MEMORANDUM

TO: Honorable Roy Cordes, Jr.
Commissioner R.L. Bud O'Shieles
Commissioner Grady Prestage
Commissioner Alton Pressley
Commissioner Bob Lutts

DATE: 9/18/91

FROM: Roman S. Bohachevsky

SUBJECT: Awarding of book bid for 1992

We would like to award the bid for general (trade) book purchases for 1992 to Baker & Taylor Inc. This national wholesaler of books for libraries and bookstores is the low bidder, offering a 44.7% discount and meeting all requirements of the bid specifications.

The Court authorized going out for bid in May, 1991 but asked that we wait on the awarding of the bid until the book budget for 1992 was known. This is now the case and we would like to proceed. It is also important to award the bid now because training on our new automation system involves the low bidder for the book contract.

We plan to spend approximately $100,000 with this vendor for books for all of our libraries in 1992.

I will appear before you on Monday, September 23, 1991 to receive your approval.

Sincerely,

Roman S. Bohachevsky

Gentlemen:

I request permission to go out for bids for what we call "general" book buying, meaning the bulk of general interest novels and non-fiction that we typically buy each year.

We are doing this a little early this year, necessitated by the requirements of our automation system. This is a bid for FY 1992 and it will require some tailoring to our new automation system once awarded.

The current successful bidder for "general interest" books is Brodart, Inc. and we will spend approximately $81,000 with them this year. Next year's book buying will include books for the Missouri City branch library and we may spend approximately $100,000 all together.

I will appear before you on Monday, June 3, 1991 to ask for your approval.

Sincerely,

Roman S. Bohachevsky

SUBJECT: Surveying of land on the First Colony branch library site

I will appear before you on Monday, September 23, 1991 to seek approval for a contract with Saliger Engineering Corporation for land surveying on the First Colony branch library site.

This service has been requested by our architects and is part of the general preparation for construction. Saliger Engineering has done work for the County before and is acceptable to County Engineering. Most recently Saliger did the surveying work on the Missouri City branch library. Saliger does good work, is prompt, and communicates well.

The total cost of this contract is $2,195 and the monies are available in the bond funds for the First Colony branch library.

RE: 1991 Budget Amendment

The Commissioners Court is requested to amend the County Court at Law No. 2 1991 Budget by adding $5,000.00 to Fees and Services No. 4010 to increase the budget line item from $60,000.00 to $65,000.00.

The Commissioners Court is also requested to amend Salaries and Labor No. 0200 and if necessary Longevity No. 0250 and Social Security No. 0300 and Retirement No. 0400.

A-724

The amendment to line item 4010 Fees and Services is necessary because of the increase in mental health cases and juvenile matters heard by this Court. As you know, every juvenile and person appearing on mental health commitments must have an attorney and most of them are court appointed. It is anticipated that the addional sum of $5,000.00 will be sufficient however, we cannot be sure what the balance of the year will bring in juvenile and mental health hearings.

The amendment to 0200 Services and Labor and relevant line items was brought about by the salary increase approved for my Probate Auditor which was not included in the 1991 Budget. A copy of correspondence relative to this issue is attached.

Pleae enter this subject on the agenda of the County Commissioners Court as soon as possible and let me know if I should be avaiable to make a presentation to the Commissioners.

Thank you for your courtesy and cooperation.

It was understood that your salary line item in the 1991 budget will have a shortfall in the last quarter of 1991. The shortfall will be addressed by the Court at that time. Reference is made to the Budget Memorandum dated February 14, 1991 received from you concerning deficit in certain line items, copy of which is attached.

As you will recall, this deficit was brought to the attention of the Commissioners Court at the time I presented my Budget for 1991. This deficit is caused by the salary increase approved for my Probate Auditor which was not included in the 1991 Budget for this department.

It was the desire of the Commissioners Court that my Budget not be increased at that time but would be adjusted accordingly in July or August of this year.

Please do whatever is necessary to provide the funds to balance the line item amounts as reflected in your Budget Memorandum.

Honorable Roy Cordes - County Judge

Dear Sir:

Recently we were installing some tape drives in the Fort Bend Data Processing Center and noticed the computer room floor was incomplete. Since then I have purchased some computer equipment from Lone Star Mailing Service in Houston and received approximately 1200 square feet of raised floor.

TRITEK is in the Computer Maintenance business and we have no need for this floor, therefore we would like to donate it to Fort Bend County. The approximate value is $3.00 per square foot or a total of $3600.00, plus the ramp and rails which have a retail value of $1000.00 each. The floor is available for pickup at Lone Star Mailing Service, 700 W. Sixth Street, Houston, Texas 77007.

Please contact TRITEK at (713)464-2717 and we will arrange access to Lone Star Mailing Services for the deinstall and pickup.

Thank you,

Art. 5159a. Construction of public works in State and municipal or political subdivisions; prevailing wage rate to be maintained

Sec. 1. Not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the work is performed, and not less than the general prevailing rate of per diem wages for legal holiday and overtime work, shall be paid to all laborers, workmen and mechanics employed by or on behalf of the State of Texas, or by or on behalf of any county, city and county, city, town, district or other political subdivision of the State, engaged in the construction of public works, exclusive of maintenance work. Laborers, workmen, and mechanics employed by contractors or subcontractors in the execution of any contract or contracts for public works with the State, or any officer or public body thereof, or in the execution of any contract or contracts for public works, with any county, city and county, city, town, district or other political subdivision of this State, or any officer or public body thereof, shall be deemed to be employed upon public works.

Sec. 2. The public body awarding any contract for public work on behalf of the State, or on behalf of any county, city and county, city, town, district or other political subdivision thereof, or otherwise undertaking any public work, shall ascertain the general prevailing rate of per diem wages in the locality in which the work is to be performed for each craft or type of workman or mechanic needed to execute the contract, and shall specify in the call for bids for said contract, and in the contract itself, what the general prevailing rate of per diem wages in the said locality is for each craft or type of workman needed to execute the contract, also the prevailing rate for legal holiday and overtime work, and it shall be mandatory upon the contractor to whom the contract is awarded, and upon any subcontractor under him, to pay not less than the said specified rates to all laborers, workmen and mechanics employed by them in the execution of the contract. The contractor shall forfeit as a penalty to the State, county, city and county, city, town, district or other political subdivision on whose behalf the contract is made or awarded, Ten Dollars ($10.00) for each laborer, workman or mechanic employed, for each calendar day, or portion thereof, such laborer, workman or mechanic is paid less than the said stipulated rates for any work done under said contract, by him, or by any subcontractor under him, and the said public body awarding the contract shall cause to be inserted in the contract a stipulation to this effect. It shall be the duty of such public body awarding the contract, and its agents and officers, to take cognizance of complaints of all violations of the provisions of this Act committed in the course of the execution of the contract, and, when making payments to the contractor of monies becoming due under said contract, to withhold and retain therefrom all sums and amounts which shall have been forfeited pursuant to the herein said stipulation and the terms of this Act; provided, however, that no sum shall be so withheld, retained or forfeited, except from the final payment, without a full investigation by the awarding body. It shall be lawful for any contractor to withhold from any subcontractor under him sufficient sums to cover any penalties withheld from him by the awarding body on account of the said subcontractor's failure to comply with the terms of this Act, and if payment has already been made to him the contractor may recover from him the amount of the penalty or forfeiture in a suit at law.

Sec. 3. The contractor and each subcontractor shall keep, or cause to be kept, an accurate record showing the names and occupations of all laborers, workmen and mechanics employed by him, in connection with the said public work, and showing also the actual per diem wages paid to each of such workers, which record shall be open at all reasonable hours to the inspection of the public body awarding the contract, its officers and agents.

Sec. 4. Any construction or repair work done under contract, and paid for in whole or in part out of public funds, other than work done directly by any public utility company pursuant to order of the Railroad Commission or other public authority, whether or not done under public supervision or direction, or paid for wholly or in part out of public funds, shall be held to be "public works" within the meaning of this Act. The term "locality in which the work is performed" shall be held to mean the county, city and county, city, town, district or other political subdivision of this state in which the building, highway, road, excavation, or other structure, project development or improvement is situated in all cases in which the contract is awarded by the state, or any public body thereof, and shall be held to mean the limits of the county, city and county, city, town, district or other political subdivisions on whose behalf the contract is awarded in all other cases. The term "general prevailing rate of per diem wages" shall be the rate determined upon as such rate by the public body awarding the contract, or authorizing the work, whose decision in the matter shall be final. It is mandatory that the public body state such prevailing wage as a sum certain, in dollars and cents. Nothing in this Act, however, shall be construed to prohibit the payment to any laborer, workman or mechanic employed on any public work as aforesaid of more than the said general prevailing rate of wages.

Sec. 5. Any officer, agent or representative of the State, or any political subdivision, district or municipality thereof, who wilfully shall violate, or omit to comply with, any of the provisions of this Act, and any contractor or subcontractor, or agent or representative thereof, doing public work as aforesaid, who shall neglect to keep, or cause to be kept, an accurate record of the names, occupation and actual wages paid to each laborer, workman and mechanic employed by him in connection with the said public work, or who shall refuse to allow access to same at any reasonable hour to any person authorized to inspect same under this Act, shall be guilty of a misdemeanor, and upon conviction shall be punished by a fine of not exceeding Five Hundred Dollars ($500.00), or by imprisonment for not exceeding six (6) months, or by both such fine and imprisonment, in the discretion of the Court.

Life/AD&D, Medical, Rx, Dental, and Worker's Compensation Commissioner's Court Workshop

Prepared by:

****

To: Commissioner's Court/Fort Bend County

From: Sunday and Associates, Inc.

Subject: Life/AD&D, Medical, Rx, Dental, and Worker's Compensation

****

Over the last few years we have collectively accomplished the following:

* Move from conventional funded plan with the insurance carrier in control of your destiny

* Deter HMO penetration -- stabilized and reduced number of employees in HMO's

* Maintained benefits when most employers were having to curtail benefits

* Stabilized cost

* Implemented Managed Care programs to control cost, and provide cash savings

* Gained control over Mental/Nervous/Substance Abuse cost through Exclusive Provider Agreement

Though this represents some major accomplishments from a benefit and cost standpoint, as we have discussed recently there is additional work to be done, such as:

* Refine physician and ancillary provider network

* Refine hospital -- primary and tertiary -- care network

* Restructure pharmacy program

* Develop occupational programs to improve cost of worker's compensation plan

* Improve administrative efficiency

* Increase employee communication to increase employee awareness

As the enclosed pieces indicate, the plan costs though continuing to rise, though at a much slower rate than typical. The cash savings to the County over the last few years has been significant. Even though there is positive things to hang our hat on there is still much that can be accomplished.

MONTHLY REPORT
AUGUST, 1991

The removal of vegetation from channels during August, 1991 was accomplished by both shredding operations and by herbicide applications. Shredding was done on forty-six (46) channels that included Dry Branch I-E and four (4) of its tributaries, Fairchilds Creek II-B-10 and four (4) of its tributaries, Turkey Creek II-A-2, and Willow Fork of Buffalo Bayou V-A. Herbicides were applied only to channels that had been previously shredded and included Buffalo Creek I-B-3, Dry Creek II-B-2, Keegans Bayou VII, and Stafford Run Creek II-K-1. A total of thirty-five (35) channels received applications.

The bridge crew worked on a variety of projects that included the replacement of a low-water crossing across Snake Creek I-C, the repair of a bridge across Cottonwood Creek II-B-24, and the installation of several drop inlet pipes on San Bernard River I-J and Cow Creek II-A.

The excavation of Brazos River II-H continued during August. The Northwest 9570 dragline dug twenty-five thousand (25,000) cubic yards that were spread by the Dresser TD-25G bulldozer.

The Cow Creek II-A-5 project also continued where the Linkbelt LS-98C dragline dug approximately eight thousand, two hundred (8,200) cubic yards of spoil material.

The Linkbelt LS-98A dragline continued to work on Turkey Creek II-A-2-b and dug approximately eight thousand, four hundred (8,400) cubic yards of dirt.

On Monday, August 19, both Drainage District locations were consolidated and began operations from the Blume Road facility. Engineering and administration are housed at 1004 Blume Road, while construction and maintenance are housed at 1022 Blume Road.

The following charts show each project that received work and which equipment was assigned during August, 1991.

General Terms & Conditions

Customer's Company Name: Fort Bend County Clerk															
City: Richmond Tx						Service Agreement #: DCE27962									
Attachments:	051														

MINNESOTA MINING AND MANUFACTURING COMPANY ("3M")agrees to furnish and customer agrees to accept and pay for maintenance service on the equipment listed on the above attachments. Maintenance service will be provided according to the terms and conditions set forth in this document and the terms and conditions of each listed attachment.

1. **Maintenance Service.** 3M agrees to provide to Customer:

(a) On-site remedial maintenance during On-Site Coverage Hours when 3M is notified that the Equipment is not in good working order. 3M will provide a toll-free telephone number for Customer to place, and 3M will receive, Equipment maintenance service calls twenty-four (24) hours per day, seven (7) days per week.

(b) On-site preventive maintenance based upon the specific needs of individual Equipment, as determined by 3M.

(c) All labor, service parts and Equipment modifications 3M deems necessary to maintain the Equipment in good working order. All service parts will be furnished on an exchange basis, and will be new parts or parts of equal quality. For certain Equipment, 3M reserves the right to replace the entire unit with new equipment or equipment of equal quality when 3M determines that replacement is more economical than on-site repair. For certain Equipment, 3M also reserves the right to furnish replacement service parts and Equipment of another manufacturer where the replacement service parts and/or Equipment are reasonably determined by 3M to be functionally equivalent or better. All Equipment and service parts removed for replacement become the property of 3M.

If maintenance is available outside On-Site Coverage Hours, except as provided in the next paragraph there will be an additional charge to Customer for travel and labor at 3M's then current non-contract rates for maintenance service requested and performed outside On-Site Coverage Hours.

If a service technician arrives at Customer's site during On-site Coverage Hours to repair a failed unit of Equipment, and if the technician has not solved the problem by the end of On-Site Coverage Hours, a grace period is allowed during which Customer will not be charged for after-hours maintenance service. This grace period is a minimum of one (1) hour and a maximum of six (6) hours, computed by taking, the number of On-Site Coverage Hours elapsed since 3M's receipt of the service call and subtracting three (3) hours.

2. **Average Response Time.** With respect to each unit of Equipment covered by this Agreement, this Agreement indicates an average Response Time. During any one year term of this Agreement, for on-site remedial maintenance calls with respect to each unit of Equipment 3M will achieve the indicated average Response Time.

3. **Acceptance.** This Agreement is not binding unless and until it has been accepted in writing by the signature of an authorized representative of each of the parties. This is the sole and exclusive manner of acceptance. Any other promise or act, including a promise to perform maintenance service or the performance of any maintenance service, shall not constitute acceptance of this Agreement.

4. **Definitions.** As used in this Agreement, "Equipment" means the equipment listed in this Agreement, including non-optional components, accessories and peripherals, plus any additional equipment when added, as provided in Section 9; "On-Site Coverage Hours" means 3M's normal business hours in the area where the Equipment is located, plus any additional hours covered by any written agreement between 3M and Customer providing for after-hours maintenance service of the Equipment; and "Response Time", means the number of On-Site Coverage Hours elapsed between 3M's receipt of a service call and the arrival of a 3M service technician at Customer's location for the purpose of repairing the Equipment.

5. **Term and Termination.** The initial term of this Agreement is listed on each attachment of this Agreement. Unless otherwise indicated on each attachment of this Agreement, at the conclusion of the initial term this Agreement will automatically renew for successive one-year periods, until terminated by either party. All renewals will be at 3M's then current Basic Maintenance fees. Either party may terminate this Agreement upon thirty (30) days advance written notice to the other party (i) at the end of the Initial term, (ii) any time after the initial term, or (iii) in the event the other party fails to comply with any of the terms and conditions of this Agreement.

6. **Fees.** Customer agrees to pay the Basic Maintenance Fee listed in this Agreement for services covered by this Agreement. For Equipment where a Zone Fee applies, Customer agrees to pay any Zone Fee listed in this Agreement. The Basic Maintenance Fee and Zone Fee may be changed by 3M effective on any renewal date of this Agreement.

7. **Travel.** The Basic Maintenance Fee includes, and 3M will make no additional charge for, travel expense associated with covered maintenance services performed during On-Site Coverage Hours.

8. **Additional Equipment.** Upon written agreement of the parties, additional equipment may be added to this Agreement. If the additional equipment is of the same model as the Equipment, Customer agrees to pay the pro rata portion of the Basic Maintenance Fee and the Zone Fee (if applicable) then in effect under this Agreement. If the additional equipment is of a different model than the Equipment, Customer agrees to pay the pro rata portion of 3M published Basic Maintenance Fee and Zone Fee (if applicable) in effect at the time the additional equipment is added to this Agreement and to execute any standard attachment(s) to this Agreement supplied by 3M and applicable to such additional equipment. To request that additional equipment be added to this Agreement, Customer shall issue a written request that references this Agreement, states the date on which maintenance service shall commence, and lists the product description, model, and serial number of the additional equipment to be covered by this Agreement. Equipment located outside the 48 contiguous states of the United States and the District of Columbia may not be added to this Agreement.

9. **Engineering Changes.** 3M will make engineering changes to Equipment if reimbursed by the Equipment manufacturer. Other engineering changes will be made at Customer's request at 3M's then current non-contract rates for travel, labor and materials.

78-6970-3203-1

10. Equipment Transfer. To assure continuous coverage of the Equipment, Customer shall provide written notice to 3M prior to any transfer of any Equipment to a location other than the location listed herein or most recently reported to 3M. Transfer of Equipment to a different service zone will result in an adjustment of Fees and/or average Response Time to the applicable rates for the new zone. Movement of any Equipment outside the 48 contiguous states of the United States and the District of Columbia excludes that Equipment from coverage under this Agreement.

11. Upgrades. To assure complete coverage of Customer's system, Customer agrees to notify 3M in writing within thirty (30) days of any upgrade made to any of the Equipment. There may be an additional charge for coverage for upgraded Equipment.

12. Access. Customer will provide 3M with full and free access to the Equipment, subject to Customer's reasonable security requirements. Customer shall provide 3M with prior written notice of Customer's security requirements.

13. Taxes. Except where Customer is exempt from such taxes, Customer agrees to pay any tax imposed on or in connection with the services to be performed and materials to be provided under this Agreement, exclusive of taxes based on net income. If Customer is exempt from any taxes, Customer will certify such exemption in a form as required by 3M prior to execution of this Agreement. Where Customer is permitted and agrees to pay such taxes directly to the taxing authority, Customer will certify such fact in a form as required by 3M prior to execution of this Agreement.

14. Invoicing. The Basic Maintenance Fee and the Zone Fee, as well as optional shift and response time buydown coverage (if applicable) will be invoiced in advance. Any other maintenance charges will be invoiced periodically in arrears. The Basic Maintenance Fee for a partial month's service will be pro rated on the basis of a thirty (30) day month. Payment will be made within the terms stated on the invoice.

15. Limited Warranty. 3M warrants that Equipment maintenance service performed under this Agreement by 3M will be performed competently and in accordance with industry practices, and Equipment and service parts furnished by 3M will be free of defects in material and manufacture upon installation. 3M MAKES NO OTHER WARRANTIES WITH RESPECT TO SUCH SERVICE AND ANY EQUIPMENT AND SERVICE PARTS FURNISHED BY 3M, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IF ANY FAILURE TO MEET THE FOREGOING WARRANTY APPEARS AND NOTICE THEREOF IS PROVIDED TO 3M'S NATIONAL SERVICE CENTER WITHIN THE TERM OF THIS AGREEMENT OR WITHIN THIRTY (30) DAYS FROM THE DATE SERVICE WAS PERFORMED, WHICHEVER IS LATER, 3M WILL CORRECTLY RE-PERFORM THE SERVICES IDENTIFIED OR REPLACE OR REPAIR, AT 3M'S OPTION, THE DEFECTIVE EQUIPMENT OR SERVICE PART PROVIDED. THE FOREGOING CONSTITUTES THE SOLE AND EXCLUSIVE REMEDY FOR BREACH OF THIS WARRANTY.

WITH RESPECT TO SERVICES EXCLUDED IN THE PRODUCT SPECIFIC ATTACHMENTS, AND WITH RESPECT TO SUPPLIES, SERVICE PARTS AND OTHER MATERIALS THAT MAY BE FURNISHED BY 3M PURSUANT TO SUCH EXCLUDED SERVICES, 3M MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

16. Limitation of Liability. 3M SHALL NOT BE LIABLE UNDER ANY CIRCUMSTANCES FOR ANY INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OR ECONOMIC LOSS, BASED UPON BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, STRICT LIABILITY IN TORT OR ANY OTHER LEGAL THEORY, EVEN IF 3M HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, REVENUE, EQUIPMENT USE, DATA OR INFORMATION OF ANY KIND. 3M SHALL NOT BE LIABLE FOR ANY LOSS OR DAMAGE CAUSED BY DELAY IN FURNISHING SERVICES UNDER THIS AGREEMENT. SOME STATES HAVE LAWS WHICH REQUIRE LIABILITY RIGHTS DIFFERENT FROM THOSE STATED IN THIS AGREEMENT. IN SUCH STATES, THE MINIMUM REQUIRED LIABILITY TERMS SHALL APPLY.

17. Force Majeure. Neither party shall be responsible for failure to comply with this Agreement due to causes beyond its reasonable control.

18. Notices. Service of all notices under this Agreement shall be in writing and sent by first class mail, postage prepaid, and addressed to the last known address of the party to be served. Notices sent by certified mail - return receipt requested - shall be presumed to have been received.

19. Assignment. This Agreement shall be binding on and inure to the benefit of the parties to it and their respective heirs, legal representatives, successors and assigns. 3M reserves the right to delegate its duties under this Agreement to one or more independent contractors, provided, however, that 3M will remain primarily responsible for performance of this Agreement in the event any such independent contractor fails to perform.

20. Releases Void. Customer shall not require waivers or releases of personal rights from representatives of 3M in connection with visits to Customer's premises pursuant to this Agreement, and no such release or waiver shall be pleaded by Customer or any third party in any action or proceeding.

21. Customer Misrepresentation. If Customer misrepresents any Equipment configuration whether or not intentionally, at 3M's option 3M may (a) adjust the Fees under this Agreement to reflect the actual Equipment configuration, or (b) exclude from coverage under this Agreement any Equipment for which 3M has not charged or has undercharged as a result of such misrepresentation. Customer represents that the Equipment is in good working order on the date of (or in the case of additional equipment, when added to) this Agreement. If 3M reasonably determines that any Equipment was not in good working order as represented, 3M may at its option adjust the Fees under this Agreement appropriately or charge Customer at 3M's then current rates for travel, labor and materials for any repairs required to place such Equipment in good working order.

22. Customer Orders. In connection with this Agreement, 3M may from time to time accept receipt of one or more purchase orders from Customer, may acknowledge such receipt by returning one or more acknowledgment copies, and may issue invoices against any such purchase order. Any such acts by 3M are for Customer's convenience only. The terms and provisions of this Agreement shall prevail over any conflicting or additional terms or provisions appearing in any purchase order or other instrument issued by Customer at any time in connection with this Agreement.

23. Counterparts. For convenience, 3M and Customer agree to execute only one original copy of this Agreement. Customer agrees to retain this original counterpart in its records, and to produce this original for reference by 3M upon 3M's request. 3M will retain in its records a photocopy of the original copy of this Agreement. 3M and Customer agree that in the event of a dispute between 3M and Customer, 3M may introduce this photocopy counterpart as if it were an executed original copy of this Agreement.

24. Miscellaneous. This Agreement shall be governed by the laws of the State of Minnesota, constitutes the entire agreement between the parties and supersedes and terminates any and all prior agreements and communications, whether written or oral, between the parties with respect to the subject matter of this Agreement. Customer agrees that it has not relied on any representation, warranty or provision, whether written or oral, not explicitly stated in this Agreement. This Agreement may not be modified or supplemented orally. No provision, condition or breach of this Agreement may be waived orally. Any such modification, supplement or waiver must be in writing and signed by a duly authorized representative of the party against whom enforcement is sought. Waiver of any default shall not constitute a waiver of any subsequent default.

MINNESOTA MINING AND MANUFACTURING COMPANY ("3M")agrees to furnish and customer agrees to accept and pay for maintenance service on the equipment listed on the above attachments. Maintenance service will be provided according to the terms and conditions set forth in this document and the terms and conditions of each listed attachment.

1. **Maintenance Service.** 3M agrees to provide to Customer:

(a) On-site remedial maintenance during On-Site Coverage Hours when 3M is notified that the Equipment is not in good working order. 3M will provide a toll-free telephone number for Customer to place, and 3M will receive, Equipment maintenance service calls twenty-four (24) hours per day, seven (7) days per week.

(b) On-site preventive maintenance based upon the specific needs of Individual Equipment, as determined by 3M.

(c) All labor, service parts and Equipment modifications 3M deems necessary to maintain the Equipment in good working order. All service parts will be furnished on an exchange basis, and will be new parts or parts of equal quality. For certain Equipment, 3M reserves the right to replace the entire unit with new equipment or equipment of equal quality when 3M determines that replacement is more economical than on-site repair. For certain Equipment, 3M also reserves the right to furnish replacement service parts and Equipment of another manufacturer where the replacement service parts and/or Equipment are reasonably determined by 3M to be functionally equivalent or better. All Equipment and service parts removed for replacement become the property of 3M.

If maintenance is available outside On-Site Coverage Hours, except as provided in the next paragraph there will be an additional charge to Customer for travel and labor at 3M's then current non-contract rates for maintenance service requested and performed outside On-Site Coverage Hours.

If a service technician arrives at Customer's site during On-site Coverage Hours to repair a failed unit of Equipment, and if the technician has not solved the problem by the end of On-Site Coverage Hours, a grace period is allowed during which Customer will not be charged for after-hours maintenance service. This grace period is a minimum of one (1) hour and a maximum of six (6) hours, computed by taking, the number of On-Site Coverage Hours elapsed since 3M's receipt of the service call and subtracting three (3) hours.

2. **Average Response Time.** With respect to each unit of Equipment covered by this Agreement, this Agreement indicates an average Response Time. During any one year term of this Agreement, for on-site remedial maintenance calls with respect to each unit of Equipment 3M will achieve the indicated average Response Time.

3. **Acceptance.** This Agreement is not binding unless and until it has been accepted in writing by the signature of an authorized representative of each of the parties. This is the sole and exclusive manner of acceptance. Any other promise or act, including a promise to perform maintenance service or the performance of any maintenance service, shall not constitute acceptance of this Agreement.

4. **Definitions.** As used in this Agreement, "Equipment" means the equipment listed in this Agreement, including non-optional components, accessories and peripherals, plus any additional equipment when added, as provided in Section 9; "On-Site Coverage Hours" means 3M's normal business hours in the area where the Equipment is located, plus any additional hours covered by any written agreement between 3M and Customer providing for after-hours maintenance service of the Equipment; and "Response Time", means the number of On-Site Coverage Hours elapsed between 3M's receipt of a service call and the arrival of a 3M service technician at Customer's location for the purpose of repairing the Equipment.

5. **Term and Termination.** The initial term of this Agreement is listed on each attachment of this Agreement. Unless otherwise indicated on each attachment of this Agreement, at the conclusion of the initial term this Agreement will automatically renew for successive one-year periods, until terminated by either party. All renewals will be at 3M's then current Basic Maintenance fees. Either party may terminate this Agreement upon thirty (30) days advance written notice to the other party (i) at the end of the initial term, (ii) any time after the initial term, or (iii) in the event the other party fails to comply with any of the terms and conditions of this Agreement.

6. **Fees.** Customer agrees to pay the Basic Maintenance Fee listed in this Agreement for services covered by this Agreement. For Equipment where a Zone Fee applies, Customer agrees to pay any Zone Fee listed in this Agreement. The Basic Maintenance Fee and Zone Fee may be changed by 3M effective on any renewal date of this Agreement.

7. **Travel.** The Basic Maintenance Fee includes, and 3M will make no additional charge for, travel expense associated with covered maintenance services performed during On-Site Coverage Hours.

8. **Additional Equipment.** Upon written agreement of the parties, additional equipment may be added to this Agreement. If the additional equipment is of the same model as the Equipment, Customer agrees to pay the pro rata portion of the Basic Maintenance Fee and the Zone Fee (if applicable) then in effect under this Agreement. If the additional equipment is of a different model than the Equipment, Customer agrees to pay the pro rata portion of 3M published Basic Maintenance Fee and Zone Fee (if applicable) in effect at the time the additional equipment is added to this Agreement and to execute any standard attachment(s) to this Agreement supplied by 3M and applicable to such additional equipment. To request that additional equipment be added to this Agreement, Customer shall issue a written request that references this Agreement, states the date on which maintenance service shall commence, and lists the product description, model, and serial number of the additional equipment to be covered by this Agreement. Equipment located outside the 48 contiguous states of the United States and the District of Columbia may not be added to this Agreement.

9. **Engineering Changes.** 3M will make engineering changes to Equipment if reimbursed by the Equipment manufacturer. Other engineering changes will be made at Customer's request at 3M's then current non-contract rates for travel, labor and materials.

10. Equipment Transfer. To assure continuous coverage of the Equipment, Customer shall provide written notice to 3M prior to any transfer of any Equipment to a location other than the location listed herein or most recently reported to 3M. Transfer of Equipment to a different service zone will result in an adjustment of Fees and/or average Response Time to the applicable rates for the new zone. Movement of any Equipment outside the 48 contiguous states of the United States and the District of Columbia excludes that Equipment from coverage under this Agreement.

11. Upgrades. To assure complete coverage of Customer's system, Customer agrees to notify 3M in writing within thirty (30) days of any upgrade made to any of the Equipment. There may be an additional charge for coverage for upgraded Equipment.

12. Access. Customer will provide 3M with full and free access to the Equipment, subject to Customer's reasonable security requirements. Customer shall provide 3M with prior written notice of Customer's security requirements.

13. Taxes. Except where Customer is exempt from such taxes, Customer agrees to pay any tax imposed on or in connection with the services to be performed and materials to be provided under this Agreement, exclusive of taxes based on net income. If Customer is exempt from any taxes, Customer will certify such exemption in a form as required by 3M prior to execution of this Agreement. Where Customer is permitted and agrees to pay such taxes directly to the taxing authority, Customer will certify such fact in a form as required by 3M prior to execution of this Agreement.

14. Invoicing. The Basic Maintenance Fee and the Zone Fee, as well as optional shift and response time buydown coverage (if applicable) will be invoiced in advance. Any other maintenance charges will be invoiced periodically in arrears. The Basic Maintenance Fee for a partial month's service will be pro rated on the basis of a thirty (30) day month. Payment will be made within the terms stated on the invoice.

15. Limited Warranty. 3M warrants that Equipment maintenance service performed under this Agreement by 3M will be performed competently and in accordance with industry practices, and Equipment and service parts furnished by 3M will be free of defects in material and manufacture upon installation. 3M MAKES NO OTHER WARRANTIES WITH RESPECT TO SUCH SERVICE AND ANY EQUIPMENT AND SERVICE PARTS FURNISHED BY 3M, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. IF ANY FAILURE TO MEET THE FOREGOING WARRANTY APPEARS AND NOTICE THEREOF IS PROVIDED TO 3M'S NATIONAL SERVICE CENTER WITHIN THE TERM OF THIS AGREEMENT OR WITHIN THIRTY (30) DAYS FROM THE DATE SERVICE WAS PERFORMED, WHICHEVER IS LATER, 3M WILL CORRECTLY RE-PERFORM THE SERVICES IDENTIFIED OR REPLACE OR REPAIR, AT 3M'S OPTION, THE DEFECTIVE EQUIPMENT OR SERVICE PART PROVIDED. THE FOREGOING CONSTITUTES THE SOLE AND EXCLUSIVE REMEDY FOR BREACH OF THIS WARRANTY.

WITH RESPECT TO SERVICES EXCLUDED IN THE PRODUCT SPECIFIC ATTACHMENTS, AND WITH RESPECT TO SUPPLIES, SERVICE PARTS AND OTHER MATERIALS THAT MAY BE FURNISHED BY 3M PURSUANT TO SUCH EXCLUDED SERVICES, 3M MAKES NO WARRANTIES, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

16. Limitation of Liability. 3M SHALL NOT BE LIABLE UNDER ANY CIRCUMSTANCES FOR ANY INCIDENTAL, SPECIAL OR CONSEQUENTIAL DAMAGES OR ECONOMIC LOSS, BASED UPON BREACH OF WARRANTY, BREACH OF CONTRACT, NEGLIGENCE, STRICT LIABILITY IN TORT OR ANY OTHER LEGAL THEORY, EVEN IF 3M HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, INCLUDING BUT NOT LIMITED TO LOSS OF PROFITS, REVENUE, EQUIPMENT USE, DATA OR INFORMATION OF ANY KIND. 3M SHALL NOT BE LIABLE FOR ANY LOSS OR DAMAGE CAUSED BY DELAY IN FURNISHING SERVICES UNDER THIS AGREEMENT. SOME STATES HAVE LAWS WHICH REQUIRE LIABILITY RIGHTS DIFFERENT FROM THOSE STATED IN THIS AGREEMENT. IN SUCH STATES, THE MINIMUM REQUIRED LIABILITY TERMS SHALL APPLY.

17. Force Majeure. Neither party shall be responsible for failure to comply with this Agreement due to causes beyond its reasonable control.

18. Notices. Service of all notices under this Agreement shall be in writing and sent by first class mail, postage prepaid, and addressed to the last known address of the party to be served. Notices sent by certified mail - return receipt requested - shall be presumed to have been received.

19. Assignment. This Agreement shall be binding on and inure to the benefit of the parties to it and their respective heirs, legal representatives, successors and assigns. 3M reserves the right to delegate its duties under this Agreement to one or more independent contractors, provided, however, that 3M will remain primarily responsible for performance of this Agreement in the event any such independent contractor fails to perform.

20. Releases Void. Customer shall not require waivers or releases of personal rights from representatives of 3M in connection with visits to Customer's premises pursuant to this Agreement, and no such release or waiver shall be pleaded by Customer or any third party in any action or proceeding.

21. Customer Misrepresentation. If Customer misrepresents any Equipment configuration whether or not intentionally, at 3M's option 3M may (a) adjust the Fees under this Agreement to reflect the actual Equipment configuration, or (b) exclude from coverage under this Agreement any Equipment for which 3M has not charged or has undercharged as a result of such misrepresentation. Customer represents that the Equipment is in good working order on the date of (or in the case of additional equipment, when added to) this Agreement. If 3M reasonably determines that any Equipment was not in good working order as represented, 3M may at its option adjust the Fees under this Agreement appropriately or charge Customer at 3M's then current rates for travel, labor and materials for any repairs required to place such Equipment in good working order.

22. Customer Orders. In connection with this Agreement, 3M may from time to time accept receipt of one or more purchase orders from Customer, may acknowledge such receipt by returning one or more acknowledgment copies, and may issue invoices against any such purchase order. Any such acts by 3M are for Customer's convenience only. The terms and provisions of this Agreement shall prevail over any conflicting or additional terms or provisions appearing in any purchase order or other instrument issued by Customer at any time in connection with this Agreement.

23. Counterparts. For convenience, 3M and Customer agree to execute only one original copy of this Agreement. Customer agrees to retain this original counterpart in its records, and to produce this original for reference by 3M upon 3M's request. 3M will retain in its records a photocopy of the original copy of this Agreement. 3M and Customer agree that in the event of a dispute between 3M and Customer, 3M may introduce this photocopy counterpart as if it were an executed original copy of this Agreement.

24. Miscellaneous. This Agreement shall be governed by the laws of the State of Minnesota, constitutes the entire agreement between the parties and supersedes and terminates any and all prior agreements and communications, whether written or oral, between the parties with respect to the subject matter of this Agreement. Customer agrees that it has not relied on any representation, warranty or provision, whether written or oral, not explicitly stated in this Agreement. This Agreement may not be modified or supplemented orally. No provision, condition or breach of this Agreement may be waived orally. Any such modification, supplement or waiver must be in writing and signed by a duly authorized representative of the party against whom enforcement is sought. Waiver of any default shall not constitute a waiver of any subsequent default.

Dear Hon. Stavinoha:

In reviewing our records, it is noted that the present encumbrances on the subject project exceed Fort Bend County's escrow contribution of $10,000 by $6,853 thereby necessitating a request for additional funds.

Inasmuch as acquistion has not been completed, it has been determined that additional funds will be needed on the above subject project. Accordingly, it is hereby requested that $11,000 be provided for this project.

Since further obligations are being deferred pending action of this request, you prompt attention will be greatly appreciated.

Re: Fort Bend County Housing Finance Corporation

Dear Commissioner Prestage:

Enclosed are the documents for the Amendment of the Articles of Incorporation of the Fort Bend County Housing Finance Corporation. The following documents are enclosed:

1. *Articles of Amendment (3 originals);*

2. *Resolution Rescinding Action Taken July 1, 1991 (2 originals);*

3. *Resolution Approving Amendment (2 originals).*

The documents should be executed and notarized as indicated. Two executed originals of the Articles of Amendment and one executed original of both of the Resolutions should be returned to me.

The original Articles of Incorporation for the Fort Bend County Housing Finance Corporation were filed with the Secretary of State of the State of Texas on June 11, 1980. Upon a review of the original Articles of Incorporation it appears that the preferable method for incorporating the necessary revisions is to amend the original articles. While we had discussed dissolving the corporation formed in 1980, Section 394.026 of the Housing Finance Corporations Act (the "Act") provides for the dissolution of a corporation formed under the Act by its Board of Directors. Since the original Board of Directors is no longer available to approve the dissolution, there appears to be no way to comply with the provisions of the Act regarding dissolution without the extras step of appointment of new Board members. However, Section 394.016 of the Act provides for amendment of the Articles of Incorporation by the governing body of

SEP 19 1991

the local government. We have discussed the procedure for this amendment with an attorney in the Office of the Secretary of State and have received her approval of the enclosed form of amendment. Such amendment adopts the approved July 1, 1991 Articles, including the new Board members in whole.

Once we have received the executed documents we will handle the filing of the Articles of Amendment. The attorney with the Office of the Secretary of State who reviewed the Articles of Amendment has offered to "walk them through" to prevent any further delay.

Please do not hesitate to call me at 713/758-2055 if you have any questions regarding this matter.

Very truly yours,

Elizabeth Nunnelee

FORT BEND COUNTY COMMUNITY JUSTICE COUNCIL
401 JACKSON STREET
RICHMOND, TEXAS 77469

September 19, 1991

The Honorable Roy Cordes, Jr.
County Judge
Fort Bend County
501 Jackson, Suite 103
Richmond, Texas 77469

RE: Recommendation of the Fort Bend County Community Justice Council

Dear Judge Cordes:

At the most recent meeting of the Fort Bend County Community Justice Council, discussion occurred concerning the community service ordered for probationers in this County. It was brought out that the availability of community service in the County is limited and that there has been some difficulty in finding sufficient sources of community service for probationers who are sentenced to community service as part of their probation term.

It was explained that once a probationer is ordered to complete community service as a condition of probation, the Adult Community Supervision and Corrections Department attempts to find suitable sources in the County for completion of community service. A probationer is given credit at the rate of four to five dollars per community service hour for services performed under the community service provision.

Representative Jim Tallas then moved-which was unanimously passed-that the undersigned communicate with Commissioners Court that it is the recommendation of the Fort Bend County Community Justice Council that the County use community service probationers as much as possible within the County. This letter serves as that communication.

A discussion then ensued as a result of that motion, concerned with the several hundreds of hours that community service probationers could provide to the County for various work projects around the county such as; clean-up of the fair grounds during the fair and rodeo and throughout the year; cleaning of ditches and roadways; service around the County at County facilities for clean-up, painting and repair projects.

The Council urges that the Judge and Commissioners contact Mr. Al Dobson, Chief of the Adult Community Supervision and

Corrections Department regarding the availability of community service probationers and the scheduling of their service. Mr. Dobson has the capabilities, through his office, of scheduling of these probationers with the County and assuring that they comply with the directions of County supervisors. We would point out that these are not prisoners but are probationers who do not require the use of Sheriffs Department personnel. If you have any questions, please feel free to contact the undersigned or Mr. Al Dobson.

Re: 1991 Revenue Refunding Bonds (Pavilion Place Apartments Project)

As has become familiar to you, the rules of the State Attorney General's Office requires the Corporation to obtain new certificates or verification of previously submitted certificates of each of the sponsoring political subdivisions of the Corporation each time a new bond issue is submitted to the Attorney General's Office.

We are now in the process of refinancing the Pavilion Place Apartments Project which was originally purchased and financed by the Corporation in March 1990. Refinancing at a lower rate has always been contemplated and will be accomplished with this current refunding of the bond issue. In addition, additional proceeds will be borrowed to complete the successful renovation of additional units, increase reserves and reimburse the Corporation for certain expenses.

You will also recall that in connection with the first series of revenue refunding bonds for the Corporation's most recent single family program, you completed and signed a certificate, a copy of which is enclosed for your review. In connection with this new bond issue, the Corporation is required to obtain verification that the information previously certified by each sponsoring political subdivision is still correct or obtain a corrected certificate containing new information. Therefore, please review the enclosed certificate and, if the information shown on the certificate is correct, so indicate by checking the appropriate block and signing the certificate in the place provided.

In the event the information has changed or the certificate is incorrect, please make a note of the needed correction in the space provided on the signature page and sign in the appropriate place. In either case, the certificate or change may be signed by you or an official of the sponsoring political subdivision in possession of the information requested and in any case the signed certificate should be returned to me as soon as possible.

If you have any questions, please call me at (713) 487-8772.

As with all bond issues of the Corporation, your governmental units is not in any way liable or responsible for payment of these bonds. These bonds are revenue bonds which are payable solely from the revenues of the Corporation derived from the Project financed with the bonds.

If you have any questions, please feel free to telephone me at the number stated above or Andy Johnson, our attorney, at (713) 448-8363. Thank you in advance for your cooperation.

Sincerely,

Bill Eiland

RE: Waiver of Penalty and Interest - Orlando Peccora, M.D.
Account 3780-03-010-2030-901
Precinct #4

Dr. Peccora is requesting waiver of penalty, interest, and attorney fees on the above referenced account for tax year 1990.

On 1-7-91, the tax office corrected the ownership and mailing address on this account per Central Appraisal District to:

Peccora, Orlando & Liliana
1510 Mayweather Lane
Richmond, Texas 77469.

This address is reflected on Dr. Peccora's deed and is currently reflected on the Central Appraisal District terminal.

A 1990 tax statement was mailed to Dr. Peccora allowing over 21 days to pay the 1990 taxes without being assessed for penalty and interest. Second notices were also mailed on May 31, 1991.

Breakdown of Taxes Paid:

Base Tax	$350.33
Penalty and Interest	66.57
Attorney Fees	62.54
Total Paid	$479.44

I do not recommend waiver as there is no evidence of error on the part of the tax office or the Central Appraisal District.

Mission Statement

Our mission begins with the evaluation and development of our client's plan objectives which we strive to attain within the framework of their abilities and limitations. Plan efficiency can be achieved through the implementation of innovative administrative services, managed health care programs, and premium funding concepts. We cannot control all of the factors responsible for soaring medical cost. Our strategy is to build financial assets by minimizing unnecessary plan expenditures and banking financial gains which results from favorable claims experience. Those assets, in turn, can be used to minimize adverse experience thus achieving cost stabilization over time.

Dear Judge Cordes:

The Fort Bend Juvenile Probation Department is required to advertise for procurement of Juvenile Services for FY92 as mandated by state guidelines before expenditures of state funds. This process was reviewed in 1990 by the county purchasing department and they authorized the advertising of these services through our department. A copy of the advertisement will first be reviewed by the purchasing department before submittal to personnel for publishing. It is therefore respectfully requested that Commissioners Court allow the Fort Bend Juvenile Probation Department to advertise for these services from October 7, 1991 through November 15, 1991.

In December of this year these service providers will be submitted to the Juvenile Board for their approval or disapproval. In turn, the list of providers and contracts will be presented to this court in late December or early January 1992 for consideration and final acceptance.

Sincerely,

RE: Order Calling County Jail and Juvenile Detention Bond Election

Gentlemen:

Enclosed for your review and information is the revised version of the Order Calling the November 5, 1991 County Jail and Juvenile Detention Facilities Bond Election. I direct your attention to the bond proposition, which is found on page 19. The proposition has been revised to address certain concerns raised by the Court at the Monday, September 16, 1991 meeting. Please note we have revised this order from what was read to you at the meeting to include specifics regarding types of facilities to be constructed and to allow for the issuance of up to $33,000,000 in bonds in one or more series. The only remaining information to be included in the final Order are the polling places still incomplete and names of certain presiding judges. We are awaiting this information from the County Clerk's office.

It is always a pleasure to work for Fort Bend County. Please feel free to call me at 758-3856, or Joe B. Allen at 758-2674 if you have any questions regarding the enclosed election Order.

Sincerely,

Lynne B. Humphries

W H E R E A S, the lack of available prison space has caused the early release of violent criminals and is threatening the public safety, and;

W H E R E A S, studies show that drug abuse fuels crime, as evidenced by the fact that 85 percent of all Texas inmates have a history of substance abuse, and;

W H E R E A S, numerous county jails in Texas are grossly overcrowded because the Texas Department of Criminal Justice lacks adequate capacity and cannot accept these felons;

NOW, THEREFORE, BE IT RESOLVED that the County of Fort Bend does hereby support and encourage the passage of Proposition 4 on the November 5, 1991 ballot granting authority to the state to issue bonds to build 13,500 new prison beds and 12,000 new beds dedicated for substance abuse treatment of non-violent drug offenders.

ADOPTED this the 7 day of October, 1991.

RE: Retirement Credit for Military Time

Dear Judge Cordes:

From June 1, 1970 to June 3, 1971 I was employed by the Harris County Juvenile Probation Department. During that time I began contributing to the Texas County and District Retirement System through the standard 7% payroll deduction.

On June 3, 1971, I was drafted into the United States Army and proudly served, during the Vietnam Era, until March 1973. After being honorably discharged I exercised my lawful option to return to my employer at the time that I was drafted.

I recently verified with the Texas County and District Retirement System that I am entitled to buy, through my current employer, Fort Bend County, twenty-two (22) months of retirement credit earned while I was in the military. The retirement system has verified that I am entitled to this credit because I was drafted during the Vietnam war.

To receive this credit there must be a contribution from the employee and the employer. The amount of this contribution is $330.00 each. I am respectfully requesting that you approve twenty-two (22) months of military credit to my retirement account, along with a $330.00 contribution from Fort Bend County.

Your consideration would be greatly appreciated. Please contact me if you have any questions concerning this request.

Respectfully,

Dennis A. McAfee

State Funded Well Plugging and Water Protection

Why the Well Plugging Problem Won't Go Away

RAILROAD COMMISSION OF TEXAS

Kent Hance, Chairman
John Sharp, Commissioner
James E. (Jim) Nugent, Commissioner

Prepared by

Jim Morrow
David Garlick
Willis Steed

AS PER ORIGINAL

EXECUTIVE SUMMARY

What is the problem?

- We have identified three categories of problem wells (detailed explanations of these categories are explained within the report).

  -- Known Problems

  Consists of 8,867 wells identified as problems. Estimated plugging cost is $53,000,000.

  -- Suspected Problems

  Consists of 40,000 - 50,000 wells that are currently on our records as shut-in, non-producing or producing less than 3 barrels daily. Estimated plugging cost is $250-300 million.

  -- Unknown Problem Wells

  These are wells drilled and abandoned before records were maintained or that were lost from the records over the last 70 years.

  Since these wells are not on our records, defining a potential size for problem wells is difficult. There are some known data that can give some insights into the problem.

  -- To date 11.3% of the wells plugged with state funds have been unknown. If we plug 50,000 known problems then we would have 5,600 unknown problem wells by extension. This would cost $33,600,000.

  -- The following leads us to conclude that 5,600 represents a minimum floor for this group of wells. First, for years we have estimated that Texas had one million holes drilled. We currently have computer records on 614,000 well bores. This implies that there are 386,000 unknown wells, that is, we do not know if they have been plugged.

  Unfortunately, recent conversations with Petroleum Information indicate that they have actual records on 1,300,000 well bores in Texas. This gloomy fact implies that there are 686,000 unknown wells.

How much money will it take?

- Funding of $4.5 million per year represents the minimum functional level for well plugging efforts. This will address the currently 8,800 known problem wells through 12 years work. Since drilling permits and other income will provide $2-2.5 million, the balance must come from other sources.

- Funding of $10 million per year represents the most effective functional level. This program level would solve the known problem wells and allow solution of the suspected problem wells over the next 20 - 30 years.

How long will the casing last?

This is a critical factor in well plugging. The casing is the primary factor in preventing pollution, unfortunately it corrodes over time. Our engineers tell us that casing lasts only a few years in corrosive areas. In some non-corrosive areas it has been pulled after 75 years and looks like new. Probably for most areas of the state a 20 year life is what can be expected.

Our best data on casing life is from the East Texas Field. East Texas is unique in that wells with casing leaks can transfer their allowable to another capable well. Since the field was drilled in the early 1930's we have a good base line. By 1966 casing leaks were a large enough problem for the transfer program to be put into effect. In total 964 wells have used this program. Peak numbers in this program occurred approximately 40 years after drilling. For East Texas, with no extraordinary corrosive difficulties approximately 3% of the casing failed in 40 years as shown by this program.

Further, district records indicate an additional 2,880 wells have had their casing repaired. In all 12.4% of East Texas casing has failed.

How old are Texas wells?

Of the known wells, 487,000 are more than 20 years old, and 132,000 are more than 40 years old. Unfortunately, most of the unknown wells will be more than 40 years old. If half of the unknown wells are improperly plugged then there may be as many as 15,000 active polluting wells in Texas if only 12.4% of the casings have failed.

For those interested, within the detailed report we have overviews that show how a well is plugged and how it can cause pollution.

Why we need an emergency reserve?

The most expensive well plugging we are familiar with required over $30,000,000. In this case we were fortunate that the well was owned by an operator with sufficient assets to handle the problem. We may not be as fortunate in the future.

AS PER ORIGINAL

I. How big is the well plugging problem?

A. Known Problems

1. We have 303 wells that have been investigated and approved by the Commissioners for plugging.

2. We have 5,881 wells in 2,759 pending cases that are on the way to approval through our Legal Enforcement sections.

3. We have 8,366 wells owned by 1,747 operators who have quit filing reports and are presumed to have walked away from their interests. A sample of this group shows that 50% of this group is already in our enforcement process. Net problem wells are estimated at 2,683.

Summary of Known Problems -- 8,867 wells with estimated plugging costs of $53,202,000.

B. Suspected Problems

With the price decline and resulting decrease in revenu available to small operators, it is apparent that abandonments of wells will increase.

- Since March, 1986 number of wells classified as "active" but reporting no production has increased by 4,300 to 14,000.

- There are 64,000 shut-in and inactive wells. 29,000 of these have a plugging extension and are considered okay. The other 35,000 are probably in violation of our rules. We recently completed a trial sample of 109 wells in this group and found that 42.21% of the wells would not or could not be brought into compliance by the perators. If this small, random sample is meaningful, t a this group may contain 14,773 problem wells. Estimated cost to plug would be $88,000,000.

- There are 91,957 wells reporting an average of 3 barrels per day or less of production. These wells live on the knife's edge of profitability as do many of the companies owning them. Unfortunately, if these companies continue or shutdown they may not have the resources to plug. If we conservatively estimate that 2/3 of these wells are plugged by viable operators, 30,000 would remain a state liability. Estimated plugging liability would approximate $180,000,000. How imminent is this problem? The answer is unknown, but of the 91,957 wells making 3 or less 59,039 make 1 or less per day and 13,015 wells in November 1986 averaged 1/10 BBL/day or less. Even at $20/BBL the gross income from these wells is $60 per month.

Summary of Suspected Problems -- While nebulous, the sketchy facts available point to a possible suspected problem group in the 40-60,000 well range with estimated plugging costs in the area of $250-300 million.

C. Unknown Problem Wells

These are wells drilled and abandoned before records were maintained or that were lost from the records over the last 70 years.

Since these wells are not on our records, defining a potential size for problem wells is difficult. There are some known data that can give some insights into the problem.

- To date 11.3% of the wells plugged with state funds have been unknown. If we plug 50,000 known problems then we would have 5,600 unknown problem wells by extension. This would cost $33,600,000.

We currently have computer records on 614,000 well bores. This implies that there are 386,000 unknown wells, that is, we do not know if they have been plugged.

  Unfortunately, recent conversations with Petroleum Information indicate that they have actual records on 1,300,000 well bores in Texas. This gloomy fact implies that there are 686,000 unknown wells.

  Our historical records indicate that 403,000 Texas wells have been plugged. Even here problems may appear, however. The first requirements for protection of fresh water while plugging were not passed until the mid 1960's. By todays standards the majority of wells that have been plugged do not provide as much protection as is required now. We are finding instances where wells that were properly plugged for their time are becoming pollution sources.

RE: APPLICATION OF WESTERN GAS RESOURCES STORAGE, INC. FOR AUTHORITY TO OPERATE THE FULSHEAR (HILLEBRENNER) FIELDS AS A NATURAL GAS STORAGE FIELD IN FORT BEND COUNTY, TEXAS

RAILROAD COMMISSION OF TEXAS OIL AND GAS DOCKET NO. 3-96,354

DEAR ALTON PRESSLEY,

THIS PACKAGE CONTAINS PETITIONS SIGNED BY SOME OF THE HOME OWNERS AND PROPERTY OWNERS WITHIN THE SERVICE LIST OF THE ABOVE REFERENCED DEPLETED OIL FIELD. THEY REPRESENT FAMILIES THAT ARE ESTABLISHED, AND CONTRIBUTE TO THE KATY AND HOUSTON AREA. WE ARE IN TROUBLE. WE NEED YOUR HELP AND SUPPORT.

WE ARE BEING THREATENED BY A COLORADO CORPORATION WHO IS SAYING THEY ARE NOW A TEXAS CORPORATION. THE PURPOSE FOR THEIR BECOMING A TEXAS CORPORATION WAS IN ORDER TO ACQUIRE THE PROPER APPLICATIONS AND PERMITS TO OPERATE A NATURAL GAS STORAGE FIELD. THERE WERE SEVERAL SIGHTS THEY WERE LOOKING AT. THIS BEING THE SHORTEST DISTANCE TO THE TEN MAJOR GAS LINES TO ATTACH TO. IT WAS CHOSEN.

THE INJECTION SIGHT OF 12 ACRES WILL HAVE NINE LARGE BORE WELLS DRILLED AND EACH WILL HAVE A 1,400 HORSEPOWER INJECTION PUMP WITH IT. IT WILL BE A "HUB" FOR THE SURROUNDING PIPELINES. ONE PROBLEM: IT IS THE DEAD CENTER OF WHERE ALL THESE PEOPLE LIVE. WHY DIDN'T A TEXAS OIL COMPANY TAKE PART IN THIS? THEY KNEW BETTER.

TEXAS OIL COMPANIES KNEW THAT THEIR TEXAS ELECTED OFFICIALS WOULD NOT ALLOW THEIR CONSTITUENTS TO BE PREYED UPON FOR PROFIT. TO ENABLE THEM TO BUY LOW AND SELL HIGH TO STATES UP NORTH WHILE THE PEOPLE RISK WATER WELLS AND QUALITY OF LIFE.

WE ARE IN TROUBLE AND WE ARE LOOKING TO YOU FOR HELP.

RECORDER'S MEMORANDUM

This page is not satisfactory for photographic recordation due to carbon or photo copy, discolored paper, etc. All block-outs, additions and changes were presented at time instrument was filed and recorded.

SPECIAL PROVISIONS

C-19873

1. This permit covers only those sources of emissions listed in the attached table entitled "Emission Sources - Maximum Allowable Emission Rates," and those sources are limited to the emission limits and other conditions specified in that attached table.

2. Fuel fired in the reciprocating compressor engines and the reboilers is limited to pipeline quality sweet natural gas containing no more than 0.25 grains hydrogen sulfide and 5.0 grains total sulfur per 100 dry standard cubic feet. The use of any other fuel will require a modification to this permit.

3. Opacity of emissions from the facility must not exceed 5 percent averaged over a 6-minute period, except for those periods described in Rule 111.111(a)(1)(E) of Regulation I. The opacity shall be determined by Environmental Protection Agency (EPA) Reference Method 9.

4. The emissions from the Waukesha 7042 GL lean-burn compressor engines at this site are limited as follows:

   Nitrogen Oxides (NO_x) - 2.0 g/hp-hr (253.2 ppmv).
   Carbon Monoxide (CO) - 2.6 g/hp-hr (540.5 ppmv).

   All measured emission concentrations shall be reported on a wet basis corrected to 15% oxygen (O_2).

5. The holder of this permit shall perform stack testing to establish the actual pattern and quantities of air contaminants being emitted into the atmosphere from two of the four Waukesha L-7042 GL compressor engines. If any engine tested exceeds any applicable emission limit of this permit, then all engines shall be tested. The holder of this permit is responsible for providing testing facilities and conducting the testing operations at his expense.

   Gaseous sampling ports for the engine shall consist of 1 two-inch diameter or larger schedule 40 coupling or 1 three-inch long pipe nipple installed in the exhaust system according to EPA Method 1 at a location where the full flow to the engine exhaust exists by the sampling point and where sufficient turbulence (no stratification) may be expected to insure a representative sample.

RECORDER'S MEMORANDUM

This page is not satisfactory for photographic recordation due to carbon or photo copy, discolored paper, etc. All block-outs, additions and changes were presented at time instrument was filed and recorded.

Sampling platform(s) shall be incorporated into the design of the engine stacks according to the specifications set forth in the attachment entitled "Chapter 2, Stack Sampling Facilities." Alternate sampling facility designs may be submitted for approval by the Regional Director or the Director of the Quality Assurance Division.

A. The appropriate TACB regional office in the region where the source is located shall be contacted as soon as testing is scheduled but not less than 45 days prior to sampling to schedule a pretest meeting.

The notice shall include:

1. Date for pretest meeting.
2. Date sampling will occur.
3. Name of firm conducting sampling.
4. Type of sampling equipment to be used.
5. Method or procedure to be used in sampling.
6. Procedure to be used to determine engine horsepower load during sampling period.

The purpose of the pretest meeting is to review the necessary sampling and testing procedures, to provide the proper data forms for recording pertinent data and to review the format procedures for submitting the test reports.

A written proposed description of any deviation from sampling procedures specified in permit provision or TACB or Environmental Protection Agency (EPA) sampling procedures shall be made available to the TACB prior to the pretest meeting. The Regional Director or the Director of the Quality Assurance Division shall approve or disapprove of any deviation from specified sampling procedures.

Requests to waive testing for any pollutant specified in D of this provision shall be submitted to the TACB Permits Division. Test waivers and alternate/equivalent procedure proposals for New Source Performance Standard (NSPS) testing which must have EPA approval shall be submitted to the TACB Quality Assurance Division in Austin.

RECORDER'S MEMORANDUM
This page is not satisfactory for photographic recordation due to carbon or photo copy, discolor... ...ver, etc. All block-outs, additions and changes were presented at time instrument was filed and recorded.

B. Air contaminants emitted from the engines to be tested for include but are not limited to NO_x, NO, CO, VOC and O_2. In addition, the NO to NO_x ratio shall be at full load.

Engine emissions shall be determined by EPA Methods 1, 2, 3, 4, 10 and 20 (as modified by proposed NSPS, Subpart FF, Paragraph 60.324, entitled "Test Methods and Procedures," for the sampling site location, traverse points and required engine operating data) or any other methods approved by the Regional Director or the Director of the Quality Assurance Division prior to sampling.

Emissions shall be sampled at four points over the normal load range of the engine, including the minimum and maximum of the speed range. At each test load, the following operating parameters shall be varied to identify the range over which the allowable emission limits are not exceeded: air-fuel ratio, as measured by exhaust oxygen content, inlet air temperatures and pressure, engine speed and spark ignition timing.

In an effort to be representative of normal operating conditions, no other engine adjustments shall be made during the compliance sampling period. The nature of all engine adjustments shall be clearly described in the sampling report.

The NO_x concentration limit of the proposed Subpart FF is not applicable and hence the correction to 15 percent O_2 specified in Method 20 and Subpart FF is not applicable to the engine tests. The NO_x emission level measured by Reference Method 20 shall be adjusted to reference ambient conditions in accordance with Section 60.324 of the proposed NSPS Subpart FF and reported. The unadjusted NO_x emission level shall be used to determine compliance with the brake-specific emission limit of this permit.

C. Sampling shall occur within 60 days after initial start-up of the facilities and at such other times as may be required by the Executive Director of the TACB. Requests for additional time to perform sampling shall be submitted to the regional office. Additional time to comply with the applicable

RECORDER'S MEMORANDUM

requirements of 40 CFR 60 and 40 CFR 61 requires EPA approval and requests shall be submitted to the TACB Quality Assurance Division in Austin.

D. The plant shall operate at maximum production rates during stack emission testing. Primary operating parameters that enable determination of production rate shall be monitored and recorded during the stack test. These parameters are to be determined at the pretest meeting. If the plant is unable to operate at maximum rates during testing, then additional stack testing may be required when higher production rates are achieved.

E. For test purposes only, the holder of this permit may operate the compressor engines outside their proposed operating range during the initial performance test only, solely for the purpose of determining the compliance operating range of the engines. Exceedances of the emission limitations of Special Provisions No. 1 and 4 which may occur while testing is performed shall no be a violation of this permit. The emission limitations of Special Provisions No. 1 and 4 are applicable at all other times.

G. Three copies of the final sampling report shall be forwarded to the TACB within 30 days after sampling is completed. Sampling reports shall comply with the attached provisions of Chapter 14 of the TACB Sampling Procedures Manual. The reports shall be distributed as follows:

One copy to the TACB Corpus Christi Regional office.
One copy to the Quality Assurance Division, Austin
One copy to the Permits Program in Austin.

6. For the Waukesha L-7042 GL compressor engines, speed and horsepower shall be maintained in the range determined by the sampling required in Special Provision No. 5B to result in emissions compliance. Upon approval of the Executive Director of the TACB, following receipt of the sampling test results, the speed and horsepower limits on Figure 1 may be modified. The following engine parameters shall be sampled once per hour and shall not exceed the following limits:

Fuel Header Pressure	65 psig	41 psig
Engine Speed	330 rpm	290 rpm
Air/Fuel Ratio	0.619 In. Hg/psig	0.595 In. Hg/psig

7. In order to demonstrate that the emission limits specified in Special Provisions No. 1 and 4 are continuously met, the holder of this permit shall perform the following:

   A. Conduct a quarterly evaluation of engine performance at full load and speed for each engine by measuring the nitrogen oxides, carbon monoxide and oxygen content of the exhaust. The initial evaluation shall be conducted within 60 days after start-up of the engine. The use of portable analyzers specifically designed for measuring the concentration of each contaminant in ppm is acceptable for this evaluation. A hot air probe or equivalent should be used with the portable analyzers to prevent introduction of error in results because of high stack temperatures. Three sets of measurements should be averaged to determine the concentrations. Prior to and following the measurements the portable analyzer shall be checked for accuracy using an audit gas that conforms to the specifications in 40 CFR 60 Appendix F 5.1.2 (3). Any other method approved by the Regional Director or the Director of the Quality Assurance Division is also acceptable.

   B. The NO_x emission rate shall be determined from the nitrogen oxide values determined in Special Provision No. 7A and the NO to NO_x ratio determined in Special Provision No. 5B.

   C. The quarterly testing required in Special Provision No. 7A shall be used in conjunction with the methods required in Special Provision No. 6 for demonstrating continuous compliance with Special Provision No. 1.

RECORDER'S MEMORANDUM
This page is not satisfactory for photographic recordation due to carbon or photo copy, discoloration of paper, etc. All block-outs, additions and changes were presented at time instrument was filed and recorded.

Emissions shall be measured and recorded in the as-found operating condition, except no compliance determination shall be established during startup, shutdown or under breakdown conditions. Emission rates shall be reported in ppmv and corrected to the oxygen content listed in Special Provision No. 4, in brake specific units of g/hp-hr and in units of lb/hr.

8. Written records of the results of all quarterly compliance testing required in Special Provision 7A shall be made and maintained at the plant site by the holder of this permit on a two-year rolling retention basis and shall be made available to designated representatives of the TACB, EPA or any local air pollution control program having jurisdiction upon request.

9. The holder of this permit shall submit to the TACB Regional Office and the TACB Permits Division in Austin, annual reports. Such reports are required for each emission unit which is subject to Special Provision 7.

   A. Each report shall contain the results of the quarterly tests required in Special Provision 7A.

   B. Each report shall contain the hours of operation of the engine and a summary of the periods of emissions exceedances and downtimes by cause.

   C. When no excess emissions or air pollution control equipment failures or adjustments have occurred, such information shall be stated in the report.

   D. For the Waukesha L-7042 GL compressor engines an emissions exceedance of NO_x and CO are defined as each one hour period during any day of operation during which the engine parameters monitored pursuant to Special Provision No. 7 are outside of the compliance operating limits. Noncomplying emissions of NO_x and CO are also defined as any quarterly measurement which exceeds 150 ppmv and 245 ppmv respectively at full load and full speed.

EMISSION SOURCES - MAXIMUM ALLOWABLE EMISSION RATES

C-2Ø9Ø7

This table lists the maximum allowable emission rates and all sources of air contaminants on the applicant's property covered by this permit. The emission rates shown are those derived from information submitted as part of the application for permit and are the maximum rates allowed for these facilities. Any proposed increase in emission rates may require an application for a modification of the facilities covered by this permit.

A.
INTRODUCTION

The Katy Gas Storage Project is primarily a natural gas compressor station. The compression equipment is used to transfer gas between local gas transmission pipelines and to inject gas into the gas storage reservoir. The proposed location for the compressor station is on an 80 acre site owned by Western Gas Resources Storage, Inc., located approximately 2 miles southeast of Katy, Fort Bend County, Texas. An area map, a site map, and a plot plan are provided as Figures A-1, A-2 and A-3 respectively.

Western Gas Resources Storage, Inc., a Texas Corporation, is a wholly owned subsidiary of Western Gas Resources, Inc., a Delaware Corporation.

The Katy Gas Storage Project will be a new installation comprised of 9 compressors, dehydration equipment, an emergency flare, and the necessary support equipment required for proper operation.

The new sources proposed to be installed by Western Gas Resources Storage, Inc. are:

- Nine compressor engine stacks
- Two dehydrator reboiler stacks
- One ground level emergency flare

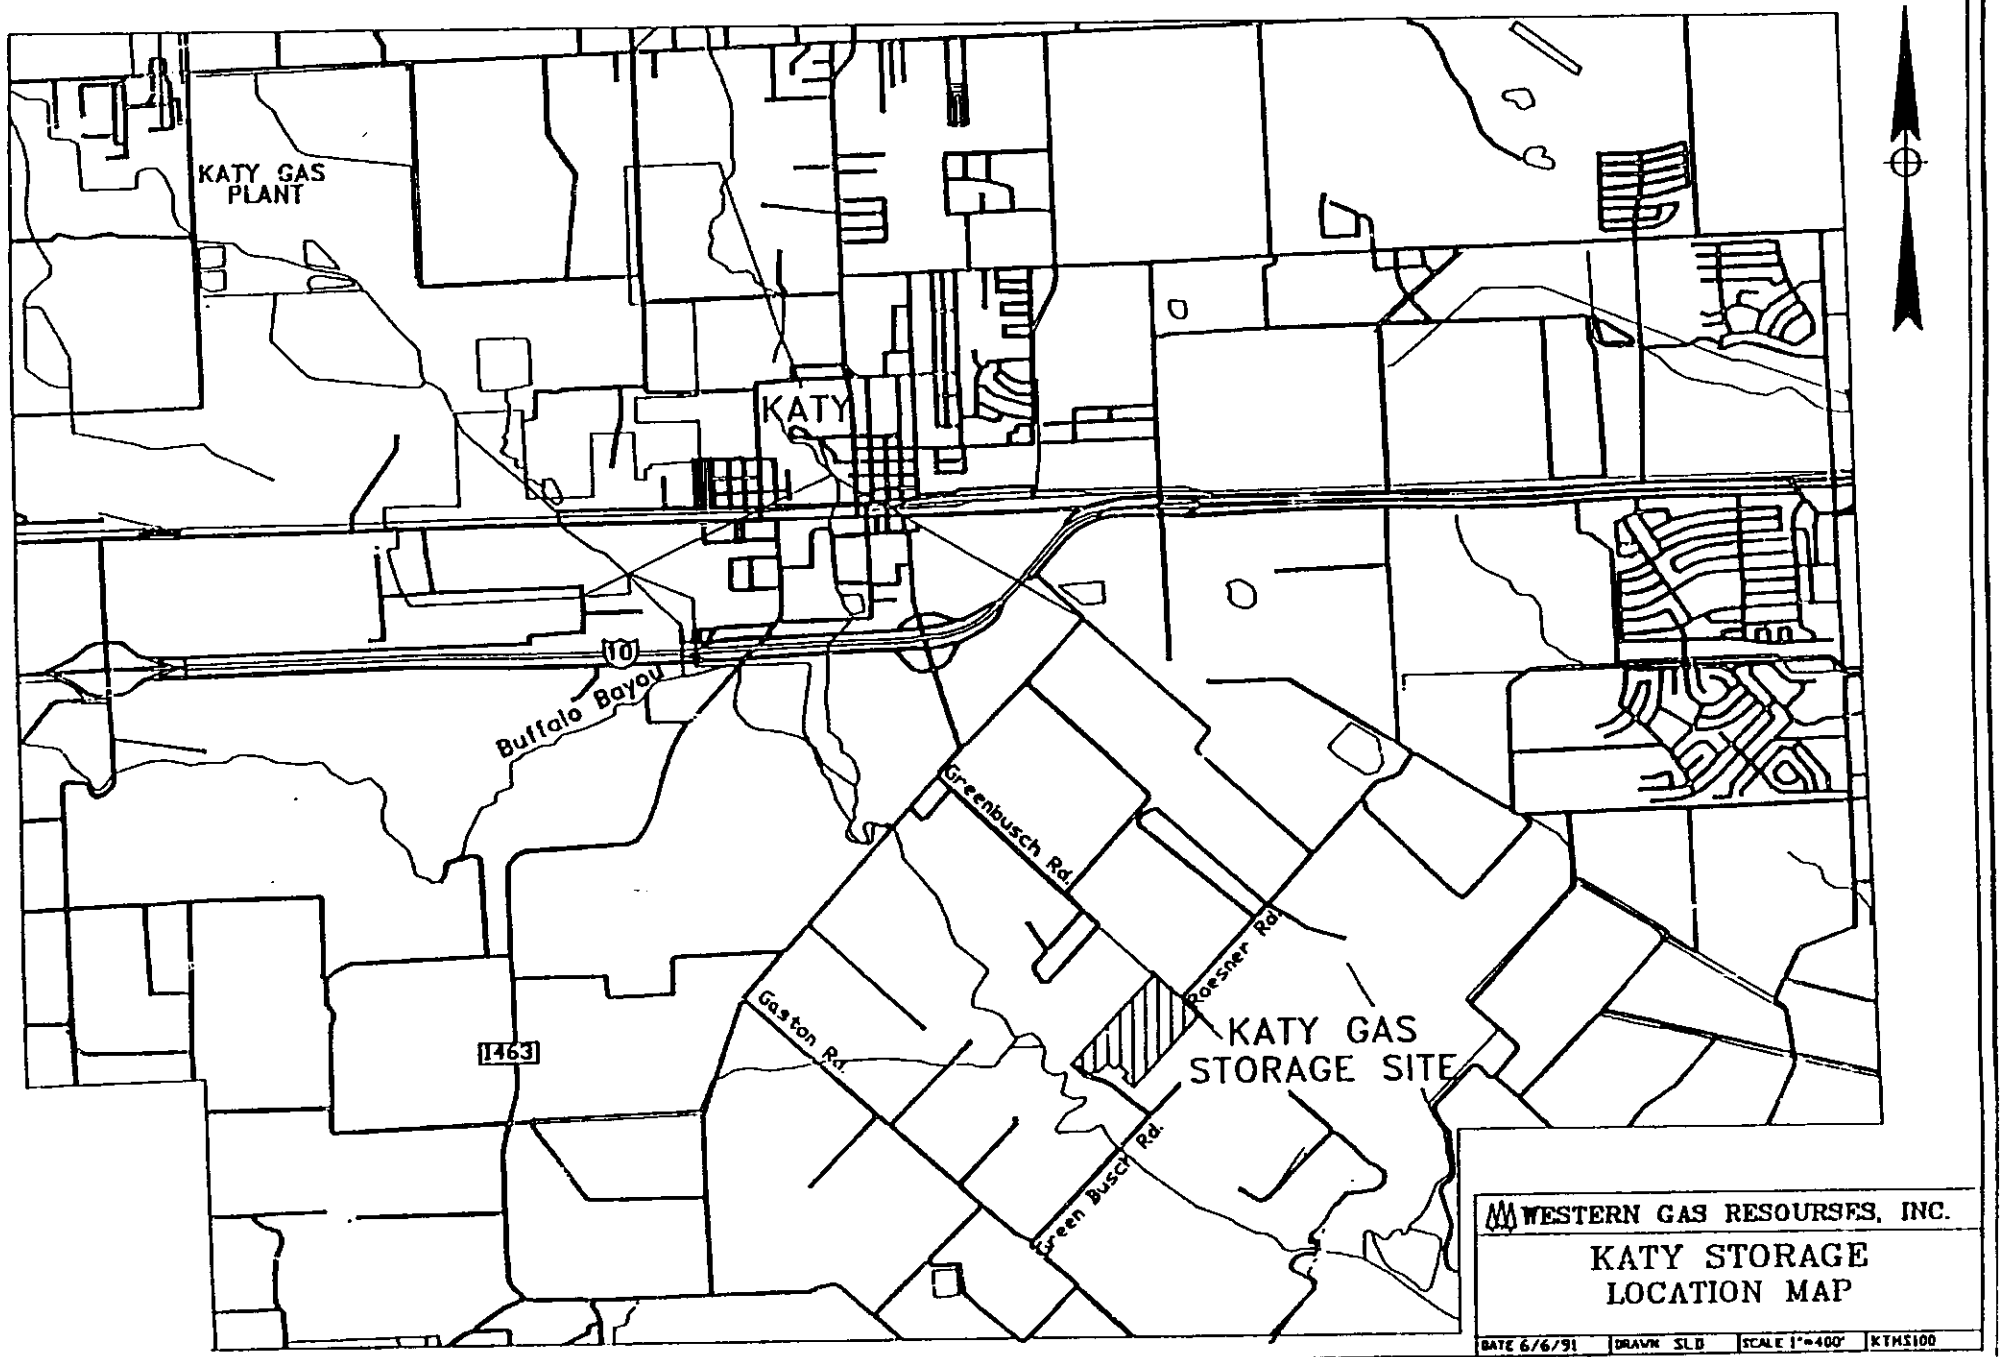

Total emissions of any criteria pollutant from the facility will be less than 250 Tons/Year. As a result, this will be a "Minor Source" permitted directly by the TACB.

The contact for permit review and questions will be:

B.
PROCESS DESCRIPTION

The Katy Gas Storage Project will interconnect gas transmission pipelines in the area, allowing the pipelines to transfer gas from one pipeline to another. Lower operating pressure pipelines will require compression to transfer gas to the higher operating pressure pipelines, and the Katy Gas Storage project will provide this compression. In addition, Western will utilize a depleted gas reservoir for storage of gas. During periods of low gas utilization, the Katy Gas Storage Project will compress the gas to reservoir pressure and inject the gas into the reservoir. During periods of high gas utilization, the gas will be withdrawn from the reservoir, dehydrated and delivered back to the pipelines. A Process Flow Block Diagram is provided in Figure B-1.

STATION LOCATION

The Katy Gas Storage Project will be located 2 miles south east of Katy, Texas. Western Gas Resources Storage, Inc. has purchased an 80 acre site identified as the NE 1/4 of the Stephen Hobermaker Survey A-189 for the installation of the compressor station. The site is located in Fort Bend County near the intersection of Fort Bend, Waller and Harris Counties.

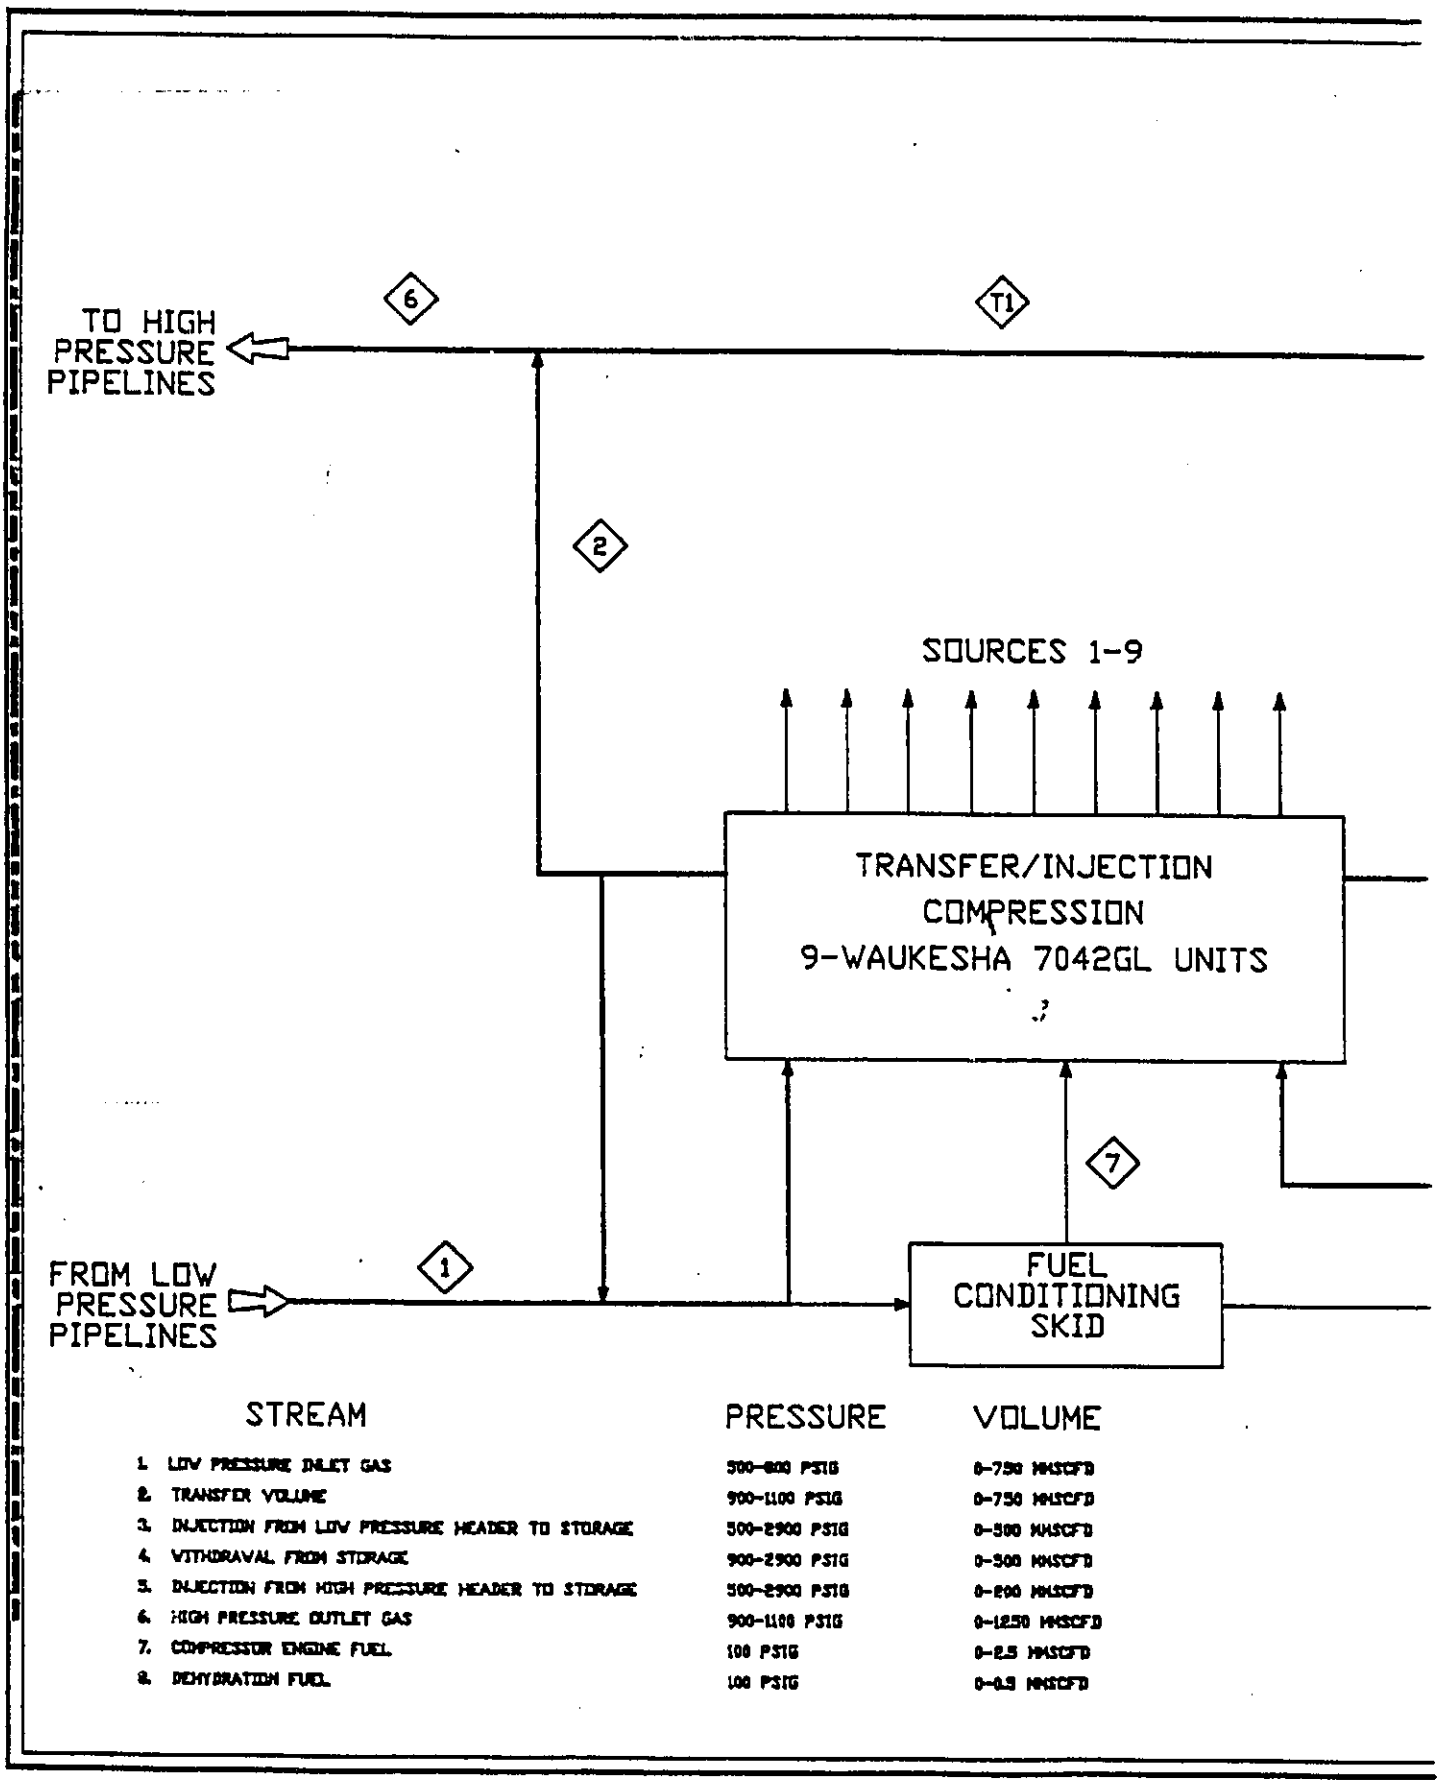

The site can be reached by taking Pin Oak Exit off I-10, and proceeding south to Pin Oak development (1/2 mile from highway). Prior to entering the development, turn West (right) on Flewellen Road. Continue travelling west 1/5 mile to Green Busch Road, turn South and travel 1-1/2 miles to the site access road.

COMPRESSION

Compression is required at the Katy Gas Storage Project to transfer gas between pipelines and to inject gas into the storage reservoir. Western is proposing to install 9 Waukesha 7042GL engines, driving 4 throw Ariel compressors. Each unit will be capable of transferring gas from the Low Pressure Header to the High Pressure Header, and of compressing gas from either the Low Pressure Header or the High Pressure Header to the reservoir injection pressure.

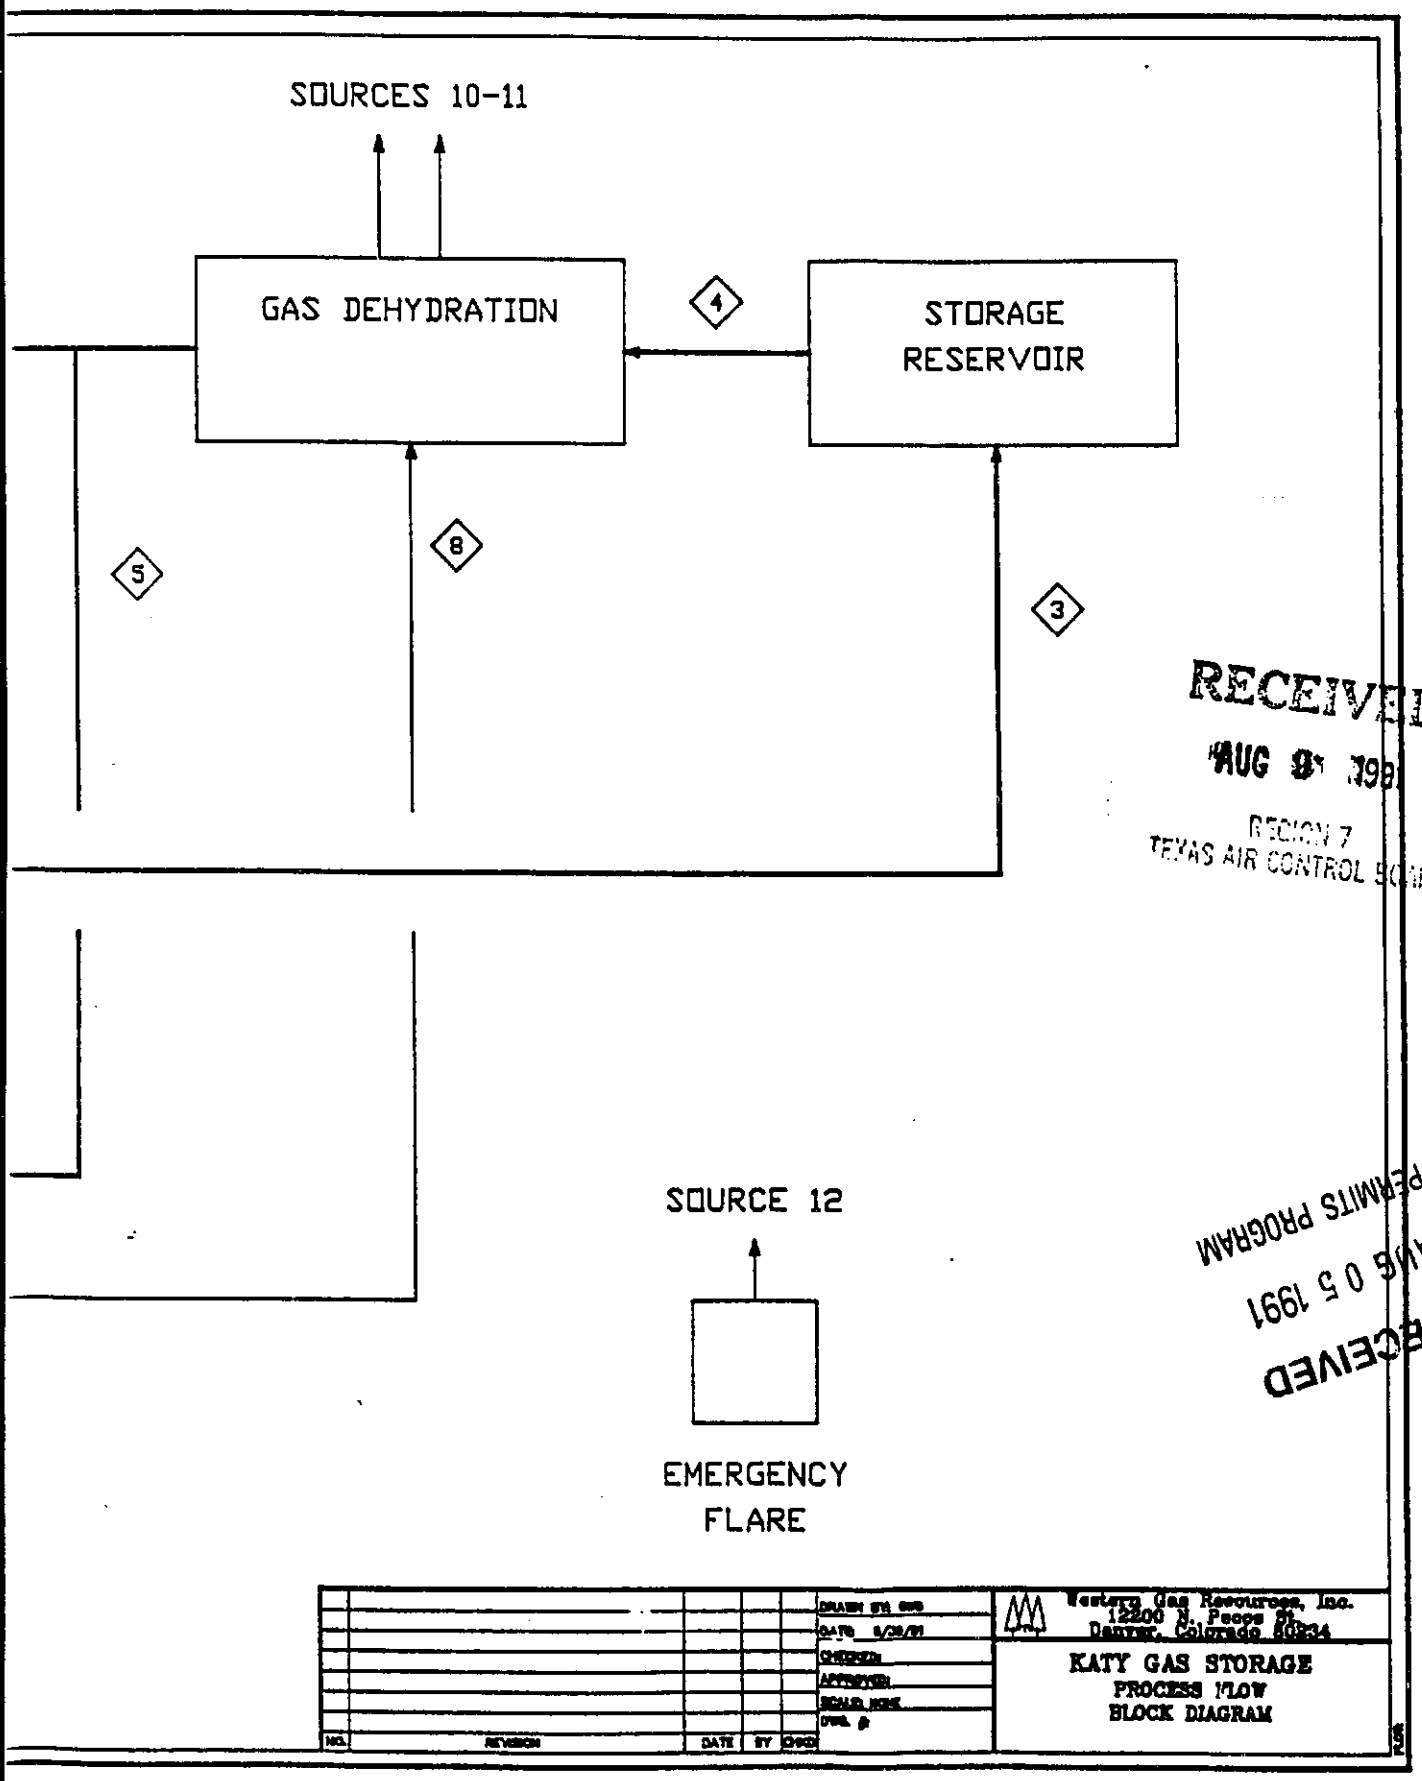

The engine exhaust stacks are shown on the Process Flow Block Diagram as Sources 1 thru 9.

DEHYDRATION

When gas is withdrawn from the storage reservoir it will be necessary to dehydrate the gas for H_2O dew point control. Western proposes to install two Triethylene Glycol (TEG) dehydrators for this purpose. The maximum total TEG regeneration duty will be 17 MMBtu/Hr combusted. The TEG still overhead stream will be cooled to condense the majority of the H_2O. The remaining vapor, consisting of H_2O, CO_2, and some hydrocarbons, will be injected into the reboiler fire tube to insure that the hydrocarbons are combusted prior to release to the atmosphere.

The dehydrator reboiler exhaust stacks are shown on the Block Flow Diagram as sources 10 and 11.

EMERGENCY FLARE

The facility will have a ground level emergency flare. The primary function of the flare will be to insure combustion of hydrocarbons in the event of emergency releases at the facility. The flare will be provided with a continuous ignition system to insure that all releases through the flare are combusted. All of the equipment safety relief valves in the compressor station will be tied to a flare header and the emergency flare.

The station has been designed to minimize the probability of using the emergency flare by installing pressure limiting shut-in valves on the inlet to the station and the outlet of the storage reservoir. The maximum allowable operating pressure (MAOP) of the vessels and equipment in the compressor station will be greater than the MAOP of any pipeline connected. As a result, it should not be possible to over-pressure the compressor station equipment. In addition, the compressors are equipped with high pressure shutdown systems to shutdown the units prior to actuating any of the equipment safety relief valves.

Finally, the compressor station emergency shutdown system will close block valves on the Low Pressure Header, the High Pressure Header and the reservoir to isolate the station and prevent over-pressuring the equipment. This will also limit the volume of gas released to the emergency flare to the quantity of gas contained in the equipment at the station.

Western has not finalized the design of this system, but anticipates utilizing two flare stacks located next to each

AS PER ORIGINAL

other. The smaller, primary flare will be equipped with continuous pilots and will be purged. The large, secondary flare will normally be sealed from the flare system to prevent fugitive emissions and safety hazards. In the event of a major emergency relief, the seal to the secondary flare will be broken and the gas will be ignited by the primary flare.

The emergency flare (or flares) are identified as Source 12 on the Block Flow Diagram.

PROCESS FLOW

Gas compressed at the Katy Gas Storage Project will come from various transmission pipelines in the area. All of the gas entering the station will be pipeline quality, containing less than 1/4 gr/100 SCF H_2S, and minimal propane and heavier hydrocarbons.

The facility will operate in three different operational modes or combinations thereof. These modes are Gas Transfer, Gas Injection and Gas Withdrawal.

Gas will enter the station (Stream 1) via the Low Pressure Header in the Gas Transfer and Gas Injection modes of operation. When the station is operating in the Gas Transfer mode only, all of this gas will be compressed into the High Pressure Header (Stream 2) and leave the station. When the station is operating in the Gas Transfer and Gas Injection mode, a portion of the gas will be compressed into the High Pressure Header (Stream 2), and the remainder of the gas will be compressed into the Injection Header (Stream 3) and injected into the storage reservoir. When the station is operating in the Injection mode only, all of the gas will be compressed into the Injection Header (Stream 3) and injected into the storage reservoir.

When the station is operating in the Withdrawal mode only, gas will be withdrawn from the reservoir (Stream 4) and dehydrated. The gas will then flow out of the station via the High Pressure Header. No compression is operated in this mode.

When the station is operating in the Transfer and Withdrawal mode, the gas will enter the station via the Low Pressure Header (Stream 1) and be compressed and combined with the gas being withdrawn from the reservoir (Stream 4). The combined streams will leave the station via the High Pressure Header (Stream 6).

AS PER ORIGINAL

During certain periods of operation in the Transfer and Injection mode, it will be possible to take some of the injection gas from the High Pressure Header rather than the Low Pressure Header. This will save substantial horsepower and reduce the stations emissions and Western will operate in this mode whenever possible.

Depending on the mode of operation, gas volumes entering the station via the Low Pressure Header (Stream 1) will vary between 0 and 750 MMSCFD. Volumes leaving the station via the High Pressure Header (Stream 6) will vary from 0 to 1,250 MMSCFD. The volumes for Streams 2-5 are also shown on the Block Flow Diagram.

A typical gas composition of Streams 1 and 4 is contained in Table B-1. Since the only process occurring at the station is compression, this analysis will be typical for all gas streams with the exception of the fuel.

FUEL CONDITIONING

Fuel will be taken from the Low Pressure Header (Stream 1). Western will take advantage of the refrigeration which occurs when the pressure is reduced from the Low Pressure Header pressure to the Fuel Header pressure, to condition the fuel. This conditioning will further reduce the propane and heavier components in the fuel, allowing the Waukesha 7042GL engines to obtain VOC emissions of less than .5 gm/BHP. The liquids will be vaporized and returned to the main gas stream. The typical conditioned fuel gas composition is listed in Table B-2.

Fuel gas to the engines (Stream 7) will vary between 0 and 2.5 MMSCFD, depending on the mode of operation. Western will meter the fuel to each engine. The fuel gas to the dehydrators (Stream 8) will vary between 0 and 0.5 MMSCFD, depending on the mode of operation. Western will also meter the fuel to the dehydrators.

STATION UTILITIES

Cooling of the gas streams after compression will be done with engine driven aerial coolers. No water cooling will be installed.

Electrical power for pumps, starting and instrument air compressors, lighting, control, etc. will be purchased from the local utility.

POINT SOURCES

As mentioned in Section A and B, Western Gas Storage, Inc. is proposing to construct the Katy Gas Storage Project consisting of 12 point sources. These sources include nine compressor engine exhaust stacks, two TEG reboiler stacks, and an emergency ground level flare. The emissions for these sources are summarized in Table C-3.

The nine compressor engines will be Waukesha 7042GL lean combustion gas engines. The manufacturer provided the guaranteed maximum emission factors for NOx, CO and VOC's used in Table C-1. SO_2 emissions were calculated assuming that the fuel gas contained 1/4 gr/100 SCF H2S and that all of the H_2S was converted to SO_2. Calculations are contained in Table C-3, Compressor Emission and Exhaust Calculations.

The conditioned fuel gas generated at the station and used to fuel the compressor engines will have the composition shown in Table B-2.

The emission factors shown in Table C-1 for the two TEG reboilers were obtained from EPA publication AP-42 Table 1.4-1, with the exception of the VOC emission factors. The VOC emission factors were obtained by multiplying the non-methane hydrocarbon emission factors from AP-42 by the percent of propane and heavier components in the non-methane portion of the gas. Calculations are contained in Table C-4, Dehydration and Flare Emission and Exhaust Calculations.

The emission factors are multiplied by the heat input rating of each heater, then by the usage factor before being converted to tons per year. The Lower Heating Value of the fuel was calculated to be 938 BTU per standard cubic foot. The usage factor for the TEG reboilers is 1.0. However, because the reboilers will only be utilized during the Gas Withdrawal mode of operation, it is unlikely that they would be utilized 100 percent of the time in any year. Western is permitting 100 percent utilization to insure that the permit does not prevent the Withdrawal Mode of operation from occurring at any time.

The usage factor for the gas compressors is 0.73, since the compression equipment will be required during the Gas Transfer and Gas Injection modes, but will not normally be

AS PER ORIGINAL

required during the Gas Withdrawal mode. In general, when the compressors are running they will not be operating at 100 percent of their horsepower capability, which will also reduce emissions. This adjustment is also included in the .73 utilization factor.

Western will meter the fuel consumed by each compressor engine, and the engine RPM to allow an accurate calculation of the engine horsepower while the engine is operating. Western will use the calculated engine horsepower to calculate emissions and to insure that the annual emissions are kept within permit limits. Western will also meter the fuel consumed by the TEG reboilers to allow calculation of the annual emissions from these two sources.

FUGITIVE EMISSIONS

The fugitive VOC emissions from the proposed new units at the Katy Gas Storage Project are listed in Table C-2.

Western has not reached the point in the design of the station to have an accurate valve count or flange count. Therefore, the component counts were estimated using the component to vessel ratios provided in Table 2-2 of the EPA publication entitled "Control of Volatile Organic Compound Equipment Leaks from Natural Gas/Gasoline Processing Plants" (EPA-450/3-83-007). These ratios are provided in Table C-2. To complete the component count, Western estimated that there would be 25 vessels in gas service at the facility. Western used the actual count of 36 compressor seals based on installing 9 compressors with 4 cylinders per compressor.

The total hydrocarbon emission factors were obtained from Table 2-1 "Baseline Fugitive Emission Factors for Gas Plants" in the above listed EPA document. These hydrocarbon emission factors were converted to VOC emission factors by multiplying them by the percentage of VOC's in the gas stream. To insure a conservative estimate of fugitive emissions, the percentage of VOC's was calculated based on the composition of gas exiting the storage reservoir. This composition is shown in Table B-1.

The VOC emission factors were multiplied by the component counts to get the uncontrolled emissions. Control efficiencies were not applied because the Katy Gas Storage Project is a compressor station, and thereby exempt from Subpart KKK. The fugitive VOC emission rates calculated are extremely low because the gas contains almost no VOC's. Western will, however, be inspecting the equipment on a regular basis and repairing all leaks as quickly as possible. Any gas leaving the station as fugitive emissions represents lost revenue to Western.

BEST AVAILABLE CONTROL TECHNOLOGY REVIEW

Best Available Control Technology (BACT) is being proposed by Western for the compressor engines as lean burn engines. Western plans to use Waukesha 7042 GL lean combustion gas engines. Waukesha has guaranteed that the engines can maintain emissions below 2.0 gm/BHP-Hr NOx, 2.6 gm/BHP-Hr CO, and 0.5 gm/BHP-Hr VOC's. Figure D-1 provides a copy of the Technical Data Sheets for this engine, along with the Waukesha guaranteed emissions.

Western will be installing a fuel conditioning skid to remove a portion of the propane and heavier components from the gas used for fuel. Waukesha has guaranteed the 0.5 gm/BHP-Hr VOC emission rate based on unconditioned fuel. However, the fuel conditioning skid will take advantage of the pressure reduction which is required to remove a small portion of the propane and heavier components and to insure that the engines will meet the stated VOC emission rates.

Western also plans to purchase continuous exhaust stack oxygen analyzers to allow the operators to maintain the proper air/fuel ratio and to insure that the emission rates are met. In addition, Western will continuously record the excess oxygen concentrations in the exhaust stacks.

Western believes that this technology represents BACT for this project, and has not evaluated the many engine options which would result in higher emissions than those proposed.

The TEG reboilers are rated at less than 10 MMBTU/Hr, and are small enough that BACT does not apply to them. However, Western believes that cooling the TEG regenerator still column overhead stream and injecting the remaining vapor into the regenerator fire tube represents BACT for VOC emissions, and eliminates this as a separate source of VOC emissions.

AMBIENT AIR IMPACTS

Western has contracted with TRC Environmental Consultants, Inc. to perform the dispersion modeling study for the Katy Gas Storage compression and dehydration facilities. The modeling will be done in accordance with TACB's Appendix G-Dispersion Modeling Requirements.

Western will begin the modeling study after the TACB has reviewed the application and determined what parameters will be utilized in the model and what pollutants will be modeled. The report will be submitted as soon after modeling begins as possible.

Since the Katy Gas Storage Project is a "minor source" for all pollutants, and the area is relatively flat, Western does not anticipate problems with violations of the ambient air impact standards.

General Instructions:

1. Identify each emission point with a unique number for this plant site, consistent with emission point identification used on plot plan, previous permits and Emissions Inventory Questionnaire. Limit emission point number to 8 character spaces. For each emission point use as many lines as necessary to list air contaminant data. Typical emission point names are: heater, vent, boiler, tank, reactor, separator, baghouse, fugitive, etc. Abbreviations are OK.
2. Typical component names are: air, H_2O, nitrogen, oxygen, CO_2, CO, NO_x, SO_2, hexane, particulate matter (PM), etc. Abbreviations are OK.
3. Concentration data is required for all gaseous components. Show concentration in volume percent of total gas stream.
4. Pounds per hour (# /HR) is maximum emission rate expected by applicant.
5. Tons per year (T/Y) is annual maximum emission rate expected by applicant, which takes into account process operating schedule.
6. As a minimum applicant must furnish a facility plot plan drawn to scale showing a plant benchmark, latitude and longitude correct to the nearest second for the benchmark, and all emission points dimensioned with respect to the benchmark as required by General Application, Form PI-1. This information is essential for calculation of emission point UTM coordinates. Please show emission point UTM coordinates if known.
7. Supply additional information as follows if appropriate:
   (a) Stack exit configuration other than a round vertical stack. Show length and width for a rectangular stack. Indicate if horizontal discharge with a note.
   (b) Stack's height above supporting or adjacent structures if structure is within 3 "stack heights above ground" of stack.
   (c) If emission point is a flare, show flare data on Table 8.
   Show dimensions of a minimum size rectangle which will "enclose" all fugitive sources included in this emission point number.

General Instructions:

1. Identify each emission point with a unique number for this plant site, consistent with emission point identification used on plot plan, previous permits and Emissions Inventory Questionnaire. Limit emission point number to 8 character spaces. For each emission point use as many lines as necessary to list air contaminant data. Typical emission point names are: heater, vent, boiler, tank, reactor, separator, baghouse, fugitive, etc. Abbreviations are OK.
2. Typical component names are: air, H_2O, nitrogen, oxygen, CO_2, CO, NO_x, SO_2, hexane, particulate matter (PM), etc. Abbreviations are OK.
3. Concentration data is required for all gaseous components. Show concentration in volume percent of total gas stream.
4. Pounds per hour (# /HR) is maximum emission rate expected by applicant.
5. Tons per year (T/Y) is annual maximum emission rate expected by applicant, which takes into account process operating schedule.
6. As a minimum applicant must furnish a facility plot plan drawn to scale showing a plant benchmark, latitude and longitude correct to the nearest second for the benchmark, and all emission points dimensioned with respect to the benchmark as required by General Application, Form PI-1. REVIEW OF REGULATORY REQUIREMENTS

SCHOOLS

There are no schools located within 3,000 feet of the proposed Katy Gas Storage Project facility.

BACT ANALYSIS

A Best Available Control Technology review is provided as Section D of the permit application.

NSPS

All of the General Provisions of the Standards of Performance for New Stationary Sources will be met. None of the subparts to Part 60 apply to the proposed facility.

NESHAPS

Benzene and toluene are components of natural gas and are commonly emitted from the glycol regenerator overhead vent of field dehydrators. However, Western will be cooling the regenerator overhead stream, to condense much of the water, and will be injecting the remaining vapors into the regenerator fire-tube. This will insure that all hydrocarbons are combusted prior to being released to the atmosphere.

In addition, the proposed facility will be compressing and dehydrating only pipeline quality gas that has been previously processed and dehydrated. As a result, there will be virtually no benzene or toluene present in the gas.

LAER

The Katy Project facility will not be a major pollutant source and therefore, will be exempt from compliance with the Lowest Achievable Emission Rate requirements.

AS PER ORIGINAL

ENFORCEABLE OFFSETS

No enforceable offsets are being claimed for the construction of the Katy Project.

COMPLIANCE CERTIFICATION

A Compliance Certification is not required because the Katy Project will not be a major source of pollutants.

PSD

Prevention of Significant Deterioration regulations do not apply because the Katy Project will not be a major source of pollutants.

TEXAS AIR CONTROL BOARD RULES AND REGULATIONS

The Katy Project will comply with all of the TACB rules and regulations as illustrated in Section E, Ambient Air Impacts, of the permit application.

SUBJECT: Library Literacy Grant

The library would like to apply for the continuation of a Library Literacy Grant from the U.S. Department of Education. The 1991 grant (October 1, 1991 - September 30, 1992) is for $28,081. It will allow us to hire a full-time Literacy Assistant who will work at the George Memorial Library to recruit and train tutors and students in the Rosenberg/Richmond area.

The application for a stipend of $29,500 for the year 1992-1993 is due to the Department of Education on November 8, 1991. This is a simple grant that requires no matching. We will use the funds for salary and fringe benefits, training and student materials, and operational expenses such as postage and printing.

Close coordination of efforts with the Literacy Volunteers of Fort Bend County, Inc., a non-profit organization, has been successful to date in achieving goals for recruitment and training.

Funding for this project would be from the Library Literacy Program, Title VI of the Library Services and Construction Act. I will appear before you on Monday, October 14, 1991 to ask for your approval.

Sincerely,

Roman S. Bohachevsky

October 7, 1991

The Honorable Roy Cordes, County Judge

Fort Bend County, Texas

RE: Line Item 4010, Fees and Services, County Court at Law No. 1

Gentlemen:

Reference is made to the above stated line item. The 1991 budget provides $59,015.00 for fees and services for my court. As of October 1, 1991, I have a balance of $3,442.30, which averages $6,174.74 per month spent by the court from said line item.

This overage is largely attributable to the fact that I have had the additional burden of several contested juvenile matters. I feel that the balance remaining will carry my office through, hopefully, the month of October. Therefore, I am respectfully requesting that an additional $10,000.00 be added to 4010 to carry me through the remainder of the year.

Should you have questions, please call on me at any time.

With personal regards, I remain

Very truly yours,

TO: JUDGE ROY CORDES & MEMBERS OF COMMISSIONERS' COURT

FROM: GLORY HOPKINS, DISTRICT CLERK

RE: AGENDA - COMMISSIONERS' COURT - OCTOBER 14, 1991

DATE: OCTOBER 9, 1991

Reconsider contract between Fort Bend County and the Texas Attorney General on reimbursement for IV-D Child Support.

Request for salaries for two (2) Clerk II positions from Attorney General in lieu of contract.

Glory Hopkins

P.O. Drawer "E" Richmond, Texas 77469 (713) 342-3411

AS PER ORIGINAL

Court Costs of $1373.00 (those court costs allowed for reimbursement by the Attorney General Office) were billed to 17 disposed cases selected at random in the first half of 1991.

To project costs in the same 17 cases for the first half of 1992, we first added $140.00 to the $1373.00 for the additional increase in clerk's fees effective September 1, 1991.

$1543.00 in court costs on 17 random cases, therefore;
91.00 per case average on 17 random cases

There were 210 cases closed out in the first half of 1991. If the Attorney General would reimburse us, they would pay us 66% of court costs that are allowed by law in each case.
210 disposed cases x $91.00 = $19,060.00 possible collections for one-half of 1991.
66% (Attorney General reimbursement) of $19,060.00 =$12,579.00 for 1/2 year; $25,158.00 annually.
Clerk II salary is $14,898.00 plus $6,212.88 in benefits provided by the county.

Two Clerk II annual salaries (with benefits)	$42,221.76
Attorney General reimbursement for one year	$25,158.00

Even with the projection for an increase in filed cases in the last quarter of 1991 and 1992, with a 25% increase in Child Support Enforcement case filings the Attorney General reimbursement would be $31,447.50. That is a difference of $10,774.26 and a considerable loss to Fort Bend County.

October 1, 1991

Dear County Judge or Commissioner:

In the past four years, our Association has led the effort to secure passage of Criminal Justice legislation to relieve the backlog of convicted felons in our jails and obtain some financial assistance from the state. During two regular sessions and eight special sessions your officers and general counsel have expended thousands of hours pursuing this goal. While the Texas legislature spent more days in session than the U.S. Congress, we continued to draft and re-draft legislation and pressure our legislators for action. During the recent legislative session we were finally successful.

House Bill 93 will distribute $158,000,000.00 in direct payments to counties during the next two years. In addition, this legislation will initiate additional programs and prison beds to completely relieve the backlog by 1995. While we did not obtain every item requested, this legislation is a tremendous improvement.

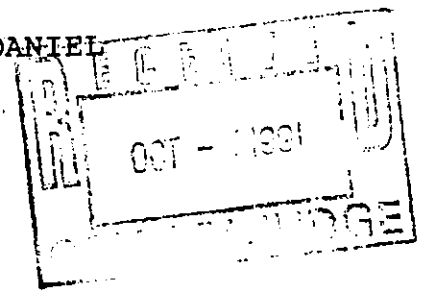

Unfortunately, this effort has severely depleted our Association resources. Unless we recover the cost of this effort, we will be forced to restrict our services and activities. Many judges and commissioners have suggested that a special assessment would be appropriate to offset the expenses of this lengthy battle. An assessment of $150 - $750 per county based upon population would parallel the benefits of this legislation.

Your state officers have decided to submit the question to you as a referendum. Please complete the enclosed ballot and return it in the enclosed envelope. Please call if you have any questions.

Yours truly,

W. C. McDaniel

Re: Dispatching for area fire departments

Dear Sirs:

I am requesting that Commissioners Court consider taking action on the attached interlocal agreements for fire dispatch at your next available meeting. These are similar to the already existing dispatch agreements between this agency and Fulshear, North East Fort Bend County, Pecan Grove, and Beasley Volunteer Fire Departments (VFD).

Submission of the agreements is the apex of several months of activity. The whole idea of consolidation of fire dispatch began several months ago when Fresno, and then Thompson VFD, became concerned about the future of their dispatch program. They brought their concern to a Fort Bend County Fire Association meeting were they found that other departments were also in need of a better dispatch system. When a sub committee was formed to study this issue, more than five fire departments joined together to share their ideas. The fruit of their labor - a common frequency to dispatch fire departments throughout the county. These same agencies then shared the cost of acquiring a radio frequency, base station repeater, pagers, and rental of tower space.

As indicated by the attached letter, these agencies deliberated for some time before agreeing upon the EMS dispatch center as the preferred location. We have reviewed their fire call volume and have determined that the increase from the current 1.5 fire calls per day to 2.2 per day should not pose a problem to our service.

It is because our services work closely together on many scenes that I look upon this affiliation as very beneficial to the citizens of this county and therefore request your approval.

I thank you in advance for your time and consideration.

Sincerely,

Daniel Kosler

Preliminary Street Acceptance

Dear Commissioner Pressley:

Pursuant to our meeting at the County Attorney's office, this letter shall serve as our request for a variance to be granted by Fort Bend County that would eliminate the requirement for us to construct a sidewalk along the south side of Tierra Alta Drive on the above referenced property in order for us to satisfy the County's acceptance requirements of that street. It also will confirm our agreement, as consideration for the above variance, to instead pave a similar sidewalk along Clodine Reddick Road from the southern boundary of Tierra Alta Drive to Pastoria Drive, which we all felt would better serve the public's needs.

We would appreciate your presenting this plan to the Commissioner's Court for final approval.

Yours very truly,

Clinton F. Wong

Re: West Bellfort: Maykirk to Synott Road
C.I.P. No. N-0466

Dear Judge Cordes:

As you are aware, West Bellfort within the referenced limits lies within the jurisdictions of the City of Houston, Sugarland and Ft. Bend County. This project of widening and reconstructing West Bellfort to major thoroughfare standards has been in our Capital Improvement Plan (C.I.P.) for approximately six years.

While your present efforts to acquire the needed rights of way (within Ft. Bend County) are commendable, we are not in a position to proceed to construction without Ft. Bend County's participation in the drainage cost. Drainage cost for storm sewers are pro-rated among Sugarland, Ft. Bend County and the City of Houston by contributing drainage areas: Sugarland, $117,000; Ft. Bend County, $600,000 and City of Houston, $333,000.

Construction plans and specifications are approximately 99% complete and the total cost of this project is approximately $5,900,000.

We have been advised that Ft. Bend County does not participate in storm sewer costs. If this is the case, and the City of Houston cannot justify an expenditure on behalf of another governmental entity fully outside of the City's jurisdiction, we may have no alternative but to eliminate the West Bellfort project from the Capital Improvement Plan at the conclusion of this fiscal year. This would be with great reluctance as the project is a much needed transportation improvement in a very vibrant area.

RECEIVED
OCT - 3 1991

Your consideration as to what means or arrangements might be available to make construction of West Bellfort a reality would be much appreciated.

Sincerely,

Howard N. Nicholas, P.E.

Dear Sir:

Please find attached a copy of Drawing 9120 on which I show existing stop signs, 24 hour 2-way vehicle counts, and proposed "25 MPH SPEED LIMIT" and with "SLOW-CHILDREN AT PLAY" signs. This traffic study is in response to your request in a letter dated August 22, to this office. No other stop signs are warranted. Stop signs are not to be used to control speed. If the proposed speed limit signs are installed it is the responsibility of the Sheriffs Dept. or Constables Office to enforce them.

If you should have any questions or need additional information, please feel free to call 342-3039, Ext. 115.

Equipment Maintenance Agreement

Offer Good Through December 31, 1991

Pitney Bowes will provide maintenance and emergency repair service as required, including new (or equivalent to new) parts and assemblies needed due to normal wear. Unless you operate your equipment during a second or third daily shift, you will pay the lowest appropriate annual rate. Rate adjustments will be made only at renewal time. For one pound beam or electronic scales, Pitney Bowes will, upon customer delivery of a defective scale to its district office, repair or replace the unit.

You may call for emergency repair or maintenance service during our normal working hours. There will be no hourly charges unless Pitney Bowes performs service outside those hours. Lubricants and other materials needed to service your equipment, except consumable supplies and rate program software for electronic scales, are provided without additional charge.

Not included as normal wear is coverage for repairs made necessary due to negligence, misuse, external forces, loss of electrical power, power fluctuation, non-Pitney Bowes service or the use of supplies not meeting our specifications.

For your convenience, if you replace the equipment covered by this agreement, your coverage will remain in effect on the replacement Pitney Bowes equipment (if the equipment qualifies) at the then-current annual rate for the replacement equipment. If you acquire an attachment to your covered equipment or add a unit to a covered integrated system, we will provide coverage for any qualifying attachment or unit and adjust your rate accordingly. If you do not elect to continue coverage on the replacement equipment, you may cancel this agreement within 30 days after the date of your invoice.

We will provide emergency repair and maintenance service under this agreement for one year after the effective date shown and will continue the agreement in force after that date until you or we provide the other with 30 days written notice of cancellation. If cancelled, we are not obligated to issue a credit or refund.

Your signature is our assurance that you have the authority to enter into this agreement. Our acceptance is signified when our authorized invoice is issued or by our acceptance of your payment.

Re: Amendment to 1991 Budget
"Fees and Services" line item

Dear Judge Cordes:

My current balance for "Fees and Services" is under $2,000. In order to finish 1991, it will be necessary to increase that line item to allow for court appointed attorneys and court ordered psychiatric examinations due in the last half of October and for November and December. I cannot fully predict what sum will be needed, but absent some extraordinary appeal expenses, I believe $35,000 should be sufficient.

You may recall that when I took office, I inherited an unpaid attorney's fee claim of over $90,000 for the Roger Leroy DeGarmo case. I reduced that claim by approximately two-thirds prior to approving it for payment. The payment of that fee has created the current shortfall.

Since I have a docket on Monday, I would appreciate your taking up this matter without my presence. Should you need me to come over, however, just let me know and I'll get there as soon as I can.

Thank you for your consideration.

Sincerely,

Thomas R. Culver, III

Re: Oil and Gas Docket No. 3-96,354
Application of Western Gas Resources Storage, Inc. for
Authority to operate the Fulshear (Hillebrenner) Field
as a natural gas storage field in Fort Bend County, Texas

Dear Mr. Presley:

We are the owners of the property outlined on the attached survey. We are aware of the above application by Western Gas Resources Storage Inc.

We are absolutely opposed to the creation of such a reservoir as we believe there is great danger of polluting the ground water and water wells. Of course, there are many other dangers inherent in the creation of such a facility, which the Railroad Commission of Texas is working on.

We are appealing to you as County Commissioner to help us voice our very strong opposition to the creation of this facility. As you can see from the attached documents, we are finalizing the plans for a major planned community on our 565 acres which will provide homes for about 1,000 families.

R L G

We believe it is in the interest of the County, of the landowners, and the inhabitants of Fort Bend County to very strongly oppose the creation of such a harmful facility that will have a very negative affect on the growth of the area.

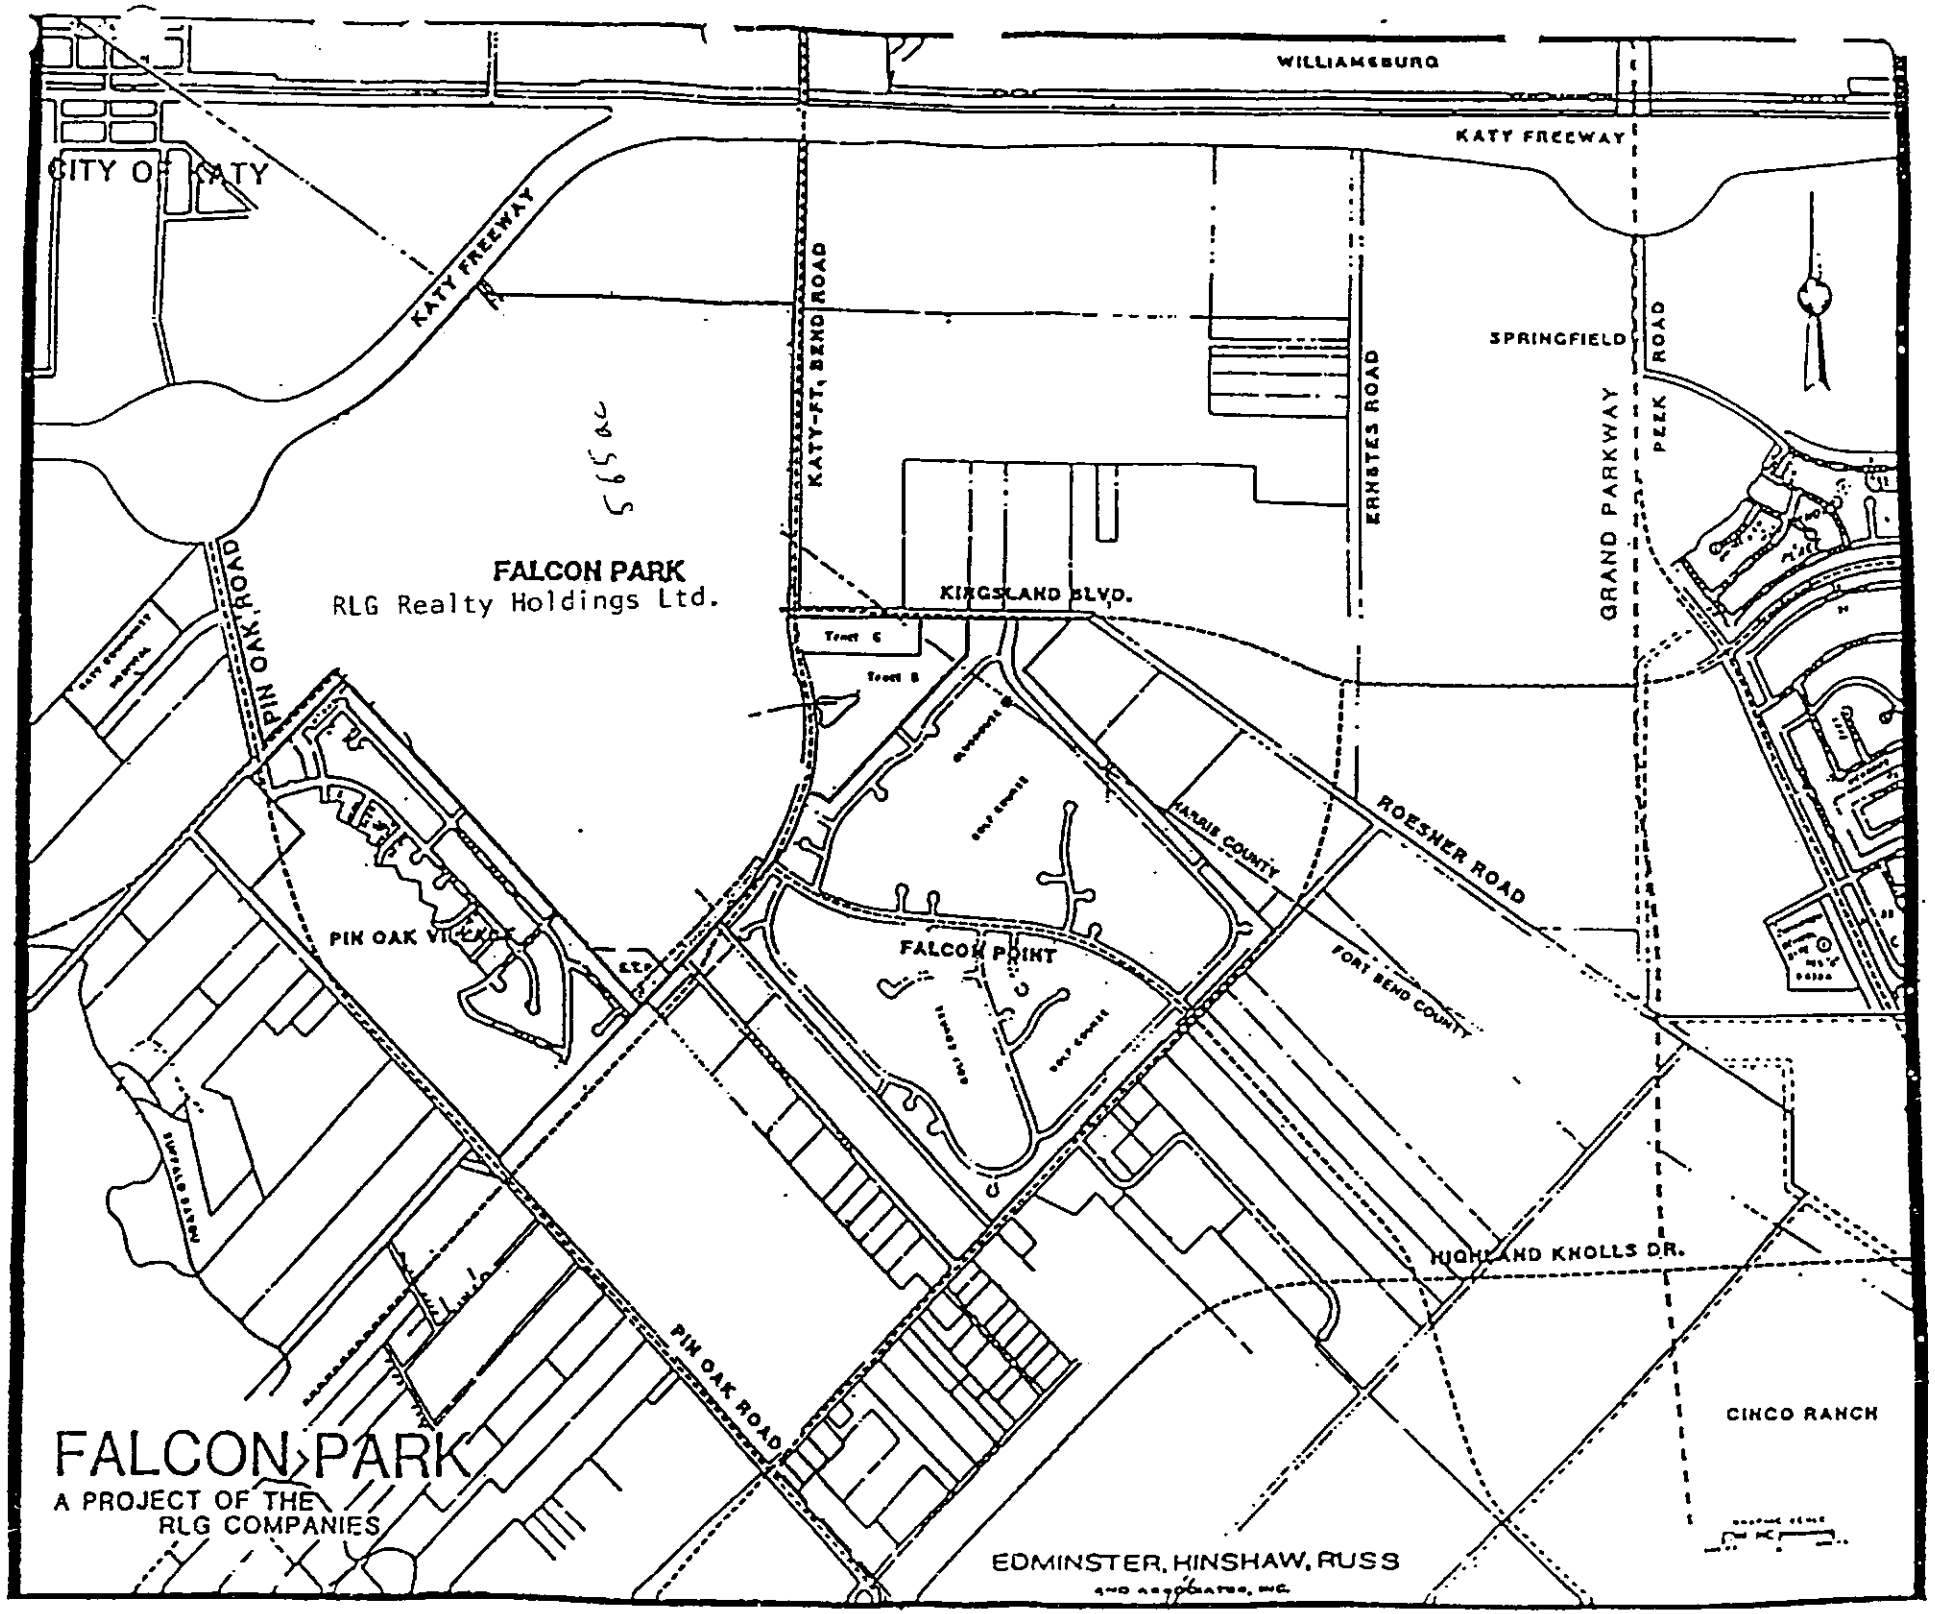

Sincerely,

Reference the item (Accept money from Musc. Dest/American Lung Assn) for placement into the County's General Fund.....

The "money" is $160.00 cash received from Mrs Jenny Parades (968-5800) who literally insisted that she give us something to compensate us for donating our time and equipment to help them with a charitable event that occurred on Oct 12th. We repeatedly refused to accept compensation for our services because we were in uniform, and used our county equipment, (even though all participants were off duty and were strictly volunteers).

After refusing compensation, she insisted on contributing / donating to our "coffee fund" but we knew that the money should be turned over to the County. We therefore respectfully request that the Commissioner's Court accept this donation of $160.00 to be placed into the County's General Fund.

Re: Proposed acceptance into Fort Bend County Road System of Bridge connecting Royal Estates, Section 1 and Royal Estates, Section 2

Dear Mr. Drachenberg:

Mr. Reichwein, President of Royal Estates, Section 2 Home Owners Association, has requested Virgil V. Mott furnish your office with evidence of dedication of the above referenced Bridge to support acceptance of same into the Fort Bend County Road System.

In response to same, I enclose herewith copy of the following:

1. Road Dedication dated January 25, 1986, recorded in Volume 1963, Page 86, Official Records, Fort Bend County, Texas, which dedicates (or ratifies and confirms prior dedication) of the road through Royal Estates, Section 1 from McCrary Road to the centerline of Jones Creek;

2. Reservations, Exceptions, Dedication and Restrictions for Royal Estates, Section 2, dated June 29, 1979, recorded in Volume 846, Page 443, Deed Records, Fort Bend County, Texas, which dedicates a 3.919 acre tract in fee to the Public for public road purposes commencing at the centerline of Jones Creek and extending in a northeasterly direction into Royal Estates, Section 2;

3. Map showing dedications;

4. Proposed dedication from Virgil V. Mott to Fort Bend County for Public Road purposes covering the bridge from the centerline of Jones Creek to the northeasterly boundary line of Jones Creek.

I believe the 1979 dedication to the Public in fee of the 3.919 acre road tract for public road purposes is sufficient for Fort Bend County to rely on in accepting the bridge into the Fort Bend County Road System. However, if Fort Bend County requests an

additional dedication, Mr. Mott has agreed to execute and deliver to your office the proposed dedication included as Item 4 above.

Thank you.

Sincerely yours,

C. Michael Scherer

RE: Bid Number: 91-091

We respectfully ask your consideration for an error we made in our quote for this Bid.

We find that we failed to add the cost of Item D6 (automatic transmission) when we totaled the bid.

Please allow our bid to be withdrawn.

If we cannot withdraw the bid, we request that you allow our bid to be increased by $729.80 to cover our cost for the automatic transmission. The total unit bid price without optional equipment and without trade-in allowance would be: $13528.80.

We truly regret this error as we do hope to be awarded this purchase. However, the loss to us at $12799.00 is too great. If our amended bid is allowed we will be very grateful. If it is not allowed, please allow us to withdraw the original bid.

Thank you for your consideration.
