RE: ADOPTED HIGHWAY COMMISSION MINUTE ORDER No. 68283, STATE-WIDE PRIMA FACIE

On Motion of Commissioner Ed. H. Helwig seconded by Commissioner Paul R. Wenzel, Jr. and duly passed, the Court adopted the Highway Commission Minute Order No. 68283 on State-wide Prima Facie maximum speed limit of 55 M.P.H. on all streets, roads and highways in Texas follows:

Texas Highway Department
Form 330-A

MINUTE ORDER

Various County

Page 1 of 3 Pages

District No. Various

WHEREAS, Senate Bill 1 which was passed by the First Called Session of the 63rd Texas Legislature on December 20, 1973, and signed by the Governor of Texas on December 21, 1973, provides that the State Highway Commission may establish temporary speed limits on highways in the State under certain circumstances if specific procedures and proper notice to the public are followed in establishing such speed limits; and

WHEREAS, Senate Bill 1, Section 1 (b)(4), provides that the State Highway Commission may issue an Order establishing temporary speed limits if "the failure to alter State speed limits will prevent the State from receiving revenues for highway purposes from the Federal Government;" and

WHEREAS, Senate Bill 1, Section 1 (c), provides that "unless a specified speed limit is required by federal law or directive under threat of loss of federal highway funds then the State Highway Commission may not set maximum prima facie speed limits under this section of all vehicles below sixty (60) miles per hour;" and

6

WHEREAS, the United States Congress has enacted H.R. 11372, cited as the "Emergency Highway Energy Conservation Act," which was signed by the President of the United States on January 2, 1974; which Act provides that unless a State within 60 days after the enactment of the Federal Act establishes a maximum speed limit of 55 miles per hour for any highway within its jurisdiction, the Secretary of Transportation has the authority to withhold federal highway funds from any State failing to comply; and

District No. Various

WHEREAS, the State Highway Commission held a public hearing as required by Senate Bill 1 on January 8, 1974, at which hearing oral and written testimony was received and duly considered by the Commission;

NOW, THEREFORE, the State Highway Commission finds that failure to alter speed limits will prevent the State of Texas from receiving revenues for highway purposes from the Federal Government.

FURTHER, the State Highway Commission finds that a specified maximum speed limit of 55 miles per hour is required by Federal law, and that unless the State of Texas establishes a maximum speed limit of 55 miles per hour the State of Texas is threatened with the loss of Federal highway funds.

THEREFORE, the State Highway Commission hereby declares and fixes the maximum prima facie speed limit on all highways within the State of Texas, within and outside the limits of incorporated cities, to be fifty-five (55) miles per hour effective January 20, 1974, at 12:01 A.M.

The provisions of this Minute Order amend the provisions of all previous Minute Orders which establish limits higher than those specified above to the extent such speed limits conflict with this Minute Order, until such time as this Minute Order is amended or repealed for reasons that are consistent with Federal laws and directives or State law.

MINUTE ORDER

BE IT ORDERED by the State Highway Commission that the State Highway Engineer proceed in the most feasible and economical manner with assembling material and manufacturing of signs to implement this change, and then proceed to erect appropriate signs showing the maximum speed limits established herein.

IT IS FURTHER ORDERED by the State Highway Commission that the State Highway Engineer monitor and document circumstances which might relate to the establishment of speed limits and report to the Commission on a monthly basis in order that the Commission may make a finding as to whether this Minute Order should continue in effect.

S.B. No. 1

AN ACT

relating to the establishment of temporary speed limits on highways in the state under certain circumstances; specifying procedures for establishing such speed limits; providing for notice to the public; adding Section 169B to the Uniform Act Regulating Traffic on Highways, as amended (Article 670ld, Vernon's Texas Civil Statutes); providing a severability clause; and declaring an emergency.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. The Uniform Act Regulating Traffic on Highways, as amended (Article 670ld, Vernon's Texas Civil Statutes), is amended by adding Section 169B to read as follows:

"Section 169B. (a) If the State Highway Commission finds that the facts specified in Subsection (b) of this section exist, it may enter an order establishing maximum prima facie speed limits of not more than seventy (70) miles per hour applicable to all highways in this state, including highways under the control of the Texas Turnpike Authority, incorporated cities and towns, and counties. An order entered under this section does not have the effect of increasing a speed limit on any highway. The limits established under this section are prima facie prudent and reasonable speed limits enforceable in the same manner as prima facie limits established under other provisions of this article. When speed limits established under this section are in effect, they prevail over any other established speed limit which would

permit a person to operate a motor vehicle at a higher rate of speed, but do not apply to vehicles permitted to exceed established limits under Sections 24 and 172 of this Act.

"(b) An order issued under Subsection (a) of this section is justified if the commission finds the following facts exist, which must be stated in the order:

"(1) That a severe shortage of motor fuel or other petroleum product exists; and

"(2) That the shortage was caused by war, national emergency or other circumstances; and

"(3) That a reduction of speed limits will serve to foster conservation purposes and safety; or

"(4) The failure to alter state speed limits will prevent the state from receiving revenue for highway purposes from the federal government.

"(c) Unless a specific speed limit is required by federal law or directive under threat of loss of federal highway funds then the State Highway Commission may not set maximum prima facie speed limits under this section of all vehicles below sixty (60) miles per hour.

"(d) Before the commission may enter an order establishing a maximum prima facie speed limit, it must hold a public hearing preceded by the publication in at least three newspapers of general circulation in the state of a notice of the date, time, and place of the hearing and of the action proposed to be taken. The notice must be published at least 12 days before the date of the hearing.

At the hearing, all interested persons may present oral or written testimony regarding the proposed order.

"(e) When the commission enters an order under this section, it shall file the order in the office of the governor. The governor shall then undertake an independent finding of fact and determine the existence of the facts in Subdivisions (1), (2), (3) or (4) of Subsection (b) of this section. Before the eighth day after the order is filed in his office, the governor shall conclude his finding of fact, issue a proclamation stating whether the necessary facts exist to support the issuance of the commission's order, and file copies of the order and his proclamation in the office of the secretary of state.

"(f) If the governor's proclamation states that the facts necessary to support the issuance of the commission's order exist, the order takes effect according to Subsection (g) of this section. Otherwise, the order has no effect.

"(g) In an order issued under this section, the commission may specify the date on which the order takes effect, but that date may not be sooner than the eighth day after the order is filed with the governor. If the order contains no effective date, it takes effect on the 21st day after it is filed with the governor. Unless the order by its own terms expires earlier, it remains in effect until a subsequent order adopted by the procedure prescribed by this section amends or repeals it, except that any order adopted under this section expires when this section expires. The procedure for repealing an order is the same as for adopting

an order except that the commission and the governor must find that the facts required to support the issuance of an order under Subsection (b) of this section no longer exist.

"(h) When an order is adopted in accordance with this section, the commission and all governmental authorities responsible for the maintenance of highway speed limit signs shall proceed with appropriate action to conceal or remove all signs which give notice of a speed limit higher than the one contained in the order and to erect appropriate signs. All governmental entities having responsibility for administration of traffic safety programs and the enforcement of traffic laws shall also proceed to use all available resources to notify the public of the effect of the order, and to accomplish this purpose they are directed to seek to enlist the cooperation of all news media in the state.

"(i) Any change in speed limits under this section shall be effective for a maximum of 120 days, unless the commission makes a finding prior to the expiration of the 120 day period that the conditions specified under Section 169B, Subsection (b) continue to exist. If such conditions are found to still exist such limits may be continued in effect for additional 120 day periods.

"(j) This section expires on April 1, 1975."

Sec. 2. If any provision of this Act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of

the Act which can be given effect without the invalid provision or application, and to this end the provisions of this Act are declared to be severable.

Sec. 3. The importance of this legislation and the crowded condition of the calendars in both houses create an emergency and an imperative public necessity that the constitutional rule requiring bills to be read on three several days in each house be suspended, and this rule is hereby suspended, and that this Act take effect and be in force from and after its passage, and it is so enacted.

NOTICE IS HEREBY GIVEN that sealed proposals (hereinafter sometimes called "bids") addressed to the Commissioners' Court of Fort Bend County, Texas, will be received at a meeting of the Commissioners' Court in the Commissioners' Courtroom in the County Courthouse, Richmond, Texas, until 10:00 a.m., Central Daylight Saving Time, February 11, 1974, at which time they will be publicly opened and read aloud, for furnishing all labor, materials, supplies, machinery, equipment, insurance, tools and superintendence for constructing public works for said County, to-wit: the improvement of lands, buildings, or historically significant objects for park purposes.

RE: Fort Bend County Fair &

Construction Alternates

Gentlemen:

We are pleased to submit an alternate design approach on the air conditioning systems for the above referenced project, for your consideration.

The attached drawings and specifications are self explanatory with respect to the changes involved, however, they are as outlined below.

1. The units shall packaged vertical type rather than a split system.
2. The systems are "zoned" by design to allow partial use within a building for small crowds or partitioning off of large areas.
3. The alternate design eliminates the cost and maintainance involved with the outdoor units and split systems.

The cost savings are as follows:

Outside Foundations - (One complete & One partial)

Deduct $310.00

Building "C" - A/C & Electrical Systems.

Deduct $1,785.00

Building "C" - Interior	No change
Building "B" - A/C & Electrical Systems	
Deduct	($2,225.00)
Building "B" - Interior	
Add	$775.00
Building "D" - A/C & Electrical Systems	
Deduct	($855.00)
Building "D" - Interior	
Add	$195.00
NET DEDUCT	($4,205.00)

Dear Mr. Kucherka,

I have reviewed the proposed changes on the air conditioning layout for buildings B, C, and D and in light of the savings to the owner, I recommend that the change be made and the savings of $4,205.00 be taken.

I have also reviewed the proposed changes on the electrical service from underground to aerial and I feel that this saving of $5,250.00 should be taken.

All other changes that are being proposed have been reviewed and I feel are sound and acceptable.

Sincerely,

Don L. Hampton

Dear Mr. McMahan:

At a regular meeting of the Commissioners' Court, the Commissioners voted to endorce the Economic Action Committee of Matagorda County as the Agency to administer the Full Year Head Start Program for the 1974-75 Program Year.

The Commissioners' Court agrees that the Grant will be administered more effectively by the Matagorda County Community Agency as opposed to delegate the program to Gulf Coast Area Child Development Council of Greater Houston (ACDC).

The Commissioners' Court recognizes the need to administer these funds at a local level in counties being served by this Grant.

Respectfully yours,

Josh Gates

Re: Account 8012-1-13
U. S. Highway 59
Ft. Bend County

Gentlemen:

The Houston Pipe Line Company is proposing to abandon and/or salvage that portion of our 18" pipeline which would be affected by your outfall channel at station 91+59 (U.S. 59). In order to do this it will be necessary to cut and cap this line west of this location and pour a concrete anchor block at this same location. See attached sketch.

The cutting, capping and anchor block would be the only portion of this work for which we would expect reimbursement from the county. We propose to do this by force account as per the attached labor schedule. The Houston Pipe Line Company would provide the materials. An estimated cost for materials and supervision is as follows:

One 18" Std. Wt. Weld Cap	$ 25.00
7.2 Yds. of Concrete in place @ $125.00/cu. yd.	900.00
Company Supervision & Expenses:	
Inspector - 10 hrs. @ $5.90/hr.	59.00
Company Car - 10 hrs. @ $1.25/hr.	12.50

Semi-Skilled labor - 20 hrs. @ $5.85/hr.	117.00
Welder - 10 hrs. @ $13.15/hr.	131.50
Welder's Helper - 10 hrs. @ $6.30/hr.	63.00
Equipment Operator - 10 hrs. @ $11.25/hr.	112.50
One Ton Truck w/Trailer, w/o Driver - 10 hrs. @ $5.50/hr.	55.00

Contingencies @ 10%	$ 167.15
Engineering, Overhead & Interest @ 5%	91.93
Total Estimated Cost	$1,930.58

As per our telephone conversation, we would like to do this work when the line is shut down for the Beasley Reroute project.

RE: Fort Bend County Fair & Recreation Center
TPC Job #358
Rodeo Arena Stands and Graveled Walk Areas

Dear Stanley:

In accordance with our meeting last Friday, I have pulled from our estimate the cubic yards of gravel required in our contract for the above referenced walk areas. As I reported to you on the phone, our calculations show 480 cubic yards of gravel required to be furnished by us on the project and this gravel is spread over approximately 8,000 square yards of surface area.

As we have previously discussed verbally, with respect to this trade out of work between our dirt work and gravel coverage in exchange for the foundations and erection of the bleachers, I propose as follows:

A. The Pope Company, Inc. will provide all drilled and belled footings for the erection of the rodeo bleachers.
B. 23~~12~~' x 160' concrete slab for the box seat area.
C. Circular concrete foundation noted as band area.
D. Entire erection only of the bleachers and box seats for the rodeo arena.

In exchange for the above referenced, Fort Bend County will provide as follows:

A. All remaining site dirt work as called to be provided by the general contractor.
B. All gravel toppings as called to be provided by the general contractor.
C. Sand fill in newly added "E" Building.
D. Credit for site grating to be provided by the general contractor but performed by the Fort Bend County to date.

We show the sand fill requirements for Building "E" to be approximately 550 yards compacted.

It is assumed that the erection of the bleachers is labor and equipment only; by that I mean the bleachers as they were dissassembled at the old fair grounds. It is presumed that all of the materials are there. If any additional steel would be required due to being lost in the transfer from the old fair grounds to the new fair grounds that would amount to an appreciable amount of dollars, we would have to adjust somehow to cover it. So we are assuming that all of the materials required to erect the bleachers and the box seats exist and we would provide all the labor and equipment necessary to assemble them and weld them out, etc.

If this sounds favorable to you, or if you have any further questions concerning the matter, please contact me and we will work it out to both our benefits.

Sincerely yours,

THE POPE COMPANY, INC.

PETITION FOR CREATION, ORGANIZATION AND ESTABLISHMENT OF FORT BEND COUNTY LEVEE IMPROVEMENT DISTRICT NO. 2

THE STATE OF TEXAS §
§
COUNTY OF FORT BEND §

TO THE HONORABLE COUNTY JUDGE AND COMMISSIONERS COURT OF FORT BEND COUNTY, TEXAS:

The undersigned, the owners of a majority of the acreage in the territory hereinafter described (herein the "Petitioners"), acting pursuant to the provisions of Chapter 57, Texas Water Code, as amended, and in keeping with the provisions of Article XVI, Section 59, of the Constitution of Texas, respectfully petition for the organization of a levee improvement district and would show as follows:

I.

The name of the proposed levee improvement district shall be Fort Bend County Levee Improvement District No. 2 (herein the "District").

II.

The District shall contain an area of approximately 5313 acres of land situated wholly within Fort Bend County, Texas, described by metes and bounds in Exhibit "A" attached hereto and made a part hereof for all purposes.

III.

The District shall be organized for the following purposes:

1. to construct and maintain levees and other improvements on, along, and contiguous to rivers, creeks, and streams within and adjacent to the District;

2. to reclaim lands within the District from overflow from these streams;

3. to control and distribute the waters of rivers and streams within and adjacent to the District by straightening and otherwise improving them; and

4. to provide for the proper drainage and other improvement of the reclaimed land within the District;

all as contemplated by Chapter 57, Texas Water Code, as amended, and Article XVI, Section 59, of the Constitution of Texas.

IV.

The general nature of the work proposed to be done at this time by the District is the building, acquisition, construction, completion, carrying out, maintaining, protection, and, in case of necessity, the addition to and rebuilding of all works and improvements within the District necessary or proper to fully accomplish a reclamation plan for draining land, constructing levees on land, and reclaiming land of the District from overflow or damage by waters from streams inside or adjacent to the District which may affect land in the District and, where necessary, the straightening of streams which may injure the land of the District.

V.

There is a necessity for the organization of the District and the proposed improvements for the reason that the territory to be included in the District is being or will be developed for residential, commercial, and/or industrial purposes, and the health and welfare of the present and future residents of the District and the protection of lands, property, residences, and commercial and industrial establishments within the District requires the construction of such proposed improvements.

VI.

The proposed improvements are feasible in that the necessary levees, bridges, drains, and other reclamation improvements can be acquired or constructed at reasonable costs, and taxes at reasonable rates can be levied within the District which will be sufficient to amortize all debt incurred by the District for the purpose of acquiring or constructing the needed improvements and to provide for the payment of all costs of proper maintenance, upkeep, and repair, and additions to the levees and other improvements in the District, and other costs or improvements authorized by Chapter 57, Texas Water Code, as amended.

VII.

The Petitioners propose that taxes to be levied by the District be levied on the benefit basis; provided, however, such proposal shall not be considered as limiting the authority of the Commissioners Court or the Board of Directors of the District from assessing, levying, and collecting taxes on the ad valorem basis, or a combination of ad valorem and benefit basis or in such other manner as may now or hereafter be authorized by law.

VIII.

The sum of Fifty Dollars ($50) has been deposited with the County Clerk of Fort Bend County as Ex Officio Clerk of the Commissioners Court to cover expenses incident to the hearing on this petition.

WHEREFORE, the undersigned respectfully pray: that this petition be properly filed as provided by law; that upon filing of this petition, the Honorable Commissioners Court

of Fort Bend County, Texas, if it be in session, and if not, then the Honorable County Judge of Fort Bend County, Texas, order that a hearing be set on this petition before said Commissioners Court or County Judge during the period beginning with the fifteenth (15th) day and ending with the thirtieth (30th) day after the date of such order; that the County Clerk be ordered to issue notice informing all persons concerned of the time and place of such hearing and of their right to appear at the hearing and contend for or contest the creation of the District; that such notice be given and posted as required by law by posting notice of such hearing at the courthouse door and at four (4) different places inside the proposed District for at least ten (10) days before the date of the hearing; that the County Clerk be ordered to mail notice of the hearing to the Texas Water Development Board, Austin, Texas, stating that this petition has been filed and including a statement of its general purpose and the time and place of the hearing; that said hearing be held and conducted as required by law and, if upon such hearing it be found that this petition sets forth and conforms to the requirements of law and is signed by the owners of a majority of the acreage in the proposed District, that notice of the hearing was given, that the proposed improvements are desirable, feasible, and practicable and would be a public utility and public benefit and conducive to public health, and that the District should be created, that the Commissioners Court so find and render its judgment reciting such findings and creating and establishing the District; that the Commissioners Court appoint three (3) persons to serve as directors of the

6

District in the manner provided by law; and for such other proceedings and orders as are proper and necessary and appropriate to the organization of said District and to the execution of the purposes for which said District shall be organized.

RESPECTFULLY SUBMITTED this 17th day of July, 1974.

Be it remembered that on the 14th day of November, 1974, there was presented to the County Judge and Commissioners' Court of Fort Bend County, Texas, a petition (hereinafter sometimes referred to as the "Petition") requesting creation of a levee improvement district to be known as Fort Bend County Levee Improvement District No. 2, of Fort Bend County, Texas, under the authority of Article XVI, Section 59, Texas Constitution and Title 4, Chapter 57, Texas Water Code, as amended, which Petition is in words and figures as follows:

PETITION FOR CREATION, ORGANIZATION
AND ESTABLISHMENT OF FORT BEND COUNTY
LEVEE IMPROVEMENT DISTRICT NO. 2

THE STATE OF TEXAS §
§
COUNTY OF FORT BEND §

TO THE HONORABLE COUNTY JUDGE AND COMMISSIONERS COURT OF FORT BEND COUNTY, TEXAS:

The undersigned, the owners of a majority of the acreage in the territory hereinafter described (herein the "Petitioners"), acting pursuant to the provisions of Chapter 57, Texas Water Code, as amended, and in keeping with the provisions of Article XVI, Section 59, of the Constitution of Texas, respectfully petition for the organization of a levee improvement district and would show as follows:

I.

The name of the proposed levee improvement district shall be Fort Bend County Levee Improvement District No. 2 (herein the "District").

II.

The District shall contain an area of approximately 5313 acres of land situated wholly within Fort Bend County, Texas, described by metes and bounds in Exhibit "A" attached hereto and made a part hereof for all purposes.

III.

The District shall be organized for the following purposes:

1. to construct and maintain levees and other improvements on, along, and contiguous to rivers, creeks, and streams within and adjacent to the District;

2. to reclaim lands within the District from overflow from these streams;

3. to control and distribute the waters of rivers and streams within and adjacent to the District by straightening and otherwise improving them; and

4. to provide for the proper drainage and other improvement of the reclaimed land within the District;

all as contemplated by Chapter 57, Texas Water Code, as amended, and Article XVI, Section 59, of the Constitution of Texas.

IV.

The general nature of the work proposed to be done at this time by the District is the building, acquisition, construction, completion, carrying out, maintaining, protection, and, in case of necessity, the addition to and rebuilding of all works and improvements within the District necessary or proper to fully accomplish a reclamation plan for draining land, constructing levees on land, and reclaiming land of the District from overflow or damage by waters from streams inside or adjacent to the District which may affect land in the District and, where necessary, the straightening of streams which may injure the land of the District.

V.

There is a necessity for the organization of the District and the proposed improvements for the reason that the territory to be included in the District is being or will be developed for residential, commercial, and/or industrial purposes, and the health and welfare of the present and future residents of the District and the protection of lands, property, residences, and commercial and industrial establishments within the District requires the construction of such proposed improvements.

VI.

The proposed improvements are feasible in that the necessary levees, bridges, drains, and other reclamation improvements can be acquired or constructed at reasonable costs, and taxes at reasonable rates can be levied within the District which will be sufficient to amortize all debt incurred by the District for the purpose of acquiring or constructing the needed improvements and to provide for the payment of all costs of proper maintenance, upkeep, and repair, and additions to the levees and other improvements in the District, and other costs or improvements authorized by Chapter 57, Texas Water Code, as amended.

VII.

The Petitioners propose that taxes to be levied by the District be levied on the ad valorem basis; provided, however, such proposal shall not be considered as limiting the authority of the Commissioners Court or the Board of Directors of the District from assessing, levying, and collecting taxes on the benefit basis, or a combination of ad valorem and benefit basis or in such other manner as may now or hereafter be authorized by law.

6

VIII.

PETITION FOR CREATION, ORGANIZATION AND ESTABLISHMENT OF FORT BEND, COUNTY LEVEE IMPROVEMENT DISTRICT NO. 3

THE STATE OF TEXAS §

COUNTY OF FORT BEND §

TO THE HONORABLE COUNTY JUDGE AND COMMISSIONERS COURT OF FORT BEND COUNTY, TEXAS:

The undersigned, the owners of a majority of the acreage in the territory hereinafter described (herein the "Petitioners"), acting pursuant to the provisions of Chapter 57, Texas Water Code, as amended, and in keeping with the provisions of Article XVI, Section 59, of the Constitution of Texas, respectfully petition for the organization of a levee improvement district and would show as follows:

I.

The name of the proposed levee improvement district shall be Fort Bend County Levee Improvement District No. 3 (herein the "District").

II.

The District shall contain an area of approximately 979.427 acres of land situated wholly within Fort Bend County, Texas, described by metes and bounds in Exhibit "A" attached hereto and made a part hereof for all purposes.

III.

The District shall be organized for the following purposes:

1. to construct and maintain levees and other improvements on, along, and contiguous to rivers, creeks, and streams within and adjacent to the District;

2. to reclaim lands within the District from overflow from these streams;

3. to control and distribute the waters of rivers and streams within and adjacent to the District by straightening and otherwise improving them; and

4. to provide for the proper drainage and other improvement of the reclaimed land within the District;

all as contemplated by Chapter 57, Texas Water Code, as amended, and Article XVI, Section 59, of the Constitution of Texas.

IV.

The general nature of the work proposed to be done at this time by the District is the building, acquisition, construction, completion, carrying out, maintaining, protection, and, in case of necessity, the addition to and rebuilding of all works and improvements within the District necessary or proper to fully accomplish a reclamation plan for draining land, constructing levees on land, and reclaiming land of the District from overflow or damage by waters from streams inside or adjacent to the District which may affect land in the District and, where necessary, the straightening of streams which may injure the land of the District.

V.

There is a necessity for the organization of the District and the proposed improvements for the reason that the territory to be included in the District is being or will be developed for residential, commercial, and/or industrial purposes, and the health and welfare of the present and future residents of the District and the protection of lands, property, residences, and commercial and industrial establishments within the District requires the construction of such proposed improvements.

6

VI.

The proposed improvements are feasible in that the necessary levees, bridges, drains, and other reclamation improvements can be acquired or constructed at reasonable costs, and taxes at reasonable rates can be levied within the District which will be sufficient to amortize all debt incurred by the District for the purpose of acquiring or constructing the needed improvements and to provide for the payment of all costs of proper maintenance, upkeep, and repair, and additions to the levees and other improvements in the District, and other costs or improvements authorized by Chapter 57, Texas Water Code, as amended.

VII.

The Petitioners propose that taxes to be levied by the District be levied on the ad valorem basis; provided, however, such proposal shall not be considered as limiting the authority of the Commissioners Court or the Board of Directors of the District from assessing, levying, and collecting taxes on the benefit basis, or a combination of ad valorem and benefit basis or in such other manner as may now or hereafter be authorized by law.

6

VIII.

The sum of Fifty Dollars ($50) has been deposited with the County Clerk of Fort Bend County as Ex Officio Clerk of the Commissioners Court to cover expenses incident to the hearing on this petition.

WHEREFORE, the undersigned respectfully pray: that this petition be properly filed as provided by law; that upon filing of this petition, the Honorable Commissioners Court

of Fort Bend County, Texas, if it be in session, and if not, then the Honorable County Judge of Fort Bend County, Texas, order that a hearing be set on this petition before said Commissioners Court or County Judge during the period beginning with the fifteenth (15th) day and ending with the thirtieth (30th) day after the date of such order; that the County Clerk be ordered to issue notice informing all persons concerned of the time and place of such hearing and of their right to appear at the hearing and contend for or contest the creation of the District; that such notice be given and posted as required by law by posting notice of such hearing at the courthouse door and at four (4) different places inside the proposed District for at least ten (10) days before the date of the hearing; that the County Clerk be ordered to mail notice of the hearing to the Texas Water Development Board, Austin, Texas, stating that this petition has been filed and including a statement of its general purpose and the time and place of the hearing; that said hearing be held and conducted as required by law and, if upon such hearing it be found that this petition sets forth and conforms to the requirements of law and is signed by the owners of a majority of the acreage in the proposed District, that notice of the hearing was given, that the proposed improvements are desirable, feasible, and practicable and would be a public utility and public benefit and conducive to public health, and that the District should be created, that the Commissioners Court so find and render its judgment reciting such findings and creating and establishing the District; that the Commissioners Court appoint three (3) persons to serve as directors of the

6

District in the manner provided by law; and for such other proceedings and orders as are proper and necessary and appropriate to the organization of said District and to the execution of the purposes for which said District shall be organized.

Court, the Tax Collector, or County or District Attorney now holding office in said county.

NOW, THEREFORE, THIS CONTRACT, made and entered into by and between the County of Fort Bend, Texas, a body politic and corporate, acting herein, and by and through the Commissioners Court, joined by the Comptroller of Public Accounts of the State of Texas, hereinafter styled First Party, and John C. Cangelosi, Jr. of the County of Fort Bend, State of Texas, hereinafter styled Second Party:

W I T N E S S E T H

1.

First Party agrees to employ and does hereby employ Second Party to enforce by suit or otherwise, and to aid and assist the local officers in the enforcement of the collection of all delinquent State and county ad valorem taxes, penalty and interest, and all delinquent taxes, penalty and interest (except taxes of independent school districts and incorporated cities and towns) due any and all political subdivisions or defined districts of said county and State which the County Tax Collector receives and receipts for, under the provisions of Article 7254, Revised Statutes, 1925, and shown to be delinquent upon the delinquent tax records of said county from 1939 to the date of the termination of this contract as fixed in Section IX hereof (including such personal property or insolvent taxes as the Commissioners Court and Second Party mutually deem collectible.)

6

11.

Taxes which become delinquent during the term of this contract shall become subject to the terms of this contract on September 1st of the year in which the same shall become delinquent. And further, with reference to taxes not now delinquent, but which become delinquent during the term hereof, or taxes which may have fallen delinquent on February 1st or subsequent thereto next preceding the date of this contract, it is agreed that where suit is or has been brought on any property for prior years delinquent taxes, Second Party shall include in his action all taxes on the property involved, delinquent before trial, whether before or after September 1st of such year; and where the State and County or impleaded or intervene in a suit brought by another taxing unit, it shall be Second Party's duty to include in his answer or intervention all taxes

delinquent before trial on the property involved, whether such taxes fall delinquent before or after September 1st of such year; and in all such cases Second Party shall be entitled to the commission herein provided for collecting delinquent taxes.

III.

Second Party is to call to the attention of the County Tax Collector or other officials any errors, double assessments, or other discrepancies coming under his observation during the progress of the work, and all charges on the tax rolls that show from 1939 to the date of the termination of this contract to be delinquent, which are caused through error, conflicts, double renditions, illegal assessments, etc. A cancellation certificate shall be prepared on forms furnished by the State Comptroller of Public Accounts, Austin, Texas, showing how such errors came about, and which shall be sufficiently full and complete as to justify the Commissioners Court in ordering a cancellation certificate issued, and that will meet with the approval of the Comptroller of Public Accounts, Austin, Texas.

IV.

6 Second Party hereby agrees and obligates himself to communicate with each and every person, firm, association or corporation owing any of such taxes, with a view of collecting same; and shall, before filing suits for the recovery of delinquent taxes for any year or years prepare, in triplicate, delinquent tax notices, and shall mail one of such notices to the owner or owners of said property at their last known address, covering all delinquent taxes shown to be due on the tax rolls of said county, as provided for in Article 7324, Revised Civil Statutes, 1925, as amended by Chapter 117, page 196, Acts of the 42nd Legislature, Regular Session, and file one copy of such notice with the Tax Assessor-Collector. In the event that the taxes, together with penalty and interest, are not paid within thirty (30) days from the date such statements and notices are mailed, then Second Party shall prepare, file and institute, as soon as practical thereafter, a suit for the collection of said taxes, penalty and interest, which suit shall include all past due taxes for all previous years on such tract or tracts; and where there are several lots in the same addition or subdivision delinquent, belonging to the same owner or owners, all said delinquent lots shall be made the subject of a single suit, and which suit shall be prosecuted with dispatch to final judgment and sale unless said taxes are sooner collected.

V.

Second Party, where it is necessary to prepare and file suits for the enforced collection of delinquent taxes on real property, shall make and furnish an abstract of the property which shall show the amount of delinquent taxes due against each and every tract, lot or parcel of land, and shall show the number of acres so delinquent and a correct description of the property, the year delinquent, how it was charged upon the tax rolls, the correct name of owner or owners of the property at the time it became delinquent, the person from whom and the date that he or they derived title to said property, the Volume and page of public records that his or their deed or other title evidence is of record, and the date that each subsequent change of ownership occured down to the present ownership. It shall further show the name of any and all outstanding lien holders and lease-hold interests of record, and all other information necessary for the proper preparation and filing of suit or suits for the collection of delinquent taxes. Second Party shall perform these services at his own cost and expense. And in case such abstract is not placed with the papers in a court proceeding, it shall be filed with the Tax Collector for the purpose of maintaining its preservation until such time as all of the taxes to which it pertains, or such part thereof as are held to be due, are paid.

VI.

Second Party shall prepare, or aid and assist the County or District Attorney in preparing, all petitions, citations, notices by publication, personal service citations, notices by posting, judgments, notices of sale, orders of sale and any and all other things necessary or required to be done for the collection of all delinquent taxes, and shall render all necessary and proper assistance to each of the other officers to the end that all taxes assessed or unknown and unrendered now delinquent, or that may become delinquent during the life of this contract and be so reported on Comptroller's forms provided therefor, may be collected; and when collections are not made, to assist in reducing same to final judgment and sale.

VII.

It is further agreed and understood that Second Party shall furnish, at his own expense, all stationery, legal blanks or forms, stamps, envelopes and

printing, together with all labor necessary to complete said contract including labor and expense incurred in procuring date and information as to the name, identity and location of necessary parties, and in procuring necessary legal descriptions of the property as provided in Paragraph V, and the expenses incurred in citing the defendants by publication in all cases where such expenses are not collected as costs against the defendant or defendants in the tax suit, but in no event shall such cost be paid to Second Party; and Second Party shall pay off and discharge any and all bills for any other expenses incurred in the prosecution of said work, and it is hereby understood and agreed that said First Party shall not be responsible for the payment of such expense or any part thereof.

VIII.

First Party agrees to pay to Second Party as compensation for the services hereunder required 15 per cent (Not to exceed fifteen (15) per cent) of the amount collected of all delinquent taxes, penalty and interest of the years covered hereby, actually collected and paid to the Collector of Taxes during the term of his contract, which Second Party is instrumental in collecting as evidenced by copies of communication, tax notices or abstracts filed with the Tax Collector prior to the payment of such tax, including collection of taxes on property not appearing on the assessment rolls nor shown delinquent, but which would have been so shown had it been properly assessed, discovered by said Second Party, as and when collected, following the end of each month within the period of this contract, accordingly as the Collector makes up his monthly reports. The per cent of compensation here referred to shall be contingent upon the collection of such taxes as by Act of the Legislature are required to be collected. Should any remission of penalty and interest on taxes appearing on the delinquent records be made by legislative enactment effective during the period of this contract, the same shall not be collected nor commission allowed thereon. Also, ad valorem taxes, delinquent, levied against State-owned property for county and district purposes, the payment of which is to be taken care of by legislative appropriation provided for by Statute, are excluded from the provisions of this contract. Second Party shall not receive or collect any taxes, penalty or interest under this contract, but the same shall be paid to the Tax Assessor-Collector as other delinquent taxes.

IX.

This contract shall be in force from January 6 1975, to December 31 1976, both dates inclusive, (not to extend beyond December 31, 1976, the end of the present administration of the Commissioner's Court), and at the expiration of said period this contract shall terminate, except the contractor shall be allowed six (6) months in which to prosecute to trial court judgment suits filed prior to December 31, 1976, terminating date of this contract provided, and shall handle to conclusion all suits in which trial court judgments are obtained during the period of this contract and which are appealed by any party. The Commissioners Court and the State Comptroller shall have the right to sooner terminate this contract for cause, giving thirty (30) days written notice of such intention, with a statement of the cause or reasons for such termination, after giving Second Party a reasonable opportunity of explaining or rectifying the same. In case of such termination, Second Party shall be entitled to receive and retain all compensation due up to the date of said termination.

X.

Before any commissions are paid out under the terms of this contract, Second Party shall furnish a good and sufficient bond, payable to the County Judge and to his successors in office, in the sum of One Thousand Dollars, (not to be less then $1,000.00 accordingly as the Commissioners Court deems just and proper) to be executed by a solvent surety company; or if executed by private parties, the bond shall be signed by at least three good and sufficient sureties owning unincumbered real estate subject to execution, of value equal to the amount of bond and conditioned upon the specific performance of the terms hereof, including the making of reports, provided for in Section XI of this contract, and further conditioned that he shall forthwith pay over to the Tax-Collector, or other persons justly entitled thereto, any money or commissions paid him by mistake, through error, or otherwise. Said bond shall be approved in open Commissioners Court, signed by the Couty Judge, filed and recorded in the County Clerk's office, and a certified copy of same furnished to the State Comptroller.

XI.

At the end of each month, or as soon thereafter as the Tax Assessor-Collector shall have made up his report showing collections made for such month, said Second Party shall have access to said report and shall by comparison of the same with his own files or records of service, copies of which he has filed with the Tax Assessor-Collector, make up in triplicate a report of collections out of which he is entitled to commission under the terms of this contract. Second Party shall also have access to the Collector's receipts for such collections and shall, in his reports to be made on forms furnished by the Comptroller, show each year and the taxes collected therefor cn a separate line. Also, where collections are made after suit has been filed and commission allowed at a greater or different rate under the terms of this contract Second Party, being guided by the file docket of the Clerk of the Court, shall prepare and attach to his reports to be filed with the Tax Assessor-Collector a list showing number of suit and date filed; but in no event shall Second Party receive compensation in excess of fifteen (15) per cent as herein provided. After the report has been signed and sworn to by Second Party, two copies of the same shall be delivered to the Tax Assessor-Collector, one to be attached to and sent with the Collector's montly report to the Comptroller, the other to be filed in the Collector's office, and the third copy to be retained by Second Party.

6

XII.

Each month, after having received copies of the contractor's report as provided for in the preceding Section, and after having checked the list of taxes shown therein with his own report and with copies of communications filed with him, as provided for in Section XIII of this contract, and after having verified the correctness of commissions claimed, the County Tax Assessor-Collector is hereby authorized, ordered and directed to deduct the above specified per cent of said taxes, penalty and interest, or such amount as can be allowed under the penalty and interest restriction, to which Second Party is entitled, and to pay the same to him unless otherwise herein directed, and to take his receipt as provided for on Form 107, Contractor's Report, which when received in the Comptroller's office will be the Comptroller's authority to allow the said Tax Assessor-Collector credit for the amount so paid. The Tax Assessor-Collector,

before complying with the provisions of this Section, shall first satisfy himself that the bond required of Second Party under the provisions of Section 10 of this contract has been approved and placed on record in the office of the County Clerk; and it is hereby further provided, that should any question arise regarding commission claimed, the Tax Assessor-Collector shall withhold the payment of such commission or an amount equal thereto, placing the same in escrow, and apply to the State and county, accordingly as they may be affected, for information and direction as to the proper amount of commission due to be allowed under the terms of this contract.

NOTE:

Should the Commissioners Court and the contracting party elect that the commissions withheld be placed in an escrow fund and paid to the Second Party otherwise than as provided in Section XII of this contract, another Section setting forth the method of payment to the contracting party should be added to and inserted in this contract preceding the last page prepared for the signatures of the contracting parties.

XIII.

In order that the Tax Assessor-Collector may be able to verify and attest the correctness of commissions claimed by Second Party, as evidence of service and to entitle him to the commissions provided for in this contract, Second Party shall file with the Tax Assessor-Collector prior to time of payment, copies of such communications, tax notices or abstracts which shall be preserved by the Tax Assessor-Collector in some systematical order as will make them easily accessible for the purpose of verification or for such other value as the same may have in case it becomes necessary for the county and State to buy in such properties at tax sales. Said copy or copies shall also contain such information or reference as will enable the Tax Assessor-Collector to readily locate the tax as it appears on his delinquent forms and delinquent records.

XIV.

It is further agreed and understood that this contract is for personal services and is not transferable or assignable without the written consent and approval of First Party. It is also agreed that the Commissioners Court of said county shall furnish suitable space in or near the courthouse, as convenient to the records of said county as may be, for the purpose of carrying out the obligations of this contract by Second Party, all of which shall be performed by him in Fort Bend County, Texas.

XV.

It shall be the duty of the Commissioners Court and of all other officials of said county to cooperate with and render such reasonable assistance to said Second Party as the circumstances may require. Said assistance, however, is not to include the actual performance of the work herein designated to be performed by Second Party; and it being the duty of the County Attorney or of the District Attorney (where there is no County Attorney) to actively assist Second Party in the filing and pushing to a speedy conclusion all suits for the collection of delinquent taxes, it is hereby provided that where the County Attorney or District Attorney (where there is no County Attorney) shall fail or refuse to file and prosecute such suits in good faith, the Attorney prosecuting suits under this contract is here fully empowered and authorized to proceed with such suits without the joinder and assistance of said Courty or District Attorney. Second Party shall not become the purchaser of any property at tax sales under this contract, but may bid in the property for the State or county at such sales.

Revised - 1952

IN CONSIDERATION of the terms and compensation herein stated, the Second Party hereby accepts said employment and undertakes the performance of said contract as above written.

WITNESS the signatures of all parties hereto in triplicate originals, this the 6th day of January, A.D. 1975, Fort Bend County, State of Texas.

PETITION FOR CREATION, ORGANIZATION AND ESTABLISHMENT OF FORT BEND COUNTY LEVEE IMPROVEMENT DISTRICT NO. 3

PETITION FOR CREATION, ORGANIZATION AND ESTABLISHMENT OF FORT BEND, COUNTY LEVEE IMPROVEMENT DISTRICT NO. 3

THE STATE OF TEXAS §

COUNTY OF FORT BEND §

TO THE HONORABLE COUNTY JUDGE AND COMMISSIONERS COURT OF FORT BEND COUNTY, TEXAS:

The undersigned, the owners of a majority of the acreage in the territory hereinafter described (herein the "Petitioners"), acting pursuant to the provisions of Chapter 57, Texas Water Code, as amended, and in keeping with the provisions of Article XVI, Section 59, of the Constitution of Texas, respectfully petition for the organization of a levee improvement district and would show as follows:

I.

The name of the proposed levee improvement district shall be Fort Bend County Levee Improvement District No. 3 (herein the "District").

II.

The District shall contain an area of approximately 979.427 acres of land situated wholly within Fort Bend County, Texas, described by metes and bounds in Exhibit "A" attached hereto and made a part hereof for all purposes.

III.

The District shall be organized for the following purposes:

1. to construct and maintain levees and other improvements on, along, and contiguous to rivers, creeks, and streams within and adjacent to the District;

2. to reclaim lands within the District from overflow from these streams;

3. to control and distribute the waters of rivers and streams within and adjacent to the District by straightening and otherwise improving them; and

4. to provide for the proper drainage and other improvement of the reclaimed land within the District;

all as contemplated by Chapter 57, Texas Water Code, as amended, and Article XVI, Section 59, of the Constitution of Texas.

IV.

The general nature of the work proposed to be done at this time by the District is the building, acquisition, construction, completion, carrying out, maintaining, protection, and, in case of necessity, the addition to and rebuilding of all works and improvements within the District necessary or proper to fully accomplish a reclamation plan for draining land, constructing levees on land, and reclaiming land of the District from overflow or damage by waters from streams inside or adjacent to the District which may affect land in the District and, where necessary, the straightening of streams which may injure the land of the District.

V.

There is a necessity for the organization of the District and the proposed improvements for the reason that the territory to be included in the District is being or will be developed for residential, commercial, and/or industrial purposes, and the health and welfare of the present and future residents of the District and the protection of lands, property, residences, and commercial and industrial establishments within the District requires the construction of such proposed improvements.

VI.

The proposed improvements are feasible in that the necessary levees, bridges, drains, and other reclamation improvements can be acquired or constructed at reasonable costs, and taxes at reasonable rates can be levied within the District which will be sufficient to amortize all debt incurred by the District for the purpose of acquiring or constructing the needed improvements and to provide for the payment of all costs of proper maintenance, upkeep, and repair, and additions to the levees and other improvements in the District, and other costs or improvements authorized by Chapter 57, Texas Water Code, as amended.

6

VII.

The Petitioners propose that taxes to be levied by the District be levied on the ad valorem basis; provided, however, such proposal shall not be considered as limiting the authority of the Commissioners Court or the Board of Directors of the District from assessing, levying, and collecting taxes on the benefit basis, or a combination of ad valorem and benefit basis or in such other manner as may now or hereafter be authorized by law.

VIII.

The sum of Fifty Dollars ($50) has been deposited with the County Clerk of Fort Bend County as Ex Officio Clerk of the Commissioners Court to cover expenses incident to the hearing on this petition.

WHEREFORE, the undersigned respectfully pray: that this petition be properly filed as provided by law; that upon filing of this petition, the Honorable Commissioners Court

of Fort Bend County, Texas, if it be in session, and if not, then the Honorable County Judge of Fort Bend County, Texas, order that a hearing be set on this petition before said Commissioners Court or County Judge during the period beginning with the fifteenth (15th) day and ending with the thirtieth (30th) day after the date of such order; that the County Clerk be ordered to issue notice informing all persons concerned of the time and place of such hearing and of their right to appear at the hearing and contend for or contest the creation of the District; that such notice be given and posted as required by law by posting notice of such hearing at the courthouse door and at four (4) different places inside the proposed District for at least ten (10) days before the date of the hearing; that the County Clerk be ordered to mail notice of the hearing to the Texas Water Development Board, Austin, Texas, stating that this petition has been filed and including a statement of its general purpose and the time and place of the hearing; that said hearing be held and conducted as required by law and, if upon such hearing it be found that this petition sets forth and conforms to the requirements of law and is signed by the owners of a majority of the acreage in the proposed District, that notice of the hearing was given, that the proposed improvements are desirable, feasible, and practicable and would be a public utility and public benefit and conducive to public health, and that the District should be created, that the Commissioners Court so find and render its judgment reciting such findings and creating and establishing the District; that the Commissioners Court appoint three (3) persons to serve as directors of the

District in the manner provided by law; and for such other proceedings and orders as are proper and necessary and appropriate to the organization of said District and to the execution of the purposes for which said District shall be organized.

Mrs. Joyce Tompkins, County Auditor

Dear Joyce,

In response to your request, I have estimated that our fee for the audit of the various funds of Fort Bend County, Texas for the year ended December 31, 1974 should not exceed $24,000.

This amount includes our preparation of the regular short-form audit report, the related comment letter report, and the separate reports on your library grants and federal revenue sharing funds (assuming our work on these last two funds would be similar in scope to our work on them in 1973). When you consider the rate of inflation during the past year, the $24,000 estimate compares favorably with the $22,600 which we billed you in 1973 for similar services.

Very truly yours,

James L. Williams

PETITION FOR CREATION, ORGANIZATION AND ESTABLISHMENT OF FORT BEND COUNTY LEVEE IMPROVEMENT DISTRICT NO. 2

PETITION FOR CREATION, ORGANIZATION AND ESTABLISHMENT OF FORT BEND COUNTY LEVEE IMPROVEMENT DISTRICT NO. 2

THE STATE OF TEXAS §
§
COUNTY OF FORT BEND §

TO THE HONORABLE COUNTY JUDGE AND COMMISSIONERS COURT OF FORT BEND COUNTY, TEXAS:

The undersigned, the owners of a majority of the acreage in the territory hereinafter described (herein the "Petitioners"), acting pursuant to the provisions of Chapter 57, Texas Water Code, as amended, and in keeping with the provisions of Article XVI, Section 59, of the Constitution of Texas, respectfully petition for the organization of a levee improvement district and would show as follows:

I.

The name of the proposed levee improvement district shall be Fort Bend County Levee Improvement District No. 2 (herein the "District").

II.

The District shall contain an area of approximately 5313 acres of land situated wholly within Fort Bend County, Texas, described by metes and bounds in Exhibit "A" attached hereto and made a part hereof for all purposes.

III.

The District shall be organized for the following purposes:

1. to construct and maintain levees and other improvements on, along, and contiguous to rivers, creeks, and streams within and adjacent to the District;

2. to reclaim lands within the District from overflow from these streams;

3. to control and distribute the waters of rivers and streams within and adjacent to the District by straightening and otherwise improving them; and

4. to provide for the proper drainage and other improvement of the reclaimed land within the District;

all as contemplated by Chapter 57, Texas Water Code, as amended, and Article XVI, Section 59, of the Constitution of Texas.

IV.

The general nature of the work proposed to be done at this time by the District is the building, acquisition, construction, completion, carrying out, maintaining, protection, and, in case of necessity, the addition to and rebuilding of all works and improvements within the District necessary or proper to fully accomplish a reclamation plan for draining land, constructing levees on land, and reclaiming land of the District from overflow or damage by waters from streams inside or adjacent to the District which may affect land in the District and, where necessary, the straightening of streams which may injure the land of the District.

6

V.

There is a necessity for the organization of the District and the proposed improvements for the reason that the territory to be included in the District is being or will be developed for residential, commercial, and/or industrial purposes, and the health and welfare of the present and future residents of the District and the protection of lands, property, residences, and commercial and industrial establishments within the District requires the construction of such proposed improvements.

VI.

The proposed improvements are feasible in that the necessary levees, bridges, drains, and other reclamation improvements can be acquired or constructed at reasonable costs, and taxes at reasonable rates can be levied within the District which will be sufficient to amortize all debt incurred by the District for the purpose of acquiring or constructing the needed improvements and to provide for the payment of all costs of proper maintenance, upkeep, and repair, and additions to the levees and other improvements in the District, and other costs or improvements authorized by Chapter 57, Texas Water Code, as amended.

VII.

The Petitioners propose that taxes to be levied by the District be levied on the benefit basis; provided, however, such proposal shall not be considered as limiting the authority of the Commissioners Court or the Board of Directors of the District from assessing, levying, and collecting taxes on the ad valorem basis, or a combination of ad valorem and benefit basis or in such other manner as may now or hereafter be authorized by law.

VIII.

The sum of Fifty Dollars ($50) has been deposited with the County Clerk of Fort Bend County as Ex Officio Clerk of the Commissioners Court to cover expenses incident to the hearing on this petition.

WHEREFORE, the undersigned respectfully pray: that this petition be properly filed as provided by law; that upon filing of this petition, the Honorable Commissioners Court

RE: PETITION FOR CREATION, ORGANIZATION AND ESTABLISHMENT OF FORT BEND COUNTY LEVEE IMPROVEMENT DISTRICT NO. 4 FOR PUBLIC HEARING:

On Motion of Commissioner Ed. H. Helwig, seconded by Commissioner Paul R. Wenzel, Jr., and duly passed the Petition presented for Creation, Organization and Establishment of Fort Bend County Levee Improvement District No. 4 was approved and a public hearing will be held on April 7, 1975, at 7:30 o'clock P.M. in the District Court Room of the County Courthouse.

PETITION FOR CREATION, ORGANIZATION AND ESTABLISHMENT OF FORT BEND COUNTY LEVEE IMPROVEMENT DISTRICT NO. 4

THE STATE OF TEXAS §

COUNTY OF FORT BEND §

TO THE HONORABLE COUNTY JUDGE AND COMMISSIONERS COURT OF FORT BEND COUNTY, TEXAS:

The undersigned, the owners of a majority of the acreage in the territory hereinafter described (herein the "Petitioners"), acting pursuant to the provisions of Chapter 57, Texas Water Code, as amended, and in keeping with the provisions of Article XVI, Section 59, of the Constitution of Texas, respectfully petition for the organization of a levee improvement district and would show as follows:

I.

The name of the proposed levee improvement district shall be Fort Bend County Levee Improvement District No. 4 (herein the "District").

II.

The District shall contain an area of approximately 1243.117 acres of land situated wholly within Fort Bend County, Texas, described by metes and bounds in Exhibit "A" attached hereto and made a part hereof for all purposes.

III.

The District shall be organized for the following purposes:

1. to construct and maintain levees and other improvements on, along, and contiguous to rivers, creeks, and streams within and adjacent to the District;

2. to reclaim lands within the District from overflow from these streams;

3. to control and distribute the waters of rivers and streams within and adjacent to the District by straightening and otherwise improving them; and

4. to provide for the proper drainage and other improvement of the reclaimed land within the District;

all as contemplated by Chapter 57, Texas Water Code, as amended, and Article XVI, Section 59, of the Constitution of Texas.

IV.

The general nature of the work proposed to be done at this time by the District is the building, acquisition, construction, completion, carrying out, maintaining, protection, and, in case of necessity, the addition to and rebuilding of all works and improvements within the District necessary or proper to fully accomplish a reclamation plan for draining land, constructing levees on land, and reclaiming land of the District from overflow or damage by waters from streams inside or adjacent to the District which may affect land in the District and, where necessary, the straightening of streams which may injure the land of the District.

V.

There is a necessity for the organization of the District and the proposed improvements for the reason that the territory to be included in the District is being or will be developed

for residential, commercial, and/or industrial purposes, and the health and welfare of the present and future residents of the District and the protection of lands, property, residences, and commercial and industrial establishments within the District requires the construction of such proposed improvements.

VI.

The proposed improvements are feasible in that the necessary levees, bridges, drains, and other reclamation improvements can be acquired or constructed at reasonable costs, and taxes at reasonable rates can be levied within the District which will be sufficient to amortize all debt incurred by the District for the purpose of acquiring or constructing the needed improvements and to provide for the payment of all costs of proper maintenance, upkeep, and repair, and additions to the levees and other improvements in the District, and other costs or improvements authorized by Chapter 57, Texas Water Code, as amended.

VII.

The Petitioners propose that taxes to be levied by the District be levied on the benefit basis; provided, however, such proposal shall not be considered as limiting the authority of the Commissioners Court or the Board of Directors of the District from assessing, levying, and collecting taxes on the ad valorem basis, or a combination of ad valorem and benefit basis or in such other manner as may now or hereafter be authorized by law.

VIII.

The sum of Fifty Dollars ($50.00) has been deposited with the County Clerk of Fort Bend County as Ex Officio Clerk of the Commissioners Court to cover expenses incident to the hearing on this petition.

WHEREFORE, the undersigned respectfully pray: that this petition be properly filed as provided by law; that upon filing of this petition, the Honorable Commissioners Court of Fort Bend County, Texas, if it be in session, and if not, then the Honorable County Judge of Fort Bend County, Texas, order that a hearing be set on this petition before said Commissioners Court or County Judge during the period beginning with the fifteenth (15th) day and ending with the thirtieth (30th) day after the date of such order; that the County Clerk be ordered to issue notice informing all persons concerned of the time and place of such hearing and of their right to appear at the hearing and contend for or contest the creation of the District; that such notice be given and posted as required by law by posting notice of such hearing at the courthouse door and at four (4) different places inside the proposed District for at least ten (10) days before the date of the hearing; that the County Clerk be ordered to mail notice of the hearing to the Texas Water Development Board, Austin, Texas, stating that this petition has been filed and including a statement of its general purpose and the time and place of the hearing; that said hearing be held and conducted as required by law and, if upon such hearing it be found that this petition sets forth and conforms to the requirements of law and is signed by the

owners of a majority of the acreage in the proposed District, that notice of the hearing was given, that the proposed improvements are desirable, feasible, and practicable and would be a public utility and public benefit and conducive to public health, and that the District should be created, that the Commissioners Court so find and render its judgment reciting such findings and creating and establishing the District; that the Commissioners Court appoint three (3) persons to serve as directors of the District in the manner provided by law; and for such other proceedings and orders as are proper and necessary and appropriate to the organization of said District and to the execution of the purposes for which said District shall be organized.

RESPECTFULLY SUBMITTED this 21st day of February, 1975.

11. PROJECT SUMMARY AND ANTICIPATED PROJECT ACCOMPLISHMENTS:

A. GOALS:

1) The Court Classes on Alcoholism are designed to reduce alcohol abuse, alcohol related offenses, and the resulting personal and social problems through educational/rehabilitative court classes.

Within the H-GAC region last year there were a total of 45,711 alcohol mis-use arrest reported to the FBI (including 1,995 in Ft. Bend County). In addition the law Enforcement Assistance Administration recently did a study which concluded that robbery is the only one of the four violent index crimes (robbery, murder, rape and aggrevated assault) where alcohol plays a minimal role. The Commission on Violence has concluded that at least 24% of the violent index drimes are alcohol related. Thus, approximately 2,981 of the total 12,421 violent crimes reported in the H-GAC region last year were alcohol related. Likewise, the U. S. Department of Transportation reports that 50% of highway fatalities are alcohol related including 342 for the H-GAC region in 1973.

2) Expand Court Classes and law enforcement liason services in Ft. Bend, Brazoria, Wharton, Matagorda and ~~Colorado~~ AUSTIN Counties.

3) Enroll 725 of alcohol related offenders in Court Classes.

B. METHODS ENVISIONED:

1) Spend approximately forty-five (45) hours of class time in five different locations including Ft. Bend, ~~Colorado~~ AUSTIN, Wharton, Matagorda and Brazoria Counties during each month.

2) Encourage all area criminal justice system personnel to refer to the five Court Classes.

3) Court Class participants will consist of persons adjudicated to the Court Classes for alcohol related offenses.

4) Local judges will place the convicted alcohol related offender on probation to the class.

5) The appropriate probation officer will complete the referral form to the Court Class.

6) The Court Coordinator will conduct forty-five (45) hours of classes monthly. After the probationer completes the class, the coordinator will notify the judge and probation officer of the attendance record.

7) Organized follow-up will be conducted by the Court Coordinator for the duration of the probation period.

C. RESOURCES:

1) The Court Classes will work as a county-wide resource for alcohol-related offenses.

2) Ft. Bend County will use personnel from the Houston Regional Council on Alcoholism to conduct the Court Classes.

3) The Probation department and court coordinator will provide probationer follow-up services.

4) Ft. Bend County will donate the space for the Court Classes.

5) The Court Class program will utilize local A.A.; Al-Anon and Alateen groups as well as alcoholism facilities and agencies that exist in the region.

D. ANTICIPATED RESULTS: (Similar to goals and methods)

1) Expand the Court Class Services in Ft. Bend, Brazoria, Matagorda, Wharton and ~~Colorado~~ Austin Counties.

2) Provide Court Class liason with the Criminal Justice System.

3) Provide organized follow-up on probationers adjudicated to the Court Class.

4) Reduce the incidence of alcohol-related index crime and the incidence of DWI offenses, drunkenness offenses, etc.

E. PROVISIONS FOR EVALUATION:

The project will be evaluated in terms of reduced alcohol related recidivism, impact on violent index crimes, number of clients, number of criminal justice system personnel contacts, etc.

Gentlemen:

The City Commission of Orchard would like to take this opportunity to assure the Commissioners Court of Fort Bend County, that the City of Orchard will provide lights for the Portable library that is to be set up here. Also we will assume the cost of the electricity that will be used.

We have two poles with lights at the present, however we are having a street light erected by Houston Lighting & Power Company just across the street from the library and plan to install a vapor light right next to the library. This in our opinion will provide adequate security.

If there are any further questions or information needed, please do not hesitate to contact me.

Very truly yours,

RE: APPROVAL OF RESOLUTION ON SUBSIDENCE DISTRICT:

On Motion of Commissioner J. M. Davis, seconded by Commissioner Paul R. Wenzel, Jr., and duly passed, the court approved the Resolution on Subsidence District with the Texas Water Rights Commissioner as follows:

To: Texas Water Rights Commission:

Gentlemen:

The Fort Bend County Commissioners' Court realizes that there is a substantial subsidence problem in Harris and Galveston County and the problem extends into Fort Bend and other counties to a lessor degree. We also recognize that the solution to the problem can better be solved by cooperation between the affected areas and we are willing to work toward that end.

However, we are concerned that all proposals to date would have decision making control in representatives from Harris County. Fort Bend County Commissioners' Court has always been agreeable to cooperate with adjoining counties to solve joint problems, but we feel since this is not a major problem in this county any measures taken in Fort Bend County to alleviate the problem should be approved by people elected in Fort Bend County to carry out the wishes of our people.

In discussions with those most affected by subsidence we have the impression that the only reason to pursue the designation of a subsidence area at this time is in case the bills that have been introduced to create the Harris-Galveston Coastal Subsidence District do not pass this action constitutes another avenue to attain the desired results. Since we do not foresee any change in attitude as to control in whichever means is used, we ask that Fort Bend County not be designated a part of a Harris-Galveston Subsidence Area.

Understand we are willing to work with our neighbors and we do not want to dictate to them what they can do in their area, but we feel the Commissioners' Court of Fort Bend County and the elected city officials are the logical officials to determine what measures should be taken in Fort Bend County to combat the problem or at least they should have to approve any direct actions to be performed in Fort Bend County.

RE: APPROVE SETTLEMENT OF KOVAC CASE:

RE: NO. 27,159
HELGA KOVAC V.
FORT BEND COUNTY DRAINAGE DISTRICT

Dear Stanley:

As you may recall, I gave you a copy of Frank Shaw's letter in which his firm states that Helga Kovac is the owner of the land taken. He has furnished me with a copy of the last recorded deed into the Kovac's.

In view of the amount of legal fees already expended by both parties in this matter value of the land taken, I would advise the District to make a settlement as follows:

Damages	$720
One Half plaintiff's legal fees	350
Appraisal Fee	75
Total	$1,145

Plaintiff is also asking for $270 in surveyor's fees, however I do not feel that the District should share in that expense. If we went to court we could be out an appraisor's fee as that cost is necessary to the settlement whereas no use was made of the surveyor's fees.

Please advise if the above is reasonable to the District and I shall so inform Ms. Kovac's Attorney who will enter an agreed judgment which can then be entered in the County Deed Records.

Very truly yours,

C. L. Michulka
Attorney
