate for Payment.

11.4 The Owner and the Architect waive all rights against each other and against the contractors, consultants, agents and employees of the other for damages covered by any property insurance during construction as set forth in the edition of AIA Document A201, General Conditions, current as of the date of this Agreement. The Owner and the Architect each shall require appropriate similar waivers from their contractors, consultants and agents.
