Gentlemen:

I will appear before you on Monday, March 25, 1991, to recommend that we enter into a contract with Dynix, Inc. of Provo, Utah for the computerization of all library functions to be done in 3 phases over a 6-year period of time.

Phase 1 of automation will take place in 1991 and 1992 and will cost $447,978. Funding is available from Bond approved by the voters in November 1989.

We have been through a lengthy evaluation process. You approved an RFP release in August 1990. Proposals were opened by the Court on December 1990. Throughout this period of time, from August 1990 to March 25, 1991 we have spent countless hours evaluating, measuring, visiting sites, etc. in our quest for the best choice. We hired a consultant to help us evaluate all the data and Chuck Miller of Data Processing was kept informed.

There were two other bidders, Inlex and Data Research, both fine national vendors of integrated library automation. We feel we chose the very best one, Dynix, famous for its quality work. The details for our evaluation process as described by Rose Harper's report is attached.

The Dynix proposal is superior to the others in all respects and price-wise falls in the middle. There are many reasons why the Dynix proposal is the best, but at least one relates to the fact that Dynix will use IBM computers that are the same as several in use by the County right now.

The overall cost of the contract during the 6-year period of its implementation is $749,694 (not to exceed). The contract locks in this price with the understanding that funding depends on county appropriations and that we cannot bind the county to future expenditures.

1001 Golfview • Richmond, Texas 77469-5141 • 713-342-4455

This contract has been approved by the County Attorney, is fully funded in Phase 1 and is the unanimous choice of the Library Board and staff.

I ask for your approval.

Sincerely,

Roman Bohachevsky

Gentlemen:

Please find attached a request for a change order costing $1,533.00 from Ann Knauth, the architect and Nelson Bass, the general contractor on the Stafford Branch Library renovation project.

This change order has to do with the removal of asbestos panels. When the panels were removed, the aluminum frames holding them were damaged due to old mastic having bound the panels and aluminum frame. The damage was unavoidable.

I have asked Ron Drachenberg to review the change order need on site and to report his recommendation when I appear before you on Monday, March 25, 1991.

Thank you very much.

We are sending you in person:

(1) —— Invoice for Ann Knauth & Associates Prof. Services dated 3/14/91 and a copy of invoice dated 2/4/91 for approval and payment.

(1) —— Submittal from Bass Construction for approval on Change Order for new mill finish special extruded stop material @ perimeter panels for $1,533.00.

Engineering will check!

This amount seems reasonable considering this material has not been manufactured for 8 yrs by Kawneer.

The subcontractor will install a temporary stop @ the panels until the new extruded metal arrives to avoid holding up the job.

As per our telephone conversations this week, this Change Order add was unforeseeable, prior to construction. The old mastic @ the stops & old panels had bonded to the old alum. metal stops. Thus inorder to remove the panels, the alum. stops were damaged.

Please submit both of the above items to Commissioners Court for approval as soon as possible, after review by your office.

Thanks,

Ann Knauth

Subject: Cost of Dropping Start Step in Fort Bend County Pay Tables

This change would effect thirty nine employees. The salary cost for 1991 would be $ 16,880.00. Social Security cost of $ 1,291.32 - Retirement cost of $ 1,181.60 - Workers Compensation cost of $ 265.07 and Unemployment cost of $ 37.13. The total cost of 1991 would be $ 19,655.12.

This change will create some compression at Step One. Some new employees will be making the same as some employees who have been here for a year. The Tax Assessor/Collector has told me this will cause her some problems.

This item will be on the agenda Monday, March 25, 1991.
If you have any questions regarding this - please give me a call.

SUBJECT: Reserve Deputy Approval - William Allen Dickerson, Jr.

On March 13, 1991, you had requested review of Reserve Deputy applicant William Allen Dickerson, Jr. We have no problem with Mr. Dickerson working for you department as a Reserve Deputy upon approval by Commissioner's Court.

Information contained in this office indicates you currently have three vacancies with the resignations of Issac Bosley, Tracy Norris, and Sylvester Jones. Thus one of these would be filled by Mr. Dickerson upon Court approval.

* I understand another vacancy would be filled by Ernest Lindsey, who was previously approved by the Court on 9/10/90. In that there has been no significant status change of this applicant since original court approval, I see no reason to burden the Court with again approving Mr. Lindsey.

Sec. 1. Not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the work is performed, and not less than the general prevailing rate of per diem wages for legal holiday and overtime work, shall be paid to all laborers, workmen and mechanics employed by or on behalf of the State of Texas, or by or on behalf of any county, city and county, city, town, district or other political subdivision of the State, engaged in the construction of public works, exclusive of maintenance work. Laborers, workmen, and mechanics employed by contractors or subcontractors in the execution of any contract or contracts for public works with the State, or any officer or public body thereof, or in the execution of any contract or contracts for public works, with any county, city and county, city, town, district or other political subdivision of this State, or any officer or public body thereof, shall be deemed to be employed upon public works.

Sec. 2. The public body awarding any contract for public work on behalf of the State, or on behalf of any county, city and county, city, town, district or other political subdivision thereof, or otherwise undertaking any public work, shall ascertain the general prevailing rate of per diem wages in the locality in which the work is to be performed for each craft or type of workman or mechanic needed to execute the contract, and shall specify in the call for bids for said contract, and in the contract itself, what the general prevailing rate of per diem wages in the said locality is for each craft or type of workman needed to execute the contract, also the prevailing rate for legal holiday and overtime work, and it shall be mandatory upon the contractor to whom the contract is awarded, and upon any subcontractor under him, to pay not less than the said specified rates to all laborers, workmen and mechanics employed by them in the execution of the contract. The contractor shall forfeit as a penalty to the State, county, city and county, city, town, district or other political subdivision on whose behalf the contract is made or awarded, Ten Dollars ($10.00) for each laborer, workman or mechanic employed, for each calendar day, or portion thereof, such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under said contract, by him, or by any subcontractor under him, and the said public body awarding the contract shall cause to be inserted in the contract a stipulation to this effect. It shall be the duty of such public body awarding the contract, and its agents and officers, to take cognizance of complaints of all violations of the provisions of this Act committed in the course of the execution of the contract, and, when making payments to the contractor of monies becoming due under said contract, to withhold and retain therefrom all sums and amounts which shall have been forfeited pursuant to the herein said stipulation and the terms of this Act; provided, however, that no sum shall be so withheld, retained or forfeited, except from the final payment, without a full investigation by the awarding body. It shall be lawful for any contractor to withhold from any subcontractor under him sufficient sums to cover any penalties withheld from him by the awarding body on account of the said subcontractor's failure to comply with the terms of this Act, and if payment has already been made to him the contractor may recover from him the amount of the penalty or forfeiture in a suit at law.

DRAFT

Sec. 3. The contractor and each subcontractor shall keep, or cause to be kept, an accurate record showing the names and occupations of all laborers, workmen and mechanics employed by him, in connection with the said public work, and showing also the actual per diem wages paid to each of such workers, which record shall be open at all reasonable hours to the inspection of the public body awarding the contract, its officers and agents.

Sec. 4. Any construction or repair work done under contract, and paid for in whole or in part out of public funds, other than work done directly by any public utility company pursuant to order of the Railroad Commission or other public authority, whether or not done under public supervision or direction, or paid for wholly or in part out of public funds, shall be held to be "public works" within the meaning of this Act. The term "locality in which the work is performed" shall be held to mean the county, city and county, city, town, district or other political subdivision of this state in which the building, highway, road, excavation, or other structure, project development or improvement is situated in all cases in which the contract is awarded by the state, or any public body thereof, and shall be held to mean the limits of the county, city and county, city, town, district or other political subdivisions on whose behalf the contract is awarded in all other cases. The term "general prevailing rate of per diem wages" shall be the rate determined upon as such rate by the public body awarding the contract, or authorizing the work, whose decision in the matter shall be final. It is mandatory that the public body state such prevailing wage as a sum certain, in dollars and cents. Nothing in this Act, however, shall be construed to prohibit the payment to any laborer, workman or mechanic employed on any public work as aforesaid of more than the said general prevailing rate of wages.

DRAFT

Sec. 5. Any officer, agent or representative of the State, or any political subdivision, district or municipality thereof, who wilfully shall violate, or omit to comply with, any of the provisions of this Act, and any contractor or subcontractor, or agent or representative thereof, doing public work as aforesaid, who shall neglect to keep, or cause to be kept, an accurate record of the names, occupation and actual wages paid to each laborer, workman and mechanic employed by him in connection with the said public work, or who shall refuse to allow access to same at any reasonable hour to any person authorized to inspect same under this Act, shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not exceeding Five Hundred Dollars ($500.00), or by imprisonment for not exceeding six (6) months, or by both such fine and imprisonment, in the discretion of the Court.

RE: Monthly reports of Fee Officers

Gentlemen:

We have examined the monthly reports of certain Fee Officers identified below for the month of February, 1991. We maintain certain records relating to financial transactions of these officers and accordingly, our examination included such auditing procedures as we considered appropriate in the circumstances.

The breakdown of the fees paid by the Tax Collector in February is attached to this letter.

The following is the criminal and civil case report for the JPs for the month of February, 1991.

| JP | # OF CASES: | New | Pending | Dismissed | Paid | Open | Civil Cases |
|---|---|---|---|---|---|---|---|
| JP 1 | Geick | 471 | 4557 | 222 | 304 | 4502 | 22 |
| JP2-1 | Molina | 239 | 2041 | 93 | 206 | 1981 | 36 |
| JP2-2 | Fredrickson | 310 | 554 | 123 | 218 | 523 | 10 |
| JP3 | Franks | 326 | 2459 | 42 | 120 | 2623 | 49 |
| JP4 | Adolphus | 362 | 4129 | 190 | 264 | 4037 | 29 |

There was nothing that would lead us to believe that these reports are not, in all material respects, a fair representation of cash transactions of the records presented to us.

APRIL 1, 1991

We recommend that these reports be approved subject to completion of our examination of reports of such officers for the year ending December 31, 1991.

If the Court concurs, the following order might be adopted:

> Moved by Commissioner Prestage seconded by Commissioner O.Shivles duly put and carried, it is ordered that the monthly reports of fees collected by Fee Officers identified below, for the month of February, 1991 be approved as recommended by the County Auditor in his letter of April 1, 1991.

**AMENDED AGREEMENT**

**THE STATE OF TEXAS** §
§
**COUNTY OF FORT BEND** §

**THIS AGREEMENT** is made on this the 01 day of April, 1991, by and between **FORT BEND COUNTY** (hereinafter called **"The County"**), a body politic, acting herein by and through its Commissioners Court, duly authorized and empowered, and **MID-WESTERN MEDICAL SERVICES, INC.** (hereinafter called **"Provider"**).

**WHEREAS**, Article 4438F, Vernon's Texas Civil Statutes, commonly referred to as the Texas Indigent Health Care and Treatment Act mandates Fort Bend County, Texas, to provide certain non-emergency health care assistance to each eligible resident of said County who does not reside within the area that public hospital or hospital district has a legal obligation to serve; and

**WHEREAS**, Fort Bend County caused to be issued a Request for Proposals #90-077 for Indigent Health Care Services, soliciting proposals for a Mandated Provider of non-emergency health care assistance; and

**WHEREAS, MID-WESTERN MEDICAL SERVICES, INC.** submitted a proposal to provide non-emergency health care services to eligible adult residents of Fort Bend County which was deemed to be the lowest and best proposal by the Fort Bend County Purchasing Department and was accepted and approved by the Fort Bend County Commissioners' Court on October 8, 1990.

**NOW, THEREFORE**, in consideration of the mutual understanding and agreements set forth, the **County** and **Provider** agree as follows:

It is understood and agreed between the parties that the primary purpose of this agreement is to retain a Mandated Provider so that the **County** meets all requisite requirements as set forth in the Texas Indigent Health Care and Treatment Act.

I.

**Provider** agrees to provide non-emergency out-patient health care services to eligible residents of Fort Bend County, Texas, subject to the terms, provisions and conditions hereof.

A. The office of Early Childhood Development of Fort Bend County, Texas (O.E.C.D.) shall be responsible for the eligibility standards and application, documentation, and verification procedures for the determination of eligibility of residents under the Texas Indigent Health Care and Treatment Act.

B. The term "eligible" as used herein shall mean and refer to those residents of Fort Bend County, Texas, who are deemed eligible by the O.E.C.D., for health care services under the provisions of the Texas Indigent Health Care and Treatment Act. The office of Early Childhood Development will screen and qualify the patients periodically as required, and in no event less often than every six (6) months.

C. The responsibility of **Provider** will be limited to that of providing such out-patient non-emergency medical health care only in a clinic ("**Clinic**") to be established as hereinafter provided; **Provider**, however, will assist Fort Bend County in

establishing the following essential health care services as stated in the Texas Indigent Health Care and Treatment Act; to-wit:

(1) In-patient and out-patient hospital services as limited by the Indigent Health Care and Treatment Act;

(2) Laboratory services;

(3) Family planning services;

(4) Physician services;

(5) Skilled nursing facility services as limited by the Indigent Health Care and Treatment Act;

(6) Rural health clinic; and

(7) The County shall be responsible for the payment of no more than three (3) prescription drugs per month.

II.

The parties recognize and agree that the Clinic will be located at 711 George Street, Richmond, Texas, and at such other locations as may be designated by County from time to time.

A. Such **Clinic** and related facilities to be furnished by and at the expense of the **County**.

B. The **County** shall be responsible to provide and maintain the building and facilities, its upkeep, and utilities used in connection therewith, during the term of this contract.

C. The **County** shall also provide liability insurance in an amount mutually satisfactory to the parties hereto, naming each party hereto as a named insured.

III.

**Provider** shall provide a physician licensed to practice in Texas and certified by the American Board of Family Practice as the primary physician, who must be present in the above stated mandated clinic no less than thirty (30) hours each week.

**Provider** shall provide a sufficient nursing staff to provide care to the volume of indigent patients using the said clinic.

**Provider** shall provide sufficient clerical personnel to register patients and provide clerical support to the clinic.

A. The **Clinic** shall be open Monday through Friday from 8:00 o'clock A.M. to 5:00 o'clock P.M., except for on holidays recognized by the State of Texas, or except for closing due to casualty and causes beyond the control of the **Provider.** The **Provider** may, at its sole discretion, close the **Clinic** one afternoon per week.

B. **Provider** shall provide equipment for the **Clinic** to include beds, microscope, otoscopes, opthalmoloscopes, stethoscopes, examination lights, blood pressure cuffs, necessary instruments, and a sterilizer, as well as supplies for the **Clinic** to include linens, bandages, syringes, needles, ointments, soap, and the like. A limited laboratory will also be provided.

It an ambulatory resident does not meet the said eligibility requirements, but is below 150% of the Federal Poverty Level, as determined by O.E.C.D., who shall provide screening relative thereto, **Provider** shall provide appropriate basic out-patient medical health care to ambulatory resident meeting this require-

ment, but only up to the capacity of the **Clinic** relative to size, facilities and staffing, and only to the extent that the **Clinic** staff can reasonably handle these additional patients without extra expense and staffing. The determination as to whether or not the additional patients, can from time to time be adequately handled and provided for by the **Clinic** shall be in the sole judgment of the **Provider**. Under no circumstances will the **Provider** be required to hire or contract with additional staff. With respect to these additional patients who do not meet the qualifications of the Act, but are below 150% of the Federal Poverty Level as determined by the O.E.C.D., the fee charged to these patients will be on a sliding scale. The fees so received by the **Clinic** shall be deposited in an account, entitled "Primary Indigent Care (FBC) Association" in a bank of the **County's** choice, said money to be used for the purchase of supplies for the **Clinic**. The records of **Provider** shall be open to **County** to review and audit at all times during normal business hours. It is specifically recognized and agreed by the parties hereto that the patients who meet the qualifications under the Act will be given first priority insofar as capacity of the **Clinic** is concerned.

**IV.**

**Provider** agrees to keep patient records and make reports to the **County** as may be required by the Act.

**V.**

The Fort Bend County Medical Officer, Dr. Culpepper or his successor, may, for any reason whatever, disapprove the use of

any physician or hospital. When this disapproval is transmitted in writing to the **Clinic**, further referrals to said physician or hospital shall not be made. The responsibility in connection with the disapproval of physicians and hospitals shall be that of the Fort Bend County Medical Officer.

VI.

In performing hereunder, the **Provider** shall act as an independent contractor. The **Provider** shall complete the services required hereunder according to its own means and methods of work, which shall be in the exclusive charge and control of the **Provider** and not subject to the control or supervision of the **County**.

VII.

The total compensation to be paid to the **Provider** by the **County** for the performance of services hereunder shall be **ONE HUNDRED SIXTY FIVE THOUSAND AND NO/100 ($165,000.00) DOLLARS**, payable in the sum of **THIRTEEN THOUSAND SEVEN HUNDRED AND FIFTY AND NO/100 ($13,750.00) DOLLARS** per month. The first such payment is due on or before December 1, 1990, and a like payment on or before the first day of each month thereafter until fully and finally paid. Payments to the **Provider** shall not be subject to the customary withholding taxes or other employment taxes required with respect to compensation paid to an employee. If services other than those specified herein are provided by the **Provided** hereunder, prior approval must be obtained by Fort Bend County Commissioners Court before **County** will compensate **Provider** for such services.

VIII.

The term of this Agreement shall commence as of December 1, 1990 and shall continue until December 31, 1991. The agreement may be terminated by the County for any reason if the Provider is given sixty (60) days written notice of the County's intent to terminate the agreement.

A. Notwithstanding the foregoing, if for any reason the **Provider** fails to provide a licensed physician as required hereunder, for a period of time exceeding one (1) week during the term hereof when the **Clinic** would otherwise be required to be open, either party shall have the right to terminate this Agreement at any time after said one-week period which **Provider** did not provide such licensed physician, and upon such termination delivered in writing by either party to the other hereunder during such time, this Agreement shall terminate and no party shall have any obligations to the other hereunder.

B. Notwithstanding the foregoing, if for any reason the Texas Department of Human Resources determines that the **County** has not met the requirements of the Texas Indigent Care and Treatment Act, the **County** shall have the right to terminate this Agreement at any time thereafter or the **County** may, at its sole discretion, give **Provider** an opportunity to correct the non-compliance as determined by the Texas Department of Human Resources so as the **County** would qualify under the said Act.

IX.

By proposal dated the _____day of October, 1990, **MID-WESTERN MEDICAL SERVICES, INC.** submitted a proposal for Indigent Health Care Services to the **County** which was accepted by the Fort Bend County Commissioners Court. (Attached hereto and made a part of the contract as if same was fully and completely set forth, is a true and correct copy of said proposal as Exhibit "A"). It is understood and agreed by the parties hereto that this agreement and the attached proposal are to be read as one document. However, in the event that there is a conflict between this agreement and the terms and conditions of said proposal the terms and conditions of the proposal shall control.

X.

The provisions of this Agreement are severable, and if any word, phrase, clause, sentence, paragraph, section or other part of this Agreement or the application thereof to any person or circumstances shall ever be held by any court or regulator authority of competent jurisdiction to be invalid or unconstitutional for any reason, the remainder of this Agreement and the application of such word, phrase, clause, sentence, paragraph, section or other part of this Agreement to other persons or circumstances shall not be affected thereby, unless in the opinion of the **County** or **Provider** the purposes of this Agreement have been rendered useless.

XI.

This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors and

assigns, provided, however, this Agreement cannot be assigned without prior written consent of the County

XII.

This Agreement shall be subject to all valid rules, regulations, and laws applicable hereto passes or promulgated by the United States of America, the State of Texas, or any authorized representative or agency of any of them.

RE: Clayton's Bend Section Two Replat

Dear Bob:

Please let this letter serve as our request for Commissioner's Court to consider setting April 22, 1991 as a date on which the Court will consider allowing a revision to the plat of Clayton's Bend Section Two. Setting this date will allow for the proper notice to be published, as well as the required 30 day waiting period prior to the requested Commissioner's Court action.

We would also request that Commissioner's Court authorize the conveyance of Lots within Clayton's Bend Section Two by metes and bounds until the replat has been approved. This will allow for conveyance of lots to our homebuilders so that they may get started with their building program.

I appreciate your attention to this matter. Should you have any questions or require any additional information, please do not hesitate to contact me.

Sincerely,

Re: Fort Bend Flood Control Water Supply Corporation
Tract 46A

Dear Mr. Strube:

The Fort Bend Flood Control Water Supply Corporation (the "Corporation") is in the process of acquiring the necessary rights-of-way for improvements to Stafford Run. A title commitment prepared by Stewart Title shows that you are the owner of Tract 46A more specifically described by Exhibit "A" attached to this letter (the "Tract"). Your agreement and consent is necessary to authorize the Corporation and its agents, Lichliter/Jameson & Associates, Inc., McBride-Ratcliff & Associates, Inc., and others (the "Consultants") to perform a geotechnical survey to evaluate the types and estimated quantities of material remaining to be excavated in the above-described Tract and an environmental assessment to test existing soils, sediments and water for possible contaminants. Such evaluation and testing will generally consist of coring, surveying, and sampling. The Corporation is causing the above-described tests to be performed to help determine the fair market value of the Tract. Neither you nor the Corporation shall be bound by the results of the tests.

In consideration of granting your authorization to conduct the above-described tests, the Corporation agrees to the following:

1. It will give you a minimum of 48 hours of notice in advance of commencement of the geotechnical tests and the environmental surveys so that you or your agents may be present during all testing to allow for complete observation of the tests;

2. It will provide you a complete copy of the final report prepared by the Consultants resulting from the above-described geotechnical survey and environmental assessment within five (5) business days after receipt of the report by the Board of Directors of the Corporation or its attorney or appraiser;

3. It will repair or fill all holes made by the Consultants during all testing to avoid injury to any pedestrians; and

4. The Corporation will require it's Consultants and their agents to carry liability insurance sufficient to pay property damage and personal injury claims proximately caused by the negligence of the Consultants' in performing the testing of the Tract.

The Corporation agrees that it will use due diligence in completing such testing and evaluation, and you agree that you will not interfere with such work while in progress. You shall be allowed to revoke this authorization without cause by giving written notice to Joe B. Allen, attorney for the Corporation. The revocation will be effective 24 hours after Joe B. Allen's receipt of the notice.

Yours truly,

Date Signed.

## ARTICLE I

## PURPOSES

In amplification of the purposes set forth in the Articles of Incorporation (including any amendments thereto) of the Fort Bend County Surface Water Supply Corporation (the "Corporation"), the Corporation is organized under the Texas Non-Profit Corporation Act and the Texas Water Supply or Sewer Service Corporation Act, and is to be operated for the benefit of Fort Bend County, Texas, a political subdivision of the State of Texas (the "County"). In operating for the benefit of the County, the Corporation shall have the specific and primary purpose of furnishing an essential governmental purpose: a surface water supply service to towns, cities, conservation and reclamation districts, and any other political subdivision, private corporations, individuals and military camps and bases and such other purposes which may be authorized for a water supply corporation under the laws of the State of Texas.

## ARTICLE II

## BOARD OF DIRECTORS

2.01. Classes, Powers, Number and Term of Office. The property and affairs of the Corporation shall be managed and controlled by the Board of Directors, and subject to the restrictions imposed by law, the Articles of Incorporation, or these Bylaws, the Directors shall exercise all of the powers of the Corporation.

The Board of Directors shall consist initially of five (5) Directors, but the number of Directors may be increased or decreased (providing such decrease does not have the effect of shortening the term of any incumbent Director) from time to time by a duly passed and adopted resolution of Fort Bend County Commissioners Court; provided, that the number of Directors shall never be less than three (3) nor more than twenty-one (21). Each of the five initial Directors was selected by the Commissioners Court.

All Directors shall hold office until their respective (a) deaths or resignation or (b) removal as provided herein. With the exception of the terms of office for the initial Directors, the term of office for a Director shall be four (4) years. A Director may be appointed to serve for more than one term of office. In any

event, a Director shall continue to serve as such until his respective successor shall have been appointed and qualified.

Any Director may be removed from office, for cause or at will, by a duly passed and adopted resolution of the Commissioners Court. Any vacancy occurring in the Board of Directors, whether by increase in the number of Directors or otherwise, shall be filled by a duly passed and adopted resolution of the Commissioners Court.

2.02. Bond and Oath of Office. As soon as practicable after a Director is appointed, he shall execute a bond for $5,000 payable to the Corporation and conditioned on the faithful execution of his duties.

Although not an officer of the State of Texas, each Director shall take the following oath before entering into the duties of the office of Director: "I, _____, do solemnly swear (or affirm), that I will faithfully execute the duties of the office of Director of the Fort Bend County Surface Water Supply Corporation, and will to the best of my ability preserve, protect and defend the Constitution and laws of the United States and of this State, so help me God."

Each Director, before taking the Oath or Affirmation of office and entering upon the duties of office, shall subscribe to the following statement: "I, _____, do solemnly swear (or affirm) that I have not directly or indirectly paid, offered or promised to pay, contributed, or promised to contribute any money, or valuable thing, or promised any public office or employment, as a reward to secure my appointment or confirmation thereof, so help me God."

2.03. Meetings of Directors; Open Records. The Directors may hold their meetings and may have an office and keep the books of the Corporation at such place or places, as the Board of Directors may from time to time determine, provided, however, in the absence of any such determination, such place shall be the registered office of the Corporation in the State of Texas.

The Board of Directors shall file notice of each meeting of the Board in the same manner and in the same location as is required of a governmental body under Subsection (f) of Section 3A of the Texas Open Meetings Act, Chapter 271, Acts of the 60th Legislature, Regular Session, 1967, as amended (Article 6252-17, Vernon's Texas Civil Statutes).

The Board of Directors is subject to the Texas Open Records Act, Chapter 424, Acts of the 63rd Legislature, Regular Session, 1973, as amended (Article 6252-17a, Vernon's Texas Civil Statutes).

2.04. Annual Meetings. The annual meeting of the Board of Directors shall be held between January 1 and May 1 of each year, at such time and place as shall be designated by the Board of Directors, for the purpose of (a) electing officers for the ensuing

year, and (b) transacting such other business as may be brought before such meeting.

2.05. Regular Meetings. Regular Meetings of the Board of Directors shall be held at such times and places as shall be designated, from time to time, by the Board of Directors.

2.06. Special and Emergency Meetings. Special and Emergency Meetings of the Board of Directors shall be held whenever called by the President or by the Secretary or by a majority of the Directors who are serving duly-appointed terms of office at the time the meeting is called.

The Secretary shall give notice of each Special Meeting in person, by telephone, fax, mail or telegraph at least twenty-four (24) hours before the meeting to each Director. Notice of each Emergency Meeting shall be given in the manner required of a governmental body under Subsections (f) and (h) of Section 3A of the Texas Open Meetings Act (Article 6252-17, Vernon's Texas Civil Statutes). Unless otherwise indicated in the notice thereof, any and all matters pertaining to the purposes of the Corporation may be considered and acted upon at a Special or Emergency Meeting.

2.07. Quorum. A majority of the duly-appointed Directors shall constitute a quorum for the consideration of matters pertaining to the purposes of the Corporation. If at any meeting of the Board of Directors there is less than a quorum present, a majority of those present may adjourn the meeting from time to time. The act of a majority of the Directors present at a meeting at which a quorum is in attendance shall constitute the act of the Board of Directors, unless the act of a greater number is required by law, by the Articles of Incorporation, or by these Bylaws.

2.08. Conduct of Business. At the meetings of the Board of Directors, matters pertaining to the purposes of the Corporation shall be considered in such order as from time to time the Board of Directors may determine.

At all meetings of the Board of Directors, the President shall preside, and in the absence of the President, a chairperson shall be chosen by the Board of Directors from among the Directors present.

The Secretary of the Corporation shall act as Secretary of all meetings of the Board of Directors, but in the absence of the Secretary, the presiding officer may appoint any person to act as Secretary of the meeting.

2.09. Advisory Committee. The Board of Directors of the Corporation shall designate an Advisory Committee, which committee may advise the Board of Directors with respect to the activities of the Corporation. The Fort Bend County Engineer or his designee and the County Judge or his designee shall serve on the Advisory Committee. The Board of Directors of the Corporation with the

consent and approval of the Commissioners Court shall appoint such other members as may be necessary. The Advisory Committee shall neither have nor exercise the authority of the Board of Directors of the Corporation in the management of the Corporation.

2.10. Committees. In addition to the Advisory Committee described in this Section 2.09, the Board of Directors of the Corporation may designate and provide for the appointment of other committees having such powers and responsibilities as it specifies in the resolutions appointing such committees. The Board of Directors of the Corporation shall also appoint the Chairman and members of any such committee. Any committee having the authority of the Board of Directors of the Corporation in the management of the Corporation shall consist of two (2) or more persons, a majority of whom shall be members of the Board of Directors of the Corporation.

2.11. Compensation of Directors. The Corporation may pay compensation, in a reasonable amount, to the Directors for services rendered in carrying out the Corporation's purposes.

## ARTICLE III

## OFFICERS

3.01. Titles and Terms of Office. The officers of the Corporation shall be a President, one or more Vice Presidents, (the number thereof to be determined by the Board of Directors), a Secretary, a Treasurer, Assistant Secretary, and such other officers as the Board of Directors of the Corporation may from time to time elect or appoint. Officers shall be required to give bonds for the faithful performance of their duties. Any two or more offices may be held by the same person, except the offices of President and Secretary.

## INDEMNIFICATION OF DIRECTORS AND OFFICERS

5.01. Right to Indemnification. Subject to the limitations and conditions as provided in this Article, each person who was or is made a party or is threatened to be made a party to or is involved in any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative, arbitrative or investigative (hereinafter a "proceeding"), or any appeal in such a proceeding or any inquiry or investigation that could lead to such a proceeding, by reason of the fact that he, or a person of whom he is the legal representative, is or was a director or officer of the Corporation or while a director or officer of the Corporation is or was serving at the request of the Corporation as a director, officer, partner, venturer, proprietor, trustee, employee, agent or similar functionary of another foreign or domestic corporation, partnership, joint venture, sole proprietorship, trust, employee benefit plan or other enterprise shall be indemnified by the Corporation to the fullest extent permitted by the Texas Non-Profit Corporation Act, as the same exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader indemnification rights than said law permitted the Corporation to provide prior to such amendment) against judgments, penalties (including excise and similar taxes and punitive damages), fines, settlements and reasonable expenses (including, without limitation, attorneys' fees) actually incurred by such person in connection with such proceeding, and indemnification under this Article shall continue as to a person who has ceased to serve in the capacity which initially entitled such person to indemnity hereunder. A person entitled to indemnification under this Article shall only be indemnified to the extent that such person is not entitled to reimbursement under the terms of the Corporation's directors and officers reimbursement and indemnity policy if the Corporation has purchased such a policy. The rights granted pursuant to this Article shall be deemed contract rights, and no amendment, modification or repeal of this Article shall have the effect of limiting or denying any such rights with respect to actions taken or proceedings arising prior to any such amendment, modification or repeal. It is expressly acknowledged that the indemnification provided in this Article could involve indemnification for negligence or under theories of strict liability.

5.02. Advance Payment. The right to indemnification conferred in this Article shall include the right to be paid or reimbursed by the Corporation the reasonable expenses incurred by a person of the type entitled to be indemnified, who was, is or is threatened to be made a named defendant or respondent in a proceeding in advance of the final disposition of the proceeding and without any determination as to the person's ultimate entitlement to indemnification; provided, however, that the payment of such expenses incurred by any such person in advance of the

final disposition of a proceeding, shall be made only upon delivery to the Corporation of a written affirmation by such director or officer of his good faith belief that he has met the standard of conduct necessary for indemnification under this Article, that he is not entitled to reimbursement under the terms of the Corporation's directors and officers reimbursement and indemnity policy, and a written undertaking, by or on behalf of such person, to repay all amounts so advanced if it shall ultimately be determined that such indemnified person is not entitled to be indemnified under this Article or otherwise.

5.03. Appearance as a Witness. Notwithstanding any other provision of this Article, the Corporation may pay or reimburse expenses incurred by a director or officer in connection with his appearance as a witness or other participation in a proceeding at a time when he is not a named defendant or respondent in the proceeding.

5.04. Nonexclusivity of Rights. The right to indemnification and the advancement and payment of expenses conferred in this Article shall not be exclusive of any other right which a director or officer or other person indemnified pursuant to this Article may have or hereafter acquire under any law (common or statutory), provision of the Articles of Incorporation of the Corporation or these Bylaws, agreement, or otherwise.

5.05. Insurance. The Corporation may purchase and maintain insurance, at its expense, to protect itself and any person who is or was serving as a director, officer, employee or agent of the Corporation or is or was serving at the request of the Corporation as a director, officer, partner, venturer, proprietor, trustee, employee, agent or similar functionary of another foreign or domestic corporation, partnership, joint venture, proprietorship, employee benefit plan, trust or other enterprise against any expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under this Article.

5.06. Notification. Any indemnification of or advance of expenses to a director or officer in accordance with this Article shall be reported in writing to the members of the Board with or before the notice of the next regular meeting of the Board and, in any case, within the 12-month period immediately following the date of the indemnification or advance.

5.07. Savings Clause. If this Article or any portion hereof shall be invalidated on any ground by any court of competent jurisdiction, then the Corporation shall nevertheless indemnify and hold harmless each director, officer or any other person indemnified pursuant to this Article as to costs, charges and expenses (including attorneys' fees), judgments, fines and amounts paid in settlement with respect to any action, suit or proceeding, whether civil, criminal, administrative or investigative, to the full extent permitted by any applicable portion of this Article

that shall not have been invalidated and to the fullest extent permitted by applicable law.

5.08. Limitation. Notwithstanding any provision in this Article to the contrary, the terms and provisions of Article are expressly subject to the authority granted in the Non-Profit Corporation Act and any term and/or provision contrary thereto shall be null and void and of no force and effect.

## ARTICLE VI

RE: Water Supply for Fort Bend County

Gentlemen:

The Fort Bend County Surface Water Corporation ("Corporation") has been created on behalf of Commissioners Court of Fort Bend County for the purpose of studying the future water needs, sources and financing structure for the entire geographic area of Fort Bend County. The Board of Directors of the Corporation has been appointed by and serves at the will of Commissioners Court.

Commissioners Court has recognized that water supply is a regional concern and a study of the usage requirements of all present and future water users in Fort Bend County is necessary in order that a cost effective and fair plan for providing an adequate long term supply of water which meets the needs of the rapidly expanding population and which minimizes the potentially devastating impact of subsidence can be formulated and implemented on a timely basis. The projected population growth in the County is shown on Exhibit "A" and the projected rate of subsidence without use of surface water is shown on Exhibit "B".

The County has received a $75,000 grant from the Texas Water Development Board and has committed to contribute up to $100,000 to fund this study. The general scope of this study as proposed in the TWDB grant application is shown in Exhibit "C" attached hereto. The cost of the study is currently estimated to be $400,000. A copy of the proposed budget is attached as Exhibit "D". In order to secure the additional $225,000, the Corporation is requesting that all significant water suppliers and users contribute to the cost of this study. A sliding scale for contributions based on existing water usage is attached as Exhibit "E". Each entity contributing the suggested amount will designate a representative to serve on the Advisory Committee. The Advisory Committee will be solicited for opinions and advice, will be given periodic briefing on the progress of the study and will be provided with copies of the minutes of all Corporation meetings and a copy of the final report. While all expenditures must be approved by the Board of Directors of the Corporation, the funds will be administered by the County.

While several previous surface water studies have been prepared which address the needs of specific political subdivisions, these studies fail to address the issues on a regional basis. In order to minimize costs, these studies as well as the studies prepared by the Fort Bend County Subsidence District and the Harris Galveston Coastal Subsidence District will be utilized to the maximum extent possible.

The long term water needs for Fort Bend County can only be solved by the cooperative effort of all affected entities. We hope that you will decide to participate in this critical undertaking both by your input and your financial contribution.

The Corporation will be happy to meet with you and make a more detailed presentation if you desire. If you desire more information, please contact David Winslow at Lichliter/Jameson & Associates at 561-5190 or Joe B. Allen or Annette Stephens of Vinson & Elkins at 758-2674. If you are able to contribute at this time, please return your check in the enclosed envelope.

We look forward to your active participation.

Yours very truly,

# IV. PROJECT DESCRIPTION

## A. Geographical Area for Planning

The planning area for this project coincides with the geographical boundary of Fort Bend County, in southeast Texas, as shown on Exhibit 1. The planning area encompasses approximately 876 square miles and includes the cities of Arcola, Fulshear, Kendleton, Meadows, Missouri City, Needville, Orchard, Pleak, Richmond, Rosenberg, Simonton, Stafford and Sugar Land, the towns of Beasley and Thompson, and various municipal utility districts. Portions of the cities of Houston and Katy are also within the county. The planning area is part of the Brazos River Basin.

## B. Description and Assessment of Existing Facilities Serving the Planning Area.

At the present time, almost all of the domestic water needs within the Fort Bend county planning area are provided by groundwater facilities operated by various cities, towns, municipal utility districts and private well owners. Limited water from the Brazos River is used by several industrial and agricultural users. The Richmond Irrigation Company and Houston Lighting and Power Company maintain water rights permits for about 13 billion gallons per year. Also a few acres of rice are irrigated from the Brazos River through the Galveston County Water Authority (GCWA) canal system.

## C. Description of Existing and Projected Problems and Needs

Fort Bend County has recognized the need to manage its water resources, especially those related to groundwater withdrawal and resulting subsidence. The County now has in place a county-wide subsidence district which is currently developing a plan to regulate groundwater withdrawal. It is anticipated that as the County continues to grow, limitations will be placed on the usage of groundwater to control subsidence and to more effectively utilize the county's groundwater resources. Technical information is needed to identify what the potential impacts of subsidence are in terms of increased flood damage, so that appropriate decisions may be made regarding the need and timing of conversion to surface water. If limitations are placed on groundwater usage, alternative supplies from surface water sources must be developed if the County is to continue to grow. A water supply technical and management plan for the entire county must be developed to identify cost-effective solutions to the current and future water needs of Fort Bend County.

## D. Effect on State and Regional Planning, Development, and Operation and on Other Regional Entities and Facilities.

Several previous studies which were partially funded through the TWDB planning grants have been performed to develop plans for conversion of specific political subdivisions to surface water. These studies were performed before the Fort Bend County Subsidence District (FBCSD) was created and generally have started with the assumption that the specific subdivisions must convert to surface water and then have proceeded to develop individual plans for conversion. No analysis has been performed in these studies to determine the impact of subsidence on flooding and to determine specifically where and when conversion to surface water is necessary. These individual plans may not be the most cost-effective and economical approach to provide surface water when it is needed. Also, if a more regional approach was taken with regard to groundwater withdrawal, certain areas

that have been recommended for conversion may not need to convert to surface water at least for long periods of time. Because of these factors, it is proposed that this study be performed to address on a broader scale the question of when and where conversion to surface water should occur.

**E. Scope of Work, Schedule, and Budget.**

1. The scope of work for this study which includes four major tasks and associated subtasks is discussed below.

Task a. - Evaluation of Subsidence Impact on Flooding

(1) Coordinate with the FBCSD to determine what subsidence cases would be evaluated in the study. It is anticipated that the FBCSD would provide projections of subsidence at ten-year intervals through the year 2030, based on alternative assumptions regarding groundwater withdrawals in Fort Bend County and in the surrounding counties of Harris, Galveston, Montgomery and Brazoria. It is anticipated that as many as six subsidence cases would be evaluated in the work elements to follow.

(2) Based on the results of task a.(1), plot the resulting subsidence contours for the alternative cases on appropriate base maps.

(3) Identify the areas where significant subsidence is projected and determine what watersheds and stream segments appear to be significantly impacted. It is anticipated that the streams to be impacted would include the Brazos River and Oyster Creek.

(4) For the affected streams delineate the study limits required and obtain the existing Federal Emergency Management Agency (FEMA) HEC-2 hydraulic models for each stream. Review these models and update for existing conditions if necessary.

(5) Apply the HEC-2 models for updated existing conditions and for the subsidence cases identified in task a.(1) for 10-, 25- and 100-year flow conditions.

(6) Evaluate the results of task a.(5) to determine what areas may be adversely impacted due to increased flooding levels. Specific areas of concern to be analyzed include existing development areas and levees. Perform a preliminary economic analysis of the potential damages associated with the increased flooding.

(7) Based on the results of task a.(6), make recommendations concerning the need, timing, and the areas requiring conversion to surface water.

Task b. - Water Supply Technical Plan

(1) Compile and review existing studies including City of Houston Water Master Plan, HGCSD Regional Water Supply Planning Study, and water conversion studies in Fort Bend and west Harris counties.

(2) Identify all current sources of municipal or industrial water supply including owners of municipal and industrial water rights, amount of water under contract, and suppliers of surface water.

(3) In cooperation with the FBCSD and the HGCSD, identify alternative approaches for surface water conversion, if appropriate.

(4) Consult with GCWA, Brazos River Authority (BRA), San Jacinto River Authority (SJRA), and the Trinity River Authority (TRA) about availability of, feasibility of, and cost for transporting surface water to a treatment site.

(5) Based on projected direction of growth, develop computer models to recommend alternative locations of regional treatment and storage facilities to the economic benefit of the overall plan. In developing the overall plan, make maximum use of the existing plans and attempt to coordinate the facilities proposed in these plans.

(6) Determine the cost for construction of proposed alternative regional facilities.

(7) Develop phasing of regional transmission, treatment and storage facilities based on projected growth trends.

(8) Put information on computerized Geographic Information System (GIS) compatible with Fort Bend County's ARC/INFO system.

(9) Develop costs for each phase of the project and prorate this cost on a per 1,000 gallon basis. Discuss long term equalization of payments.

(10) Make recommendations concerning the alternatives identified and recommend a technical plan for surface water supply.

Task c. - Water Supply Management Plan

(1) Review alternative methods of management used successfully in other areas and for other utilities and identify alternative management methods for further analysis.

(2) Analyze the alternative management structures with respect to the recommended technical plan for conversion and with respect to the feasibility of implementation of the alternative management structures.

(3) Recommend a management structure based on task c.(1) and c.(2) which appears most feasible for implementation of the technical plan.

(4) Perform an analysis of the legal and institutional changes that may be necessary for implementation of the management structure and prepare a plan for implementation of the management structure.

Task d. - Prepare Water Conservation and Drought Contingency Plan

(1) Prepare a water conservation plan for the planning area to promote the efficient use of water. The plan will be prepared according to the TWDB guidelines. The draft plan shall be provided to the County. Review comments by the TWDB and the County will be incorporated in the projections used in Tasks a. and b. above.

Task e. - Report Preparation

(1) Prepare a report and necessary exhibits which describe the planning study results in detail.

(2) Make recommendations for further study and implementation deemed appropriate.

(3) Present the study results to the project sponsors.

Gentlemen:

Attached, herewith, is one (1) original and three (3) copies of the completed documents, applying for one of the LEPC development grants being offered by the Texas Department of Health.

This proposal is a very intensive development program of our LEPC and represents a very progressive commitment, by the membership, for its implementation and execution. This package is an accurate depiction of the priority needs of Fort Bend County. Obviously, however, it cannot address all of the issues that will become apparent as various items of the program are implemented. Solutions to these issues will have to be addressed as they are identified.

If we can offer additional information or assist in any way, please contact me at the above address and phone number.

Sincerely,

R.G. Bolyard
FBC LEPC Chairman

# ABSTRACT

The effective and safe response to Hazardous Materials incidents depends heavily upon the level of responder training, the quantity and quality of available equipment and the ability of the responders to react quickly to the occurrences. Logistically, Fort Bend County is burdened with the reality that 73% of all our responders are volunteers that have minimal training and have little or no protective equipment.

The levels of training and the availability of protective equipment can improve effectiveness and safety by our designing and delivering appropriate instruction following the accepted techniques and procedures for their use. EPCRA mandates that we must have Awareness Level training available for the citizens in our jurisdictions, as well as for our county employees. Therefore, one of our primary goals is to make the Awareness Level of training available to those people. Our present projections will be to instruct approximately 360 persons annually, with a priority on first responders.

The purchasing of HazMat protection equipment is critical to an efficient response program. The placement of disposable Tyvek Chemical suits at strategic locations throughout the county would be very beneficial and cost effective.

Another of our key goals is to begin training all our Fire personnel in the more advanced Operational and Technician levels. These levels require instructors with advanced training and increased amounts of available time to instruct. Our plan provides for the instruction of 180 Fire department personnel.

We must continue our exhaustive efforts in identifying the facilities that have above threshold amounts of Hazardous Substances. To date, this has been a very slow and laborious process that has required a lot of county employee time. Fifty percent (50%) of those facilities required to file Tier II forms have actually completed this requirement. In the future, these duties will be delegated, in part, to a temporary employee.

The completion of our mobile Incident Command Post has been on hold due to the lack of funds and volunteer availability. The hiring of temporary employees will enable this very important project to be completed.

We must commence a program of continued and consistent Highway surveys by using temporary employees. The major transportation routes across our county dictate that we must establish statistical information to guide our understanding of the depth of our risk and our vulnerability to Highway and Railroad Hazmat incidents.

The purchase of the ARC/INFO mapping and database software will significantly improve our ability to respond quickly and effectively.

# STATEMENT OF NEED

Geographically, Fort Bend County is located in SE Texas, southwest of and adjacent to Harris Co. in which the multiplex of Houston is located. This Urban/Rural county covers 869 sq. miles and has a 1990 census population of 225,500 people, resulting in an average population density of 260 people per sq. mile or 2.5 acres per resident. The county is bisected by the Brazos River, a major waterway to the Gulf of Mexico for the Central Texas region.

Demographically, the population of the county is concentrated into two areas. The first and most populous, 175,000 or 78%, is the NE portion which encompasses and includes the cities of Missouri City, Stafford, Sugar Land, The Meadows, Fresno, Arcola, Katy and the residential districts of Mission Bend, Pecan Grove and other residential peninsulas, of Southwest Houston, that extend into Fort Bend. The second area, 32,000 or 14%, is near the geographic center of the county and includes the cities of Richmond, Rosenberg and the Tara residential district. The remainder of the population, 18,500 or 8%, is in the NW, SW and SE quadrants of the county that are predominantly agricultural, ranching, recreational and residential in land use. See Exhibits A,B & C

Fort Bend is traversed by four (4) major state highways (59, 90A, 6, and 36) and three (3) major Railroad routes (A,T & SF; Southern Pacific; Union Pacific). Highways 6 and 36 are the major hurricane evacuation routes for the coastal counties. They are also major hazardous materials transportation routes along with highways 59 and 90A. Interstate Highway 10 is the fifth major highway, but its route just nicks the extreme northern extremity of the county. See Exhibit A.

Within the boundaries of Fort Bend, there are 60 identified and recognized hazards that could directly effect the majority of the population. There are 10 active producing oil fields, two with Hydrogen Sulfide as produced byproducts; Three chemical manufacturers and transporters ( Nalco, Witco and Champion); Two high volume public airports (Hull Field and SW Houston); One electrical power generation facility (H.L.&P, W.A.Parrish, 8 Units); Four Texas Department of Corrections facilities (T.C. Jester 1,2,3 & Central); and Approximately 5,000 miles of pipelines from 6" low volume, low pressure lines to 36" high volume and high pressure LPG lines. See Exhibits A and B.

The high density of schools, nursing homes and hospitals within the more populous areas, offer a substantial vulnerability to Haz Mat incidents when considering their short spatial distances from the major transportation routes. See Exhibits A and C.

Twenty-Four (24) potential targets for terrorist activity have been identified. These targets are based upon our county being diversionary in nature and not containing an abundance of primary targets. However, there are two notable exceptions. One is the DeWalt tower complex in eastern Fort Bend. Located there are all of the major television, radio, telephone, cellular telephone, pager, ham repeaters and other commercial communications media for the entire Houston Metroplex and the SE Texas area. The second target is the Houston Power and Lighting W.A. Parrish generating station that services the Houston metropolitan area. The crippling of the Houston Metroplex would be relatively simple by neutralizing these two complexes. See Exhibit A.

The LEPC for Fort Bend, as indicated by exhibit D, has been involved in many broad based type activities. The majority of these activities were accomplished by using budgetary funds from Fort Bend County with minimal monetary support from businesses and the citizenry. The matching funding offered by our industry, in this proposal, is their solid commitment to support the LEPC efforts into the future.

Exhibit E outlines our responder base of which 73% are volunteers and 27% are paid full-time firemen. Also noted in this exhibit is the hazmat response readiness for each fire department. These personnel would be placed into a very perilous position if they were asked to respond to or assist in a hazmat incident. The likelihood of this occurring is shown in Exhibit F. Even though Fort Bend County had eight (8) releases in 1989 and 1990, our neighboring county to the northeast, Harris, had 299 and 358, respectively. Our proximity to the most hazardous county in Texas, increases our vulnerability and our risk to incidents and spills. We must continue to prepare for this eventually.

The completion of the our mobile command vehicle will improve our ability to quickly establish a forward Incident Command center that will contain all the necessary communications, support and logistical capabilities. This unit will be deployable for any type of disaster situation.

Over the past two years, the LEPC has compiled and placed in database a list of 1105 fixed facilities that have inventories of hazardous and/or extremely hazardous substances. Our research has reduced this number to 815 sites that appear to have above the required RQ's and TPQ's. Through our outreach programs, correspondence and personal telephone calls, approximately 50% have filed the required Texas Tier II and MSDS sheets with the LEPC. Industry has been very good about compliance, but our primary stumbling block has been our inability to effectively convey the reporting requirements and information to the rural population of the county. An effectively funded public relations and training program will reach these residents.

Even though it hampers our ability to be totally effective in our overall planning and preparedness activities, this process of compilation and notification will continue to be a dynamic part of the LEPC activities. We may not know the exact location of all our vulnerabilities, but we can continue to plan for there presence in our local environment.

Fort Bend's risk to railroad incidents is high when the total amounts of hazardous substances transported through our county is considered. A review of Exhibit G indicates the frequency and amounts of these substances that are carried, by rail, across our county. We plan to use temporary help to survey our highways and to spot check the rails.

The Basic Emergency Plan and all its associated Annexes are reviewed and appropriately updated annually. Annex Q is more frequently reviewed than any other Annex, due to the continuing work being done by the Response, Mitigation and Evacuation sub-committee of the LEPC. Through the process of exercising, we have found deficiencies in many important areas. As we develop our concept of a "Countywide" HazMat Response team, Annex Q and the other associated annexes will be appropriately altered to reflect the status of our current planning and preparedness. The sub-committee structure of the LEPC is shown in Exhibit H.

The Emergency Medical Services is a fully county funded program. At the present time, EMS has six (6) ambulance stations dispersed throughout the county. These locations are shown on Exhibit C. This unusual distribution provides for equal response times to the majority of the population, yet allows for the effective coverage of the vast rural areas of the NW, SW and SE portions of Fort Bend.

# PROJECT DESCRIPTION

Exhibit I outlines the budgetary expenditures for the proposed work plan. The listed items are not necessarily in order of priority, but they do reflect the broad spectrum of uses for which the funds will be committed. The budget page depicts the proportions of who will be funding our program. Fifty (50%) will be State funding; Thirty (30%) industry; and Twenty (20%) from the county.

Exhibit J is a listing of those industries committed to the matching fund pool as well as those funds that will be contributed by Fort Bend County. The commitment letters, from each company, are shown by Exhibits K through Q.

The utilization of Sixty percent (60%) of the budget will be for budgetary items 1 through 7, Exhibit I. These are considered critical to the proper preparation of our first responders (paid and volunteer) and to provide them with timely information for a proper assessment of the vulnerabilities and the extent of their risk. A description of the purposes and the associated jobs, for each item, is as follows.

1. Hiring of Temporary Help
   a. Identification of facilities with hazardous substances.
   b. Labor for the completion of the Mobile Command Center.
   c. Highway and railroad surveys.
   d. Data input and filing

2. Awareness & Responder Training
   a. 360 persons at the Awareness Level. Focusing upon county employees, adult citizens and children.
   b. 180 responders at the Operational and Technician Levels. Key fire personnel in each department.
   c. Purchase of all audio and visual aids; Instructor training; and supplies.

3. Disposable Tyvek chemical suits.
   a. Distributed to those departments with responders trained in their use and care.
   b. The LEPC will be the repository for storing and distribution.

4. Sand Bags
   a. Multi-purpose, general duty bags.
   b. The LEPC will act as storage and distribution facility.

5. Completion of Mobile Command Center
   a. Purchase the necessary materials to complete the work on the interior and the weatherization of the exterior.
   b. Installation of antennas and communications equipment.
   c. Final inspection

6. Mobile Facsmile Unit
   a. Transference of hardcopy information from officials
   b. Exchange of confidential and sensitive information

7. Laptop computer for Mobile Command Center
   a. Instant, onscene access to TOMES chemical software and Q&A database information.
   b. Direct access of relational information from Item 8.b.
   c. Portable capability outside of the Mobile Command Center

Thirty percent (30%) will be focused toward improving our overall EOC capabilities for the efficient and effective support of all field operations. Items 8 through 11 on Exhibit I, are described below.

8. PC ARC/INFO Mapping Capabilities
   a. ARC/INFO Starter Kit.
      1) Computer display of map(s) pertinent to specific response areas.
      2) Digitization of locally available maps. Engineering, survey plats, topographic, residential, drainage, highway, railroad, facility and industry plats.
      3) Constant cultural updating capabilities.
      4) Expandable by adding functional modules
   b. ARCPLOT
      1) Interactively create and preview maps on monitor.
      2) Manipulate and display pertinent attributes.
      3) Rapid access to the details of fix facility HazMat storage sites, locations etc.
      4) Hardcopy printout of maps.
      5) Utilize maps for the interactive query and retrieval of database information.

9. 800 Mhz Trunking Radio
   The more populous NE portion of the county has 800 mhz communications capabilities for their response personnel. This trunking system is not available to the other entities of the county, due primarily, to expense. The EOC must have the ability to communicate with these municipalities, thus the purchase of a 800 mhz radio will allow a direct communications link to be established.

10. Two dedicated phonelines @ EOC.
    a. Establish direct contact with Mobile Command Center and other response agencies.
    b. Uninterruptable voice and digital communications.
    c. Open and available lines for emergency calls, information transfers and resource logistics.

11. NOAA Alerting System
    a. Available radio alerting and notification system.
    b. Advanced warning for weather phenomena.
    c. Expandable and flexible.
    d. Countywide utilization.

The remaining Ten percent (10%) will be applied to continuing our outreach programs. These would include the continuance of our seminars, media public relations, reproduction of informational flyers and correspondence to those facilities that have not yet complied with the EPCRA reporting regulations. Refer to Items 12 through 14 on Exhibit I.

This program and its associated expenditures will continue to benefit Fort Bend County far beyond the physical completion of this one particular proposal. Future financial support and expansion upon the objectives achieved during the execution of this program, will be based upon a new justification proposal.

The commencement of the elements of this proposal, in its various aspects, will begin upon its approval and will run for a duration of twelve (12) months. The administrator of the program will be R.G. Bolyard, the LEPC Chairman. The LEPC and the County Auditor will provide and maintain the necessary documentation to support the required quarterly and final financial project reports in compliance with the contractual arrangements with the Texas Department of Health. All correspondence and the final narrative will be prepared by the chairman of the LEPC or his designee.

The LEPC will also maintain internal reports that will contain: (1) All the training records; (2) Information on public relations activities; (3) All correspondence; (4) Spill and response information with successes, failures and lessons learned; (5) Exercise planning, execution, critique and future scheduling; (6) Reporting facilities; (7) Current changes and updates in EPCRA regulations and legislation and (8) Any other maintained documents or support data. These data will be used to develop evaluation criteria so that the progress of our LEPC can be reasonably measured.

Exhibit R is the minutes of the LEPC meeting held on April 4, 1991. The membership, that were present, unanimously approved this written proposal.

FORT BEND COUNTY

LOCAL EMERGENCY PLANNING COMMITTEE

ACTIVITY SUMMARY

The LEPC had its first organizational meeting on September 16, 1987. There were 25 in attendance representing Industry and Manufacturing, County and City Government, Fire Service, Law Enforcement, Media, Medical, Communications and volunteer organizations. This gathering was informational in nature and resulted in the formation of a Steering Committee to study, recommend and to guide subsequent operations.

The steering committee designated a Chairman and a Vice-Chairman and setup six (6) sub-committees responsible for addressing the various aspects of SARA Title III. Due to many reasons, very little substantive work was accomplished between October 1987 and January 1989.

Since January 1989, the following achievements have been recorded by the various sub-committees and the work of the Chairman. Important but yet uncompleted projects are noted.

1. Computerized Chemical Database for George Public Library. Budgetary constraints limit our ability to purchase the necessary computer hardware to make this information available to the public.

2. Countywide Q&A databases
   a. Facilities that store and manufacture above threshold amounts of Hazardous Materials. Dynamic and ongoing.
   b. Emergency Response Resources.
   c. Locations and types of EHS substances.
   d. Compilation of all MUD's & LID's.
   e. County maintained bridges.
   f. Senior Citizens requiring assistance during evacuation.
   g. Emergency response personnel (Fire, Law Enforcement, etc.)

3. Emergency Management Communications System (EMCS). Development of an UHF radio net connecting industry, the private sector and government with the EOC.

4. Countywide Resources, Hazards and Vulnerability map. A 1"=4,000' wall map with 2 overlays.

EXHIBIT D

5. Computer Bulletin Board
   An outreach program to bring SARA Title III, EPCRA and Emergency Management information and issues to the public.

6. Development of awareness training programs for the public.
   Not implemented, as yet, due primarily to lack of adequate funding and commitment.

7. Exercises
   One full-scale and 2 Tabletop exercises addressing HazMat incidents within our communities.

8. Public Outreach programs
   a. Citizens Emergency Response Manual and Checklist.
   b. Monthly LEPC luncheons.
   c. A booth at the Health Fair.
   d. Two seminars addressing a broad spectrum of environmental issues.
   e. Formation of a Stress Management sub-committee.
   f. Sponsorship of two Weather spotters seminars.
   g. Incorporation of the WSI weather information into our emergency response plans.

9. Development of a countywide Amateur Radio RACES program.

These achievements were accomplished by utilizing very limited County budgetary funds and one full time county employee. Industry involvement was primarily through donations of printing supplies and volunteer services of their employees, on company time, to serve on the various sub-committees. The media have been somewhat reluctant to publicize the specifics of our LEPC activities, wants and needs. It is difficult to assess the reasons why, but it is thought that it has to do, for the most part, with complacency and limited citizen impact.

STATE OF TEXAS §

COUNTY OF FORT BEND §

**CONTRACT FOR COUNTY GASOLINE**

THIS CONTRACT FOR THE PURCHASE OF GASOLINE FROM FORT BEND COUNTY, TEXAS, (hereinafter referred to as the "Contract") made and entered into by and between Fort Bend County, Texas, a body corporate and politic (hereinafter referred to as "County") acting by and through its Commissioners' Court, and Fort Bend Senior Citizens, Inc., a nonprofit corporation duly organized and existing under and by virtue of the laws of the State of Texas (hereinafter referred to as "FBSC")

WITNESSETH:

THAT WHEREAS, the County has, by order of its Commissioners' Court entered in the minutes of the regular session of that body on December 17, 1990, approved the sale of County gasoline to FBSC; and

WHEREAS, it is the opinion of the County that a useful and desirable public purpose will be accomplished by permitting FBSC to purchase County gasoline; and

WHEREAS, it is the opinion of the County that the public interest is adequately protected by a deposit of THREE THOUSAND AND NO/DOLLARS ($3,000.00) which has been paid to the County by FBSC, the receipt of which is hereby expressly acknowledged; and

WHEREAS, the County hereby expressly recognizes the benefit and service provided to the citizens of Fort Bend County by FBSC and desires to, by this Contract, assist FBSC in providing that service and benefit:

NOW THEREFORE, the County and FBSC hereby agree that, in consideration of the County selling its gasoline to FBSC, the following terms and conditions will apply:

I.

DEPOSIT

1.01 FBSC has deposited the sum of THREE THOUSAND AND NO/DOLLARS ($3,000.00) with the County, which deposit shall remain in the County's depository for the term of this Contract and for the term of any renewals of this contract per Section 2.02, below.

1.02 Upon the expiration of the term of this Contract or upon the earlier termination of this Contract per Section 2.03, below, the County shall promptly return the deposit monies to FBSC, less any sums due and owing to the County from FBSC pursuant to this Contract.

II.

TERM

2.01 This Contract shall be for an initial term commencing upon the date of execution by the Commissioners' Court of Fort Bend County and ending on December 31, 1991.

2.02 The parties hereto may, by written agreement, extend this Contract for additional twelve (12) month terms.

2.03 Either party may terminate this Contract at any time by

giving the other party written notice of the election to terminate. Termination shall then occur thirty (30) days after the date of notice.

III.

**ACCOUNTING**

3.01 FBSC shall keep an accurate record of all gasoline pumped from County pumps pursuant to this Contract.

3.02 The County, on a precinct basis, shall likewise keep a record of gasoline taken by FBSC. Each or any County precinct from whose pumps any gasoline has been taken by FBSC shall bill FBSC by written, monthly invoice for gasoline so pumped. Each invoice shall reflect the date of each withdrawal of gas by FBSC during the previous month, the quantity of gasoline taken per withdrawal, and the total amount due and owing the County for the gasoline withdrawals summarized by the invoice.

3.03 The County shall not add any State or other taxes for the gasoline purchased by FBSC pursuant to this Contract and it shall be FBSC's sole responsibility to account for any taxes which it may owe any taxing entity.

3.04 Any discrepancy between a Precinct invoice and FBSC's records shall be resolved by presenting the dispute (if agreement cannot be reached) to Commissioners' Court.

3.05 FBSC shall pay for all gasoline purchases from the County within fifteen (15) days of receipt of an invoice from a Precinct.

3.06 Any bill not promptly paid shall accrue interest at the rate of 10% per annum. The Commissioner of a Precinct whose bill has not been timely paid may withdraw the overdue amount plus interest, if any, from the deposit described in Section 1.01, unless the bill is late because of disagreement between that Commissioner and FBSC, in which case, the bill shall not be considered overdue and shall not accrue interest. Upon resolution of the dispute by the Commissioners' Court, the bill shall be payable (if it is determined that an amount is due to the County) within 30 days of the Court's determination.

3.07 Any amount withdrawn from FBSC's deposit by a Commissioner, pursuant to the above Section 3.06, shall be replaced into the deposit fund by FBSC within ninety (90) days of FBSC's receipt of a request by the County for such payment.

IV.

HOLD HARMLESS

4.01 FBSC shall indemnify, defend and hold the County, its officers, elected officials, employees, agents and any and all of its or their successors, heirs and assigns, harmless from any claims, suits, or damages resulting from, caused by or otherwise arising from or allegedly arising from FBSC's pumping of gasoline from County pumps.

4.02 FBSC expressly agrees that it shall pump County gasoline or have County gasoline pumped for it at its sole risk and that it shall not look to the County, its officers, employees or agents for indemnification for any loss suffered by FBSC, its employees,

volunteer workers, agents or any other guest or licensee in a FBSC vehicle as a result of a gasoline withdrawal from a County pump during the term of this Contract.

V.

**ACCESS TO COUNTY FACILITIES**

5.01 The Commissioners of FBC shall develop, at their sole discretion, rules or guidelines for the practical implementation of this Contract at the facilities in their respective Precincts.

VI.

**NOTICE**

6.01 Any notice permitted or required under this Contract shall be delivered in person or shall be deposited in the United States Mail, postage paid, and addressed to the appropriate address below:

Re: Fort Bend County Property Tax
Acct. #2420020010130907

Dear Ms. Schultz,

On Dec. 28,1990 we came in person to the Fort Bend County tax office to pay the property tax due for 1990 to assure that it was paid prior to the close of the year. Unfortunately, we were not aware that our mortgage company, First Gibralter Bank, had also issued a check dated 12/26/90 for the same amount, $696.53, from our escrow account. It has been verified by your office through Karen Stell that the bank check #200865 has indeed been received there for payment of our account. Therefore, we request that our payment made on Dec. 28,1990 be refunded directly to us and that the bank payment be used to cover our 1990 property tax in the amount of $696.53.

We appreciate your attention to this matter and regret any inconvenience we have caused.

Sincerely,

Mary Hellenthal

RE: FORT BEND CO. TAX OFFICE, MISSOURI CITY / STRUCTURAL IMPROVEMENTS TO THE ROOF DECK AND WALLS ON THE NORTH AND SOUTH

Dear Ms. Knauth:

After several conversations with Mr. Karl Baker, myself and the steel erector we have agreed on the following remedy for the roof and walls.

Four new bar joists will be placed along the north and south walls. The missing bracing from these bar joists to the walls will be done by grouting anchor bolts in the wall at regular intervals similar to the bracing on the existing bar joists. Angle iron will be attached to the anchor bolts and welded to the new bar joists to brace the walls. Additionally, angle iron will be welded between bar joists at locations where the roof deck has failed. This new bracing should also provide adequate bracing for the new roof system which will impose additional loads on the roof. Delivery of the structural steel is three weeks from the date of order.

The work includes:

1. 4 fabricated steel joists, miscellaneous steel bracing materials
2. erection of the steel joints, welding of wall angles to joists and attaching to anchor bolts.
3. breaking wall sections and installing grout and anchor bolts.
4. delivery of steel, insurance,
5. repair of existing wall sections damaged by this work.
6. the estimate below is subject to our review of a new set of structral drawings prepared by a certified structural engineer.

Before we place an order we must have a drawing describing this work and detailing the steel to be fabricated. The drawing must have a seal by a certified structural engineer. We must also receive approval of this cost proposal from Fort Bend County before ordering materials.

285 ded. = 4,080 R.D.

This proposal is only an estimate since there is no description of the work or materials. The estimated cost is $4,365.00, subject to reviewing the new structural drawings, and providing similar bar joists are required by the structural engineer as those presently in place and the miscellaneous steel is, 2" x 2" x 1/4" angle iron.

rec 3-20-91 RKW

There is very little work that can be done until the additional structural steel is put in place. Please advise us how to proceed as soon as possible so materials may be ordered.

Sincerely,

John [illegible]

**Evaluation of Proposals - RFP #91-047 with Recommendation.**

Four proposals for the Engineering Department's Advance Digital Information Exchange System were received from the following Offerers:

Genesis Telecom, Inc.
Interwest Communication Corp.
Southwestern Bell Telephone Co.
Telecommunication Specialists, Inc.

Each proposal was first reviewed in general. Next each offerer's system features were compared to those requested. Finally, the results of this comparison were tabulated against requested features.

Using this method, it was concluded that two of the systems offered were true digital systems fully capable of meeting all requested system features. These proposed systems were offered by:

1. Genesis
2. Interwest

The other two proposals were basic analog systems, each combined with varying digital capabilities, and were difficult, to compare directly with all aspects of requested system features. It is concluded that TSI's proposed system is comparable but lacks many features requested including the inability to transmit data. It is concluded that Southwestern Bell's proposed system is difficult to compare on a feature basis but definitely lacks many features requested. Therefore these two proposals were eliminated from further consideration.

Interwest and Genesis are both authorized distributors of Iwatsu America, Inc., Omega ADIX equipment. The voice mail equipment offered by Interwest and Genesis are made by different companies but both systems have comparable features and both are fully intergratable with the ADIX equipment.

References of both companies were checked with equally satisfactory results.

Genesis has been in business in Houston for 7 years and an Iwatsu dealer for 3+ years. Interwest has been in business in Houston 10 years and an Iwatsu dealer for 9 years. Interwest may have a larger organization than Genesis but both have comparably experienced people on staff for installation, training and maintenance. Both companies maintain equipment and parts stock in Houston backed by available Iwatsu stock in Dallas.

On the basis of a one year warranty (equipment and labor) the installed cost (including interconnecting cable, accessory and hardware) of the system as requested per RFP #91-047 was:

Genesis - $24,569.00
Interwest - $30,573.00

With additional information obtained during the proposal evaluation, a system reconfiguration was presented to both Genesis and Interwest. This resulted in a cost reduction of:

Genesis - $ 1,371.00
Interwest - No change

It is therefore the recommendation of Engineering that the Court approve awarding a contract to Genesis Telecom Inc. to provide the digital information exchange and voice mail systems per RFP #91-047 as modified by letter, dated April 5, 1991, (copy attached hereto) confirming final system configuration for:

Total Cash Price - $23,198.00
