RESOLUTION OF THE FORT BEND COUNTY JUVENILE BOARD CREATION OF THE COMPULSORY ACADEMIC DETENTION FACILITY

WHEREAS, the Fort Bend County Juvenile Board (hereinafter sometimes referred to as "Board") has met with the Superintendents of the Fort Bend Independent School District (F.B.I.S.D.) and the Lamar Consolidated Independent School District (L.C.I.S.D.) regarding the cooperative needs of the school systems and the juvenile justice system of the County; and,

WHEREAS, at the above stated meeting all participants recognized the need to address and correct the problem of an increasing number of juveniles who are suspended from the various school systems without daily supervision, and who are free to roam the streets of the communities of Fort Bend County during normal school hours; and,

WHEREAS, from the above referenced meeting there was unanimous agreement that the majority of students who are applying themselves to the educational opportunities afforded them by the school systems are a paramount priority, and that such students should be protected from disruption and harassment; and,

WHEREAS, the return of certain delinquent juveniles into the school system often creates a disruptive effect on all students; and

WHEREAS, because of this disruptive behavior, there is an ever increasing need to provide alternative placement opportunities for juveniles who are expelled from the school systems (and who may have been referred to the juvenile justice system) and who may also be involved in gang and gang related activities; and,

WHEREAS, a COMPULSORY ACADEMIC DETENTION FACILITY will have a direct and cost effective result on those juveniles who cannot currently attend regular classes in the various school districts because of their suspension or expulsion, while at the same time keeping the primary care and responsibility of that juvenile on the child's parents; and,

WHEREAS, the COMPULSORY ACADEMIC DETENTION FACILITY would give the Fort Bend County Juvenile Probation Department an opportunity to work with, evaluate, and counsel the juveniles and their families in a controlled atmosphere on a daily basis and would additionally provide the school system with a protected environment to continue the mandatory educational needs of the juveniles; and,

WHEREAS, the Commissioners' Court has also considered the need for an alternative placement facility in conjunction with the jail and juvenile detention center; and,

WHEREAS, although construction of the Juvenile Detention Center was completed for substantially less than its budgeted amount, there appear to be ever increasing and additional demands on the remaining bond funds;

NOW THEREFORE BE IT RESOLVED by the Fort Bend County Juvenile Board that there is a priority need to the juvenile justice system of Fort Bend County for the creation, construction, and operation of a COMPULSORY ACADEMIC DETENTION FACILITY, with the various school systems of the county providing teachers, equipment and supplies.

Be if further RESOLVED that the Fort Bend County Juvenile Board requests that the Commissioners' Court of Fort Bend County designate the construction of the COMPULSORY ACADEMIC DETENTION FACILITY as the number one priority for the remaining funds from the jail and juvenile detention bond fund and to further provide and designate funding from other sources, if such be necessary.

Be if further RESOLVED that the Juvenile Board of Fort Bend County requests that the COMPULSORY ACADEMIC DETENTION FACILITY be in operation on or before the first day of school on or before August 17, 1994.

SIGNED this 30th day of March, 1994.

Fort Bend County Commissioners Court

Re: Juvenile Board Resolution Urging Creation of
Compulsory Academic Detention Facility

Dear Judge Cordes and Commissioners:

Please find enclosed the resolution adopted by the Fort Bend County Juvenile Board on March 30, 1994, urging the creation of a Compulsory Academic Detention Facility to be in use on or before the start of the next school year. The Juvenile Board requests that this resolution be included in the minutes of your meeting on April 5, 1994.

Our board has learned from Judge Cordes that Commissioners Court also has been considering a similar proposal. Although the Juvenile Board's efforts are directed towards a more restrictive academic facility than the concept you are currently considering, from Judge Cordes' comments it is apparent that our goals are similar — to reduce educational drop-outs and to combat juvenile crime by students expelled from various school districts.

In order to maximize our mutual County wide efforts, the Juvenile Board would like to meet in a joint workshop session with Commissioner's Court and the superintendents of our various school districts within the next thirty (30) days. We believe such a workshop session would allow each entity an opportunity to voice its concerns, needs, and goals for such an academic facility. Our board believes that students who are currently subject to juvenile court control as well as those students who are not otherwise charged with juvenile court offenses are likely candidates for this facility.

Thank you again for your efforts in addressing this very serious problem of increased juvenile crime in our County.

Very truly yours,

Thomas R. Culver, III

RE: Safety Test for Elevators
Fort Bend County Courthouse
Serial #C4427-29

Dear Mr. Beran:

The Annual Safety Test for your elevator(s) is due during the month of May 1994. Recently the State of Texas enacted new legislation in the form of the Health and Safety Code, Chapter 754, Elevators, Escalators and related equipment, Subchapter B. Inspection certification dated September 1, 1993. Per Section 754.019, this safety test must be witnessed and certified by an ASMEQEI-1 certified inspector, who will also supply and fill out the inspection forms, tags and certificates as required by the State.

The following is our proposal to have the annual safety test as required by the State of Texas and the American National Standard Safety Code witnessed by a QEI inspector and certified with the state.

Once you have received your certificate of inspection, you as the real property owner or agent for the real property owner are required by law to file a copy of each certificate of inspection, one per elevator or escalator, and a $15.00 filing fee with:

The Commissioner of The Texas Department of
Licensing and Regulation Executive Offices
P.O. Box 12157
Austin, TX 78711

not later than the 30th day after the day on which the inspection was made.

This test will be performed by experienced elevator technicians in the employ of Dover Elevator Company and we will coordinate our testing crews' schedule with the QEI certified inspectors. Dover Elevator Company will exercise caution and care, but will not be responsible for any damage done to the building structure or equipment occasioned by these tests.

C. Maintenance on Terminals and Peripheral Devices (60/40 Plan)

RECORDER'S MEMORANDUM
This page is not satisfactory for photographic recordation due to carbon or photo copy, discolored paper, etc. All black-outs, additions and changes were presented at time instrument was filed and recorded.

(1) Items covered are detailed in Exhibit C.

(2) Maintenance for terminals or peripherals may be terminated by either party on the anniversary of the contract. Maintenance may continue for all items originally covered or either party may discontinue maintenance for specific pieces of Equipment.

(3) If a piece of Equipment malfunctions, COUNTY contacts DYNIX for a "Return Materials Authorization Number" (RMA#). COUNTY then ships the equipment, at its expense, to a DYNIX-designated repair center. The item is repaired and returned to COUNTY at DYNIX's expense.

(4) COUNTY may, at its option, request a loaner unit for the item in repair. When a unit is sent to COUNTY, COUNTY may use it until COUNTY's equipment is returned. The purchase price of the unit will be invoiced to COUNTY. A credit for the difference between the invoice and the loaner charges as per Exhibit C will be issued upon return of the unit. Express delivery may be requested and billed.

(5) Equipment abused, physically or otherwise, is not covered by the maintenance contract and the full cost of repairs will be borne by COUNTY.

(6) At the end of each year the total amount paid to DYNIX for maintenance is reduced by any repair debits as per Exhibit C. DYNIX will credit COUNTY with sixty (60) percent of the balance. Charges for replacement units, express shipping, and non-warranty repairs will not be included in the reduction calculations.

(7) The remaining credit may be used for any hardware purchase from DYNIX any time within three (3) years after the close of the maintenance year.

(8) In the event that repair debits for a given year exceed the amount of maintenance paid, COUNTY shall receive no maintenance credit for the year. No additional maintenance charges shall be assessed, nor will credits held from previous years (if any) be reduced.

(9) If maintenance on peripherals is allowed to lapse, or if COUNTY wishes to cover used equipment not previously covered, DYNIX may assess a one-time charge equal to the repair debit before accepting the item for coverage.

(10) Maintenance charges begin ninety (90) days following the successful completion of the Hardware Functionality Test but no later than six (6) months from delivery.

D. Maintenance of Terminals and Peripherals (Sparing Plan)

(1) Items covered are detailed in Exhibit D.

(2) Maintenance for terminals or peripherals may be terminated by either party on the anniversary of the contract. Maintenance may continue for all items originally covered or either party may discontinue maintenance for specific pieces of Equipment.

(3) DYNIX will provide Spares to be housed at COUNTY. Spares remain the property of DYNIX. DYNIX may vary the quantity as required.

(4) When a piece of Equipment owned by COUNTY malfunctions, COUNTY places a Spare in operation in its place. Within one (1) day COUNTY must contact DYNIX for problem diagnosis and, if necessary, a "Return Materials Authorization Number" (RMA#). COUNTY ships the equipment, at its expense, to a DYNIX-designated location. When COUNTY receives the repaired

equipment back, it must put it back into operation and return the Spare to storage within five (5) working days.

(5) If a Spare malfunctions, DYNIX will repair it or replace it at its option. The cost for all shipping and repairs associated with malfunctioning Spares shall be borne by DYNIX.

(6) COUNTY is responsible for storing the Spares and for all risk of loss.

(7) Equipment abused, physically or otherwise, is not covered by the maintenance contract and the full cost of repairs will be borne by COUNTY.

(8) In the event all Spares are in use and COUNTY requires additional units, DYNIX shall express ship additional units to COUNTY at DYNIX expense.

(9) DYNIX will be the sole determinant of whether COUNTY has sufficient quantities of equipment to justify sparing.

(10) Unlike the 60/40 Maintenance Plan, no credit is given for "unused maintenance."

(11) COUNTY shall not use Spares for other than substitution of malfunctioning equipment as defined in this Section D. DYNIX reserves the right to inspect the Spares from time to time to see that they are secure and properly used.

(12) In the event DYNIX finds that COUNTY is making unauthorized use of spares, it may cancel the program and require COUNTY to purchase all Spares in its possession at the published price for comparable new equipment.

(13) If maintenance on peripherals is allowed to lapse, or if COUNTY wishes to cover used equipment not previously covered, DYNIX may assess a one-time charge equal to the repair debit before accepting the item for coverage.

(14) Maintenance charges begin ninety (90) days following the successful completion of the Hardware Functionality Test but no later than six (6) months from delivery.

6. CONDITIONS OF DYNIX'S OBLIGATIONS

All maintenance services of any nature rendered by DYNIX hereunder shall be limited to the System and shall be contingent upon COUNTY's proper use of the System in the application for which the System was intended.

7. ONGOING RELIABILITY TEST

(1) The maintenance services provided hereunder shall serve to make the System available at least ninety-eight percent (98%) of the time required by COUNTY.

(2) The ongoing reliability test will begin upon completion of the initial test (Rider H, Schedule 2) and, thereafter, will run for ninety (90) calendar day periods. The System is defined as all hardware and software then covered by this Maintenance Agreement.

(3) The test shall follow the procedures set forth in Rider H, Schedule 2 under Test Methodology steps 4 through 8.

(4) In the event the total downtime for any test period exceeds the allowable two percent (2%), a remedy of reduced maintenance payment is available. COUNTY must submit a copy of the operations log for verification along with a request for reduced maintenance payments.

(5) The maintenance paid for the 90-day test period is the base used to obtain the amount of the remedy. This amount is calculated as ten percent (10%) of the base for every one percent (1%) that the allowable downtime is exceeded. This amount is then subtracted from the next maintenance payment.

8. OBLIGATIONS OF COUNTY

A. COUNTY shall be responsible for maintaining a sufficient staff to handle normal day-to-day operation and support for the System, including but not limited to such tasks as back-ups and report handling. It is acknowledged and understood that the maintenance and support service to be provided by DYNIX hereunder is not intended to supplant COUNTY's day-to-day operation and support for the System.

B. COUNTY shall provide DYNIX full and free access to each item of Equipment to allow DYNIX to provide maintenance service thereon and a suitable place in which to perform such service shall be made available to DYNIX. COUNTY shall provide DYNIX all access to the System which DYNIX believes is necessary or desirable for the performance of any unscheduled on-site remedial maintenance services. A designated representative of COUNTY shall be in the building whenever DYNIX personnel are present.

C. COUNTY shall provide suitable environmental conditions, including space, heat, light, ventilation, cooling, electrical power, current and grounding, and the like for the System to be maintained properly hereunder.

D. COUNTY shall not perform, nor attempt to perform, or cause to be performed, maintenance or repair to the Equipment or Licensed Software covered hereunder during the term of this Maintenance Agreement except with the prior written or oral approval of DYNIX.

E. COUNTY shall be responsible for maintaining: (1) a telephone within operational reach of the central equipment; (2) an auto-answer, MNP-level 5 error correction, 2400 baud modem attached to a port for the exclusive use of DYNIX; and (3) a dedicated "outside" phone line for the above modem to be used in dial-up diagnostics and maintenance. The cost of procuring and maintaining this line in good operating condition shall be borne by COUNTY.

9. CHARGES AND PAYMENTS

A. The maintenance charges outlined on Exhibit A, B and C of this Maintenance Agreement are due and payable by COUNTY at the start of each maintenance period.

COUNTY has the option to pay the maintenance charges quarterly or annually. Payment discounts for annual maintenance will be given according to DYNIX's standard schedule.

B. Charges for on-site remedial maintenance provided other than during the hours of contracted maintenance or for other services which are not included in the monthly maintenance charges are due and payable thirty (30) days from the date of invoice.

C. There shall be no additional maintenance charge for:

(1) Travel expenses or per diem expenses.

RECORDER'S MEMORANDUM

This page is not satisfactory for photographic recordation due to carbon or photo copy, discolored paper, etc. All block-outs, additions and changes were presented at time instrument was filed and recorded.

(2) Time spent by maintenance personnel after arrival at the site awaiting the arrival of additional maintenance personnel and/or delivery of parts, tools, or other required material after a service call has commenced.

(3) Unscheduled on-site remedial maintenance required when the scheduled preventive maintenance preceding the malfunction has not been performed.

(4) Unless otherwise specified herein, cost of transportation, rigging and drayage whenever equipment is shipped for remedying mechanical problems unless the replacement was due to a cause specified as a Library responsibility.

D. The LIBRARY shall give DYNIX at least sixty (60) days written notice of intention to move the System central site equipment (or any portion thereof covered by this Agreement) from the installation site(s) first set forth above or any subsequent relocation site as approved by DYNIX. If the System (or any portion thereof) is moved without the express approval of DYNIX, it shall not continue to be maintained by DYNIX under this Agreement. DYNIX approval shall not unreasonably be withheld. DYNIX or its authorized personnel shall supervise any dismantling and packing of the System or any portion thereof and shall perform inspection and reinstallation at the new location. COUNTY shall furnish all labor required for the dismantling, packing, unpacking and the placement in the new location. Charges for supervising, inspecting, installing, removing or reinstalling shall be billed to COUNTY at a rate not to exceed the rates charged by DYNIX to third parties possessing a system comparable to the System during the applicable calendar quarter. This does not apply to terminals, wands, lasers, and slave printers.

HARDWARE FUNCTIONALITY TEST

PURPOSE:

The purpose of the Hardware Functionality Test is to ascertain that the Equipment supplied by DYNIX is installed and operational.

TIMING:

The Hardware Functionality Test will be performed by the DYNIX installer immediately after successful installation of sufficient Equipment to load COUNTY's data and commence initial on-site training.

PERFORMED BY:

DYNIX personnel with observers from COUNTY.

TEST METHODOLOGY:

This examination will include the following tests as applicable for Equipment supplied by Dynix then installed:

(a) Central Processing Unit(s) diagnostic test

(b) Memory unit(s) diagnostic test

(c) Disk storage/controller unit(s) diagnostic test, [Including the writing of a disk file, the reading of a disk file, and the erasure of a disk file.]

(d) Magnetic tape drive units(s) diagnostic test. [Including the writing of a file to tape, the reading of a file from tape, and the erasure of a tape file.]

(e) Terminal unit(s) diagnostic test

(f) Printer unit(s) diagnostic test

(g) Telecommunications unit(s) diagnostic test

(h) Power loss/failure test

ACCEPTANCE:

The Equipment will be accepted and COUNTY obligated to pay invoices as per Rider F when all of the above tests are successfully completed.

REMEDIES:

In the event DYNIX is unable to pass the Hardware Functionality Test within forty-five (45) days of first attempting the test, COUNTY may, at its option:

(1) grant DYNIX further time to resolve the problem and accept the Equipment when all problems are resolved and the test is successfully passed; or

(13) The Response Time Test shall be successful if (1) the stated transaction throughput is achieved; (2) all transactions complete (i.e.--no hung terminals); and (3) the "normal " and "peak" response time averages for each function do not exceed those stated in Table G-4 Response Time Table for the appropriate load levels.

(14) DYNIX shall bear its own expenses for the performance of a warrantee Response Time Test if the test is unsuccessful. In the event COUNTY requests a Response Time Test and the test passes, COUNTY shall pay DYNIX's expenses.

* Each search shall consist of the following steps: (1) select search option, (2) enter request, (3) review summary screen (if any), (4) review full bibliographic display, and (5) review holdings/status displays. Boolean keyword searches shall exclude the top one percent most frequently occuring words in the file. Any and all "stop words" will be included in the top one percent.

Schedule 2
SYSTEM RELIABILITY TEST

PURPOSE:

The purpose of the System Reliability Test is to demonstrate and verify that the system operates at a 98% reliability level for an extended period of time.

TIMING:

This test will begin upon completion of the Hardware Functionality Test and after training of the first module.

PERFORMED BY:

Library staff.

TEST METHODOLOGY:

(1) The System is defined as all hardware (Rider B) and software (Rider C) installed and maintained by DYNIX to date.

(2) Within a total test period of ninety (90) days, a successful performance period of thirty (30) days must be completed. The total test period and the successful performance period are calendar days, excluding holidays.

(3) This test may be overlapped with other testing procedures.

(4) The System must be available for ninety-eight percent (98%) of COUNTY's operational hours.

(5) COUNTY may stop and restart the test, and the time during which the test has been stopped at COUNTY's option shall not count as downtime nor as part of the performance or test period. In no event shall such interruption(s) of the test extend beyond a total of five (5) days per test.

(6) COUNTY and DYNIX will each maintain an operations log. Each downtime occurrence, as defined below, shall be measured, calculated, and logged separately into the operations log.

(7) Downtime is defined as the amount of time between the moment DYNIX is notified of the occurrence and the moment that the outage is successfully resolved during both COUNTY's operational hours and the hours COUNTY is covered by a DYNIX Maintenance Agreement.

Not to be counted as downtime:

- holidays
- other times when COUNTY is officially closed (9 p.m. to 7 a.m.)
- times when COUNTY has not contracted for maintenance coverage
- all scheduled preventative maintenance downtime
- downtime due to power failures
- downtime due to improper environmental conditions (not in conformance with Dynix provided site specifications)
- downtime due to COUNTY's staff (operator) error
- outages which do not affect Library operations or System performance
- outages for which spares are available

(2) require DYNIX to provide an alternate equipment configuration capable of passing the test. COUNTY shall be the sole judge of whether the revised delivery and installation schedules are acceptable; or

(3) reject the System, declare DYNIX in breach of contract, and require DYNIX to refund all monies paid to DYNIX by COUNTY under this Agreement to date. DYNIX shall have the right to remove, at its expense, all Equipment, Software and Supplies provided under this Agreement.

(8) All downtime shall be measured by rounding to the nearest increment of 6 minutes. At the conclusion of each downtime period, the downtime value resulting from each occurrence will be computed to arrive at the total amount of downtime. Under no circumstances shall a downtime coefficient value of more than 1.0 be used in calculating the minutes of downtime.

(A) The formula for calculating each occurrence of downtime is as follows:

(d) = downtime coefficient value
(m) = number of minutes of downtime
(t) = total downtime [for that occurrence]

FORMULA (t) = (d) x (m)

(B) The downtime coefficient value shall be assigned according to the following table:

Hardware Major Outage:

1.00 -- Central processing unit
1.00 -- Disk drive(s)/controller
1.00 -- Port Controllers
1.00 -- Main memory

Hardware Minor Outage: (each device)

0.10 -- Terminals
0.05 -- Optical scanning device
0.25 -- Line printer
0.25 -- Tape drive
0.10 -- Portable optical reader/terminal
0.25 -- Modems/MUX
0.05 -- Any other vendor supplied equipment

Software Major Outage:

1.00 -- Checkout
1.00 -- Checkin
1.00 -- Bibliographic file update
1.00 -- Patron file update
1.00 -- Item file update
1.00 -- OPAC title inquiry
1.00 -- Booking items in Media Scheduling

Software Minor Outage: (per function)

0.50 -- Hold
0.50 -- Fine payment
0.50 -- Patron name inquiry
0.50 -- Authority file update
0.50 -- Receiving items in Acquisitions or Serials
0.50 -- Cataloging items in Media Scheduling
0.50 -- Ordering items
0.50 -- Adding reserve items
0.25 -- Updating funds
0.25 -- Claiming

Any software functions not specifically identified above will not be included in the downtime calculation until they remain uncorrected for a period of 16 scheduled business hours. At that time, they will automatically carry a coefficient value of 0.10.

Only those items covered by Dynix maintenance shall be considered in downtime calculations.

(9) In the event that at any time during the test the cumulative downtime exceeds the allowable two percent (2%) for the entire test, the test shall automatically restart at the point the problem has been solved. COUNTY shall notify DYNIX in writing within seven (7) days of the date the System Reliability Test is restarted. Notification shall include a copy of the log.

ACCEPTANCE:

The System Reliability Test shall be successfully completed when the System has run sixty (60) days with ninety-eight percent (98%) or greater uptime. If no notice of downtime is received by DYNIX within seventy (70) days of the commencement or restart of the test, the test shall be deemed successful. Upon successful completion of the System Reliability Test, COUNTY shall pay appropriate invoices as per Rider F.

REMEDIES:

In the event that DYNIX is unable to successfully complete the test within the total test period, COUNTY may, at its option:

(1) require that DYNIX replace any of the components which have caused the test to fail. Any and all costs associated with said replacements shall be borne by DYNIX. The test shall not be restarted until said replacements have been made; or

(2) reject the System, declare DYNIX in breach of contract, and require DYNIX to refund all monies paid to DYNIX by COUNTY under this Agreement to date. DYNIX shall have the right to remove, at its expense, all Equipment, Software and Supplies provided under this Agreement.

_____.

WHEREAS, the Licensor is the owner of all rights in a copyrighted computer software program known as 3270 PASSPORT Entry Level, 3270 PASSPORT for DOS and Windows, and 3270 PASSPORT APA Graphics (hereinafter called the "Program"); and

WHEREAS, the Licensee desires to acquire from the Licensor the right and license to use the Program according to the terms and conditions hereinafter set forth;

IT IS THEREFORE AGREED:

1. Grant of License.

The Licensor grants to the Licensee the right and license to use the Program perpetually on any Personal Computer, or Personal System/2 computer requiring the ability to emulate an IBM 3270 terminal.

The Licensee agrees that neither the Licensee nor its agents, employees, or representatives will change, modify, or alter in any manner the Program.

In consideration for the right and license to use the Program under the terms set forth herein, the Licensee agrees to pay to the Licensor the sum of $9,500.00 (Nine Thousand Five Hundred Dollars), (the "License Payment") payable in full upon execution of this Agreement.

2. Protection of Copyright.

The Licensee agrees to refrain from any action or omission which would directly or indirectly cause an infringement of the copyright on the Program.

3. Term.

This Agreement shall be effective as of May 3, 1994 and shall exist perpetually unless and until terminated by either Licensor or Licensee.

4. Modification of Agreement.

No modification of any of the terms herein shall be valid unless in writing signed by both Licensor and Licensee.

5. Warranty.

Licensor is not responsible for the quality, performance, or applicability of the Program for any particular purpose. All warranties, either expressed or implied, are disclaimed. Licensor is not responsible for any damages that may result from the use of the Program.

6. Assignment.

No assignment of this Agreement or of any right or interest therein shall be valid unless the written consent of the Licensor is obtained in advance of the making of such assignment.

7. Governing Law.

This Agreement shall be construed and enforced in accordance with and governed by the laws of the State of Texas and of the United States of America, and both parties consent to Texas state court jurisdiction to resolve any dispute regarding or arising from this Agreement.

8. Entirety.

This Agreement constitutes the full and complete understanding and agreement of the parties, and supersedes all prior understandings and agreements with respect to this subject matter, whether oral or written.

9. Use of Program.

Licensee agrees to limit its use of the Program to users within the Licensee's immediate organization and divisions as set forth in Paragraph 10.

10. Annual Maintenance Fee.

The Licensee will pay to Licensor an annual maintenance fee. The maintenance fee provides the Licensee product support and product upgrades for a one year period. The maintenance fee for the first year of the License is included in the License Payment. The maintenance fee for each year thereafter shall be 15% of the License Payment, and shall be due and payable on the anniversary date. Failure by Licensee to pay the maintenance fee will relieve Licensor of any obligation to provide product support or upgrades. If Licensee fails to pay the maintenance fee for any year or consecutive years but later elects to obtain upgrades of the Program and corresponding product support, Licensee shall pay the maintenance fee for the year in which Licensee makes that election, and also shall pay the maintenance fees which were owed for the previous year or consecutive years but which Licensee has not yet paid.

11. Product Support.

Product support will be provided only to the designated End User Support representative within the Licensee's organization. All product support to the End User must be provided by the Licensor.

12. Product Documentation.

For the Permanent license type, license fees include improvements and maintenance for the first year of the license. Thereafter, at the Customer's option, improvements and maintenance may be obtained annually at a rate not to exceed 15% of the then current Permanent license fee. If improvements and maintenance are declined and then reinstated, all maintenance fees accrued during the declined period shall also become due.

8. Confidentiality and Customer Use Limitations. International Business Machines Corporation (IBM) and the Customer agree that the following terms and conditions will apply to any Customer order accepted by IBM to provide maintenance service for IBM Machines located within the United States and Puerto Rico. "Machine(s)" as used herein refers to machines and/or their features, model conversions and machine elements unless the context requires individual reference. This Agreement is effective from the date on which it is accepted by IBM and shall remain in force until terminated by the Customer or IBM. Specific Machines become subject to this Agreement on the Effective Date designated by the Customer, if agreed to by IBM, and such information will be shown in a Supplement to IBM Maintenance Agreement (Supplement) signed by IBM.

MAINTENANCE SERVICE

IBM agrees to provide the availability of maintenance service to keep the Machines in, or restore the Machines to, good working order. Maintenance service includes preventive maintenance based on the specific needs of individual Machines as determined by IBM and on-call remedial maintenance. Maintenance service also includes lubrication, adjustments and replacement of maintenance parts all as deemed necessary by IBM. Maintenance parts, which may be used parts, will be furnished on an exchange basis, and the replaced parts become the property of IBM. IBM may, at its option, store maintenance equipment and/or parts on the Customer's premises.

The Customer agrees to provide a suitable environment for the Machines as specified by IBM, and to provide IBM full, free and safe access to the Machines to provide maintenance service. The Customer is responsible to implement appropriate safeguards for Customer's data. The Customer is responsible for removing, controlling and replacing or reloading funds contained in the Machines. IBM will service Machines containing funds only when the cash container cannot be opened prior to repair by IBM, in which case the Customer will remove the funds as soon as the container has been opened.

PERIODS OF MAINTENANCE SERVICE

The Base Period of Maintenance Service is from 7 a.m. to 6 p.m., Monday through Friday, unless otherwise designated by IBM in the Supplement. The Customer may select Optional Periods of Maintenance Service shown in the Supplement. The Optional Period for Monday through Friday must include the Base Period of Maintenance Service and must be the same consecutive hours each day. The Optional Period on Saturday or Sunday must be the same consecutive hours on all Saturdays or Sundays. The Customer may select or change Optional Periods of Maintenance Service upon 15 days' written notice to IBM.

ENGINEERING CHANGES

Engineering changes, determined applicable by IBM, will be controlled and installed by IBM. The Customer may, by providing notice subject to written confirmation by IBM, elect to have only mandatory changes, as determined by IBM, installed on Machines so designated.

CHARGES

The Customer agrees to pay maintenance charges, commencing on the Effective Date, consisting of 1) a Minimum Maintenance Charge, and 2) Additional Maintenance Charges, if applicable. Additional Maintenance Charges will be for a) Optional Periods of Maintenance Service selected by the Customer, based on the Machine Group and determined by multiplying the Minimum Maintenance Charge for the Machine by the applicable Percentages for the Optional Periods of Maintenance Service shown in the Supplement, and/or b) the amount of processing performed by Usage Plan Machines, as measured by an IBM meter, multiplied by the Additional Maintenance Charge Rate(s) shown in the Supplement.

The Customer agrees to promptly submit to IBM the meter reading for each Usage Plan Machine as of the close of the last work day of the period to which the Minimum Maintenance Charge applies. The Customer agrees not to interfere with the proper operation of the meter.

There will be no additional charge for travel expense associated with maintenance service provided during the Periods of Maintenance Service, except that actual travel expense will be charged when the site at which the machine is located is 1) within the contiguous States and is normally inaccessible by both private automobile and scheduled public transportation, or 2) outside the contiguous States and is normally inaccessible by private automobile.

The Customer agrees to pay for maintenance service, including travel and waiting time, provided by IBM outside the Periods of Maintenance Service at IBM's then applicable hourly service rates and minimum charges, and travel expense; however, there will be no additional charge for maintenance parts.

Changes in a Machine's specifications may result in adjustments to the maintenance charges.

Minimum and Additional Maintenance Charges are subject to change by IBM upon three months' written notice to the Customer and will become effective on the date specified in the notice unless the Customer withdraws the affected Machine from this Agreement as provided in the Section entitled "Withdrawal/Termination," except that Charges invoiced quarterly or annually are subject to change by IBM upon commencement of service and on the first day of each quarterly or annual invoice period, upon three months' written notice to the Customer. IBM's hourly service rates and minimum charges are subject to change by IBM without notice.

THE ADDITIONAL TERMS AND CONDITIONS ON THE REVERSE SIDE ARE PART OF THIS AGREEMENT. THE CUSTOMER ACKNOWLEDGES THAT THE CUSTOMER HAS READ THIS AGREEMENT, UNDERSTANDS IT, AND AGREES TO BE BOUND BY ITS TERMS AND CONDITIONS. FURTHER, THE CUSTOMER AGREES THAT THIS AGREEMENT, AND SUPPLEMENTS REFERENCING THIS AGREEMENT, WILL BE THE COMPLETE AND EXCLUSIVE STATEMENT OF THE AGREEMENT BETWEEN THE PARTIES, SUPERSEDING ALL PROPOSALS OR PRIOR AGREEMENTS, ORAL OR WRITTEN, AND ALL OTHER COMMUNICATIONS BETWEEN THE PARTIES RELATING TO THE SUBJECT MATTER OF THIS AGREEMENT.

Dear County Judges

Re: Texas Antiquities Code

In February, 1993, The Commissioners' Court of Wharton County circulated a resolution encouraging each Commissioners' Court in Texas to contact their elected representatives with a view to changing The Antiquities Code.

THE ANTIQUITIES CODE in its present form provides The Texas Historical Commission with a law that PERMITS ONE PERSON IN A COUNTY or ONE PERSON FROM THE STAFF of the Texas Historical Commission to pre-empt the authority of a Commissioners' Court in the management of county buildings.

By following two simple steps described in the Antiquities Code , the Texas Historical Commission can completely control county owned buildings without reference to the Commissioners' Court or the taxpayers who pay the bills. These two steps are:

> First, the nomination by a building to become listed in the National Register of Historic Places (This is done by signature of the Executive Director of the Texas Historical Commission without individual notification of property owners and completely ignores the objection of individual property owners); and
>
> Second, the nomination by one person of a building owned by a county to become State Archeological Landmark. (Challenge of The Texas Historical Commission in the Courts has never occurred. They enjoy one man rule over every publicly owned building in Texas, whether it be county, school district, municipality or any other taxing entities).

We urge each Commissioners' Court to contact their State officials to assist in changing this DICTATORIAL POWER. We strongly recommend that concurrence of the Commissioners' Court or local taxpayers be required before designating a structure owned by local taxpayers become a State Archeological Landmark.

RECEIVED
APR 20 1994
COUNTY JUDGE

You will find enclosed an article clipped from the Houston Chronicle editorial page and a second article written by a Chronicle reporter that address the same issue confronting the City of Houston. A copy of the resolution distributed to each Court earlier is also provided.

The Texas Association of Counties at their last meeting in Lubbock, Texas, adopted a strong resolution opposing unfunded mandates from State government. As far as can be determined, every elected official in Austin has in one way or another voiced opposition to these mandates including the Governor. Every new law enacted now requires a statement reflecting the economic impact created on any affected taxing entity.

THE ONLY WAY THE DICTATORIAL POWER OF THE TEXAS HISTORICAL COMMISSION CAN BE CHANGED IS THROUGH LEGISLATIVE ACTION.

No one objects to historical preservation. Everyone objects to one man rule.

City in troubling area in historic-buildings debate

The city seems of a mind to take a far-reaching step in preventing people from using their property as they wish: an ordinance to prevent demolition of so-called historic buildings. There are all the earmarks of a quite troubling intrusion into property rights.

For the past two years there has been a city-imposed moratorium on demolition of buildings designated as historic by the state. It was anticipated that the city would shortly be zoned and the historic-buildings situation would be addressed in overall zoning.

Voters rejected zoning. The moratorium expires Dec. 31. City Council has approved another 90-day moratorium with the intent of writing an ordinance independent of zoning to control demolition of the buildings.

The city may or may not have some sort of moral obligation to historic buildings, depending on one's point of view. There is no doubt that it has an obligation to not effectively take people's property without compensation.

If the city intends to write a law which does effectively take people's property — what is contemplated certainly could — then it has an obligation to compensate those people. The situation is about that simple, regardless of the emotion and the political correctness injected into any historic-buildings debate.

It is not beyond the ability and wisdom of the city's lawyers and City Council to craft a law to encourage preservation of truly historic buildings and at the same time respect fundamental property rights.

There are aspects of the historic-buildings situation which can get beyond reason if the city lets them. Those include, but are not limited to, such matters as what is really historic, regardless of what some commission says. One questions whether something built in the 1930s is necessarily "historic" on its face. There also appear to be some disturbing problems about who gets to make a building "historic."

The new City Council needs to be very careful about this.

New tilt on aging buildings

City preparing demolition law

By R.A. DYER
Houston Chronicle

City officials are preparing an ordinance designed to protect historic buildings that abandons the existing ban on their demolition.

While requiring owners to show "unreasonable economic hardship" or an "unusual or compelling circumstance" before tearing down a historic building, it nonetheless allows an owner who cannot prove such hardship to demolish the building after waiting 180 days.

During that period, property owners, city officials and preservationists are supposed to seek alternatives to demolition. If the property owner is not satisfied with any of the alternatives, he can obtain a demolition permit.

"Texas is a strong property rights state and (this ordinance) does give the property owners the most rights," said planning department spokeswoman Karla Taylor. "But it does give the city and historical preservation groups an opportunity to save (historic) property. . . . I think the main issue is trying to preserve history."

A moratorium on the demolition of historic buildings has been in effect for two years.

The proposed Historic Preservation Ordinance — a summary of which was released this week — calls for the creation of historic districts, archaeological sites and historical landmarks, and requires special permits before a historic building can be relocated or changed on the exterior.

City officials say the proposed ordinance — under consideration for two months — is subject to change. They say the city's Planning and Zoning Commission, the Archaeological and Historical Commission and the public will be able to provide input before the measure is submitted to City Council in March.

A summary of the ordinance — an actual draft has not yet been released — describes the extra burdens being put on building owners. The few rewards, city officials say, are the tax incentives on historic buildings.

The ordinance allows City Council to designate a building as historic after receiving an application from the owner or from the Archeological and Historical Commission. Officials say there may be 3,000 structures in Houston eligible for such designation.

Owners of such a building must obtain special permits from the historical commission to move that building or to change any part of the exterior. Permits are not necessary, however, for routine maintenance.

The measure also allows for the creation of "historic districts" upon receipt of a petition signed by at least 51 percent of those living in the district or upon vote by the historical commission. Structures within such districts could not be moved without permits.

Margie Elliott, executive director of the

Greater Houston Preservation Alliance, said she supported the proposed ordinance, but would have preferred giving city officials authority to prohibit demolitions.

"It is not as strong as some preservationists would like to see it, but I don't see it as excessively weak," she said.

Urban planning consultant Mary Lou Henry said she was satisfied the proposed ordinance does not allow officials the right to deny demolition, but that the 180-day waiting period is excessive.

Henry, who represents a businessman blocked from demolishing property at 1105 Milford because of the moratorium, said she needed more time to study the proposal.

"It's interesting, but there are things I'm skeptical about," she said.

Councilwoman Helen Huey said her Neighborhood Planning and Protection Committee will review the ordinance summary Thursday.

Although she expressed concern that officials would not be authorized to deny demolitions, she declined further comment.

OPPOSING AUTHORITY GRANTED

THE TEXAS ANTIQUITIES COMMITTEE

WHEREAS, the Texas Antiquities Code empowers the Texas Historical Commission to cause undue and unjustified tax burden on local taxpayers without consent or even reference to local government or taxpayers; and

WHEREAS, State elected officials in the highest offices have stated their concern and opposition to State agencies passing mandates to local taxpayers without providing funds to support State requirements; and

WHEREAS, the Texas Antiquities Committee will accept the nomination of any public owned building over fifty years old for designation as a State Archeological Landmark on nomination by either one person from the county or one person from their own staff and without regard to short or long range cost to local taxpayers; and

WHEREAS, the nomination to become a State Archeological Landmark passes control of county property from the Commissioners Court of a county to the Antiquities Committee and requires that a Commissioners Court apply for a permit from that committee to alter or demolish public property, all at added expense to local taxpayers; and

WHEREAS, VERNON'S ANNOTATED CIVIL STATUTES, LOCAL GOVERNMENT CODE, ARTICLE 291.001, **PROVIDING AND MAINTAINING COUNTY BUILDINGS,** reads, "The Commissioners Court of a county shall:

WHEREAS, the criteria published in the Texas Antiquities Code and promulgated in their regulations is written in a manner that will permit any building in Texas that is county owned and over fifty years old to be nominated and designated as a State Archeological Landmark and provides administrative fines against local taxpayers to enforce the rule; and

WHEREAS, the Commissioners Court has been presented a petition from over eleven hundred registered voters opposing designation of the Courthouse and other county buildings as State Archeological Landmarks without a vote of the people,

NOW, THEREFORE BE IT RESOLVED that the Wharton County Commissioners Court respectfully requests that action be taken to investigate the impact created by actions of the Antiquities Committee, and

BE IT FURTHER RESOLVED that the authority granted the Texas Antiquities Committee/Texas Historical Commission enacted through publication rather than legislative debate, be changed to include a requirement that a nomination of county owned buildings be subject to approval of Commissioners Court or a majority vote in a county.

SUBJECT: REGARDING UNFUNDED MANDATES

Enclosed is a copy of a resolution which was unanimously adopted by the Taylor County Commissioners Court on February 15, 1994. I was asked to forward this resolution to key governmental leaders.

Taylor County has become quite concerned about the alarming number of unfunded and underfunded mandates which continue to flow down to counties. We solicit your support in addressing this serious problem by:

- adopting a similar resolution,
- encouraging other governmental entities in your county to do likewise, and
- by forwarding such resolutions to key governmental leaders.

Your assistance in support of quality government in Texas will be appreciated.

DATE: April 26, 1994

I am asking permission to continue participation in the National School Lunch/Breakfast Programs (NSLP/SBP) administered by the Texas Department of Human Services (TDHS). The contract year is July 1, 1994 through June 30, 1995. If approved, this will be our sixth year of participation.

The NSLP/SBP partially reimburses Fort Bend County for the cost of meals served in the Detention Facility. Our budgeted line item for food cost for FY94 is $40,000. It is anticipated this program will reimburse the county between $24,000 to $25,000 this fiscal year relative to the numbers of juveniles detained and meals served. Reimbursements ranging from $2,100 to $2,300 are received monthly and are deposited into the General Fund.

Your permission to continue participation in this program will be appreciated.

A. If the contractor fails to provide services according to the provisions of this contract, TDHS may, upon notifying the contractor in writing, immediately terminate the whole or any part this contract and refuse to pay claims for reimbursement. Such termination and/or refusal to pay claims will not be an exclusive remedy but an addition to any other rights and remedies provided by law or under this contract.

B. If federal and state laws or other requirements are amended or judicially interpreted so that for either party fulfilling of this contract, would be substantially unreasonable or impossible, or if the parties are unable to agree upon any amendment that would therefore be needed to enable the substantial continuation of the services contemplated by this contract, then the parties will be discharged from any further obligations under the terms of this contract, except for the equitable settlement of respective accrued interest or obligations, including audit findings, incurred up to the termination date.

C. This contract may be cancelled by mutual consent. If mutual consent cannot be attained, then either party may consider it cancelled without cause by giving thirty (30) days written notice to the other party, thus cancelling this contract when the thirty (30) day period expires. Form 2046
October 1990

REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION FOR COVERED CONTRACTS

Federal Executive Order 12549 requires the Texas Department of Human Services (DHS) to screen each covered potential contractor to determine whether each has a right to obtain a contract in accordance with federal regulations on debarment, suspension, ineligibility, and voluntary exclusion. Each covered contractor must also screen each of its covered subcontractors.

In this certification "contractor" refers to both contractor and subcontractor; "contract" refers to both contract and subcontract.

By signing and submitting this certification the potential contractor accepts the following terms:

1. The certification herein below is a material representation of fact upon which reliance was placed when this contract was entered into. If it is later determined that the potential contractor knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the Department of Health and Human Services, United States Department of Agriculture or other federal department or agency, or the Texas Department of Human Services may pursue available remedies, including suspension and/or debarment.

2. The potential contractor shall provide immediate written notice to the person to which this certification is submitted if at any time the potential contractor learns that the certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

3. The words "covered contract," "debarred," "suspended," "ineligible," "participant," "person," "principal," "proposal," and "voluntarily excluded," as used in this certification have meanings based upon materials in the Definitions and Coverage sections of federal rules implementing Executive Order 12549. Usage is as defined ~~in the attachment.~~

4. The potential contractor agrees by submitting this certification that, should the proposed covered contract be entered into, it shall not knowingly enter into any subcontract with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Department of Health and Human Services, United States Department of Agriculture or other federal department or agency, and/or the Texas Department of Human Services, as applicable.

   Do you have or do you anticipate having subcontractors under this proposed contract? ..... ☐ Yes ☒ No

5. The potential contractor further agrees by submitting this certification that it will include this certification titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion for Covered Contracts" without modification, in all covered subcontracts and in solicitations for all covered subcontracts.

6. A contractor may rely upon a certification of a potential subcontractor that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered contract, unless it knows that the certification is erroneous. A contractor must, at a minimum, obtain certifications from its covered subcontractors upon each subcontract's initiation and upon each renewal.

7. Nothing contained in all the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this certification document. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

8. Except for contracts authorized under paragraph 4 of these terms, if a contractor in a covered contract knowingly enters into a covered subcontract with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, Department of Health and Human Services, United States Department of Agriculture, or other federal department or agency, as applicable, and/or the Texas Department of Human Services may pursue available remedies, including suspension and/or debarment.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION FOR COVERED CONTRACTS

CERTIFICATION REGARDING FEDERAL LOBBYING
(Certification for Contracts, Grants, Loans, and Cooperative Agreements)

PREAMBLE

Federal legislation, Section 319 of Public Law 101-121 generally prohibits entities from using federally appropriated funds to lobby the executive or legislative branches of the federal government. Section 319 specifically requires disclosure of certain lobbying activities. A federal government-wide rule, "New Restrictions on Lobbying," published in the *Federal Register*, February 26, 1990, requires certification and disclosure in specific instances and defines terms:

Covered Awards and Subawards—Contracts, grants, and cooperative agreements over the $100,000 threshold need (1) certifications, and (2) disclosures, if required. (See certification term number 2 concerning disclosure.)

Lobbying—To lobby means "to influence or attempt to influence an officer or employee of any agency (federal), a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with any of the following covered federal actions:

- the awarding of any federal contract,
- the making of any federal grant,
- the making of any federal loan,
- the entering into of any cooperative agreement, and
- the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan or cooperative agreement."

Limited Use of Appropriated Funds Not Prohibited—The prohibition on using appropriated funds does not apply to activities by one's *own employees* with respect to:

- liaison activities with federal agencies and Congress not directly related to a covered federal action;
- providing any information specifically requested by a federal agency or Congress;
- discussion and/or demonstration of products or services if not related to a specific solicitation for a covered action; or
- professional and technical services in preparing, submitting or negotiating any bid, proposal or application for a federal contract, grant loan or cooperative agreement or for meeting legal requirements conditional to receipt of any federal contract, grant, loan or cooperative agreement. (The prohibition also does not apply to such services provided by nonemployees for the same purposes.)

Professional and Technical Services—Professional and technical services shall be advice and analysis directly applying any professional or technical expertise. Note that the professional and technical services exemption is specifically limited to the merits of the matter.

Other Allowable Activities—The prohibition on use of federally appropriated funds does not apply to influencing activities not in connection with a specific covered federal action. These activities include those related to legislation and regulations for a program versus a specific covered federal action.

Funds Other Than Federal Appropriations—There is no federal restriction on the use of nonfederal funds to lobby the federal government for contracts, grants, and cooperative agreements.

Applicability of Other State and Federal Requirements—Neither the government-wide rule nor the law affect either (1) the applicability of cost principles in OMB circulars A-87 and A-122, or (2) riders to the Texas State Appropriations Acts which disallow use of state funds for lobbying.

(If needed, contact your Texas Department of Human Services procurement officer or contract manager to obtain a copy of Standard Form-LLL.)

- the entering into of any cooperative agreement, and
- the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan or cooperative agreement."

Limited Use of Appropriated Funds Not Prohibited—The prohibition on using appropriated funds does not apply to activities by one's *own employees* with respect to:

- liaison activities with federal agencies and Congress not directly related to a covered federal action;
- providing any information specifically requested by a federal agency or Congress;
- discussion and/or demonstration of products or services if not related to a specific solicitation for a covered action; or
- professional and technical services in preparing, submitting or negotiating any bid, proposal or application for a federal contract, grant loan or cooperative agreement or for meeting legal requirements conditional to receipt of any federal contract, grant, loan or cooperative agreement. (The prohibition also does not apply to such services provided by nonemployees for the same purposes.)

Professional and Technical Services—Professional and technical services shall be advice and analysis directly applying any professional or technical expertise. Note that the professional and technical services exemption is specifically limited to the merits of the matter.

Other Allowable Activities—The prohibition on use of federally appropriated funds does not apply to influencing activities not in connection with a specific covered federal action. These activities include those related to legislation and regulations for a program versus a specific covered federal action.

Funds Other Than Federal Appropriations—There is no federal restriction on the use of nonfederal funds to lobby the federal government for contracts, grants, and cooperative agreements.

Applicability of Other State and Federal Requirements—Neither the government-wide rule nor the law affect either (1) the applicability of cost principles in OMB circulars A-87 and A-122, or (2) riders to the Texas State Appropriations Acts which disallow use of state funds for lobbying.

NONGOVERNMENTAL CONTRACTOR CERTIFICATION

Form 4732
June 1993

The Texas Department of Human Services (DHS) has adopted rules pertaining to contracting with organizations in which a former board member or employee (whose last day of duty was within the past two years) has any ownership or control, or who is an employee or consultant of such organization. Also, Texas Revised Civil Statutes, Article 5547-202, Section 2.45 prohibits for one year after employment former DHS employees in pay grades equivalent to or above pay grade 17, Step 1, from helping (for pay) another entity obtain a contract with DHS in an area for which the former employee was directly concerned or had administrative responsibility. Additionally, DHS has adopted standards for contracting with contractors associated with current or former employees and board members, and their relatives.

All potential non-governmental contractors for any type of contract must complete this certification. The contract, if awarded, may be terminated for cause if

(1) the contractor knowingly provides incorrect information in its certification; or
(2) the contractor uses a subterfuge, such as a subcontract arrangement, to avoid the application of state laws or DHS rules.

1. Does the potential contractor have as an officer, director, employee, consultant, or owner (in part or whole) a person (a) who is now a DHS employee or DHS board member, or (b) who was a former DHS board member or former DHS employee and whose last day of duty with DHS was within the past two years? ☐ Yes ☒ No

2. Does the potential contractor have as an officer, director, employee, consultant, or owner (in part or whole) a person who is related in the following manner (a) to a current DHS employee or DHS board member, or (b) to a former DHS employee or DHS board member whose last day of service was within the past two years? ☐ Yes ☒ No

CERTIFICATION

I certify that the information above is complete, true and correct to the best of my knowledge. I understand that lack of full, true and complete disclosure may be grounds for withholding payment for delivered services and may cause contract termination.

SUBJ: Renewal Agreement for USDA Commodities

For the past five years the Juvenile Probation Department has participated in the National School Lunch/Breakfast Program and USDA Commodities Program as an integral part of the operation of the Juvenile Detention Center.

Annually, a renewal agreement must be executed to continue to receive food items from the USDA Commodities Program. The commodities that are received by the Detention Center cost this Department a nominal ($1 to $10) warehouse flooring charge but, for that flooring charge, we receive a substantial value in commodities ($40 to $150) per month to supplement food prepared for children as part of the National School Lunch Program.

The attached form requires your signature as the "Official Authorized to Sign Contracts" for Fort Bend County.

If I may answer any questions about the National School Lunch Program or the Commodities Program, please contact me.

MEMORANDUM

TO: Roy L. Cordes, Jr., County Judge

FROM: Richard Selleh, Director R.S. by OT
Human Resources Department

SUBJECT: Reserve Deputy - Jimmy Green

DATE: February 9, 1994

As per Constable Breeding's request, the Human Resources Department has reviewed the criminal history, driving record and references for reserve deputy applicant, Jimmy Green.

In October 1993, Mr. Green was involved in a shooting incident in the parking lot of his apartment complex, that resulted in the death of one of four men attempting to steal a car. On January 6, 1994, a Harris County Grand Jury no billed Mr. Green of any charges resulting from this incident.

Upon completion of the review of work history and references and the action taken by the Harris County Grand Jury, the Human Resources Department recommends Mr. Green as a Reserve Deputy for Constable Breeding, Precinct 2.

Due to the above circumstances concerning the applicant, I wanted to notify the Court prior to issuance of a recommendation by the Human Resources Department. If you have concerns that you would like to discuss concerning the applicant, please contact me at 341-8619. Upon completion of the review by the Court, the Human Resources Department will notify Constable Breeding of the recommendation.

Thank you for your assistance with this request.

Fulshear, TX 77441

RE: FOSTER CREEK ESTATES, SECTION 2

Dear Commissioner Lutts:

The Fort Bend County Engineering Department has completed its inspection for the referenced subdivision for acceptance into the Fort Bend County Maintenance System.

Prior to acceptance, the residents must furnish a recorded deed for the right-of-ways of Swanson Lake Drive, Cristelia Circle and West Twin Circle. These roadways appear to have adequate roadside ditches for drainage. The roadway themselves have approximately 4" to 6" of base material with one lane of driveable area approximately 12' to 14' width, however it appears that the base material does cover required width. Therefore a cost estimate is attached for the cost of materials to bring these roadways into compliance with Fort Bend County paving acceptance requirements.

Should you have any questions or need additional information, please call.

Sincerely,

Nathan D. Hatcher
Assistant to County Engineer

FORT BEND COUNTY

OFFICE OF
GILBERT D. JALOMO, JR., CPPB
COUNTY PURCHASING AGENT

April 27, 1994

Each Member Purchasing Agent Appointment Board
Each Member Commissioners Court
Fort Bend County, Texas

Subject: Status Report - Central Store Operations.

A. Hiring of Central Store Clerk.

On March 2, 1994, Mr. David Callicoatte was hired as our part-time Central Store Clerk. During the next two months David was trained on the AMS Local Government Financial System. David was also tasked with researching the type of items most suited to be sold in the Central Store.

B. Incorporation of AMS LGFS.

We have been able to incorporate LGFS into the operation of the Central Store. The store's catalog will be listed in the system under commodity 610 with an extended commodity for each item carried in the store. The extended commodity will include the actual sale price of the item which includes the 51% discount received off of manufacturer's list price. AMS will also provide us with the ability to check outstanding invoices, paid invoices and fund balances daily.

C. Using Departments Response.

Several phone calls have been received in the Purchasing Department over the past month inquiring as to the status of the store and when it will open for business. It's obvious to us that once the store is open it will be heavily utilized by the departments located within the Courthouse Complex.

D. Discrepancies.

A 100% Inventory of all items remaining in the store after it's closure on January 14, 1994 was conducted. We have $3,427 worth of inventory on the shelves.

AGENDA ITEM # 27

500 Liberty Street, Suite 103, Richmond, Texas 77469 • (713) 341-8640 • Fax (713) 341-8642

All invoices issued by the Central Store during FY-1993 were pulled and check against invoices paid. We discovered that $1,954.00 worth of invoices were never submitted for payment. These unpaid invoices are now in the process of being paid. We also discovered that during the period February 15, 1993 thru June 28, 1993 an estimated $350.00 worth of items sold to using departments were never invoiced.

The prices charged for items carried in the store during FY-1993 were actually the prices charged in 1992. Several items were under charged thus creating a shortfall of $4,173.00. For example the store was paying $14.82 a case for 9-1/2" x 11" computer paper; however, when this item was sold to a using department it was invoiced at the 1992 price of $11.62 a case, a $3.21 discrepancy.

In all, the store experienced a $4,506.85 short-fall during FY-1993. The County Auditor has advised us that this short-fall needs to be rectified and recommended that a transfer of funds be made into the Store's account. I suggest a transfer of $6,000 which would balance the store's books as well as provide us with $1,500 to restock the store. Should this transfer of funds be accomplished the store would be open for business immediately.

E. SUMMARY:

We learned that the accounting software historically used in the store was inadequate and I am confident that with the implementation of AMS we will be able to monitor the store's performance on a daily basis and insure a true audit trail.

Dear Judge Cordes:

Governor Richards has received documentation from the Small Business Administration (SBA) that your county has been approved for assistance due to the fact that it is contiguous to a declared county. I am forwarding a copy of the notification by SBA which announces that Small Business concerns may apply for loans for Physical Damage and Economic Injury as a result of the disaster.

Please note the disaster incident period and the last possible dates to file applications with the SBA. I will keep you informed of any further developments.

Homeowners, renters and businesses who were victims of the April 15, 1994 tornado which occurred in Crosby, Harris County are now eligible for low-interest disaster loans from the U.S. Small Business Administration (SBA). The loans are available as a result of SBA Administrator Erskine B. Bowles' Friday declaration of Harris and adjacent counties as a disaster area.

The SBA is opening a temporary disaster loan workshop at 1:00 PM Sunday, May 1 at the Indian Shores Civic Center located at 20731 Appaloosa Trail in Crosby. The workshop will be open from 1:00 PM to 6:00 PM Sunday and from 9:00 AM to 6:00 PM Monday through Friday.

At the loan workshop tornado victims can get a disaster loan application and receive help in completing the loan application. Those victims who cannot visit the disaster loan workshop may call the SBA toll-free at 1-800-366-6303 or TDD 817-267-4688 for the hearing impaired.

The SBA can loan up to $200,000 to repair or replace an individual's primary residence and up to $40,000 to repair or replace disaster damaged personal property of homeowners and renters. Businesses of all sizes and non-profit organizations can borrow up to $1,500,000 to repair disaster damages. Interest rates as low as four percent (4%) and terms of up to thirty (30) years are available according to the applicant's ability to repay the loan.

The SBA makes its loan decision according to each applicant's credit history and ability to repay the loan. SBA loans are for uninsured losses only, however, disaster victims do not need to wait for an insurance settlement before applying for a loan. The deadline for filing a physical disaster loan application is June 30, 1994.

If you or a member of your staff have any questions, please call Jim Atkins at 817-885-7600, ext. 144.

Sincerely,

RE: Waiver of Penalty and Interest - William John McTernan
Account #7560-04-002-0590-907
Precinct #4

Mr. McTernan is requesting waiver of penalty and interest on the above referenced account for 1993.

1. Mr. McTernan purchased the property in November 1993 after the 1993 tax statements were mailed out.
2. 1993 Fort Bend County taxes were available at the time the property was purchased.
3. Mr. McTernan's title company should have handled the payment of the 1993 Fort Bend County taxes at the time of closing.
4. The statement Mr. McTernan received in February 1994 was due to the research of returned mail by the tax office against the appraisal district ownership records for tax year 1994.

Breakdown of Taxes Paid:

Base Tax	$2,143.89
Penalty & Interest	150.08
Total Paid	$2,293.97

I do not recommend waiver as there is no evidence of error on the part of the tax office or the central appraisal district.

The tax office suggests Mr. McTernan address this problem with his title company.

Re : ***Request for Waiver of Penalty and Interest on Tax Payment***

Dear Judge Cordes,

I am writing to request to be placed on the Commissioners Court agenda to protest the imposition of penalty and interest charges relating to the payment of my 1993 Fort Bend County property taxes.

My account number is	:	7560-04-002-0590-907
Property description	:	Sugar Lakes Section 4, Block 2, Lot 59
Parcel Address	:	731 Lakeshore Drive, Sugarland, TX. 77478
Phone	:	Home 265-5147, Office 963-2379

I purchased the above property on 22nd November 1993 and at closing received an estimate of what the 1993 taxes were expected to be. I put the money aside to await the bill and was ready to pay the taxes as soon as I knew what the amounts were and who to pay them to.

On 17th February I received the 1993 property tax statement showing that the assessed taxes were $2143.89 but a penalty had been added to give a new amount due of $2293.97. Since this was the first tax bill I had received, I mailed my cheque for $2143.89 the same day. This was returned to me with a letter dated 24th February advising that penalties and interest were owed due to late payment.

In a telephone call to the Fort Bend tax office, supervisor Karen Stell explained the procedures to me and back-tracked the paperwork to find out why I had not received any bills till 17th February. She advised that the previous bills had been sent to the old owner of the property and were returned by the post office. Further investigation then revealed that the Central Appraisal District had updated their records on 18th January to my correct mailing address and the tax office then mailed the bill which I received and paid on 17th February.

In view of the fact that as a newcomer to the state of Texas, I was ready to pay,and in fact did pay the taxes the same day the bill was presented, I think that the imposition of a penalty is grossly unfair, and request that it be cancelled and a credit issued.

Sincerely,
William John McTernan

RE: Waiver of Penalty and Interest - Dipak K. Mukherjee
Account #4820-01-001-0030-907
Precinct #4

Mr. Mukherjee is requesting waiver of penalty and interest on the above referenced account for 1993.

1. Lomas Mortgage USA requested the 1993 tax statement.
2. Lomas Mortgage USA paid the 1992 taxes.
3. No notification was received in this office from Lomas Mortgage USA, their servicing agent, First American Real Estate Tax Service, or Mr. Mukherjee regarding the change of status.

With the volume of refinancing, sales, etc., the tax office does not have the personnel or resources to ascertain that each statement has been delivered to the proper person. By law, if a mortgage company requests a tax statement we must send the statement to them. The tax office does make every effort to keep the taxpayers informed and make them aware of their responsibilities.

Breakdown of Taxes Paid:

Base Tax	$636.70
Penalty & Interest	57.31
Total Paid	$694.01

I do not recommend waiver as there is no evidence of error on the part of the tax office or the central appraisal district.

Sir,

I did not receive any notification with regard to the Fort Bend County Tax for the year of 1994 for my residential home before the first week of March. Consequently, I was unable to pay the corresponding tax before the month of March. However, I received notifications from the Fort Bend I.S.D. and The City of Sugarland for their taxes, and I paid up relevant taxes in due time. I refinanced my mortgage last year. Last five years, I always paid up my taxes in due time.

Therefore, I request you to be kind enough to waive the penalty and interest for the Fort Bend County Tax for the this year.

Thank you very much.

Sincerely,

DIPAK K. MUKHERJEE

NON-GOVERNMENTAL CONTRACTOR'S CERTIFICATION

PURPOSE

State law requires the department to notify the Legislative Budget Board (LBB) and Governor's Office 30 days in advance of contracting when a contract or contract renewal is with a contractor in which a former board member or employee (whose last day of duty was on or after September 1, 1987) has a substantial interest. Also, Article 5547-204, §2.46 prohibits for one year after employment former DHS employees in pay grades equivalent to or above pay grade 17, Step 1, from assisting (for pay) another entity to obtain a contract with DHS in an area for which the former employee was directly concerned or had administrative responsibility. Additionally, Texas Revised Civil Statutes, Article 6252-9b, provides standards of conduct for current board members and employees. This certification provides a means for collecting and distributing mandated information. Incorrect or incomplete information may render a contract unpayable or cause termination. The information is utilized to determine whether the contract/contract renewal may be consummated.

PROCEDURE

Any non-governmental entity contracting with the department to provide goods, services (including any professional services) or products must complete the certification form and submit it to the department prior to contracting. If Form 2031, Corporate Board of Directors Resolution, or Form 4508, Certificate of Authority, is prepared as part of the contract, the person authorized on the form to sign the contract must also complete the certification. The person signing the contract for the potential contractor signs the certification.

If "yes" is answered to either or both of the questions in the certification, the potential contractor must also complete and attach to the certification Form 4732-A, Non-Governmental Contractor Certification (Part II).

When to Prepare

The certification must be prepared and submitted to the area purchasing the contract prior to consummating a new contract or a contract renewal. It must be submitted early enough (usually 60 days prior to the contract's effective date) so that the purchasing area can provide it to the department's Office of the General Counsel 45 days prior to the contract's effective day if a "yes" is answered to either question 1 or question 2.

If the contract is a new procurement, rather than a renewal, the certification is submitted according to instructions in the request for proposal.

Number of Copies

Complete a certification for each copy of the contract offer/contract renewal submitted to the department.

Transmittal

Forward the appropriate number of certifications to the department's procurement officer (for new contracts) or contract manager (for contract renewals). The certification is submitted as part of the offeror's procurement package or as indicated in the instructions to the procurement package. In cases of contract renewals, the certification is submitted to the contract manager approximately 60 days prior to effective date of any proposed renewal.

Form Retention

Consistent with §69.202 and Contract Administration Handbook, Item 1400, the form retention rule and policies, the successful contractor's certification document must be

83 0538

kept for three years and 90 days after the contract period ends or until all litigation, claims, or audit findings are resolved, whichever is longer. Unsuccessful offerors' certification documents must be kept a minimum of six months after the effective date of the contract or until the resolution of any appeal or litigation resulting from the procurement, whichever is longer.

Additionally, DHS has adopted standards for contracting with contractors associated with current or former employees and board members, and their relatives.

All potential non-governmental contractors for any type of contract must complete this certification. The contract, if awarded, may be terminated for cause if

CERTIFICATION REGARDING DEBARMENT, INELIGIBILITY, AND VOLUNTARY EXCLUSION FOR COVERED CONTRACTS

PURPOSE

1. Federal regulations (based upon Executive Order 12549) require use of Form 2046, Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion for Covered Contracts. The certification is used to screen both new and renewed covered contracts, subgrants and subcontracts. If any offeror refuses to fill out the certification or the certification process finds that the entity has lost its rights to receive federal funds through formal federal removal processes (debarment, suspension, ineligibility, or voluntary exclusion), the contract, subgrant, or subcontract cannot be entered into or renewed.

2. This certification form is not used for contracts governed by State Purchasing and General Services Commission rules.

PROCEDURE

The certification is used to screen both new and renewed contracts, subgrants, and subcontracts. Certification must be identified during any type purchase method as a screenable. (See Item 2142.11, number 13, Contract Administration Handbook for an example.)

Applicability

The certification is used for contracts, subgrants, and subcontracts which contain federal funds and which are (1) over $25,000; or (2) with a principal investigator (such as a researcher or consultant); or (3) for required independent audit services (such as a single audit). If a contract meets at least one of these criteria, the certification is necessary. These are defined as covered contracts, subgrants, and subcontracts.

When to Prepare

If any one of the three preceding conditions are met, DHS and DHS contractors and subgrantees must include the certification as part of their contracts and subcontracts. The certification must be used for covered contracts, subgrants, and subcontracts whether or not competitive procurement is used. The certification is completed each time a covered contract, subgrant, or subcontract is consummated or renewed.

Number of Copies

One form for each application, procurement, or renewal package is submitted to the department. Each form must bear an original signature.

Transmittal

The certification is returned to DHS as part of the completed application, procurement, or renewal package. The instructions in the package specify to whom the material, including the certification, is returned.

Form Retention

The successful offeror's Form 2046 must be kept for three years and 90 days after the contract period ends or until all litigation, claims, or audit findings are resolved, whichever is longer. Form 2046 for unsuccessful offerors must be kept a minimum of six months after the effective

CERTIFICATION REGARDING FEDERAL LOBBYING: CERTIFICATION FOR CONTRACTS GRANTS, LOANS, AND COOPERATIVE AGREEMENTS

PURPOSE

1. Federal legislation, Section 319 of Public Law 101-121, generally prohibits entities from using federally appropriated funds to lobby the executive or legislative branches of the federal government. A federal government-wide rule, "New Restrictions on Lobbying", published in the **Federal Register**, February 26, 1990, requires a debarment certification for contracts, subgrants, and subcontracts over $100,000 which contain federal funds and are initiated on or after December 23, 1989.

2. Certification is conducted to assure that

- a contractor understands prohibitions against lobbying the federal government using federally appropriated funds, and
- DHS does not knowingly enter into transactions in which entities have lobbied the federal government using federally appropriated funds.

3. If federal funds are used to lobby the federal government in order to obtain the award, the award cannot legally be granted.

PROCEDURE

When to Prepare

DHS is required to obtain a lobbying certification as part of the screening process for contracts, subgrants, and subcontracts that are over $100,000 and that contain federal funds. Such contracts, subgrants, and subcontractors are defined as covered. The prospective contractor, subgrantee, or subcontractor must be notified in the procurement or subgrant package that the certification will be used to help screen his offer. Using the certification, screening is done if the contract was originally initiated on or after December 23, 1989.

Note: The following is an example of one situation involving a new contract and requiring a lobbying certification form:

> A family care contract has just been awarded. The competitive procurement process results in the same provider as the one previously holding the contract in the procurement's geographic area. Even though the contract is with the same provider, it is a new contract; it is **not** a renewed contract.

Renewals are also screened using the form, if either of the following conditions exist:

- A contract initiated **prior** to December 23, 1989, is renewed, and its scope is changed.
- A contract initiated on or after December 23, 1989, is subsequently renewed.

The same conditions apply to contractors and subgrantees when they purchase subcontracts in excess of $100,000 and use federal funds to meet their obligations to DHS. By signing the certification, a contractor or subgrantee has an obligation to screen his covered potential subcontractors before he can enter into a covered subcontract.

Texas Dept. of Human Services
CAH 90-15/December 1990

Number of Copies

One form for each application, procurement, or renewal package is submitted to the department. Each form must bear an original signature.

Transmittal

The certification is returned to DHS as part of the completed application, procurement, or renewal package. The instructions in the package specify to whom the material, including the certification, is returned.

Forms Retention

Form 2047 for the successful offeror must be kept for three years and 90 days after the contract period ends, or until all litigation, claims, or audit findings are resolved, whichever is longer. Form 2047 for unsuccessful offerors must be kept a minimum of six months after the effective date of the contract or until the resolution of any appeal or litigation resulting from the procurement, whichever is longer.

DETAILED INSTRUCTIONS

CERTIFICATION
REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION FOR COVERED CONTRACTS

Federal Executive Order 12549 requires the Texas Department of Human Services (DHS) to screen each covered potential contractor to determine whether each has a right to obtain a contract in accordance with federal regulations on debarment, suspension, ineligibility, and voluntary exclusion. Each covered contractor must also screen each of its covered subcontractors.

In this certification "contractor" refers to both contractor and subcontractor; "contract" refers to both contract and subcontract.

By signing and submitting this certification the potential contractor accepts the following terms:

1. The certification herein below is a material representation of fact upon which reliance was placed when this contract was entered into. If it is later determined that the potential contractor knowingly rendered an erroneous certification, in addition to other remedies available to the federal government, the Department of Health and Human Services, United States Department of Agriculture or other federal department or agency, or the Texas Department of Human Services may pursue available remedies, including suspension and/or debarment.

2. The potential contractor shall provide immediate written notice to the person to which this certification is submitted if at any time the potential contractor learns that the certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

3. The words "covered contract", "debarred", "suspended", "ineligible", "participant", "person", "principal", "proposal", and "voluntarily excluded", as used in this certification have meanings based upon materials in the Definitions and Coverage sections of federal rules implementing Executive Order 12549. Usage is as defined in the attachment.

4. The potential contractor agrees by submitting this certification that, should the proposed covered contract be entered into, it shall not knowingly enter into any subcontract with a person who is debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the Department of Health and Human Services, United States Department of Agriculture or other federal department or agency, and/or the Texas Department of Human Services, as applicable.

   Do you have or do you anticipate having subcontractors under this proposed contract? ..... [ ] Yes [X] No

5. The potential contractor further agrees by submitting this certification that it will include this certification titled "Certification Regarding Debarment, Suspension, Ineligibility, and Voluntary Exclusion for Covered Contracts" without modification, in all covered subcontracts and in solicitations for all covered subcontracts.

6. A contractor may rely upon a certification of a potential subcontractor that it is not debarred, suspended, ineligible, or voluntarily excluded from the covered contract, unless it knows that the certification is erroneous. A contractor must, at a minimum, obtain certifications from its covered subcontractors upon each subcontract's initiation and upon each renewal.

7. Nothing contained in all the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this certification document. The knowledge and information of a contractor is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

8. Except for contracts authorized under paragraph 4 of these terms, if a contractor in a covered contract knowingly enters into a covered subcontract with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the federal government, Department of Health and Human Services, United States Department of Agriculture, or other federal department or agency, as applicable, and/or the Texas Department of Human Services may pursue available remedies, including suspension and/or debarment.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION FOR COVERED CONTRACTS

Indicate in the appropriate box which statement applies to the covered potential contractor:

[ ] The potential contractor certifies, by submission of this certification, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participation in this contract by any federal department or agency or by the State of Texas.

[ ] The potential contractor is unable to certify to one or more of the terms in this certification. In this instance, the potential contractor must attach an explanation for each of the above terms to which he is unable to make certification. Attach the explanation(s) to this certification.

Form 506: Group B (Sections A and B) and Group B Bonus (Section C)
(Charitable Institutions)

The **Form 506: Group B (Sections A and B) and Group B Bonus (Section C)** should be used to request USDA commodities for contract year 1994-1995 (October 1, 1994 through September 30, 1995). This form will need to be completed according to the following instructions, signed by the authorized representative of your agency, and returned with all required forms within your application packet.

Sections A and B list the group B commodities that may be available this contract year. Because the market fluctuates on these items, the unit costs set by USDA (provided on the order form for information only) are estimated prices. The actual purchased price will be provided by your assigned commercial distributor on your weekly bulletin.

Section C lists the group B bonus commodity available for this contract year -- butter.

Requesting commodities for group B and B bonus are handled on a monthly basis by number of units requested for each month. In requesting units, be sure to notice that under each commodity name is the one unit category for that item. *For example*, one unit of B445 rolled oats contains twelve 3 pound bags (12/3# = 36 pounds). Thus, if you use up to 12 bags (or up to 36 pounds) of rolled oats per month, you would order one unit; if you use between 12 and 24 bags (or up to 72 pounds) per month, you would order two units, etc.

To complete this form, write the number of units for each commodity that you wish to receive by the month in which you wish to receive it. Total the number of units ordered and place that number in the **Total Units** column for each commodity. *Remember: The cost shown on the form is for information purposes only.* Be sure to have the authorized representative from your agency sign the form.

Confirmation Order Form (506C)

After this initial form 506 is processed, TDHS will send you a confirmation copy (form 506C) of your order. Use this form 506C to verify your initial order and to submit subsequent changes.

Changes to Orders: Utilizing the Form 506C

Changes to requests for commodities should be made to your assigned commercial distributor by submitting the form 506C marked with all changes you are requesting. To facilitate the smooth flow of ordering, allocating, and delivering commodities, ***changes to requests will not take effect for three months.*** The cutoff for changes is the 10th of each calendar month.

For example, if you submit a change to your assigned commercial distributor by the 10th day of August, the distributor will not make the change effective until the first allocation in November. If your change was submitted on the 11th day of August, the change will not take effect until the first allocation in December.

CERTIFICATION REGARDING FEDERAL LOBBYING
(Certification for Contracts, Grants, Loans, and Cooperative Agreements)

PREAMBLE

Federal legislation, Section 319 of Public Law 101-121 generally prohibits entities from using federally appropriated funds to lobby the executive or legislative branches of the federal government. Section 319 specifically requires disclosure of certain lobbying activities. A federal government-wide rule, "New Restrictions on Lobbying", published in the *Federal Register*, February 26, 1990, requires certification and disclosure in specific instances and defines terms:

Covered Awards and Subawards -- Contracts, grants, and cooperative agreements over the $100,000 threshold need (1) certifications, and (2) disclosures, if required. (See certification term number 2 concerning disclosure.)

Lobbying -- To lobby means "to influence or attempt to influence an officer or employee of any agency (federal), a member of Congress, an officer or employee of Congress, or an employee of a member of Congress in connection with any of the following covered federal actions:

- the awarding of any federal contract,
- the making of any federal grant,
- the making of any federal loan,
- the entering into of any cooperative agreement, and
- the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan or cooperative agreement.

Limited Use of Appropriated Funds Not Prohibited -- The prohibition on using appropriated funds does not apply to activities by one's *own employees* with respect to:

- liaison activities with federal agencies and Congress not directly related to a covered federal action;
- providing any information specifically requested by a federal agency or Congress;
- discussion and/or demonstration of products or services if not related to a specific solicitation for a covered action; or
- professional and technical services in preparing, submitting or negotiating any bid, proposal or application for a federal contract, grant, loan or cooperative agreement or for meeting legal requirements conditional to receipt of any federal contract, grant, loan or cooperative agreement. (The prohibition also does not apply to such services provided by nonemployees for the same purposes.)

Professional and Technical Services -- Professional and technical services shall be advice and analysis directly applying any professional or technical expertise. Note that the professional and technical services exemption is specifically limited to the merits of the matter.

Other Allowable Activities -- The prohibition on use of federally appropriated funds does not apply to influencing activities not in connection with a specific covered federal action. These activities include those related to legislation and regulations for a program versus a specific covered federal action.

Funds Other Than Federal Appropriations -- There is no federal restriction on the use of nonfederal funds to lobby the federal government for contracts, grants, and cooperative agreements.

Applicability of Other State and Federal Requirements -- Neither the government-wide rule nor the law affect either (1) the applicability of cost principles in OMB circulars A-87 and A-122, or (2) riders to the Texas State Appropriations Acts which disallow use of state funds for lobbying.

Transferring USDA Commodities

When the situation arises that a recipient agency (RA) has an excess of USDA commodities or has commodities in inventory that will not be used, it is possible to transfer those commodities to another RA contracted with TDHS.

These situations are determined either through TDHS, as a result of an RA's annual reporting of USDA commodities reflecting an excess of commodities on hand, or if an RA determines that the commodities on hand will not be used either before the shelf life expires or upon the discovery of an excess of a particular commodity.

Transferring of USDA commodities involves completion of the following two forms by both the transferring RA and the receiving RA:

- **REQUEST TO TRANSFER USDA COMMODITIES**

  When the transferring RA (the RA making the request) notifies their TDHS contract technician of their desire to make transfer and the reason for the request (e.g. excess inventory), the contract technician provides this form to the transferring RA for completion.

  Both the transferring RA and the receiving RA must have active contracts with TDHS. It will be the responsibility of the transferring RA to contact TDHS to obtain this information.

  The transfer of commodities can only be made between "like" agencies (e.g. charitable institutions can only transfer to another charitable institution; a jail can only transfer to another jail). The RA can request that the TDHS contract technician make contact with another RA, or the transferring RA can make the contact and notify TDHS of the receiving RA.

  The transferring RA should complete this form and forward it to their TDHS contract technician. The form must be signed by both RAs involved. The contract technician will review the request and notify (via FAX) both the transferring RA and the receiving RA of approval. The actual transfer of commodities should not occur without this written authorization. The completed form should be faxed to the contract technician in Food Distribution at 512/467-5808.

- **RECORD OF RECEIPT OR TRANSFER OF USDA COMMODITIES**

  Upon receipt of the written authorization from TDHS to transfer commodities, the transferring RA should make arrangements with the receiving RA to execute the actual transfer. The transferring RA should complete this form, ensuring both involved RAs sign the form, and forward to their TDHS contract technician.

Both RAs should keep copies of these forms in their files for three years and 90 days. A copy of both forms should also be filed in each RA's contract file.

PAY PHILOSOPHY

All compensation programs are driven by the market (ability to attract and retain employees), an organization's ability to pay, and internal relationships among jobs, dictated by a stated or implied pay philosophy. An organization's pay philosophy communicates what it values or pays for, such as levels of skill, effort, responsibility, and working conditions required of its various jobs.

Fort Bend County, through its current use of a point factor method for evaluating the relative worth of jobs, defined and communicated its pay philosophy in 1985. Trace, in discussions, with the HR staff, will review the factors and their assigned weights to determine if they effectively and accurately reflect the current County philosophy. This is the time to decide what works, what doesn't work and why and how we can best effect solutions which will result in a practical, defensible and acceptable system of job evaluation, salary determination and performance appraisal.

Trace will have a meeting with the elected and appointed officials or the Commissioners' Court, ideally on a Saturday morning from 8:00 a.m. until approximately noon to give an overview of the project and to determine where the County wants to pay in relation to market practices. For example, job families will be discussed to get a "feel" as to whether the County wants to be "competitive" with the market in all job families or "lead" or "lag" the market in any specific job family. The internal pay philosophy will be discussed. The existing factors which are currently used in job evaluation will be presented for scrutiny and to determine relevance. If time permits, the current performance appraisal process and what, collectively, the elected and appointed officials desire to reward employees for in the merit system will be discussed. Trace would be prepared to present options and accept input and ideas from the group. The role of Trace is to serve as a facilitator only. Trace realizes that the Commissioners Court is the authority responsible for the adoption of the county's pay philosophy.

JOB ANALYSIS AND JOB DESCRIPTIONS

Trace will gather information about individual positions, group them into families and jobs, write job descriptions, evaluate and classify jobs after the County's current pay philosophy has been determined and defined. Trace will design a job analysis questionnaire (JAQ) to capture information about all jobs and reflect the factors agreed upon for job evaluation.

Each incumbent will be asked to complete a JAQ which will include questions about:

* Current County job title
* Current Department job title

* Incumbent's name and business phone number
* Department
* Supervisor's name and title
* Grade (of the job) and step (of the employee)
* Job summary
* Essential duties of the job
* Secondary duties
* Equipment used
* Knowledge, skills and experience required
* Special training, licenses, certification required
* Physical and mental demands of the job
* Working conditions
* Level of responsibility
* Titles of jobs supervised
* Supervisory responsibility

Incumbents will be requested to attach a copy of their current job description, marked up to reflect additions and deletions.

Each department will be provided a copy of the JAQ and make enough copies for all employees in that department. Trace will provide the cover sheet for all JAQ's, however, since each department will be color-coded for ease of incumbent identification once all questionnaires are collected and grouped into jobs and families.

HR staff will assist to arrange for dispersal of the JAQ's through meetings of department employees or supervisors to explain the process and deadlines for submission of information. Department employees will return completed JAQ's to their immediate supervisors who will review and sign off on them before sending them to the Department Head (its elected or appointed official). This Department Manager will list all employees who have returned a questionnaire and will provide Trace with a current organizational chart (with reporting relationships, current titles, and incumbent names) for the department.

The entire package of JAQ's will be sent to the HR Department where staff will verify that all (or enough to represent each job) JAQ's have been returned. A list of those employees, their departments and job titles who did not complete a questionnaire will be provided. Trace will pick up all JAQ's from HR Department.

Once all JAQ's are returned, Trace will group positions into jobs and job families. Trace will identify job descriptions that require a "rewrite" based on JAQ's and existing job descriptions. Job descriptions, in addition to the identified 93 "problem" jobs, which need to be rewritten, (updated) defined

AS PER ORIGINAL

as "rewrites" based on job factor analysis, because of substantial changes to duties, responsibilities, equipment used, nature of work, knowledge, skills and experience may be negotiated under separate (or amended) contract. Trace believes that there will ultimately be more than 251 job descriptions when essential functions, job demands and work environment individualize jobs across departments to a greater extent than they are now, therefore, additional job descriptions will be negotiated under separate or amended contract. To use job descriptions adequately for purposes other than evaluation and classification, e.g., performance appraisal, interviewing, orientation, promotions, etc., job descriptions need to be more individualized than the generic now in place.

At this point, all jobs which need total analysis, possible reclassification and revised job descriptions will have draft descriptions written for submission to supervisors for review/correction and signature approval and will be returned to Trace for finalization. Final copies will be submitted to the Project Manager and HR staff for acceptance and approval.

All jobs, that do not require a "rewrite", will be analyzed to determine if essential duties are currently defined and will be amended to reflect these essential functions, physical/mental job demands and work environment. Trace will use current job descriptions submitted by HR staff on diskette in a compatible word processing program for these amendments. Job amendments will be submitted to appropriate supervisors for review and approval, then returned to Trace for finalization.

Trace will review the estimated 93 "problem" job descriptions (see attached list) which need revision, talk to the department manager and incumbents affected, and update/amend or review the descriptions to reflect the current duties, level of responsibility, etc. Where current job descriptions are found to need further definition by these requirements, a limited questionnaire can be completed, reviewed by supervisors and an amendment developed for the job descriptions. This should be sufficient to ensure that job incumbents and applicants are familiar with what is required to perform the essential functions of the job, and it can be determined that they can do so with or without reasonable accommodation, on an individual basis.

All job descriptions will be checked for:

* Job Title
* FLSA Status
* Functional Area (Department)
* Supervisor's Title
* Titles of those supervised
* Date written/revised
* Summary statement which includes purpose and scope of the job
* Essential job duties and responsibilities
* Job specifications (BFOQ'S) relating to skills, effort, level of responsibility and working conditions required by the job

AS PER ORIGINAL

* Physical and mental effort required by the job
* Working environment
* Appropriate disclaimer to protect the County

Where amendment to reflect job demands and work environment is needed, Trace will draft the revised amendment, supervisors will review those pertinent to their areas, and discuss them with the incumbent(s). Appropriate suggestions will be incorporated and the final draft will be re-submitted to the supervisor for approval.

After reviewing and amending existing job descriptions, Trace will audit position, job and job family groupings and the placement of each job in the County's classification plan and salary structure. Job descriptions will be prepared in an agreed upon format, on computer, and presented to HR staff on diskette.

JOB EVALUATION

Job evaluation is the determination of the relative value of the jobs. In choosing a valid, objective, and reliable method for evaluating County jobs, it is first necessary to ascertain the County's pay philosophy and needs. Problems encountered with the present system of wage determination need to be discussed and clarified; factors, their degrees and weighting should be reviewed, should the County decide to continue to use a point factor system of job evaluation.

When a point factor method is used, jobs are analyzed by looking at their component parts. Suitable factors, common to all jobs, are first identified. Once common factors are identified, a measure is developed for determining the extent to which each factor exists in each job. In order to provide such measure, factors are defined and weighted to reflect their relative importance to the organization. Each weighted value is further broken down into degrees; each degree is defined and assigned a certain number of points. Every job is evaluated factor by factor and measured against the factor definition scale. The degree in the scale which most nearly describes the job factor in a particular job is selected. After a job has been evaluated, the point values for all factors are totaled. The sum represents the numerical value of the job in question. Comparing scores of two or more jobs indicates their relative value. It should be noted that jobs can fall into the same pay grade because they have the same range of scores and yet be rated differently on each factor. In this way, unlike jobs can systematically and equitably be compared to one another with the results reflecting total relative value of all jobs to the organization.

Depending upon the County's needs, determined through meetings with the HR staff and the evaluation committee, as approved by the Court, a job evaluation process will establish the internal relationships among jobs and permit the comparison of these jobs with other, similar positions in the respective labor market area. If the County prefers a computerized job analysis and evaluation system, the

AS PER ORIGINAL

Consultant can recommend a system with which we are familiar (see attachment) or can assist in determining an appropriate system for the County's use. We do not subscribe to any proprietary system, so we are free to investigate and recommend that which will best serve your needs.

Should the County decide to stay with its current, or a modification of the current, point factor system, the Consultant will review job evaluations for consistency and internal equity. If factors are modified or changed, jobs will need to be re-evaluated, using the new or modified factors. This could require the use of an evaluation committee to re-evaluate jobs. The committee approach ensures a valid, objective and defensible evaluation. Should this be the method of choice, the Consultant will serve as facilitator by instructing committee members in the evaluation process. Once members are comfortable with the process, evaluation sessions can be conducted by a representative of the Human Resources Department. The resulting evaluations (either by committee, Consultant or Consultant in concert with the HR staff professionals) will be reviewed for consistency with recommendations for adjustment presented for review and subsequent leveling (if necessary). These evaluations, in conjunction with market data, will then be used to place jobs within the designed salary structure.

Managers and supervisors should be encouraged to use written job descriptions for:

* Recruiting, Hiring, Placement - to help define the skills, experience, and abilities required for the job so the recruiter knows what he/she is looking for. It provides a sound basis for discussion between the interviewer and the applicant, as well as with the manager/supervisor who makes the final decision to hire.
* Orienting the New Employee - Whether the employee is new to the organization or, because of transfer or promotion, is new to the job, the job description aids in quick and efficient understanding of what is expected.
* Self-Understanding and Development - helps the incumbent analyze and assess his/her talent and capabilities in light of the duties and responsibilities of the job. This is especially true as the supervisor and the incumbent review and discuss the position description together; avoids or reconciles differences of opinion and emphasis between the two key parties to a job (supervisor and subordinate).
* Performance Appraisal - By measuring the incumbent's performance against the duties, responsibilities and functions set forth in the job description, the evaluation can be more objective and the counseling more job-oriented. Job descriptions aid the employee and supervisor in setting common goals and standards.
* Promotions - aid in establishing the organization's or department's promotional sequence. They clarify the differences between present duties and contemplated assignments and highlight what the employee must learn in addition to what he/she already knows.

AS PER ORIGINAL

* Organizational Balance - help to clarify relationships between jobs and units; establish harmony and balance and reduce conflict since they clearly delineate responsibilities; establish lines of contact and communication.
* Job Evaluation and Salary Comparisons - provides the basis for properly aligning salaries within the organization and for fairly pricing the job relative to others, both internally and externally.
* ADA Compliance - to define the physical and mental efforts required of the job incumbent. It can then be determined if accommodation is necessary or reasonable for various disabilities on an individual basis.

EMPLOYEE COMMITTEE APPROACH

Trace will interview employees by utilizing an employee committee made up of seven to nine employee representatives, up to and including first-level (working) supervisors. There will also be two alternative members in case on or more of the standing members cannot attend a meeting. Trace proposes that the committee consists of representatives from the following departments: Sheriff, County Clerk, Road & Bridge, Drainage, Management Information Systems (MIS), Library, County Judge, and District Clerk.

The purpose of this committee is to serve as liaison between the employees and Trace, meeting with Trace to determine problems with the present systems of evaluation, classification and performance appraisal. This committee, or an alternative committee established by the Commissioners Court, will serve as an evaluation committee to re-evaluate jobs which have substantially changed. If the factors reflecting the County's pay philosophy change, all jobs may have to be re-evaluated. If, however, existing factors accurately reflect the current pay philosophy of the Court, job evaluation of the identified 93 "problem" jobs will take approximately three days plus a day for committee training.

Trace will meet with this committee to communicate project status and receive feedback, ideas and proposed solutions as the project progresses. Trace estimates at least four (4) meetings with the committee, exclusive of job evaluations.

MARKET COMPARABILITY ANALYSIS

Trace will review County job and incumbent matches to surveys in which the County participates. From these, benchmark jobs will be confirmed and prevailing wage rates analyzed for compatibility. Benefits will be taken into account when comparing County pay to average pay found to exist in the market area (the local area from which the County draws its employees and the organizations against which it competes for employees). This analysis will be used to ensure external equity in placement of County jobs in a structure built around the market. Trace will use the 1993 survey data of

the County from participation in several surveys, as well as Trace will use the results of the annual Fort Bend Office/Clerical Salary Survey to further validate local compensation practices for surveyed jobs.

PAY STRUCTURE DESIGN

Based on the market data, determined pay philosophy, budgetary considerations, and job evaluation scores, Trace will design or modify the Fort Bend County's basic pay structure, to reflect the external market and ensure internal consistency and flexibility.

Jobs will be ranked, from lowest to highest, based on evaluation results; ranges will be developed to accommodate internal groupings and external (market) compatibility; grades will be assigned to the ranges. Ranges will consist of a midpoint, a minimum and a maximum salary figure. These will be further broken down into steps, should the County decide it wishes to retain this method of movement through the ranges.

Individual incumbents will then be placed in the structure with compa-ratio (comparison of the salary to the midpoint), range penetration (the salary's position in the range) and step (if this method is retained) reflected for each current salary. At this point, HR staff and the committee will review the structure and further level jobs (if necessary) to reflect internal and external considerations.

REVIEW PERFORMANCE APPRAISAL SYSTEM: RECOMMEND MODIFICATIONS

Performance appraisal is not to be confused with job evaluation. Job evaluation concerns itself with requirements of the job, as defined by the written job description; the individual who holds the job should not affect the job evaluation score for the job he/she holds. Performance appraisal is, however, concerned with evaluating (appraising) the incumbent's performance of the job, as defined by the job description and established standards and goals.

Trace will meet with HR staff and the Court to identify the goals and objectives which the employee performance appraisal process should, philosophically, meet to make the results meaningful to employees and to the County. Once factors which define the County's pay philosophy have been determined, the employee performance appraisal instrument(s) should reflect these. (In most cases, Trace suggests that the performance appraisal instrument for supervisory, management, and some professional/exempt personnel will be different than for non-exempt employees).

Through meetings with HR staff, the committee, and, as appropriate, with other representatives of those who will use the system, (supervisors, managers, etc.) Trace will develop draft appraisal instrument(s) and "test" them in mock appraisal sessions to determine effectiveness, utility and relevance

to those whose performance will be evaluated and to those who will be doing the "formal" appraisal. Suggestions gained through role playing will be used to further define the appraisal tool.

Trace will conduct training sessions, using the County-approved system, to instruct managers and supervisors in writing, delivering and following up on performance appraisals for subordinates, to include emphasis on continuing evaluation and feedback relative to established standards and goals. If the pay philosophy includes merit awards, instruction will be offered in determining merit program increases for individuals supervised, tied to the results of performance appraisals and the County's salary administration guidelines.

ADMINISTRATION MANUAL

In conjunction with the review and revision of the classification and compensation plan and modification of the performance appraisal system, written guidelines for operation and maintenance will be developed. These will set forth criteria for program administration such as analysis and use of salary surveys, incumbent movement through the assigned range, structure adjustments, promotions, dealing with anomalies, methods of evaluation and appraisal, effectively and positively communicating the programs to elected and appointed officials, training supervisors in plan use, delineation of responsibilities for program administration, rewarding performance through merit, seniority, longevity, etc. Designated personnel charged with administration of the programs will be instrumental in the revision process and trained in maintaining the systems, as well as in methods with which to update and adapt the programs to changes.

LEGAL REVIEW OF JOB DESCRIPTIONS FOR COMPLIANCE WITH ADA AND FLSA

Trace has received a commitment from Vinson & Elkins, L.L.P., Attorneys At Law, to provide legal review of 251 job descriptions for compliance with Fair Labor Standards Act and Americans with Disabilities Act for a fee of $10,000. Trace will submit to the County a letter of agreement as an attachment to this Agreement.

REPORTS AND RECOMMENDATIONS

Trace will provide periodic reports to the HR staff and the committee coinciding with the accomplishment of major phases of the project. Trace plans to prepare and present these reports, summarizing phases of the project. Each of the periodic reports will discuss:

* Tasks accomplished during the report period
* Tasks in progress

AS PER ORIGINAL

* Tasks planned for the upcoming reporting period
* Adherence to the time schedule
* Problems encountered, if any, and suggested or implemented solutions
* Recommendations and accompanying cost implications
* Expenses incurred during the reporting period

Upon completion of project goals, Trace will present a final report of recommendations, estimates of the cost of implementation, and a timetable for implementation, based on monetary restraints, if necessary.

HUMAN RESOURCES STAFF SUPPORT

Trace will be assisted by the County's Human Resources staff (other than training), as follows:

* Assistance in gathering information
  * Department organizational charts
  * Payroll run by department
  * Current listing of incumbents by job classification
  * Structure with incumbent names, titles and departments
* Setting meetings
* Disseminating questionnaires
* Following up on return of information; receipt of JAQ's
* Review of incumbent groupings into jobs and job families
* Project review and input
* Assistance in training (performance appraisal and job evaluation)
* Project Manager will serve as liaison/contact during the project

It is estimated that staff's involvement will consist of approximately 40 - 50 hours.

Should the County decide, in conjunction with the Consultant's findings and recommendations, that it wishes to explore the possibility of using a computerized system of salary administration, instead of revising its present programs, Trace Consultants will arrange a meeting with Dr. Stephen Roop, of Roop & Associates. In investigating systems we would feel comfortable recommending, we are most impressed with his "Organization Management System" as a total approach to compensation. The following pages outline Dr. Roop's program.

Since we have no proprietary system, however, we are free to assist the County in identifying a program that would best fit its needs.

Task-Based Approach

- OMS, as a task-based system, has certain unique characteristics

By examining the similarities and differences between positions, OMS can establish the value of the work to the organization, and thus determine the relative value of positions

AS PER ORIGINAL 83 0601

Task-Based Approach (con't)

- We have found that, historically, positions are **not** compensated exclusively for job content

> Pay = Job content + position scope + responsibility + accountability

OMS Approach: Assess direct measures of scope/responsibility/accountability

- **statistically analyzed** to establish impact on pay
- modified to correspond to, and **express management's philosophy** toware pay
- combined with job content to **predict** grade

> Results: A multi-factor model, quantitative and objective in nature that establishes **internal equity** based on position content, scope, and responsibility

Dear Mr. Jacks:

This is to confirm our conversation in which I advised you that we would provide legal review of the 251 job descriptions at Fort Bend County which you mentioned for purposes of the Fair Labor Standards Act and Americans With Disabilities Act for a fee of $10,000.00. In the event our assignment is expanded after we are engaged, we will be pleased to make a further proposal in advance of any decision by the client.

Enclosed is a résumé of the Labor and Employment Law Section at Vinson & Elkins. This is an engagement about which we are very interested, and we look forward to consulting with you further about our ability to conduct the necessary legal review.

Very truly yours,

INTERLOCAL COOPERATION AGREEMENT
FOR COUNTY JAIL FUNCTIONS

THIS AGREEMENT is made by and entered into between Polk County, Texas, [hereinafter "Polk"], and Fort Bend County, Texas, [hereinafter "County"], on the date indicated below.

WHEREAS, County is seeking to provide for the housing and care of certain inmates incarcerated or to be incarcerated in its jail; and

WHEREAS, Polk currently has the jail capacity and the ability to provide housing and care for such inmates; and

WHEREAS, both parties are political subdivisions of the State of Texas authorized to enter into an Interlocal Cooperation Agreement for such detention services pursuant to Chapter 791 of the Government Code [Vernon's 1992] [formerly, Article 4413 (32c), Tex. Rev. Civ. Stat.]; and

WHEREAS, Polk and County desire to enter into an agreement pursuant to which Polk will provide housing and care for certain inmates incarcerated or to be incarcerated in the Polk jail;

NOW, THEREFORE, in consideration of the promises, covenants, and agreements contained herein, the parties hereto mutually agree as follows:

ARTICLE 1

DETENTION SERVICES

1.01 **HOUSING AND CARE OF INMATES.** Polk shall provide the following necessary and appropriate services for County to the maximum extent authorized by this agreement, without regard to race, religion, color, age, sex, and national original:

a. Provide County and its Sheriff's Department with access to and use of the Polk County Jail facilities for the holding and incarceration of County prisoners, including, but not necessarily limited to, adequate personnel necessary to supervise approved prisoners, clothing, food, medical attention, and other appropriate necessities with respect to that number of prisoners. Polk agrees to provide County with access to and use of these facilities and services so long as such facilities shall be available in consideration of the requirements of the Texas Jail Standards Commission, subject to the termination rights herein provided.

b. In the event that the Polk jail facility shall be at maximum capacity as a result of Polk County or other inmates, Polk reserves the right to require the removal or transfer of County's prisoners within eight hours after notice to County, in order to provide facilities for Polk prisoners, and Polk agrees to notify County as soon as possible when a County prisoner must be removed from Polk facilities because of capacity limits.

c. In no event shall Polk be required to accept County's prisoners under the terms and conditions of this agreement, if such transfer of prisoners will cause Polk jail facilities to be in violation of the standards of the Texas Jail Standards Commission. Polk, in its sole discretion, shall determine whether a County prisoner shall be accepted for incarceration by Polk. Nothing contained herein shall be construed

to compel Polk to accept any prisoner, if it would place Polk in violation of any law or regulation or court order.

d. Nothing contained herein shall be construed to compel Polk County Sheriff, acting in his capacity as keeper of the jail, to accept any prisoner for any reason.

1.02 **MEDICAL SERVICES.** The per day rate under this agreement covers only routine medical services, such as on-site sick call [when provided by on-site staff], and non-prescription, over-the-counter/non-legend and routine drugs and medical supplies. The per day rate does not cover medical/health care services provided outside of Polk's facility, or by other than facility staff, prescription drugs and treatments, or surgical and dental care, and does not include the costs associated with any hospitalization of an inmate. County shall pay Polk an amount equal to the amount Polk is required to expend for medical services, other than those routine medical services provided for by the per day rate. When it becomes necessary for an inmate to be hospitalized, Polk shall contact County, through its Sheriff or designated representative, as soon as possible, to inform County of the fact that the inmate has been, or is to be, hospitalized, and of the nature of the illness or injury that has required the hospitalization.

Polk shall submit invoices for such medical services, along with its regular monthly billings for detention services, and such invoices shall be paid on the same terms as the regular monthly billings.

It is understood and agreed that if the hospitalization of an inmate is to be for a duration of more than 24 hours, or the cost of any medical care or hospitalization is to exceed $2,000.00, Polk has the right to arrange for the hospital or health care provider to bill County directly for the costs of the hospitalization and/or medical care, rather than Polk paying the costs and billing the same to County. If the hospital or health care provider refuses to bill County directly, County shall reimburse Polk for such costs within five [5] business days of receipt of an invoice from Polk, which invoice may be delivered personally, by facsimile, by mail, or by other reliable courier.

1.03 **MEDICAL INFORMATION.** County shall provide Polk with medical information for all inmates sought to be transferred to Polk's facility under this agreement, including information regarding any special medication, diet or exercise regiment applicable to each inmate.

1.04 **TRANSPORTATION AND OFF-SITE SECURITY.** County is solely responsible for the transportation of its inmates to and from Polk's facility. Polk agrees to provide non-ambulance transportation for the inmates to and from off-site medical facilities as part of the services covered by the per day rate. Ambulance transportation is not covered by the per day rate and will be billed along with the regular monthly billing submitted to County by Polk.

Polk will provide stationary guard services as requested or required by the circumstances or by law for inmates admitted or

committed to an off-site medical facility. County shall compensate Polk for the actual cost of said guard services to Polk, which shall be billed by Polk, along with the regular monthly billing for detention services.

County shall be responsible for the transportation of its inmates to and from court proceedings and hearings.

County is responsible for the transport of inmates from Polk's facility to the Texas Department of Criminal Justice, Institutional Division.

1.05 **SPECIAL PROGRAMS.** The per day rate set out in this agreement only covers basic custodial care and supervision and does not include any special educational, vocational, or other programs. The parties may agree by a written amendment to this agreement, or by separate agreement, for the provision of special programs for the consideration and under the terms mutually agreed by the parties.

ARTICLE 2

FINANCIAL PROVISIONS

2.01 **PER DIEM RATE.** The per diem rate for detention services under this agreement is $ 40.00 per inmate day. This rate covers one inmate per day. A portion of any day shall count as an inmate day under this agreement, except that County may not be billed for two days when an inmate is admitted one evening and removed the following morning. In that situation, Polk will bill for the day of arrival, but not for the day of departure.

2.02 **BILLING PROCEDURE.** Polk shall submit an itemized invoice for the services provided each month for County. Invoices will be submitted to the officer of County designated to receive the same on behalf of County. County shall make payment to Polk within thirty [30] days after receipt of the invoice. Payment shall be in the name of Polk County, Texas, and shall be remitted to:

Polk County Treasurer
Polk County Courthouse
101 Church Street
Livingston, Texas 77351

ARTICLE 3

TERMS OF CONTRACT

3.01 **PRIMARY TERM.** The primary term of this agreement is for a period of one [1] year from the date of execution of this agreement by both parties.

3.02 **RENEWALS.** This agreement may be renewed annually by mutual agreement of the parties. In the event that the parties seek to renew this agreement at the end of the primary term or any renewal period, the per diem rate for detention services shall be at the rate negotiated by the parties for such renewal period. The terms, conditions, and rates with regard to any renewal period shall be as mutually agreed between the parties, and as approved by the commissioner's courts of the respective parties.

3.03 **TERMINATION.** This agreement shall terminate at the end of the primary term or any renewal term, unless renewed pursuant to

Section 3.02. In addition, this agreement may be terminated upon sixty [60] days' written notice by either party, delivered to the officer specified herein by the other party to receive notices. This agreement will likewise terminate upon the happening of an event that renders performance hereunder by Polk impracticable or impossible, such as severe damage to or destruction of the facility, or actions by governmental or judicial entities which create a legal barrier to the acceptance of any of County's inmates.

ARTICLE 4

ACCEPTANCE OF INMATES

4.01 **COMPLIANCE WITH LAW.** Nothing herein shall create any obligation upon Polk's Sheriff, raise the population of the facility above the permissible number of inmates allowed by law, or will, in the sheriff's opinion, create a condition of overcrowding or create conditions which endanger the life and/or welfare of personnel and inmates at the facility, or result in possible violation of the constitutional rights of the INMATES HOUSED AT THE FACILITY. At any time that Polk's Sheriff determines that a condition exists at Polk's facility necessitating the removal of County's prisoners, or any specified number thereof, County shall, upon notice by Polk's Sheriff to the Sheriff of County, immediately remove said prisoners from the facility.

4.02 **ELIGIBILITY FOR INCARCERATION AT FACILITY.** The only inmates of County eligible for incarceration at Polk's facility under this agreement are non high risk inmates. An inmate must be

considered as non high risk in accordance with state standards and under both the Jail Commission approved custody assessment system in place at Polk's facility, before the inmate is eligible for incarceration at Polk's facility.

All inmates proposed by County to be transferred to Polk's facility under this agreement must meet the eligibility requirements set forth above. Polk reserves the right to review the inmates' classification/eligibility, and the right to refuse to accept any inmate that it does not believe to be properly classified as a non high risk inmate. Furthermore, if an inmate's classification changes while incarcerated at Polk's facility, Polk reserves the right to demand that County remove that inmate and replace that inmate with a non-risk inmate of County.

4.03 **RESERVATION WITH REGARD TO ACCEPTANCE OR CONTINUED INCARCERATION OF INDIVIDUAL INMATES.** Polk reserves the right for its Sheriff or his designated representative, to review the background of all inmates sought to be transferred to Polk's facility, and County shall cooperate with and provide information requested regarding any inmate by Polk's Sheriff. Polk reserves the right to refuse the acceptance of any prisoner of County. Likewise, if any inmate's behavior, medical or psychological condition, or other circumstance of reasonable concern to Polk's Sheriff, makes the inmate unacceptable for continued incarceration in Polk's facility, in the opinion of Polk's Sheriff, County will be requested to remove said inmate from the facility, and shall do so immediately upon the request of Polk's Sheriff. Inmates may

also be required to be removed from the facility, when their classification changes for any purpose, including long-term medical segregation.

4.04 **INMATE SENTENCES.** Polk shall not be in charge or responsible for the computation or processing of the inmates' time of confinement, including, but not limited to, computation of good time awards/credits and discharge dates. All such computations and record keeping shall continue to be the responsibility of County. It shall be the responsibility of County to notify Polk of any discharge date for an inmate at least ten [10] days before such date. Polk will release inmates of County, only when such release is specifically requested in writing by the Sheriff of County; however, it is agreed that the preferred and usual course of dealing between the parties shall be for County to pick up and return inmates to County facility shortly before their discharge date, and for County to discharge the inmate from its own facility. County accepts all responsibility for the calculations and determinations set forth above, and for giving Polk notice of the same, and shall indemnify and hold Polk harmless for all liability or expenses of any kind arising therefrom. County is responsible for all paperwork, arrangements, and transportation for inmates to be transferred to the Texas Department of Criminal Justice, Institutional Division.

3.02 The fee provided for in this section shall constitute the entire payment obligation of the County under this Agreement. No additional fees, expenses, costs or other charges shall be owed by the County to LSI for its performance of the services hereunder, without the prior, written authorization of the Fort Bend County Commissioners' Court.

TEXAS NATURAL RESOURCE CONSERVATION COMMISSION

Protecting Texas by Reducing and Preventing Pollution

CERTIFIED MAIL
RETURN RECEIPT REQUESTED

January 11, 1994

The Honorable Roy Cordes
Fort Bend County Judge
Fort Bend County Courthouse
Richmond, Texas 77469

Re: Solid Waste - Fort Bend County
Fort Bend County - Permit No. 1554
1.5 Mi NW of US-59 & SH-36 Int., 0.25 Mi

Dear Judge Cordes:

The Texas Natural Resource Conservation Commission (TNRCC) met with representatives of Fort Bend County on January 5, 1994 in Austin to discuss the Landfill Gas Assessment Report (LGAR) submitted December 20, 1993. A list of those attending the meeting is attached for your information. Items discussed at the meeting included the following:

1. Results of the soil gas survey conducted beyond the permitted metes and bounds of the subject site;

2. Existing gas collection system enhancements to date;

3. Perimeter gas probe historical readings; and

4. Results of groundwater monitor well sampling analysis at the subject site.

Conclusions reached and instructions given as a result of the meeting are as follows:

Conclusions:

1. Soil Gas Survey

A soil gas survey was performed at the subject site on September 16 and 17, 1993 as required by the Agreed Order, dated May 21, 1993. During the meeting discussion, it was

83 0649

AS PER ORIGINAL

determined that the depth of soil penetrations for the survey was four (4) feet below ground surface. Further discussion revealed that not all soil gas survey penetrations were located at a distance of fifty (50) feet beyond the site permitted metes and bounds. Specifically, P31-01, P30-01, P29-01, P1A-01, P2A-01, P3A-01, P4A-01, and P5A-01 were not located at a distance of fifty (50) feet beyond the permitted boundary for the site. The location of all soil gas survey penetrations were indicated on Drawing No. 9330, Sheet 1 of 1. All reported soil gas survey methane concentrations were less than 25% of the Lower Explosive Limit (LEL) for methane.

2. **Gas Collection System Enhancements**

Five (5) additional gas extraction wells have been installed in the southern half of the permitted area 1554. Fort Bend County (FBC) has given increased operational attention to dewatering the gas collection system to increase the system effectiveness.

3. **Perimeter Gas Probe Historical Readings**

Since the addition of replacement gas extraction wells in the northern portion of the permitted area 1554 and five (5) new extraction wells in the southern portion of the permitted area 1554, reported methane concentrations in the perimeter gas probes have indicated a downward trend toward zero. Concentrations of methane, however, have continued to be out-of-compliance at probes P1A-S, P1A-D, P2-S, P16-S, P16-D, P15-S and P15-D during the downward trend at all other perimeter probes. The out-of-compliance probes are located at each end of a gas pipeline right-of-way that separates permitted areas 1554 and 1554-A.

4. Results of Groundwater Monitor Well Sampling

Groundwater monitor well sampling results were discussed, specifically, analysis results from multiple sampling events for Monitor Well No. 6. A full account of the analysis and subsequent instructions to FBC is addressed in the TNRCC letter, dated January 10, 1994, from Mr. A. Richard Smith, Director, Ground-Water Protection Program.

Instructions:

A. Soil Gas Survey

Soil gas survey penetration P31-01, P30-01, P29-01, P1A-01, P2A-01, P3A-01, P4A-01, and P5A-01 shall be conducted again and located at a distance of fifty (50) feet beyond the permitted metes and bounds of the site as specified in the Agreed Order, dated May 21, 1993. The depth of each penetration shall be a minimum of fourteen (14) feet below ground surface.

Supplemental soil gas surveys shall be performed at each end of the gas pipeline right-of-way to determine the presence of pipeline gas and/or landfill gas in or near the right-of-way. This survey shall extend to a distance of no less than fifty (50) feet beyond the metes and bounds of the permitted site. The depth of penetrations below ground surface shall be a minimum of four (4) feet along the right-of-way when investigating for the presence of pipeline gas and a minimum of fourteen (14) feet when investigating for the presence of landfill gas.

FBC shall implement required soil gas surveys immediately upon receipt of this correspondence and shall inform the TNRCC in writing by January 14, 1994 as to the estimated submittal of soil gas survey results.

AS PER ORIGINAL

B. Gas Collection System Enhancements

Although no methane gas was detected off-site as a result of the Landfill Gas Assessment Plan (LGAP) implementation, TNRCC central office staff did detect combustible gas concentrations in excess of the LEL for methane at gas monitoring probes located north of the metes and bounds of the permitted site on December 1 and 2, 1993. This fact coupled with the lack of soil gas survey data north of the permitted metes and bounds of the site indicates that a Landfill Gas Remediation Plan (LGRP) must be submitted to the TNRCC. Therefore, FBC is required to submit a LGRP to the TNRCC in accordance with the Agreed Order, dated May 21, 1993. The LGRP shall be submitted to the TNRCC on or before January 20, 1994.

C. Perimeter and Off-Site Gas Probe Readings

Perimeter gas probe readings shall continue to be taken and reported to the TNRCC central office. Gas probe readings shall also be taken and reported to the TNRCC twice weekly at the following off-site and on-site probes: MP-1, MP-2, MP-4, MP-5, MP-6, MP-8, MP-9, MP-10, MP-12, MP-13, MP-14, MP-15, MP-16, MP-17, MP-18, MP-19, MP-20, V-4, and V-3/2. FBC shall take and report twice weekly readings from the two (2) gas probes, installed by the local Concerned Citizens Committee, located near the northern metes and bounds of the permitted site. FBC shall contact the spokesperson for the Concerned Citizens Committee, Ms. Alice Flores, to arrange for readings to be taken at these locations.

The TNRCC has also received a letter, dated October 14, 1993, from Mr. Ron Drachenberg, P. E., requesting guidance from the TNRCC as to appropriate administrative procedures to follow for processing the landfill gas at the subject site. As the drilling, extraction processing and/or flaring of the landfill gas is an integral part of the site remediation, documentation showing the details of the

processing facility on the site shall be submitted to the TNRCC as a "Class I Modification" to the existing permit. "Class I Modification" documents shall be sent to Mr. Michael Graeber, P. E., Team Leader, Modifications and Registrations Team, Permit Section, Municipal Solid Waste Division. The required LCRP as referenced above shall be submitted as the Class I Modification for the subject site.

If you have any other questions concerning this letter or if we may be of any assistance to your regarding municipal solid waste, you may contact Mr. H. Thomas Collins, P.E., of my staff here in Austin at P.O. Box 13087, Austin, Texas 78711; telephone number (512) 239-6011 or you may prefer to contact Mr. Allen Parker, Regional Manager, at 5144 East Sam Houston Parkway North, Houston, Texas 77015; telephone number (713) 457-5191. Richmond, Texas 77469

Re: Solid Waste - Fort Bend County
Fort Bend County - Permit No. 1554
1.5 Mi NW of US-59 & SH-36 Int., 0.25 Mi

Dear Judge Cordes:

The Texas Natural Resource Conservation Commission (TNRCC) met with representatives of Fort Bend County on January 5, 1994 in Austin to discuss the Landfill Gas Assessment Report (LGAR) submitted December 20, 1993. A list of those attending the meeting is attached for your information. Items discussed at the meeting included the following:

1. Results of the soil gas survey conducted beyond the permitted metes and bounds of the subject site;

2. Existing gas collection system enhancements to date;

3. Perimeter gas probe historical readings; and

4. Results of groundwater monitor well sampling analysis at the subject site.

Conclusions reached and instructions given as a result of the meeting are as follows:

Conclusions:

1. Soil Gas Survey

A soil gas survey was performed at the subject site on September 16 and 17, 1993 as required by the Agreed Order, dated May 21, 1993. During the meeting discussion, it was

determined that the depth of soil penetrations for the survey was four (4) feet below ground surface. Further discussion revealed that not all soil gas survey penetrations were located at a distance of fifty (50) feet beyond the site permitted metes and bounds. Specifically, P31-01, P30-01, P29-01, P1A-01, P2A-01, P3A-01, P4A-01, and P5A-01 were not located at a distance of fifty (50) feet beyond the permitted boundary for the site. The location of all soil gas survey penetrations were indicated on Drawing No. 9330, Sheet 1 of 1. All reported soil gas survey methane concentrations were less than 25% of the Lower Explosive Limit (LEL) for methane.

2. **Gas Collection System Enhancements**

Five (5) additional gas extraction wells have been installed in the southern half of the permitted area 1554. Fort Bend County (FBC) has given increased operational attention to dewatering the gas collection system to increase the system effectiveness.

3. **Perimeter Gas Probe Historical Readings**

Since the addition of replacement gas extraction wells in the northern portion of the permitted area 1554 and five (5) new extraction wells in the southern portion of the permitted area 1554, reported methane concentrations in the perimeter gas probes have indicated a downward trend toward zero. Concentrations of methane, however, have continued to be out-of-compliance at probes P1A-S, P1A-D, P2-S, P16-S, P16-D, P15-S and P15-D during the downward trend at all other perimeter probes. The out-of-compliance probes are located at each end of a gas pipeline right-of-way that separates permitted areas 1554 and 1554-A.

4. Results of Groundwater Monitor Well Sampling

Groundwater monitor well sampling results were discussed, specifically, analysis results from multiple sampling events for Monitor Well No. 6. A full account of the analysis and subsequent instructions to FBC is addressed in the TNRCC letter, dated January 10, 1994, from Mr. A. Richard Smith, Director, Ground-Water Protection Program.

Instructions:

A. Soil Gas Survey

Soil gas survey penetration P31-01, P30-01, P29-01, P1A-01, P2A-01, P3A-01, P4A-01, and P5A-01 shall be conducted again and located at a distance of fifty (50) feet beyond the permitted metes and bounds of the site as specified in the Agreed Order, dated May 21, 1993. The depth of each penetration shall be a minimum of fourteen (14) feet below ground surface.

Supplemental soil gas surveys shall be performed at each end of the gas pipeline right-of-way to determine the presence of pipeline gas and/or landfill gas in or near the right-of-way. This survey shall extend to a distance of no less than fifty (50) feet beyond the metes and bounds of the permitted site. The depth of penetrations below ground surface shall be a minimum of four (4) feet along the right-of-way when investigating for the presence of pipeline gas and a minimum of fourteen (14) feet when investigating for the presence of landfill gas.

FBC shall implement required soil gas surveys immediately upon receipt of this correspondence and shall inform the TNRCC in writing by January 14, 1994 as to the estimated submittal of soil gas survey results.

B. Gas Collection System Enhancements

Although no methane gas was detected off-site as a result of the Landfill Gas Assessment Plan (LGAP) implementation, TNRCC central office staff did detect combustible gas concentrations in excess of the LEL for methane at gas monitoring probes located north of the metes and bounds of the permitted site on December 1 and 2, 1993. This fact coupled with the lack of soil gas survey data north of the permitted metes and bounds of the site indicates that a Landfill Gas Remediation Plan (LGRP) must be submitted to the TNRCC. Therefore, FBC is required to submit a LGRP to the TNRCC in accordance with the Agreed Order, dated May 21, 1993. The LGRP shall be submitted to the TNRCC on or before January 20, 1994.

C. Perimeter and Off-Site Gas Probe Readings

Perimeter gas probe readings shall continue to be taken and reported to the TNRCC central office. Gas probe readings shall also be taken and reported to the TNRCC twice weekly at the following off-site and on-site probes: MP-1, MP-2, MP-4, MP-5, MP-6, MP-8, MP-9, MP-10, MP-12, MP-13, MP-14, MP-15, MP-16, MP-17, MP-18, MP-19, MP-20, V-4, and V-3/2. FBC shall take and report twice weekly readings from the two (2) gas probes, installed by the local Concerned Citizens Committee, located near the northern metes and bounds of the permitted site. FBC shall contact the spokesperson for the Concerned Citizens Committee, Ms. Alice Flores, to arrange for readings to be taken at these locations.

The TNRCC has also received a letter, dated October 14, 1993, from Mr. Ron Drachenberg, P. E., requesting guidance from the TNRCC as to appropriate administrative procedures to follow for processing the landfill gas at the subject site. As the drilling, extraction processing and/or flaring of the landfill gas is an integral part of the site remediation, documentation showing the details of the

"HeRO" Program

"HeRO" PROGRAM

The purpose of the "HeRO" program is to inform the Commissioner's Court about the Employer Trip Reduction requirements as they pertain to Fort Bend County. The "HeRO" program will demonstrate the importance for Commissioner's Court commitment and involvement to insure compliance with the ETR regulations. By successfully implementing Employer Trip Reduction throughout the area, we will have taken an important step towards making improvements in our air quality.

The Commissioner's Court has direct responsibility for the local management of the worksites affected by the Employer Trip Reduction Program.

Role of Commissioner's Court:

* Select a Employee Transportation Coordinator (ETC)

* Provide training, resources, and other support to this ETC, as necessary, to ensure the proper administration, monitoring, technical review, reporting, and promotion of selected trip reduction measures and incentives

* Assume overall responsibility for the ETR program

* Sign annual worksite registration form

* Sign an enforceable certification of the ETR Plan

* Ensure written information is provided to all employees regarding the requirements of the ETR program, the measures and incentives being offered and the air quality and financial benefits of individual participation

STATE IMPLEMENTATION PLAN
S I P

For The Control Of Ozone Air Pollution

The State of Texas is required by the Environmental Protection Agency to submit a State Implementation Plan (SIP) that sets forth a control strategy that will achieve emission reductions necessary for attainment and maintenance of the National Ambient Air Quality Standards (NAAQS). The primary purpose of the Ozone control strategy is to accomplish the Volatile Organic Compound (VOC) emission reductions required by the 1990 Amendments of the Federal Clean Air Act (FCAA).

The Houston/Galveston Ozone Control Strategy includes measures such as Employer Trip Reduction, as well as Reformulated Gasoline, Stage II Vapor Recovery, Enhanced Vehicle Inspection/Maintenance and Industry Pollution Reductions. Implementation of these and other measures described in the SIP must provide a reduction of VOC emissions by 15% from 1990 levels no later than November 15, 1996.

EMPLOYER TRIP REDUCTION 83 0876
E T R

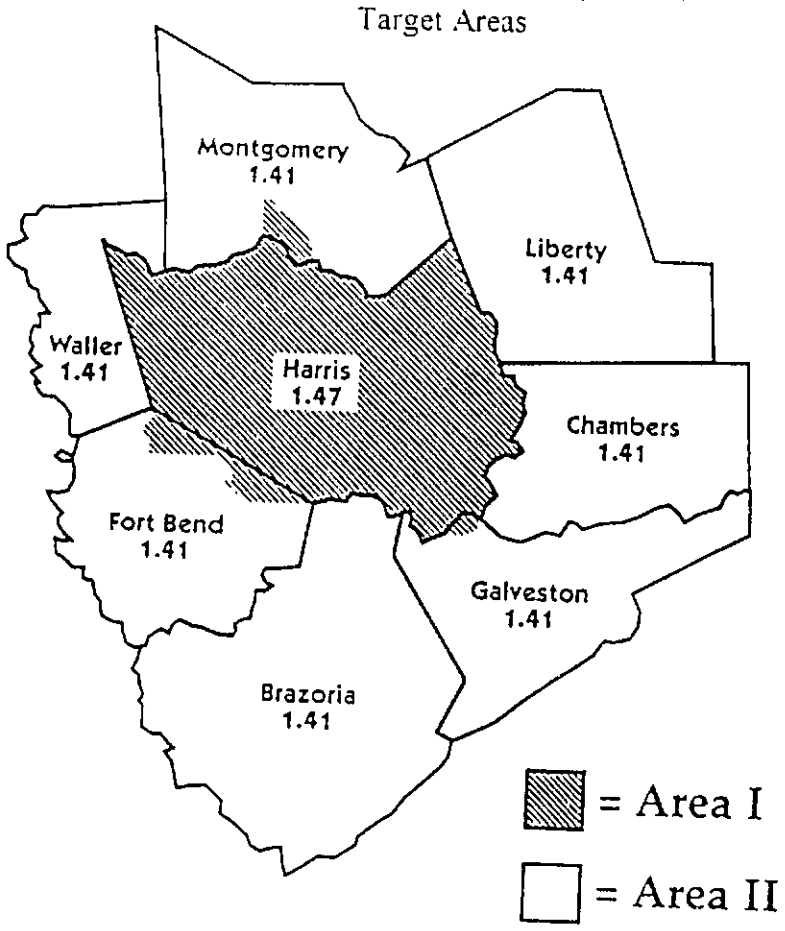

Rule 30 TAC
Chapter 114 Control Of Air Pollution From Motor Vehicles
Section 114.21 Employer Trip Reduction Program

The ETR program was mandated by the Federal Clean Air Act Amendments of 1990. This program requires all employers in certain areas, who employ 100 or more employees at a single worksite, to reduce the number of vehicles arriving at that worksite between 6:00 a.m. and 10:00 a.m. Monday thru Friday.

The Environmental Protection Agency has designated the Houston-Galveston area of Texas as a severe Ozone nonattainment area for failing to meet the National Ambient Air Quality Standard (NAAQS) for Ozone. This means the ETR program must be implemented in order to increase Average Passenger Occupancy (APO) per vehicle in commuting trips to the worksites during the morning peak travel period. Mobil source emissions, such as those from our automobiles, contain Volatile Organic Compounds (VOCs) which react with Nitrogen Oxides (NOx) in the presence of sunlight to form ground level ozone, or photochemical smog. Mobil sources represent approximately 31% of all VOC emissions in the Houston-Galveston Area. Studies have found a significant correlation between ground level ozone pollution and lung disease, respiratory problems, as well as, an overall degradation of our air quality.

Average Passenger Occupancy (APO)
Target Areas

The eight county nonattainment area includes Brazoria, Chambers, Fort Bend, Galveston, Harris, Liberty, Montgomery and Waller counties. There are two Average Passenger Occupancy (APO) target areas. Area I has a APO target of 1.47 and includes Harris County, plus adjacent urbanized areas of economic importance such as the Woodlands, Sugar Land and South Shore Harbor. Area II has a APO target of 1.41 and includes the remainder of Fort Bend, Galveston, Montgomery Counties, as well as, Brazoria, Chambers, Liberty and Waller counties.

A two target area concept was deemed necessary to offset the difference in population density and availability of public transit between urban and rural counties.

E T R
and
YOUR ORGANIZATION

As an affected employer, your organization is required to comply with all aspects of the Employer Trip Reduction regulation. This means you must implement a trip reduction program that will offer your employees alternate means of transportation to and from the work site. It will require employee awareness and marketing campaigns to insure sufficient participation enabling your organization to achieve the target APO.

Implementation costs will be different for each affected work site due to the variance in number of employees, type of business, availability of mass transit, organizational cultures and operational capabilities. Creative incentives and operational changes, combined with strong employee motivation, will determine the success of your ETR program, Not The Dollars Expended!

EMPLOYEE TRANSPORTATION COORDINATOR
ETC

This person makes an immensely valuable contribution toward proper development and implementation of the ETR program. The ETC will need to spend substantial time to set up the systems to evaluate and monitor the program. They must introduce and sustain a solid marketing effort for the ETR program. The ETC must successfully complete a three-day training class, approved by the State of Texas. The ETC serves as the liaison between management and employees.

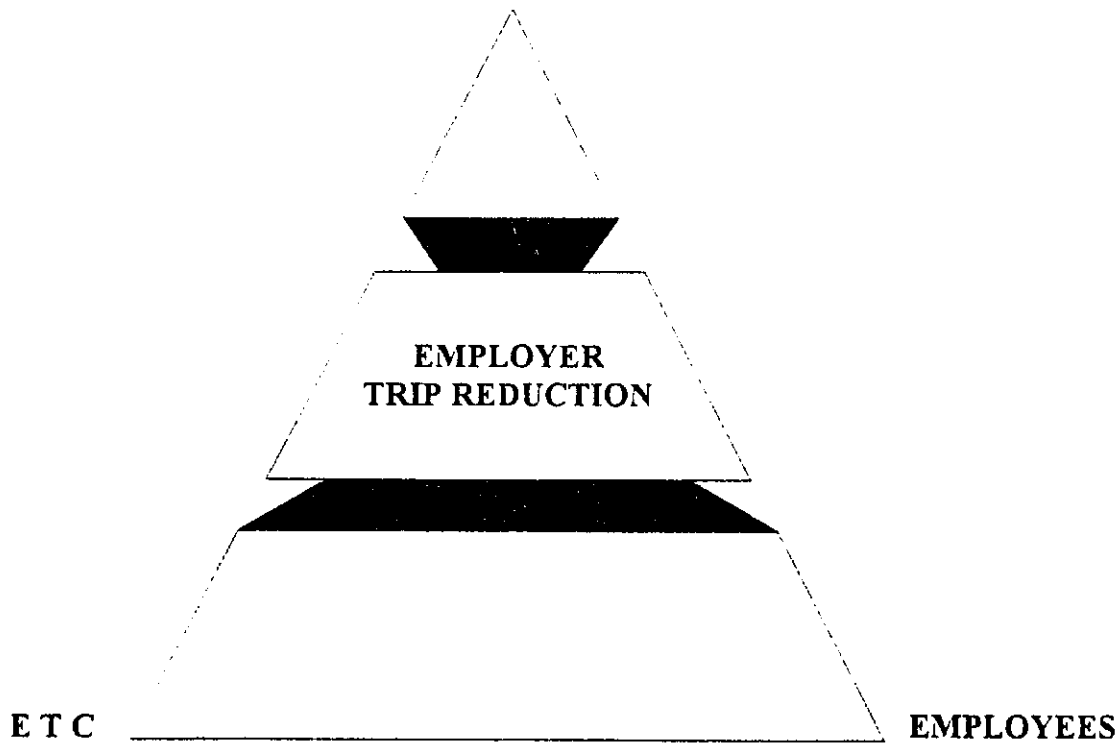

Skills Needed for a ETC:

* Communication
* Organization and Planning
* Marketing and Motivation
* Leadership
* Project Management

EMPLOYEES

It is the affected employees in your organization that will be impacted the most by the ETR regulation. Therefore it is the employees who will have the greatest impact on the employer's ability to achieve and maintain compliance. The employees will be encouraged to utilize alternate means of transportation in order to improve air quality and traffic congestion in our community. This may represent a lifestyle adjustment for some, which will not be easy. Employees may need to overcome an initial perception that they will lose personal freedom to come and go as they please. Employee education and input are critical steps towards insuring their participation.

Develop your trip reduction plan in a way that will be positive and of interest to the employee, but will then have a direct positive outcome on the productivity of the organization.

A successful ETR program requires a coordinated effort from three key areas within your organization.

Commissioner's Court, Employee Transportation Coordinators (ETC) and employees working together will provide your organization with the resources necessary for trip reduction. Implementation of your ETR program without involvement from all of these resources will create a formula for failure and noncompliance.

WE MUST MOVE AWAY FROM MERE CONFORMITY WITH CLEAN AIR REGULATIONS TOWARD A COMMITMENT TO CLEAN AIR FOR OUR COMMUNITY. THIS CONTRIBUTES NOT ONLY TO ENVIRONMENTAL BENEFITS, BUT ALSO ECONOMIC BENEFITS BECAUSE OF THE ABILITY TO ATTRACT COMPANIES AND EMPLOYEES.

ELEMENTS OF COMPLIANCE

* Register each affected worksite with the TNRCC, deadline was September 1, 1993.

* Designate an Employee Transportation Coordinator (ETC) who must complete an initial comprehensive training course approved by the TNRCC and administered by a TNRCC certified provider.

* Conduct an employee survey to determine an initial APO for each worksite.

* Submit an approvable ETR plan to the TNRCC .

The plan shall include, but shall not be limited to, the following information:

(1) An enforceable certification signed by the County Judge as authorized by the Commissioner's Court. This certification attests to the completeness, verifies the incentives and commits to the full and timely implementation of all provisions of the plan.

(2) The name of the designated Employee Transportation Coordinator including documentation verifying initial training.

(3) The associated initial APO for each worksite.

(4) The associated target APO for each worksite.

(5) The results of the initial employee survey such as :

a. Current commuter behavior, including data on vehicle miles traveled, number of cold starts and commuter trips traveled in single occupant vehicles.

b Alternative transportation mode preference.

(6) A description of the trip reduction measures and incentives scheduled to be implemented at each worksite.

(7) A mechanism to ensure tracking and evaluation of the effectiveness of the selected measures and incentives.

* Provide written information to all employers regarding the requirements of the ETR program, the measures and incentives being offered by the employer and the air quality and financial benefits of individual participation.

* Maintain complete and accurate records at the worksite or other central location within the nonattainment area for at least two years and shall make such records available to the TNRCC, EPA, or local air pollution control agencies, upon request. These records shall include:

(1) contents and results of employee surveys or other information gathering efforts.

(2) full description of all measures and incentives offered to employees and the associated employee response

(3) accounting of the budget allocations and expenditures for each measure and incentive

(4) statistics on the operation or coordination of employer-owned or contracted transportation services, such as vanpools

(5) copy of all publications, newsletters or other examples of marketing, promotional, or educational activities conducted to encourage employee participation

(6) documentation of ongoing ETC training activities

(7) other information associated with the development, implementation, evaluation, or modification of the ETR plan

* Evaluate the implementation of the ETR program and submit the following reports to the TNRCC:

  (1) no later than one year following the initial submission deadline, review each of the measures and incentives implemented and submit a report reflecting the status of each measure and an estimate of the progress toward achieving the applicable target APO.

  (2) no later than two years following the initial submission deadline, provide a demonstration of compliance with the target APO.

    a. Employers that demonstrate compliance with the APO must resubmit to the TNRCC a plan to achieve continued compliance every two years

    b. employers that can not demonstrate compliance with the target APO must revise and resubmit to the TNRCC, within 60 days of the applicable compliance deadline, a plan to achieve compliance.

* All employers must achieve final compliance with the target APO no later than two years after the ETR plan submission deadline.

CONSEQUENCES OF NONCOMPLIANCE

Employer Penalties:

* Administrative penalties up to $10,000.00 per day per violation, or
* Civil penalties up to $25,000.00 per day per violation

Note: In formulating an enforcement policy, the TNRCC may consider any good faith effort made by the employer to achieve compliance.

Area-wide Penalties:

* Loss of Federal Highway Funds
* Industrial Growth Limits
* Loss of Federal Water/Sewage Funds
* Loss of Air Quality Grants
* EPA or Court Imposed Control Plan

GLOSSARY

APO — Average Passenger Occupancy applies to the average number of employees per vehicle equivalent arriving at a specific employer's worksite during the morning peak travel period and equals the number of employees reporting to a worksite between 6 a.m. and 10 a.m., Monday through Friday, divided by the number of vehicle equivalents in which employees report to work.

Employee — Any person, excluding volunteers, employed by a firm, person(s), business, educational institution, nonprofit agency or corporation, government department or agency, or other entity.

Employer — Any person(s), firm, business, educational institution, government department or agency, nonprofit agency or corporation, or other entity that employs, by direct payroll, 100 or more persons at a single worksite.

EPA — Environmental Protection Agency, The federal agency responsible for the development and oversight of environmental protection regulations of the Federal Clean Air Act.

ETC — Employee Transportation Coordinator, A person selected by a company to develop, implement, and/or administer an employee transportation program. Duties generally include registering employees for a ride-match program, coordinating the formation of car, van, and buspools, promoting the use of public transit, and monitoring or tracking employee participation in the program. Employers subject to ETR will be required to have a trained ETC for each subject site with 100 or more employees. TNRCC will certify training providers for ETCs. Employers must have an ETC identified to the TNRCC by September 1, 1993.

ETR — Employer Trip Reduction, A federal mandate making employers legally responsible for increasing the APO of commute trips made by employees during peak traffic periods to 25% above the AVO measured in 1992.

NAAQS — National Ambient Air Quality Standards, established by the EPA for various air pollutants. The standards are ozone, carbon monoxide, nitrogen dioxide, sulfur dioxide, non-methane hydrocarbons, lead and particulate matter.

Ozone	A highly reactive bluish-colored haze with a pungent odor; a major constituent of photochemical oxidants; formed in the atmosphere by a series of photochemical reactions involving oxides of nitrogen and reactive organic gases in the presence of sunlight. Nitrogen oxide (NOx) and volatile organic compounds (VOCs) react together in sunlight to form ground level ozone, a major component of smog. A large portion of these ozone precursors come from vehicle emissions.
Peak Travel Period	The morning commute peak driving period from 6 a.m. until 10 a.m. Monday through Friday.
SIP	State Implementation Plan
Target APO	The specified APO that each employer must achieve by the compliance deadlines, which are two years after the plan submission deadlines. Target APOs have been designated in the state implementation plan for specified geographic subareas within the ozone nonattainment area, such that the weighted average of all target APOs will achieve an overall APO of at least 25% greater than the average vehicle occupancy for the entire ozone nonattainment area.
TNRCC	Texas Natural Resource Conservation Commission
Vehicle Equivalent	(VE), The calculated fraction of a motor vehicle used by each employee for commuting during the peak travel period. For example: a single occupancy vehicle equals a 1.0 vehicle equivalent; a carpool with four employees equals a 0.25 vehicle equivalent; and an employee using transit service or a special vehicle for a disabled employee equals a zero vehicle equivalent. The vehicle equivalents for other trip reduction strategies, such as compressed workweeks, alternative fuel vehicles, telecommuting, or other measures will be calculated in accordance with procedures and formulas provided by the Texas Natural Resource Conservation Commission .
VOC	Volatile Organic Compound
Worksite	A building or a group of buildings that are in actual physical contact or separated only by a private or public roadway or other private or public right-of-way and that are owned or operated by the same employer or by employers under common control.

PURPOSE

- Compile information as a basis for planning and developing the ETR program
- Consider travel reduction methods to gain the best results in meeting compliance
- Analyze employee demographics
- Evaluate benefits to employer and employee
- Make optimum use of resource allocations

METHODOLOGY

To accurately develop and implement an ETR plan, we must gather data through a worksite analysis, host group meetings with both management and employee representatives, as well as, administer a survey to all affected employees.

Once the data is gathered, it is important to weigh what we know about the worksite, employee preferences and management preferences against the available options. In this process we eliminate options that are not available or otherwise would not be good choices due to demographics, size or job requirements.

The number of activities planned to reach the target APO will depend on how far the worksite is from reaching that goal. A major consideration is whether the worksite will rely on flexible or alternative work hours or focus primarily on alternative commute modes.

Options are not necessarily limited by transit availability, walking and biking conditions.

Developing a successful plan requires forecasting the number of employees that will use an alternative commute mode, go on a compressed work schedule or telecommute.

Data to be used in developing and implementing a plan is gathered through: 83 0891

1. Employer's information as to existing situation and activities at the worksite, i.e., the number of carpools or vanpools currently operating at the worksite.

2. Survey responses

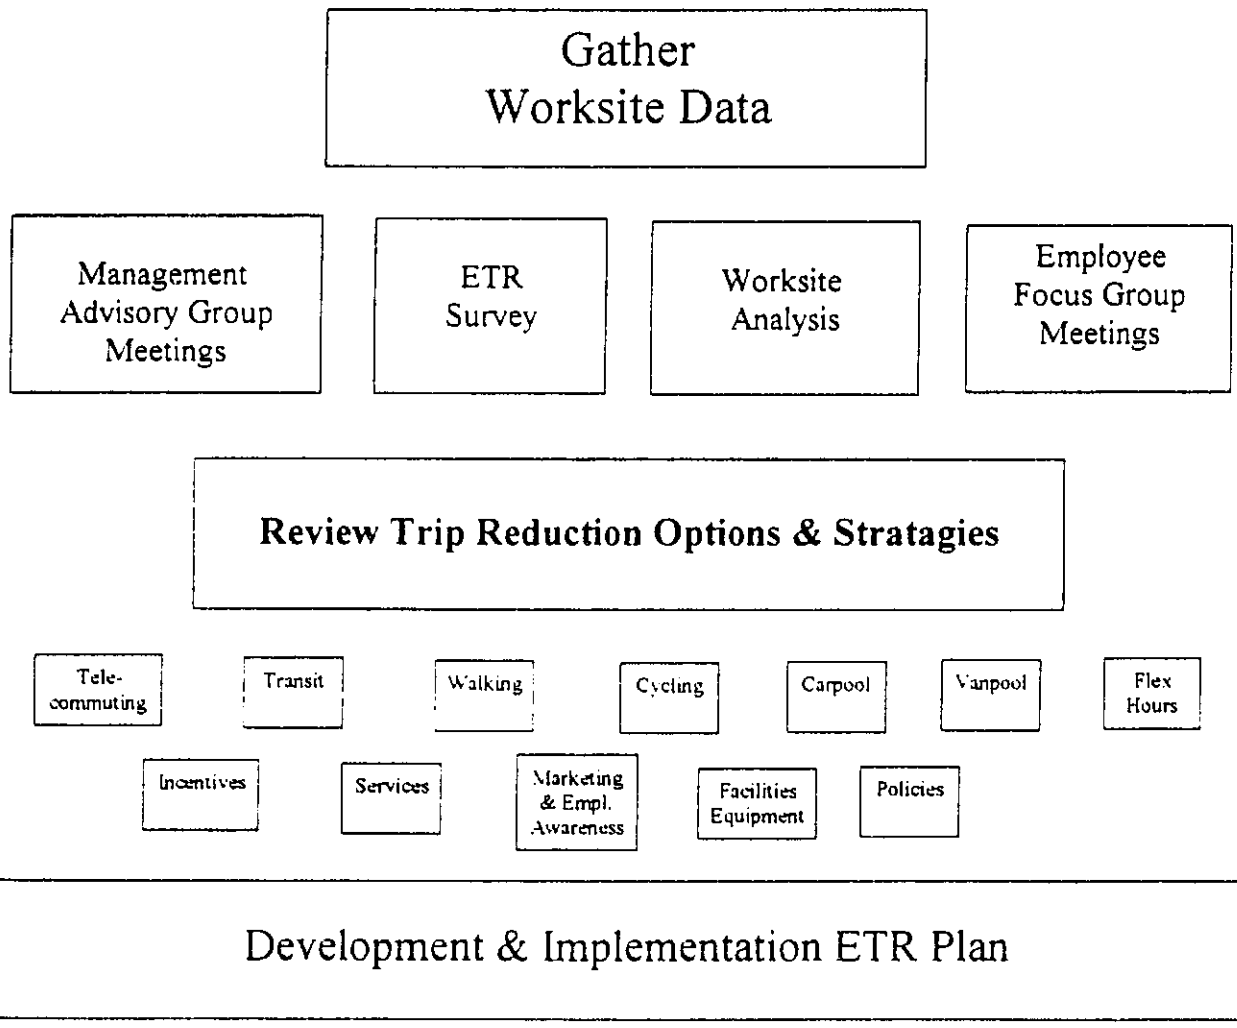

3. Management commitment to ETR compliance and participation in alternative commute modes

4. Focus group meetings with employees to determine their perceptions, obstacles and motivational factors

5. A density map review of employee residence locations

6. A review of all options available at the worksite

Once this data is gathered in as much entirety as possible, standard procedures are implemented to determine the components of the worksite ETR plan.

TYPES OF OPTIONS FOR REDUCING EMPLOYEE COMMUTE TRIPS

There are three categories of Employer Trip Reduction Options:

1. how employees arrive at the worksite
2. scheduled time of arrival at the worksite
3. worksite location

How employees arrive at the worksite:

Employees can arrive at the worksite by motorized or non-motorized means.

Motorized or ridesharing options include public transit, carpooling, vanpooling and any alternative wherein two or more persons ride in a motor vehicle for more than 50% of their commute distance from home to work.

Non-motorized options include walking, cycling, roller-skating, etc., the entire distance to work.

Scheduled time of arrival:

Altering work schedules can make a considerable difference in the number of employee trips that arrive at the worksite between 6-10 am.

Worksite location:

Altering a location, such as telecommuting or satellite offices, also reduces employee trips to the worksite.

Commute Mode Characteristics

Each person, department and employment site is unique. What works well for some people will not work well for others. What works at one site will be different from what will work at another. There are, however, some general "commuter markets".

Walking: Tends to work well for employees who live within one mile of the worksite, where sidewalks are well maintained, the climate is mild, and the area is well lighted and fairly secure.
Bicycling: Tends to work well for employees who live within five miles of the work site, where the terrain is fairly flat, and the climate is mild. It is also helpful to have some bike amenities in route and at the work site.
Public Transit: Tends to work well for employees who live within ten miles of the work site. Transit service must stop at or very near the work site and very near the home. Transit works well when buses are not crowded, schedules and work shifts are compatible, and employees feel secure at transit stops at both ends of the commute.
Carpools: Serve well those who commute ten miles or more, and spend forty or more minutes commuting.
Vanpools: Serve well those who commute fifteen miles or more and spend one hour or more commuting. To form a vanpool, there needs to be a large group of employees who have the same work schedule and live in the same area.
Buspools: Serve commuters with the same characteristics as a vanpool, but need a much larger group -- 30-40 employees.
Compressed Work Week: Changing work schedules to work a 10-hour/day, 4-days per week, or 9-hour/day 9-days every two weeks can help meet the APO goal. This involves changing production and coverage schedules.
Telecommuting: This means doing some of your work at home rather than in the office. It may work well for some office environments, but does not usually work well in production environments.
Flextime: This means, with management approval, adjusting the time that an employee arrives and departs from work. While it does not directly eliminate cars, it can help employees match-up with bus schedules, vanpools, or carpools. It may not work well in some production environments, but may work well in some office settings.

General Demographic Analysis

Facilities:

Site #1: County Courthouse, William B. Travis Annex, County Clerk Building, Jane Long Annex

Site #2: County Sheriff's Department & Jail, Vehicle Maintenance Facility, Juvenile Probation & Detention.

Location:

Site #1: Downtown Richmond, 350 Liberty street

Site #2: .6 mi. Southeast of Site #1, 410 Ransom Rd

Site #1: Located on U.S. 90A in downtown Richmond, this site is bordered to the south and west by a residential-type neighborhood which includes a number of legal service offices in historic houses, a number of churches, and historic museums. A block to the north and a block to the east there are small commercial businesses. Several blocks west on 90A there are strip commercial centers. Nearby services include restaurants, banks, dry cleaners, and day care. The worksite itself has a snack bar with vending machines and a mobile food vendor.

Site #2: Located 1/2 to 3/4 mile southeast of the Courthouse complex in an undeveloped area, the Sheriff's Department is not within walking distance of any services. The Sheriff's Department and Juvenile Probation facility provide food service for inmates and juvenile detainees; this food service may be available to some employees. Otherwise, food service consists of vending machines.

Transportation Data

The worksites are accessible by vehicle from U.S. 90A and U.S.59. The Grand Parkway from I-10 to U.S. 59, to be completed this spring, will offer direct vehicular access from the northwest. Public transit is available in the form of "The Channel," a new bus service being developed by Brazos Transit System of Rosenberg. The Channel provides luxury buses of varying seating capacities on a subscription basis. It picks up subscribers at their homes. It also offers a midday shuttle service to local restaurants and businesses. The Channel is working closely with Fort Bend County to design a service that will best meet the needs of Fort Bend County employees.
For bicycling or walking, there are no bike/hike paths but Worksite #1 is accessible by sidewalks and nearby street intersections have traffic signals and/or crosswalks.

Parking

Free parking in nearby parking lots provided by the County and free, unlimited street parking are an incentive to SOVs and a disincentive to carpooling. While parking can be a problem for the public, especially during county government activities drawing large numbers of people, parking is generally not a problem for employees. Preferential parking is provided for elected officials and for law enforcement personnel transporting prisoners. The County Jail, located at Site #2, is being expanded with a 6-story building, and the parking lot is being doubled in size.

Summary

Fort Bend County is committed to implementing a successful ETR program and achieving compliance with the required APO. The County has already achieved a 90%-plus response rate on its survey, conducted the week of February 7-11, 1994. Analysis of these surveys, along with employee discussion group meetings, will provide additional data for the development of an effective ETR Plan.

THE STATE OF TEXAS §

COUNTY OF FORT BEND §

LEASE TO DEVELOP LANDFILL GAS

THIS LANDFILL GAS and OPERATING AGREEMENT FOR COLLECTION SYSTEMS ("Lease") is entered into by and between **ECOGAS LANDFILLS, INC.**, a Delaware Corporation ("Lessee") and **Fort Bend County**, a body corporate and a political subdivision of the State of Texas ("County").

WITNESSETH:

County owns and controls the Fort Bend County Landfill, as defined herein. The parties hereto estimate that the biomass contained in the Landfill currently is generating through its decomposition Landfill Gas comprised principally of methane and carbon dioxide which is being generated at a sufficient flow rate and has sufficient heat value and low enough concentrations of corrosive elements to permit the continued operation of the County Collection System and installation of the Ecogas Collection System, as defined herein, for the processing of Landfill Gas and the subsequent sale thereof.

The revenues generated by such anticipated sale of such processed Landfill Gas would be shared by Lessee and County as set forth in this Lease.

It is the desire of the County to permit Lessee to further evaluate the portion of the Landfill under Permit Numbers 1048 and 1554 with respect to the quantity and quality of Landfill Gas being

EXHIBIT "A"

generated therefrom, the economic feasibility of installation of a Landfill Gas Liquefaction System thereon, the feasibility of obtaining all necessary permits to allow continuous operation of the anticipated systems, and certain other factors which would permit the installation and operation of the anticipated systems to the economic advantage of both parties to this Lease.

The parties acknowledge that the primary use of the Landfill is as a sanitary landfill subject to the next succeeding sentence hereof. The parties intend that Lessee shall be provided exclusive rights to the Processing Site as defined herein, but as to the remainder of the Landfill, the rights of Lessee shall be limited to those portions of the Landfill **under Permit Numbers 1048 and 1554** at which or within which the County Collection System or the Ecogas Collection System, each as defined herein, are located from time to time together with such other portions of the Landfill as may be necessary for Lessee to perform its duties in accordance with and as permitted by the terms of this Lease. The parties acknowledge that at all times during the term of the Lease the County shall have all rights required for the County to operate a landfill **under Permit Numbers 1048 and 1554** at the Landfill and meet all requirements imposed upon it in connection with the operation of a landfill at the landfill in accordance with all applicable federal, state and local laws, rules, regulations, permits and orders, and those rights are paramount to any rights granted to Lessee hereunder.

DEMISED PREMISES

2.01 In consideration of the payments, covenants, stipulations and conditions contained herein and hereby agreed to by paid, observed and performed by Lessee, County hereby grants and leases exclusively to Lessee the Processing Site for purposes of the construction and operation of the Processing Facilities, and all rights to the Landfill Gas, and/or Constituent Products for the purposes of exploring for, testing, collecting, treating, processing, selling, operating, and producing said Landfill Gas and/or Constituent Products, which are produced and recovered from land located in Fort Bend County, Texas but not including natural gas, oil or other hydrocarbon substances and utilized as a landfill by the County at the location more fully described in Exhibit 1 to this document. However, Lessee shall have no rights to and shall have no responsibility or liability with respect to any Landfill Gas that is not collected by the Combined Collection Systems. Subject to County's approval, which shall not be unreasonably withheld, Lessee shall also have the right to place and maintain on the Landfill tanks, roads, pipelines and all other structures, works and improvements as may be necessary or convenient in Lessee's operations, with the right of removal of the same including casings in wells, either during or within a reasonable

time after the term hereof (but Lessee shall be obligated to leave the Combined Collection System in good working order), together with all other rights necessary or convenient for any and all of the purposes set forth in this Section, including, but not limited to, rights of way and easements over, upon and across the Landfill. The parties acknowledge that the primary use of the Landfill is as a sanitary landfill and Lessee agrees that its operations hereunder shall not unreasonably interfere with such primary use. The County leases to lessee the exclusive rights to the Processing Site for the uses set forth herein. As to the remainder of the Landfill, the rights of Lessee shall be limited to those portions of the Landfill at which or within which the Combined Collection Systems are or may be located from time to time together with such other portions of the Landfill as may be necessary for Lessee or any approved Sublessee to perform the duties of Lessee or any party that may reasonably require such rights to implement the uses contemplated by this Lease. At all times during the term of this Lease the County shall have all rights required for the County to operate the Landfill and to meet all requirements imposed upon it in accordance with all applicable federal, state and local laws, rules, regulations, permits and orders. The County expressly reserves all rights of use, control and possession of any Landfill Gas not collected by the Combined Collection Systems, and all other rights therein of whatever character not herein expressly given to Lessee.

2.02 Lessee acknowledges, by its acceptance of the Demised Premises, that, except as specifically set forth elsewhere herein,

the Demised Premises, including the Processing Site are leased "as is, where is" and in their present condition with all faults and that the County has not made and does not hereby make and specifically disclaims any representations, guarantees, promises, covenants, agreements or warranties of any kind or nature whatsoever, whether past, present or future, oral or written, expressed or implied, concerning the condition of the Demised Premises, including the Processing Site, for any particular use, purpose, business or activity contemplated, intended or ongoing including Lessee's purposes under this Lease, other than those expressly set forth in this Lease.

2.03 Except as otherwise provided, during the term of this Lease, Lessee agrees to lease from the County the County Collection System at an annual cost of **TEN AND NO/100 DOLLARS** ($10.00) (United States Ten Dollars). The term of said lease shall run concurrent with that of the Landfill by the Lessee. Lessee may modify the County Collection System in any manner determined to be necessary or advantageous by Lessee in order to integrate the County Collection System with the Ecogas Collection System. If Lessee elects to use all or any portion of the County Collection System as set forth herein, Lessee shall be responsible for and shall have full authority to repair, maintain, operate, relocate and replace thereafter that portion of the County Collection System elected to be used to the same extent as Lessee has responsibility and authority to perform such duties with respect to the Ecogas Collection System.

2.04 Lessee shall at all times indemnify, defend and hold County harmless from all claims, losses, demands, damages, costs (including attorneys' fees and costs) mechanics and materialmen's liens and liabilities for labor or materials in connection with the construction, repair, alteration or installation of structures, improvements, equipment or facilities within the Processing Site or the Landfill. Lessee shall have no right or authority to allow any mechanics or materialmen or similar liens to attach to the Demised Premises or any other property of the County and Lessee shall indemnify and hold harmless the County from and against any and all such liens.

2.05 The parties recognize that the County is required to promptly respond to complaints or other notifications received from the Texas Natural Resource Conservation Commission or other governmental agencies having jurisdiction over the Landfill as to any purported noncompliance of the Landfill with applicable rules, orders, permits or regulations. As such, Lessee will expeditiously respond to any requests, oral or written, submitted by the County with regard to such purported noncompliance issues and shall utilize its best efforts to adjust operations accordingly.

2.06 In order to allow the County to comply with all current or future applicable laws, rules, orders, permits and regulations with respect to its operations conducted at the Landfill, all Landfill Gas not being utilized by the Processing System shall be delivered by Lessee to a flare operated by Lessee in conjunction with the Combined Collection Systems.

2.07 During the term of the Lease the County intends to measure the concentrations of Landfill Gas which may from time to time escape from the surface of the Landfill with a view to monitoring Landfill Gas emissions for compliance with applicable air quality and other environmental regulations. The parties agree that they shall coordinate their efforts with a view toward maintaining the Landfill in compliance with applicable air quality or comparable environmental regulations. If the County at any time determines that the emissions of Landfill Gas from the Landfill exceed permissible limits, the County shall use reasonable efforts to determine the cause for such emissions. If the presence of excess concentrations of Landfill Gas are determined by the County to be caused by cracks in the Landfill or other Landfill surface or subsurface irregularities, then the County shall have the sole responsibility for the repair of such cracks or other Landfill surface or subsurface irregularities, unless the crack in the Landfill or other surface or sub-surface irregularity was caused in whole or in part by the acts, omissions or operations of Lessee. Lessee shall have sole responsibility for repair of such cracks or other surface or sub-surface irregularities caused soley by the acts, omissions or operation of Lessee. Lessee agrees to pay a proportionate share for the repair of such cracks or other sub-surface irregularities caused in part by the acts, omissions, or operations of Lessee. If such excess concentrations of Landfill Gas are determined to be caused by the generation of Landfill Gas at the Landfill at a rate greater than the rate of collection by the

combination of the County Collection System and the Ecogas Collection System, then the County shall promptly notify Lessee of its determination of the cause of such excess concentration of Landfill Gas. Upon receipt of such notification and supporting data, Lessee agrees to increase the draw rate on the wells in the Combined Collection Systems located nearest to the area or areas of excess concentration of Landfill Gas, but Lessee will in no way be expected to draw the Combined Collection System at a rate which will cause the intrusion of oxygen from the atmosphere. In the event this procedure is not successful, the Lessee shall drill additional wells as deemed necessary, but in no manner will wells be placed closer than 250 feet from existing wells, the perimeter of the permitted Landfill or the dividing line between the cells operated by Laidlaw Waste Systems. The parties have set forth the preceding procedure to evidence their intent to cooperate with each other in an effort to maintain the compliance of the Landfill with applicable air quality regulations. However, by pledging its cooperation, Lessee shall have no liability for the failure of the Landfill to meet such air quality or comparable regulations as may be in effect from time to time during the term of this Lease unless such failure of the Landfill to meet air quality or comparable regulations is caused in whole or in part by the acts, omissions, or operations of Lessee. Lessee shall be liable for a proportionate amount of damages for failure to meet air quality or comparable regulations caused in whole or in part by the acts, omissions or operations of Lessee.

12/8

2.08 It is the intent of the parties hereto (but without any warranties express or implied) that the Combined Collection Systems and all replacements, expansions and additions thereto and operation thereof shall function to collect the Landfill Gas generated at the Landfill to the greatest extent practicable so that (i) the operation of the Landfill will remain in compliance with applicable federal, state and local laws and regulations, (ii) as much Landfill Gas as reasonably possible will be available for use by Lessee in the Process System operated by Lessee and (iii) the collection of Landfill Gas by the Combined Collection Systems will occur in a fashion so that less than one-half percent (0.05%) oxygen by volume will intrude into the Combined Collection System and Lessee agrees to use all reasonable efforts to accomplish these objectives. In view of the foregoing, in order to achieve the intrusion limit, the County shall continue to maintain the cover over those portions of the Landfill where it is currently installed and shall continue to install such cover over additional portions of the Landfill as they are filled with refuse and cover material has been placed in accordance with the sanitary landfill operational plan of the County.

2.09 Lessee agrees to conduct its operations so as not to unreasonably interfere with the use of the Landfill for sanitary landfill operations. In drilling, equipping, operating and maintaining the Combined Collection Systems, Lessee shall use reasonable care and diligence and shall perform all work in a proper and workmanlike manner.

(a) Lessee will indemnify, hold harmless, defend and exempt the County, its officers, agents, servants, and employees from and against any and all suits, actions, legal or administrative proceedings, claims and demands, damages, costs, expenses and reasonable attorney's fees incident to Lessee's drilling, equipping, operating and maintaining the Combined Collection Systems.

2.10 The County agrees to use reasonable efforts to supervise the equipment operators employed at the Landfill and to instruct them not to damage any vertical well pipes or other material or equipment of Lessee installed at the Landfill which may extend above the surface of the Landfill during either normal day-to-day operations or during any operations in which the Landfill is brought up to its final grade. To the extent that any damage occurs to the Combined Collection System that arises from the activities of and is the fault of the County, or any other contractor, agent, licensee or invitee of the County, all of such damage shall be the responsibility of the County. In connection therewith, all repairs to the Combined Collection Systems shall be performed by and at the direction of Lessee.

III.
TERM

3.01 The term of this Lease shall begin on the Start Date and continue for a primary term of 240 months thereafter and for so long thereafter as Landfill Gas is produced in Commercial Quantities, unless sooner terminated as provided herein. In no event shall this Lease extend beyond the limitations set forth in

the relevant permits granting authority for landfill operation or any applicable legal limitation pertaining to the term of an agreement of the nature set forth herein.

3.02 This Agreement shall become null and void should the Texas Natural Resource Conservation Commission and other governmental agencies having jurisdiction over the Landfill not approve of the continued Lessee operation.

IV.
COMPENSATION FOR LANDFILL GAS AND RENT FOR SITE

4.01 As royalty, Lessee covenants and agrees to pay the County on Landfill Gas produced from the Landfill (i) when sold by Lessee, 1/8th of the amount realized by Lessee, computed at the mouth of the well, or (ii) With respect to any Landfill Gas processed into liquified gas or other products, the County shall receive a royalty equal to (a) 1/8th of the amount realized by Lessee from the sale of residue gas and 1/8th of the amount realized by Lessee from the sale of liquified gas or other products extracted or processed or (b) 1/8th of the market value of such Landfill Gas computed at the mouth of the well, at the option of the County. For purposes of this Lease, the market value of Landfill Gas, residue gas, liquified gas and other products shall be the gross price paid for such gas and other products.

4.02 The County or its authorized representatives shall have the right to inspect during reasonable business hours on a semi-annual basis the sales journal and any other pertinent books and records of Lessee relating to the gross and net revenues from the sale of Gross Marketable Products collected at the Landfill. Such

inspection rights shall be conducted during business hours and in such a manner so as not to unreasonably interfere with the ongoing business of Lessee. The sales journal and other pertinent books and records shall be maintained by Lessee in accordance with standard accounting practices.

4.03 If Lessee fails to pay any sums due under this Lease when due, there shall be a late charge on such amounts due to the County from the due date until paid at the prime interest rate plus 2%.

V.
EVALUATION, TESTING AND CONSTRUCTION

5.01 With due diligence and as soon as practicable after the Start Date, Lessee shall, at its sole expense, commence making such evaluations and conducting such exploration and tests on the Landfill as it deems appropriate in order to determine the Ecogas Collection System design parameters. Such work shall be completed within ninety (90) days of Start Date.

5.02 Subsequent to the completion of work under 5.01, Lessee shall file a copy of all planned designs and works programs with the County Engineer as a matter of course. All such designs shall be accomplished only with the County Engineer's approval and in cooperation with the County.

5.03 Should the volume and quality of the Landfill Gas be acceptable, Lessee shall incorporate a Landfill Gas Liquefaction Unit into the scheduled work. Such Landfill Gas Liquefaction Unit shall be located at the Processing Site and shall meet all governmental guidelines for operation.

5.04 Following the analysis of the Landfill Gas and the determination of the design criteria, Lessee shall, at its own expense, prepare and file applications and diligently prosecute the processing of such applications for the purpose of obtaining all environmental and other permits which may be required under applicable local, state and federal environmental laws and regulations for the installation of the Ecogas Collection System and/or the Landfill Gas Liquefaction Unit. In connection therewith the County agrees to make available to Lessee copies of all environmental information reports, environmental impact reports, air impact assessment studies, water impact assessment studies, copies of all environmental applications filed and other data in the possession of the County. The County agrees to assist in all reasonable manners in the process to securing such permits.

5.05 At the time which Lessee commences with the construction at the landfill, Lessee shall also have each contractor which is to operate on the Landfill on behalf of Lessee provide and keep in full force and effect both Worker's Compensation and commercial general (public) liability insurance coverage issued by an insurance company authorized and approved by the State of Texas, acceptable to the County and issued in the standard form approved by the State Board of Insurance. The insured provisions of these policies must name the County, its officers and employees, as additional insured protecting the County against any and all claims for damages to persons or property as a result of or arising out of the contractor's activities. The Workman's Compensation coverage

must provide statutory limits of liability. The commercial general liability coverage must provide combined single limits of liability for bodily injury and property damage of not less than $500,000 for each occurrence, $1,000,000 annual aggregate. The coverage must be on an "occurrence" basis and must include coverage for premises operation, independent contractors, personal injury, contractual liability and medical payments. Companies issuing the insurance policy shall have no recourse against the County for payment of any premiums or assessments.

Lessee shall cause each contract with a contractor to further provide that the County does not have any liability to or responsibility for a contractor; the contractor agrees to look solely to Lessee and not to the County for payment.

VI.
OPERATIONS

6.01 Lessee agrees to construct 20 wells and hook-up lines at the Landfill after Start Date. **The parties agree that time is of the essence.** In the event either a modification of the existing 1048 and 1554 permits or the County's Gas Processing and Extraction permit are not approved within one (1) year of Start Date, the County shall reimburse Lessee a reasonable sum not to exceed $300,000.00 for the construction and hook-up lines.

The County shall consider reimbursement of Lessee upon the submission of an itemized invoice (or invoices) of the reasonable costs from Lessee.

6.02 Once all necessary permits and governmental authorizations are obtained by Lessee, all required easements and rights of way obtained and a suitable Processing Site has been obtained, Lessee shall provide the County with written notice of its decision to commence construction of its facilities.

6.03 Upon giving its written notice pursuant to Section 6.01, above, Lessee shall at its sole expense commence the final engineering and design, procurement of materials and equipment and construction of necessary facilities for collecting and processing the Landfill Gas and/or Constituent Products. Upon the County's request, Lessee shall submit the construction plans and specifications for approval by the County. Such approval by the County shall not impose liability or responsibility on the County for Lessee's construction plans and specifications. Such approval will not be unreasonably withheld by County. Construction of all necessary facilities shall commence within ninety (90) days of the Start Date and shall be completed within 150 days of Start Date. Such installations shall include, but not be limited to, twenty-five (25) additional extraction/collection wells throughout the center of the existing perimeter collection system, approximately nine thousand (9,000) feet of polyethylene pipe to collect from each new well and provide flow to the Landfill Collection System and such sumps and drainage lines as will be necessary for proper operation.

6.04 Upon the completion of the Ecogas Collection System and satisfactory review of the Landfill Gas production quantities and

qualities, Lessee, at its sole discretion, shall determine if adequate supplies of suitable Landfill Gas are available in order to implement the Landfill Gas Liquefaction System. Should the quantity or quality of the Landfill Gas be found by Lessee to be deficient for purposes of liquefaction, such Landfill Gas shall be properly treated by Lessee and provided for direct sale for other purposes. Lessee should use all reasonable efforts to market the gas and should be responsible for the proper treatment of the Landfill gas so that it will be marketable. Should the quantity and quality of Landfill Gas be found sufficient for purposes of liquefaction, Lessee shall make available mutually agreed quantities of Liquefied Natural Gas to the County for use in its alternative vehicle program at the average price posted of mid grade, 89 octane fuel in the OPIS pad 3 Report for the Houston area. Should the decision be made at the sole discretion of Lessee not to implement the Landfill Gas Liquefaction System, Lessee agrees to provide the County with agreed quantities of liquefied natural gas from alternative sources at the same price as agreed in the preceding sentence.

6.05 Lessee, commencing one month following the signing of this Lease and continuing until the final implementation of all Landfill Gas processing systems shall provide to the County written monthly status reports on Lessee's progress with respect to all aspects of the Project. Following full implementation of all systems and throughout the term of this Lease the parties shall endeavor to meet at least quarterly during each calendar year in

order to discuss the operations of the project and to exchange information regarding planned future operations by Lessee.

6.06 If from time to time during the term of this Lease any planned installation of a portion of the Ecogas Collection System would cross any nondedicated roadways within the Landfill used by trucks or other vehicles operated by the County or its invitees, then at least ten (10) business days prior to the commencement of any construction of such portion of the Ecogas Collection System that would cross such roadway Lessee shall submit to the County for approval the plans and specifications pertaining to such portion of the Ecogas Collection System. It is the intent of this provision to afford the representatives and staff of the County the opportunity to provide Lessee with constructive comments as to any cost-effective modifications to the plans and specifications that would reduce the likelihood that such portion of the Ecogas Collection System would sustain material damage from the type and volume of vehicle traffic expected to use such roadway. County shall provide its comments to Lessee in a timely fashion so as not to delay construction of the Ecogas Collection System, and in any event, not later than ten (10) business days from the receipt of such plans and specifications from Lessee. Regardless of whether the County has made any recommendations to Lessee pursuant to this Section 6.06, the County shall have no liability to Lessee for any damage to the Ecogas Collection System or any other property arising from such vehicular traffic.

the County. Such Condensate shall be treated, transported and properly disposed of by the County at its sole expense. The collection, treatment, transportation and disposal of such Condensate shall be performed by the County in compliance with all federal, state and local laws and with such frequency as to allow the continuous operation of the Combined Collection Systems and the Processing System. Similarly, the County has the sole responsibility and bears the total expense of collection and proper treatment of any and all liquid discharge of the Landfill ("Leachate") for the duration of the lease. It is expressly agreed that Lessee has no responsibility nor liability for the handling, treatment or disposal of Leachate, either on-site or off-site of the Landfill.

6.09 Lessee shall, in conjunction, with its operations on the Landfill hereunder, have the right, subject to the approval of the Texas Natural Resource Conservation Commission and without cost to the Lessee, nor charge to the County to return to the Landfill under the County's operating permits, any and all solid matter removed, as a result of processing, from the Landfill Gas and/or Constituent Products recovered from the Landfill. Lessee will put no solid matter into the Landfill other than that which is already existing in the Landfill and is necessarily removed by Lessee when processing the Landfill Gas and/or Constituent products. Any solid matter returned to the Landfill shall be in full compliance with the local, state and federal environmental laws regulating the

6.07 Subject to the provisions of this Lease, Lessee shall evaluate, test, collect, treat, process and market the Landfill Gas and/or Constituent Products produced by the Landfill as a reasonably prudent operator, but in discharging this obligation, Lessee shall be responsible, in its sole discretion, for determining all details of the evaluation, testing, collection, treatment, processing and disposal or marketing of the Landfill Gas and/or Constituent Products; provided, however, that Lessee shall conduct its operations hereunder and control the activities of its contractors, agents, representatives, on the Landfill in such a manner so as not to unreasonably interfere with the County's use of the Landfill, unless the County otherwise consents in writing. Lessee shall be responsible for all operation and production activities with respect to the Combined Collection Systems. Lessee shall develop the Landfill to maximize production of Landfill Gas and/or Constituent Products.

6.08 Both parties understand that certain vapors condense during the normal collecting, transporting and processing of Landfill Gas and form liquid condensate ("Condensate") which will be drawn from the Landfill as a normal consequence of Landfill Gas collection, transportation and process operations. For the entire term of the lease all Condensate separated from the Landfill Gas and collected by Lessee from the Landfill Collection System, the Ecogas Collection System or the Combined Collection Systems at the Landfill or the Processing Site, or both, shall be delivered by Lessee untreated to proper receptacles provided at the Landfill by

Landfill operation and shall not be classified as hazardous materials.

6.10 Lessee during the drilling operations shall make all attempts not to penetrate impermeable clay liner. Lessee shall repair impermeable clay separating solid waste from groundwater if penetrated by Lessee during boring of wells. If repair of impermeable clay is required such repairs shall be done in accordance with Texas Natural Resource Conservation Commission guidelines. Lessee shall install and maintain instruments to measure the quantities, energy content and composition of Landfill Gas recovered from the Landfill. Lessee shall enclose its Processing Site with fencing, including lights and warning signs.

6.11 During the term of this Lease the County may be required to measure the concentrations of Landfill Gas which may from time to time escape from the surface of the Landfill with a view to monitoring Landfill Gas emissions for compliance with applicable air quality or other environmental regulations. The parties agree that they shall coordinate their efforts with a view of maintaining the Landfill in compliance with applicable air quality or comparable environmental regulations. The County shall, however, have sole responsibility for Landfill Gas migration, both on and off-site, and shall solely bear the full expense for necessary repairs of such cracks, fissures, or surface or subsurface irregularities which may be the cause of migration of the Landfill Gas. By pledging its cooperation, however, Lessee shall have no liability for the failure of the landfill to meet such air quality

or comparable regulations as may be in effect from time to time during the term of this lease. Lessee shall have sole responsibility for Landfill gas migration due soley to Lessee's operations. Lessee shall bear a proportionate liability for Landfill gas migration due in part to Lessee's operations.

6.12 Lessee agrees to use its reasonable efforts to hire or contract with residents of the County and surrounding communities as well as businesses that are either owned by or provide significant employment to minorities in connection with the installation of the Ecogas Collection System and the Processing System, provided that such employees or contractors possess experience, skills and, to the extent pertinent, financial responsibility to timely perform the duties that will be contracted for by Lessee.

VII.
PROPERTY RIGHTS

7.01 Lessee shall be authorized and is hereby granted the use of the Processing Site and that portion of the Landfill to the extent reasonably necessary or convenient for Lessee's facilities and the operations contemplated hereunder, including the construction and maintenance of all necessary wells, pipelines and utility lines together with attendant and mutually acceptable easements, access, and the free right of ingress and egress at all times to and from said property.

7.02 This Lease grants exclusively to Lessee, its successors and assigns, all rights to Landfill Gas recovered by Lessee but

shall not be deemed to grant to Lessee any rights to or interest in any natural gas located beneath the Landfill.

7.03 County hereby grants such rights of way and the right of ingress and egress at all times to and from the Landfill as may be reasonably necessary or convenient for the purchaser(s) of the Landfill Gas and/or Constituent Products to accept delivery thereof at Lessee's Processing System.

7.04 Upon request by Lessee, County shall reasonably cooperate with Lessee in any proceedings, hearings or other procedures necessitated by any required environmental impact reports or studies, governmental permits, authorizations and similar type requirements, related to this project and the construction and operation of the Ecogas Collection System and the Processing System. Upon request, Lessee shall reasonably cooperate with the County in briefing the officials of any government agency or body, including County or any other interested party, with respect to the status of the Project.

Upon request by County, Lessee shall reasonably cooperate with County in any proceedings, hearings or other procedures necessitated by and required environmental impact reports or studies, governmental permits, authorizations and similar type requirements, related to this project and the construction and operation of the Ecogas Collection System and the Processing System. Upon request, County shall reasonably cooperate with Lessee in briefing the officials of any government agency or body,

including Lessee or any other interested party, with respect to the status of the Project.

7.05 This Lease grants exclusively to Lessee with full rights to assign to any permitted assignee of this Lease, all right, title and interest to any air emission offset credits or similar allowances created by reason of the recovery or other disposition of Landfill Gas from the Landfill. County agrees that permission to assign this Lease shall not be unreasonably withheld, provided that the assignee is a business entity controlled in whole or in part by EcoGas Landfills, Inc.

7.06 Lessee shall be obligated to install and maintain the landscaping, security fencing, warning signs and lighting which is to be located on the Processing Site made available to the Lessee under 7.01, above, and which is utilized by Lessee in its operations hereunder.

7.07 The County agrees to use its reasonable efforts to supervise the machine operators employed to work at the Landfill and to instruct them not to damage any vertical well pipes or other material or equipment of Lessee installed at the landfill which may extend above or be located below the surface of the landfill during either normal day-to-day operations or during any operations in which the Landfill is brought up to its final grade. To the extent that any damage occurs to the Ecogas Collection System or the Processing System from activities of the County or any contractor, agent, licensee or invitee of the County, the repair of all of such damages shall be the responsibility of the County.

VIII.
REMOVAL AND RESTORATION

8.01 At the County's option and upon notice to Lessee, Lessee shall have an obligation, within three (3) months after the expiration or termination of this Lease to remove the above-ground property, fixtures and improvements which Lessee has placed on or adjacent to the Landfill. If Lessee fails to remove such property, fixtures and improvements within the twelve (12) months, County may remove and store same at the sole expense and risk of Lessee, and County shall not be liable in any way to Lessee on account of removing and storing same. Provided, however, Lessee shall not remove the Combined Collection System or any part thereof.

8.02 Upon expiration or termination of this Lease the underground well and collection system in the Landfill and the pad installed at the Processing Site shall become the property of the County and Lessee shall have not further responsibility with respect to the underground well and collection system and such pad and shall not remove same.

8.03 If wells are abandoned and removed, the well bore will be plugged according to all applicable laws and standards in effect at the date of abandonment.

IX.
COMPLIANCE WITH LAW

9.01 Lessee shall, at its sole expense, obtain, maintain and comply with all governmental authorizations, permits and licenses required to conduct its operations under this Lease. In addition,

Lessee shall comply with all applicable federal, state and local laws, rules, regulations and orders in its operations hereunder.

X.
LAWS AND FORCE MAJEURE

10.01 The provisions of this Lease shall be subject to all valid and applicable federal, state, county, municipal and other government laws, executive orders, ordinances, rules, regulations and acts applicable in the State of Texas and Fort Bend County. This Lease shall not be terminated, in whole or in part, nor shall County or Lessee be held liable in damages, for failure to comply herewith, if compliance is prevented by, or the failure is the result of, any such law, order, ordinance, rule, regulation, act, permitting requirement, or due to Force Majeure. Provided however, this Agreement shall terminate and the Lessee shall not be liable in damages if the Lessee fails to comply herewith if compliance is prevented by, or the failure is the result of any such law, order, ordinance, rule, regulation, act permitting requirement, or due to Force Majeure lasting more than six months.

XI.
TITLE, LANDFILL GAS CONDITIONS AND HAZARDOUS MATERIALS

11.01 The County hereby represents and warrants that it is the owner of and has good title to the Landfill, to the Processing Site and to the Landfill Gas and/or Constituent Products produced by the Landfill. County also warrants that it has the full right and authority to grant to Lessee the rights set forth in this Lease. At or **within a reasonable time** following the signing of this Lease, the County shall deliver to Lessee copies of Quit Claim Deeds

disclaiming any interest in synthetically produced methane gas from the landfill from any possible royalty and mineral interests beneath the landfill.

11.02 The parties hereby acknowledge and agree that all of the equipment and property incorporated in the Ecogas Collection System and the Processing System are the sole and exclusive property of Lessee. All of such equipment or property shall remain personal property notwithstanding the method or mode of its installation on, under or attachment to any real property. Should the Landfill be subject to a lease or mortgage by the County, upon the written request by Lessee the County shall provide to Lessee prior to the delivery of such equipment and personal property a waiver or estoppel certificate from the Lessor or Mortgagee, or both, of the Landfill, in a form satisfactory to Lessee, acknowledging that such equipment and property is personal property owned by Lessee and subject to the right of removal by Lessee, except for the Combined Collection System which is to be left in good working order. Additionally, so long as Lessee is not in default under the terms of this Lease, should any lessor or lender with respect to any equipment or property included in the Ecogas Collection System or the Processing System require a waiver or estoppel certificate from the County and from any lessor, lessee or mortgagee of the County, in a form satisfactory to the lessor or lender to Lessee acknowledging that such equipment and property is personal property and is owned by and may be removed by Lessee.

11.03 Lessee shall have no obligation of any nature with respect to the monitoring, collection, control, flaring or disposal of any Landfill Gas produced by the Landfill, except as actually collected by Lessee through the operation of the Combined Collection Systems referred to herein. Lessee expressly disclaims any and all liability, responsibility, representation, guarantee or warranty, whether expressed or implied with respect to any Landfill Gas emission or migration, or both, from the Landfill, except emission or migration of Landfill gas due to Lessee's operation.

11.04 County represents, warrants and covenants to Lessee that (i) County has complied with and shall continue to comply with all federal, state, local and other laws, rules, regulations, orders and other governmental authorities which pertain to Hazardous Material, as currently in effect and (ii) the Landfill does not contain and will not contain during the term of this lease any hazardous material except (a) household waste that may contain small quantities of hazardous material at levels below those that would give rise to liability as a consequence thereof, including liability for any clean-up or remediation, and (b) the storage, disposal, transport or emission of any hazardous material as permitted under any applicable federal, state or local law, rule, regulation, order, permit or other governmental authority which pertains to hazardous material. Lessee represents, warrants and covenants to County that (i) Lessee shall comply with all applicable federal, state, local and other laws, rules, regulations, orders, and other governmental authorities which

pertain to Hazardous Material, as currently in effect and (ii) the Processing Site will not contain during its exclusive possession by Lessee and Hazardous Material as permitted under any applicable federal, state or local law, rule, regulation, order, permit or other governmental authority which pertains to hazardous material.

XII.
DEFAULT

12.01 In the event that either party concludes that the other is failing to perform or observe any of the provisions of this Lease required to be performed or observed by such other party, the non-breaching party shall notify the breaching party in writing of the facts relied upon as constituting such non-compliance. The breaching party, if in default, shall have sixty (60) sixty days after receipt of such notice in which to cure or to initiate steps to substantially cure such non-compliance. Should the breaching party fail to either cure or initiate steps to substantially cure such non-compliance within said sixty (60) days, the non-breaching party shall have the right to terminate this Agreement upon written notice to the breaching party, unless such non-compliance is excused by the provisions of Section 10 hereof.

XIII.
INSURANCE REQUIREMENTS

13.01 Lessee shall procure, pay for, and maintain prior to the Start Date of any activities on the Landfill and during the term of this Lease, with a company authorized to do business in the State of Texas and acceptable to the County, such minimum insurance coverage as set out in Exhibit 2 to this Lease.

XIV.
LESSEE'S INTEREST

14.01 Lessee is not a public utility and does not intend to dedicate to public use the Landfill Gas and/or Constituent Products produced by the Landfill or any of its facilities. Nothing contained in this Lease shall be deemed a dedication by Lessee to the public of any Landfill Gas and/or Constituent Products or of any of Lessee's facilities. If any regulatory body shall at any time assert jurisdiction over Lessee as a public utility by reason of this Lease, Lessee shall have the right at such time, upon thirty (30) days written notice to County to be relieved of all obligations hereunder not theretofore accrued and this Lease shall thereupon terminate.

XV.
ASSIGNMENT

15.01 If the estate of either party hereto is assigned or conveyed, the rights and obligations created hereby and the covenants hereof shall extend to and be binding upon such Party's assigns or transferee. The Party so assigning or transferring such interest shall thenceforth be released from all obligations hereunder to the extent of the interest so assigned or transferred, provided that at the time of such assignment or transfer the transferring Party's assignee or transferee has the legal ability to perform such obligations. Lessee shall not assign or subject its interest under this Lease to another party without the prior written approval of the County, which written approval shall not be unreasonably withheld. No change of ownership in the Landfill or in

the Party or Parties to received compensation for Landfill Gas or base rent or additional rent for use of the Processing Site shall be recognized by Lessee until Lessee has been furnished with written notice of such transfer or assignment, together with a certified copy of the instruments or transfer or assignment.

XVI.

The V. G. Young Certificate is awarded to all who paid the registration fee. The Official Certificate awarded by the Office of Continuing Education at Texas A&M University reflects the elected official's affidavit of the number of hours actually claimed and earned.

LICENSE AGREEMENT

83 1353

THIS AGREEMENT commencing on the **27th** day of **December** Nineteen Hundred and Ninety Three (hereinafter referred to as "the Commencement Date") is made by and between Ringwood Software, Inc., ("Ringwood") a New Hampshire corporation with a principal place of business at 139R Portsmouth Avenue, Stratham, NH 03885-2440, and **County of Fort Bend - Data Processing, 500 Liberty Street, Richmond Tx 77469- 3500** ("Client").

WHEREAS, Ringwood owns and has developed, or is licensed by the copyright owner to exploit with the power to sub-license, all rights of intellectual property and all other rights as may subsist in the computer software program as specified in Schedule I hereto (hereinafter referred to as "the Package") and

WHEREAS, Ringwood wishes to grant to the Client and the Client wishes to accept a personal non-assignable, non-exclusive license to use the Package in conjunction with the Computer in the manner and form hereinafter appearing.

NOW THEREFORE THE PARTIES HERETO AGREE AS FOLLOWS:

1. Ringwood hereby grants to the Client a personal, non-exclusive license to use the Package in conjunction with the Computer. Use of mainframe versions of the Package is restricted to the Authorized Location and does not include any copyright or other intellectual property right, title or interest in or to the Package or any portion thereof. The aforesaid license shall commence on the Commencement Date and endure for the License Period stated in Schedule I hereto. Use of this Package by third parties or for bureau or facilities management purpose is expressly prohibited.

2. Full legal and equitable property in the Package shall at all times remain vested in Ringwood (or where appropriate Ringwood's Licenser) and upon termination of this Agreement, for whatever reason, the Package is to be returned to Ringwood and all copies derived therefrom in whatever form are to be purged, destroyed or returned, and the Client agrees to provide Ringwood with written confirmation of its compliance with the same.

3. In consideration of Ringwood granting the Client such license, the Client hereby agrees to pay the License Fee to Ringwood at the rate set forth in Schedule I. Such payments will be due and payable within 30 (thirty) days of receipt of a valid invoice, which may be submitted from the Commencement Date. No prices, costs, charges or fees quoted include contingencies to cover charges that may have to be made because of any tax directly related to the Package and all such taxes will be charged as additions to such prices, costs, charges and fees. The Client hereby confirms and agrees that it will be solely responsible for the payment of all Federal, State and Local taxes including without limitation sales and use, privilege and excise taxes resulting from this Agreement.

4. The Client will not change the Computer or Authorized Location as specified in Schedule I hereto without first informing Ringwood who has the right to revise the charges for the Package under this Agreement. When the changes result in an upgrading in the operating system or machine capacity Ringwood may charge any differential at prevailing list price.

5. Ringwood agrees, in consideration of the Client paying such Maintenance Fees as set forth in Schedule I, to maintain the latest current Version of the Package. Ringwood will maintain any superseded Version of the Package for a minimum of 6 months following the release of a new Version of the Package. The Client may call upon Ringwood to discontinue maintenance service by giving Ringwood not less than 1 (one) years notice in writing, to expire on any anniversary of the Commencement Date. Ringwood may, at its sole option, discontinue any maintenance service to the Package where the fee for maintenance is overdue or has not been paid and where reasonable requests have been made by Ringwood for payment of the outstanding amounts. Upon termination of the maintenance service as aforementioned the Package is to be returned to Ringwood and all copies derived therefrom in whatever form are to be purged, destroyed or returned and the Client agrees to provide Ringwood with written confirmation of its compliance with the same. Ringwood may, at its sole option, discontinue maintenance service in respect of the Package by giving not less than 2 (two) years notice in writing to the Client, to expire on anniversary of the Commencement Date.

6. From time to time Ringwood may make available new Versions or improvements to the Package at no additional charge to the Client. Optional enhancements to the Package may also from time to time be released by Ringwood. Ringwood shall notify the Client when such optional enhancements are available and the charge in respect of the same should the Client require such optional enhancements.

7. This Agreement shall commence on the Commencement Date and shall continue for the license period as stated in Schedule I unless terminated as herein or if either party commits any serious breach of its obligations hereunder and fails within 90 (ninety) days of written notice to remedy the same or if either party files bankruptcy or enters into liquidation or makes any arrangement with its creditors or has a receiver appointed over the whole or any substantial part of its assets. Any termination of this Agreement (howsoever occasioned) shall not affect any accrued rights or liabilities of either party nor shall it effect the coming into force or the continuance in force of any provision hereof which is expressly or by implication intended to come into or continue in force on or after such termination. Termination for any reason will not entitle the Client to a refund or waiver of any fee paid or due to be paid by the Client to Ringwood.

8. Ringwood will supply the Package and if any defect that substantially interferes with the Client's use of the Package is found within 1 (one) year from the Commencement Date (hereinafter referred to as the "Warranty Period") the Client shall notify Ringwood of the said defect. Ringwood shall promptly exert its reasonable endeavors to diagnose the problem and shall within a reasonable time take such appropriate steps to rectify the defect in the Package and take such action as may be necessary to secure the satisfactory operation of the Package on the Computer, PROVIDED THAT having rectified such defect or defects as aforesaid, Ringwood shall be under no further liability whatsoever or howsoever arising under this Warranty. Except for the express Warranty of rectifying the defect stated above, Ringwood grants no warranties on any Package supplied to the Client under the terms of this Agreement, either express or implied. Ringwood expressly excludes all conditions of merchantability and fitness for any particular purpose that may otherwise be implied.

License No: RSI/ 93083 **Date: 12/28/93**

9. The Client may not assign all or part of this Agreement without the prior written consent of Ringwood.

10. In the event that Ringwood fails to comply with its obligations under this Agreement after it shall have been given a reasonable opportunity to correct such failure then its total liability to the Client in damages for direct losses suffered by the Client shall not exceed the sums actually paid by the Client under this Agreement at the date of the claim by the Client. In no event shall Ringwood be liable to the Client for any further losses or costs or damages suffered or incurred by the Client.

11. The Package will be disclosed by Ringwood to the Client in the strictest confidence, and the Client will not cause or permit disclosure of the Package in whole or in part to any third party without the prior written consent of Ringwood. The Client will take all reasonable steps to safeguard the Package and to ensure that no unauthorized persons have access to the Package. The foregoing obligations as to confidentiality shall remain in full force and effect notwithstanding any termination of this Agreement.

12. In the event that a claim (an "Infringement Claim") is brought against the Client alleging that the Client's use of the Package infringes the United States patent or copyright rights of a third party, the Client shall promptly send written notice thereof (including a copy of such Infringement Claim) to Ringwood. Ringwood, at its option and cost, shall have the sole right to defend, negotiate, and compromise such Infringement Claim, and the Client shall cooperate with Ringwood in the defense of such Infringement Claim. Should the Client's use of the Package be found to infringe the United States patent or copyright rights of a third party and such infringement was not caused, in whole or in part, by the Client's use of the Package in conjunction with non-Ringwood software, Ringwood shall either:

    a) replace the Package with a compatible, functionally equivalent, non-infringing software product;

    b) modify the Package or take other action so that the Package becomes non-infringing;

    c) procure the right of the Client to continue using the Package; or

    d) if Ringwood determines that one of the foregoing alternatives is either not available to Ringwood or, if available, not available in a manner or on terms and conditions that are satisfactory to Ringwood, then Ringwood shall:

        i) terminate the Agreement, and

        ii) upon compliance by the Client with its obligations upon termination of the Agreement under Paragraph 2 above, refund to Client an amount (if any) equal to:

            a) the amount of the fees paid by the Client to Ringwood, less

            b) a credit to Ringwood in an amount equal to the number of months that have elapsed since the date during which the Client had the full and unrestricted (within the terms of the Agreement) use of the Package.

13. No alteration, modification or addition to this Agreement shall be valid unless made in writing and signed by the duly authorized representatives from both parties. All notices which are required to be given hereunder shall be in writing and shall be sent to the address of the recipient set out in this Agreement. Said notice shall be sent i) by-hand, ii) by certified mail, return-receipt requested or iii) by a recognized overnight mail carrier. Notice shall be deemed to be received by the addressee thereof as follows: I) if sent by-hand, then when said notice is delivered in hand, ii) if sent by certified mail, return-receipt requested, then five (5) days following the date of said return-receipt, and iii) if by recognized overnight mail carrier, then one (1) day following the date of said mail carrier's receipt.

14. The entire Agreement between the Client and Ringwood with respect to the subject-matter herein is contained in this Agreement and shall be governed by the terms and conditions set forth in this Agreement. Any representations made prior to or during the operation of this Agreement shall be expressly excluded.

15. Nothing in this Agreement shall create or shall be deemed to create a partnership, a joint venture or a relationship of employment between the parties hereto.

16. The parties hereto agree that, in the event that either of the parties brings a claim against the other in connection with the interpretation or enforcement of the terms of this Agreement, said claim shall be brought in the United States District Court for the District of New Hampshire or the Hillsborough or Rockingham County Superior Courts of the State of New Hampshire; and that said Courts shall have exclusive jurisdiction thereto. The parties further agree that upon the filing of such a claim, the parties may, in the alternative, agree to submit the claim to arbitration under the Rules of the American Arbitration Association to be mediated by an arbitrator located in the City of Manchester and chosen pursuant to said Rules.

17. This Agreement shall be governed by and interpreted under the laws of the State of New Hampshire.

NOW THEREFORE, in consideration of the mutual covenants and undertakings contained herein and intending to be legally bound by the provisions of this Agreement, Ringwood and the Client indicate their acceptance by executing this Agreement by their duly authorized and empowered representatives.

AS PER ORIGINAL

SERVICE CONTRACT

PLEASE READ THIS AGREEMENT

PLEASE TAKE THE TIME TO READ THE FOLLOWING TERMS AND CONDITIONS UNDER WHICH BANCTEC SERVICE CORP. ("BSC") AGREES TO PROVIDE REPAIR SERVICES FOR YOUR SYSTEM. HERE ARE THE DETAILS OF YOUR SERVICE AGREEMENT:

YOUR SYSTEM

For purposes of this Service Agreement, a System is defined as comprising at least the following components: monitor; central processing unit (CPU); input device (such as a keyboard); and a data storage device (such as a disk drive).

Your System and any other components you own which are covered by this Service Agreement are described in Schedule 1 of this Agreement.

You have chosen for this Service Agreement to cover your System either as a Workstation or as a Server, and your choice is reflected on Schedule 1.

A Workstation is defined as any System that is not a Server. A Server is defined as any System that is accessed by other Systems and is principally used as a storage system for application software and/or data or to manage a network.

If you have chosen Workstation Service, please be aware that such Service only covers the Workstation itself. Such Service will not cover any related network or any Services which would be unique to the System's operation as a Server.

If you have chosen Server Service, such Service will cover only the Server itself, not the network to which the Server is connected, and will involve such Services as are required to restore your Server's operational capability to serve the network.

This Service Agreement provides service coverage on your Dell* Computer and may also provide for Network telephone support. For the type of Service coverage on your system refer to Schedule 1 of this Service Agreement.

HOW TO USE YOUR SERVICE

Follow these simple steps to obtain Service for your System:

CALL FOR ASSISTANCE. PERFORMANCE: If you have a question about your System or if you think the System needs repair service, call toll free 1-800-624-9896. Except for normally observed holidays, these phone lines are answered 24 hours a day Monday through Sunday.
PRECISION: If you have a question about your System or if you think the System needs repair service, call toll free 1-800-247-9361, DIMENSION 1-800-677-2210. Except for normally observed holidays, these phone lines are answered Mondays through Saturdays 7AM to 9PM Central Time and on Sundays 8AM to 5PM Central Time.

PREPARE FOR THE CALL. You will help the technician serve you better if you have the following information and materials ready when you call: your System's invoice and serial numbers, service tag number, model and model numbers; the current version of the operating system you are using; and the names of any peripherals you are using.

EXPLAIN YOUR PROBLEM TO THE TECHNICIAN. Now you are ready to describe the problem you are having with your System. Let the technician know what error message you are getting and when it occurs; what you were doing when the error occurred; and what steps you may have already taken to solve the problem.

COOPERATE WITH THE TECHNICIAN TO SOLVE YOUR PROBLEM. Experience shows that most System problems and errors can be corrected over the phone as a result of close cooperation between the user and the technician. Listen carefully to the technician and follow his suggestions.

UNTIL YOU HAVE COMPLIED WITH THE ABOVE PROCEDURES, WE CANNOT DISPATCH A CUSTOMER ENGINEER TO PERFORM ON-SITE REPAIRS.

YOUR SERVICE ALTERNATIVES. If the technician cannot correct your problem over the phone, he will review with you the following service alternatives, which are described in detail below: (1) On-site Service and (2) Whole Unit Replacement.

These service alternatives are available to you for the duration of your Service Agreement, as noted on Schedule 1.

ON-SITE SERVICE. Subject to the terms of this Agreement, you may request On-site Service for your System within the United States. The technician will need to have the full address of your System's location and whether it is a residence or business. A Customer Engineer will be dispatched to your location to service your System, under the following conditions:

IF YOU HAVE NEXT BUSINESS DAY SERVICE, SECOND BUSINESS DAY SERVICE, OR THIRD BUSINESS DAY SERVICE, THEN THE FOLLOWING SECTION APPLIES TO YOUR SYSTEM:

NEXT BUSINESS DAY SERVICE, SECOND BUSINESS DAY SERVICE, AND THIRD BUSINESS DAY SERVICE. If you follow these procedures and Dell dispatches a BSC technician before 5PM Austin, Texas, time, Monday through Friday, a Customer Engineer will be dispatched to arrive at your location for On-site Service on the appropriate business day (Monday through Friday, excluding regularly observed holidays), between the hours of 8AM and 5PM local time, in most cases. If you request On-site Service from the technician after 5PM Austin, Texas, time, service may take an additional business day. The technician will let you know the exact holidays that are observed in your area.

IF YOU HAVE SAME BUSINESS DAY (4 HOUR) SERVICE, THEN THE FOLLOWING SECTIONS APPLY TO YOUR SYSTEM:

SAME BUSINESS DAY (4 HOUR) SERVICE. If you follow these procedures and Dell dispatches a BSC technician before 1:30PM local time, Monday through Friday, a Customer Engineer will be dispatched to arrive at your location for On-site Service within 4 hours on the same business day, in most cases (Monday through Friday, excluding regularly observed holidays). If you request On-site Service after 1:30PM local time, a Customer Engineer may not be dispatched to your location until the following business day. The technician will let you know the exact holidays that are observed in your area.

PORTABLE SYSTEM LIMITATION. If the System covered by this Service Agreement is a "portable" system (such as, but not limited to, a laptop or notebook computer or other portable model), then you will be eligible for Same Business Day (4 Hour) Service, when available, for a particular Service call only if the Service call is to occur at your address set forth in Schedule 1. If the Service call is to occur at a different address, then the Customer Engineer will arrive at your designated location within the United States to render the Service on the next business day following your request for Service; however, some remote locations may require an extra business day beyond such next business day.

IF YOU HAVE SAME BUSINESS DAY (2 HOUR) SERVICE, THEN THE FOLLOWING SECTIONS APPLY TO YOUR SYSTEM:

SAME BUSINESS DAY (2 HOUR) SERVICE. If you follow these procedures and Dell dispatches a BSC technician before 3:30PM local time, Monday through Friday, a Customer Engineer will be dispatched to arrive at your location for On-site Service within 2 hours of BSC receiving the service call on the same business day, in most cases (Monday through Friday, excluding regularly observed holidays). If you request On-site Service after 3:30PM local time, a Customer Engineer may not be dispatched to your location until the following business day. The technician will let you know the exact holidays that are observed in your area.

CUSTOMER-HELD SPARE PARTS INVENTORY. You understand and agree that, as a condition of the performance of Same Business Day (2 Hour) Service for your System, you will purchase from Dell and maintain at the location of your System, at your expense, the inventory of spare parts set forth on Schedule 2, which may be updated or modified by BSC from time to time.

PORTABLE SYSTEM LIMITATION. If the System covered by this Service Agreement is a "portable" system (such as, but not limited to, a laptop or notebook computer or other portable model), then you will be eligible for Same Business Day (2 Hour) Service, when available, for a particular Service call only if the Service call is to occur at your address set forth in Schedule 1. If the Service call is to occur at a different address, then the Customer Engineer will arrive at your designated location within the United States to render the Service on the next business day following your request for Service; however, some remote locations may require an extra business day beyond such next business day.

THE FOLLOWING SECTIONS APPLY TO ALL TYPES OF SERVICE:

NETWORK SUPPORT. If this Service Agreement includes Network Support, then Services under this Service Agreement will include technical telephone support for the network (including network hardware and software) to which your System is connected.

SERVICE AREAS. There may be an additional charge for Service in certain remote areas of the United States. The technician will let you know whether your System is located within a remote area requiring an additional charge.

AN ADULT MUST BE PRESENT AT RESIDENCES. For On-site Service provided at a residence, an adult must be present at all times during the Customer Engineer's visit.

ASSISTANCE YOU MUST PROVIDE. The Customer Engineer must receive full access to the System and (at no cost to BSC) have working space, electricity, and a local telephone line. If these requirements are lacking, BSC is not obligated to provide On-site Service.

IF YOU MISS THE SERVICE VISIT. If you or your authorized representative are not at the location when the Customer Engineer arrives, we regret that the Customer Engineer cannot service your System. The Customer Engineer will leave a card to let you know he or she was there. If this occurs, you may be charged an additional charge for a follow-up Service call.

WHOLE UNIT REPLACEMENT. If the technician at Dell determines that the defective unit is one that is easily disconnected and reconnected, such as a keyboard or monitor, or if the technician determines that the System is one that should be replaced as a whole unit, BSC reserves the right to send you a whole replacement unit to arrive at your System's location on the next business day, in most cases. If the replacement unit is delivered to you in person by a Customer Engineer, you must relinquish the defective unit to the Customer Engineer. If the replacement unit is not delivered to you in person by a Customer Engineer, BSC will provide a prepaid mailing label for you to return the defective unit. If you do not relinquish the defective unit to the Customer Engineer as required above, or if (in the event the replacement unit was not delivered in person by a Customer Engineer) the defective unit is not returned within ten (10) days, you agree to pay BSC for the replacement unit upon receipt of invoice. Failure to honor the invoice within ten (10) days after receipt will cause the cancellation of this Service Agreement and may result in other legal steps to recover the defective unit.

PAYMENT TERMS. All invoices are payable upon receipt.

TRANSFER OF THIS SERVICE AGREEMENT. FORT BEND COUNTY

HAZARD COMMUNICATION PROGRAM

GENERAL

In order to comply with the Texas HAZCOM Act, the following written Hazard Communication Program ("HCP") is to be implemented for personnel of Fort Bend County, Texas. The original will be kept on file by the County Judge at the Fort Bend County Travis Building, Fort Bend County, Texas. It will be used by all personnel. The Safety Team will be responsible for ensuring the program is current and enforced.

A copy of this program is to be made available to an employee upon hiring during his/her Safety Orientation, and a copy will be supplied to any employee upon request. The Risk Management Department should be contacted when a copy of the program is needed.

The program will be updated when new chemicals or hazards are introduced into the work environment and will be reviewed annually.

The Purchasing Department will check all chemical Purchase Requests ("PR") to be sure a statement requesting a Material Safety Data Sheet ("MSDS") appears on each PR before being processed.

CONTAINER LABELLING

Individual department heads will be responsible for all containers of hazardous chemicals entering the workplace and will ensure that the chemical containers are properly labelled with:

- chemical name;
- hazard warnings; and
- name and address of the manufacturer, importer or responsible party.

No container shall be used until it has been checked by the department head or a designated representative. If the chemical is to be transferred to a separate container, the department head or a designated representative will ensure that the new container is properly labelled (*i.e.*, that all secondary containers are labelled with an extra copy of the original manufacturer's label or with a generic label which has a block for identity and blocks for the hazard warning). For help with labelling, please contact the Risk Management Department. The Safety Team will review the labelling system annually and will update it as required.

MATERIAL SAFETY DATA SHEETS

The Safety Team will be responsible for obtaining and maintaining the MSDS system for Fort Bend County. The department head or a designated representative will review incoming MSDS's for new and significant health / safety information and will ensure that the new information is given to the affected employees. Copies of all MSDS's will be kept by Emergency Management and reviewed annually for accuracy and completeness by the entire Safety Team. A copy of each MSDS received by each department must be furnished to Emergency Management and documented accordingly.

The MSDS system shall include:

- the current master inventory list of all MSDS's, indexed by numerical number to the MSDS's referenced on the inventory list;
- the identity used on the MSDS shall be the same as used on the container label;
- the chemical and common name of all ingredients determined to present a hazard shall appear on all MSDS's;
- the MSDS shall list:
  - -- the physical and chemical characteristics of the chemical, including vapor pressure, flash point, etc.;
  - -- the fire, explosion and reactivity hazard(s) of the chemical mixture, including the boiling point, flash point, etc.;
  - -- the health hazards of the chemical mixture, including signs and systems of exposure and medical conditions recognized as aggravated by exposure with primary route(s) of entry;
  - -- the permissible exposure limit ("PEL") or any other exposure limit used or recommended by the manufacturer, importer or employer;
  - -- whether an carcinogen listing (NTP) or has been found to be a potential carcinogen (IARC listing) or by OSHA;
  - -- control measures, including fire, engineering and personal protective equipment;
  - -- general precautions for safe handling and use, including protective measures during repair and maintenance and procedures for clean-up of spills;
  - -- emergency and first-aid procedures;
  - -- the date prepared or changed; and
  - -- the name, address and telephone numbers of manufacturer, importer or responsible party to call in an emergency.

The originals will be kept on file by Emergency Management. The MSDS's will also be part of the program for use by employees. Each department head will keep a current and up-to-date copy of the program on file. New chemicals shall not be used until a MSDS has been obtained.

EMPLOYEE TRAINING AND INFORMATION

Before starting work, the respective supervisor of a new employee will go over their copy of the HCP and each MSDS applicable to their job. The County will provide a video on MSDS labels. Before any new chemical is used, all employees will be informed of its use, will be instructed on safe use, and will be trained on hazards associated with the new chemical. All employees will attend additional training, as appropriate, to review the HCP and MSDS's. Appropriate library reference material will also be discussed during the training session(s).

The minimum orientation and training for a new employee is as follows:

- an overview of the requirements contained in the Hazard Communication Standard, TEXAS HAZCOM ACT;
- chemicals present in their workplace operations and this office;
- location and availability of the written HCP;
- physical and health effects of the hazardous chemicals listed on the inventory list of the program;
- methods and observation techniques used to determine the presence or release of hazardous chemicals in the work area;
- how to lessen or prevent exposure to these hazardous chemicals through usage of control/work practices and personal protective equipment;
- steps taken by Fort Bend County to lessen or prevent exposure to the chemicals listed on the inventory list;
- emergency procedures to follow if exposed to any chemical; and
- location of MSDS file and location of hazardous inventory list.

Prior to a new chemical hazard being introduced into any section of the workplace, each employee will be given information and training by the appropriate department head or a designated representative, as outlined above and/or as outlined on the attached Employee Training Guidelines. The appropriate department head or a designated representative is responsible for ensuring that a MSDS on the new chemical is available prior to use.

After attending the training class, each employee will sign a form to verify that he/she attended the training, that the written HCP is made available for review, and that he/she understands the HCP.

NON-ROUTINE TASKS

Before any non-routine task is performed, employees shall be advised and/or they must contact their supervisor for special precautions to follow, and the supervisor shall inform any other personnel who could be exposed. (No non-routine tasks are known to exist at the time of preparation of this program.)

In the event such tasks are required, the supervisor will provide the following information about such activity as it relates to the specific chemicals expected to be encountered:

- specific chemical name(s) and hazard(s);
- personal protective equipment required and safety measures to be taken; and
- measures that have been taken to lessen the hazards, including ventilation, respirators, presence of other employees, and emergency procedures.

OTHER PERSONNEL EXPOSURE (CONTRACTORS)

It will be the responsibility of the department head overseeing the contract to provide other personnel or outside contractors with the following information:

- hazardous chemicals to which they may be exposed while in the workplace;
- measures to lessen the possibility of exposure;
- location of MSDS's for all hazardous chemicals; and
- procedures to follow if they are exposed.

The department head overseeing the contract will also be responsible for contacting each contractor before work is started to gather and disseminate any information concerning chemical hazards the contractor is bringing into the workplace and vice versa.

INVENTORY LIST OF HAZARDOUS CHEMICALS

The following is a list of the hazardous chemicals used in this workplace. Further information can be obtained from the MSDS's included with this program or from your supervisor. The originals will be kept on file by Emergency Management at the Fort Bend County Travis Building, Fort Bend County, Texas.

FORT BEND COUNTY
DANGEROUS BUILDING DEMOLITION PROGRAM GUIDELINES

The Fort Bend County Dangerous Building Demolition Program provides assistance to demolish vacant, deteriorated and abandoned buildings in incorporated areas of Fort Bend County with Community Development Block Grant (CDBG) funds. The program is primarily intended for the demolition of single-family units, but may also include larger residential buildings and commercial and industrial structures. These guidelines should be used by cities that have been allocated CDBG funds administered by the Fort Bend County Community Development Department for the purpose of demolition.

Definitions

Dwelling unit. A house, apartment, mobile home or trailer serving as permanent living quarters or, if vacant, intended for occupancy as permanent living quarters.

Occupied dwelling unit. A dwelling unit occupied as the usual place or permanent residence by a person or group of persons.

Structure. Buildings and improvements which are not intended for permanent living quarters or dwelling units which have been converted to a use other than a dwelling unit.

Substandard dwelling unit. A dwelling unit which is deficient in any or all of the acceptable criteria of Section 8 Housing Quality Standards and, where applicable, the building code adopted by a city.

Vacant occupiable dwelling unit. A vacant dwelling unit that is in a standard condition; or a vacant dwelling unit that is in a substandard condition, but is suitable for rehabilitation; or a dwelling unit in any condition that has been occupied (except by a squatter) at any time within the period beginning one year before the start date of the demolition agreement with Fort Bend County.

Vacant unoccupiable dwelling unit. A vacant dwelling unit that is in substandard condition not suitable for rehabilitation. The dwelling unit has not been occupied (except by a squatter) at any time within the period beginning one year before the start date of the demolition agreement with Fort Bend County.

Eligible Activities

The demolition and clearance of dangerous buildings and structures is eligible for CDBG funding under this program. The purpose is to eliminate specific conditions of blight or physical decay on a spot basis not located in a slum or blighted area. CDBG funds may also be used to pay the cost of publishing any required notices.

Federal law requires replacement of CDBG-funded demolition of dwelling units which are either occupied by a low or moderate income person or vacant and are suitable for rehabilitation and occupancy by a low and moderate income person. Fort Bend County must ensure that it will not fund the demolition of residential buildings which could be occupied by low and moderate income persons. Therefore, occupied/occupiable dwelling units are not eligible for demolition under this program.

Description of Financial Assistance

Financial assistance will be in the form of a grant from Fort Bend County to the city through the Community Development Block Grant program.

Responsibilities of Fort Bend County

1. Fort Bend County will draw up an agreement to be executed by the city and the County. The agreement will contain the amount of assistance being made available to the city and a time period for carrying out the terms of the agreement.

2. Fort Bend County will make available Community Development Block Grant funds for the demolition of structures.

3. Fort Bend County will review the Certification of Compliance (see Appendix 1) submitted by the city for each property.

4. Fort Bend County will pay the city for demolition when all work has been completed on a contract and a request for payment has been received from the city.

5. Fort Bend County will obtain environmental clearances, if necessary.

Responsibilities of City

1. City must establish procedures for selecting structures eligible for demolition. If a program is established which allows liens to be filed against the properties, any collected fees shall be treated as program income and the County's CDBG program shall be reimbursed. This does not include liens for administrative fees incurred by the City.

2. City must determine that the dwelling unit has been vacant for at least one year and is unoccupiable. This requirement only applies to dwelling units. If the property can be determined to be not occupiable, it would be considered a structure and not subject to these requirements. If the city has a written policy that it only "red tags" vacant dwelling units and occupancy is prohibited after a unit is red tagged, then the date that the unit is tagged can be used as date when the 12 month vacancy period begins. The unit must also be determined not suitable for rehabilitation.

(In determining the date in which a substandard unit becomes vacant, HUD only requires that a community use the cheapest method of documentation. This may be the date on which the utilities were disconnected. If this form of verification is unavailable, other documentation such as statements from neighbors or mail carrier is acceptable. Only one form of verification is required.)

3. The city must submit one (1) Certification of Compliance form to Fort Bend County Community Development Department for each structure selected for demolition. The certification must state the specific condition that constitutes blight or physical decay.

4. The city must submit to Fort Bend County requests for payment in a manner permitting timely payments to city.

Demolition Process

Demolition contracts will be handled by the City through the normal bidding procedures. The contractor's work will be monitored and inspected by city staff to verify that all required work is in conformance with the contract between the contractor and the city. The County will periodically inspect the demolition to ensure that demolition is complete.

Reporting Requirements

Before a city commits CDBG funds to a demolition project, the city must provide the following information for monitoring purposes:

1. One (1) Certification of Compliance form for each structure selected for demolition.

2. The location on a map of the dwelling unit/structure that will be demolished.

3. A time schedule for the commencement and completion of the demolition.

Additional Information

For additional information please contact the Fort Bend County Community Development Department, (713) 341-4410.

In the event there is probable cause to believe the Subrecipient is in noncompliance with any applicable rules or regulations, the Grantee may withhold up to fifteen percent (15%) of said Agreement funds until such time as the

6. Close-outs

Activities during this close-out period shall include, but are not limited to; making final payments, disposing of program assets (including the return of all unused materials, equipment, unspent cash advances,

Any deficiencies noted in audit reports must be fully cleared by the Subrecipient within thirty (30) days after receipt by the Subrecipient. Failure of the Subrecipient to comply with the above audit requirements will constitute a violation of this Agreement and may result in the withholding of future payments. The Subrecipient hereby agrees to have an annual agency audit conducted in accordance with current county policy concerning subrecipient audits.

Any interest earned on cash advances from the U.S. Treasury is not program income and shall be remitted promptly to the Grantee.

3. Indirect Costs

If indirect costs are charged, the Subrecipient will develop an indirect cost allocation plan for determining the appropriate Grantee share of administrative costs and shall submit such plan to the Grantee for approval.

4. Payment Procedures

The Grantee will pay to the Subrecipient funds available under this Agreement based upon information submitted by the Subrecipient and consistent with any approved budget and county policy concerning payments. With the exception of certain advances, payments will be made for eligible expenses actually incurred by the Subrecipient, and not to exceed actual cash requirements. Payments will be adjusted by the Grantee in accordance with advance fund and program income balances available in Subrecipient accounts. In addition, the Grantee reserves the right to liquidate funds available under this Agreement for costs incurred by the Grantee on behalf of the Subrecipient.

D. Procurement

1. Compliance

The Subrecipient shall comply with current county policy concerning the purchase of equipment and shall maintain inventory records of all non-expendable personal property as defined by such policy as may be procured with funds provided herein. d. Further, if within five (5) years of the termination or expiration of this Agreement, the Subrecipient ceases to use any or all personal property attributable to CDBG funds to meet a national objective, the personal property shall either revert to the Grantee or be disposed of in accordance with the applicable federal rules and regulations, including, but not limited to OMB Circular A-110, Attachment N.

e. The Grantee, in its sole discretion, shall determine whether or not the Subrecipient use of any property meets a national objective contained in 24 CFR 570.200 (a) (2) and (3).

Fort Bend County Commissioners Court:

Attached are copies of First Assistant County Attorney, Portia Poindexter's letter dated April 11 along with the Order Authorizing Execution of a Summer Food Service Program Agreement for your review and approval.

This will be Agenda "Item # 16" for Tuesday, May 24, 1994.

These documents have been thoroughly reviewed and approved by the County Attorney's office. Texas Department of Human Services (TDHS) has approved the application, pending completion of the Invitation for Bid process for Fort Bend County's participation in the "Summer Food Service Program". Final approval by Commissioners Court will enable this program to be implemented.

Once approved, approximately 3,000 youth throughout Fort Bend County will receive a nutritious meal, along with organized recreation, and leadership activities. The program is targeted to start June 6 and continue to August 12. These dates will enable us to place Fort Bend County youth in organized, supervised activities for 4 hours per day; therefore reducing the number of youth at risk during the summer vacation period.

If you have any questions regarding this matter, feel free to contact our office at your earliest convenience.

Thank you for your sponsorship and cooperation in support of the children in Fort Bend County and the Texas Agricultural Extension Service at Fort Bend County.

RE: Summer Food Service for Fort Bend County Children

Dear Judge Cordes:

The County Attorney's office has reviewed the enclosed Texas Department of Human Services forms regarding the agreement for food services for an estimated 3000 Fort Bend County children during the summer of 1994. The agreement provides that the County will be reimbursed $385,447.00 by the State and Federal Government. The documents reviewed include: (1) Summer Food Service Program Agreement, (2) Invitation for Bid and Contract, (3) Instructions for Preparation of Bid List/Certification Application, (4) General Specifications (5) Form 1506 Attachment "B" and "C" (6) Form 1506 Attachment "A", (7) Application For Participation, and (8) Site Information. The previously mentioned forms under numbers 5, 6 and 7 concern facts and issues the Program's Administrator has knowledge of i.e., the day to day details of the program.

This office does not have any objections to the documents' legal form. The federal and state governments have certain requirements which must be met. There can be no discrimination in any area of this program including administering, contracting or participation. There are specific financial, recordkeeping and bidding rules. Finally, the County and subcontractors must make certifications in Section VI of the "Summer Food Service Program Agreement." The certifications generally concern confirmation, that undocumented workers are not employed, that the County or vendors have not been

Dear Mr. Freund:

In response to Mr. Eric Muegge's request, the Tierra Grande Landowners Association confirms that we have no objections to the partition of Lot 19, section 5 in Tierra Grande. This partition comforms with our deed restrictions which state that a landowner may sale off parts of their property as long as the acreage sold is a minimum of two (2) acres and the landowner is left with a minimum of two (2) acres.

We understand this is the case with this property and therefore have no objections to this partition and recommend that approval be expedited.

Re: Solid Waste - Fort Bend County
Fort Bend County - Permit No. 1554
1.5 Mi NW of US-59 & SH-36 Int., 0.25 Mi

Dear Judge Cordes:

The Texas Natural Resource Conservation Commission (TNRCC) met with representatives of Fort Bend County on January 5, 1994 in Austin to discuss the Landfill Gas Assessment Report (LGAR) submitted December 20, 1993. A list of those attending the meeting is attached for your information. Items discussed at the meeting included the following:

1. Results of the soil gas survey conducted beyond the permitted metes and bounds of the subject site;
2. Existing gas collection system enhancements to date;
3. Perimeter gas probe historical readings; and
4. Results of groundwater monitor well sampling analysis at the subject site.

Conclusions reached and instructions given as a result of the meeting are as follows:

Conclusions:

1. Soil Gas Survey

A soil gas survey was performed at the subject site on September 16 and 17, 1993 as required by the Agreed Order, dated May 21, 1993. During the meeting discussion, it was

83 1536

AS PER ORIGINAL

determined that the depth of soil penetrations for the survey was four (4) feet below ground surface. Further discussion revealed that not all soil gas survey penetrations were located at a distance of fifty (50) feet beyond the site permitted metes and bounds. Specifically, P31-01, P30-01, P29-01, P1A-01, P2A-01, P3A-01, P4A-01, and P5A-01 were not located at a distance of fifty (50) feet beyond the permitted boundary for the site. The location of all soil gas survey penetrations were indicated on Drawing No. 9330, Sheet 1 of 1. All reported soil gas survey methane concentrations were less than 25% of the Lower Explosive Limit (LEL) for methane.

2. **Gas Collection System Enhancements**

Five (5) additional gas extraction wells have been installed in the southern half of the permitted area 1554. Fort Bend County (FBC) has given increased operational attention to dewatering the gas collection system to increase the system effectiveness.

3. **Perimeter Gas Probe Historical Readings**

Since the addition of replacement gas extraction wells in the northern portion of the permitted area 1554 and five (5) new extraction wells in the southern portion of the permitted area 1554, reported methane concentrations in the perimeter gas probes have indicated a downward trend toward zero. Concentrations of methane, however, have continued to be out-of-compliance at probes P1A-S, P1A-D, P2-S, P16-S, P16-D, P15-S and P15-D during the downward trend at all other perimeter probes. The out-of-compliance probes are located at each end of a gas pipeline right-of-way that separates permitted areas 1554 and 1554-A.

4. Results of Groundwater Monitor Well Sampling

Groundwater monitor well sampling results were discussed, specifically, analysis results from multiple sampling events for Monitor Well No. 6. A full account of the analysis and subsequent instructions to FBC is addressed in the TNRCC letter, dated January 10, 1994, from Mr. A. Richard Smith, Director, Ground-Water Protection Program.

Instructions:

A. Soil Gas Survey

Soil gas survey penetration P31-01, P30-01, P29-01, P1A-01, P2A-01, P3A-01, P4A-01, and P5A-01 shall be conducted again and located at a distance of fifty (50) feet beyond the permitted metes and bounds of the site as specified in the Agreed Order, dated May 21, 1993. The depth of each penetration shall be a minimum of fourteen (14) feet below ground surface.

Supplemental soil gas surveys shall be performed at each end of the gas pipeline right-of-way to determine the presence of pipeline gas and/or landfill gas in or near the right-of-way. This survey shall extend to a distance of no less than fifty (50) feet beyond the metes and bounds of the permitted site. The depth of penetrations below ground surface shall be a minimum of four (4) feet along the right-of-way when investigating for the presence of pipeline gas and a minimum of fourteen (14) feet when investigating for the presence of landfill gas.

FBC shall implement required soil gas surveys immediately upon receipt of this correspondence and shall inform the TNRCC in writing by January 14, 1994 as to the estimated submittal of soil gas survey results.

AS PER ORIGINAL

B. **Gas Collection System Enhancements**

Although no methane gas was detected off-site as a result of the Landfill Gas Assessment Plan (LGAP) implementation, TNRCC central office staff did detect combustible gas concentrations in excess of the LEL for methane at gas monitoring probes located north of the metes and bounds of the permitted site on December 1 and 2, 1993. This fact coupled with the lack of soil gas survey data north of the permitted metes and bounds of the site indicates that a Landfill Gas Remediation Plan (LGRP) must be submitted to the TNRCC. **Therefore, FBC is required to submit a LGRP to the TNRCC in accordance with the Agreed Order, dated May 21, 1993. The LGRP shall be submitted to the TNRCC on or before January 20, 1994.**

C. **Perimeter and Off-Site Gas Probe Readings**

Perimeter gas probe readings shall continue to be taken and reported to the TNRCC central office. Gas probe readings shall also be taken and reported to the TNRCC twice weekly at the following off-site and on-site probes: MP-1, MP-2, MP-4, MP-5, MP-6, MP-8, MP-9, MP-10, MP-12, MP-13, MP-14, MP-15, MP-16, MP-17, MP-18, MP-19, MP-20, V-4, and V-3/2. **FBC shall take and report twice weekly readings from the two (2) gas probes, installed by the local Concerned Citizens Committee, located near the northern metes and bounds of the permitted site . FBC shall contact the spokesperson for the Concerned Citizens Committee, Ms. Alice Flores, to arrange for readings to be taken at these locations.**

The TNRCC has also received a letter, dated October 14, 1993, from Mr. Ron Drachenberg, P. E., requesting guidance from the TNRCC as to appropriate administrative procedures to follow for processing the landfill gas at the subject site. As the drilling, extraction processing and/or flaring of the landfill gas is an integral part of the site remediation, documentation showing the details of the

1. SELLER TO PACKAGE GOODS: Seller will package goods in accordance with good commercial practice. Each delivery container shall be clearly and permanently marked as follows (a) Seller's name and address; (b) Consignee's name, address and purchase order number and the bid number if applicable; (c) Container number and total number of containers(e.g. box 1 of 4 boxes); and (d) the number of the container bearing the packing slip. Seller shall bear cost of packaging unless otherwise provided. Goods shall be suitably packed to secure lowest transportation costs and to conform with requirements of common carriers and any applicable specifications. Fort Bend County's count or weight shall be final and conclusive on shipments not accompanied by packing list.

2. SHIPMENT UNDER RESERVATION PROHIBITED: Seller is not authorized to ship goods under reservation and no tender of a bill of lading will operate as a tender of goods.

3. TITLE & RISK OF LOSS: The title and risk of loss of the goods shall not pass to the County until a County employee actually receives and takes possession of the goods at the point or points of delivery.

4. DELIVERY TERMS: F.O.B. Destination Freight Prepaid, Inside Delivery, unless delivery terms are specified otherwise on Purchase Order.

5. NO REPLACEMENT OF DEFECTIVE TENDER: Every tender or delivery of goods must fully comply with all provisions of the Purchase Order as to time of delivery, quality and the like. If a tender is made which does not fully conform, this shall constitute a breach and Seller shall not have the right to substitute a conforming tender.

6. PLACE OF DELIVERY: The place of delivery shall be that set forth in the block of the purchase order entitled "Ship To". Any change thereto shall be effective by modification as provided for in Clause number 20 "Modifications", hereof. The terms of this agreement are "no arrival, no sale", at the discretion of Fort Bend County.

7. INVOICES AND PAYMENTS:

a. Seller shall submit separate invoices, in duplicate. Invoices shall indicate the purchase order number and the bid number if applicable. Invoices shall be itemized and transportation charges, if any, shall be listed separately. A copy of the bill of lading, and the freight waybill when applicable should be attached to the invoice.

b. Fort Bend County's obligation is payable only and solely from funds available for the purpose of this purchase. Lack of funds shall render the order null and void to the extent funds are not available and any delivered but unpaid goods will be returned to Seller by the county.

c. Do not include Federal Excise, State, or City Sales Tax. Fort Bend County is a tax exempt governmental entity.

8. GRATUITIES: Fort Bend County may, by written notice to the Seller, cancel any order without liability, if it is determined by the County that gratuities, in the form of entertainment, gifts, or otherwise were offered or given by the Seller, or any agent or representative of the Seller to any officer or employee of Fort Bend County with a view toward securing an order. In the event an order is canceled by the County pursuant to this provision, the County shall be entitled, in addition to any other rights and remedies, to recover or withhold the amount of the cost incurred by Seller in providing such gratuities.

9. SPECIAL TOOLS & TEST EQUIPMENT: If the price stated on the face of an order includes the cost of any special tooling or special test equipment fabricated or required by Seller for the purpose of filing this order, such special tooling equipment and any process sheets related thereto shall become the property of the County and to the extent feasible shall be identified by the Seller as such.

10. WARRANTY/PRICE:

a. The price to be paid by the County shall be that contained in Seller's quote or bid which Seller warrants to be no higher than Seller's current prices on orders by others for products of the kind and specification covered by an order for similar quantities under similar or like conditions and methods of purchase. In the event Seller breaches this warranty the prices of the items shall be reduced to the Seller's current prices on orders by others. Fort Bend County may cancel this contract without liability.

b. The Seller warrants that no person or selling agency has been employed or retained to solicit or secure any County order based upon any agreement or understanding for commission, percentage, brokerage, or contingent fee excepting bona fide employees of bona fide established commercial or selling agencies maintained by the Seller for the purpose of securing business. A breach or violation of this warranty gives the County the right, in addition to any other right or rights, to cancel this contract without liability.

11. WARRANTY PRODUCT: Seller shall not limit or exclude any implied warranties and any attempt to do so shall render an order voidable at the option of the County. Seller warrants that the goods furnished will conform to the specifications, drawings, and description listed in the bid invitation and purchase order as applicable, and to the sample(s) furnished by Seller if any. In the event of a conflict between the specifications, drawings, and descriptions, the specifications shall govern.

12. SAFETY WARRANTY: Seller warrants that the product sold to Fort Bend County shall conform to the standards promulgated by the U.S. Department of Labor under the Occupational Safety and Health Act of 1970. In the event the product does not conform to OSHA standards, the County may return the product for correction or replacement at the Seller's expense. In the event Seller fails to make the appropriate correction within 10 days, correction made by the County will be at Seller's expense.

13. NO WARRANTY BY FORT BEND COUNTY AGAINST INFRINGEMENTS: As part of a contract for sale Seller agrees to ascertain whether goods manufactured in accordance with the specifications will give rise to the rightful claim of any third person by way of infringement. Fort Bend County makes no warranty that the production of goods according to the specification will not give rise to such a claim and in no event shall Fort Bend County be liable to Seller for indemnification in the event the Seller is sued on the grounds of infringement or the like. If Seller is of the opinion that an infringement will result, he will notify Fort Bend County to this effect in writing within two days after the receiving Purchase Order. If the County does not receive notice and is subsequently held liable for the infringement, Seller will defend and save the County harmless. If Seller in good faith ascertains that production of the goods in accordance with the specifications will result in infringement, this contract shall be null and void except that the County will pay Seller the reasonable cost of his search as to infringements.

14. RIGHT OF INSPECTION: The County shall have the right to inspect the goods at delivery before accepting them.

15. CANCELLATION: Fort Bend County shall have the right to cancel for default all or any part of the undelivered portion of an order if Seller breaches any of the terms hereof including warranties of Seller, or if the Seller becomes insolvent or files for protection under the bankruptcy laws. Such rights of cancellation is in addition to and not in lieu of any other remedies which Fort Bend County may have in law or equity.

16. TERMINATION: The performance of work under a Purchase Order may be terminated in whole or in part by the County in accordance with this provision. Termination of work thereunder shall be effected by the delivery to the Seller of a "Notice of Termination" specifying the extent to which performance of work under the order is terminated and the date upon which such termination becomes effective. Such right of termination is in addition to and not in lieu of rights of Fort Bend County set forth in Clause 15 herein.

17. FORCE MAJEURE: "Force Majeure" means a delay encountered by a party in the performance of its obligations under this Agreement, which is caused by an event beyond the reasonable control of that party. Without limiting the generality of the foregoing, "Force Majeure" shall include but not be restricted to the following types of events: acts of God or public enemy; acts of governmental or regulatory authorities; fires, floods, epidemics or serious accidents; unusually severe weather conditions; strikes, lockouts, or other labor disputes; and defaults by subcontractors. In the event of a Force Majeure, the affected party shall not be deemed to have violated its obligations under this Agreement, and the time for performance of any obligations of that party shall be extended by a period of time necessary to overcome the effects of the Force Majeure, provided that the foregoing shall not prevent this Agreement from terminating in accordance with the termination provisions. If any event constituting a Force Majeure occurs, the affected party shall notify the other parties in writing, within twenty-four (24) hours, and disclose the estimated length of delay, and cause of the delay.

18. ASSIGNMENT-DELEGATION: No right or interest in an order shall be assigned or delegation of any obligation made by Seller without the written permission of Fort Bend County. Any attempted assignment or delegation by Seller shall be wholly void and totally ineffective for all purposes unless made in conformity with this paragraph.

19. WAIVER: No claim or right arising out of a breach of any contract can be discharged in whole or in part by a waiver or renunciation of the claim or right unless the waived or renunciation is supported by consideration and is in writing signed by the aggrieved party.

20. MODIFICATION: A Purchase Order can be modified or rescinded only by a writing signed by both of the parties or their duly authorized agents.

21. PAROL EVIDENCE: This writing is intended by the parties as a final expression of their agreement and is intended also as a complete and exclusive statement of the terms of this agreement. No course of prior dealings between the parties and no usage of the trace shall be relevant to supplement or explain any terms rendered under this agreement and shall not be relevant to determine the meaning of this agreement even though the accepting or acquiescing party has knowledge of the performance and opportunity for objection. Whenever a term defined by the Uniform Commercial Code is used in this agreement, the definition contained in the Code is to control.

22. APPLICABLE LAW: This agreement shall be governed by the Uniform Commercial Code. Whenever the term "Uniform Commercial Code" is used it shall be construed as meaning the Uniform Commercial Code as adopted in the State of Texas and in effective on the date of the purchase order.

23. ADVERTISING: Seller shall not advertise or publish, without the County's prior consent the fact that Fort Bend County has entered into any contract, except to the extent necessary to comply with proper requests for information from an authorized representative of the federal, state, or local government.

24. RIGHT TO ASSURANCE: Whenever the County in good faith has reason to question the other party's intent to perform. The County may demand that the other party give written assurance of his intent to perform. In the event that a demand is made and no assurance is given within five (5) days, the County may treat this failure as an anticipatory repudiation of the contract.

25. VENUE: Both parties agree that venue for any litigation arising from this contract shall lie in Richmond, Fort Bend County, Texas.

26. PROHIBITION AGAINST PERSONAL INTEREST IN CONTRACTS: No officer or employee of the County shall have a financial interest, direct or indirect, in any contract with the County, or shall be financially interested, directly or indirectly, in the sale to the County of any land, materials, supplies, or service, except on behalf of the County as an officer or employee. Any willful violation of this section shall constitute malfeasance in office, and any officer or employee guilty thereof shall be subject to disciplinary action under applicable laws, statutes and codes of the State of Texas. Any violation of this section, with the knowledge, expressed or implied of the person or corporation contracting with the County shall render the contract involved voidable by the County Commissioners Court.

The Honorable Roy L. Cordes, Jr.
County Judge
Fort Bend County, Texas

RE: *Americorps Grant*

Dear Judge Cordes:

This office has reviewed the attached documents concerning the Americorps Grant and Certifications. It is our understanding Fort Bend County is not on the United States General Services Administration "Lists of Parties Excluded from Federal Procurement or Non-Procurement Programs." Being on the list precludes an entity from grants.

The County Attorney's Office recommends that you may sign the Certifications of Debarment, Suspension and Other Responsibility Matters, Drug-free Work Place and Lobbying Activities.

Very truly yours,

Portia Poindexter

certification is erroneous. A grantee may decide the method and frequency by which it determines the eligibility of its principals. Each grantee may, but is not required to, check the Nonprocurement List.

8. Prudent Person Standard.
Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a grantee is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

9. Non-Certification in Subgrant Agreements.
Except for transactions authorized under paragraph 6 of these instructions, if a grantee knowingly enters into a lower tier covered transaction with a person who is suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default.

CERTIFICATIONS

Before completing certification, please read Certification Instructions.

Certification – Debarment, Suspension, and Other Responsibility Matters.
This certification is required by the regulations implementing Executive Order 12549, Debarment and Suspension, 34 CFR Part 85, Section 85.510, Participants' responsibilities. The regulations were published as Part VII of the May 26, 1988 Federal Register (pages 19160-19211).

A. The applicant certifies to the best of its knowledge and belief, that it and its principals:

- Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency.
- Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction or records, making false statements, or receiving stolen property.
- Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State or local) with commission of any of the offenses enumerated in paragraph (1) (b) of this certification, and
- Have not within a three-year period preceding this application proposal had one or more public transactions (Federal, State or local) terminated for cause or default;

B. Where the applicant is unable to certify to any of the statements in this certification, such applicant shall attach an explanation to this application.

Certification – Drug-Free Workplace.
This certification is required by the regulations implementing the Drug-Free Workplace Act of 1988, 34 CFR Part 85, Subpart F. The regulations, published in the January 31,1989 Federal Register, require certification by grantees, prior to award, that they will maintain a drug-free workplace. The certification set out below is a material representation of fact upon which reliance will be placed when the agency determines to award the grant. False certification or violation of the certification shall be grounds for suspension of payments, suspension or termination of grants, or government-wide suspension or debarment (see 34 CFR Part 85, Section 85.615 and 85.620).

The grantee certifies that it will provide a drug-free workplace by:

A. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition;

B. Establishing a drug-free awareness program to inform employees about—

- the dangers of drug abuse in the workplace,
- the grantee's policy of maintaining a drug-free workplace
- any available drug counseling, rehabilitation, and employee assistance programs, and
- the penalties that may be imposed upon employees for drug abuse violations occurring in the workplace;

AS PER ORIGINAL

83 1611

C. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph (1);

D. Notifying the employee in the statement required by paragraph (1) that, as a condition of employment under the grant, the employee will

- abide by the terms of the statement, and
- notify the employer of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction.

E. Notifying the Corporation within ten days after receiving notice under subparagraph (4)(b) from an employee or otherwise receiving actual notice of such conviction;

F. Taking one of the following actions, within 30 days of receiving notice under subparagraph (4)(b), with respect to any employee who is so convicted—

- Taking appropriate personnel action against such an employee, up to and including termination; or
- Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

G. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (1), (2), (3),(4), (5), and (6).

Certification – Lobbying Activities

As required by Section 1352, Title 31 of the U.S. Code, the applicant certifies that:

A. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer of Congress in connection with the awarding of any Federal contract, the making of any Federal loan, the entering into of any cooperative agreement, or modification of any Federal contract, grant, loan, or cooperative agreement;

B. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

C. The undersigned shall require that the language of this certification be included in the award documents for all subcontracts at all tiers (including subcontracts, subgrants, and contracts under grants, loans and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

MEMORANDUM

TO: Roy L. Cordes, Jr., County Judge
Commissioners Court

FROM: Dianne McWethy, Director of Administrative Services

SUBJECT: Job Evaluation Committee

DATE: May 23, 1994

Background:

A key component of the review and revision of the County's compensation and classification plan is participation by members of an Employee Committee. The purpose of this committee is: 1) to serve as a liaison between the employees and Trace Consultants (Trace); and 2) meet with Trace to determine problems with the current evaluation, classification and performance appraisal systems. As per discussions with Trace, it was determined that the Employee Committee may also serve as an Evaluation Committee. On the basis of the time requirements of the Evaluation Committee and the employee representatives being selected from positions no higher in the organizational structure than first-level (working) supervisors, Glory Hopkins, District Clerk, expressed concerns and requested that the staff review the impacts of the Employee Committee also serving as the Evaluation Committee.

Analysis:

The Committee provides a vehicle to review "challenged" job evaluations during the operation of the revised system. During the job evaluations Trace will serve as facilitator to compensate for biases or other short falls in individual committee members. Trace and the Human Resources staff will perform leveling after the evaluations are completed by the committee, if necessary. Although the committee approach is more time consuming for the project than if the evaluations were performed by Trace and/or the Human Resources staff, the success of the committee is a function of the knowledge, skill and leadership capabilities of the facilitator.

Staff would like to review the positives and the negatives of the use of the same committee and a separate committee to provide information for the Court to provide direction for the committee approach:

Employee and Evaluation Committee (same employees), consisting of employees at or below first line supervisors)

Positives

1) Employee participation imparts a sense of project ownership to employees.

2) Employee participation promotes an image of fairness in employee's perception by allowing employees to have input into the classification of the job descriptions. Employees are assured that the job descriptions are accurately stated and classified within the system.

3) Employee participation promotes employee understanding of the compensation and classification system, as a whole.

4) Employee participation provides an opportunity for employees to learn more about other county departments and operations, therefore, promoting a team spirit with other departments.

Negatives

1) Employees may not have appropriate background and/or knowledge to accurately perform evaluations.

2) Employees may not have a broad scope view of the county operations to enable them to accurately evaluate positions in other departments.

3) First line supervisors may not have appropriate understanding of upper level management positions to perform accurate evaluations.

Employee Committee, consisting of employees at or below first line supervisors, and Evaluation Committee, consisting of Elected Officials and Department Heads

Positives

1) Upper management has more experience with evaluation process and may require less training.

2) Upper management should have a broader scope of knowledge and understanding of the county operations to facilitate accurate evaluations of more types of positions.

3) Upper management employees have a better understanding of the duties and responsibilities to facilitate the reviews of management level positions.

Negatives

1) Upper management participation does not promote the sense of project ownership for employees to the same extent as employee participation on the committee.

2) Cooperative spirit of committee approach may not be as strong as with employees from lower levels in organizational structure.

Summary and Recommendation

The employee ownership and support of the compensation and classification plan is an important goal of the review process. The negatives identified in the analysis for the use of the same employees, consisting of employees at or below first line supervisors, serving as both the Employee and Evaluation Committee should be overcome by the expertise and knowledge of Trace Consultants as the facilitators of the committee.

Staff requests that the Court review this analysis and establish the composition of the Evaluation Committee for the project. The Court may request that Trace provide additional comments concerning the establishment of the committee.

The following series of questions deal with the County's existing performance appraisal form and practice. Attached is a copy of the form currently used. If you could make changes to the existing form and practice what would you change or do you like it as it is? Please check all appropriate answers in the space provided.

a) 13___ Leave it alone because it's okay as it is.

b) 3____ I have a better form and it is attached.

c) 8____ It needs more (or different) categories for appraisal purposes and my suggestions are attached.

d) 19____ We need at least two forms: one form for our professional employees, our supervisors, department heads and appointed officials and a different form for our office clerical and hourly paid employees.

e) 12___ Other

- Form needs to provide for feedback from employee better than now
- Need better definition of terms for more consistency in evaluation scoring
- Supervisors need to be trained in performance appraisal
- Appraisal form should include self evaluation as a companion to departmental evaluation
- Attendance should have a plus or minus scale
- Need a category for verbal/written communication skills
- Need a form to evaluate an employee on probation
- Remove "(1-5 pts)" -- this is an insult to the person who has hired the employee
- Form is very subjective; needs to be a comparison checklist of factors considered in each category. This would give employees specifics for improving performance.
- All wording needs to be changed in the four areas scored.
- No comment
- Employee needing to be reviewed should also be able to make comments on each section.
- Subjective rather than objective, specific areas for evaluation.
- Need specific appraisal forms that fit job descriptions rather than one generic form.
- Add attitudinal questions
- Need guidelines for scoring
- Factors
- Need to evaluate on:
  community service
  dress code
  following established policies
  confidentiality
  human/race relations
  training

25___Yes 18___ No

Please check those below for which you use written job descriptions.

a) 18__Hiring

b) 27__Promotions

e) 8___Other
- None (not used)
- Don't use them
- Reclassification
- Service procedures
- HR department does not seem to be interested in changes
- Not used
- Written probation
- This department could better justify more review in this matter

What are your expectations from this project? What do you want it to accomplish for you and your employees?

- Properly set wage scale for all job descriptions
- Provide the employer with a fair and equitable tool to utilize with the employee, when dealing in a positive manner, to improve the employee work product and at the same time, provide equitable pay, benefits, and working conditions
- A good job description, comparable salaries (to other counties our size), and a good promotion or incentive plan to keep the good employees
- A more accurate means in which to evaluate employees
- Pay the employees their worth
- That an equitable salary structure will be developed that will enable the County to train, and retain employees. There are inequities in the present system that can result in newer County employees being better compensated than older employees with the same or better qualifications
- Salary review and comparison between comparable job classifications both Ft. Bend County and other county comparisons
- I am hopeful but not optimistic that anything meaningful will come from this exercise. Past experience tells me this is something to make employees "feel good" about getting to participate in a study. I hope this isn't another Trojan horse. What do we want? Leadership that gives us confidence in the future from people who really care enough about the whole of Ft. Bend County, not just their own little piece of the action.
- Outside, impartial evaluation of pay levels and compensation system to validate the current system or make recommendations for changes to place the County in a competitive position for hiring and retaining employees in the 90's.
- Expectations are to align job classifications with the reality of job requirements and performances, and to compensate employees accordingly.
- Better job descriptions and more emphasis on difficulty of job and knowledge of software used by County
- Wages for jobs should be current. All precincts should be fairly close in wages, based on experience.
- Grade and step changes to comply with job
- Consistency, equity and fairness
- That someone reads it and that positive actions are taken
- Competitive salaries; efficient, quick and expedient annual performance reviews
- Abandon the job grades and step plan; simplify this system to 14 classifications for precinct and drainage operations
- Jobs rated for responsibility and liability and job skills. Higher job grades aligned with degree of difficulty and dealing with people. We will be able to raise job grades due to change in responsibilities and required certifications. Make sure this time if we are going to pay to re-evaluate this plan, it is not abused like the previous attempt and suggestions will be implemented.
- My expectation is guarded optimist. I would like to see fairness in the job pay scale for both employees and appointed department heads.
- To bring the job classifications up to date and adjust the pay scale as needed.

- Higher pay for the officers and personnel of the Sheriff's Department. Aside from certain clerical positions within the department, all other slots require varying degrees of specialized and mandated training. None of these seem to be considered.
- To keep us appraised of what the County expects of us.
- Parity between the deputies (Sheriff and Constable) salaries. A County job description that includes both the criminal and civil side of law enforcement as it pertains to constables (and not use a generic description that leans toward the Sheriff's Dept). Equal compensation for overtime with the Sheriff's Dept. Personnel Dept stop sending candidate (applicant's) applications for a deputy's position to the Sheriff's Dept and allowing that department to file, screen and control deputy candidates applications.
- That an improved method of evaluating the job performance of my professional staff will come from this project. This will bring a meaningful indication to these professionals as to how I value their services.
- To see the County develop a plan that is internally and externally equitable; that provides incentives for advancement for professionals within the system. I would also like to see Countywide participation in the plan; a plan departments are confident and believe in for all employees.
- Updated job descriptions. Job descriptions more clear, specific and pertinent to a position including small departments. I also intend to use this survey as a partial justification to reclassify an employee.
- Update job descriptions and perform an accurate salary survey to determine market trends
- That my employees are classified properly. I believe that our department's classifications are low
- New classifications
- Better understanding of how evaluations are achieved
- More flexibility in merit increases and in retirement program
- That the instrument be reviewed and maybe more complete, but that it not explode in length and bureaucratic type wording and value
- A fair assessment of individuals' value. At present, it doesn't appear we are fair in what we base pay rates and job classifications against. The idea that government is not to compete with industry is outdated. Our responsibility is greater, but we pay less--does not make sense.
- To develop a more contemporary ranking of positions; a new improved performance review with better instructions; a salary schedule that allows our professional positions to be more competitive with BA and MLS staff in surrounding school districts
- A fair evaluation and classification. I would like to have employees classified at the level accordingly to the job that they perform.
- I expect the County Commissioners to evaluate the importance and dependency the citizens of FBC have on our non professional staff and devise an equal compensation system that will benefit all County employees, as well as give them a sense of pride in doing their job and motivate them to provide the best of their services to FBC.

Do you believe that an employee's compensation is made up of both wages and benefits?

AVG	(41	RESP)		31.446	

POSITIVES

- The salary ranges provide a mechanism to control internal equity of positions.
- The foundation of the development of a good plan is there.
- Compensation plan, as a whole, is one that we should all be proud of.
- The job classification plan is flexible enough to accommodate the wide variety of attorney positions which exist in this office.
- The system establishes a base from which an employee can grow. If used properly it is a fair program and permits individuals to see where they are headed, knowing each department has to follow the steps.
- Job classification enables a person to apply for a job and prepare for the job.
- Compensation plan tells you what you can expect for your work.
- A guideline to refer to.
- Has classified and ranked positions.
- Has required us to write job descriptions.
- Given insight in discrepancies and comparable job descriptions.
- The County has a good overall compensation plan for its employees. The retirement program, medical benefits, and insurance that are provided are very good.
- The County has organized classification and compensation program.
- Budgeting is simplified.
- Anniversary date evaluations and salary changes are more meaningful.
- I would not change anything in the Compensation Plan.
- Medical benefits equal or exceed most private and governmental sectors.
- Multitude of job classifications and levels.
- Pay grade and step system
- Employee's ability to see potential earnings if he or she stays employed with the County and has satisfactory performance
- Provides consistency throughout County departments to administer performance rewards
- The fact that there is, indeed, such a thing. We could be like other counties and not have one at all.
- Job classification - general; Compensation Plan - N/A
- Some measure is needed; plan helps but does not stop favoritism
- The plan exists; most jobs are listed.
- Job classifications we have are no problem. Compensation plan is average or above compared to the private sector and this geographical location. The nine-hour work day is beneficial to the precinct and is very important to the working force. We would like to see a system that would allow compensatory time off for overtime on a voluntary basis.
- It has provided the County with a means to keep the employees within a budgeted range. It allows the County to operate with some consistency between the departments as to salary and job descriptions.
- There appears to be a system in place that prevents one department from having a different salary level from another in a same or similar position. Also, the system gives the supervisor a means to explain why an employee may or may not be entitled to a salary increase.
- The current system give structure and uniformity to the process.

- Better than no system.
- Job classification provides a basis for department heads to provide goals for staff to achieve and receive a monetary reward. Compensation Plan offers an excellent benefit package to employee and family.
- Positive is that it was a good effort at equalizing positions and salaries, standardized job descriptions, set regular performance evaluations, and results in employees knowing how they are doing and having a chance to express their concerns.
- Compensation plan, i.e. benefits, is good.
- The system overall appears to be good. It appears to be a beneficial system because it lets you know how you fit into the County's plan.
- There is a basic plan, but abuse of the system has hurt the plan. Good recommendations have been made and Commissioners Court have vetoed. Commissioners Court needs to be accountable for preventing abuse of the system.
- This plan needs to be reviewed on an annual basis, or at least a two year interval.
- Reflects possibilities within County infrastructure.
- Helps employees understand their position (status) and the type working conditions. It gives the employee the ability to know where he is on the career "ladder" and an idea about the future.
- If administered properly, the plan should allow for financial rewards for longevity and productivity, and guarantee wage parity for similar work in different departments.
- Easy to use; easy to explain; standard classifications; point system helps remove some subjectivity in classifying jobs.
- To my knowledge, this Court does not have a copy of the existing job classification. It would be difficult to comment on the positives and negatives.
- Job classification keeps down confusion about whether an assignment is within the employee's scope of work. Compensation plan is good.
- Gives supervisors and department heads guidelines as to salary grade and increase parameters.
- When followed, the job classification and compensation plan is a fair and equitable way to compensate an employee.
- The employee knows what to expect in future as well as the present and can determine what, if anything, he wants or needs to do for further advancement within the County.
- Insurance benefits; retirement; investment and savings options; sick leave policies; assistance from Personnel Department over the years to help me gain parity for employees.
- The plan does segregate jobs and takes into consideration, to some degree, the duties and responsibilities of positions.
- Benefits and compensation plan are fine and cost of insurance is more than reasonable. It's one of the best I've ever seen.
- We have never been able to get a complete copy of the existing job classifications and compensation program or what the basis for the classifications were.

NEGATIVES

- Too many positions are lumped into one job classification in order to keep down the number of classifications Job descriptions change as the County grows and more tasks are assigned to an employee. Annual reviews of the changes within a department could correct this.
- All "deputies", whether working in the jail, civil, dispatch or investigation, should start at the same level of pay.
- Employees should be allowed to borrow against retirement. Percentage contributed by employee should be flexible. An employee on "family leave" should be allowed to work at home on a part-time basis on a specific project, as assigned by the department head. At the time of an employee's review, department heads should have the discretion to give a merit raise to employees in excess of a one step increase. Optional insurance programs are confusing.
- Too structured--needs flexibility; do away with steps, i.e. establish midpoints or ranges--gives department heads more discretion.
- Even when funds are available, the plan does not allow the department head the flexibility to use the salary line item as an incentive for employees to reach maximum productivity. Does not allow step increases in a classification even though funds are made available for two or more steps by resignation, promotion or retirement in that classification. Step increases in lower classifications are too small in comparison to higher classification step increases.
- Does not address the needs of law enforcement specifically or the community; nature of work, hours, disagreeable conditions require considerations not necessary in other disciplines, e.g. mandated in-service training and various proficiency certificates.
- Lacks flexibility to update as jobs change. More steps required; employees are stymied at (now) Step "13".
- Too restrictive in rewarding exemplary employees. Does not provide monetary incentive for employees who excel.
- There are too many steps. There are not enough job grades. There is not enough money between steps. Not everyone follows the guidelines, and there is no enforcement. Job grade classifications are too general. Generic job descriptions--people unqualified to evaluate and dictate pay scale for personnel based on generic job descriptions. Employees should get to choose pay for overtime or comp-time. Employees should get college pay for related studies/degrees. If the County is going to have "exempt employees from comp-time and overtime, then time should not be accrued/docked for "exempt employees".
- The old system appeared based on the number of people you supervised, not taking into account the amount of education and experience an individual has to fulfill the job. Also, it did not appear to take into consideration as to how your job or decisions that you make on your job affect the health and welfare of the citizens of the County.
- Job descriptions are outdated; some positions need to be reclassified.
- Departments with carelessly aggressive short-term concern Department Heads who do not have enough public service responsibilities to keep them busy can get personnel reassigned or re-classified and receive salary adjustments for employees.

- Too much overlap in pay between pay grades. Re-structure pay grades and steps. Eliminate pay grades 1-5--they are not necessary. Reduce increase between steps of pay grade 14 and above to reflect 3% increase increments. Do not increase medical cost to employee. Evaluate pay grade difference for college 4-year degreed vs. non-degreed jobs. Adopt "Rule of 75" for retirement package.
- The compensation plan is not consistent with job responsibilities. Too complicated.
- Not fairly or equitably applied. The factors are not considered when applying compensation or determining classification. The merit plan is too restrictive and does not allow a person to receive increase based on performance. The responsibility of a job (factors) should/must be more important than who the person works for. Supervisors must receive adequate, fair compensation for the level of responsibility and number of people being supervised.
- Current salary figures are low, requiring that some employees be hired as high as step 7. Existing employees are often paid less or equal to new ones. Part-time employees are not included in the job classification plan, job descriptions, review, etc. Allow department heads more discretion for using the merit pool money -- for determining number of steps given, for upgrading approved positions, etc. County instructions allow merit raises at a score of 50 points; that is too low. Set up a procedure for changes and adjustments between major revisions.
- Other than the evaluations that appear to leave too much room for error, I do not supervise enough employees to be overly critical of the current system. However, the current system does not leave room for competitive hiring of professionals from the Houston area.
- Survey comparison to other counties have a purpose; however, comparison may not justify the needs within departments or the County.
- I feel the County should examine in closer detail not only the professional level job functions, but non-professional as well. In classifying and evaluating the job performance of non-degreed employees (75%+ of County employees--the "backbone" of County government), there should be more emphasis put on their overall performance, i.e. efficiency, ability to work with the public, attitude and loyalty.
- In each category of evaluation, the top three (11-25 pts.) do not show enough differences for really effective feedback.
- Department Heads and elected officials have been known to change job descriptions and duties on paper to allow promotion and increases in salary. Some supervisors make less than the people they supervise. Many departments have the same categories of employees with essentially the same duties but differing grades which results in thousands of dollars in pay difference.
- The County needs different classification and review procedures for technical and professional employees.
- The FBC pay structure used for all classified employees on the grade and step system procedure should be abandoned. You cannot reward an employee for outstanding work ethics and team effort. The supervisors do not have control of the employees and cannot run the operation to reward employees that deserve such.
- The County's existing job classification is too general. (The responsibilities of a police officer and the end results of his/her duties don't compare to most other county employees.) There should be pay parity between Constable and Sheriff departments with pay increases available for supervisory positions in the Constables' dept. like in Sheriff's Dept.

- Change vacation and sick leave: rather than accruing time per pay period, employees would receive a set amount of vacation and sick leave, based on years of service, on January 1 of each year. Unused sick time would carry over; vacation would not. (like Harris County)
- Needs to be more inclusive: all County employee positions should be listed, including those positions appointed by Boards other than Commissioners' Court. Pay scale is inadequate--'needs to increase. Some job classifications are under classified. Annual review form needs to be designed to each department rather than one form to cover all.
- No County-wide "rules" on scoring each factor. More factors need to be added. Personnel needs to set a standard (numbering system, etc.) for rating. Balance work and pay for each employee, based on skill, not longevity.
- Salary levels low; does not attract best qualified candidates for employment.
- Some salaried employees are required to work 45 hours/week while being compensated the same as salaried employees working 40 hrs/wk. The salaried employees working 45 hrs/wk are under compensated.
- There is a tendency to use step raises as cost of living raises when there is no cost of living component.
- Job descriptions are not specific to all positions in a smaller department. Listed working conditions are somewhat evasive. No indication of safety equipment that may be required and no mention of potential health threats.
- Job grade and step positions are good but 'would like to see something like after being here so many years, an employee would get a two step increase.
- Job descriptions do not match the work that is performed. Original classification recommendations were not followed. No updates to descriptions have been made. Reclassifications and updates need to be done and regularly scheduled maintenance needs to be performed.
- Some of the job classifications need to be upgraded because additional responsibilities have been added to the job. The pay scale needs to be adjusted accordingly.
- Never upgraded to reclassify and rank positions. Overlapping grades conflict with pay scale. Not enough job classifications. Job classifications are not comparable (up or down) with private sector-like positions.
- Compensation plan policy of allowing merit increases only at or about the anniversary date of an employee is too inflexible and should be eliminated. A re-evaluation which could trigger a pay increase should be implemented.
- Needs updating with use of current technology for job classifications. Clerical/Secretarial positions need more clarification or distinction for step and grades.
- The salary schedule is extremely limited for small departments; the ranges are too compressed which results in lower-level positions making more than supervisors. The performance evaluation system is inadequate; the employee does not get to provide input. Job descriptions need to be updated. System must be administered properly.
- The system is not used fairly: some departments do not follow the guidelines; people are placed in a higher grade even though they perform at a lower level. At the time the program was adopted, some positions were not placed in their proper place due to a lack of understanding of job responsibilities.

- Many negatives; all stem from the fact that there is an injustice between Sheriff Dept. and Constable Depts.' employees. Law enforcement wages should be standard throughout the County and everyone make the same thing, regardless of the department assigned.
- Job descriptions in no way match duties/responsibilities of staff. Secretaries/Court Coordinators in some departments do less work than some clerks, yet are paid much more because of who they work for. This leads to "clerical" staff feeling devalued. Need more flexibility to promote and reward best employees (e.g., need to bring all clerks up to Clerk II classification--some Clerk I's are doing work of Clerk II's).
- More consideration should be given to weight of responsibilities in larger offices, especially those that have direct public contact. Consideration for education levels and awareness of the importance of education for employee performance and maturity.
- Guidelines that regulate <u>when</u> merit raises go into effect need review, clarification and revision.
- Salaries and job classifications need to be brought up to date.

RE: Positioning System
Interlocal Agreement

Dear Judge Cordes:

This office has reviewed the attached agreements. The Interlocal Agreement between Fort Bend County Drainage District and the Fort Bend Subsidence District is for the purpose of contributing $40,000 to the Global Positioning System (G.P.S.) The G.P.S. will measure subsidence in Harris County, Fort Bend County and Galveston County. The term of this Agreement is dependent upon whether the Harris-Galveston Coastal Subsidence District terminates its cooperative agreement with the National Oceanic and Atmospheric Administration. (See Exhibit "B", Art. XVI). However, the Drainage District may demand a refund of the $40,000 from the Fort Bend Subsidence District if the project data is not made available to the Drainage District. (Interlocal Agreement §2.03)

Exhibit "A" is the Interlocal Agreement between Fort Bend Subsidence District and Harris-Galveston Coastal Subsidence District. Section I of that Interlocal Agreement obligates the Fort Bend Subsidence District to pay $40,000 per year for the G.P.S.

This office has no objections to the Agreements' legal form.

Very truly yours,

Portia Poindexter
First Assistant County Attorney

COOPERATIVE AGREEMENT
BETWEEN THE
NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION
AND THE
HARRIS-GALVESTON COASTAL SUBSIDENCE DISTRICT

I GENERAL INFORMATION:

1. This agreement is made and entered into by and between the Harris-Galveston Coastal Subsidence District, hereinafter referred to as HGCSD, and the National Oceanic and Atmospheric Administration (NOAA), National Ocean Service (NOS), Coast and Geodetic Survey, National Geodetic Survey Division, hereinafter referred to as NGS, for the joint development of a subsidence monitoring system in the area of responsibility of HGCSD, with maximum use of Global Positioning System (GPS) technology.

2. The U.S. Department of Commerce, NOAA, NOS is responsible for the establishment and maintenance of the National Geodetic Reference System (NGRS). This project will contribute to the technology used for the validation and strengthening of NGRS.

3. This agreement is in accordance with the responsibility of DOC for the coordination of geodetic control and related surveys.

4. HGCSD is responsible for certain water-related activities in the Harris/Galveston, Texas, area that require the kinds of data produced by NGS, for purposes of modeling and regulating water use.

8. "Input Formats and Specifications of the National Geodetic Survey Data Base," Volume II (Vertical), FGCC, 1982.

III SCOPE AND OBJECTIVES:

The objectives of this agreement are to design GPS procedures, perform observations, analyze, process and combine data to form a higher accuracy GPS network with focus on the vertical component, in the HGCSD area to the extent possible, including the testing of continuously operating GPS stations.

The fixed, continuously operating, higher accuracy GPS network will consist of the appropriate number of points to determine the feasibility of the approach, likely to be 5 to 6 points in the initial stages. Additional vectors may be determined by obtaining measurements at other A-Order points and the North American stations of CIGNET (Cooperative International Global Positioning Network).

Selected areas of differential leveling may be performed depending on the need and applicability to the system design.

IV DEFINITIONS:

Geodetic control surveys will be performed in accordance with standards and specifications in References 4, 5, 6, and 7 in Section II. In addition, special developmental specifications may be used in geodetic data collection. Geodetic control surveys submitted for inclusion in this project will adhere to the formats and specifications specified in References 7 and 8 in Section II.

V ADDITIONAL TECHNICAL SPECIFICATIONS:

1. SITE SELECTION AND MONUMENTATION:

The location of higher accuracy stations must be in accordance with the following criteria:

A. Accessible within 15 meters by 2-wheel drive vehicle.

B. Unobstructed view of the horizon above 15 degrees for a full 360 degrees.

C. Located on property that is not likely to be disturbed in the next 20 years, e.g., airports, highway medians/interchanges, schools, public parks, and waysides.

D. Located on stable, well drained sites to minimize future horizontal and vertical deformation.

E. Located at the sites needed for HGCSD to accomplish the objectives of their program.

Monumentation of the higher accuracy stations must be in accordance with NGS standards.

2. ADDITIONAL TIES:

Additional ties will be made to first-order horizontal and vertical stations as needed with dual-frequency GPS receivers to meet the objectives of the project. Geodetic connections may be required using leveling procedures to assure accuracy needs are met.

3. OBSERVATIONS:

Whenever possible, the GPS observations will be reduced so as to achieve FGCC B-Order or higher accuracy.

VI RESPONSIBILITIES OF AGENCIES:

1. NOS/NGS agrees to:

A. Design, plan, and accomplish the GPS observations necessary to obtain the measurements needed to provide the most accurate vertical accuracy using GPS technology (objective is to attain measurement of relative movement at centimeter level) between selected sites jointly selected with HGCSD and monumented by NGS.

B. Provide personnel to take GPS measurements during the development phase of the project.

C. Reduce GPS vectors to best obtainable accuracy for the vertical component.

D. Provide training as needed for HGCSD and other agencies as required, to produce a higher accuracy vertical survey system to meet HGCSD needs.

2. HGCSD agrees to:

A. Cooperate with NGS in determining the location of sites for placement of the continuously operating GPS receivers and assist in obtaining permission for placement and use of monumentation as necessary.

B. Purchase, or provide funding for the purchase of, GPS receivers designed to obtain the most accurate vertical measurements possible, work stations, computers, port-a-measure equipment, electronic interfaces and related equipment to be used in carrying out this agreement. In addition, reimburse NOS for costs incurred for per diem and travel. Total cost to HGCSD for the first year of the project will not exceed $400,000. Title to the GPS receivers and all other equipment purchased to carry out this agreement, except one work station and necessary periphery equipment, will rest with HGCSD.

VII PROGRAMMING, BUDGETING, FUNDING, AND REIMBURSABLE ARRANGEMENTS:

1. Within the terms of this agreement, budgeting and funding will be accomplished by the respective parties entering into this agreement in accordance with the responsibilities contained herein.

2. NOS and HGCSD participation in this project are subject to budgetary limitations and administrative approvals.

3. Subject to the joint concurrence of NOS and HGCSD, additional agencies/participants may be allowed to assist in the project. Resources provided by others may be used to offset expenses by NOS and HGCSD.

VIII PROCEDURES FOR INSPECTION/QUALITY ASSURANCE:

NGS and HGCSD will be responsible for their respective inspection and quality assurance. All surveys performed for inclusion in NGRS are subject to the provisions of the Federal standards and specifications specified in References 4 through 8 in Section II of this agreement.

IX PUBLICATION:

The results of these geodetic surveys will be made part of NGRS and will be published by NGS, and thereby will be placed in the public domain.

X PUBLIC AFFAIRS/PRESS LIAISON:

Press releases or other public announcements regarding this project may be prepared by HGCSD or NGS, each of which shall consult with the other prior to distribution.

XI DATA RIGHTS:

There are no restrictions on the use by government agencies of data produced by this agreement. Such data are considered to be in the public domain.

XII SUBSIDIARY AGREEMENTS:

Additional working agreements regarding specific cooperative efforts, if needed, shall be effected in writing by both parties as the need arises.

XIII THIRD-PARTY LIABILITY:

Liability of HGCSD for acts of its employees is governed by applicable laws of the State of Texas. Liability of the U.S. Government for acts of its employees is governed by the Federal Tort Claims Act and other Federal statutes.

XIV AMENDMENTS AND REVIEW:

This agreement may be amended at any time by the mutual written consent of the parties concerned. Furthermore, this agreement may be subject to reconsideration at such times as may be required and as agreed to by the parties entering into the agreement.

XV OTHER PROVISIONS:

Nothing herein is intended to conflict with current NGS or HGCSD directives or applicable law. If the terms of this agreement are inconsistent with existing directives or with the applicable law of either of the parties entering into this agreement, then those portions of this agreement which are determined to be inconsistent shall be invalid; but the remaining terms and conditions of this agreement not affected by any inconsistency shall remain in full force and effect. At the first opportunity for review of the agreement, such changes as are deemed necessary will be accomplished by either an amendment to this agreement, or by entering into a new agreement, whichever is deemed expedient to the interest of both parties.

Should disagreement arise as to the interpretation of the provisions of this agreement, or amendments and/or revisions thereto, that cannot be resolved at the operating level, the

AS PER ORIGINAL

area(s) of disagreement shall be reduced to writing by each party and presented to the other party for consideration at least 30 days prior to forwarding to respective higher quarters for appropriate resolution.

XVI TERM OF THE AGREEMENT:

This agreement will become effective upon the signature of both the approving officials of the respective parties entering into this agreement, and will remain in effect until terminated by either (1) mutual written agreement, (2) 30 days' advance written notice by either party, or (3) completion of the objectives of this agreement. In event of termination prior to completion of the objectives of this agreement, all direct and indirect phasing-out costs shall be paid by the party requesting termination. In the event of a mutually agreed upon termination, each agency assumes their respective termination costs. Termination costs claimed shall not exceed the actual costs incurred as a result of termination of the project.

MONTHLY REPORT
APRIL, 1994

The removal of vegetation from channels during April, 1994 was accomplished by both shredding operations and by herbicide applications. Shredding was done on fifty-nine (59) channels that included Deer Creek II-B-5 and several of its tributaries, Middle Bayou II-D-1, Sims Bayou VIII and several of its tributaries, and Willow Fork of Buffalo Bayou.

Herbicides were applied to thirty-eight (38) channels that included Cedar Creek I-B, Fulshear Creek II-F, Keegans Bayou and several of its tributaries, and Willow Fork of Buffalo Bayou V-A.

The bridge crew worked on projects that included the installation of several drop inlet pipes into various channels, the replacement of three (3) low water crossings, the replacement of three (3) watergates, and the building of fence on the Big Creek Bypass.

Work continued on the excavation of the Big Creek Bypass with various equipment. The Northwest 9570 and LinkBelt LS-98A draglines combined to dig twenty-nine thousand (29,000) cubic yards of dirt which were leveled by the Dresser TD-25G and the Fiat Allis FD-30 bulldozers.

The LinkBelt 98C dragline continued the excavation of Lower Oyster Creek III. Approximately four thousand (4,000) cubic yards of spoil material were dug and then leveled by the Dresser TD-25G bulldozer.

Work also continued on the reshaping of Mound Creek I-A. The Rapier NCK-305 dragline dug approximately eleven thousand, five hundred (11,500) cubic yards of spoil dirt.

The following charts indicate which projects received work and which equipment was assigned to each during April, 1994.

Judge Roy Cordes, Jr.
Fort Bend County
P.O. Box 368
Richmond, TX 77406-0368

Your Honorable Cordes:

The Houston Astros will host Fort Bend County Night in the Dome on Monday, July 18. The Astros vs. Cardinals matchup will be a fun-filled evening as we race for the new Central Division pennant!

A portion of all tickets sold throughout the community will benefit Richmond State School. The School, Richmond-Rosenberg Chamber of Commerce and Fort Bend Chamber of Commerce have committed to making the event a huge success. Churches, civic organizations, youth groups and community leaders will also participate.

Fort Bend County will be honored during pre-game ceremonies with representation of many church choirs singing the National Anthem. A group will also perform Honor Guard duties in the presentation of our nation's colors. And with the achievement of 600 tickets sold, an Astros player will present a giant check to Fort Bend County representatives reflecting the proceeds raised. Upon selling 1,000 or more tickets, honorary first pitch is available.

The Astros very own Hall of Fame Announcer Milo Hamilton will help promote Fort Bend County Night on our Astros Radio Network of 50 radio stations in Texas and Louisiana. Also, various promotional and Orbit the Mascot visits in Fort Bend County are scheduled.

Milo and I request an appearance at County Commissioners Court on Tuesday, May 31, to announce Fort Bend County Night in the Dome. We would be most honored if you would proclaim Fort Bend County Night.

I have discussed the appropriate procedure for a Proclamation with your secretary, Margaret, who has been most gracious and helpful. Enclosed with this letter is appropriate Proclamation copy.

Please approve our appearance and Proclamation. My direct phone number is (713) 799-9668. Thanks so very much.

CHECK/SERV AGREEMENT ENHANCEMENTS

Basic Checkserv Coverage Program:
The basic checkserv on-call maintenance agreements covers the customers for all parts, travel expenses and labor for all supported equipment during the selected **Principal Period of Maintenance (P.P.M.)**. The P.P.M. is selected by the customer under the Basic Agreement to be eight (8) continuous hours between 8 a.m. and 6:00 p.m., Monday through Friday in all time zones. If no P.P.M. is selected, the hours between 9:00 a.m. and 5:00 p.m. are automatically assigned. In addition to this each site receives one (1) Periodic Maintenance Inspection during the contract year.

The **Periodic Maintenance Inspection** (P.M.) is a provision designed to prevent problems by retuning and adjusting the system(s) and advising customers on proper and new tagging procedures.

Rebate Program:
This option enables a customer to recapture some of the monies spent on the agreement if their covered location does not require service, and if you waiver the Periodic Maintenance Inspection (P.M.) during the agreement year. The amount of the rebate will be 25% of the contract selected. The rebate will be issued ina form of a credit for future purchases of Checkpoint's tagging procedures.

Extended Hours Option Program:
Selecting this option will allow the customer to extend his **Principal Period of Maintenance (P.P.M.)** by four (4) continuous hour each weekday and eight (8) hours on Saturdays. The weekday and Saturday **Extended Hours Options** are priced separately and can be selected independent of each other. The cost for the weekday coverage is at a 35% increase, and the weekend coverage is at a 30% increase.

Check/List Periodic Maintenance Agreement Program:
One of the key benefits of the Check.serv Maintenance Agreement is the **Check/List P.M. Program**. As part of the **Basic Coverage Program** but waivered in the **Rebate Program** the **Check/List Periodic Inspection** is proactive approach to insuring system reliability and availability.

Customer without the Basic Checkserv Program may still take advantage of the benefits of an annual **Check/List PM** by choosing this option. The **P.M.** provision is designed to prevent problems by retuning and adjusting the system(s) and advising customers on proper and new tagging procedures. Parts and/or additional labor (including zone charges) identified as required as a result of a **P.M.** visit is the customer's responsibility and will be charged per current Time and Material rates.

Please respond with desired agreement coverage type **Basic, Rebate, Extended Hours**,or the **Check/List Periodic** Maintenance Agreements.

PER-CALL SERVICE COST

RE: **ALTERNATIVE DISPUTE RESOLUTION SYSTEM**

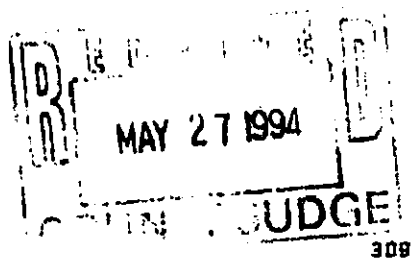

Dear Judge Cordes:

Attached please find a proposed contract with the Fort Bend County Dispute Resolution Center. The contract has been modified in response to the issues raised at the last Commissioners' Court meeting.

First, the contract price has been set in the amount currently maintained in the County's Alternative Dispute Resolution Fund. Although the funding is currently structured as a single payment upon execution of the contract this can be changed according to the desires of Commissioners' Court.

Second, the Center has agreed not to make the Executive Director a County employee. This should alleviate concerns about retroactive payments and the like.

Finally, the Center's status as an independent contractor has been clarified. The Center will maintain its separate operating account with the funds received from Commissioners' Court as well as whatever money they are able to raise on their own. The Center will not utilize the County purchasing system but will remain an independent, non-profit agency.

Re: Fort Bend County Levee Improvement District No. 11 ("LID 11") Renewal of Director Terms

Dear Commissioner O'Shieles:

Pursuant to an Order Appointing Directors for Fort Bend County Levee Improvement District No. 11 the terms of office for the three members of the Board of Directors will expire on June 27, 1994. The current Board members, Paul Noyd and Raye Schnell request that the Commissioner's Court consider reappointing them to serve on the Board of Directors for another four year term and appointing Sondra Dittmar to serve a four year term. Ms. Bell is moving from Greatwood and will not be available to serve on the Board. Ms. Dittmar is a resident of Greatwood.

An original Certificate for Order and an original Order Appointing Directors for Fort Bend County Levee Improvement No. 11 has been forwarded to the Fort Bend County Clerk. I have enclosed copies of these documents. A copy of Mr. Noyd's, Ms. Dittmar's and Ms. Schnell's Statements of Appointed Officer, Bonds and Oaths of Office are currently being executed. Once these documents are filed with the Secretary of State, they will be forwarded to you.

If you have any questions or need additional information, please do not hesitate to contact me at 758-3856. Thank you for your attention in this matter.

Sincerely,

Lynne B. Humphries

Review the guidelines carefully before beginning. Videotapes, audiotapes, slide presentations or other media may not be submitted. The narrative description of the project should suffice.

The grant should not be used to produce printed material or videos.

1. Describe the project to be funded by the Economic Excellence Grant.
   (Limit to space provided)

   Include:

   - The boundaries of your jurisdiction and the location of your project (if applicable).
   - The needs that your project will address.
   - A tentative timeline for completion.

1. On Saturday, August 28, 1993 a large diverse group of Fort Bend County residents met for the purpose of creating a vision for the future of Fort Bend County. This "Vision Day" was the first step in a process to create and pursue a comprehensive vision and set specific goals for the future. Organizations active in Fort Bend County sent representatives to the meeting. These organizations included cities, school districts, and civic groups, including homes associations, service organizations, and political groups. They were all asked, "Will you help create the future we want for our County?"

   A draft of the vision for Fort Bend County in the next century was mailed to all participants in October of 1993. The input or comments of participants were requested from them as individuals, or after circulation among their organization's members. Eleven task groups were identified: Economy, Infrastructure and Environment/Recreation, Social Services/Health Services, Education, Law Enforcement, Government Performance, Citizen Participation/Civic Education/Community Leadership, Volunteerism and Philanthropy, Multicultural Life, Community Information Sharing, Cooperation and Consensus Building, and Community Vision and Pride. Each group is responsible for the following work products: (1) further definition of the statement of vision in the goals areas; (2) description of the current reality in the goals groups characterization of the gap between vision and reality; (3) identification of specific goals to be achieved to close the gap; and (4) assignment of responsibility for achieving the specific goals to specific organizations, entities, or bodies.

   These groups are currently meeting to accomplish this task. Tentatively August 27, 1994, has been set for the date for participants to come back together and review the work product of each goals group.

3. Describe how this project will encourage economic growth in your community or throughout the state. (Limit to space provided)

Fort Bend County is recognized as continually being one of the ten fastest-growing counties in the United States and, in addition, has been rated as the third fastest-growing white-collar county in the United States. This raises issues of how the growth may be managed within our community and how we develop a community to encourage diversified growth including residents, business, and industry. The vision process, which has brought together over 200 citizens as volunteers in our county to develop this vision, includes specific goal groups on economy and infrastructure and environment/recreation. This will have a dramatic impact on the county's ability to attract industry, business, and expand current businesses.

With a plan that is developed as a result of the vision, the County should be able to obtain a cohesive and concentrated effort to develop and maintain our infrastructure and "quality of life" so that businesses will continue to look at Fort Bend County as the home of choice.

4. Explain how you will measure the success of your project. (Limit to space provided)

AS PER ORIGINAL

The initial measurement of the success of a project is the completion of the tasks identified for each goals group. The next measure will be the meeting tentatively set for August, 1994, when the goals groups are brought back together as well as all participants of the August meeting to review the work product and reach consensus on that work product. The true success of the project will be measured over a long period of time as the project is implemented. This vision and plan does include goals that will be measurable over time.

5. Identify the person/s (name/s, addresses and titles) who will implement the project, monitor it and submit reports. (Limit to space provided)
