FORT BEND COUNTY, TEXAS  
NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED DECEMBER 31, 1986

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REPORTING ENTITY  
~~~~~

Fort Bend County, Texas ("County") is a public corporation and a political subdivision of the State of Texas. The County is governed by the Commissioners Court, composed of four County Commissioners and the County Judge, all of whom are elected officials.

The financial statements of the County reporting entity include all governmental activities, organizations and functions of the County for which the Commissioners Court has oversight responsibility. Such oversight responsibility includes designation of management, the ability to significantly influence operations and the accountability for fiscal matters. As a result of the application of this criteria, the financial statements also include the operations and activities of Fort Bend County Drainage District.

Certain escrow funds held in trust by the District Clerk and County Clerk of Fort Bend County are not included in these statements. These escrow funds are subject only to judicial orders of the District Judges of the State of Texas and are not subject to oversight by Commissioners Court.

FUND ACCOUNTING
~~~~~

The accounts of the County are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprises its assets, liabilities, fund balance, revenues and expenditures or expenses as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds and account groups are grouped, in the financial statements of this report, into six general fund types under these broad categories and into two account groups as follows:

GOVERNMENTAL FUND TYPES:

General Fund - used to account for all revenues and expenditures, not accounted for in other funds, relating to general operations.

Special Revenue Funds - used to account for proceeds of specific revenue sources (other than capital projects) which are legally restricted to expenditures for specified purposes.

Debt Service Funds - used to account for payment of principal and interest on general long-term debt.

FUND ACCOUNTING - GOVERNMENTAL FUND TYPES (CONTINUED)

Capital Projects Funds - used to account for proceeds of general long-term debt and other revenues whose expenditures are restricted to the construction and acquisition of major capital facilities.

PROPRIETARY FUND TYPE:

Internal Service Fund - used to account for the County's modified self-insurance plan which provides health care benefits to employees and their dependents.

FIDUCIARY FUND TYPE:

Agency Funds - used to account for assets which are held by the County as agent pending distribution to authorized recipients. As the agent for certain legal entities, the County (through its various fee officers) collects certain revenues and assessments from taxpayers and others and remits the amounts to the respective legal entities.

ACCOUNT GROUPS:

General Fixed Asset Account Group - used to account for tangible assets having a useful life longer than a year and having a monetary value large enough to warrant maintaining the related custodial records.

General Long-Term Debt Account Group - used to record and account for the outstanding general obligation bonds payable and certificates of obligation payable.

BASIS OF ACCOUNTING

~~~~~  
The accounts of the Governmental Fund Types (the General Fund, Special Revenue Funds, Debt Service Funds, and Capital Projects Funds) are maintained, and the financial statements have been prepared, on the modified accrual basis of accounting.

Under this basis of accounting, revenues are recognized when they become susceptible to accrual (i.e., both measurable and available). Available means collected within the current year or soon enough thereafter to be used to pay liabilities of the current year. Substantially all revenues are considered to be susceptible to accrual.

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 1986
(CONTINUED)

BASIS OF ACCOUNTING (CONTINUED)
~~~~~

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred. Exceptions to this general rule are principal and interest on general long-term debt which are recognized as expenditures when due.

The accounts of the Proprietary Fund Type (Internal Service Funds) are maintained and the financial statements have been prepared, on the accrual basis of accounting. Under this basis, revenues are recognized when they are earned, and expenses are recognized when they are incurred.

The accounts of the Fiduciary Fund Type (Agency Funds) are maintained, and the financial statements have been prepared, on the cash basis, which approximates modified accrual basis of accounting.

BUDGETS AND BUDGETARY ACCOUNTING  
~~~~~

The County Judge and County Auditor prepare the proposed budget, using revenue estimates furnished by the County Auditor, and submit the data to Commissioners Court. A public hearing is held on the budget by Commissioners Court. Before determining the final budget, Commissioners Court may increase or decrease the amounts requested by the various departments. In the final budget, which is usually adopted in October or November, expenditures for current operating funds cannot exceed the estimated available cash balances in such funds at January 1, plus the estimate of revenues for the ensuing year. At any time during the year, Commissioners Court may increase the budget for unexpected revenues. Commissioners Court may transfer amounts among individual budget line items within major expenditure categories during the year, but no such transfer may increase the overall total of the budget.

Formal budgetary integration is employed for the General Fund, certain Special Revenue Funds and Debt Service Funds. Budgets for these funds are prepared on the cash basis. Formal budgetary integration (annualized budgeting) is not employed in the Capital Projects Funds. Effective budgetary control in these funds is achieved through individual project budgeting in conformance with the provisions of bond orders and other sources.

All unspent appropriations lapsed at year-end.

The County has elected not to capitalize public domain fixed assets (infrastructure) consisting of roads, bridges, related rights-of-way and drainage rights-of-way.

The costs of purchasing or constructing capital assets are recorded as expenditures in the various funds and capitalized in the General Fixed Assets Account Group.

VACATION AND SICK LEAVE
~~~~~

Employees are credited with up to twenty days a year of vacation leave but may only accumulate up to a maximum of twenty days. Upon termination, employees are paid for any unused accumulated vacation. The County's liability for accumulated earned vacation leave is recorded in the General and Special Revenue Funds since it will be liquidated with expandable available financial resources.

Employees are credited with six days a year of sick leave and may accumulate an unlimited number of days. Upon termination, employees are not paid for any unused sick leave. The County's liability for accumulated earned sick leave was not material at December 31, 1986. It is recorded as an expenditure when used.

TOTAL COLUMNS ON COMBINED STATEMENTS  
~~~~~

Total columns on the combined statements are captioned "Memorandum Only" to indicate that they are presented only to facilitate financial analysis. Data in these columns does not present financial position or results of operations in conformity with generally accepted accounting principles. Such data is not comparable to a consolidation because interfund eliminations have not been made in the aggregation of this data.

2. CASH AND INVESTMENTS

The County's demand deposits at December 31, 1986 were entirely covered by federal depository insurance or by pledged collateral held at third-party banks in the County's name. Such total collateralization and insurance coverage is required by state statutes.

State statutes authorize the County to invest in fully collateralized or insured time deposits, direct debt securities of the United States, and fully collateralized repurchase agreements. The repurchase agreements must be purchased pursuant to a master repurchase agreement which specifies the rights and obligations of both parties and which requires that the securities involved in the transaction be held in a safekeeping account subject to the control and custody of the County. Investments in security repurchase agreements may be made only with the County's depository bank or with state or national banks domiciled in the State of Texas.

Property taxes are levied by October 1 of the year in which assessed, or as soon thereafter as practicable. Taxes are due and payable when levied. They become delinquent February 1 of the following year and are then subject to interest and penalty charges.

CENTRAL APPRAISAL DISTRICT  
 ~~~~~

The Central Appraisal District, a separate governmental entity, is responsible for the recording and appraisal of property for all taxing units in the County.

The Central Appraisal District is required by state law to assess property at 100% of its appraised value. Further, real property must be reappraised at least every four years. Under certain circumstances, taxpayers and taxing units, including the County, may challenge orders of the Central Appraisal District's Appraisal Review Board through various appeals and, if necessary, legal action.

The Commissioners Court will continue to set tax rates on property. State law also provides that, if approved by the qualified voters in the Central Appraisal District, collection functions may be assigned to the Central Appraisal District.

7. DEFERRED COMPENSATION PLAN

The County offers all of its full-time employees a deferred compensation plan created in accordance with Section 457 of the Internal Revenue Code. The plan permits employees to defer a portion of their salary until future years. The deferred compensation is not available to the employees until termination, retirement, death or emergency.

The County invests all amounts of compensation deferred under the plan in fixed and variable annuity contracts underwritten by Nationwide Life Insurance Company, and all related earnings thereon are (until paid or made available to the employee or other beneficiary) solely the property of the County, subject only to the claims of general creditors. Participants' rights under the plan are equal to those of general creditors of the County in an amount equal to the fair market value of the deferred account for each participant. To date, the plan assets have only been used to pay deferred compensation amounts to employees. The County believes that it is unlikely it will use these assets to satisfy the claims of general creditors in the future.

8. HEALTH AND LIFE INSURANCE BENEFITS

The County sponsors a modified self-insurance plan to provide health-care benefits to employees and their dependents. Transactions related to the plan are accounted for in the Internal Service Fund ("Fund"). Partial employee contributions are required for certain personal coverage and additional employee contributions are required for certain coverage of dependents. The County obtained excess loss insurance which limits annual claims paid from the Fund to a maximum of \$50,000 for any individual participant. Actual claims paid for the year totalled \$985,052.

Estimates of claims payable and of claims incurred but not reported at December 31, 1986 are reflected as accounts payable of the Fund. The plan is funded to discharge liabilities of the Fund as they become due.

Dear Judge Stavinoha:

This letter is to request the opportunity to appear before the Commissioners Court. The purpose of this appearance is to request \$20,000.00 from the court.

On September 24th I made a short presentation as part of the afternoon budget hearing. At that time I requested \$125,000.00 to support the services throughout Fort Bend County. You will recall the discussion of the homebound programs--meals and homemaker services. This is frequently the only daily contact a senior has. Commissioner Putska suggested that the organization be funded with any remaining Revenue Sharing funds. I hope there is \$20,000.00 left.

The Senior Citizens are grateful for all of your past support. They will be appreciative of any amount that can be provided this year.

Sincerely Yours,

**CHAPTER 540**

H.B. No. 1504

AN ACT

relating to the sale of real property under a power of sale conferred by a contract lien.

BE IT ENACTED BY THE LEGISLATURE OF THE STATE OF TEXAS:

SECTION 1. Section 51.002, Property Code, is amended<sup>99</sup> to read as follows:

Sec. 51.002. SALE OF REAL PROPERTY UNDER CONTRACT LIEN. (a)

A sale of real property under a power of sale conferred by a deed of trust or other contract lien must be a public sale at auction held between 10 a.m. and 4 p.m. of the first Tuesday of a month. The sale must take place at the county courthouse in the county in which the land is located, or if the property is located in more than one county, the sale may be made at the courthouse in any county in which the property is located. The commissioners court shall designate the area at the courthouse where the sales are to take place and shall record the designation in the real property records of the county. The sale must occur in the designated area. If no area is designated by the commissioners court, the notice of sale must designate the area at the courthouse where the sale covered by that notice is to take place, and the sale must occur in that area.

(b) Notice of the sale, which must include a statement of the earliest time at which the sale will occur, must be given at least 21 days before the date of the sale:

(c) The sale must begin at the time stated in the notice of sale or not later than three hours after that time.

(d) Notwithstanding any agreement to the contrary, the holder of the debt shall serve a debtor in default under a deed of trust or other contract lien on real property used as the debtor's residence with written notice by certified mail stating that the debtor is in default under the deed of trust or contract. The debtor must be given at least 20 days to cure the default before the entire debt is due and notice of sale is given.

The above listed property has been reviewed with respect to the 100-year Flood Plain Maps most recently approved by F.E.M.A. These maps are subject to change by F.E.M.A. which will alter the status of the property with respect to the flood plain and floodway.

These maps indicate that the 100-year flood plain elevation ranges between \_\_\_\_\_ and \_\_\_\_\_ ft. above mean sea level.

Topography data available to this office indicates that the property in question ranges from \_\_\_\_\_ to \_\_\_\_\_ feet above mean sea level with approximately \_\_\_\_\_ of this tract being within the floodway (no permits) and approximately \_\_\_\_\_ being within the flood plain (no septic permits). The \_\_\_\_\_ flood plain area is determined to be too low for construction of a home or the placement of a manufacutred home due to a low natural drainage area.

If you have any questions or if I may be of assistance please call.

Sincerely,

A.J. Noto

Gentlemen:

The following information is in answer to your inquiry concerning the elevations in Flood Plain Zones under the subject Program.

NOTE: In Flood Zones in order to take advantage of the acturial rate, it will be necessary to have a Registered Surveyor of your choice to certify to the elevation of the first floor. This is particularly advantageous if the first floor is several feet above the ground. This form should not be misconstrued as the Building Permit which must be applied for seperately.

Dear -----

This is in compliance with your request for flood hazard data pertaining to Lot \_\_\_\_\_, Block \_\_\_\_\_, Section \_\_\_\_\_, of \_\_\_\_\_ Subdivision, in the \_\_\_\_\_ Survey, A - \_\_\_\_\_, \_\_\_\_\_ County, Texas.

A hydraulic study of the above property indicates that it is in the \_\_\_\_\_, however, the property is not within the 100-Year Flood Plain; thus, any proposed structure would receive an exemption certificate.

Building Permits are now required in Fort Bend County and Flood Plain Management Regulations require a minimum of eighteen (18) inches above high point of natural ground at the foundation.

Should there be any questions, or if we may be of further service, please do not hesitate to contact this office.

Sincerely,

A.J. Noto

RE: COUNTY BUILDING PERMIT NO. \_\_\_\_\_

Dear Sir:

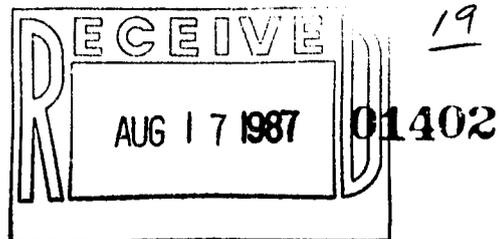

Your building permit was issued on \_\_\_\_\_. This office has no record of the required "sealed" surveyors certification as to the as-built floor elevation (bottom of the lowest floor support stringer in velocity zones) requested with your permit.

County Flood Plain Management Regulations stipulate that we maintain this form in our records. The latest flood insurance form also calls for a prevailing natural grade elevation at your building site which would also be included with the more recent certifications.

In the event we do not receive a certification on your building elevation within forty-five (45) days, we are required to turn your records in to the Federal Emergency Management Agency office in Denton. This in effect will cancel the permitted structure from any future flood insurance eligibility.

An on-site inspection will be made at this location and if there is no construction started, this permit will be voided.

Sincerely,

COMMISSION

Dear Mr. Drachenberg:

Several years ago, an agreement was reached with Sugarland Properties, Incorporated that upon completion of the improvements to State Highway 6 and Spur 58, the Department would quitclaim a surplus tract of 0.3285 acres in exchange for a tract previously donated. In order for the Department to continue processing said exchange, it will be necessary to obtain a resolution from the County indicating that "the land is no longer needed for use of citizens as a road." We have attached a sketch and field notes to assist in your determination.

If it is determined that the property will not be needed for road purposes, the resolution will need to contain the statement mentioned above in quotation marks; the name of the proposed grantee and a copy of the field notes.

If further information is needed, please contact Dianne Dixon at (713) 869-4571, extension 575.

Your cooperation in this matter is greatly appreciated.

Sincerely,

A handwritten signature in cursive script, appearing to read "Herbert Lum".

Precinct #3 Commissioner  
Fort Bend County, Texas

Dear Commissioner Pressley,

On Monday September 28th I plan to come before Commissioners Court to request the creation of the Fort Bend County Central Store Fund, and the \$5,000 necessary to purchase the initial stock for the Central Store.

The Central Store is being opened on a very small scale initially with expansion planned to keep pace with the needs of the County. The end result is to effect further dollar savings for Fort Bend County; these savings will become apparent during the first month of 1989.

The funding concept is relatively simple: We begin with a stock of 100 selected high volume low dollar items, then at the time of purchase from the Store, money will be transferred from the using department back into the Central Store Fund to be used again. The Fort Bend County Central Store Fund will be a revolving fund which will need to be increased in the future only to cover stock level adjustments necessary for growth. All users of the Store will be charged for all items they receive from the Store; it will NOT be a free issue type stock room.

The Central Store will be for the use of all County Precincts and Departments; however, we plan to continue vendor deliveries for outlying locations, and for large quantities of heavy or bulky items and for non-stock items.

We are now in the process of completing the necessary administrative details for our operation and we hope to be fully functional by November 2nd.

Thank you for your continued support.

Fort Bend County Commissioners' Court  
Fort Bend County  
P.O. Box 368

Gentlemen:

As you are well aware hard times continue for many of the businesses and individuals of Fort Bend County. Any increase in the tax burden at this time would be of particular hardship to the business community and might have a delaterious effect on our ability to attract new business and industry to the County.

We wish to encourage the Commissioners' Court to hold the line on any tax increases or new services at this time. A moratorium on a tax increase need not be forever but we encourage you to hold long enough to allow us to restart the engine of economic prosperity in Fort Bend County. We believe that a one year look will give us a better direction as to our future rate of growth.

If the Court, after its review, believes that an increase is required to provide existing levels of service, please hold any such increase to a bare minimum. We appreciate your involvement in the Greater Fort Bend Economic Development Council and your dedication to good government here in Fort Bend County. We have confidence that your best efforts will produce a budget which requires no new taxes.

Sincerely,

FORT BEND COUNTY HEALTH COUNCIL

**The Guide  
to  
Subsidized Health Services  
for  
Low-Income Individuals**

A Project of the  
Indigent Health Care Committee

Karen Hall, *Chair*

August 1987

**HISTORY OF SUBSIDIZED SERVICES IN FORT BEND COUNTY**

Historically, subsidized health care services (reduced fee or sliding scale) for the low-income residents of Fort Bend County have been fractured and incomplete. The Fort Bend County Office of Early Childhood Development, Inc. (a private, non-profit agency) has provided health care services to the county's disadvantaged population since 1975. The services include the WIC nutrition supplement program, the Community Pediatric Clinic, the Great Expectations Prenatal Program, and related social services. The Fort Bend County Health Department has provided a program of services including a well child and immunization clinic, tuberculosis control, hypertension and diabetes screening, a sexually transmitted disease control program, and environmental and consumer health services. The Fort Bend County Welfare Office has provided a teen pregnancy program that pays for prenatal care for a small number (less than 15 per year), and assists with the purchase of prescription drugs. The Medicaid and Medicare programs have been available for those who qualify. The largest group with little or no local resource for assistance was the adult male and non-pregnant or childless female population.

The 69th Legislature of the State of Texas (1985) passed three remarkable bills that affect the delivery of health care to low-income people:

The first law (Senate Bill I) requires counties that do not have a public hospital or health district to set aside a certain percentage of the tax base for the provision of medical care to legally defined indigents. Fort Bend County is one of many that is affected by the law. An indigent according to the law is a person with a family income and resources of less than 25% of the Federal Poverty Guideline. The program resulting from the legislation is the County Indigent Health Care Program.

The second piece of legislation provides funds to be allocated on a competitive grant basis to extend subsidized services to the population between 26% and 150% of the poverty guideline. Fort Bend County applied for and was awarded a grant. The program resulting from the legislation is the Primary Health Care Services Program.

The third part provides funding to improve the outcome of high risk pregnancies in the population with family incomes of 0 - 100% of the poverty guideline. Funding was allocated to each county, but services are provided under contract on a regional basis. The program is called the Maternal and Infant Health Improvement Act.

In response to the new legislation, Fort Bend County established a free standing clinic to serve adults. The clinic operates under contract with Mid-Western Medical Services, Inc. Adults (age 18 and older) who meet the financial criteria may use the clinic as their primary source of health care on a reduced fee, sliding scale basis. The Fort Bend County Office of Early Childhood Development, Inc. provides medical care to the eligible children and pregnant women of the county through the agency's established clinics.

**02106** ELIGIBILITY SCREENING PROGRAM  
**0033** (ESP)

AS PER ORIGINAL

**DESCRIPTION:**

County residents who are interested in obtaining subsidized medical care must be screened for eligibility through the Eligibility Screening Program. ESP is a county funded program operated under contract by the Ft. Bend Office of Early Childhood Development, Inc. (OECD).

**SERVICES PROVIDED:**

The client fills out a very detailed application for his/her family and presents documents to verify income, assets, familial relationships, and residency.

The Screener uses criteria established by the State of Texas to determine eligibility for the County Indigent Health Care Program, the Primary Health Care Services program, and the Maternal and Infant Health Improvement Act program. Clients who are determined to be potentially eligible for the Medicaid program are referred to an on-site eligibility worker of the Texas Department of Human Services.

An eligibility code is assigned to each screened family. Group A indicates the family is certified as county indigent and may receive health care services at no charge. Groups B, C, D, E, and F indicate progressively higher income levels, and clinic fees are charged accordingly.

The family receives an identification card that indicates the eligibility code. The card must be presented to the clinic prior to service, and is valid for six months. The family must be rescreened prior to the card's expiration.

Families who are determined to be ineligible for county or state services are issued cards as a means of identifying them for other funding sources available within OECD.

**WHERE TO OBTAIN SERVICES:**

The applications are available through each clinic and ESP. The ESP office is open during regular business hours. Clients are encouraged to call ahead for an appointment, but walk-ins are accommodated whenever possible. ESP occasionally schedules screeners at various locations around the county to reach the outlying areas. There is no fee for any ESP service. Bilingual staff and application forms are available.

Eligibility Screening Program: 603 S. 5th Street, Richmond 342-0500

**COUNTY INDIGENT HEALTH CARE PROGRAM  
(CIHCP)**

**DESCRIPTION:**

The county is required by state legislation (popularly known as Senate Bill I) to provide medical care for certain county residents. In Fort Bend County, these individuals are identified by a laminated ID card with the eligibility code designation of Group A.

**SERVICES PROVIDED:**

The CIHCP eligible is entitled to inpatient and outpatient hospital, physician, pharmacy, lab, x-ray, family planning, and skilled nursing facility services with certain restrictions. The County is liable for up to \$30,000 per individual per year or 30 days of hospital/skilled nursing facility care per year, whichever comes first. When the maximum level is reached, the patient is no longer covered by the program. The individual may receive up to three prescriptions per month during the eligibility period. Durable medical supplies are not covered by the program. The patient is not required to pay a fee for the covered services.

**ELIGIBLE PERSONS:**

The Eligibility Screening Program (ESP) determines eligibility for this program. Those who are certified as eligible are given a laminated ID card with their name, ID number, and the eligibility code of Group A. Men, women and children may be eligible, providing they meet the following criteria:

- Fort Bend County residency. One day with a stated intent to reside qualified as long as the address can be documented. Undocumented aliens are eligible.
- Family income and resources do not exceed 25% of the Federal Poverty Guideline. This is the same as the AFDC income/resource guideline.
- Ineligible for Medicaid, Medicare, private health insurance, VA benefits, or other benefits that cover health care.

**WHERE TO OBTAIN SERVICES:**

Certified Group A individuals must use one of the three mandated outpatient clinics depending on his or her need. The clinics are:

New Horizons Adult Clinic: . . . . . 711 George Street, Richmond 341-6624

Community Pediatric Clinic: . . . . . 106 S. 9th Street, Richmond 342-7176

Great Expectations Prenatal Clinic: 603 S. 5th Street, Richmond 342-0500

All non-emergency care must be received through one of the clinics. If a patient needs to see a specialist, the clinic physician will make a referral to a physician outside the clinic system. Hospitalizations are arranged to meet the needs of the patient, and may involve a hospital outside the county.

**02108****0033**

AS PER ORIGINAL

Group A individuals who have a medical emergency should go to the nearest hospital emergency room for treatment. It is the hospital's responsibility to notify ESP within 24 hours that they have the patient. Unreported or non-emergency care is not covered by CIHCP.

**ADMINISTRATION:**

CIHCP is provided only in counties not fully served by public hospitals or hospital districts. Harris, Montgomery and Galveston counties are not affected by the Senate Bill I legislation. Fort Bend, Brazoria, Wharton, and Waller counties are affected.

The program is administered and funded by the county. The Senate Bill I legislation requires affected counties to set aside 10% of the General Revenue Tax Levy (GRTL) to pay for the medical care of the county's indigent. When and if the county reaches its 10% level, the county is eligible for state assistance equal to 80% of the cost of eligible expenses above that 10%. The county continues to pay 20% of costs above the 10% level as long as the state pays its 80% share. When state funds are exhausted (a limited amount of funds were allocated for the program), the county may legally end its program until the next fiscal year.

The eligibility certification process, including the lengthy application form, was developed by the Texas Department of Human Services. Counties are required by law to follow the rules and regulations set by TDHS even though county funds are financing the program.

Service providers to the program (hospitals, pharmacists, referral physicians, and the clinics) are reimbursed by the county at the prevailing Medicaid reimbursement rates.

**PRIMARY HEALTH CARE SERVICES  
(PHC)****DESCRIPTION:**

Funding is available on a competitive grant basis to counties, hospitals, private organizations, and other entities from the Texas Department of Health. Fort Bend County submitted a grant proposal that was approved for funding. The funds are restricted to the provision of medical services for certain county residents. In Fort Bend County, these individuals are identified by a laminated ID card with the eligibility code designation of Group B, C, D, E, or F.

**SERVICES PROVIDED:**

The PHC eligible is entitled to obtain medical services from the three mandated clinics. The services include diagnosis and treatment, preventive health services and health education. Hospital care, emergency room treatment, nursing home care, lab and x-ray services performed outside the clinic, durable goods, prescriptions and referrals to specialists are NOT included. The clinics charge fees on a low sliding scale for each office visit or course of prenatal care.

**ELIGIBLE PERSONS:**

0033

The Eligibility Screening Program (ESP) determines eligibility for this program. Those who are certified as eligible are given a laminated ID card with their name, ID number and an eligibility code. The codes are tied to the family income's percentage of the Federal Poverty Guideline. Fees for clinical services are determined by the eligibility code. Men, women and children may be eligible, providing they meet the following criteria:

- Texas residency. This program is not statewide, and is not available in all counties since the funds are allocated only on a grant basis. Undocumented aliens are eligible.
- Family income and resources are greater than 25% and less than 150% of the Federal Poverty Guideline.
- Ineligible for Medicaid, Medicare, private health insurance, VA benefits, or other benefits that cover health care.

**WHERE TO OBTAIN SERVICES:**

Certified individuals with an eligibility code of B, C, D, E, or F must use one of the three mandated outpatient clinics depending on his or her need if they want subsidized health services on a sliding scale. The clinics are:

New Horizons Adult Clinic: . . . . . 711 George Street, Richmond 341-6624

Community Pediatric Clinic: . . . . . 106 S. 9th Street, Richmond 342-7176

Great Expectations Prenatal Clinic: 603 S. 5th Street, Richmond 342-0500

Services obtained from other sources such as a hospital, private physician, nursing home, pharmacy, or a durable goods supplier are not reimbursable, or covered by this program. The patient is responsible for any bills incurred from these sources.

**ADMINISTRATION:**

The county is not required by law to provide medical services to the Primary Health Care eligible population (26% to 150% of the Federal Poverty Guideline). However, the county applied for and received grant funds to provide clinical services to the PHC population for the first funding cycle (September 1986 - 1987). The Ft. Bend County Office of Early Childhood Development, Inc. is the prime contractor for the second funding cycle. If funding for the program is cut, and the grant is not renewed in the future, the county will not be required to continue the program.

Midwestern Medical Services, Inc. provides the adult services in the New Horizons Clinic, and Ft. Bend County Office of Early Childhood Development, Inc. provides prenatal and pediatric services.

The eligibility certification process, including the lengthy application form, was developed by the Texas Department of Health and the Texas Department of Human Services. The Ft. Bend County Office of Early Childhood Development provides the eligibility determination services.

9033  
MATERNAL AND INFANT HEALTH IMPROVEMENT ACT  
(MIHIA)

AS PER ORIGINAL

**DESCRIPTION:**

This program provides services to high-risk, low-income women and their infants. The services are meant to reduce poor pregnancy outcome such as low birth weight and infant death by providing appropriate prenatal and intrapartum care to pregnant women with high-risk conditions. In Fort Bend County, these women are identified by a laminated ID card with an eligibility code of MIHIA. They will also have a family ID card with a code of A, B, D, or D.

**SERVICES PROVIDED:**

The MIHIA enrollee will receive comprehensive prenatal care, hospitalization for childbirth, consultation services, inpatient care for newborns, follow-up services for the infant to the first birthday, ancillary services, and transportation to secure appropriate perinatal care. There is no charge for any MIHIA service, including the hospital bill.

**ELIGIBLE PERSONS:**

The Eligibility Screening Program (ESP) determines financial eligibility for MIHIA. The Great Expectations Prenatal Program (administered by the Fort Bend County Office of Early Childhood Development, Inc.) determines the medical risk factors. If the patient is determined to be low to moderate risk for pregnancy, she will remain within the Great Expectations system. If she meets the established medical high risk criteria, she will be enrolled in the MIHIA program. Other criteria include:

- Texas residency. This program is available to all state residents, but clinics have not been established in every county. Undocumented aliens are eligible.
- Family income and resources are less than 100% of the Federal Poverty Guideline.
- Ineligible for Medicaid, Medicare, private health insurance. Dual eligibility for MIHIA and CIHCP or PHC may exist if the patient is CIHCP or PHC eligible and has a high-risk pregnancy. MIHIA pays for the services relating to the pregnancy while CIHCP or PHC covers other medical conditions.

**WHERE TO OBTAIN SERVICES:**

All prospective patients must be screened for financial eligibility. They are then referred to the Great Expectations program for the medical evaluation. If the patient is found to be MIHIA eligible, she is given an appointment with the MIHIA clinic. The MIHIA clinic is hosted by the Fort Bend County Office of Early Childhood Development, Inc. (OEDC), and is staffed by a team of OB specialists from the University of Texas Medical Branch at Galveston.

Eligibility Screening Program: . . . . . 603 S. 5th Street, Richmond 30050

Great Expectations Prenatal Clinic: 603 S. 5th Street, Richmond 342-0500

MIHIA Clinic: . . . . . 603 S. 5th Street, Richmond 342-4530

The MIHIA program was created during the 60th Legislative Session in 1985, but the program did not gear up until late 1986. Each county in the state was allocated funds for MIHIA services, but because of the complexity of the program, the counties were not given the funds directly. The state chose to contract with regional providers. The University of Texas Medical Branch (UTMB) at Galveston was awarded the contract for all the counties in Public Health Regions 10 and 11, with the exception of Harris and Montgomery counties. UTMB's plan to provide service includes establishing clinics throughout their region. The clinics serve residents from the surrounding counties. All MIHIA enrollees are expected to deliver at John Sealy Hospital, but given the nature of the program, several back-up hospitals have been identified to accept the women in case of an emergency. Fort Bend County is fortunate because a clinic has been established here. MIHIA patients from this county do not have to travel as far to obtain services as those living in the outlying counties.

The Fort Bend County Office of Early Childhood Development, Inc. agreed to provide the eligibility screening, the preliminary medical evaluation for all prospective MIHIA patients, and to serve as the host location for the MIHIA program. A non-MIHIA patient stays in Great Expectations. If she develops a problem later in her pregnancy, she can be easily transferred to the MIHIA program. This arrangement causes less confusion for the patient. The patient does not have to decide for herself which program is appropriate for her, or be confused by a change in location or nursing personnel. Each pregnant woman in the system receives the best of care.

#### **MEDICAID**

#### **AFDC, MEDICALLY NEEDY, OR CHILDREN/PREGNANT WOMEN**

##### **DESCRIPTION:**

The Medicaid program is administered by the Texas Department of Human Services using state and federal funds. It provides medical assistance for persons eligible for the AFDC program and those ineligible because of income or other AFDC program requirements.

##### **SERVICES PROVIDED:**

Medicaid works in a similar fashion to private health insurance, and is in fact handled by a major insurance carrier. The person who is certified as eligible is mailed a card once a month to verify coverage. There is no deductible for the patient to pay. The patient may obtain medical care, prescriptions, well child care, hospitalization, and other services from any source that has a Medicaid provider number and is willing to see the patient. The provider is reimbursed for the services at "Medicaid rates."

## ELIGIBLE PERSONS 0033

AS PER ORIGINAL

The Texas Department of Human Services determines eligibility for this program. The individual must obtain and complete a lengthy application and submit it with documents such as birth certificates, social security numbers, verification of residence and income (or lack of income), and proof of familial relationships. The client is given an appointment to return for an eligibility interview. If the client misses the appointment or fails to comply with the requests for information, he or she essentially "misses his chance," and must begin the process again. TDHS has up to 45 days to make an eligibility determination. It can be a lengthy and frustrating experience. Clients should be encouraged to comply with TDHS to the best of their ability.

There are numerous eligibility factors, and several categories of eligible persons:

- Pregnant women (married or single)
- Children under 18 who are deprived because one parent is absent and is providing insufficient or no support, or one parent is disabled.
- Caretakers of deprived children.
- Newborn children. A child is automatically eligible if the mother was receiving Medicaid when the child was born.
- Persons with high medical bills may be eligible for the "spend down" or medically needy program.

### Some of the eligibility factors include:

- Citizenship. Persons must be U.S. citizens or aliens legally admitted for permanent residence.
- Relationship. Children must be living with a relative.
- Resources, with certain exclusions, cannot exceed \$1,000.
- Income, less allowable medical bills, cannot exceed the income limits for the appropriate family size.

In Fort Bend County, the Eligibility Screening Program can identify those who are potentially Medicaid eligible, and can guide the client in making application for Medicaid services. Clients who are screened by ESP will receive a white laminated ID card with an eligibility code of MC (Medicaid Certified), ME (Medicaid Eligible), or MA (Medicaid Applied) depending on the client's status.

**WHERE TO OBTAIN SERVICES:**

Medicaid patients may obtain services from any provider who is willing to see them. Pediatric patients and women seeking prenatal or family planning services may use the clinics operated by the Ft. Bend County Office of Early Childhood Development, Inc.

CITY OF KATY, TEXAS

RESOLUTION No. 243

WHEREAS, The City Planning and Zoning Commission has adopted and approved a plan for development of Interstate Highway 10 through the City of Katy and has presented such Plan to the City Council, and

WHEREAS, the City Council has reviewed such plan and finds it in the best interest of the safety and welfare of the citizens of the City of Katy and feel that all means should be used and exercised by the City to present and urge such plan to be adopted by state and federal officials,

NOW THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF KATY

THAT Mayor John L. Nelson is authorized and instructed to appear before the Texas Department of Highways and Public Transportation, the United States Department of Transportation, and any other federal, state and local agency which might be of assistance to the City of Katy in presenting the following Plan which outlines the needs of the City of Katy for its present and future association with and access to Interstate Highway 10 as it passes through the City of Katy and its Extraterritorial Jurisdiction. The City Council has determined that in order to provide for the safe and adequate flow of vehicular traffic in and around the City now and in the future, changes must be made in the design of ramps providing entrance to and exit from the freeway, frontage roads, and access to the frontage roads.

The specific changes found to be necessary for safe traffic flow include the following:

A. On/off freeway ramps

1. New exit ramp westbound east of FM 1463.
2. New entrance ramp eastbound east of FM 1463.
3. Relocation of entrance and exit ramps on north frontage road east of Pin Oak.
4. Relocation of entrance ramp on south frontage road east of Pin Oak

B. Frontage roads

1. Planning for and construction of continuous frontage roads through Katy westbound from Katy-Fort Bend Road to the end of Katy's Extraterritorial Jurisdiction in Waller County.

2. Planning for and construction of continuous frontage road through Katy eastbound from the limit of Katy's Extraterritorial Jurisdiction in Waller County, east to Katy-Fort Bend Road.

C. Access from Public Streets

Public street access via 100 foot openings should be permitted along the frontage roads at the following points:

1. New access should be provided on the north frontage road at at least 3 locations between Katy-Fort Bend County Road and Pin Oak Road and 3 locations west of Willow Fork to Buffalo Bayou and the limit of Katy's Extraterritorial Jurisdiction.
2. New access should be provided along the south frontage road west of Willow Fort of Buffalo Bayou as well as at locations approximately 400-500 feet west of Cane Island Branch of Buffalo Bayou and east of Pin Oak Road.
3. Enlarged access should be provided at the entrance to the Katy Sewage Treatment Plant at the location already permitted between Pin Oak Road and Katy-Fort Bend Road.

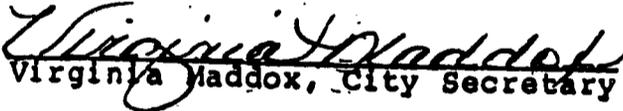

Such points are based on a spacing scheme of approximately 1,800 foot maximum intervals and are to coincide with future public streets, thereby providing the highest level of circulation and traffic control in the best interest of public safety:

The Mayor is authorized to designate those he deems necessary to fully present this proposal and recommendation of the City of Katy to the State of Texas for the state to include in its plans for improvement of Interstate Highway 10.

This Resolution is adopted by the City Council of the City of Katy this 10 day of September, 1987.

MEMORANDUM

Revised September 15, 1987

Re: Interstate 10 Corridor Study  
Katy-Ft. Bend Road to FM 1463  
Katy, Texas

The following information pertains to what has recently been referred to in the City of Katy as the Interstate 10 Corridor Study. This study was undertaken in early April by the Katy Planning and Zoning Commission as an indirect result of its annual comprehensive review of the Zoning Ordinance and more directly, in response to inquiries of Planning Commissioners and citizens relative to highway construction west of Katy.

In the preparation of this study the Commission has obtained the assistance of the City Engineer, Clay and Leyendecker, various landowners within the area, and other consultants familiar with the region. These include Rhoads Engineering Corporation, Northrup Associates, and Vernon G. Henry & Associates, Inc., both of the latter being land planning firms.

The Planning and Zoning Commission has discussed this matter at a number of recent meetings generally beginning with a meeting on April 29 with Leonard Vincik, Assistant District Engineer (District 12) of the State Department of Highways and Public Transportation (SDHPT) regarding the ultimate plans his department has for the Katy Freeway (I-10). Mr. Vincik explained the current and future plans as presently conceived. In addition he suggested that the City of Katy work toward the development of a traffic circulation plan that would satisfy the ultimate needs of the City of Katy and complement the work to be done on Interstate 10.

Since the City of Katy is completely surrounded by the extraterritorial jurisdiction (ETJ) of the City of Houston, such a traffic circulation plan would need to include that of Houston. On July 21, Mayor Johnny Nelson met with Ms. Patricia Knudson, (at her request), Assistant Director of Planning for Houston, Ted Siaweleski, one of her assistants, and Tom Northrup of Northrup Associates, one of the consultants who prepared the Waller County Thoroughfare Plan. Ms. Knudson discussed the potential for connecting Kingsland Blvd. into an east-west major thoroughfare proposed in Waller County.

Like Kingsland Blvd., the thoroughfare in question runs parallel to Interstate 10, a relatively short distance to the south. The SDHPT and other traffic experts strongly recommend such "parallel facilities" as a means of providing two-way traffic circulation near freeways to encourage their use for local traffic rather than the freeway. An alignment using Medical Center Blvd. has been proposed by Houston. The City of Katy is being asked to support this proposal as are local landowners. The hospital and some landowners have endorsed the proposal. Others are still analysing it.

At the July 7 meeting of the Planning and Zoning Commission, representatives of local landowners and developers appeared at the request of the Commission. Since most of the property along Interstate 10 had been master planned to some extent, it was suggested that the City Engineers, Northrup Associates, Rhoads Engineering and others as necessary cooperate in the preparation of a drawing showing the entire corridor.

Subsequently, several meetings of the landowners and their representatives were held to ascertain the current status of their properties and plans. A composite map was prepared showing the present geometric design of Interstate 10 between Katy - Ft. Bend Road and FM 1463, the existing ownership of adjoining property, and the existing and proposed roadway patterns projected within those tracts. In addition the map includes U.S. 90, FM 1463, Pin Oak Rd., Katy-Ft. Bend Road, Katyland Drive, Crossover Rd., and two alternatives for Kingsland Blvd. These roads represent the accepted major thoroughfare system for the area.

As to access, the present "control of access" line was shown on the map indicating areas where access to the freeway is denied, which in general is the entire corridor through Katy. Exceptions to this are noted on the plan and include the Stockdick (TCB) tract, a portion of the southwestern Goodrich tract, a point just west of Cane Island Creek on the south access road, the entrance to the City sewer treatment plant, Danover Drive, and a point in the northwest quadrant of the intersection of Pin Oak Road. Danover road access was permitted by the SDHPT at the request of the City approximately two years ago.

Based, in general, on a geometric study prepared for the owners of the RLG tract and the Tucker Estate, the following was added to the base map:

- 1) Continuous access road on the south side of Interstate 10 between Pin Oak Road and Katy-Ft Bend. Rd.
- 2) Continuous access road on the north side of Interstate 10 between Pin Oak Road and Katy-Ft Bend. Rd.

AS PER ORIGINAL

- 3) Relocation of on-ramp on south side of Interstate 10 to provide additional access road exposure.
- 4) Reversal of ramps on north side of Interstate 10 for same reasons.
- 5) Additional of on and off-ramps east of PM 1463 to provide a complete interchange at that point.

This substantially reflects a geometric design that the City of Katy has sought for several years, except for the removal of access controls to the frontage roads.

On August 4, the Planning & Zoning Commission reviewed the map showing the conditions so stated. After considerable deliberation a recommendation to City Council was formulated and acted upon. This recommendation included the following:

- 1) That the SDHPT at whatever level be urged to consider inclusion in their ultimate plans for Interstate 10, the proposed geometric design shown, specifically items listed previously.
- 2) That access conditions be reevaluated at least to provide an opportunity for public street intersections generally at 1800' maximum intervals. Specifically these points were identified as;
  - (a) New 100-ft. opening adjacent to Poorman Estate tract approximately 400-500 west of Cane Island Creek.

- (b) Widening of existing 60-ft. opening at sewer treatment plant to 100-ft.
  - (c) New 100-ft. opening east of Pin Oak Road in RLG tract.
  - (d) Widening to 100-ft. opening along common line between RLG tract and Stockdick Estate tract (Access already permitted to Stockdick)
  - (e) New 100-ft. opening adjacent to and along a common line between Goodrich and Miller tracts on north.
  - (f) New 100-ft. opening adjacent to Tucker Estate tract.
  - (g) New 100-ft. opening (which we understand has been approved) adjacent to the Katy National Bank tract.
- 3) That the cost of construction related to changes would be included in the future highway construction program of the SDHPT at no cost to the City of Katy or the adjoining landowners. However, should additional right-of-way be required, the City of Katy would look to the landowners for donation of land.

It should be noted that while the Planning and Zoning Commission has not specifically addressed development plans for all the adjoining property, it is their intent to review same and insure that future plats include access and circulation patterns consistent with this recommendation and in a manner that would minimize any adverse affect on the level of service of the Katy Freeway.

On August 13, the Katy City Council held a workshop with members of the Planning and Zoning Commission, and other interested parties to discuss the above recommendations. After discussion, the matter was passed on to City Council with a unanimous recommendation for action.

The recommendation was then tabled to allow Council members to review the issue more fully. A Town Hall meeting was called for August 25 to allow input from all interested parties, including a representative of the SDHPT. Any action of the City Council could then be taken at its August 27 meeting.

Following the workshop meeting, Mayor Nelson requested Tom Northrup to contact Mr. Leonard Vincik (SDHPT) to invite him to the Town Hall meeting and to arrange a meeting prior to the Town Hall session to apprise him of the reasons for the action. It was learned that Mr. Vincik was being transferred to the Yoakum office and would not be available.

Northrup was referred to Mr. Don Garrison, the District Planning Engineer, who indicated he would be available for the Town Hall meeting, but probably could not be able to meet prior to that time. Northrup reviewed the history of the situation and explained the purpose of the meeting. A copy of the study map was then forwarded to Mr. Garrison for their review prior to the August 25 meeting.

At the August 25 Town Hall meeting, Planning and Zoning representatives explained the study in detail. The meetings were attended by Don Garrison (SDHPT), who explained the policies and procedures of his department. Considerable comments were made by area landowners and citizens. City Council and City staff were also involved in the discourse. The meeting was ended with the matter being placed on the next regular City Council agenda for discussion of a resolution.

AS PER ORIGINAL

At the August 27 City Council meeting the matter was discussed briefly and the City Attorney was instructed to prepare a resolution. On September 1, the Planning and Zoning Commission met with several new commissioners in attendance. The entire Corridor Study was reviewed in detail. Since the initial effort was primarily directed toward that portion of Katy within the City limit, several of the Commissions expressed the opinion that future plans should also address public street access to any future frontage road construction west of F.M. 1463. This was also in response to concerns of several members of City Council relative to future circulation.

On September 10 the City Council reviewed the revised issues and adopted Resolution 243 unanimously. This action authorized the Mayor to proceed accordingly toward implementation of the Interstate 10 Corridor Study.

It is hoped that the SDHPT will take the matter under serious advisement and allow continued input from the City of Katy in this matter. Adoption and ultimate construction of a compatible geometric design on Interstate 10 is of major importance to the orderly growth and future development of the City. It is obvious that Katy will be a focal point or growth node along Interstate 10 as Houston expands to the west. These changes are, therefore, essential to the economic and environmental viability of the City.

September 24, 1987

The Honorable Jodie Stavinoha  
Fort Bend County Judge  
500 Jackson  
Richmond, Texas 77469

Dear Judge Stavinoha:

After much deliberation I would like to request the addition of a full-time arson investigator to the staff of the Fort Bend County Fire Marshal's office.

There are approximately 300 open cases on file in the office at this time, and they are increasing monthly. The program of using volunteer investigators that Fire Marshal Talasek had, prior to my taking this position, is not working. The volunteers have gotten more involved in their own departments and are not able to devote as much time as in the past. They seem to have conflicts with their schedules at the times I most need them. Also, since this is on a voluntary basis, I owe them pay back time helping in their city or fire department investigations, time that is becoming more scarce.

Several functions of this office have not been carried out to the fullest of your or my expectations, due to the time element. Functions, such as, some of the County buildings have never been inspected and this should be done on a yearly basis, also more time needs to be devoted to the Safety Committee in an effort to reduce accidents, in turn reducing the cost to the County.

I realize this position requires my being on call 24 hours a day, 7 days a week, which leaves very little time for a family life. A couple of incidents happened last year that caused cancellation of plans with my family. On Valentine's Day we were scheduled to attend a party at church, just as we started out the door a call came in. I didn't get home until approximately 11:30 p.m. In the spring my mother came here from Florida to celebrate her birthday, just as we were leaving a call came in and I didn't get back until late that night. I have been called out from the Houston Livestock Show and Rodeo and other events. I was unable to go on vacation last year because I could not find anyone to cover the County. I finally took a beeper vacation at home but was called in several times and eventually lost a few days vacation.

Earlier this year a problem arose when my wife had surgery and a fire dropped. The only person I could find that had been to Arson Investigator's School was my secretary. This created a great fury among some of the fire service personnel because of her lack of experience.

I know we are in an economic crunch, but due to the increasing work load in this office, I would appreciate your favorable consideration in regards to hiring another employee. This individual must hold a basic police officer certification and arson investigator certification. With these qualifications requiring as much, if not more education, experience and skill, than a detective at the Sheriff's Office, I feel this individual should be paid a comparable wage of \$25,739.48 yearly, plus all employee benefits and a car at approximately \$13,000. The other equipment needed for an investigator will be divided from materials already owned by the County, or the individual will be able to use County equipment, and I once again will use some of my personal equipment

Thank you in advance for your favorable consideration.

Sincerely,

Gary A. Tilton  
Fort Bend County  
Fire Marshal

PETITION FOR THE ISSUANCE OF BONDS  
AND  
FOR A BOND AND MAINTENANCE TAX ELECTION  
WITHIN  
FORT BEND COUNTY LEVEE IMPROVEMENT DISTRICT NO. 8

THE STATE OF TEXAS            Y  
                                          Y  
COUNTY OF FORT BEND         Y

TO THE HONORABLE COUNTY JUDGE AND COMMISSIONERS' COURT  
OF FORT BEND COUNTY, TEXAS:

The undersigned (herein the "Petitioners"), being Fort Bend County Levee Improvement District No. 8 (the "District") and Natchez Joint Venture, a Texas joint venture which is the owner of a majority of the acreage included in the District (the "Landowner"), acting pursuant to the provisions of Vernon's Texas Civil Statutes, Water Code, Chapter 57, respectfully petition the County Judge and Commissioners' Court of Fort Bend County, Texas, (i) for the issuance of the bonds herein described (the "Bonds") and (ii) to order an election in the District for the purpose of submitting propositions on the issuance of the Bonds and the levy of a tax in payment thereof and the levying and collecting of a maintenance tax, and Petitioners would respectfully show the following:

I.

The District was created by the Commissioners' Court of Fort Bend County, Texas, by order dated December 22, 1986.

II.

The District is organized and exists under the terms and provisions of Article XVI, Section 59, Texas Constitution, and Chapter 57 of the Texas Water Code, as amended.

III.

The undersigned are Chairman and Secretary of the Board of Directors of the District and the owner of a majority of the acreage included in the District, respectively.

## IV.

Pursuant to the provisions of Sections 57.151 through 57.156, Texas Water Code, an engineer's survey and report was prepared and submitted to the Texas Water Commission and the Board of Directors of the District. The engineer's report was approved by the Texas Water Commission on September 2, 1987, and was adopted by the Board of Directors of the District on September 3, 1987, as the District's Plan of Reclamation.

## V.

The cost estimates approved by the Texas Water Commission and the Board of Directors of the District for the acquisition and construction of the improvements, the costs of maintaining and operating the District as well as the costs associated with the issuance of the District's bonds, all as described in the Plan of Reclamation is \$16,450,000. Such amount is not more than the sum of:

A. The estimated cost of the acquisition or construction of improvements to be made according to the adopted Plan of Reclamation approved by the Texas Water Commission;

B. An amount to pay interest on the bonds during the period stated in the engineer's report, which shall be not more than two years from the time the bonds are issued as approved by the Texas Water Commission;

C. The cost of maintenance of the improvements for two years as approved by the Texas Water Commission;

D. An additional ten percent (10%) to meet emergencies, modifications, and charges lawfully made; and

E. All damages awarded against the District.

## VI.

The Landowner requests that the Bonds of the District be issued in the maximum aggregate principal amount of \$16,450,000, excluding any bonds which may be issued to refund same except to the extent that such bonds are issued to refund bonds of lesser principal amounts, bearing interest at any rate or rates, provided that the net effective interest rate shall not exceed the maximum legal limit in effect at the time of issuance.

## VII.

AS PER ORIGINAL

The Landowner also requests that an election be held in the District to determine whether or not the Bonds should be issued by the District for the purposes indicated in the Plan of Reclamation and for the amount stated and whether or not taxes should be levied in the District to pay for the Bonds. It is requested that at such election the following proposition be submitted:

PROPOSITION

SHALL THE BOARD OF DIRECTORS OF FORT BEND COUNTY LEVEE IMPROVEMENT DISTRICT NO. 8 BE AUTHORIZED, AS NOW OR HEREAFTER PROVIDED BY LAW, TO ISSUE THE BONDS OF SAID DISTRICT IN ONE OR MORE ISSUES OR SERIES IN THE MAXIMUM AMOUNT OF \$16,450,000 MATURING SERIALLY OR OTHERWISE IN SUCH INSTALLMENTS AS MAY BE FIXED BY SAID BOARD OVER A PERIOD OR PERIODS NOT EXCEEDING THIRTY (30) YEARS FROM THEIR DATE OR DATES, BEARING INTEREST AT ANY RATE OR RATES (EITHER FIXED, VARIABLE, OR FLOATING ACCORDING TO ANY CLEARLY STATED FORMULA, CALCULATION, OR METHOD), AND TO SELL SAID BONDS AT ANY PRICE OR PRICES, PROVIDED THAT THE NET EFFECTIVE INTEREST RATE ON ANY ISSUE OR SERIES OF BONDS SHALL NOT EXCEED THE MAXIMUM LEGAL LIMIT IN EFFECT AT THE TIME OF ISSUANCE OF EACH SUCH ISSUE OR SERIES, ALL AS MAY BE DETERMINED BY THE BOARD OF DIRECTORS OF SAID DISTRICT, FOR THE PURPOSE OR PURPOSES OF ACQUIRING, PURCHASING, BUILDING, CONSTRUCTING, COMPLETING, CARRYING OUT, MAINTAINING, PROTECTING, MODIFYING, REPAIRING, IMPROVING, ADDING TO AND REBUILDING, ALL WORKS, IMPROVEMENTS, FACILITIES, EQUIPMENT AND APPLIANCES, INTERESTS IN PROPERTY, AND CONTRACT RIGHTS, NEEDED THEREFOR AND ADMINISTRATIVE FACILITIES NEEDED IN CONNECTION THEREWITH, TO PROVIDE A SYSTEM OF LEVEES, DRAINAGE DITCHES, DRAINAGE STRUCTURES, GATES, CULVERTS, BRIDGES AND OTHER IMPROVEMENTS NECESSARY OR PROPER TO FULLY ACCOMPLISH A RECLAMATION PLAN FOR DRAINING LAND WITHIN THE DISTRICT, RECLAIMING LAND IN THE DISTRICT FROM OVERFLOW OR DAMAGE BY WATERS FROM STREAMS OR RIVERS INSIDE OR ADJACENT TO THE DISTRICT WHICH MAY AFFECT LAND WITHIN THE DISTRICT, AND STRAIGHTENING STREAMS WHICH MAY INJURE LAND IN THE DISTRICT, AND TO PROVIDE FOR THE PAYMENT OF PRINCIPAL AND INTEREST ON SUCH BONDS BY THE LEVY AND COLLECTION OF A SUFFICIENT TAX UPON ALL TAXABLE PROPERTY WITHIN SAID DISTRICT AS MAY BE PROVIDED IN THE ORDERS OR RESOLUTIONS AUTHORIZING ISSUANCE OF SUCH BONDS, ALL AS NOW OR HEREAFTER AUTHORIZED BY THE CONSTITUTION AND LAWS OF THE STATE OF TEXAS?

## VIII.

The Board of Directors of the District is of the opinion that it would be of benefit to the District to be authorized to levy, assess and collect an annual ad valorem tax to be levied, assessed and collected at a maximum rate of not in excess of twenty-five cents (\$0.25) per one hundred dollars (\$100) valuation of taxable property within the District to secure funds for maintenance purposes as set forth in Chapter 57, Texas Water Code, and the Board of Directors of the District requests that at the aforesaid election the following proposition also be submitted:

PROPOSITION

SHALL THE BOARD OF DIRECTORS OF FORT BEND COUNTY LEVEE IMPROVEMENT DISTRICT NO. 8, BE AUTHORIZED, AS NOW OR HEREAFTER PROVIDED BY LAW, TO LEVY AND ASSESS AND COLLECT AN ANNUAL AD VALOREM TAX OF NOT TO EXCEED TWENTY-FIVE CENTS (\$0.25) ON EACH ONE HUNDRED DOLLARS (\$100) VALUATION OF ALL TAXABLE PROPERTY WITHIN SAID DISTRICT TO SECURE FUNDS FOR (1) ANY MAINTENANCE PURPOSES IN WHICH THE DISTRICT MAY NOW OR HEREAFTER BE AUTHORIZED BY LAW TO ENGAGE, INCLUDING, BUT NOT LIMITED TO, FUNDS FOR PLANNING, MAINTAINING, UPKEEPING, REPAIRING, AND OPERATING THE DISTRICT'S LEVEES, DRAINAGE DITCHES, DRAINAGE STRUCTURES, GATES, CULVERTS, BRIDGES, OR OTHER IMPROVEMENTS, FACILITIES, PLANTS AND EQUIPMENT OF THE DISTRICT, AND FOR THE PAYMENT OF PROPER SERVICES, ENGINEERING AND LEGAL FEES, ORGANIZATIONAL AND ADMINISTRATIVE EXPENSES, OR (2) MAKING ADDITIONS, EXTENSIONS OR OTHER IMPROVEMENTS TO THE DISTRICT'S LEVEES, DRAINAGE DITCHES, DRAINAGE STRUCTURES, GATES, CULVERTS, BRIDGES, DRAINS, AND OTHER IMPROVEMENTS?

## IX.

The sum of Two Hundred Dollars (\$200.00) accompanies this Petition to cover expenses incident to the requested bond and maintenance tax election and other expenses that may be properly incurred before the Bonds are sold and issued.

WHEREFORE, the undersigned respectfully pray: that this Petition be properly filed as provided by law; that upon filing of this Petition, the Honorable Commissioners' Court of Fort Bend County, Texas, if it be in session, and if not, then the Honorable County Judge of Fort Bend County, Texas, order that an election be held within the District for the purposes hereinabove described; that such election order be entered in the minutes of

RE: COUNTY BUILDING PERMIT NO. -----

Dear Sir:

Your building permit was issued on ----- . This office has no record of the surveyors certification stamp or seal as to the as-built floor elevation (bottom of the lowest floor support stringer in velocity zones) required with your permit.

County Flood Plain Management Regulations stipulate that we maintain this form in our records.

In the event we do not receive a certification on your building elevation within forty-five (45) days of this writing, we are required to turn your records in to the Federal Emergency Management Agency office in Denton. We maintain certain records relating to financial transactions of these officers and accordingly, our examination included such auditing procedures as we considered appropriate in the circumstances.

The following is a breakdown of the fees paid by the Tax Collector in August:

SUBJECT: Fort Bend County Landfill Proposed Rate Increase

Gentlemen:

On October 12, 1987, I will come before you to request your consideration in granting a landfill rate increase.

Our current rate is \$3.85 per cubic yard and has been in effect since April 1, 1987. Due to ever increasing inflationary pressures, especially in the areas of labor and equipment, we are requesting an increase of 6% to \$4.10 per cubic yard, to become effective November 1, 1987. As additional market information, our closest competitor recently increased their rate to \$4.60 per cubic yard.

If granted, this increase will offset to some degree, our increasing expenses, and at the same time serve to increase revenue to Fort Bend County.

The proposed increase is being requested well in advance of the effective date in order to give our customers ample time to prepare for the change. As always Gentlemen, you may feel assured that the landfill staff will make every effort to present and carry out this change in the most favorable light.

Sincerely,

LAIDLAW WASTE SYSTEMS, INC.

Jeanne L. Kaiser  
Landfill Division Manager

RE: Additional Funds  
Fees & Services

Gentlemen:

Please consider our budget request for additional funds in the amount of \$45,000 to our Fees & Services. We use this line item to pay for attorneys appointed to indigent defendants.

Due to the economic conditions at this time, more people are unemployed. There also has been an increase in cases being filed. This results in more defendants in need of appointed counsel. I have made it a practice to require that defendants who are employed, and who receive probation as part of their plea bargain to reimburse the county for their legal representation. In reality the county is receiving a portion of this expenditure back into the general fund.

We began jury selection in a Capital Murder case in the spring. This resulted in lengthy pre-trial motions being heard in addition to selection of several jurors. As a result of the pre-trial motions the District Attorney dismissed these charges. The fees paid to the two attorneys in their representation of the defendant during this time were substantial.

We do not anticipate any unusual expenditures during the remainder of the year and would request that the additional funds be added to our budget.

Sincerely,

MONTHLY REPORT

SEPTEMBER, 1987

Shredding was the primary method used for the removal of unwanted vegetation from streams and channels during September, 1987. Work was done on a total of thirty-one (31) streams.

Some of these included Big Creek and three (3) of its tributaries, Brays Bayou and its tributary through the Mission Bend development, as well as Keegans Bayou and most of its tributaries in Fort Bend County. Other streams worked were Cottonwood Creek, Mound and Guy Creeks and Middle Bayou. A complete listing of all streams that received work is included later in this report.

The District's bridge crew worked on a variety of projects which included the building of a low-water crossing across Dry Creek, the installation of new watergates across Fulshear Creek, Buffalo Creek and Mound Creek I-A-2, as well as the building of three (3) new wheelchair ramps at the George Memorial Library in Richmond.

Work began during September on the Big Creek Bypass project. The Fiat Allis FD-30 bulldozer began the clearing of trees along the right-of-way so that excavation equipment can begin.

The excavation of Buffalo Creek I-B-3 continued with the Northwest 41 dragline digging and the Fiat Allis FD-20 bulldozer spreading dirt.

The Link Belt LS-128 dragline dug approximately nine thousand (9,000) cubic yards of spoil dirt from Hoggs Bayou. This project consists of clearing and then digging a section of the bayou just upstream and downstream of F.M. 1462.

The Rapier NCK-305 dragline and Caterpillar D-6 bulldozer worked on an embankment at an erosion control chute on Robinowitz Ditch.

The excavation of Snake Creek I-C-4 continued with the Ruston Bucyrus RB-22 dragline. Approximately four thousand (4,000) cubic yards were dug.

Work also continued on Dry Creek downstream of Highway #59. Work consisted of the spreading of spoil dirt and the rip-rapping of sideslopes around curves.

The Turkey Creek II-A-2 project continued with the Northwest 9570 dragline which dug eighteen thousand (18,000) cubic yards of spoil dirt.

The following charts show where each machine worked during September, 1987.

October 2, 1987

KAY TRIPICCHIO
EXECUTIVE DIRECTOR

Honorable Judge Jodie Stavinoha
Honorable Commissioners :
Ben Denham, Bob Lutts,
Alton Pressley, Johnnie Pustka

Gentlemen:

On behalf of our Board of Directors I am writing to ask your reconsideration of our request for financial assistance from the county.

On September 29th it was necessary for this agency to write to our schools informing them that we are no longer able to continue the educational programs that we have been rendering in the Fort Bend County schools for the past eleven years.

Although we have been actively seeking other resources for replacing the funding formerly provided by Revenue Sharing and have had some degree of success, it is not enough. We have had to reduce our staff by two positions. One of these positions was responsible for rendering services to our schools and consisted of 827 direct hours of presentations to 20,417 students.

This is a greatly needed service. In addition to the presentations, it also provides a means of promoting the awareness of an affordable community intervention/rehabilitation center available to, in particular, the many who have neither adequate insurance nor other financial resources.

While there are a number of civic groups who are aiding prevention by providing educational materials and peer support clubs, the fact still remains that once a problem (for any age level) becomes suspect or identified there is no other resource in the county that offers the intervention/rehabilitation services as those rendered by the Fort Bend Council. Without your help, this type of service will be available only to county residents who can financially provide for their own care.

We are asking that you reconsider our request. \$22,000 would allow us to re-establish the school program as well as provide for some other service needs of the agency. Your consideration of our request as well as any amount you could help us with would be, as always, greatly appreciated.

Respectfully,

Kay Tripicchio

Hon. R. George Molina

Justice of the Peace Pct 2-1

Dear Judge Molina,

As requested in your letter of October 15, 1987, attached are the total number of cases for all JPs since April 1987 to September, 1987. Since you did not specify new, old or disposed, we included total new cases, old cases, dismissed and paid plus the dollar amount collected on criminal cases; and the total cases filed or "handled" each month and the dollar amount collected.

This information is presented to Commissioner's Court every month as part of the Fee Officers Report, however the number of civil cases have not been reported. We will include them beginning with the September report. I am enclosing a copy of our cover letter to Commissioners' Court dated July 27, 1987 in which we conducted a case load analysis and indicated that perhaps some of the JP offices are indeed understaffed.

It is a well documented fact that civil cases do take up to 75% more time and paperwork than criminal cases and, unfortunately, for an incredibly small filing fee which is set by legislature. I believe that at least 15 criminal cases can be processed in the same amount of time it takes to process one civil case, depending on the nature of the case.

These figures have been taken directly from each JP's monthly reports and have been reported to Commissioners' Court with the exception of the number of civil cases, however from now on they will be included in the report.

Re: October 19, 1987, Agenda

Dear Judge Stavinoha:

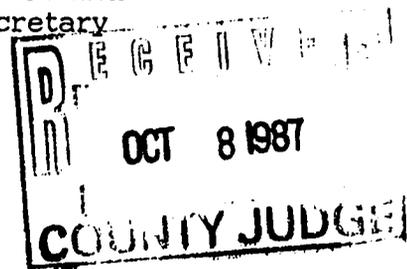

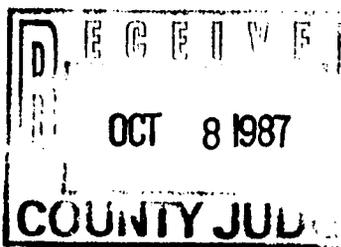

Please place the following item on the Agenda for the Monday, October 19, 1987, meeting of the Fort Bend County Commissioners Court: Cooperation Agreement with Harris County allowing the City of Katy to Participate in the Harris County Community Development Block Grant Program (HC CDA) for 1988-1990. Because Katy is located in three counties, the Agreement must be signed by officials from Fort Bend County and Waller County as well as the City of Katy. When approved by Harris County, executed originals will be returned to each entity. Commissioners Court has always approved the Agreement in the past, and the City of Katy will appreciate your cooperation once again.

I have enclosed a xerox copy of the Agreement and other information. There will be four copies of the Cooperation Agreement to be signed by you, the County Clerk, and the County Attorney. Thank you for your consideration and assistance in this matter.

Sincerely yours,

CITY OF KATY

WHEREAS, the Adjacent Counties desire that that portion of the City's population and area located within the boundaries of Adjacent Counties be included in the Grant Application; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at Art. 1269L-4, Tex.Rev.Civ.Stats., which provides, in part, for the authorization of cities to implement a community development program; and

WHEREAS, the Congress of the United States of America has enacted the Housing and Community Development Amendments of 1979, Pub. L. No. 96-153, which authorizes at 42 U.S.C.A. §5306(b)(5), Harris County to include in the Grant Application that portion of the City located within the boundaries of the Adjacent Counties;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That the County, and the City, in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the Adjacent Counties agree to allow Harris County to include the City's population and area with that of Harris County in the Grant Application, and Harris County agrees to include the same in the Grant Application. Unless otherwise specifically stated herein, said population and area as used in this agreement includes, but is not limited to, that portion of the same which is located within the boundaries of the Adjacent Counties. The City and the Adjacent Counties further agree not to include, or permit the inclusion of, in any other application for a grant for a community development program pursuant to the Housing and Community Development Act of 1974, as amended, that portion of the City's population and area located solely within the boundaries of the Adjacent Counties.

II.

III.

The County and the City agree to cooperate in undertaking, or assisting in undertaking, essential community development and housing assistance activities, specifically urban renewal and publicly assisted housing.

IV.

The City and the Adjacent Counties acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of Housing and Urban Development

AS PER ORIGINAL

and that no determination has been made at the time of execution of this agreement as to where and for what purposes the fourteenth, fifteenth and sixteenth years funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that Harris County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such funds for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, the County may, in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City and the Adjacent Counties have received no assurance, written or oral, from the County to the contrary, and is aware that the execution of this contract does not constitute any guarantee on the part of the County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

V.

This agreement shall remain in full force and effect for the entire fourteenth, fifteenth, and sixteenth years funding period covered by the Grant Application (July 1, 1988 through June 30, 1991), and for such additional time as may be required for the expenditure of funds granted to the County for such period. The City and the Adjacent Counties acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit the County to allow the City and the Adjacent Counties to withdraw from this agreement or otherwise terminate the term of this agreement at any time after November 9, 1987.

VI.

In the performance of this Agreement, County and all cooperating units of general local government executing this Agreement agree to take all actions necessary to assure compliance with County's certification required by section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, including Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, section 109 of Title I of the Housing and Community Development Act of 1974, and other applicable laws.

VII.

The City agrees to inform Harris County of any income generated by the expenditure of Community Development Block Grant

AS PER ORIGINAL

(CDBG) funds received by the City and that any such income shall be paid to Harris County. Harris County may, in its sole discretion, allow the City to retain program income provided that any and all such income may only be used for eligible activities in accordance with all Community Development Block Grant requirements as may then apply. The City understands that Harris County has the responsibility for monitoring income and reporting to HUD on the use of any such program income, and the City, therefore, agrees to meet such recordkeeping and reporting requirements as may be required by the County for this purpose. In the event of close-out or change in status of the City, any program income that is on hand or received subsequent to the close-out or change in status will be paid to Harris County.

VIII.

The City agrees and understands that the following terms and conditions will apply with regard to real property acquired or improved in whole or in part using CDBG funds that is within the control of the City during the term of this Agreement.

- a) The City shall timely notify Harris County of any modification or change in the use of property from that planned at the time of acquisition or improvement, including disposition;
- b) The City shall reimburse Harris County in an amount equal to the current fair market value (less any portion thereof attributable to expenditures of non-CDBG funds) of property acquired or improved with CDBG funds that is sold or transferred for a use which does not qualify under CDBG regulations.

IX.

The City agrees that program income generated from the disposition or transfer of real property prior to or subsequent to the grant close-out, change of status, or termination of this Agreement shall be treated according to § 570.512(e) of the Code of Federal Regulations.

X.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this agreement for any reason, the County may terminate this agreement by giving written notice of the same to the City.

XI.

The County and all cooperating units of general local government executing this agreement agree that the County has authority to carry out activities which will be funded from annual CD Block Grants from Federal Fiscal Years 1988, 1989 and 1990 appropriations and from any program income generated from the expenditure of such funds.

XII.

This agreement shall be of no force and effect unless and until it is executed by both parties hereto and certified by counsel for all parties hereto on the forms set forth below.

IN TESTIMONY WHEREOF, this instrument has been executed in five originals, each to have the force and effect of an original as follows:

DEPARTMENT OF THE ARMY
LEASE DACW64-1-87-34
FOR
PUBLIC PARK AND RECREATIONAL PURPOSES
BUFFALO BAYOU AND TRIBUTARIES PROJECT
BARKER DAM, TEXAS

THE SECRETARY OF THE ARMY under authority of Section 4 of the Act of Congress approved 22 December 1944, as amended (16 U.S.C. 460d), hereby grants to Fort Bend County, Texas a lease for a period of twenty-five (25) years commencing on 1 September 1987, and ending on 31 August 2012 to use and occupy approximately 1,961 acres of land and water areas under the primary jurisdiction of the Department of the Army in the Barker Dam Project Area, hereinafter referred to as the premises as shown on attached Exhibit A, for public park and recreational purposes. Leased area is further described in Exhibit B.

THIS LEASE is granted subject to the following conditions:

1. The lessee shall conform to such regulations as the Secretary of the Army may issue to govern the public use of the project area and shall comply with the provisions of the above cited Act of Congress. The lessee shall protect the premises from fire, vandalism, and soil erosion, and may make and enforce such regulations as are necessary, and within its legal authority, in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with provisions of the above cited Act of Congress.

2. The lessee shall administer and maintain the premises in accordance with the U. S. Army Engineers' Master Plan and the implementing General Development Plan for the premises and with an Annual Management Program to be mutually agreed upon between the lessee and the U. S. Army District Engineer in charge of the administration of the project, which may be amended from time to time as may be necessary. Such Annual Management Program shall include, but is not limited to, the following:

a. Plans for management activities to be undertaken by the lessee or jointly by the U. S. Army Engineers and the lessee, including improvements and other facilities to be constructed thereon.

b. Budget of the lessee for carrying out the management activities.

c. Personnel to be used in the management of the area.

3. The lessee shall provide the facilities and services necessary to meet the public demand either directly or through concession agreements with third parties. All such agreements shall state that they are granted subject to the provisions of this lease and that the concession agreement will not be effective until approved by the District Engineer.

4. Admission, entrance or user fees may be charged by the lessee for the entrance to or use of the premises or any facilities constructed thereon, PROVIDED, prior written approval of the District Engineer is obtained.

5. The rates and prices charged by the Lessee or its sub-lessees shall be reasonable and comparable to rates charged for similar goods and services by others in the community. The District Engineer shall have the right to review such rates and prices and require an increase or reduction where it is determined that the objective of this paragraph has been violated. The Lessee shall keep such rates and prices posted at all times in an appropriate and conspicuous place on the leased premises. The District Engineer may require submission of a schedule of the rates and prices at any time.

6. All monies received by the lessee from operations conducted on the premises, including, but not limited to, entrance and admission fees and user fees and rental or other consideration received from its concessionaires, may be utilized by the lessee for the administration, maintenance, operation and development of the premises. Any such monies not so utilized, or programmed for utilization within a reasonable time, shall be paid to the District Engineer at the end of each 5-year period. The lessee shall establish and maintain adequate records and accounts and render annual statements of receipts and expenditures to the District Engineer, except for annual or weekly entrance fees which also are honored at other recreational areas operated by the lessee. The District Engineer shall have the right to perform audits of the lessee's records and accounts; and to require the lessee to audit the records and accounts of third party concessionaires, and furnish the District Engineer a copy of the results of such an audit.

7. All structures shall be constructed and landscaping accomplished in accordance with plans approved by the District Engineer. Further, the lessee shall not discharge waste or effluent from the premises in such a manner that such discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

8. Any property of the United States damaged or destroyed by the lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the lessee to the satisfaction of the District Engineer.

9. The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the lessee, or for damages to the property or injuries to the person of the lessee's officers, agents, servants, or employees or others who may be on the premises at their invitation or the invitation of any one of them, arising from or incident to the flooding of the premises by the Government or flooding from any other cause, or arising from or incident to any other governmental activities, and the lessee shall hold the United States harmless from any and all such claims.

10. That at the time of the commencement of this lease, the lessee will obtain from a reputable insurance company, acceptable to the Government, liability or indemnity insurance providing for minimum limits of \$500,000 per person in any one claim, and an aggregate limit of \$1,000,000 for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, and \$100,000 for damage to property suffered or alleged to have been suffered by any person or persons resulting from the operations of the lessee under the terms of this lease.

11. This lease may be relinquished by the lessee at any time by giving to the Secretary of the Army, through the District Engineer, at least 30 days' notice in writing.

12. On or before the date of expiration of this lease or its relinquishment by the lessee, the lessee shall vacate the premises, remove its property therefrom, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the lessee shall vacate the premises, remove its property therefrom, and restore the premises as aforesaid within such time as the Secretary of the Army may designate. In either event, if the lessee shall fail or neglect to remove its property and so restore the premises, then its property shall become the property of the United States without compensation therefor, and no claim for damages against the United States or its officers or agents shall be created by or made on account thereof.

13. The lessee or its concessionaires shall not discriminate against any person or persons because of race, creed, color or

AS PER ORIGINAL

national origin in the conduct of its operations hereunder. The grantee furnishes as part of this contract an assurance (Exhibit C) that he will comply with Title VI of the Civil Rights Act of 1964 (78 Stat.241) and Department of Defense Directive 5500.11 issued pursuant thereto and published in Part 300 of Title 32, Code of Federal Regulations.

County commissioner address

14. All notices to be given pursuant to this lease shall be addressed, if to the lessee, to County Commissioner, Precinct Three, Fort Bend County, 1809 Eldridge, Sugar Land, Texas 77478 if to the Government, to the Commander, U. S. Army Engineer District, Galveston, ATTN: Real Estate Division, P. O. Box 1229, Galveston, Texas 77553-1229 or as may from time to time be directed by the parties. Notice shall be deemed to have been duly given if and when inclosed in a properly sealed envelope or wrapper, addressed as aforesaid and deposited postage prepaid in a post office or branch post office regularly maintained by the United States Government.

15. The lessee shall at all times be responsible for the maintenance of order on the leased area and shall furnish peace officers as necessary for the protection of the area and the public.

16. No permits, licenses, or subleases will be granted to adjacent private property owners for use, alteration, improvement, addition of facilities, or any other purposes which would confer upon them privileges not available to the general public, or which would infer or imply exclusive private use of public lands.

Existing leases

17. The leased premises are subject to prior and outstanding grazing and/or agricultural leases. These leases shall remain in force and effect for the remainder of their terms unless and until Fort Bend County demonstrates to the satisfaction of the District Engineer, Galveston District, U. S. Army Corps of Engineers, that such continued use would be incompatible with the development of the leased premises. As such prior and outstanding leases expire, they shall be renewed by the District Engineer unless and until Fort Bend County demonstrates that such renewal is incompatible with the development of the leased premises.

18. No structures of any type for human habitation shall be permitted on the leased premises.

19. All timber and brush salvaged by the lessee, when in the way of construction, shall remain on reservoir lands to be used to return organic material to the soil, in a manner approved by

AS PER ORIGINAL

the District Engineer. Trees which are in the way of construction may be replanted at another site on the leased premises. Under no circumstances will trees be removed from Government lands.

20. No overnight camping will be permitted, unless the plan of development is later revised to provide for camping facilities and such revision is approved by the District Engineer. In this event, camping shall be permitted only in designated camping areas.

21. The lessee shall not sell, store or dispense, or permit the sale, storage, or dispensing of any alcoholic beverages on the leased premises, unless specifically authorized in writing by the District Engineer.

22. Specifically excepted from this lease are all portions of the Barker Dam embankment and land areas associated therewith. Lessee shall cooperate fully with the Government in preventing unauthorized activities on the dam embankment that is adjacent to the land area.

*Land area
does not include
embankment +
maintenance area*

23. The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time to make inspections concerning the operation and maintenance of the lands and facilities provided hereunder, and for any purpose necessary or convenient in connection with river and harbor and flood control work, and to remove timber or other material required for such work, to flood the premises occasionally, intermittently, or constantly, and/or to make any other use of the land as may be necessary in connection with the public navigation and flood control; and the lessee shall have no claim for damages of any character on account thereof against the United States or any officer, agent or employee thereof.

24. Inasmuch as all lands covered in this lease are for use by the general public and are located in identified flood hazard areas, lessee will comply with all applicable Federal, State or local floodplain regulations to reduce the risk of flood loss and to minimize the impact of floods on human safety, health and welfare. This may include the posting of signs at all entrances, on structures within the area, and at other appropriate places to provide conspicuous delineation of past and probable flood height information in order to enhance public awareness of and knowledge about flood hazards.

25. The United States reserves the right to place signs at each entrance or at any other location indicating that the property belongs to the United States of America and has been

AS PER ORIGINAL

provided for public park and recreation purposes by the United States Army Corps of Engineers. These signs are expected to prominently display the castle insignia of the Corps of Engineers.

26. Except as provided in condition 25, lessee shall place no signs nor permit third parties to place signs, with the exception of directional signs that identify street names or location of facilities. Specifically prohibited are signs making reference to county officials or officials of third party concessionaires, commercial advertising signs, or signs stating that the premises are private property.

27. This lease is subject to all existing easements, and to easements subsequently granted, for roadways, utilities, and for other purposes, located or to be located on the premises; provided that the proposed grant of any easement will be coordinated with the lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the lessee.

28. This lease may be revoked by the Secretary of the Army in the event the lessee violates any of the terms and conditions of this lease and continues and persists therein for a period of thirty (30) days after notice thereof in writing by the District Engineer. In lieu of revocation, the District Engineer, in his discretion, upon a finding that a violation constitutes a health or safety hazard, may immediately suspend the use of that operation or facility until such deficiency is rectified.

29. The title to oil, gas, and other minerals involving lands described in Exhibits A and B was neither acquired nor subordinated by the Government, and remains outstanding and is vested in others. Portions of the leased premises are presently devoted to mineral production, and Fort Bend County recognizes that the leased premises may be subject to the exploration for, development of, and production of minerals throughout the term of this lease and any extension thereof. This lease is therefore made subject to the dominant rights of mineral owners and mineral lessees to reasonable and prudent use of the surface of the leased premises, to the extent that such surface rights are provided by law to the mineral estate, in the course of the exploration, development, production and removal of minerals and all other uses incident thereto. In this regard, lessee agrees to be solely responsible for coordination with the mineral owners and/or their lessees of any and all activities and use of the land by Fort Bend County and its concessionaires. Fort Bend County agrees to pay any and all judgments against Fort Bend County or the United States by mineral owners and/or their

lessees arising out of or in any way incident to utilization of the leased premises by Fort Bend County or its concessionaires. The United States and Fort Bend County agree to cooperate with each other in the defense of any lawsuit instituted by mineral owners and/or their lessees. The United States agrees to notify Fort Bend County within a reasonable period of time of any suit filed against the United States where Fort Bend County may be liable under this paragraph but is not a party to that suit.

30. The lessee shall not remove or disturb, or cause to permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the lessee shall immediately notify the District Engineer, Galveston District, and the site and the material shall be protected by the lessee from further disturbance until a professional examination of them can be made or until clearance to proceed is authorized by the District Engineer.

31. The Corps of Engineers is responsible for conducting a survey of cultural resources within the leased area. In the event that eligible properties are discovered during the survey, during construction, or at any time after execution of this lease, the sites will be either avoided or mitigated. All costs of mitigation or avoidance will be paid by Fort Bend County. No construction will be approved or started until full compliance with all laws and regulations relating to protection of cultural resources is achieved.

of

resources

32. Fort Bend County shall be responsible for all mosquito control and control of other pests on the leased premises and that the use of pesticides on the area covered under this lease shall be in accordance with all appropriate Federal, State or local laws, rules and regulations.

33. That it is understood that this instrument is effective only insofar as the rights of the United States in the said property are concerned; and that the lessee shall obtain such permission as may be necessary on account of any other existing rights.

34. That the grantee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located.

35. That within the limits of their respective legal powers, the parties to this lease shall protect the project against

pollution of its water. The lessee shall comply promptly with any regulations, conditions, or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency and/or a state, interstate or local governmental water pollution control agency having jurisdiction to abate or prevent water pollution. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, state, interstate, or local governmental authority are hereby made a condition of this lease.

THE SECRETARY OF THE ARMY hereby grants to
THE COUNTY OF FORT BEND, TEXAS

a license for a period of eighteen (18) months commencing on 1 December 1986 and ending 31 May 1988 but revocable at the will of the Secretary of the Army, for a temporary work area during construction activities necessary to widen and deepen Clodine Ditch in accordance with the plans submitted to and approved by Galveston District and authorized under Easement No. DACW64-2-87-2 at the location as shown in red on Exhibit "A", attached hereto and made a part hereof, and described as follows:

Three (3) parcels of land containing a total of 198.73 acres located in the Blas Herrera Survey, Abstract 321, the John H. Walton Survey, Abstract 866, the Day Land and Cattle Company, Abstract 1440, the John P. THIS LICENSE is granted subject to the following conditions:

1. That the exercise of the privileges hereby granted shall be without cost or expense to the United States, under the general supervision and subject to the approval of the officer having immediate jurisdiction over the property, hereinafter referred to as "said officer", and subject also to such regulations as may be prescribed by him from time to time.

2. That any property of the United States damaged or destroyed by the licensee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the licensee to the satisfaction of the said officer, or in lieu of such repair or replacement the licensee shall, if so required by the said officer, pay to the United States money in an amount sufficient to compensate for the loss sustained by the United States by reason of damage to or destruction of

AS PER ORIGINAL

Government property. Liability of the licensee shall be limited to the extent allowed by law.

3. That the United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the licensee, or for injuries to the person of the licensee, or for damages to the property or injuries to the person of the licensee's officers, agents, servants, or employees or others who may be on said premises at their invitation or the invitation of any one of them, arising from governmental activities on the said premises, and the licensee shall hold the United States harmless from any and all such claims. Liability of the licensee shall be limited to the extent allowed by law.

4. That, on or before the date of expiration of this license, or its relinquishment by the licensee, the licensee shall vacate the said Government premises, remove all property of the licensee therefrom, and restore the premises to a condition satisfactory to the said officer, damages beyond the control of the licensee and due to fair wear and tear excepted. If, however, this license is revoked, the licensee shall vacate the premises, remove said property therefrom, and restore the premises as aforesaid within such time as the Secretary of the Army may designate. In either event, if the licensee shall fail or neglect to remove said property and so restore the premises, then, at the option of the Secretary of the Army, said property shall either become the property of the United States without compensation therefor, or the Secretary of the Army may cause the property to be removed and the premises to be so restored at the expense of the licensee, and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work.

5. That the licensee shall pay the cost, as determined by the said officer, of producing and/or supplying any utilities and other services furnished by the Government or through Government-owned facilities for the use of the licensee, including the licensee's proportionate share of the cost of operation and maintenance of the Government-owned facilities by which such utilities or services are produced or supplied. The Government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the said officer upon bills rendered monthly.

6. That the United States shall not be responsible for damages to property or injuries to persons which may arise from

or be incident to the construction, maintenance, and use of the facilities constructed by the licensee on the said premises.

7. That this license may be terminated by the licensee at any time by giving to the Secretary of the Army, through the said officer, at least ten (10) days' notice in writing.

8. That it is to be understood that this license is effective only insofar as the rights of the United States in the property involved are concerned, and that the licensee shall obtain such permission as may be necessary on account of any other existing rights.

9. That the granting of this license shall not preclude, prohibit or impede any future work of the United States or its agent on this property in accordance with present or future drainage policies and/or present or future modifications to the flood control project.

10. That the United States reserves the right, power and privilege to submerge, inundate, and overflow occasionally, intermittently, or constantly all or any portion of the license area herein granted as may be necessary in the operation and maintenance of the Buffalo Bayou Flood Control Project or other Government purposes. The licensee shall have no claim for damages of any character on account thereof against the United States or any officer, agent, or employee thereof.

11. That this license is subject to all existing easements, and easements to be subsequently granted, for utilities, roadways, and other purposes, located to be or located on the premises; provided, that any proposed additional easement over the subject area will be coordinated with the holder of this license. Additional easements will not be granted, which will, in the opinion of the District Engineer, interfere with the rights conveyed in this license.

12. That the licensee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located.

13. That within the limits of their respective legal powers, the parties to this license shall protect the project against pollution of its water. The licensee shall comply promptly with any regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency and/or a state, interstate or local

governmental water pollution control agency having jurisdiction to abate or prevent water pollution. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, state, interstate, or local governmental authority are hereby made a condition of this license.

15. That the licensee shall not remove or disturb, any historical, archeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the licensee shall immediately notify the District Engineer, Galveston District, and the site and the material shall be protected by the licensee from further disturbance until a professional examination of them can be made or until clearance to proceed is authorized by the District Engineer.

16. That licensee will contact the Addicks Project Office, telephone number (713) 497-0740, prior to entry on site and will maintain a close liaison with the Park Manager throughout construction activities.

17. That the officer to whom reference is made in the above conditions is defined as the District Engineer, U. S. Army Engineer District, Galveston, Texas, or his authorized representative.

Dear Mr. Bochevsky,

After reviewing the janitorial contract with you, I feel we can maintain the present quality of cleaning and not change the price for the ensuing year, January 1988 to December 1988.

Our routine is now established, and we are working most efficiently. In addition we are getting much cooperation from you and your staff which in turn helps us do a superior job.

I thank you for the opportunity to be of service. I am looking forward to doing business with you in the years to come.
