RE: Safety Test for Elevators
Jane Long Annex & William Travis Annex
S e r i a l # E 5 5 1 0 1 & 1 E s c o

Dear Mr. Beran:

The Annual Safety Test for your elevator(s) is due during the month of May 1994. Recently the State of Texas enacted new legislation in the form of the Health and Safety Code, Chapter 754, Elevators, Escalators and related equipment, Subchapter B. Inspection certification dated September 1, 1993. Per Section 754.019, this safety test must be witnessed and certified by an ASMEQEI-1 certified inspector, who will also supply and fill out the inspection forms, tags and certificates as required by the State.

The following is our proposal to have the annual safety test as required by the State of Texas and the American National Standard Safety Code witnessed by a QEI inspector and certified with the state.

Once you have received your certificate of inspection, you as the real property owner or agent for the real property owner are required by law to file a copy of each certificate of inspection, one per elevator or escalator, and a $15.00 filing fee with:

The Commissioner of The Texas Department of
Licensing and Regulation Executive Offices
P.O. Box 12157
Austin, TX 78711

not later than the 30th day after the day on which the inspection was made.

This test will be performed by experienced elevator technicians in the employ of Dover Elevator Company and we will coordinate our testing crews' schedule with the QEI certified inspectors. Dover Elevator Company will exercise caution and care, but will not be responsible for any damage done to the building structure or equipment occasioned by these tests.

TERMS AND CONDITIONS

1. Our performance of this contract is contingent upon your furnishing us with any necessary permission or priority required under the terms and conditions of government regulations affecting the acceptance of this order or the manufacture, delivery or installation of the equipment.
2. It is agreed that our workmen shall be given a safe place in which to work and we reserve the right to discontinue our work in the building whenever, in our opinion, this provision is being violated. In the event our employees or those of our subcontractors are exposed to an asbestos hazard, PCB's or other hazardous substances, caused by individuals other than our employees, or those of our subcontractors, you agree to indemnify, defend, and hold us harmless from all damages, claims, suits, expenses, and payments resulting from such exposure.
3. Unless otherwise agreed, it is understood that the work will be performed during regular working hours of the trades involved. If overtime is mutually agreed upon, an additional charge at our usual rates for such work shall be added to the contract price.
4. We retain title to all equipment supplied by us under this contract and a security interest therein (which, it is agreed, can be removed without material injury to the real property) until all payments under the terms of this contract, including deferred payments and any extension is thereof, shall have been made. In the event of any default by you in the payment, or under any other provision of this contract, we may take immediate possession of the equipment and enter upon the premises where it is located (without legal process) and remove such equipment or portions thereof irrespective of the manner of its attachment to the real estate or the sale, mortgage, or lease of the real estate. Pursuant to the Uniform Commercial Code, at our request, you agree to join with us in executing any financing or continuation statements which may be appropriate for us to file in public offices in order to perfect our security interest in such equipment.
5. We shall not be responsible in any way for the acts of others or for pro-rata expenses of any nature incurred by others in or about the building.
6. Certificates of Workmen's Compensation, Bodily Injury and Property Damage Liability Insurance coverage will be furnished you upon request. The premium for any bonds or insurance beyond our standard coverage and limits will be an addition to the contract price.
7. We have made no examination of, and assume no responsibility for, any part of the elevator equipment except that necessary to do the work described in this proposal.
8. In consideration of our performance of the work herein described, at the price stated, you agree to indemnify, defend and hold us harmless from all damages, claims, suits, expenses and payments resulting from loss, damage or injury including death, to persons or property on account of or resulting from performance of this contract or from operation of the elevators whether before or after final acceptance, except as directly due to those acts or omissions of our employees or those of our sub-contractors.
9. We shall not be liable for any loss, damage or delay caused by acts of Government, strikes, lockouts, fire, explosions, theft, floods, riot, civil commotion, war, malicious mischief, acts of God, or any other causes beyond our control, and in no event shall we be liable for consequential damages.
10. Should loss of or damage to our material, tools or work occur at the erection site, you shall compensate us therefore, unless such loss or damage results from our own acts or omissions.
11. If any drawings, illustrations or descriptive matter are furnished with this proposal, they are approximate and are submitted only to show the general style and arrangement of equipment being offered.
12. All applicable sales and use taxes, permit fees and licenses imposed upon us as an elevator contractor as of the date of this proposal, are included in the contract price. The Purchaser agrees to pay, as an addition to the contract price, the amount of any additional taxes, fees or other charges exacted from the Purchaser or the Company on account thereof, by any law enacted after the date of this proposal.
13. Payments shall be made as follows: Net cash on completion if the work is completed within a thirty day period; if the work is not completed within a thirty day period, payment shall be due on the first day of each month for ninety percent of the value, based on contract prices, of labor and materials incorporated in the work and of materials ready to delivery or suitably stored at the site or other agreed upon location, up to and including the last day of the preceding month, less the aggregate of previous payments; and upon substantial completion of the work, a sum sufficient to increase the total payments to ninety percent of the contract price. If, after the work has been substantially completed, full completion is materially delayed through no fault of ours, you shall make such additional payments as may be required to leave outstanding only an amount equal to the value as estimated by us, based on the contract prices, of the uncompleted portion. The remainder of the contract price shall be due and payable upon completion of the work. If there is more than one unit in this contract, final payment shall be made separately as each unit is completed. In the event of any default by you in the payment, or of any other provision of this contract, the unpaid balance of the purchase price, less the cost of completing the work, as estimated by us, shall immediately become due and payable irrespective of the acceptance by us of notes from you or extension of time for payment. We reserve the right to discontinue our work at any time until payments have been made as agreed and we have assurance satisfactory to us that the subsequent payments will be made as they become due. Any moneys not paid when due shall bear interest at the legal rate in force at the place of the project. You also agree to pay, in addition to any defaulted amount plus interest, all our attorney fees, collection costs or court costs in connection therewith.
14. We warrant the work performed by us under this contract against defects in materials and workmanship for a period of ninety days from the date each elevator is completed and placed in operation. In the event of a claim, you must give us prompt notice, and provided all payments due under the terms of this contract have been made in full, we shall, at our own expense, correct any proven defect by repair or replacement. We will not, under this warranty, reimburse you for cost of work done by others; nor shall we be responsible for equipment to which revisions, additions or alterations have been made by others. This warranty is in lieu of any other liability for defects. WE MAKE NO WARRANTY OF MERCHANTABILITY AND NO WARRANTIES WHICH EXTEND BEYOND THE DESCRIPTION IN THIS CONTRACT, NOR ARE THERE ANY OTHER WARRANTIES, EXPRESSED OR IMPLIED, BY OPERATION OF LAW OR OTHERWISE. Like any piece of fine machinery, this equipment should be periodically inspected, lubricated and adjusted by competent personnel. This warranty is not intended to supplant normal maintenance service and shall not be construed to mean that we will provide free service for periodic examination, lubrication and adjustment due to normal use, beyond that included in the contract; nor will we correct, without charge, breakage, maladjustments or other trouble arising from abuse or misuse of the equipment, improper or unbalanced power supply characteristics, improper or inadequate maintenance, trouble due to acts of God or any other causes beyond our control.

    If the equipment installed by us under this contract is deemed to be a consumer product, and we a supplier and Purchaser a consumer under Title I of Public Law 93-637, known as the Magnuson Moss Warranty-Federal Trade Commission Improvement Act, then the implied warranties required by such act shall be limited in duration to the same period of time as the expressed warranty set forth herein and this entire warranty is designated as LIMITED.

    We shall in no event be liable for damages or delay nor for any consequential, special or contingent damages or breach of warranty.

    If there is more than one unit in this contract, this section shall apply separately to each unit as completed and placed in operation.
15. In the event the Purchaser's acceptance is in the form of a purchase order or other kind of document, the provisions, terms and conditions of this proposal shall govern in the event of conflict.
16. **A service charge of 1½% per month, or the highest legal rate, whichever is less, shall apply to delinquent accounts. In the event of any default of the payment provisions herein, you agree to pay, in addition to any defaulted amount, all attorney fees, collection costs or court costs in connection therewith.**

Dear Judge Cordes:

I am writing to request to be placed on the Commissioner's Court agenda to present my case for reimbursement of penalty and interest pertaining to a late payment for 1993 Fort Bend County taxes.

Briefly, the tax bill was incorrectly sent to a mortgage company that held my loan in 1992. I was not notified, until the late fee notice was sent on March 1, 1994. I promptly paid the amount in full on March 5th, including penalty and interest.

As I understand it, I have the right to request reimbursement for penalty and interest by appearing before the Commissioner's Court. Thank you for your consideration.

Very truly yours,

Re: George Memorial Library - Second Floor
RBAI Project No. 93031

Roman, this letter will outline our understanding of the scope of construction phase contract administration consulting services to be provided by Ray Bailey Architects, Inc. (RBAI) and our mechanical/electrical engineer, Day Brown Rice, Inc. (DBR). It will also serve as an amendment to our Architectural Services Agreement (Agreement) dated September 29, 1993 for the above-referenced project.

It is our understanding that the Fort Bend County Engineer's Office (County Engineer) will be responsible for all construction phase contract administration services as described in Article 2.6 of the Agreement. RBAI and DBR will provide limited assistance to the County Engineer during the construction phase when specifically requested by the County Engineer. RBAI/DBR's assistance will be limited to the following:

- Telephone and/or facsimile communications with the County Engineer to assist in construction phase contract administration.
- Jobsite visits only when specifically requested by the County Engineer to assist in resolving any questions that cannot be addressed by telephone or facsimile.
- Jobsite visits, if specifically requested, to assist the County Engineer in preparation of punchlists.
- All RBAI and DBR communications and/or correspondence are to be with the County Engineer only; correspondence and communication with the Contractor is the responsibility of the County Engineer.

It is also our understanding that it is the intent of the Owner to endeavor to limit RBAI/DBR's involvement to approximately 3 to 4 hours per month for the estimated 90-day construction period.

EDITOR'S NOTE

From time to time, the AIA makes minor corrections and clarifications in its documents as they are reprinted. Changes in the 7/88 reprinting of the 1987 edition of B141 were made in Subparagraphs 2.6.1 and 11.3.2. Changes in this 6/92 reprinting were made in Subparagraph 2.6.10 and Paragraph 4.5. See Section C of the Instruction Sheet for a detailed description of these changes.

2.6.4 The Architect shall be a representative of and shall advise and consult with the Owner (1) during construction until final payment to the Contractor is due, and (2) as an Additional Service at the Owner's direction from time to time during the correction period described in the Contract for Construction. The Architect shall have authority to act on behalf of the Owner only to the extent provided in this Agreement unless otherwise modified by written instrument.

2.6.5 The Architect shall visit the site at intervals appropriate to the stage of construction or as otherwise agreed by the Owner and Architect in writing to become generally familiar with the progress and quality of the Work completed and to determine in general if the Work is being performed in a manner indicating that the Work when completed will be in accordance with the Contract Documents. However, the Architect shall not be required to make exhaustive or continuous on-site inspections to check the quality or quantity of the Work. On the basis of on-site observations as an architect, the Architect shall keep the Owner informed of the progress and quality of the Work, and shall endeavor to guard the Owner against defects and deficiencies in the Work. *(More extensive site representation may be agreed to as an Additional Service, as described in Paragraph 3.2.)*

2.6.6 The Architect shall not have control over or charge of and shall not be responsible for construction means, methods, techniques, sequences or procedures, or for safety precautions and programs in connection with the Work, since these are solely the Contractor's responsibility under the Contract for Construction. The Architect shall not be responsible for the Contractor's schedules or failure to carry out the Work in accordance with the Contract Documents. The Architect shall not have control over or charge of acts or omissions of the Contractor, Subcontractors, or their agents or employees, or of any other persons performing portions of the Work.

2.6.7 The Architect shall at all times have access to the Work wherever it is in preparation or progress.

2.6.8 Except as may otherwise be provided in the Contract Documents or when direct communications have been specially authorized, the Owner and Contractor shall communicate through the Architect. Communications by and with the Architect's consultants shall be through the Architect.

2.6.9 Based on the Architect's observations and evaluations of the Contractor's Applications for Payment, the Architect shall review and certify the amounts due the Contractor.

2.6.10 The Architect's certification for payment shall constitute a representation to the Owner, based on the Architect's observations at the site as provided in Subparagraph 2.6.5 and on the data comprising the Contractor's Application for Payment, that, to the best of the Architect's knowledge, information and belief, the Work has progressed to the point indicated and the quality of Work is in accordance with the Contract Documents. The foregoing representations are subject to an evaluation of the Work for conformance with the Contract Documents upon Substantial Completion, to results of subsequent tests and inspections, to minor deviations from the Contract Documents correctable prior to completion and to specific qualifications expressed by the Architect. The issuance of a Certificate for Payment shall further constitute a representation that the Contractor is entitled to payment in the amount certified. However, the issuance of a Certificate for Payment shall not be a representation that the Architect has (1) made exhaustive or continuous on-site inspections to check the quality or quantity of the Work, (2) reviewed construction means, methods, techniques, sequences or procedures, (3) reviewed copies of requisitions received from Subcontractors and material suppliers and other data requested by the Owner to substantiate the Contractor's right to payment or (4) ascertained how or for what purpose the Contractor has used money previously paid on account of the Contract Sum.

2.6.11 The Architect shall have authority to reject Work which does not conform to the Contract Documents. Whenever the Architect considers it necessary or advisable for implementation of the intent of the Contract Documents, the Architect will have authority to require additional inspection or testing of the Work in accordance with the provisions of the Contract Documents, whether or not such Work is fabricated, installed or completed. However, neither this authority of the Architect nor a decision made in good faith either to exercise or not to exercise such authority shall give rise to a duty or responsibility of the Architect to the Contractor, Subcontractors, material and equipment suppliers, their agents or employees or other persons performing portions of the Work.

2.6.12 The Architect shall review and approve or take other appropriate action upon Contractor's submittals such as Shop Drawings, Product Data and Samples, but only for the limited purpose of checking for conformance with information given and the design concept expressed in the Contract Documents. The Architect's action shall be taken with such reasonable promptness as to cause no delay in the Work or in the construction of the Owner or of separate contractors, while allowing sufficient time in the Architect's professional judgment to permit adequate review. Review of such submittals is not conducted for the purpose of determining the accuracy and completeness of other details such as dimensions and quantities or for substantiating instructions for installation or performance of equipment or systems designed by the Contractor, all of which remain the responsibility of the Contractor to the extent required by the Contract Documents. The Architect's review shall not constitute approval of safety precautions or, unless otherwise specifically stated by the Architect, of construction means, methods, techniques, sequences or procedures. The Architect's approval of a specific item shall not indicate approval of an assembly of which the item is a component. When professional certification of performance characteristics of materials, systems or equipment is required by the Contract Documents, the Architect shall be entitled to rely upon such certification to establish that the materials, systems or equipment will meet the performance criteria required by the Contract Documents.

2.6.13 The Architect shall prepare Change Orders and Construction Change Directives, with supporting documentation and data if deemed necessary by the Architect as provided in Subparagraphs 3.1.1 and 3.3.3, for the Owner's approval and execution in accordance with the Contract Documents, and may authorize minor changes in the Work not involving an adjustment in the Contract Sum or an extension of the Contract Time which are not inconsistent with the intent of the Contract Documents.

2.6.14 The Architect shall conduct inspections to determine the date or dates of Substantial Completion and the date of final completion, shall receive and forward to the Owner for the Owner's review and records written warranties and related documents required by the Contract Documents and assembled by the Contractor, and shall issue a final Certificate for Payment upon compliance with the requirements of the Contract Documents.

ARTICLE 5

CONSTRUCTION COST

5.1 DEFINITION

5.1.1 The Construction Cost shall be the total cost or estimated cost to the Owner of all elements of the Project designed or specified by the Architect.

5.1.2 The Construction Cost shall include the cost at current market rates of labor and materials furnished by the Owner and equipment designed, specified, selected or specially provided for by the Architect, plus a reasonable allowance for the Contractor's overhead and profit. In addition, a reasonable allowance for contingencies shall be included for market conditions at the time of bidding and for changes in the Work during construction.

5.1.3 Construction Cost does not include the compensation of the Architect and Architect's consultants, the costs of the land, rights-of-way, financing or other costs which are the responsibility of the Owner as provided in Article 4.

5.2 RESPONSIBILITY FOR CONSTRUCTION COST

5.2.1 Evaluations of the Owner's Project budget, preliminary estimates of Construction Cost and detailed estimates of Construction Cost, if any, prepared by the Architect, represent the Architect's best judgment as a design professional familiar with the construction industry. It is recognized, however, that neither the Architect nor the Owner has control over the cost of labor, materials or equipment, over the Contractor's methods of determining bid prices, or over competitive bidding, market or negotiating conditions. Accordingly, the Architect cannot and does not warrant or represent that bids or negotiated prices will not vary from the Owner's Project budget or from any estimate of Construction Cost or evaluation prepared or agreed to by the Architect.

5.2.2 No fixed limit of Construction Cost shall be established as a condition of this Agreement by the furnishing, proposal or establishment of a Project budget, unless such fixed limit has been agreed upon in writing and signed by the parties hereto. If such a fixed limit has been established, the Architect shall be permitted to include contingencies for design, bidding and price escalation, to determine what materials, equipment, component systems and types of construction are to be included in the Contract Documents, to make reasonable adjustments in the scope of the Project and to include in the Contract Documents alternate bids to adjust the Construction Cost to the fixed limit. Fixed limits, if any, shall be increased in the amount of an increase in the Contract Sum occurring after execution of the Contract for Construction.

5.2.3 If the Bidding or Negotiation Phase has not commenced within 90 days after the Architect submits the Construction Documents to the Owner, any Project budget or fixed limit of Construction Cost shall be adjusted to reflect changes in the general level of prices in the construction industry between the date of submission of the Construction Documents to the Owner and the date on which proposals are sought.

5.2.4 If a fixed limit of Construction Cost (adjusted as provided in Subparagraph 5.2.3) is exceeded by the lowest bona fide bid or negotiated proposal, the Owner shall:

.1 give written approval of an increase in such fixed limit;

.2 authorize rebidding or renegotiating of the Project within a reasonable time;

.3 if the Project is abandoned, terminate in accordance with Paragraph 8.3; or

.4 cooperate in revising the Project scope and quality as required to reduce the Construction Cost.

5.2.5 If the Owner chooses to proceed under Clause 5.2.4.4, the Architect, without additional charge, shall modify the Contract Documents as necessary to comply with the fixed limit, if established as a condition of this Agreement. The modification of Contract Documents shall be the limit of the Architect's responsibility arising out of the establishment of a fixed limit. The Architect shall be entitled to compensation in accordance with this Agreement for all services performed whether or not the Construction Phase is commenced.

ARTICLE 6

USE OF ARCHITECT'S DRAWINGS, SPECIFICATIONS AND OTHER DOCUMENTS

6.1 The Drawings, Specifications and other documents prepared by the Architect for this Project are instruments of the Architect's service for use solely with respect to this Project and, unless otherwise provided, the Architect shall be deemed the author of these documents and shall retain all common law, statutory and other reserved rights, including the copyright. The Owner shall be permitted to retain copies, including reproducible copies, of the Architect's Drawings, Specifications and other documents for information and reference in connection with the Owner's use and occupancy of the Project. The Architect's Drawings, Specifications or other documents shall not be used by the Owner or others on other projects, for additions to this Project or for completion of this Project by others, unless the Architect is adjudged to be in default under this Agreement, except by agreement in writing and with appropriate compensation to the Architect.

6.2 Submission or distribution of documents to meet official regulatory requirements or for similar purposes in connection with the Project is not to be construed as publication in derogation of the Architect's reserved rights.

ARTICLE 7 Re: Addendum 2.0

7.2 Demand for arbitration shall be filed in writing with the other party to this Agreement and with the American Arbitration Association. A demand for arbitration shall be made within a reasonable time after the claim, dispute or other matter in question has arisen. In no event shall the demand for arbitration be made after the date when institution of legal or equitable proceedings based on such claim, dispute or other matter in question would be barred by the applicable statutes of limitations.

7.3 No arbitration arising out of or relating to this Agreement shall include, by consolidation, joinder or in any other manner, ~~an additional person or entity not a party to this Agreement,~~

Dear Ms. Kindell:

SUBJECT: HOME Investment Partnerships Program (HOME)
Project No. M94-UC480216

I am pleased to inform you that our review of Fort Bend County's program description for the FY 1994 HOME program has been completed and approved. This office is hereby obligating HOME funds to Fort Bend County in the amount of $500,000.

Enclosed are three copies of the Funding Approval and HOME Investment Partnership Agreement (HUD-40093), which constitutes the contract between the Department of Housing and Urban Development and Fort Bend County. Also enclosed is a Direct Deposit Sign-Up Form (SF-1199A) and a Letter of Credit Control System (LOCCS) Voice Response Access Authorization (HUD-27054).

In order for funds to be made available in the HOME C/MI system for the FY 1994 grant, it will be necessary for you to execute and return two copies of the Funding Approval and HOME Investment Partnership Agreement to this office. In addition, the LOCCS Voice Response Access Authorization (HUD-27054) must be prepared and sent to the address on the form. The Direct Deposit Sign-Up Form (SF-1199A) must be completed by you and your financial institution and mailed to the following address:

HOME Program
PO Box 23997 L'Enfant Plaza Station
Washington, DC 20026

The June 23, 1993, interim rule added a recapture provision for first-time homebuyers as an alternative to the resale restrictions published in the December 16, 1992, interim rule. This change provides participating jurisdictions additional flexibility when HOME-assisted units are sold. A participating jurisdiction may elect to use either option for all units or may elect to use both provisions based on a case-by-case analysis of the individual projects. You are reminded that your legal documents must contain the applicable resale provision. Once these documents have been developed, they should be forwarded to this office for review and approval.

RECEIVED 5/24/94

You are reminded that certain activities are subject to the provisions of 24 CFR Part 58 (Environmental Review Procedures for Community Development Block Grant Program). Funds for such activities may not be obligated or expended unless the release of funds has been approved in writing by HUD. A request for release of funds must be accompanied by an environmental certification. Appropriate forms are enclosed.

We look forward to working with the county in its implementation and delivery of this program. If you have any questions, please contact Will Williamson, Rehabilitation Management Specialist, at (817) 885-5887.

Sincerely,

R. D. Smith

This Agreement, made and entered into by Fort Bend County, a body corporate and politic under the laws of the State of Texas, hereinafter sometimes referred to as "County", and the City of Beasley, a municipal corporation under the laws of the State of Texas, hereinafter sometimes referred to as "City".

WITNESSETH:

WHEREAS, the City has elected to have its population included as a portion of that population to the County in the County's "urban county" application to the U. S. Department of Housing and Urban Development for funding for the Community Development Block Grant Program, said application being hereinafter sometimes referred to as the "Grant Application;" and

WHEREAS, the County is willing to include all of the City's population in the Grant Application and to cooperate with the City in the implementation of the City's Community Development Program; and

WHEREAS, the County certifies that it is following an approved Comprehensive Housing Affordability Strategy; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at VTCA Local Government Code §373.001 et seq., which provides, in part, for the authorization of cities to implement a community development program; and

WHEREAS, the governing body of the County duly authorizes this Agreement; and

WHEREAS, the governing body of the City duly authorizes this Agreement; and

WHEREAS, the Texas legislature has further enacted "The Interlocal Cooperation Act," Chapter 791, Texas Local Government Code, Tex. Rev. Civ. Stats., which provides, in part, that the County may contract with the City to perform governmental functions and services for the City;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That the County, and the City, in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the County agree to allow the U. S. Department of Housing and Urban Development to use the City's population and other necessary demographic characteristics in the determination of whether the County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

The City and the County acknowledge that this Cooperation Agreement covers both the Community Development Block Grant (CDBG) Entitlement Program and the HOME Investment Partnership Program; and

II.

The County and the City agree to cooperate in undertaking or assisting in undertaking, community renewal and lower income housing activities, specifically urban renewal and publicly assisted housing.

The City understands that it may not apply for grants under the small cities or State Community Development Block Grant Programs from appropriations during the period in which it is participating in the County's CDBG Program. The City further understands that it may not participate in a HOME consortium except through the County.

III.

The City and the County acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of Housing and Urban Development and that no determination has been made at the time of execution of this Agreement as to where and for what purposes funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such funds for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, the County may in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City has received no assurance, written or oral, from the County to the contrary, and is aware that the execution of this Agreement does not constitute any guarantee on the part of the County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

The City and the County acknowledge that failure by either party to adopt an amendment to the agreement incorporating all changes necessary to meet the requirements for cooperation agreements set forth in the Urban County Qualification Notice applicable for the year in which the next qualification of the urban county is scheduled shall automatically terminate the agreement following the expenditure of all CDBG funds allocated for use in the participating units jurisdiction.

IV.

This Agreement shall remain in full force and effect for the program years 1995 through 1997 (September 1, 1995 - August 31, 1998). The Agreement will be automatically renewed at the end of this period for consecutive three-year periods unless the Agreement is specifically terminated in writing by either party before the end of the County's three-year qualification period. The City and the County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit the County to allow the City and the County to withdraw from this Agreement or otherwise terminate the term of this Agreement at any time during the period covered by the Agreement.

Fort Bend County may, in its sole discretion, allow the City to retain program income provided that any and all such income may only be used for eligible activities in accordance with all CDBG requirements as may then apply. The City understands that Fort Bend County has the responsibility for monitoring income and reporting to HUD on the use of any such program income, and the City, therefore, agrees to meet such record keeping and reporting requirements as may be required by the County for this purpose. In the event of close-out or change in status of the City, any program income that is on hand or received subsequent to the close-out or change in status will be paid to Fort Bend County.

VIII.

The City agrees that program income generated from the disposition or transfer of real property prior to or subsequent to the grant close-out, change of status, or termination of this Agreement shall be treated according to 24 CFR 570.504.

IX.

The County and the City acknowledge that the County shall not fund activities in or in support of any city that does not affirmatively further fair housing within its jurisdiction or that impedes the County's actions to comply with fair housing laws and orders.

X.

The County and the City acknowledge that the City has adopted and is enforcing, to the extent authorized by state law, a policy prohibiting the use of excessive force by law enforcement agencies against any individuals engaged in non-violent civil rights demonstrations in the city. XI.

The City agrees and understands that pursuant to 24 CFR 570.501(b), it is subject to the same requirements applicable to sub-recipients, including the requirement of a written agreement as set forth in 24 CFR 570.503.

XII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this Agreement for any reason, the County may terminate this Agreement by giving written notice of the same to the City.

XIII.

The County and all cooperating units of general local government executing this Agreement agree that the County has authority to carry out activities which will be funded from annual Community Development Block Grants from Federal Fiscal Year appropriations and from any program income generated from the expenditure of such funds.

COOPERATION AGREEMENT

This Agreement, made and entered into by Fort Bend County, a body corporate and politic under the laws of the State of Texas, hereinafter sometimes referred to as "County", and the City of Kendleton, a municipal corporation under the laws of the State of Texas, hereinafter sometimes referred to as "City".

WITNESSETH:

WHEREAS, the City has elected to have its population included as a portion of that population to the County in the County's "urban county" application to the U. S. Department of Housing and Urban Development for funding for the Community Development Block Grant Program, said application being hereinafter sometimes referred to as the "Grant Application;" and

WHEREAS, the City's area and population are within the boundaries of Fort Bend County; and

WHEREAS, the County is willing to include all of the City's population in the Grant Application and to cooperate with the City in the implementation of the City's Community Development Program; and

WHEREAS, the County certifies that it is following an approved Comprehensive Housing Affordability Strategy; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at VTCA Local Government Code §373.001 et seq., which provides, in part, for the authorization of cities to implement a community development program; and

WHEREAS, the governing body of the County duly authorizes this Agreement; and

WHEREAS, the governing body of the City duly authorizes this Agreement; and

WHEREAS, the Texas legislature has further enacted "The Interlocal Cooperation Act," Chapter 791, Texas Government Code, which provides, in part, that the County may contract with the City to perform governmental functions and services for the City;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That the County, and the City, in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the County agree to allow the U. S. Department of Housing and Urban Development to use the City's population and other necessary demographic characteristics in the determination of whether the County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

The City and the County acknowledge that this Cooperation Agreement covers both the Community Development Block Grant (CDBG) Entitlement Program and the HOME Investment Partnership Program; and

II.

The County and the City agree to cooperate in undertaking or assisting in undertaking, community renewal and lower income housing activities, specifically urban renewal and publicly assisted housing.

The City understands that it may not apply for grants under the small cities or State Community Development Block Grant Programs from appropriations during the period in which it is participating in the County's CDBG Program. The City further understands that it may not participate in a HOME consortium except through the County.

III.

The City and the County acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of Housing and Urban Development and that no determination has been made at the time of execution of this Agreement as to where and for what purposes funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such funds for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, the County may in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City has received no assurance, written or oral, from the County to the contrary, and is aware that the execution of this Agreement does not constitute any guarantee on the part of the County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

The City and the County acknowledge that failure by either party to adopt an amendment to the agreement incorporating all changes necessary to meet the requirements for cooperation agreements set forth in the Urban County Qualification Notice applicable for the year in which the next qualification of the urban county is scheduled shall automatically terminate the agreement following the expenditure of all CDBG funds allocated for use in the participating units jurisdiction.

IV.

This Agreement shall remain in full force and effect for the program years 1995 through 1997 (September 1, 1995 - August 31, 1998). The Agreement will be automatically renewed at the end of this period for consecutive three-year periods unless the Agreement is specifically terminated in writing by either party before the end of the County's three-year qualification period. The City and the County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit the County to allow the City and the County to withdraw from this Agreement or otherwise terminate the term of this Agreement at any time during the period covered by the Agreement.

V.

In the performance of this Agreement, County and all cooperating units of general local government executing this Agreement agree to take all actions necessary to assure compliance with County's certification required by section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, including Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, section 109 of Title I of the Housing and Community Development Act of 1974, and other applicable laws.

VI.

The City agrees to inform Fort Bend County of any income generated by the expenditure of CDBG funds received by the City and that any such income shall be paid to Fort Bend County. Fort Bend County may, in its sole discretion, allow the City to retain program income provided that any and all such income may only be used for eligible activities in accordance with all CDBG requirements as may then apply. In the event of close-out or change in status of the City, any program income that is on hand or received subsequent to the close-out or change in status will be paid to Fort Bend County.

VII.

The City agrees and understands that the following terms and conditions will apply with regard to real property acquired or improved in whole or in part using CDBG funds that is within the control of the City during the term of this Agreement.

a) The City shall timely notify Fort Bend County of any modification or change in the use of property from that planned at the time of acquisition or improvement, including disposition.

IX.

The County and the City acknowledge that the County shall not fund activities in or in support of any city that does not affirmatively further fair housing within its jurisdiction or that impedes the County's actions to comply with fair housing laws and orders.

X.

The County and the City acknowledge that the City has adopted and is enforcing, to the extent authorized by state law, a policy prohibiting the use of excessive force by law enforcement agencies against any individuals engaged in non-violent civil rights demonstrations in the city. The City has adopted a policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of a non-violent civil rights demonstration within the City.

XI.

The City agrees and understands that pursuant to 24 CFR 570.501(b), it is subject to the same requirements applicable to sub-recipients, including the requirement of a written agreement as set forth in 24 CFR 570.503.

XII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this Agreement for any reason, the County may terminate this Agreement by giving written notice of the same to the City.

XIII.

RE: Lead-Based Paint Hazard Control in Priority Housing Grant Program 1994 Application.

Background

The 1994 Lead Hazard Control Grant Program provides grant funds to combat the hazards of lead poisoning, especially for children under the age of 6. This is the third consecutive year that funds will be awarded to assist State and local governments to initiate or expand programs and to evaluate and control lead-based paint hazards in priority housing. This is a competitive grant program and approximately 25 to 30 grants of $1 million to $6 million will be awarded.

Age of housing is the key variable for estimating the number of housing units with lead-base paint. In 1990, an estimated 25,189, or 32.68 percent, of the 77,075 total number of housing units in Fort Bend County contained lead-based paint. The housing units most at risk of lead-based paint hazards are those units which are deteriorated, particularly those with leaky roofs and plumbing and rehabilitated units where unsafe renovation practices were used. Only an evaluation of dust, soil, and/or deteriorated paint on accessible, friction, or impact surfaces will identify those housing units which contain lead-based paint hazards.

607LEAD

LEAD-BASED PAINT APPLICATION OUTLINE

(a) **Strategy (50 points)**--The quality and cost effectiveness of the proposed lead-based paint hazard control strategy. The strategy should include:

(1) **Hazard-Control Program (20 points)**--The hazard control program, including the selection of subgrantees and other subrecipients, abatement/hazard control methods and levels of treatment, the quality of prior abatement experience, especially for recipients of previous hazard control grants, financing mechanisms, community education, temporary relocation, and the degree to which the strategy focuses on households in priority housing with children under the age of 6 years.

(2) **Management and Budget Plan (10 points)**--A management and budget plan for the whole grant and for each major component funded directly from the grant. The plan shall include a year-by-year spreadsheet budget for the total grant, a task-by-task spreadsheet budget for the total grant, and an overall source and use of funds diagram. The source and use diagram amounts for grant use must agree with spreadsheet totals. Provide a year-by-year spreadsheet for each subtask shown on the diagram. The plan shall include an organization chart and a narrative describing how the parts of the grant program will be coordinated and managed. Provide a brief narrative for each major budget subtask and each functional cost element, explaining its planned use.

(3) **Identification, Inspection, and Testing of Priority Housing To Be Treated (8 points)**--The identification, inspection, and testing of priority housing to be treated. Housing recently inspected (within 12 months of grants) and identified prior to the date of the grant as having lead-based paint may be included.

(4) **Program For Education and Outreach To The Community (12 points)**--A program for education and outreach to the community on the hazards of lead-based paint, including blood screening of young children and, if necessary, referral for medical treatment.

(b) **Applicant Capacity and Commitment to Hazard Control (40 points)**--The capacity of the applicant to initiate and carry out the lead-based paint testing and hazard control program successfully within the time frames set forth in the NOFA. Show that the proposed staff skills match the proposed program of work described. Elements to be considered include:

The percentage of time of the project manager to be devoted to this project is a significant factor, and must be disclosed in the application.

(2) **Demonstrated Knowledge and Experience of the Staff Assigned to This Project (15 points)**--Demonstrated knowledge and experience of the staff assigned to this project in carrying out these undertakings, including the percentage of time each person will devote to the project.

(3) **Institutional Capacity Demonstrated (10 points)**--Institutional capacity, demonstrated by the experience and continuing capacity of the jurisdiction to initiate and implement similar environmental and housing projects. Applicant should describe previous related efforts and the current capacity of its agencies.

(c) **Applicant's Matching Contribution and Other Resources (10 points)**--At a minimum, the applicant shall provide a matching contribution of at least 10 percent of the requested grant sum. That contribution may be in cash or in kind. In kind contributions shall be given a monetary value. Community Development Block Grant funds may be considered part of the matching contribution, but only when they are specifically dedicated to an integral part of the project. This rating factor provides points only for additional resources that exceed the minimum required 10 percent match. Each source of contributions, both for the required minimum and additional amounts, shall be made in a letter of commitment from the funding entity, whether a public or private source, and shall describe the contributed resources that will be used in the program. Absence of required letters offering specific details will result in a reduced rating under this factor.

(d) **Community and Private Sector Participation (10 points)**

The extent to which the applicant has enlisted the broad participation of neighborhood, community, and nongovernmental organizations; the private sector; and other governmental units in the hazard control program through specific commitments of time, effort, and resources.

These commitments include consultation, marketing, fund-raising, and other economic lift activities, such as employment of lower-income neighborhood residents in the hazard control work.

Evidence of these commitments should income names and proposed roles of these participants, and plans for employment of lower-income residents. Absence of employment commitments and letters of participation will result in a reduced rating under this factor.

Bonus Points:

(a) Five (5) bonus points will be awarded if the applicant is either: a State or local government in a State in which there has been no previous award.

84 0121A

(b) The following five (5) bonus points also may be awarded to applicants that proposed credible and sustainable mechanisms to meet any of the following needs:

(1) The establishment of stable, long-term public and private sources of funds for State/local testing and hazard control (2 points);

(2) Land records tracking system. Applicants are encouraged to establish in their land records files a mechanism for recording and tracking in some detail the nature and location of prior lead-based paint hazard control activities by specific housing units (2 points); and

(3) The establishment of a State-level data collection mechanism to track all lead-based paint testing and hazard-control activities in the State (1 point).

RE: Commissioners Court Agenda Item
Four Corners/Pettit Road Water & Sewer Feasibility Study

Background

On July 20, 1993, Fort Bend County Commissioners Court approved the Community Development Block Grant (CDBG) Program's Final Statement of Objectives and Projected Use of Funds for fiscal year 1993. The County entered into an agreement with the U.S. Department of Housing and Urban Development on September 7, 1993 for the program year September 1, 1993 through August 31, 1994. Included in the grant was the Four Corners/Pettit Road Water and Sewer Feasibility Study.

On April 18, 1994, the County Purchasing Department issued a RFQ for professional engineering services to determine how the Four Corners/Pettit Road area can be most logically and efficiently served with water and sanitary sewer services. The County received twelve proposals in response to the RFQ. The County Engineering Office and Precinct 3 reviewed the RFQs and are recommending that the study be awarded to Pate Engineers, Inc.

Pate Engineers, Inc. is a full service civil engineering firm offering a complete range of professional services, including preliminary planning and feasibility analyses. The recommendation is being made based on the following:

- The firm's familiarity with the study area
- The firm's experience with the regional surface water plan to serve the areas adjacent to the study area

- The firm's experience with evaluating revenue sources and funding requirements for capital construction costs and on-going operations and maintenance costs of water and wastewater systems
- The firm's experience in developing a plan to supply surface water to an unincorporated area containing 14,000 acres

Request

Commissioners Court is requested to consider and approve Pate Engineers, Inc. for professional engineering services for the Four Corners/Pettit Road Water and Sewer Feasibility Study.

Honorable Roy L. Cordes, Jr.
County Judge
P. O. Box 368
Richmond, Texas 77469

Dear Judge Cordes:

On June 7, 1994, the Fort Bend County Juvenile Probation Department will be requesting an amendment to our 1994 Budget (018), Fees and Services Line Item (4010), for payment of projected residential care costs June through August of 1994. Attached are three (3) pages which detail funding resources and present budget balances. This request for funds was presented to the Juvenile Board on May 24, 1994 and they approved our department to approach Commissioners Court for an amendment to our budget in the amount of $108,000.00. This figure would represent payment of twenty (20) juveniles for ninety (90) days at an average cost of sixty dollars ($60.00) a day for residential placement services. As noted in page three, six (6) to eight (8) juveniles are waiting placement and these monies would only freeze the maximum number of juveniles placed at twenty (20). The majority of these youth would need to remain in detention pending discharge of successful youth presently in placement. It is estimated that if no new placements are added, there will be five (5) discharges by June 15, 1994. Therefore, to pay for these twenty (20) youth for fifteen (15) days and fifteen (15) youth for seventy-five (75) days, would require $85,500.00. We will continue to recommend commitment for appropriate youth to T.Y.C. before their respective courts. Thus far, thirteen (13) juveniles have been committed out of a cap of nineteen (19) allotted commitments for the year ending 31 August 94. The $108,000.00 is an educated guess based on historical information and present placements. Should Commissioners Court fund at either level, we may need to return to court if overages occur based on actual case by case needs, in particular for the juvenile with an acute problem.

It should be noted that there are multiple factors which have occurred to escalate residential cost. These factors are outlined at the bottom of page two. The first factor is, the Regional Council no longer has State General Revenue Account (GRA) monies to pay for substance abuse residential care. Over the past four years, the probation department was able to access over $500,000.00 through Fort Bend Regional to supplement residential costs. These funds are no longer in existence.

Secondly, treatment facilities are now requesting formalized contracts to supplement their budget constraints due to reduced revenue from other profits and non-profit entities. Third, parent pay insurance is no longer a viable resource for extended residential care. Many policies and even Medicaid will only provide one to four weeks of care. Fourth, some juvenile offenders are becoming more seriously disturbed and violent, thus requiring more long term residential care than in the past. And finally, due to T.Y.C. commitment targets, more of the burden for residential care has to be handled by local Probation Departments state wide.

In closing, I would like to highlight one positive aspect of our department. In light of a dramatic growth rate, the Fort Bend County Juvenile Probation Department has been able to maintain one of the lowest recidivism rates in the State over the past six years. As we continue to plan for the future, our goal is to always strive to create positive change in the juvenile offender, in the least restrictive environment while protecting the general public.

Your consideration of these requested funds are appreciated.

Respectfully yours,

Dennis A. McAfee

PLACEMENT PERCENTAGES

AS PER ORIGINAL

County (Fees & Services)

Approximately $70,000.00 has been allocated for placement purposes out of this line item. Due to the increased number of juveniles placed, this line item has a remaining balance of $14,216.49 to pay for all miscellaneous costs for juveniles through December '94.

Texas Juvenile Probation Commission (T.J.P.C.)

Two funding sources were used to pay for Residential Care, State Aid (Residential) and C.C.A.P. (Residential). Allocations for both total $145,501.00. These funds were exhausted by April '94.

Performance Reward

These funds were recently approved from the State for use in juvenile residential placement. $46,773.00 was received in April '94 and will be exhausted by June 1,'94.

Parental Pay

These placements were funded privately with parent's insurance coverage. Placements ranged from psychiatric hospitals to residential treatment centers.

T.C.A.D.A. Funded

The Texas Commission on Alcohol and Drug Abuse (T.C.A.D.A.) was the primary funding source on these placements. They consisted of residential treatment centers such as Adolescent Alternatives, Odessey House, Houston Recovery Campus and Adams House which treats chemically dependent youth. An estimated placement cost of $148,500.00 has been extrapolated for those juveniles placed under Court Order.

State/Federal Funded

These State funded placements were at Vernon State Hospital and Job Corps. One treats chemical dependency and the other is a Federally funded vocational training program.

* Placement cost have been increased due to several factors. One, the Fort Bend Regional Council no longer has GRA money to place youth in chemical dependency treatment. Two, treatment facilities are now requesting contract money to supplement their budget constraints such as Adolescent Alternatives and Odessey House. Three, parent pay insurance will now only stabilize a child in residential care and will not provide any long-term coverage. Four, the type of juvenile offender is becoming more severe, thus requiring more longer term residential care than in the past. And finally, due to the T.Y.C. committment targets, more burden for residential care is placed upon the local Juvenile Probation Department.

Presently, twenty (20) juveniles are in County funded placement. In addition, six (6) to eight (8) juveniles in detention are pending placement over the next thirty (30) days. It is estimated that all funding for residential care will be exhausted by the end of May '94. Therefore, in order to keep the present level of service for these twenty (20) juveniles, it would cost approximately $ 108,000.00 for the placement months of June, July and August, by freezing placements. If the additional six (6) to eight (8) juveniles are placed, the cost estimation would be $ 145,800.00 for three months.

In regards to Non-Residential Placement cost, it is estimated that program bills will be able to be paid through August '94. Additional funding can be allocated in the State Aid budget to accommodate September '94 - December '94.

COUNTY PURCHASING AGENT

SUBJECT: Contract Cancellation Oil and Lubricants Bid #94-044 - O'Rourke Petroleum Corporation and Specialty Oil Company

DATE: June 6, 1994

Our contract for the above subject matter specifies that repackaged products will **not** be accepted. O'Rourke Petroleum Corporation and Specialty Oil Company have both tried to deliver repackaged products. These deliveries were refused and the orders were consequently placed with the next low bidder meeting specifications.

It is our recommendation that the Court cancel our contract with both companies and authorize the purchase of needed products from the next low bidder meeting specifications.

Mr. Gilbert D. Jalomo, Jr., CPPB
County Purchasing Agent
Fort Bend County
500 Liberty Street, Suite 103
Richmond, Texas 77469

Dear Mr. Jalomo,

Per our telephone conversation of June 3, I would like to state for the record that Specialty Oil is not a "re-packager" of any of the remaining items we won on Fort Bend Countys' Bid #94-044 according to Fort Bend Countys' definition of a "re-packager". I have listed these items on the enclosure.

I would like to apologize for the confusion regarding this situation. Specialty Oil Co. is licensed by many oil companies, including Chevron, Shell, and Quaker State to package its product in 55-gallon drums, as well as other sized packages. As a result, I did not consider our Chevron product as being "re-packaged".

Nevertheless, we would appreciate the opportunity to remain the vendor on the remaining products we won bids on and will bid accordingly when the next opportunity arrives.

Thank you for your consideration, and please call if you have any questions regarding this matter.

Yours truly,

Jeff Anderson

Re: 1994 Small Business Administration Tree Planting Grant Program

Recently, Congress appropriated $18 million to the U.S. Small Business Aministration (SBA) to continue its nationwide tree planting program in fiscal year 1994. The purpose of the program is to improve the environment by utilizing small businesses to plant trees on land owned or controlled by state or local governments. In Texas, the program is administered by the Texas Forest Service. Last year, Texas received $1,992,181 in federal funds, which was matched with $2,255,578 from 160 cooperators to plant over 18,000 trees.

This year, there will be a $1,000 minimum and a $20,000 maximum on the size of the grant to an individual project. Applicants are strongly encouraged to provide twenty-five percent (25%) or more of the project cost in cash, from non-federal sources. The remainder of the local match may come from in-kind services or donations and should equal twenty percent (20%) or more of the project. Private small businesses employing less than 100 people must provide and plant the trees.

25% local match + 20% in kind

Grants will be funded based on the priority system explained in the attached Grant Application Guide. These criteria include local cash contribution, total local participation, project location, species selection, involvement of small businesses, and review by a TFS forester. The Grants Committee of the Texas Urban Forestry Council will review all requests and make recommendations to me as to the projects and the amounts to be funded.

Completed grant application packets must be in to our College Station office no later than 5:00 p.m., Friday, March 4, 1994. The program Guide explains the procedures for making application and all eligibility requirements. If you have further questions, please contact the Texas Forest Service forester nearest you or our urban forestry grants administrator at 409/845-2641.

Dear Mr. Watson:

Earlier this month, we sent a consolidated grant proposal to the Small Business Administration (SBA) in Washington, D.C. The Grants Committee of the Texas Urban Forestry Council worked with us to select projects to be included in the grant package. Some projects were recommended for full funding, while other projects were chosen based on a reduced level of funding. Your organization was represented in the Texas grant proposal as follows:

Grant Number: 94-07-05
Project Name: Kitty Hollow Park-Fort Bend County-Project A
SBA Grant Amount: $19,000
Total Match Amount: $16,000 Local Cash Contribution: $5,000

Please bear in mind that the recommendation of your project by the Texas Forest Service (TFS) and the Texas Urban Forestry Council does not guarantee that federal funds will be awarded. Technically, TFS receives the grant from SBA, and each of the projects is funded as a sub-grant from TFS. We won't be able to confirm the amount of your grant until SBA gives us official notification, which may be several months away. However, in previous years SBA has accepted our grant proposal in its entirety, making no changes to individual projects.

In the meantime, there are some things that you should and should not do. First and foremost, you should not spend any money on the project now. We will not accept local match expenditures made before a formal contract has been signed. If necessary as part of your match, local resources may be spent developing the planting plan, but this expense must be written into our contract specifically. Otherwise, don't begin work on the project and don't make any commitments to nurseries or landscape contractors that you could not honor should federal grant funds fall through.

84 0216

AS PER ORIGINAL

If you have not done so as part of the application process, schedule a time to review the project with the TFS forester in your area. All technical aspects of the project should be in compliance with our planting and maintenance guidelines, as detailed in Sections II. and III. of the 1994 Application Guide. Pay attention to tree spacing and location, the list of species, and the maintenance plan. Irrigation systems must provide water to individual trees (tree bubbler or drip systems) and a small business contractor must plant the trees. Any variance from the guidelines must be requested in writing and approved by the program administrator.

In the next month or so, we will send you a packet of information detailing the steps to take prior to the beginning of planting season this fall. Included in the packet will be a description of our bidding requirements, sample bid specifications, sample resolutions, and cost documentation guidelines and forms. We will also be issuing contracts between your organization and ours detailing the payment terms, performance criteria, and other formal federal requirements, which include federal auditing requirements if you are receiving over $25,000 in total federal grant funds. Our goal is to have these grant agreement contracts fully executed by November 1, so that you will have six months to plant the trees.

Again, congratulations on your selection as a 1994 SBA tree planting grant recipient. If you have any questions or need more information, please contact me in College Station at 409/845-2641.

Sincerely,

Peter D. Smith

The Honorable Roy L. Cordes, Jr., County Judge
and Members of the Commissioners Court
Fort Bend County, Texas

This letter will confirm our understanding of services we are to provide to Fort Bend County, Texas which primarily include assistance and review services to the Sheriff's Department regarding employee FLSA deferred/comp/holiday/sick/vacation time balances ("compensated time") for the year ended December 31, 1993. This letter agreement is basically an addendum to existing agreements dated February 4 and April 5, 1994 which have been previously approved by the Court.

Additional services to be provided will include like services outlined in the previously approved letter agreements. Based on discussions with the County Judge and County Auditor, the fees for our additional involvement on the project and related activities should not exceed $12,000. This estimates includes 250 to 300 hours of time to be spent by our professional staff. This estimate has been made based on discussions with the above parties and includes assumptions regarding existing circumstances and the Court's position on employee absence policies for the Sheriff's Department. If these assumptions change significantly, we will discuss it with you and arrive at a new fee estimate before spending additional manpower and associated costs on the project.

We appreciate the opportunity to be of service to Fort Bend County, Texas and believe this letter accurately summarizes significant terms regarding our involvement on this special project. If you have any questions, please let us know. If you agree with the terms of this letter agreement, please sign the enclosed copy and return it to us.

Fort Bend County, Texas

This letter will confirm our understanding of services we are to provide to Fort Bend County, Texas which primarily include assistance and review services to the Sheriff's Department regarding employee FLSA deferred/comp/holiday/sick/vacation time balances ("compensated time") for the year ended December 31, 1993. This letter agreement is basically an addendum to existing agreements dated February 4 and April 5, 1994 which have been previously approved by the Court.

Additional services to be provided will include like services outlined in the previously approved letter agreements. Based on discussions with the County Judge and County Auditor, the fees for our additional involvement on the project and related activities should not exceed $12,000. This estimates includes 250 to 300 hours of time to be spent by our professional staff. This estimate has been made based on discussions with the above parties and includes assumptions regarding existing circumstances and the Court's position on employee absence policies for the Sheriff's Department. If these assumptions change significantly, we will discuss it with you and arrive at a new fee estimate before spending additional manpower and associated costs on the project.

We appreciate the opportunity to be of service to Fort Bend County, Texas and believe this letter accurately summarizes significant terms regarding our involvement on this special project. If you have any questions, please let us know. If you agree with the terms of this letter agreement, please sign the enclosed copy and return it to us.

Sincerely,

Null + Associates, P.C.

When provided under this Agreement, such Correction will be provided without additional charge. Micro Focus reserves the right to discontinue Maintenance Services without notice on a past workaround, support release, update disk or immediate correction disk, or electronic transfer equivalent, component replacement, patch or other form of Correction after a subsequent major upgrade release, support release, or update disk or electronic transfer equivalent containing a Correction of the Discrepancy is available.

You agree to report all suspected Discrepancies through your Support Contact to your designated Micro Focus Product Support staff. Reports will include the minimum length COBOL source code sufficient for Micro Focus to reproduce the suspected Discrepancy. Failure to provide this minimum length COBOL source code may cause delays in responding to the Discrepancy. An operational script may be sufficient if the problem is not of a COBOL language nature.

You agree to use reasonable efforts to assist Micro Focus' efforts to find Corrections to confirmed Discrepancies reported by you.

You agree to install and use the newest release or change disk for the Maintained Software sent to you by Micro Focus within thirty (30) days of receipt.

9. ADDITIONAL SERVICES AND CHARGES

Micro Focus may offer additional services such as training and consulting under separate agreements. Such services can be performed at a site and time mutually agreeable.

These services are normally charged on a time and materials basis plus expenses and are subject to availability.

Micro Focus reserves the right to charge for services outside of the range of normal support services. Such services considered outside of the range of normal support services are (1) debugging application coding errors in a customer's application, (2) debugging problems in non-Micro Focus supported products, or in combinations of Micro Focus supported and non-supported products where the problem occurs in the non-Micro Focus product, and (3) other cases where it is judged highly likely that the suspected problem is not the responsibility of Micro Focus.

When a situation occurs where a reported problem is likely to fall outside of the range of supported services, you will be advised of the potential of incurring charges to have Micro Focus work on the problem. An estimate of the cost of the additional service will be prepared and delivered to you, by appropriate means, for your approval and agreement. Should we find that the problem is, indeed, caused by a supported product, no charges will be incurred. However, if it is proven that the problem is not the responsibility of Micro Focus, you will be charged for the time spent at the rates specified in the estimate/service agreement. Should you not agree that the requested service falls out of the bounds of supported services, your Micro Focus sales person will be your representative at Micro Focus to mediate the issue for you.

Micro Focus, upon prior notice, reserves the right to charge for unusual or excessive support person time or telephone expenses in connection with the Maintenance Services provided under this Agreement. Reasonable shipping, handling, media and user documentation charges in connection with the provision of upgrades and services shall be payable by you.

10. PAYMENT

The annual Maintenance Fee must be paid in advance. The Maintenance Fee is as determined in the Micro Focus Price List as of the date of invoice.

11. TERM AND TERMINATION

This Agreement will be effective and services provided hereunder will commence as of the completion of Micro Focus' 1) acceptance of payment of the appropriate Maintenance Fee or initial product purchase price, if applicable; 2) registration of this Agreement on receipt of the Maintenance Registration Form you have submitted; and 3) ascertaining proof of proper license for the Software designated on the Maintenance Registration Form. The services provided hereunder will cease on the last day of the Maintenance Period which is one year from the commencement of services under this Agreement. The Maintenance Period commences as determined in the Micro Focus Price List as of the date of product purchase, maintenance renewal or maintenance commencement, as appropriate. Micro Focus may change the Maintenance Fee without notice which fee shall become effective upon renewal of this Agreement.

This Agreement will remain in effect unless terminated upon fifteen (15) days written notice by either party by reason of any violation of the terms and conditions of this Agreement.

Forty-five (45) days prior to the termination of the Maintenance Period, Micro Focus will invoice you for the next year's renewal of the Maintenance Program. To register for a further year of maintenance under this Agreement, simply pay the invoice and you will continue to receive maintenance services.

If you allow your maintenance to expire, you must purchase an upgrade to the current version of the product, in order to register for a new maintenance period. If you have previously received the current upgrade version, the start of the new maintenance period will be backdated to begin on the date that the previous maintenance period expired. You must then fill out a Maintenance Program Registration Form and return it to:

Micro Focus
Attn: Customer Service Department
2465 East Bayshore Road
Palo Alto, California 94303

You will then receive an invoice for the appropriate amount. Simply pay the invoice and your maintenance will be renewed. If you do not have a Maintenance Program Registration Form then call your Account Representative and one will be sent to you. Micro Focus reserves the right to withdraw maintenance services on any or all Maintained Software or other products, and to alter the prices, terms, and conditions of the Maintenance Program, in advance of any maintenance renewal. Any such withdrawal or alterations will amend the Maintenance Program between you and Micro Focus as of your next renewal date.

12. MISCELLANEOUS

You may not assign this Agreement to a third party without the prior written consent of Micro Focus. This Agreement and the Micro Focus End User Software License Agreement shall be the only Agreements between Micro Focus and you with respect to the Maintained Software. They cannot be modified except in writing and with the approval of both parties. These Agreements supersede all prior agreements, oral or written, relating to the Maintained Software. The laws of California shall govern the validity of these Agreements, the construction of their terms and the interpretation of the rights and duties of the parties.

Dear Sir:

We had purchased the above property from Internal Revenue Service and filed the deed papers for record on April 27, 1993 in Fort Bend County Clerk's Office. Since that date we have not received any notice of appraisal or any delinquency notice . We also did not receive any notice or bill for 1993 taxes until April 19, 1994 and that also after we called Ms. Linda Starkweather (copy of her letter attached). It appears that the Appraisal District did not notify the taxing authorities of the new ownership even though we had notified the appraisal district via phone when we recorded the deed papers in county. At that time we were told that their research people will go to county records and if our deed is recorded then they will update their files and we should not have any problem in getting our tax bills. As I understand after talking to Linda, appraisal district had not updated their files and I had to fax her a copy of the deed (attached) before she will mail me the 1993 tax statement.

Since we did not receive any notice or bill, I request for a waiver of interest and penalty. Why should we be penalized for the errors made by appraisal district? As a proof that appraisal district made an error, I am submitting a copy of the deed showing the date it was filed for record, and a copy of the paid receipt showing that account is paid in full. Please forward the refund to the above address.

If you have any questions, please contact me at 277-1684 or write to me at the above address.

Thank you.

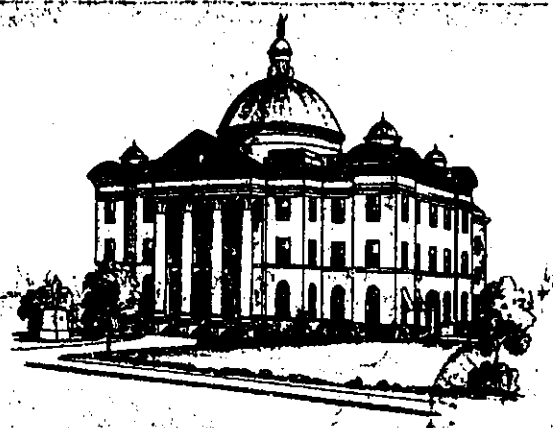

Sincerely,

R. Pate

Dear Judge Cordes:

Before utilizing the new Juvenile Probation Department courtroom the Juvenile Board is requesting, as per Sec. 292.004(c) of the Local Government Code, that the courtroom be designated by Commissioner's Court as an auxiliary courthouse for the conduct of the business of the judiciary of the county.

This properly addresses the correct wording needed by adding the word "auxiliary" and removing the word "official". See Subsection (c) under 292.004 attached.

Your consideration for this request would be greatly appreciated.

Sincerely,

Dennis A. McAfee

Designation of SH 36 Bypass
Fort Bend County

Contact: JRS

Hon. Roy L. Cordes, Jr.
County Judge, Fort Bend County
P. O. Box 368
Richmond, Texas 77406-0148

Dear Judge Cordes:

As you may be aware, a bypass from north SH 36, 5.2 miles west of Rosenberg, to south SH 36 south of Pleak will be constructed in the future. At this time, only the portion from north SH 36 to US 59 will be constructed. With this new construction comes the task of designating this new section of highway.

After reviewing the alternatives, the Texas Department of Transportation is proposing that the new bypass from SH 36 north to US 59 be designated as Spur 10 and that the old section of SH 36 from the bypass remain the same at this time. Until the complete bypass is constructed, we feel that this routing would be less confusing to the traveling public. We have included a map for your review.

At such time when the remainder of the bypass is constructed, we propose to designate the completed bypass as SH 36 and the old section as Business SH 36.

To proceed with this designation, we require a letter of concurrence with this proposal from Fort Bend County. We would appreciate your reply by June 17, 1994, if possible.

If you require further information or have any questions, please contact Ms. Liz Gerstenberger of my office at 713/802/5567.

RE: NEW QUARTERS FOR CONSTABLE AND JUSTICE OF PEACE
PRECINCT 3, SUGAR LAND, TEXAS

Dear Judge Cordes & Commissioner Pressley:

We are in the final completion of the design for bidding on the project in question. Project will be ready for your addition of general conditions and placing for bids by the end of this week.

We are enclosing an updated cost estimate of the work which reflects a $72,725.00 increase in our original estimate last February. This increase is brought about by enlargement in scope of work in the following areas.

(3) New Partitions (incl. doors and hardware)
(5) New lay in ceiling (incl. 9" insulation above ceiling)
(10) New lighting and power (incl. security system)
(11) New heating A/C & vent (additional A/C unit required)
(12) New addition of foyer and public toilets (50% increase)

Our total estimate of cost is presently $231,725.00. this equates to $33.78 a s/f for 6,860 s/f of building. This estimate does not include JP Bench and Jury Box or Parking Lot improvements.

We also respectfully request a $5,000 increase in our A&E fee to compensate for the additional work required to gather existing conditions because of lack of documents showing same, and for additional time required scoping the work with the two Users.

Original Agreement L/S	$11,500.00
Added Scope Change L/S	5,000.00
Total A&E Fee	$16,500.00

We recommend placing the project for bidding. If the low bid price exceeds the owners budget, we will make changes to contract documents, as required to get project within owners budget.

Sincerely,

T. Leo Dawsey, Jr.

Re: Demand letter for emergency medical services rendered
Our File No.: 4131 BOEP 2

Dear Mr. Childers:

I have enclosed a check for $209.40 to Fort Bend County EMS for services which were provided February 12, 1994. I am sorry that this bill has become past due. Melanie Shirkey was injured on February 12, 1994 while she was shopping at Wal-Mart, when store shelves collapsed and fell on her. The bills were not paid in a timely manner due to confusion on the part of the claims department at Wal-Mart. Representatives of Wal-Mart assured Melanie's mother that the medical bills would be paid immediately. The bills were sent to the Wal-Mart claims department; however, due to department misrouting of the bills, Mr. and Mrs. Patrick Boehm were not reimbursed for the medical bills until May 26, 1994.

Please accept this check as payment in full of the Fort Bend EMS bill, and I would appreciate it if you could sign the attached release form and return it to my office in the enclosed self-addressed envelope.

Very truly yours,

RE: Professional service exemption to the competitive bid process.

Gentlemen,

In 1993 the County Attorney's Office issued the attached opinion stating that Psychiatry, Psychological Evaluations and Counseling Service were exempt from formal competitive bidding pursuant to §262.024(4) personal and professional services. The Court consequently followed the opinion issued and ordered these services exempt in the case of Juvenile Probation.

On Tuesday, June 14, 1994 I will appear before the court seeking the same type of exemption for these service as they apply to the Adult Community Supervision and Corrections Department. Should you have any questions please call.

Sincerely,

Gilbert D. Jalomo, Jr.

RE: **Juvenile Probation Services Agreements**

Dear Mr. Jalomo:

In your enclosed letter you have asked whether certain Juvenile Probation Department Services are exempt from the Competitive bidding statute. Psychiatry, Psychological Evaluations and Counseling Services are exempt pursuant to §262.024(4) personal and professional services. Attorney General's Opinion JM-940 (1988) defines professional services as:

> . . . it comprehends labor and skill that is predominantly mental or intellectual * * * requiring special knowledge or attainment and a high order of learning, skill and intelligence . . .

The Fort Bend County Juvenile Probation Office relies upon guidelines for the juvenile services developed by the Criminal Justice Division of the Governor's Office. A portion of the guidelines appear to require competitive bidding. They read in §IID1 as follows:

> Availability of contracts to purchase juvenile services shall be advertised annually through a competitive procurement process . . .

Jim Kester, the Program Manager and author of the guidelines, said the purpose of the above mentioned section is to "openly announce the requirements to all eligible service providers not to dictate to counties how procurement is to be accomplished." He said further that Texas Counties have given an opportunity to eligible service providers by informal notice as well as the more formal process under the Chapter 262, Texas Local Government Code.

It was suggested that the Residential Placement Contracts might be exempt from competitive bidding under the personal service provision of §262.024. That section applies if the service provider is a specific person (JM-486) 1986. It is my understanding the Agreement for residential services is with Riceland Regional Mental Health authority and other agencies not with specific people.

It is the opinion of this office that the agreements for Psychiatric, Psychological Evaluations and Counseling services are exempt from competitive bidding pursuant to §262.024(4). The Agreement for Residential Services fails to meet the requirements of the exemptions.

Very truly yours,

RE: Professional services exemption to the competitive bid process.

Gentlemen,

The County currently has a contract with Harry E. Fritz for consulting services at the landfill. On May 24th the Court ordered that this contract be amended. I am now in receipt of a request from our County Engineer to modify the purchase order issued to Harry E. Fritz by $20,222.50.

Statutorily, Commissioners Court is responsible for all purchases exceed $15,000 and required to be made on competitive bid; this contract now will exceed this limit. I recommend the Court deem the services provided by this contract as being "professional services" and grant an exemption to the competitive bid requirements as authorized by §262.024(a)(4) for a personal or professional service.

I will appear before the Court on Tuesday, June 14, 1994 seeking your favorable consideration of this request.

Sincerely,

Gilbert D. Jalomo, Jr.

AGENDA ITEM #
26 (1)

June 8, 1994

Each Member, Commissioners Court
Fort Bend County, Texas

RE: Automated fuel management system.

Gentlemen,

On April 12, 1994 the court approved specifications and authorized advertising for proposals for the above referenced system. After many hours of evaluating the proposals submitted and meeting with the top three offerers, we determined that the system proposed by Engineered Systems Incorporated would best suit the needs of Fort Bend County.

The fuel system evaluation team was composed of the following county employees:

Mr. Sid McArthur, Vehicle Maintenance
Mr. Jim Booth, Precinct 2
Mr. Marc Grant, Precinct 4
Mr. Gilbert Jalomo, Purchasing
Mr. Dale Zwahr, Precinct 1
Mr. Tom Sparkman, Precinct 3
Mr. Marc Gadway, Drainage District
Mr. Chuck Miller, MIS (technical advisor)

The team evaluated each locations present as well as future needs with particular interest placed on reporting capabilities and security. The ESI system proved to be the most advantageous system available to the County at the lowest cost. Attached for your perusal is a cost breakdown for the proposed system and the equipment required at each location.

On Tuesday, June 14, 1994 we plan to appear before the court seeking approval to enter into contract negotiations with ESI. Your favorable consideration of our request is greatly appreciated.

Sincerely,

Gilbert D. Jalomo, Jr.

12. SAFETY WARRANTY: Seller warrants that the product sold to Fort Bend County shall conform to the standards promulgated by the U.S. Department of Labor under the Occupational Safety and Health Act of 1970. In the event the product does not conform to OSHA standards, the County may return the product for correction or replacement at the Seller's expense. In the event Seller fails to make the appropriate correction within 10 days, correction made by the County will be at Seller's expense.

13. NO WARRANTY BY FORT BEND COUNTY AGAINST INFRINGEMENTS: As part of a contract for sale Seller agrees to ascertain whether goods manufactured in accordance with the specifications will give rise to the rightful claim of any third person by way of infringement. Fort Bend County makes no warranty that the production of goods according to the specification will not give rise to such a claim and in no event shall Fort Bend County be liable to Seller for indemnification in the event the Seller is sued on the grounds of infringement or the like. If Seller is of the opinion that an infringement will result, he will notify Fort Bend County to this effect in writing within two days after the receiving Purchase Order. If the County does not receive notice and is subsequently held liable for the infringement, Seller will defend and save the County harmless. If Seller in good faith ascertains that production of the goods in accordance with the specifications will result in infringement, this contract shall be null and void except that the County will pay Seller the reasonable cost of his search as to infringements.

14. RIGHT OF INSPECTION: The County shall have the right to inspect the goods at delivery before accepting them.

15. CANCELLATION: Fort Bend County shall have the right to cancel for default all or any part of the undelivered portion of an order if Seller breaches any of the terms hereof including warranties of Seller, or if the Seller becomes insolvent or files for protection under the bankruptcy laws. Such rights of cancellation is in addition to and not in lieu of any other remedies which Fort Bend County may have in law or equity.

16. TERMINATION: The performance of work under a Purchase Order may be terminated in whole or in part by the County in accordance with this provision. Termination of work thereunder shall be effected by the delivery to the Seller of a "Notice of Termination" specifying the extent to which performance of work under the order is terminated and the date upon which such termination becomes effective. Such right of termination is in addition to and not in lieu of rights of Fort Bend County set forth in Clause 15 herein.

17. FORCE MAJEURE: "Force Majeure" means a delay encountered by a party in the performance of its obligations under this Agreement, which is caused by an event beyond the reasonable control of that party. Without limiting the generality of the foregoing, "Force Majeure" shall include but not be restricted to the following types of events: acts of God or public enemy; acts of governmental or regulatory authorities; fires, floods, epidemics or serious accidents; unusually severe weather conditions; strikes, lockouts, or other labor disputes; and defaults by subcontractors. In the event of a Force Majeure, the affected party shall not be deemed to have violated its obligations under this Agreement, and the time for performance of any obligations of that party shall be extended by a period of time necessary to overcome the effects of the Force Majeure, provided that the foregoing shall not prevent this Agreement from terminating in accordance with the termination provisions. If any event constituting a Force Majeure occurs, the affected party shall notify the other parties in writing, within twenty-four (24) hours, and disclose the estimated length of delay, and cause of the delay.

18. ASSIGNMENT-DELEGATION: No right or interest in an order shall be assigned or delegation of any obligation made by Seller without the written permission of Fort Bend County. Any attempted assignment or delegation by Seller shall be wholly void and totally ineffective for all purposes unless made in conformity with this paragraph.

19. WAIVER: No claim or right arising out of a breach of any contract can be discharged in whole or in part by a waiver or renunciation of the claim or right unless the waived or renunciation is supported by consideration and is in writing signed by the aggrieved party.

20. MODIFICATION: A Purchase Order can be modified or rescinded only by a writing signed by both of the parties or their duly authorized agents.

21. PAROL EVIDENCE: This writing is intended by the parties as a final expression of their agreement and is intended also as a complete and exclusive statement of the terms of this agreement. No course of prior dealings between the parties and no usage of the trace shall be relevant to supplement or explain any terms rendered under this agreement and shall not be relevant to determine the meaning of this agreement even though the accepting or acquiescing party has knowledge of the performance and opportunity for objection. Whenever a term defined by the Uniform Commercial Code is used in this agreement, the definition contained in the Code is to control.

22. APPLICABLE LAW: This agreement shall be governed by the Uniform Commercial Code. Whenever the term "Uniform Commercial Code" is used it shall be construed as meaning the Uniform Commercial Code as adopted in the State of Texas and in effective on the date of the purchase order.

23. ADVERTISING: Seller shall not advertise or publish, without the County's prior consent the fact that Fort Bend County has entered into any contract, except to the extent necessary to comply with proper requests for information from an authorized representative of the federal, state, or local government.

24. RIGHT TO ASSURANCE: Whenever the County in good faith has reason to question the other party's intent to perform. The County may demand that the other party give written assurance of his intent to perform. In the event that a demand is made and no assurance is given within five (5) days, the County may treat this failure as an anticipatory repudiation of the contract.

25. VENUE: Both parties agree that venue for any litigation arising from this contract shall lie in Richmond, Fort Bend County, Texas.

26. PROHIBITION AGAINST PERSONAL INTEREST IN CONTRACTS: No officer or employee of the County shall have a financial interest, direct or indirect, in any contract with the County, or shall be financially interested, directly or indirectly, in the sale to the County of any land, materials, supplies, or service, except on behalf of the County as an officer or employee. Any willful violation of this section shall constitute malfeasance in office, and any officer or employee guilty thereof shall be subject to disciplinary action under applicable laws, statutes and codes of the State of Texas. Any violation of this section, with the knowledge, expressed or implied of the person or corporation contracting with the County shall render the contract involved voidable by the County Commissioners Court.

§
COUNTY OF FORT BEND §

COOPERATION AGREEMENT

This Agreement, made and entered into by Fort Bend County, a body corporate and politic under the laws of the State of Texas, hereinafter sometimes referred to as "County", and the City of Rosenberg, a municipal corporation under the laws of the State of Texas, hereinafter sometimes referred to as "City".

WITNESSETH:

WHEREAS, the City has elected to have its population included as a portion of that population to the County in the County's "urban county" application to the U. S. Department of Housing and Urban Development for funding for the Community Development Block Grant Program, said application being hereinafter sometimes referred to as the "Grant Application;" and

WHEREAS, the City's area and population are within the boundaries of Fort Bend County; and

WHEREAS, the County is willing to include all of the City's population in the Grant Application and to cooperate with the City in the implementation of the City's Community Development Program; and

WHEREAS, the County certifies that it is following an approved Comprehensive Housing Affordability Strategy; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at VTCA Local Government Code §373.001 et seq., which provides, in part, for the authorization of cities to implement a community development program; and

WHEREAS, the governing body of the County duly authorizes this Agreement; and

WHEREAS, the governing body of the City duly authorizes this Agreement; and

WHEREAS, the Texas legislature has further enacted "The Interlocal Cooperation Act," Chapter 791, Texas Local Government Code, Tex. Rev. Civ. Stats., which provides, in part, that the County may contract with the City to perform governmental functions and services for the City;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That the County, and the City, in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the County agree to allow the U. S. Department of Housing and Urban Development to use the City's population and other necessary demographic characteristics in the determination of whether the County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

The City and the County acknowledge that this Cooperation Agreement covers both the Community Development Block Grant (CDBG) Entitlement Program and the HOME Investment Partnership Program; and

II.

The County and the City agree to cooperate in undertaking or assisting in undertaking, community renewal and lower income housing activities, specifically urban renewal and publicly assisted housing.

The City understands that it may not apply for grants under the small cities or State Community Development Block Grant Programs from appropriations during the period in which it is participating in the County's CDBG Program. The City further understands that it may not participate in a HOME consortium except through the County.

III.

The City and the County acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of Housing and Urban Development and that no determination has been made at the time of execution of this Agreement as to where and for what purposes funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such funds for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, the County may in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City has received no assurance, written or oral, from the County to the contrary, and is aware that the execution of this Agreement does not constitute any guarantee on the part of the County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

The City and the County acknowledge that failure by either party to adopt an amendment to the agreement incorporating all changes necessary to meet the requirements for cooperation agreements set forth in the Urban County Qualification Notice applicable for the year in which the next qualification of the urban county is scheduled shall automatically terminate the agreement following the expenditure of all CDBG funds allocated for use in the participating units jurisdiction.

IV.

This Agreement shall remain in full force and effect for the program years 1995 through 1997 (September 1, 1995 - August 31, 1998). The Agreement will be automatically renewed at the end of this period for consecutive three-year periods unless the Agreement is specifically terminated in writing by either party before the end of the County's three-year qualification period. The City and the County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit the County to allow the City and the County to withdraw from this Agreement or otherwise terminate the term of this Agreement at any time during the period covered by the Agreement.

The City and the County acknowledge that this Agreement remains in effect until the CDBG and HOME funds and income received with respect to the three- year qualification period and any successive qualification periods are expended and the funded activities completed and that the County and City may not terminate or withdraw from the Agreement while the Agreement remains in effect.

V.

In the performance of this Agreement, County and all cooperating units of general local government executing this Agreement agree to take all actions necessary to assure compliance with County's certification required by section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, including Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, section 109 of Title I of the Housing and Community Development Act of 1974, and other applicable laws.

VI.

The City agrees to inform Fort Bend County of any income generated by the expenditure of CDBG funds received by the City and that any such income shall be paid to Fort Bend County. Fort Bend County may, in its sole discretion, allow the City to retain program income provided that any and all such income may only be used for eligible activities in accordance with all CDBG requirements as may then apply. The City understands that Fort Bend County has the responsibility for monitoring income and reporting to HUD on the use of any such program income, and the City, therefore, agrees to meet such record keeping and reporting requirements as may be required by the County for this purpose. In the event of close-out or change in status of the City, any program income that is on hand or received subsequent to the close-out or change in status will be paid to Fort Bend County.

XII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this Agreement for any reason, the County may terminate this Agreement by giving written notice of the same to the City.

XIII.

The County and all cooperating units of general local government executing this Agreement agree that the County has authority to carry out activities which will be funded from annual Community Development Block Grants from Federal Fiscal Year appropriations and from any program income generated from the expenditure of such funds.

XIV.

This Agreement shall be of no force and effect unless and until it is executed by both parties hereto and certified by counsel for all parties hereto on the forms set forth below.

IN WITNESS WHEREOF this instrument in duplicate originals, has been executed by the parties hereto as follows:

a. It has been executed on behalf of Fort Bend County on the 14 day of June, 1994, by the County Judge of Fort Bend County and attested by the County Clerk of Fort Bend County pursuant to an order authorizing such execution;

STATE OF TEXAS §

COUNTY OF FORT BEND §

COOPERATION AGREEMENT

This Agreement, made and entered into by Fort Bend County, a body corporate and politic under the laws of the State of Texas, hereinafter sometimes referred to as "County", and the Town of Thompsons, a municipal corporation under the laws of the State of Texas, hereinafter sometimes referred to as "City".

WITNESSETH:

WHEREAS, the City has elected to have its population included as a portion of that population to the County in the County's "urban county" application to the U. S. Department of Housing and Urban Development for funding for the Community Development Block Grant Program, said application being hereinafter sometimes referred to as the "Grant Application;" and

WHEREAS, the City's area and population are within the boundaries of Fort Bend County; and

WHEREAS, the County is willing to include all of the City's population in the Grant Application and to cooperate with the City in the implementation of the City's Community Development Program; and

WHEREAS, the County certifies that it is following an approved Comprehensive Housing Affordability Strategy; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at VTCA Local Government Code §373.001 et seq., which provides, in part, for the authorization of cities to implement a community development program; and

WHEREAS, the governing body of the County duly authorizes this Agreement; and

WHEREAS, the governing body of the City duly authorizes this Agreement; and

WHEREAS, the Texas legislature has further enacted "The Interlocal Cooperation Act," Chapter 791, Texas Government Code, which provides, in part, that the County may contract with the City to perform governmental functions and services for the City;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That the County, and the City, in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the County agree to allow the U. S. Department of Housing and Urban Development to use the City's population and other necessary demographic characteristics in the determination of whether the County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

The City and the County acknowledge that this Cooperation Agreement covers both the Community Development Block Grant (CDBG) Entitlement Program and the HOME Investment Partnership Program; and

II.

The County and the City agree to cooperate in undertaking or assisting in undertaking, community renewal and lower income housing activities, specifically urban renewal and publicly assisted housing.

The City understands that it may not apply for grants under the small cities or State Community Development Block Grant Programs from appropriations during the period in which it is participating in the County's CDBG Program. The City further understands that it may not participate in a HOME consortium except through the County.

III.

The City and the County acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of Housing and Urban Development and that no determination has been made at the time of execution of this Agreement as to where and for what purposes funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such funds for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, the County may in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City has received no assurance, written or oral, from the County to the contrary, and is aware that the execution of this Agreement does not constitute any guarantee on the part of the County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

The City and the County acknowledge that failure by either party to adopt an amendment to the agreement incorporating all changes necessary to meet the requirements for cooperation agreements set forth in the Urban County Qualification Notice applicable for the year in which the next qualification of the urban county is scheduled shall automatically terminate the agreement following the expenditure of all CDBG funds allocated for use in the participating units jurisdiction.

IV.

This Agreement shall remain in full force and effect for the program years 1995 through 1997 (September 1, 1995 - August 31, 1998). The Agreement will be automatically renewed at the end of this period for consecutive three-year periods unless the Agreement is specifically terminated in writing by either party before the end of the County's three-year qualification period. The City and the County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit the County to allow the City and the County to withdraw from this Agreement or otherwise terminate the term of this Agreement at any time during the period covered by the Agreement.

The City and the County acknowledge that this Agreement remains in effect until the CDBG and HOME funds and income received with respect to the three- year qualification period and any successive qualification periods are expended and the funded activities completed and that the County and City may not terminate or withdraw from the Agreement while the Agreement remains in effect.

V.

In the performance of this Agreement, County and all cooperating units of general local government executing this Agreement agree to take all actions necessary to assure compliance with County's certification required by section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, including Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, section 109 of Title I of the Housing and Community Development Act of 1974, and other applicable laws.

VI.

The City agrees to inform Fort Bend County of any income generated by the expenditure of CDBG funds received by the City and that any such income shall be paid to Fort Bend County. Fort Bend County may, in its sole discretion, allow the City to retain program income provided that any and all such income may only be used for eligible activities in accordance with all CDBG requirements as may then apply. The City understands that Fort Bend County has the responsibility for monitoring income and reporting to HUD on the use of any such program income, and the City, therefore, agrees to meet such record keeping and reporting requirements as may be required by the County for this purpose. In the event of close-out or change in status of the City, any program income that is on hand or received subsequent to the close-out or change in status will be paid to Fort Bend County.

VII.

The City agrees and understands that the following terms and conditions will apply with regard to real property acquired or improved in whole or in part using CDBG funds that is within the control of the City during the term of this Agreement.

a) The City shall timely notify Fort Bend County of any modification or change in the use of property from that planned at the time of acquisition or improvement, including disposition.

b) The City shall reimburse Fort Bend County in an amount equal to the current fair market value (less any portion thereof attributable to expenditures of non-CDBG funds) of property acquired or improved with CDBG funds that is sold or transferred for a use which does not qualify under CDBG regulations.

VIII.

The City agrees that program income generated from the disposition or transfer of real property prior to or subsequent to the grant close-out, change of status, or termination of this Agreement shall be treated according to 24 CFR 570.504.

IX.

The County and the City acknowledge that the County shall not fund activities in or in support of any city that does not affirmatively further fair housing within its jurisdiction or that impedes the County's actions to comply with fair housing laws and orders.

X.

The County and the City acknowledge that the City has adopted and is enforcing, to the extent authorized by state law, a policy prohibiting the use of excessive force by law enforcement agencies against any individuals engaged in non-violent civil rights demonstrations in the city. The City has adopted a policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of a non-violent civil rights demonstration within the City.

XI.

The City agrees and understands that pursuant to 24 CFR 570.501(b), it is subject to the same requirements applicable to sub-recipients, including the requirement of a written agreement as set forth in 24 CFR 570.503.

XII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this Agreement for any reason, the County may terminate this Agreement by giving written notice of the same to the City.

XIII.

The County and all cooperating units of general local government executing this Agreement agree that the County has authority to carry out activities which will be funded from annual Community Development Block Grants from Federal Fiscal Year appropriations and from any program income generated from the expenditure of such funds.

XIV.

This Agreement shall be of no force and effect unless and until it is executed by both parties hereto and certified by counsel for all parties hereto on the forms set forth below.

IN WITNESS WHEREOF this instrument in duplicate originals, has been executed by the parties hereto as follows:

MONTHLY REPORT
MAY, 1994

The removal of vegetation from channels during May, 1994 was accomplished by both shredding operations and by herbicide applications. Shredding was done on fifty-six (56) channels that included Cottonwood Creek II-B-24, Flewellen Ditch II-E-10, Rabbs Bayou II-D, and Turkey Creek II-A-2 and several of its tributaries.

Herbicides were applied to fifty-one (51) channels that included Fairchilds Creek II-B-10, Guy Creek I-A-1, Keegans Bayou VII, Mound Creek I-A, and Red Gully II-K-9.

The bridge crew worked on a variety of projects that included the installation of drop inlet pipes into Snake Creek I-C, the replacement of two (2) low water crossings of Jones Creek II-E-6, and the repair of a bridge across Rabbs Bayou II-D. The crew also assisted with the replacement of a culvert crossing of Duval Ditch II-J and the setting of approximately two hundred fifty (250) feet of PVC culvert for M.U.D. #2 through an interlocal agreement.

The LS98-C dragline continued to work on Lower Oyster Creek III, and dug approximately four thousand (4,000) cubic yards of spoil dirt.

Work also continued on the excavation of the Big Creek Bypass with several machines. The Northwest 9570 and Link Belt LS-98A draglines combined to dig approximately nineteen thousand (19,000) cubic yards of spoil material.

The reshaping of Mound Creek continued where the Rapier NCK-305 dragline dug approximately three thousand, eight hundred (3,800) cubic yards of dirt.

The following charts indicate which projects received work during May, 1994 and which equipment was assigned to each.

Independent Auditors' Report

County Judge Roy L. Cordes, Jr.
and Members of the Commissioners Court
of Fort Bend County, Texas

We have audited the accompanying component unit financial statements of Fort Bend County Drainage District, a component unit of Fort Bend County, Texas as of December 31, 1993, and for the year then ended, as listed in the table of contents. These component unit financial statements are the responsibility of Fort Bend County Drainage District's management. Our responsibility is to express an opinion on these component unit financial statements based on our audit.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the component unit financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the component unit financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall component unit financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the component unit financial statements referred to above present fairly, in all material respects, the financial position of Fort Bend County Drainage District, as of December 31, 1993, and the results of its operations for the year then ended in conformity with generally accepted accounting principles.

FORT BEND COUNTY DRAINAGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

These financial statements include all of the funds and activities of the Fort Bend County Drainage District ("District"). Based on criteria prescribed by generally accepted accounting principles the District is considered a component unit of Fort Bend County, Texas ("County"). The primary criteria for the inclusion of the District in the County's reporting entity is the County's ability to impose its will on the District.

The Commissioners Court, as the elected governing body of the County, serves as the governing body of the District(a legally separate entity). As such, the Commissioners Court is able to impose its will on the District by selecting District management personnel and by approving the District's annual budget, annual property tax rates, and all debt issuance.

As required by generally accepted accounting principles, these financial statements have been prepared based on considerations regarding the potential for inclusion of other entities, organizations, or functions as part of the District's financial reporting entity. Based on these considerations, no other entities, organizations, or functions have been included in the District's financial reporting entity.

B. Fund Accounting

The accounts of the District are organized on the basis of funds and an account group, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprises its assets, liabilities, fund balances, revenues, expenditures, and other financing transactions. Following is a description of the various funds and account group:

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Governmental Fund Types

General Fund
The General Fund is used to account for all revenues and expenditures, not accounted for in other funds, relating to general operations.

Capital Projects Fund
The Capital Projects Fund is used to account for resources that are restricted to the construction and acquisition of major flood control projects and improvements.

Account Group

General Fixed Assets Account Group
This account group is used to account for tangible assets having a useful life longer than a year and having a monetary value large enough to warrant maintaining related custodial records.

C. Basis of Accounting

The accounts of the General Fund and Capital Projects Fund are maintained, and the financial statements have been prepared, on the modified accrual basis of accounting.

Under this basis of accounting, revenues are recognized when they become susceptible to accrual (i.e., both measurable and available). Available means collected within the current year or soon enough thereafter to be used to pay liabilities of the current year. Substantially all revenues, except property taxes, are considered to be susceptible to accrual. Property taxes, which are levied in October and collected by the County before year-end, are deferred at year-end because such revenues are considered budgeted revenues of the next calendar year.

Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred.

D. Budgets and Budgetary Accounting

An annual appropriations budget is adopted by the Commissioners Court for the General Fund. The County Judge and County Auditor prepare the proposed budget, using revenue estimates furnished by the County Auditor, and submit the data to the Commissioners Court. A public hearing is held on the budget by the Commissioners Court. Before determining the final budget, the Commissioners Court may increase or decrease the amounts requested by District management. In the final budget, which is usually adopted in October or November, appropriations for the General Fund cannot exceed the estimated available Budgetary Fund balance in such funds at January 1, plus the estimate of revenues for the ensuing year. At any time during the year, the Commissioners Court may increase the budget for unexpected revenues. The Commissioners Court may transfer amounts among individual budget line items within major expenditure categories during the year; but, no such transfer may increase the overall total of the budget.

No annual budget adopted for the Capital Projects Fund. Effective budgetary control in the Capital Projects Fund is achieved through individual project budgeting.

In previous years, annual budgets were adopted on a cash basis. For the year ended December 31, 1993, the Commissioners Court adopted a new budget policy and an annual budget on the modified accrual basis with the following exceptions:

1. For budgetary reporting purposes, cash receipts and disbursements for prior year revenues and expenditures not recognized in previous cash basis budgets are included in current year operations.

2. Encumbrance accounting is utilized. Budgetary expenditures are recognized when encumbered. Unencumbered appropriations lapse at year end.

The first exception above is for transition purposes in implementing the new budget policy and is designed to provide budgetary authority for operating transactions not covered in the previous year's cash basis budget. The second exception is an ongoing feature of the County's new budget policy.

E. General Fixed Assets

All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are valued at their estimated fair value on the date donated. No depreciation has been provided on general fixed assets.

The District has elected not to capitalize public domain infrastructure consisting of drainage rights-of-way and related drainage and flood control improvements.

The costs of purchasing or constructing capital assets are recorded as expenditures in the various funds and capitalized in the General Fixed Assets Account Group.

F. Vacation and Sick Leave

Employees are credited with up to 20 days a year of vacation leave; but, may only accumulate up to a maximum of 20 days. Upon termination, employees are paid for any unused, accumulated vacation. The District's liability for accumulated, earned vacation leave is recorded in the General Fund since it will be liquidated with expendable, available financial resources.

Employees are credited with eight days a year of sick leave and may accumulate an unlimited number of days. Upon termination, employees are not paid for any unused sick leave. The District's liability for accumulated, earned sick leave, which was not material at December 31, 1992, is recorded as an expenditure when used.

G. Total Columns on Combined Statements

Total columns on the combined statements are captioned (Memorandum Only) to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position or results of operations in conformity with generally accepted accounting principles. Such data is not comparable to a consolidation because interfund eliminations have not been made in the aggregation of this data.

NOTE 2 - CASH AND TEMPORARY INVESTMENTS

Cash

The District's demand deposits at December 31, 1993, were entirely covered by federal depository insurance or by pledged collateral held at a third-party bank (the County's agent) in the County's name as provided by State statutes.

State statutes authorize the District to invest in fully collateralized or insured time deposits, direct debt securities of the United States, and fully collateralized repurchase agreements. The repurchase agreements must be purchased pursuant to a master repurchase agreement which specifies the rights and obligations of both parties and which requires that the securities involved in the transaction be held in a safekeeping account subject to the control and custody of the District. Investments in security repurchase agreements may be made only with the County's depository bank or with state or national banks domiciled in the State of Texas.

Temporary Investments

During the year ended December 31, 1993, the District's investments consisted of United States agency debentures and balances in Texpool, a State managed public investment pool. The District's investments are carried at cost which approximates market value.

The United States agency debentures of approximately $1 million were held by an agent of the District in the District's name. The Texpool investments of approximately $4.5 million are not evidenced by securities that exist in physical or book entry form and, accordingly, are not subject to credit risk categorization. however, the nature of this fund requires that they be used to purchase investments authorized by the Public Funds Investment Act of 1987, as amended.

NOTE 3 - PROPERTY TAXES

Tax Calendar

Property is appraised and a lien on such property becomes enforceable as of January 1, subject to certain procedures for rendition, appraisal, appraisal review, and judicial review. Property taxes are levied by October 1 of the year in which assessed, or as soon thereafter as practicable. Taxes become delinquent February 1 of the following year and are subject to interest and penalty charges.

Property taxes for the District are billed and collected by the County Tax Assessor and Collector. Collections of these taxes pending distribution to the District are accounted for in a County agency fund.

NOTE 3 - PROPERTY TAXES (continued)

Tax Rate and Levy

During the year ended December 31, 1993, the County assessed and levied taxes on behalf of the District of $0.0534 per $100 of valuation based on an adjusted valuation of approximately $9.7 billion to fund operational requirements for the 1994 fiscal year. Deferred revenues of $5,072,512 represent the 1993 tax levy that will be recognized as revenue in fiscal year 1994 and uncollected delinquent taxes from prior years' levies, net of applicable allowances for estimated uncollectible amounts.

Fort Bend Central Appraisal District

The Fort Bend Central Appraisal District ("CAD"), a separate governmental entity, is responsible for the recording and appraisal of property for all taxing units within the County, including the District. The CAD is required by state law to assess property at 100% of its appraised value. Further, real property must be reappraised at least every four years. Under certain circumstances, taxpayers and taxing units, including the District, may challenge orders of the CAD's Appraisal Review Board through various appeals and, if necessary, legal action.

The Commissioners Court will continue to set tax rates on property. State law also provides that, if approved by the qualified voters in the CAD, collection functions may be assigned to the CAD.

NOTE 4 - GENERAL FIXED ASSETS

General fixed assets transactions for the year ended December 31, 1993, are summarized as follow:

	Balance January 1	Additions	Disposals	Balance December 31

NOTE 5 - PENSION PLAN

Plan Description

The District, as a component unit of the County, provides retirement, disability, and death benefits for all of its officials and full-time employees and part-time employees working 900 hours annually through a nontraditional, joint contributory, defined contribution plan ("Plan") in the statewide Texas County and District Retirement System ("TCDRS"), an agent multiple-employer public employee retirement system. The County as a whole participates in the TCDRS; and, therefore, separate actuarial information is not available for the District.

It is the opinion of TCDRS management that the plans in TCDRS are substantially defined contribution plans; but, they have elected to provide additional voluntary disclosure to help foster a better understanding of some of the nontraditional characteristics of the Plan.

The Plan provisions are adopted by the governing body of the County, within the options available in the state statutes governing TCDRS. Members can retire at age 60 and above with ten or more years of service or when the sum of their age and years of service equals 80 or more. A member is vested after ten years of service; but, that member must leave any accumulated contributions in the Plan. If a member withdraws his/her personal contributions in a lump sum, that member is not entitled to any amounts contributed by the employer.

Benefit amounts are determined by the sum of the employee's contributions to the Plan, with interest, and employer-financed monetary credits, with interest. The level of these monetary credits is adopted by the County conditioned by the actuarial constraints imposed by a statute that mandates that the resulting benefits can be expected to be adequately financed by the commitment of the District to contribute the same amount as the member employees. The District's current benefit plan provides for employer-financed monetary credits for service since the Plan began of 230% of the employee's accumulated contributions, and for employer-financed monetary credits for service before the Plan began of 165% of a theoretical amount equal to twice what would have been contributed by the employee, with interest, prior to establishment of the Plan. At retirement, the benefit is calculated as if the sum of the employee's accumulated contributions and employer-financed monetary credits were used to purchase an annuity within TCDRS.

NOTE 5 - PENSION PLAN (continued)

Contribution Requirements

The contribution rate of the District and the County is seven percent of the employee members' earnings. This rate, which is not actuarially determined, is a fixed percentage equal to the contribution rate payable by the employee-member, and is one of the rates that can be adopted in accordance with the TCDRS Act.

The District's total payroll in calendar year 1993 was approximately $1.9 million, and the District's contributions were based on a covered payroll of approximately $1.8 million. Employer and employee contributions for 1993 were made as required and each totaled $126,380. There were no related party transactions.

Although the substance of the Plan is not to provide a defined benefit in some form, some additional voluntary disclosure is appropriate due to the nontraditional (for a defined contribution plan) existence of an unfunded pension benefit obligation and employer-financed monetary credits in excess of 100% of the employees' personal contributions. Of the District's and County's seven percent contribution, the normal cost of 5.32% is to fund the currently accruing monetary credits, while the remaining portion, 1.68%, is to amortize the unfunded pension benefit obligation quantified below. The Plan had an initial unfunded pension benefit obligation due to the monetary credits granted by the District and County for services rendered before the Plan began and can have additions to the unfunded pension benefit obligation through the periodic adoption of increases in benefit credits and benefits.

While the County's and District's obligation to the Plan is only their commitment to make contributions equal to those of their employees, it is expected that the commitment to make equal contributions will eventually result in the full funding of all employer-financed monetary credits. In a practical sense, therefore, the County's and District's obligation to the Plan includes the unfunded pension benefit obligation.

Governmental Accounting Standards Board ("GASB") Statement No. 5 defines pension benefit obligation as a standardized disclosure measure of the actuarial present value of pension benefits, adjusted for the effects of projected salary increases, estimated to be payable in the future as a result of employee service to date. The measure is intended to help users assess the funding status of public employees pension plans, assess progress made in accumulating sufficient assets to pay benefits when due and make comparisons among public employee pension plans.

FORT BEND COUNTY DRAINAGE DISTRICT

NOTES TO FINANCIAL STATEMENTS

NOTE 5 - PENSION PLAN (continued)

Funding Status

The pension benefit obligation shown below is similar in nature to standardized disclosure measure for defined benefit plans except that there is no need to project salary increases since the benefit credits earned for service to date are not dependent upon future salaries. The calculations were made as part of the annual actuarial valuation as of December 31, 1992. Because of the money purchase nature of the Plan, the interest rate assumption, currently at eight percent per year, does not have as much impact on the results as it does for a defined benefit plan. The market value of the assets for TCDRS, as a whole as of December 31, 1992, was 111% of book value. Market value of assets is not determined separately for the various funds.

Total unfunded pension benefit obligation of the County and District was actuarially determined at December 31, 1992, 1991 and 1990, as follows:

	1992	1991	1990
Annuitants	$ 5,173,989	$ 4,836,458	$ 4,389,879
Terminated employees	2,372,340	2,069,795	1,584,579
Current Employees			
Accumulated employee contributions including allocated investment earnings	14,084,425	12,425,434	11,284,363
Employer financed vested	9,452,078	7,791,034	6,708,873
Employer financed nonvested	5,490,636	5,076,476	4,713,441
Total Pension Benefit Obligation	36,573,468	32,199,197	28,681,135
Net assets available for benefits, at book value	34,524,870	30,115,029	26,481,501
Unfunded Pension Benefit Obligation	$ 2,048,598	$ 2,084,168	$ 2,199,634

The unfunded pension benefit obligation is being amortized with a level percent of payroll, assumed to be 1.68% each year in the valuation above. The rate available to amortize the unfunded pension benefit obligation may, however, vary slightly from year to year since it is determined as the County and District contribution rate (seven percent) minus its normal cost contribution rate (recalculated annually). As a result, the amortization period may vary from year to year.

The amortization period above applies only to the unfunded part of the total pension benefit obligation. The funded ratio, the portion of the total pension benefit obligation that is fully funded, is 94.4% for the County. Therefore, the amortization period applies only to 5.6% of the pension benefit obligation.

Trend Information

Trend information gives an indication of the progress made in accumulating sufficient assets to pay benefits when due. Ten year historical trend information for the District and the County is presented in the statistical section of the County's 1993 comprehensive annual financial report. Following is a summary of trend information for the last four plan years.

Plan Year	Net Assets Available for Benefits as a Percentage of Pension Benefit Obligation	Unfunded Pension Benefit Obligation as a Percentage of Covered Payroll	Employer Contribution as a Percentage of Annual Covered Payroll
1992	94.4%	8.1%	7%
1991	93.5	8.9	7
1990	92.3	10.3	7
1989	81.3	27.0	7

NOTE 6 - FORT BEND FLOOD CONTROL WATER SUPPLY CORPORATION

During 1989, the County formed the Fort Bend Flood Control Water Supply Corporation ("Corporation") for the purpose of financing the acquisition and construction of flood control and drainage services. The Corporation issued $20,325,000 of revenue bonds which are payable from impact fees assessed and collected by the District and taxes assessed and collected by the County. When the revenue bonds were issued on July 5, 1989, the District deposited all impact fees collected and $1,100,000 of the District's available funds into the Corporation, less amounts previously spent on project costs, as defined. In 1993, the District transferred $802,920 in impact fees to the Corporation. When flood control projects and improvements are completed, they will be conveyed to the County and will be maintained by the District.

NOTE 7 - CONTINGENT LIABILITIES

The District is contingently liable for lawsuits and other claims arising in the ordinary course of its operations. The settlement of such contingencies under the budgetary process would not materially affect the financial position of the District at December 31, 1993.

County Judge
Fort Bend County
P.O. Box 368
Richmond, TX 77469-0368

Dear Honorable Roy L. Cordes:

Congratulations! I am pleased to announce that your county has been awarded a 1994 NACo Achievement Award for the program entitled Library/Health Partnership For At-Risk Preschoolers. In this the 25th year of the Achievement Award program, NACo is extremely pleased with the record number of submissions and the high caliber of county programs and projects. NACo is proud to confer this award and recognize your county's hard work to promote responsible and effective county government.

To honor award winners, NACo's Research Department is sponsoring an Achievement Award booth at NACo's Annual Conference, July 31 - August 4, in Clark County, Nevada where you or your designee will be able to receive the certificate for this program. A photographer will be available for limited hours during the conference to record the presentation of the certificate to you by a NACo official. A selection of award-winning entries also will be on display at the conference booth. Finally, all award winners will be collectively recognized at a general session of the conference delegates. If you need information regarding registration for the Annual Conference, contact Horacio Gavilan at 202/942-4220. In the event that no one from your county will be able to attend the Annual Conference, your certificate(s) will be mailed to you in August.

Questions concerning the award program can be directed to the Research Department at 202/942-4226 or 202/942-4285.

NACo greatly appreciates your county's participation in our Achievement Award program. In addition to giving us an opportunity to formally recognize effective and creative programs, this program enhances our awareness of county activities and allows us to share valuable information with many counties. Again, you have our thanks and our congratulations.

Sincerely,

Larry Naake

RE: *McCollum Chevrolet-Oldsmobile-Dodge, Inc. Assignment*

Dear Judge Cordes:

This office has reviewed the enclosed Agreement Assigning Motor Vehicle Sales Proceeds Accounts between McCollum Chevrolet-Oldsmobile-Dodge, Inc. and General Motors Acceptance Corporation. The County is not a party to this agreement, however, our payments to McCollum are the subject of the assignment. It is my understanding the County has approved assignments with GMAC, Grillo and Knapp Chevrolet before. The reason for the assignment is that the County usually pays vendors within thirty (30) days not upon purchase.

The purchasing department has advised us that the check for the purchase should be to GMAC and McCollum.

This office has no objections to the Court approving the assignment.

Very truly yours,

Portia Poindexter

AGREEMENT ASSIGNING MOTOR
VEHICLE SALES PROCEEDS ACCOUNTS

This Assignment Agreement is executed effective this 28th day of April, 1994 by and between McCollum Chevrolet-Oldsmobile-Dodge, Inc. located at 4925 Avenue H, Rosenberg, Texas 77471, (the "Dealer") and General Motors Acceptance Corporation, with a local business office at 11757 Katy Freeway, Houston, Texas 77079 ("GMAC");

WITNESSETH;

Whereas, Dealer and GMAC have executed a Wholesale Security Agreement by which GMAC provides wholesale floor plan financing of new motor vehicles purchased from time to time by the Dealer (the "Wholesale Security Agreement"): and

Whereas, Dealer and GMAC have executed an Agreement Amending the Wholesale Security Agreement and Conditionally Authorizing the Sale of New Floor Plan Vehicles on a Delayed Payment Privilege Basis by which, as an express exception to the Wholesale Security Agreement, Dealer is granted the privilege by GMAC to delay payment of the principal obligation for certain new motor vehicles sold by the Dealer to particular third party purchasers (the "DPP Agreement"); and

Whereas, Dealer is required under the DPP Agreement to execute this Assignment Agreement by which Dealer is to assign all right, title and interest of Dealer in and to the accounts now or hereafter arising in the purchase price for and proceeds from the sale of motor vehicles by Dealer to particular third party purchasers, as contemplated by the DPP Agreement.

Now, therefore, in consideration of the premises, and for other good and valuable consideration, the sufficiency of which is hereby acknowledged by the Dealer and GMAC, the parties hereto hereby agree as follows:

1. Dealer hereby sells, assigns, transfers, grants and sets over to GMAC all of Dealer's right, title and interest in and to all accounts, contract rights, instruments, proceeds, monies, and sums due or to become due to the Dealer (the "Proceeds") from Fort Bend County located at POB 368, Richmond, Texas 77469 (the "Purchaser"), on account of any and all sales, leases, or other transfer by Dealer to Purchaser from time to time of new motor vehicles originally floor plan financed by GMAC for Dealer (the "Motor Vehicle Sales").

WITH ORIGINAL

2. GMAC shall have the right to collect the Motor Vehicle Sales Proceeds from the Purchaser, or the Purchaser's lender. Unless GMAC modifies and directs Purchaser to the contrary, Purchaser shall make and deliver the payment for the Motor Vehicle Sales promptly and directly to and in the name of either (a) GMAC at its address as set forth above; or (b) jointly to GMAC and the Dealer at either GMAC's or the Dealer's address as set forth herein. Purchaser may, without risk, accept a photographic or facsimile copy of this executed Assignment Agreement as the furnishing of reasonable proof that the assignment has been made, consistent with Section 9-318(3) of the Uniform Commercial Code. GMAC is authorized to, upon the execution hereof by Dealer and without the occurrence of any default or notice of acceptance by GMAC, notify the Purchaser of the existence and content of this Assignment Agreement.

3. Dealer shall hold in trust for and thereafter promptly endorse and deliver to GMAC physical possession of any payment medium tendered to it by Purchaser, as Proceeds of the Motor Vehicles Sales, whether in bearer from or payable to Dealer and GMAC, or either of them.

4. Dealer does hereby irrevocably constitute and appoint GMAC the true and lawful attorney of Dealer for the purpose of accepting, endorsing, negotiating, receipting, any medium of payment received by GMAC as Proceeds of the Motor Vehicle Sales, and to otherwise demand, sue for, recover, receive, and give effectual discharge therefor.

5. This Assignment Agreement shall be effective immediately and for the purpose of additional security only, but shall not be deemed as payment or discharge of the Dealer's primary obligation to GMAC unless, until and only to the extent of the indefeasible receipt by GMAC of the Proceeds of the Motor Vehicle Sales.

6. Dealer hereby unconditionally guarantees the full and prompt payment to GMAC of all Proceeds of Motor Vehicle Sales, and, without first requiring GMAC to proceed against the Purchaser or any other person or any security, hereby waives notice of any delay, default, or nonpayment thereof by the Purchaser. Upon any direct payment by Dealer under this paragraph, Dealer shall be subrogated and, upon demand on GMAC, shall be entitled to a partial reassignment of the rights relative to the vehicle(s) for which payment was made as well as a limited revocation of the power of attorney provided in paragraph 4 for such vehicle(s) and the Proceeds therefrom.

7. Dealer hereby warrants and represents that (a) Dealer knows of no fact or circumstance which would, if true, impair the value of the Motor Vehicle Sales, or the payment by the Purchaser of the Proceeds thereof; and (b) there is no defense, claim or setoff in favor of the Purchaser directly or indirectly against the Dealer such as might jeopardize or impede payment of the Motor Vehicle Sales Proceeds, nor will such defense, claim, or setoff be allowed to arise in the future.

8. This is a continuing assignment and shall remain in full force and effect until terminated by Dealer on a thirty days advance written notice to both Purchaser and GMAC, except that such termination shall not be effective as to any Motor Vehicle Sales in existence prior to the effective date of termination.

RE: Waiver of Penalty and Interest - R. Morton Blair
Account #3002-03-003-0250-901
Precinct #1

Mr. Blair is requesting waiver of penalty and interest for tax year 1993.

1. The Blairs purchased the property and deed was filed in March 1993.
2. The 1993 tax statement was mailed to the Blairs at 3010 Par Rd, Sibrino, FL 33872.
3. On 11-18-93, the city was corrected to Sebring, FL and a corrected statement was mailed on that date.
4. A March notice was mailed 03/02/94 and payment was received effective 03/28/94.

Breakdown of Taxes Paid:

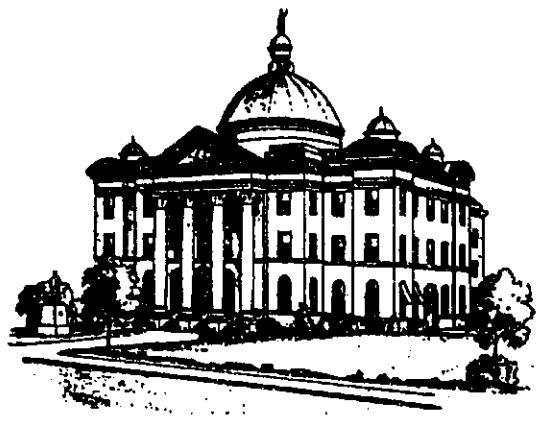

Base Tax	$1,021.04
Penalty & Interest	91.90
Total Paid	$1,112.94

I do not recommend waiver as there is no evidence of error on the part of the appraisal district or the tax office to prevent Mr. Blair from paying prior to the account going delinquent.

Dear Judge Cordes:

I am writing to you about a tax bill which is account #3002-03-003-0250-901. This is for a house in Greatwood in which my daughter lives. I live in Florida. I was late in paying part of the taxes and would like to ask for a refund of $91.90.

There are, I think, four separate bills on this property and I only received three bills which I paid in a timely manner. Then on March 12, 1994 I received what I think is a past due notice for what may be referred to as Ft. Bend LID. This was the first notice I had received on this. Since this is the first year I have paid taxes I had no way of knowing there were four different bills.

I immediately called the office of Ms. Gaines and she sent me a copy of the bill. Her letter was dated March 7th and I received it on March 12th. Then on March 13th I sent in a check for the levy of $1021.04 but did not include $91.90 for the "P & I" because I had been unaware that I owed another bill.

She then sent my check back saying the full amount was due in her letter of March 22nd which I received around March 26th or 27th. I then immediately sent a new check for the full amount on March 28th.

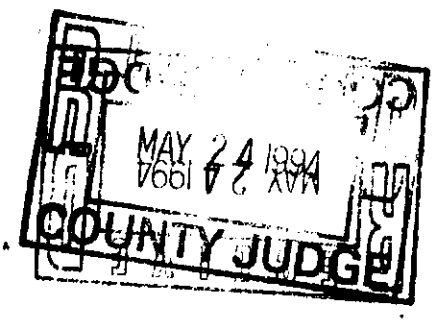

You can see from the dates shown I paid the total amount due within 21 days which is required for a refund of the "P & I".

I would appreciate it if this can be handled by mail because of my Florida residence. If not, can I have my daughter represent me if a court appearance is necessary?

Yours sincerely,
Morton Blair

RE: Waiver of Penalty and Interest - R. Morton Blair
Account #3002-03-003-0250-901
Precinct #1

Mr. Blair is requesting waiver of penalty and interest for tax year 1993.

1. The Blairs purchased the property and deed was filed in March 1993.
2. The 1993 tax statement was mailed to the Blairs at 3010 Par Rd, Sibrino, FL 33872.
3. On 11-18-93, the city was corrected to Sebring, FL and a corrected statement was mailed on that date.
4. A March notice was mailed 03/02/94 and payment was received effective 03/28/94.

Breakdown of Taxes Paid:

Base Tax	$1,021.04
Penalty & Interest	91.90
Total Paid	$1,112.94

I do not recommend waiver as there is no evidence of error on the part of the appraisal district or the tax office to prevent Mr. Blair from paying prior to the account going delinquent.

THE STATE OF TEXAS §
§
COUNTY OF FORT BEND §

COOPERATION AGREEMENT

This Agreement, made and entered into by Fort Bend County, a body corporate and politic under the laws of the State of Texas, hereinafter sometimes referred to as "County", and the City of Arcola, a municipal corporation under the laws of the State of Texas, hereinafter sometimes referred to as "City".

WITNESSETH:

WHEREAS, the City has elected to have its population included as a portion of that population to the County in the County's "urban county" application to the U. S. Department of Housing and Urban Development for funding for the Community Development Block Grant Program, said application being hereinafter sometimes referred to as the "Grant Application;" and

WHEREAS, the City's area and population are within the boundaries of Fort Bend County; and

WHEREAS, the County is willing to include all of the City's population in the Grant Application and to cooperate with the City in the implementation of the City's Community Development Program; and

WHEREAS, the County certifies that it is following an approved Comprehensive Housing Affordability Strategy; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at VTCA Local Government Code §373.001 et seq., which provides, in part, for the authorization of cities to implement a community development program; and

WHEREAS, the governing body of the County duly authorizes this Agreement; and

WHEREAS, the governing body of the City duly authorizes this Agreement; and

WHEREAS, the Texas legislature has further enacted "The Interlocal Cooperation Act," Chapter 791, Texas Local Government Code, Tex. Rev. Civ. Stats., which provides, in part, that the County may contract with the City to perform governmental functions and services for the City;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That the County, and the City, in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the County agree to allow the U. S. Department of Housing and Urban Development to use the City's population and other necessary demographic characteristics in the determination of whether the County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

The City and the County acknowledge that this Cooperation Agreement covers both the Community Development Block Grant (CDBG) Entitlement Program and the HOME Investment Partnership Program; and

II.

The County and the City agree to cooperate in undertaking or assisting in undertaking, community renewal and lower income housing activities, specifically urban renewal and publicly assisted housing.

The City understands that it may not apply for grants under the small cities or State Community Development Block Grant Programs from appropriations during the period in which it is participating in the County's CDBG Program. The City further understands that it may not participate in a HOME consortium except through the County.

III.

The City and the County acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of Housing and Urban Development and that no determination has been made at the time of execution of this Agreement as to where and for what purposes funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such funds for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, the County may in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City has received no assurance, written or oral, from the County to the contrary, and is aware that the execution of this Agreement does not constitute any guarantee on the part of the County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

The City and the County acknowledge that failure by either party to adopt an amendment to the agreement incorporating all changes necessary to meet the requirements for cooperation agreements set forth in the Urban County Qualification Notice applicable for the year in which the next qualification of the urban county is scheduled shall automatically terminate the agreement following the expenditure of all CDBG funds allocated for use in the participating units jurisdiction.

IV.

This Agreement shall remain in full force and effect for the program years 1995 through 1997 (September 1, 1995 - August 31, 1998). The Agreement will be automatically renewed at the end of this period for consecutive three-year periods unless the Agreement is specifically terminated in writing by either party before the end of the County's three-year qualification period. The City and the County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit the County to allow the City and the County to withdraw from this Agreement or otherwise terminate the term of this Agreement at any time during the period covered by the Agreement.

The City and the County acknowledge that this Agreement remains in effect until the CDBG and HOME funds and income received with respect to the three- year qualification period and any successive qualification periods are expended and the funded activities completed and that the County and City may not terminate or withdraw from the Agreement while the Agreement remains in effect.

V.

In the performance of this Agreement, County and all cooperating units of general local government executing this Agreement agree to take all actions necessary to assure compliance with County's certification required by section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, including Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, section 109 of Title I of the Housing and Community Development Act of 1974, and other applicable laws.

VI.

The City agrees to inform Fort Bend County of any income generated by the expenditure of CDBG funds received by the City and that any such income shall be paid to Fort Bend County. Fort Bend County may, in its sole discretion, allow the City to retain program income provided that any and all such income may only be used for eligible activities in accordance with all CDBG requirements as may then apply. The City understands that Fort Bend County has the responsibility for monitoring income and reporting to HUD on the use of any such program income, and the City, therefore, agrees to meet such record keeping and reporting requirements as may be required by the County for this purpose. In the event of close-out or change in status of the City, any program income that is on hand or received subsequent to the close-out or change in status will be paid to Fort Bend County.

VII.

The City agrees and understands that the following terms and conditions will apply with regard to real property acquired or improved in whole or in part using CDBG funds that is within the control of the City during the term of this Agreement.

a) The City shall timely notify Fort Bend County of any modification or change in the use of property from that planned at the time of acquisition or improvement, including disposition.

b) The City shall reimburse Fort Bend County in an amount equal to the current fair market value (less any portion thereof attributable to expenditures of non-CDBG funds) of property acquired or improved with CDBG funds that is sold or transferred for a use which does not qualify under CDBG regulations.

VIII.

The City agrees that program income generated from the disposition or transfer of real property prior to or subsequent to the grant close-out, change of status, or termination of this Agreement shall be treated according to 24 CFR 570.504.

IX.

The County and the City acknowledge that the County shall not fund activities in or in support of any city that does not affirmatively further fair housing within its jurisdiction or that impedes the County's actions to comply with fair housing laws and orders.

X.

The County and the City acknowledge that the City has adopted and is enforcing, to the extent authorized by state law, a policy prohibiting the use of excessive force by law enforcement agencies against any individuals engaged in non-violent civil rights demonstrations in the city. The City has adopted a policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of a non-violent civil rights demonstration within the City.

XI.

The City agrees and understands that pursuant to 24 CFR 570.501(b), it is subject to the same requirements applicable to sub-recipients, including the requirement of a written agreement as set forth in 24 CFR 570.503.

XII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this Agreement for any reason, the County may terminate this Agreement by giving written notice of the same to the City.

XIII.

The County and all cooperating units of general local government executing this Agreement agree that the County has authority to carry out activities which will be funded from annual Community Development Block Grants from Federal Fiscal Year appropriations and from any program income generated from the expenditure of such funds.

XIV.

This Agreement shall be of no force and effect unless and until it is executed by both parties hereto and certified by counsel for all parties hereto on the forms set forth below.

IN WITNESS WHEREOF this instrument in duplicate originals, has been executed by the parties hereto as follows:

a. It has been executed on behalf of Fort Bend County on the 28 day of June, 1994, by the County Judge of Fort Bend County and attested by the County Clerk of Fort Bend County pursuant to an order authorizing such execution;

b. It has been executed on behalf of the City on the 7th day of June, 1994, by its Mayor and attested by its City Secretary, pursuant to action of the City Council of the City authorizing such execution.

THE STATE OF TEXAS §

COUNTY OF FORT BEND §

COOPERATION AGREEMENT

This Agreement, made and entered into by Fort Bend County, a body corporate and politic under the laws of the State of Texas, hereinafter sometimes referred to as "County", and the Village of Pleak, a municipal corporation under the laws of the State of Texas, hereinafter sometimes referred to as "City".

WITNESSETH:

WHEREAS, the City has elected to have its population included as a portion of that population to the County in the County's "urban county" application to the U. S. Department of Housing and Urban Development for funding for the Community Development Block Grant Program, said application being hereinafter sometimes referred to as the "Grant Application;" and

WHEREAS, the City's area and population are within the boundaries of Fort Bend County; and

WHEREAS, the County is willing to include all of the City's population in the Grant Application and to cooperate with the City in the implementation of the City's Community Development Program; and

WHEREAS, the County certifies that it is following an approved Comprehensive Housing Affordability Strategy; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at VTCA Local Government Code §373.001 et seq., which provides, in part, for the authorization of cities to implement a community development program; and

WHEREAS, the governing body of the County duly authorizes this Agreement; and

WHEREAS, the governing body of the City duly authorizes this Agreement; and

WHEREAS, the Texas legislature has further enacted "The Interlocal Cooperation Act," Chapter 791, Texas Local Government Code, Tex. Rev. Civ. Stats., which provides, in part, that the County may contract with the City to perform governmental functions and services for the City;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That the County, and the City, in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the County agree to allow the U. S. Department of Housing and Urban Development to use the City's population and other necessary demographic characteristics in the determination of whether the County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

The City and the County acknowledge that this Cooperation Agreement covers both the Community Development Block Grant (CDBG) Entitlement Program and the HOME Investment Partnership Program; and

II.

The County and the City agree to cooperate in undertaking or assisting in undertaking, community renewal and lower income housing activities, specifically urban renewal and publicly assisted housing.

The City understands that it may not apply for grants under the small cities or State Community Development Block Grant Programs from appropriations during the period in which it is participating in the County's CDBG Program. The City further understands that it may not participate in a HOME consortium except through the County.

III.

The City and the County acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of Housing and Urban Development and that no determination has been made at the time of execution of this Agreement as to where and for what purposes funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such funds for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, the County may in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City has received no assurance, written or oral, from the County to the contrary, and is aware that the execution of this Agreement does not constitute any guarantee on the part of the County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

The City and the County acknowledge that failure by either party to adopt an amendment to the agreement incorporating all changes necessary to meet the requirements for cooperation agreements set forth in the Urban County Qualification Notice applicable for the year in which the next qualification of the urban county is scheduled shall automatically terminate the agreement following the expenditure of all CDBG funds allocated for use in the participating units jurisdiction.

IV.

This Agreement shall remain in full force and effect for the program years 1995 through 1997 (September 1, 1995 - August 31, 1998). The Agreement will be automatically renewed at the end of this period for consecutive three-year periods unless the Agreement is specifically terminated in writing by either party before the end of the County's three-year qualification period. The City and the County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit the County to allow the City and the County to withdraw from this Agreement or otherwise terminate the term of this Agreement at any time during the period covered by the Agreement.

The City and the County acknowledge that this Agreement remains in effect until the CDBG and HOME funds and income received with respect to the three- year qualification period and any successive qualification periods are expended and the funded activities completed and that the County and City may not terminate or withdraw from the Agreement while the Agreement remains in effect.

V.

In the performance of this Agreement, County and all cooperating units of general local government executing this Agreement agree to take all actions necessary to assure compliance with County's certification required by section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, including Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, section 109 of Title I of the Housing and Community Development Act of 1974, and other applicable laws.

VI.

The City agrees to inform Fort Bend County of any income generated by the expenditure of CDBG funds received by the City and that any such income shall be paid to Fort Bend County. Fort Bend County may, in its sole discretion, allow the City to retain program income provided that any and all such income may only be used for eligible activities in accordance with all CDBG requirements as may then apply. The City understands that Fort Bend County has the responsibility for monitoring income and reporting to HUD on the use of any such program income, and the City, therefore, agrees to meet such record keeping and reporting requirements as may be required by the County for this purpose. In the event of close-out or change in status of the City, any program income that is on hand or received subsequent to the close-out or change in status will be paid to Fort Bend County.

VII.

The City agrees and understands that the following terms and conditions will apply with regard to real property acquired or improved in whole or in part using CDBG funds that is within the control of the City during the term of this Agreement.

a) The City shall timely notify Fort Bend County of any modification or change in the use of property from that planned at the time of acquisition or improvement, including disposition.

b) The City shall reimburse Fort Bend County in an amount equal to the current fair market value (less any portion thereof attributable to expenditures of non-CDBG funds) of property acquired or improved with CDBG funds that is sold or transferred for a use which does not qualify under CDBG regulations.

VIII.

The City agrees that program income generated from the disposition or transfer of real property prior to or subsequent to the grant close-out, change of status, or termination of this Agreement shall be treated according to 24 CFR 570.504.

IX.

The County and the City acknowledge that the County shall not fund activities in or in support of any city that does not affirmatively further fair housing within its jurisdiction or that impedes the County's actions to comply with fair housing laws and orders.

X.

The County and the City acknowledge that the City has adopted and is enforcing, to the extent authorized by state law, a policy prohibiting the use of excessive force by law enforcement agencies against any individuals engaged in non-violent civil rights demonstrations in the city. The City has adopted a policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of a non-violent civil rights demonstration within the City.

XI.

The City agrees and understands that pursuant to 24 CFR 570.501(b), it is subject to the same requirements applicable to sub-recipients, including the requirement of a written agreement as set forth in 24 CFR 570.503.

XII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this Agreement for any reason, the County may terminate this Agreement by giving written notice of the same to the City.

XIII.

The County and all cooperating units of general local government executing this Agreement agree that the County has authority to carry out activities which will be funded from annual Community Development Block Grants from Federal Fiscal Year appropriations and from any program income generated from the expenditure of such funds.

XIV.

This Agreement shall be of no force and effect unless and until it is executed by both parties hereto and certified by counsel for all parties hereto on the forms set forth below.

IN WITNESS WHEREOF this instrument in duplicate originals, has been executed by the parties hereto as follows:

a. It has been executed on behalf of Fort Bend County on the 28 day of June, 1994, by the County Judge of Fort Bend County and attested by the County Clerk of Fort Bend County pursuant to an order authorizing such execution;

b. It has been executed on behalf of the City on the 20 day of May, 1994, by its Mayor and attested by its City Secretary, pursuant to action of the City Council of the City authorizing such execution.

IV.

This Agreement shall remain in full force and effect for the program years 1995 through 1997 (September 1, 1995 - August 31, 1998). The Agreement will be automatically renewed at the end of this period for consecutive three-year periods unless the Agreement is specifically terminated in writing by either party before the end of the County's three-year qualification period. The City and the County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit the County to allow the City and the County to withdraw from this Agreement or otherwise terminate the term of this Agreement at any time during the period covered by the Agreement.

The City and the County acknowledge that this Agreement remains in effect until the CDBG and HOME funds and income received with respect to the three- year qualification period and any successive qualification periods are expended and the funded activities completed and that the County and City may not terminate or withdraw from the Agreement while the Agreement remains in effect.

V.

In the performance of this Agreement, County and all cooperating units of general local government executing this Agreement agree to take all actions necessary to assure compliance with County's certification required by section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, including Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, section 109 of Title I of the Housing and Community Development Act of 1974, and other applicable laws.

VI.

The City agrees to inform Fort Bend County of any income generated by the expenditure of CDBG funds received by the City and that any such income shall be paid to Fort Bend County. Fort Bend County may, in its sole discretion, allow the City to retain program income provided that any and all such income may only be used for eligible activities in accordance with all CDBG requirements as may then apply. The City understands that Fort Bend County has the responsibility for monitoring income and reporting to HUD on the use of any such program income, and the City, therefore, agrees to meet such record keeping and reporting requirements as may be required by the County for this purpose. In the event of close-out or change in status of the City, any program income that is on hand or received subsequent to the close-out or change in status will be paid to Fort Bend County.

VII.

The City agrees and understands that the following terms and conditions will apply with regard to real property acquired or improved in whole or in part using CDBG funds that is within the control of the City during the term of this Agreement.

a) The City shall timely notify Fort Bend County of any modification or change in the use of property from that planned at the time of acquisition or improvement, including disposition.

b) The City shall reimburse Fort Bend County in an amount equal to the current fair market value (less any portion thereof attributable to expenditures of non-CDBG funds) of property acquired or improved with CDBG funds that is sold or transferred for a use which does not qualify under CDBG regulations.

VIII.

The City agrees that program income generated from the disposition or transfer of real property prior to or subsequent to the grant close-out, change of status, or termination of this Agreement shall be treated according to 24 CFR 570.504.

IX.

The County and the City acknowledge that the County shall not fund activities in or in support of any city that does not affirmatively further fair housing within its jurisdiction or that impedes the County's actions to comply with fair housing laws and orders.

X.

The County and the City acknowledge that the City has adopted and is enforcing, to the extent authorized by state law, a policy prohibiting the use of excessive force by law enforcement agencies against any individuals engaged in non-violent civil rights demonstrations in the city. The City has adopted a policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of a non-violent civil rights demonstration within the City.

XI.

The City agrees and understands that pursuant to 24 CFR 570.501(b), it is subject to the same requirements applicable to sub-recipients, including the requirement of a written agreement as set forth in 24 CFR 570.503.

XII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this Agreement for any reason, the County may terminate this Agreement by giving written notice of the same to the City.

XIII.

The County and all cooperating units of general local government executing this Agreement agree that the County has authority to carry out activities which will be funded from annual Community Development Block Grants from Federal Fiscal Year appropriations and from any program income generated from the expenditure of such funds.

XIV.

This Agreement shall be of no force and effect unless and until it is executed by both parties hereto and certified by counsel for all parties hereto on the forms set forth below.

IN WITNESS WHEREOF this instrument in duplicate originals, has been executed by the parties hereto as follows:

COUNTY OF FORT BEND §

COOPERATION AGREEMENT

This Agreement, made and entered into by Fort Bend County, a body corporate and politic under the laws of the State of Texas, hereinafter sometimes referred to as "County", and the City of Stafford, a municipal corporation under the laws of the State of Texas, hereinafter sometimes referred to as "City".

WITNESSETH:

WHEREAS, the City has elected to have its population included as a portion of that population to the County in the County's "urban county" application to the U. S. Department of Housing and Urban Development for funding for the Community Development Block Grant Program, said application being hereinafter sometimes referred to as the "Grant Application;" and

WHEREAS, the City's area and population are within the boundaries of Fort Bend County; and

WHEREAS, the County is willing to include all of the City's population in the Grant Application and to cooperate with the City in the implementation of the City's Community Development Program; and

WHEREAS, the County certifies that it is following an approved Comprehensive Housing Affordability Strategy; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at VTCA Local Government Code §373.001 et seq., which provides, in part, for the authorization of cities to implement a community development program; and

WHEREAS, the governing body of the County duly authorizes this Agreement; and

WHEREAS, the governing body of the City duly authorizes this Agreement; and

WHEREAS, the Texas legislature has further enacted "The Interlocal Cooperation Act," Chapter 791, Texas Local Government Code, Tex. Rev. Civ. Stats., which provides, in part, that the County may contract with the City to perform governmental functions and services for the City;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That the County, and the City, in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the County agree to allow the U. S. Department of Housing and Urban Development to use the City's population and other necessary demographic characteristics in the determination of whether the County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

The City and the County acknowledge that this Cooperation Agreement covers both the Community Development Block Grant (CDBG) Entitlement Program and the HOME Investment Partnership Program; and

II.

The County and the City agree to cooperate in undertaking or assisting in undertaking, community renewal and lower income housing activities, specifically urban renewal and publicly assisted housing.

The City understands that it may not apply for grants under the small cities or State Community Development Block Grant Programs from appropriations during the period in which it is participating in the County's CDBG Program. The City further understands that it may not participate in a HOME consortium except through the County.

III.

The City and the County acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of Housing and Urban Development and that no determination has been made at the time of execution of this Agreement as to where and for what purposes funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such funds for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, the County may in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City has received no assurance, written or oral, from the County to the contrary, and is aware that the execution of this Agreement does not constitute any guarantee on the part of the County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

The City and the County acknowledge that failure by either party to adopt an amendment to the agreement incorporating all changes necessary to meet the requirements for cooperation agreements set forth in the Urban County Qualification Notice applicable for the year in which the next qualification of the urban county is scheduled shall automatically terminate the agreement following the expenditure of all CDBG funds allocated for use in the participating units jurisdiction.

IV.

This Agreement shall remain in full force and effect for the program years 1995 through 1997 (September 1, 1995 - August 31, 1998). The Agreement will be automatically renewed at the end of this period for consecutive three-year periods unless the Agreement is specifically terminated in writing by either party before the end of the County's three-year qualification period. The City and the County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit the County to allow the City and the County to withdraw from this Agreement or otherwise terminate the term of this Agreement at any time during the period covered by the Agreement.

The City and the County acknowledge that this Agreement remains in effect until the CDBG and HOME funds and income received with respect to the three- year qualification period and any successive qualification periods are expended and the funded activities completed and that the County and City may not terminate or withdraw from the Agreement while the Agreement remains in effect.

V.

In the performance of this Agreement, County and all cooperating units of general local government executing this Agreement agree to take all actions necessary to assure compliance with County's certification required by section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, including Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, section 109 of Title I of the Housing and Community Development Act of 1974, and other applicable laws.

VI.

The City agrees to inform Fort Bend County of any income generated by the expenditure of CDBG funds received by the City and that any such income shall be paid to Fort Bend County. Fort Bend County may, in its sole discretion, allow the City to retain program income provided that any and all such income may only be used for eligible activities in accordance with all CDBG requirements as may then apply. The City understands that Fort Bend County has the responsibility for monitoring income and reporting to HUD on the use of any such program income, and the City, therefore, agrees to meet such record keeping and reporting requirements as may be required by the County for this purpose. In the event of close-out or change in status of the City, any program income that is on hand or received subsequent to the close-out or change in status will be paid to Fort Bend County.

VII.

The City agrees and understands that the following terms and conditions will apply with regard to real property acquired or improved in whole or in part using CDBG funds that is within the control of the City during the term of this Agreement.

a) The City shall timely notify Fort Bend County of any modification or change in the use of property from that planned at the time of acquisition or improvement, including disposition.

b) The City shall reimburse Fort Bend County in an amount equal to the current fair market value (less any portion thereof attributable to expenditures of non-CDBG funds) of property acquired or improved with CDBG funds that is sold or transferred for a use which does not qualify under CDBG regulations.

VIII.

The City agrees that program income generated from the disposition or transfer of real property prior to or subsequent to the grant close-out, change of status, or termination of this Agreement shall be treated according to 24 CFR 570.504.

IX.

The County and the City acknowledge that the County shall not fund activities in or in support of any city that does not affirmatively further fair housing within its jurisdiction or that impedes the County's actions to comply with fair housing laws and orders.

X.

The County and the City acknowledge that the City has adopted and is enforcing, to the extent authorized by state law, a policy prohibiting the use of excessive force by law enforcement agencies against any individuals engaged in non-violent civil rights demonstrations in the city. The City has adopted a policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of a non-violent civil rights demonstration within the City.

XI.

The City agrees and understands that pursuant to 24 CFR 570.501(b), it is subject to the same requirements applicable to sub-recipients, including the requirement of a written agreement as set forth in 24 CFR 570.503.

XII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this Agreement for any reason, the County may terminate this Agreement by giving written notice of the same to the City.

XIII.

The County and all cooperating units of general local government executing this Agreement agree that the County has authority to carry out activities which will be funded from annual Community Development Block Grants from Federal Fiscal Year appropriations and from any program income generated from the expenditure of such funds.

XIV.

This Agreement shall be of no force and effect unless and until it is executed by both parties hereto and certified by counsel for all parties hereto on the forms set forth below.

IN WITNESS WHEREOF this instrument in duplicate originals, has been executed by the parties hereto as follows:

MEMORANDUM

TO: Roy L. Cordes, Jr., County Judge
Commissioners Court

FROM: Dianne McWethy, Director of Administrative Services

SUBJECT: Sugar Creek Annex - Fence Repair

DATE: June 27, 1994

Background:

The Building Maintenance staff was notified that the wooden fence at the Sugar Creek Annex, which consists of a shared property line with property owners within the Sugar Creek subdivision, was in need of repair.

Analysis:

Staff contacted Mr. Gary Sanford, representative of the Sugar Creek Homeowner's Association, to secure information concerning the names and addresses of the affected property owners. (See attached list). The Engineering Department was requested to develop the bid specifications for this project. Upon receipt of the bid specifications, the Purchasing Department secured bids for this project for a total cost of $3,386.00. The cost for this project will need to be shared with each of the affected property owners. If a property owner has repaired the wooden fence at their expense, the county will need to establish a mechanism for reimbursement to the property owner upon receipt of billing information.

Request and Recommendation:

Staff requests that the County Attorney notify the affected property owners concerning the project cost to establish a mechanism for reimbursement to the county. If you have any questions or need additional information, contact me at 341-8670. Thank you for your assistance with this request.

Dear Commissioner Alton B. Pressley,

Attached is a summary status report for the right-of-way acquisition along 1464 at the new school. Several of the tract owners have expressed an interest in donating the ROW.

We have estimated the cost of obtaining the remaining tracts as shown. The value is only an estimate and is not based on an appraisal.

TX DOT has stated that they would like to have all of the ROW obtained by the end of 1994.

If there are any questions or need for additional information please call.

Sincerely,

Such an alternative may be exercised at the sole option of the Pool. The expulsion and coverage termination under this Article may be carried out for one or more of the following reasons:

The expelled Member shall not be entitled to any reimbursement of contributions that are to be paid or that shall become payable in the future. The expelled Member shall be entitled to receive all experience dividends and investment dividends that are given for the period during which the expelled Member was a participant in the Pool, subject to a setoff for any outstanding obligation to the Pool.

D. The expulsion provision of this Article shall not be construed to diminish or prevail over any right of the Pool to terminate an interlocal participation agreement in accordance with the provisions of the interlocal participation agreement.

E. The provisions for expulsion herein shall be applied only in a manner consistent with Chapter 119 of the *Local Government Code.*

ARTICLE XVI

Contractual Obligations

A. A copy of each Member's executed interlocal participation agreement shall remain on file with the Pool.

TEXAS ASSOCIATION OF COUNTIES
COUNTY GOVERNMENT RISK MANAGEMENT POOL
UNDERWRITING STANDARDS

I. UNDERWRITING CRITERIA:

Section A. General Liability/ Auto Liability

These underwriting standards and procedures are to be utilized in the maintenance of the Risk Management Pool. Review of these underwriting standards and procedures will be conducted periodically and appropriate revisions will be made as needed.

Availability

In accordance with Section 119.004(4) and Section 118.009, TEX. LOCAL GOVT. CODE, the Texas Association of Counties County Government Risk Management Pool will make both Comprehensive General Liability and Automobile Liability coverage available to any Texas county making application to the Pool, regardless of loss history. This coverage will be provided for an initial period of not less than one year. The county applicant will participate in a risk management appraisal and adhere to recommendations presented in the appraisal. If the risk management techniques implemented do not result in the county's attaining a risk level sufficient to meet the Pool's underwriting criteria within the initial coverage period of one year, the county may be denied subsequent coverage by the Pool.

Surcharges will be applied during the initial period if the applicant does not meet basic underwriting criteria as established by the Board.

A political subdivision other than a county may participate in the Pool and is entitled to the same coverage provided to a county and may participate under the same terms and conditions as a county. Authority is section 119.009, Local Government Code, amended to be effective September 1, 1993.

Underwriting Approach

The Pool may follow Texas Department of Insurance rates. General Liability contributions will be based on rates and increased limits factors as approved by the Risk Management Board of Directors and as published as an addendum to this standard. Rates and increased limits factors as approved by the Texas Department of Insurance and as published by

the Insurance Service Office (ISO) may be used when warranted and will be used as a base to determine adequacy of the Pool Rates.

As creditable loss data is developed by the Fund, Actuarially determined rates, discounts and or deviations will be approved by the Board for Fund use.

(Coverage is provided for claims arising out of activities during the policy period regardless of when the claim is made or presented.) When the Texas Department of Insurance adopts a new form, the new form may be used by the Pool for coverage written after the effective date of the new form.

Limits of Liability

The Limits of Liability for the Pool will be as follows:

Bodily Injury	-	$100,000 per person $300,000 per occurrence
Property Damage	-	$100,000 per occurrence

Coverage Contracts are to be written on a continuous basis. There will be an annual review and adjustment of rates.

There will be a special provision indicating that a member with adverse loss experience when entering the Pool will be subject to nonrenewal or cancellation, depending on its response to Risk Management suggestions and results after the first year.

Coverage Contract Period

The Contract will contain normal cancellation provisions to enable either party to withdraw from the contract period, normal short-rate earned premium factors will be utilized.

Underwriting of Individual Counties

The individual risk management review of an applicant will focus on the known incurred (paid and reserved) losses for the applicant over the last five years. An average of those losses over the last five years divided by the anticipated contribution for the first year in the Pool will generate a loss ratio. This loss ratio and the experience modifier, if available, will be used in the initial review to determine the extent of risk management assistance required and contribution surcharge to be assessed during the initial period.

Risk Management/Loss Control Efforts

Risk management efforts will include the following factors:

Comprehensive General Liability

* Members should focus on transfer of risk techniques, under which parties contracting with the Member agree to indemnify and hold the Member harmless should any claims against the Member arise out of those activities.

* Entities doing business with a member should be required to provide evidence of insurance that includes contractual liability protection to protect the contractor or supplier for the contractual responsibility undertaken. A contractor should verify to the member that appropriate limits of liability are provided.

* Members should be named as Additional Insureds on liability policies for the suppliers and contractors.

* Comprehensive General Liability seminars for information focusing on responsibilities of the county for operations and maintenance of their facilities will be stressed.

Auto Liability

* Defensive driving courses will be stressed, particularly for law enforcement personnel.

* Motor vehicle record checks should be obtained on new employees before they undertake their driving responsibilities. Motor vehicles record checks should also be obtained annually on current employees with driving responsibilities.

Section B. County Public Officials
Liability/County Law Enforcement Liability

The underwriting standards and procedures contained herein are to be utilized for the County Public Officials and County Law Enforcement program. Review of these underwriting standards and procedures will be conducted periodically, and appropriate revisions will be made as needed.

Availability

In accordance with Section 119.004(4), TEX. LOCAL GOVT. CODE, the Texas Association of Counties County Government Risk Management Pool will make both County Public Officials and County Law Enforcement Liability coverage available to any Texas county

making application to the Pool regardless of loss history. This coverage will be provided for an initial period of not less than one year. The county applicant will participate in risk management appraisal and adhere to recommendations presented in the appraisal. If the risk management techniques implemented do not result in the County's attaining a level sufficient to meet the program's underwriting criteria within the initial coverage period of one year, the county may be denied subsequent coverage by the Pool

A political subdivision other than a county may participate in the Pool and is entitled to the same coverage provided to a county and may participate under the same terms and conditions as a county. Authority is Section 119.009, Local Government Code, Amended to be effective September 1, 1993.

Underwriting Approach

There are no Texas Department of Insurance rates for these lines of business. The rates charged will be adjusted in subsequent reviews based on the actual experience of the program.

County Public Officials Liability is rated on the basis of "operating expenditures." The figure used for "operating expenditure" is intended to exclude expenditures for major capital additions or projects and expenditures for non-covered exposures such as hospitals, airports, schools, and housing authorities. The expenditures for these exposures will be added back if coverage is requested. Different rates will apply for these specific exposures. The basis for rating E & O coverage for applicants other than counties will be operating expenditures or other exposure units determined acceptable to our Pool reinsurers.

County Law Enforcement Liability is rated on the basis of number of law enforcement personnel. Various classes of exposure are developed and rates vary by class.

In addition to the standard rating, each application will be subjected to a review of prior loss experience and other pertinent underwriting criteria. A surcharge will be applied if the applicant does not meet basic underwriting criteria as established by the Board.

Coverages

There are no standard forms for Public Officials or Law Enforcement Liability in Texas. The forms used are manuscript forms approved by the Risk Management Pool Board. Both coverages are on a "claims made" basis. A brief description of the forms is set forth below:

RE: NEW QUARTERS FOR CONSTABLE AND JUSTICE OF PEACE
PRECINCT 3, SUGAR LAND, TEXAS

Dear Judge Cordes & Commissioner Pressley:

We are in the final completion of the design for bidding on the project in question. Project will be ready for your addition of general conditions and placing for bids by the end of this week.

We are enclosing an updated cost estimate of the work which reflects a $72,725.00 increase in our original estimate last February. This increase is brought about by enlargement in scope of work in the following areas.

(3) New Partitions (incl. doors and hardware)
(5) New lay in ceiling (incl. 9" insulation above ceiling)
(10) New lighting and power (incl. security system)
(11) New heating A/C & vent (additional A/C unit required)
(12) New addition of foyer and public toilets (50% increase)

Our total estimate of cost is presently $231,725.00. this equates to $33.78 a s/f for 6,860 s/f of building. This estimate does not include JP Bench and Jury Box or Parking Lot improvements.

We also respectfully request a $5,000 increase in our A&E fee to compensate for the additional work required to gather existing conditions because of lack of documents showing same, and for additional time required scoping the work with the two Users.

Original Agreement L/S	$11,500.00
Added Scope Change L/S	5,000.00
Total A&E Fee	$16,500.00

We recommend placing the project for bidding. If the low bid price exceeds the owners budget, we will make changes to contract documents, as required to get project within owners budget.

Sincerely,

T. Leo Dawsey, Jr.

M.I.S. Request for Commissioners' Court Action

M.I.S. requests the Court's permission to solicit bids for the electrical services and materials to install the county's 75 KVA Liebert Uninterruptible Power Supply (UPS). The bid will include installation and preventive maintenance for the unit and its batteries.

The existing UPS, a 37.5 KVA Elgar unit, is connected but inoperable because it cannot handle the load of our present computer room equipment. As a result, the mainframe computers and peripheral devices are vulnerable to "crashes" caused by electrical surges and outages which occur with alarming frequency. Recovery from such "hits" requires a minimum of one hour to reset devices and reinstate programs. It often takes longer.

Electrical problems such as these are costly:

> County employees who rely upon the mainframes cannot perform their mainframe tasks while the machines are down.
>
> Crashes often result in data being out of sync because file updates are interrupted. Fixing such problems can be time-consuming, causing further inconvenience for the users.
>
> The toll on the hardware is heavy. Burned-out power supplies, switches and fan motors are directly attributable to these power problems.

Once the Liebert unit is installed, it will work in tandem with the existing unit to protect all the equipment on the second floor of the Jane Long Annex. On a day to day basis, the unit will protect hardware from the momentary surges and glitches that currently interrupt electrical service, causing the equipment to fail. In the case of a complete power outage, the unit will allow us 12 to 15 minutes to perform a graceful shutdown, thus avoiding a crash and possible loss of data. In addition, the computer room will then have access to

the electrical power needed to hook up the new 4381 Model 91E and its peripheral hardware which are currently located in the hall.

In preparation, M.I.S. has contacted Engineering to review the technical specifications and prepare the drawings. Purchasing will develop an Invitation for Bids and arrange for a mandatory pre-bid conference for vendors to walk through the construction site.

Time Line estimate:

Engineering studies the proposal and prepares drawings - 2 weeks

Bid process - 4 weeks between invitation and acceptance

Actual work - 2 weeks from start to completion

Evaluate the existing systems to determine potential code deficiencies.

1.1.2 Task 2 Develop and Evaluate Viable Alternatives. Two alternatives are to be evaluated. These alternatives are:

1. Utilize fully the remaining 40 acres at county landfill site including operation as a type I or IV landfill, provide proper closure in accordance with Subtitle D and maintain post-closure activities, and

2. Discontinue the operation at the existing landfill, provide proper closure in accordance with Subtitle D and maintain post-closure activities as required.

The work to be performed under each alternative includes:

Alternative No. 1. Continuing Operation at Existing Landfill.

- Evaluation of two types of liner designs; composite and alternate.
- Prepare a conceptual design.

- Estimate of construction cost for liner, leachate collection and treatment systems, gas collection systems, monitoring system, and site work.
- Estimate of operation and maintenance costs, such as leachate collection and treatment, landfill operation, environmental monitoring, closure and post-closure care, gas treatment, final cover maintenance, site inspection, etc.
- Estimate of engineering costs for study, design, bidding assistance, and permit modification.

Alternative No. 2. Closure of Existing Landfill.

- Evaluation of alternative closure plans to minimize need for off-site soils.
- Develop a conceptual design.
- Estimate of construction cost of the capping system, monitoring system, and site grading.
- Estimate of operation and maintenance cost including environmental monitoring, capping system maintenance, and post-closure care.
- Estimate of engineering costs for study, design, bidding assistance, permit modification and preparation of post-closure care plan.

1.1.3 Task 3 Cost Effectiveness Analysis. The alternatives will be compared using their life cycle costs that consist of initial cost and operations/maintenance cost on present worth basis. The initial costs include engineering expenditures and construction of liner, landfill cap, leachate collection and treatment facilities, monitoring system, site work, etc. The O&M costs consist of landfill operations, leachate treatment, environmental monitoring, closure and post-closure care, gas treatment, final cover maintenance, site inspection, etc. The present worth of O&M costs will be calculated using an interest rate of 8 percent, an inflation rate of 5 percent and a life expectancy of 5 years. For Alternative No. 1, revenue from landfill operations will be estimated to off-set the O&M costs.

1.1.4 Task 4 Technical Review (QA/QC). Provide senior level engineer experienced in landfill design and operations to review the methodology, findings, and results of this study. The

reviewer will offer comments on the documents produced to date and will provide direction to the project team as appropriate.

1.1.5 Task 5 Study Report. Upon the completion of the alternative cost analysis, ENGINEER will prepare a summary of all costs associated with each alternative. This document will be presented to Fort Bend County Staff for their review prior to preparation of the final report. Once the County has reviewed all of the data, ENGINEER will incorporate COUNTY's comments and will prepare a final report that summarizes the cost evaluation, the advantages and disadvantages associated with each alternative and make a recommendation to the COUNTY as to the alternative to pursue. Submit five (5) copies of final report for COUNTY use.

CONTRACT EXTENSIONS
Extensions may be made ONLY by written agreement between Fort Bend County and the bidder. Any price escalations are limited to those stated by the bidder in the original bid.

TERMS AND CONDITIONS

1. SELLER TO PACKAGE GOODS: Seller will package goods in accordance with good commercial practice. Each delivery container shall be clearly and permanently marked as follows (a) Seller's name and address; (b) Consignee's name, address and purchase order number and the bid number if applicable; (c) Container number and total number of containers(e.g. box 1 of 4 boxes); and (d) the number of the container bearing the packing slip. Seller shall bear cost of packaging unless otherwise provided. Goods shall be suitably packed to secure lowest transportation costs and to conform with requirements of common carriers and any applicable specifications. Fort Bend County's count or weight shall be final and conclusive on shipments not accompanied by packing list.

2. SHIPMENT UNDER RESERVATION PROHIBITED: Seller is not authorized to ship goods under reservation and no tender of a bill of lading will operate as a tender of goods.

3. TITLE & RISK OF LOSS: The title and risk of loss of the goods shall not pass to the County until a County employee actually receives and takes possession of the goods at the point or points of delivery.

4. DELIVERY TERMS: F.O.B. Destination Freight Prepaid, Inside Delivery, unless delivery terms are specified otherwise on Purchase Order.

5. NO REPLACEMENT OF DEFECTIVE TENDER: Every tender or delivery of goods must fully comply with all provisions of the Purchase Order as to time of delivery, quality and the like. If a tender is made which does not fully conform, this shall constitute a breach and Seller shall not have the right to substitute a conforming tender.

6. PLACE OF DELIVERY: The place of delivery shall be that set forth in the block of the purchase order entitled "Ship To". Any change thereto shall be effective by modification as provided for in Clause number 20 "Modifications", hereof. The terms of this agreement are "no arrival, no sale", at the discretion of Fort Bend County.

7. INVOICES AND PAYMENTS:

a. Seller shall submit separate invoices, in duplicate. Invoices shall indicate the purchase order number and the bid number if applicable. Invoices shall be itemized and transportation charges, if any, shall be listed separately. A copy of the bill of lading, and the freight waybill when applicable should be attached to the invoice.

b. Fort Bend County's obligation is payable only and solely from funds available for the purpose of this purchase. Lack of funds shall render the order null and void to the extent funds are not available and any delivered but unpaid goods will be returned to Seller by county.

c. Do not include Federal Excise, State, or City Sales Tax. Fort Bend County is a tax exempt governmental entity.

8. GRATUITIES: Fort Bend County may, by written notice to the Seller, cancel any order without liability, if it is determined by the County that gratuities, in the form of entertainment, gifts, or otherwise were offered or given by the Seller, or any agent or representative of the Seller to any officer or employee of Fort Bend County with a view toward securing an order. In the event an order is canceled by the County pursuant to this provision, the County shall be entitled, in addition to any other rights and remedies, to recover or withhold the amount of the cost incurred by Seller in providing such gratuities.

9. SPECIAL TOOLS & TEST EQUIPMENT: If the price stated on the face of an order includes the cost of any special tooling or special test equipment fabricated or required by Seller for the purpose of filing this order, such special tooling equipment and any process sheets related thereto shall become the property of the County and to the extent feasible shall be identified by the Seller as such.

10. WARRANTY/PRICE:

a. The price to be paid by the County shall be that contained in Seller's quote or bid which Seller warrants to be no higher than Seller's current prices on orders by others for products of the kind and specification covered by an order for similar quantities under similar or like conditions and methods of purchase. In the event Seller breaches this warranty the prices of the items shall be reduced to the Seller's current prices on orders by others. Fort Bend County may cancel this contract without liability.

b. The Seller warrants that no person or selling agency has been employed or retained to solicit or secure any County order based upon any agreement or understanding for commission, percentage, brokerage, or contingent fee excepting bona fide employees of bona fide established commercial or selling agencies maintained by the Seller for the purpose of securing business. A breach or violation of this warranty gives the County the right, in addition to any other right or rights, to cancel this contract without liability.

11. WARRANTY PRODUCT: Seller shall not limit or exclude any implied warranties and any attempt to do so shall render an order voidable at the option of the County. Seller warrants that the goods furnished will conform to the specifications, drawings, and description listed in the bid invitation and purchase order as applicable, and to the sample(s) furnished by Seller if any. In the event of a conflict between the specifications, drawings, and descriptions, the specifications shall govern.

12. SAFETY WARRANTY: Seller warrants that the product sold to Fort Bend County shall conform to the standards promulgated by the U.S. Department of Labor under the Occupational Safety and Health Act of 1970. In the event the product does not conform to OSHA standards, the County may return the product for correction or replacement at the Seller's expense. In the event Seller fails to make the appropriate correction within 10 days, correction made by the County will be at Seller's expense.

13. NO WARRANTY BY FORT BEND COUNTY AGAINST INFRINGEMENTS: As part of a contract for sale Seller agrees to ascertain whether goods manufactured in accordance with the specifications will give rise to the rightful claim of any third person by way of infringement. Fort Bend County makes no warranty that the production of goods according to the specification will not give rise to such a claim and in no event shall Fort Bend County be liable to Seller for indemnification in the event the Seller is sued on the grounds of infringement or the like. If Seller is of the opinion that an infringement will result, he will notify Fort Bend County to this effect in writing within two days after the receiving Purchase Order. If the County does not receive notice and is subsequently held liable for the infringement, Seller will defend and save the County harmless. If Seller in good faith ascertains that production of the goods in accordance with the specifications will result in infringement, this contract shall be null and void except that the County will pay Seller the reasonable cost of his search as to infringements.

14. RIGHT OF INSPECTION: The County shall have the right to inspect the goods at delivery before accepting them.

15. CANCELLATION: Fort Bend County shall have the right to cancel for default all or any part of the undelivered portion of an order if Seller breaches any of the terms hereof including warranties of Seller, or if the Seller becomes insolvent or files for protection under the bankruptcy laws. Such rights of cancellation is in addition to and not in lieu of any other remedies which Fort Bend County may have in law or equity.

16. TERMINATION: The performance of work under a Purchase Order may be terminated in whole or in part by the County in accordance with this provision. Termination of work thereunder shall be effected by the delivery to the Seller of a "Notice of Termination" specifying the extent to which performance of work under the order is terminated and the date upon which such termination becomes effective. Such right of termination is in addition to and not in lieu of rights of Fort Bend County set forth in Clause 15 herein.

17. FORCE MAJEURE: "Force Majeure" means a delay encountered by a party in the performance of its obligations under this Agreement, which is caused by an event beyond the reasonable control of that party. Without limiting the generality of the foregoing, "Force Majeure" shall include but not be restricted to the following types of events: acts of God or public enemy; acts of governmental or regulatory authorities; fires, floods, epidemics or serious accidents; unusually severe weather conditions; strikes, lockouts, or other labor disputes; and defaults by subcontractors. In the event of a Force Majeure, the affected party shall not be deemed to have violated its obligations under this Agreement, and the time for performance of any obligations of that party shall be extended by a period of time necessary to overcome the effects of the Force Majeure, provided that the foregoing shall not prevent this Agreement from terminating in accordance with the termination provisions. If any event constituting a Force Majeure occurs, the affected party shall notify the other parties in writing, within twenty-four (24) hours, and disclose the estimated length of delay, and cause of the delay.

18. ASSIGNMENT-DELEGATION: No right or interest in an order shall be assigned or delegation of any obligation made by Seller without the written permission of Fort Bend County. Any attempted assignment or delegation by Seller shall be wholly void and totally ineffective for all purposes unless made in conformity with this paragraph.

19. WAIVER: No claim or right arising out of a breach of any contract can be discharged in whole or in part by a waiver or renunciation of the claim or right unless the waived or renunciation is supported by consideration and is in writing signed by the aggrieved party.

20. MODIFICATION: A Purchase Order can be modified or rescinded only by a writing signed by both of the parties or their duly authorized agents.

21. PAROL EVIDENCE: This writing is intended by the parties as a final expression of their agreement and is intended also as a complete and exclusive statement of the terms of this agreement. No course of prior dealings between the parties and no usage of the trace shall be relevant to supplement or explain any terms rendered under this agreement and shall not be relevant to determine the meaning of this agreement even though the accepting or acquiescing party has knowledge of the performance and opportunity for objection. Whenever a term defined by the Uniform Commercial Code is used in this agreement, the definition contained in the Code is to control.

22. APPLICABLE LAW: This agreement shall be governed by the Uniform Commercial Code. Whenever the term "Uniform Commercial Code" is used it shall be construed as meaning the Uniform Commercial Code as adopted in the State of Texas and in effective on the date of the purchase order.

23. ADVERTISING: Seller shall not advertise or publish, without the County's prior consent the fact that Fort Bend County has entered into any contract, except to the extent necessary to comply with proper requests for information from an authorized representative of the federal, state, or local government.

24. RIGHT TO ASSURANCE: Whenever the County in good faith has reason to question the other party's intent to perform. The County may demand that the other party give written assurance of his intent to perform. In the event that a demand is made and no assurance is given within five (5) days, the County may treat this failure as an anticipatory repudiation of the contract.

25. VENUE: Both parties agree that venue for any litigation arising from this contract shall lie in Richmond, Fort Bend County, Texas.

26. PROHIBITION AGAINST PERSONAL INTEREST IN CONTRACTS: No officer or employee of the County shall have a financial interest, direct or indirect, in any contract with the County, or shall be financially interested, directly or indirectly, in the sale to the County of any land, materials, supplies, or service, except on behalf of the County as an officer or employee. Any willful violation of this section shall constitute malfeasance in office, and any officer or employee guilty thereof shall be subject to disciplinary action under applicable laws, statutes and codes of the State of Texas. Any violation of this section, with the knowledge, expressed or implied of the person or corporation contracting with the County shall render the contract involved voidable by the County Commissioners Court.

It shall be the duty of such public body awarding the contract, and its agents and officers, to take cognizance of complaints of all violations of the provisions of this Act committed in the course of the execution of the contract, and, when making payments to the contractor of monies becoming due under said contract, to withhold and retain therefrom all sums and amounts which shall have been forfeited pursuant to the herein said stipulation and the terms of this Act; provided, however, that no sum shall be so withheld, retained of forfeited, except from the final payment, without a full investigation by the awarding body. It shall be lawful for any contractor to withhold from any subcontractor under him sufficient sums to cover any penalties withheld from him by the awarding body on account of the said subcontractor's failure to comply with the terms of this Act, and if payment has already been made to him the contractor may recover from him the amount of the penalty or forfeiture in a suit at law.

ENCLOSURE #3 (PREVAILING WAGES)

Sec. 3. The contractor and each subcontractor shall keep, or cause to be kept, an accurate record showing the names and occupations of all laborers, workmen and mechanics employed by him, in connection with the said public work, and showing also the actual per diem wages paid to each of such workers, which record shall be open at all reasonable hours to the inspection of the public body awarding the contract, its officers and agents.

Sec. 4. Any construction or repair work done under contract, and paid for in whole or in part out of public funds, other than work done directly by any public utility company pursuant to order of the Railroad Commission or other public authority, whether or not done under public supervision or direction, or paid for wholly or in part out of public funds, shall be held to be "public works" within the meaning of this Act. The term "locality in which the work is performed" shall be held to mean the county, city and county, city, town, district or other political subdivision of this state in which the building, highway, road, excavation, or other structure, project development or improvement is situated in all cases in which the contract is awarded by the state, or any public body thereof, and shall be held to mean the limits of the county, city and county, city, town, district or other political subdivisions on whose behalf the contract is awarded in all other cases. It is mandatory that the public body state such prevailing wage as a sum certain, in dollars and cents. Nothing in this Act, however, shall be construed to prohibit the payment to any laborer, workman or mechanic employed on any public work as aforesaid of more than the said general prevailing rate of wages.

Sec. 5. HEWLETT PACKARD SYSTEM UPGRADE PROPOSAL
RFP #93083 (Valid through June 30, 1994)

CONCERN	CURRENT SYSTEM	PROPOSED SYSTEM
#1 Ability to complete the 1994 tax statement processing	The system is inadequate to complete the tax collection process for 1994.	Possible delivery date may delay this processing. Vendor will not commit to an actual date until an order is placed.
#2 System availability for Tax Office users, taxpayers, mortgage companies, attorneys, etc.	Requires more MIS time and resources on a daily basis to back up the data and run reports. Users must be off the system during this time. This is critical during peak payment processing time when they must work late and on weekends.	Time needed to process daily backups and reports would be reduced dramatically due to faster tape drives and computer.
#3 Response/processing time (system performance).	Slow response time and lengthy report processing time cause delays for the auditing and posting of tax collections.	Rated at 4 times faster than the current system.
#4 Equipment reliability.	An example is that we currently must create two sets of backups when the H.P. requires service or preventative maintenance. Parts availability has been a problem causing delays for users processing tax payer information. Hardware failures have adversely affected data integrity and caused loss of data.	Only one set of tapes would be required due to greater reliability with new equipment. Parts availability should not be a problem due to local inventory.

6/24/94

CONCERN	CURRENT SYSTEM	PROPOSED SYSTEM
#5 H.P. support for hardware.	H.P. has already dropped support for one of our major computer devices and will eventually cease support of the equipment we currently use. Also, in anticipation of purchasing a new computer system, maintenance was recently dropped for several of our disk drives. If we keep this system, maintenance should be reinstated for this equipment to avoid costly repair bills and possible system downtime.	All equipment is supported by H.P. at a significant reduction in cost.
#6 Expandability of hardware.	We reached the maximum equipment limit H.P. recommends some time ago. Additional equipment would degrade system performance. Prior years' payroll and accounts payable data could be temporarily removed to provide additional disk space, however, this will not be sufficient for processing 1994 tax statements.	Able to meet our needs now and into the future without impacting system performance.
#7 Implementation of Tax System enhancements as agreed to in the delinquent attorneys' contract for years 1993 and 1994.	Not Possible.	Able to implement changes.
#8 Shortage of computer room floor space.	Takes 4 times as much floor space as the proposed system.	Takes 1/4 the floor space of the current system, thus lessening the consumption of air conditioning and electrical power.

JOINT POLICY STATEMENT OF THE TASK FORCE REGARDING JUVENILE CONDUCT IN SCHOOL DISTRICTS OF FORT BEND COUNTY

POLICY STATEMENT

EVERY ELIGIBLE CHILD IN FORT BEND COUNTY WILL RECEIVE AN EDUCATION EITHER IN A PUBLIC INSTITUTION OR IN AN ALTERNATIVE EDUCATIONAL OPTION OR PLACEMENT.

RECOMMENDED PROGRAMS

It is recommended that the school districts and the county authorities institute a three phase program to curtail juvenile misconduct on school campuses and to foster rehabilitation among students who fail or refuse to follow and obey school rules and regulations.

Phase I. Day Detention Facility

This program will address the high school age students who have been expelled from school for whatever reason. The placement in this program will be long term, e.g., at least one semester.

The program will require a facility for at least 60 students, divided into classrooms of approximately 15 students each. A curriculum and support services will be developed composed of core subjects with each student being assessed and a program developed to meet his or her needs. The school hours may be longer than regular school, e.g., 7:00 A.M. until 6:00 P.M., with support programs designed to meet the needs of both the student and the students parents.[1]

---

[1]"Parent" as used herein includes guardians and custodians.

The school district where the school is situated will be the fiscal agent. Each participating school district will collect ADA for each of its students in the program. Each participating school district will pay for student places at the beginning of the school year. Such places may be exchanged among the several school districts during the school year with the approval of the operating board of the Day Detention Facility.

The operating board shall be composed of a representative from each participating school district, and a member of the Juvenile Board and a member of the Fort Bend Commissioners' Court. The Board shall meet at least quarterly to review the status of the program and oversee the operations.

The fiscal agent will be responsible for staff, furnishings, supplies, texts, and supervision of the program. The County will be responsible for providing a facility, utilities, and security.

It is preferred that students enrolled in the program be under court order. However, guidelines will be established to allow school districts to directly assign students without court order.

Programs will be developed to address the need for parental involvement and training.

Phase II. STAR Program

This program will address the needs of junior high/middle school age students. The program will be designed in the mode of the STAR Program in use in Montgomery County, Texas.

The program requires a court order contingent upon an agreement between the child, parents, school district, and juvenile system, allowing the child to participate in the program.

Financing will be created through funding by the school districts either through grants or budgeted funds at the option of participating districts.

Two pilot programs should be established, one on the east side and one on the west side of the county at selected junior high/middle schools. An agreement among participating districts may allow transfer of students into the program.

The students and parents will be responsible for transportation. The sponsoring school will be required to provide a meeting facility and office for the program and staff, but the students will attend regular classrooms.

Programs will be developed to address the need for parental involvement and training.

Phase III. Residential Boot Camp

This program will be limited to juveniles who are under court order and for whom out of home placement is required. The child would undergo a 90 day military type training program and would attend either the day detention school, the school at the detention facility, or a school program designed at the camp.

This program would require the creation of a facility and staff to house 20 - 30 juveniles.

Programs will be developed to address the need for parental involvement and training.

SUMMARY

The first priority is the creation of a day detention facility. The STAR Program is the second priority. It is hoped that both programs can be implemented during the 1994/1995 school year. The Boot Camp is a long range plan that should be developed over the next three years.

There is a need for new legislation to address the disruptive student, who does not obey and follow rules and regulations. A sub-committee should be created to address this need and draft proposed legislation for presentation to State Representatives and Senators. A statute placing ultimate responsibility on parents for the conduct of their children should be developed and recommended.

item #39 continued - consider action on a joint policy statement regarding juvenile conduct:

Moved by Commissioner Lutts, Seconded by Commissioner O'Shieles, duly put and unanimously carried, it is ordered to adopt the Joint Policy Statement of the Task Force Regarding Juvenile Conduct in School Districts of Fort Bend County.

Also discussed renovation of the old County Engineer Office in Rosenberg as a temporary juvenile education facility at approximately $10,000. To be considered at a later date.

40. ADJOURNMENT:

Commissioners Court adjourned at 4:35 p.m. on Thursday, June 30, 1994.

MAINTENANCE SERVICES TERMS AND CONDITIONS

The following Terms and Conditions relating to Maintenance Services are in addition to the General Terms and Conditions contained on the reverse side of the Customer's copy of the Order Agreement.

1. **DESCRIPTION OF SERVICES PROVIDED**

Xerox will provide Maintenance Service for the Equipment as specified on this Order Agreement. The price for Maintenance Services is stated in the applicable Price List(s) and the specific price plan and initial term are indicated on this Order Agreement. Xerox may change terms and conditions at the end of any term after giving the Customer at least forty (40) days written notice. These changes will be effective at the commencement of the next renewal term or on the date specified in the change notice, whichever is later. Xerox may change prices at the end of any term or in the 13th and 25th (if applicable) month of a multiple year agreement after giving the Customer at least forty (40) day's written notice. The maximum amount that prices can be increased in the 13th, 25th, 37th or 49th month can be found in the Price List(s). Maintenance Services are only available for Equipment having a valid Xerox serial number and UL certification.

2. **DESCRIPTION OF AVAILABLE MAINTENANCE AGREEMENTS**

A. **FULL SERVICE MAINTENANCE ("FSM")**: FSM consists of the repair and/or replacement of parts and subassemblies to keep the Equipment in good working order as described more specifically in Paragraph 6 of the General Terms and Conditions.

B. **STANDARD MAINTENANCE ("SM")**: Except for photoreceptors, SM consists of the repair and/or replacement of parts and subassemblies to keep the Equipment in good working order as described more specifically in Paragraph 6 of the General Terms and Conditions. (Photoreceptors for the 1020/1025/1038 products are included into the SM minimum charge.) In addition, each service call requested by the Customer shall have a per call charge. Photoreceptor prices and call charge rates are contained in the Price List(s). **PHOTORECEPTOR PRICES AND CALL CHARGES ARE SUBJECT TO CHANGE WITHOUT NOTICE.**

C. **SERVICE CENTER MAINTENANCE ("SCM")**: If available and the Customer chooses this option, Maintenance Services, as more fully described in Paragraph 6 of the General Terms and Conditions, will be performed at a Xerox Service Center ("Center"). Unless the Customer is within fifteen (15) miles of a Center, it will be the Customer's responsibility to bring the Equipment to the Center. If within fifteen (15) miles of the Center, the Customer may elect, at an additional price, to have Xerox pick up the Equipment from, and return it to the Installed at Address. While the Equipment is in Xerox' possession, Xerox shall have risk of loss or damage to the equipment. Xerox does not represent or guarantee that the equipment will be repaired within any specific period of time.

D. **TIME AND MATERIALS ("T&M")**: If the Customer does not elect any of the Maintenance Services options described above, the Customer may choose to have Xerox provide Maintenance Services at the Time and Materials rates in effect at the time of the service call.

3. **PERIOD OF ASSURED AVAILABILITY FOR MAINTENANCE SERVICES**

Xerox guarantees availability of FSM, SM, and SCM for the Period of Assured Availability. The Period of Assured Availability for the Equipment and when it commences is stated in the Price List(s). The provision of Maintenance Services after the Period of Assured Availability, as available, is described on the applicable Price List(s).

4. **TERM OF CONTRACT/EARLY TERMINATION**

A. The term of this Agreement commences on the Installation Date. For Agreements signed prior to the end of the Equipment warranty period, the Installation Date will be the day following the expiration of the warranty period. The Installation Date for Agreements signed after the expiration of the warranty period will be the date the Order Agreement is signed by the Customer.

B. The term of this Agreement is set forth on the Order Agreement. Annual and multiple year contracts will expire on the last day of the 12th, 24th, 36th or 48th full calendar month, as applicable. Unless permitted below, termination of an Agreement by the Customer prior to the expiration of its term or the breach of an Agreement by the Customer will result in Early Termination Charges being assessed as set forth in the Price List(s). Such Early Termination is a material breach.

C. If applicable, Early Termination Charges will not be assessed if:

1. The Customer elects to trade to other equipment acquired from Xerox, in the same Product Family, and the New Equipment is on a Maintenance Services, Term Lease, or Equipment Services Agreement. This replacement equipment must be intended to perform the same functions and be at the same Installed at Address as the Equipment traded in.

2. The Customer elects to convert to another price plan (Equipment Services or Maintenance Services) and the term of the new Agreement is equal to or greater than the remaining term of this Agreement at the time of conversion.

D. At least thirty (30) days' written notice must be given by the Customer to terminate an Agreement, either during or at the end of term, except for price plan conversions or equipment trades.

E. The Customer may terminate an Agreement as it pertains to accessories without the payment of Early Termination Charges. This termination is contingent upon the removal of the accessories, and becomes effective on the date requested by the Customer with at least thirty (30) days prior written notice.

F. Except for Customer's breach, Xerox may terminate the Agreement only at the expiration of the Period of Assured Availability or any annual extension of such Period. Xerox will give the Customer at least thirty (30) days' prior written notice.

5. **NEW AGREEMENT ON CURRENTLY INSTALLED EQUIPMENT**

Unless Equipment is currently being maintained by Xerox on a Services Agreement or is in the warranty period, Xerox acceptance of a new Maintenance Services Agreement shall be conditioned on the Equipment passing inspection. The cost of inspection, as well as any charges necessary to bring the Equipment to Xerox Standards, including parts, will be borne by the Customer. The postage-meter, if any, must be inspected and released at the Customer's expense if it does not presently meet Xerox Standards.

6. **RENEWAL**

A. This Agreement will be automatically renewed for successive terms of the same number of months as the Initial Term unless written notification is received from the Customer. With proper notification, the Customer has the right to not renew. The notice of intent to cancel must be received from the Customer at least thirty (30) days prior to expiration of the then current term. Xerox will send a renewal notification to the Customer which will include price and terms and conditions applicable to the renewal term. This notice will be sent to the Customer at least forty (40) days prior to the expiration of the then current term.

B. A renewal term which would exceed the Period of Assured Availability will expire on the Period of Assured Availability expiration date.

7. **UPGRADES AND DOWNGRADES**

Equipment Upgrade(s) or Downgrade(s) will be subject to the Agreement at the FSM/SM/SCM charges, as applicable, in effect at the time the Equipment configuration was modified. Neither the term of the Agreement nor the Period of Assured Availability will be affected by the addition of Upgrade(s) or Downgrade(s). Attachment or removal of items identified by Xerox in the Price List(s) as features, accessories, or supply items will not be considered an Equipment Upgrade or Downgrade.

8. **ACCESSORIES**

Customer-owned Xerox accessories for which Xerox does not have a FSM/SM/SCM price will be subject to the Agreement at no additional charge. Customer-owned Xerox accessories for which FSM pricing is available, and whose mainframe is on an FSM Agreement, must be subject to an FSM Agreement at the prices specified in the Price List(s) and will have a term concurrent with the FSM Agreement pertaining to the Equipment to which they are attached.

9. **REMOTE INTERACTIVE COMMUNICATIONS FEATURE (RIC FEATURE)**

A. Certain Xerox Equipment, as indicated in the applicable Xerox price list, has a Remote Interactive Communications feature capability consisting of hardware and/or firmware (hereinafter the "RIC Feature"). At all times title to all items comprising the RIC Feature is and shall remain solely with Xerox.

B. Xerox grants to Customer a non-exclusive, royalty-free, fully paid license to use the RIC Feature in the United States only in connection with the equipment provided under this agreement (the "Equipment"). Customer shall not remove, alter, or disable the RIC Feature without Xerox' written consent and shall notify Xerox in writing of the new install location if the Equipment will be relocated. If Customer desires to transfer the title to Customer-owned Equipment Customer shall, prior to the title transfer date, notify Xerox and permit Xerox to remove and/or disable the RIC Feature. Xerox reserves the right to remove or disable the RIC Feature at any time and for any reason.

C. Customer shall use all reasonable efforts to ensure that persons employed by Customer or under Customer's direction and control (including consultants) abide by the terms and conditions of this Agreement including, without limitation, not knowingly permitting anyone to use any portion of the RIC Feature in a manner not authorized by this Agreement, and taking all reasonable steps to have such unauthorized use of the RIC Feature immediately cease. Customer agrees to notify Xerox in writing as soon as reasonably practical of such unauthorized use in the event that such unauthorized use continues after Customer becomes aware thereof.

D. Contingent upon Customer dedicating a sole use telephone line to each unit of Equipment, Customer may receive from Xerox during the duration of the current term of a Full Service Maintenance Agreement, a monthly credit as set forth in the Applicable Price List. The credit shall appear in the form of a discount on the Customer's monthly (Equipment Services/Lease, or Full Service Maintenance Agreement) invoice, as applicable. Following the expiration of the then current agreement term, Xerox may change the amount or eliminate the monthly credit without notice to Customer.

10. **REMEDY**

The remedies are as described in Paragraph 6.C of the General Terms and Conditions, except if the Equipment is an Engineering and Graphics Product. In this case, if Xerox determines that a replacement unit for the same product is no longer available, Xerox may discharge its obligations under this Paragraph by making payment to the Customer equal to the Trade-in value based on the original List Price or current List Price of such Equipment, whichever is greater.

11. **EXCHANGE OF EQUIPMENT TITLE UPON REPLACEMENT**

In the event Xerox replaces the Equipment, under Paragraph 3 or 6.C of the General Terms and Conditions, Customer warrants that it has and is transferring to Xerox good and marketable title to the replaced Equipment free from any non-Xerox security interest, lien, or other encumbrance. If the replaced Equipment is leased by Customer from other than Xerox, Customer warrants that its lessor has authorized the transfer of title of the replaced Equipment to Xerox and that as lessor it has good and marketable title to the replaced Equipment free from any non-Xerox security interest, lien, or other encumbrance. At the time of installation of the replacement Equipment, title to that Equipment and risk of loss will pass to the Customer from Xerox.

12. **TRANSFER OF EQUIPMENT TITLE**

In the event the Customer wishes to transfer title to the Equipment for which Maintenance Services is being provided, Xerox will offer Maintenance Services to the transferee of the Equipment, upon the receipt of a Xerox Order Agreement from the transferee, subject to the then current Xerox prices, terms and conditions, and policies.

13. **BREACH**

If the Customer fails to pay in a timely manner for the Equipment for which Maintenance Services are being provided, Xerox can withhold Maintenance Services from that Equipment, even if a Maintenance Services Agreement is in effect.

Unit Road Committee - Arthur C. Mahlmann, Chairman
Subject: Study of an Optional Road System
(Unified Road System) in Fort Bend County.

The Taxpayer's Coalition of Fort Bend County has completed a comparative analysis of the road and bridge maintenance functions in Fort Bend County and other Texas counties, specifically - Bell, Kerr, Williamson and Collin. The purpose of the study was to determine the most cost effective method of providing for road and bridge maintenance functions within the options provided by statutes. *Our study indicated that there is a potential of saving* ***up to 5 million dollars from our road and bridge budget that has ranged from 12 to 15 million dollars over the last 7 years*** *by adopting a more efficient organization structure.*

The main focus of our study was an analysis of Bell County compared to Fort Bend County. Statistics and cost information from 1990 were used extensively since we had access to most complete information for that period. We have also included current information on Fort Bend and other counties. *It is our hope that our findings will motivate our County officials to implement the Unified Road System provided for by statute in Fort Bend County.*

The current Optional County Road Law is provided for in Article 6702-1 (County Road and Bridge Act) of *Vernon's Civil Statutes*, which defines the organization of county road systems and details the authority and responsibility of commissioners court regarding construction and maintenance of a county's roads and bridges. Chapter 3 of the Road and Bridge Act lists the options for organizing road and bridge maintenance responsibilities.

Fort Bend County currently operates our road and bridge maintenance system under the supervision of County Commissioners. This often leads to duplication of effort and resources. *For example, Fort Bend currently has seven equipment and materials barns located throughout the county. In some cases, barns for different precincts are actually in close proximity to each other.* The Unified Road System vests the construction and maintenance of county roads in a county road department with the commissioners court as the policy determining body, the county road engineer as the chief executive officer with supporting administrative personnel and road employees. The administration of the county road department is on the basis of the county as a whole without regard to commissioners precincts. When properly implemented, our study shows this system has been the most cost effective and efficient method of providing it's required services.

The Taxpayer's Coalition of Fort Bend County conducted a study over an eight month period between October, 1993 and June, 1994. We attempted to find counties that were comparable to Fort Bend and were currently utilizing a Unified Road System so that any findings would be applicable to Fort Bend. Bell County proved to be relatively comparable to the current situation in Fort Bend County and as previously stated, we used 1990 data from Bell County in much of our analysis.

Bell County elected to operate under the Optional Road Law of 1947 in the late 1940's. The county engineer administers the road department and the county commissioners have no regular business with the road department. As has been mentioned previously in this report, Fort Bend currently operates under a precinct system. Bell County and Fort Bend County are similar in road mileage, area, and population. Funding needs are primarily determined by the number of miles of road and the number of bridges a county must maintain.

Road maintenance and construction costs which include road crew personnel costs, supplies costs and materials ranged from $3,522 per road mile in Bell County to $13,157 per road mile in Fort Bend County. Bell County's surfacing material cost was $744 per mile while Fort Bend County's cost was $4,356 per mile. Bell County has access to a limestone pit within the county and has the benefit of not having to haul materials from outside the county. However, there is also added cost for processing raw materials into usable forms. Therefore, Bell County's budget reflects the cost of processing, digging, crushing, mixing with asphalt and delivery to job sites. These costs bring Bell County's cost up to approximately $1,200 per road mile. Fort Bend County does not purcnase road "laid" material. The hauling is done by county vehicles and personnel and preparation costs are additional to material costs. Fort Bend County spent about $1 million more for personnel costs for construction crews than in surfacing materials.

Personnel costs can drastically effect overall expense and vary from precinct to precinct within Fort Bend County. The personnel costs in Precinct 3 averaged $27,468 per employee while the average in Precinct 2 was $50,997. The salaries of heavy equipment operators ranged from $13,837 in Bell County to $15,736 in Fort Bend; salaries of mechanics in Bell County averaged $17,530 and $21,994 in Fort Bend. Staffing in the engineering department was 7 in Bell County and 14 in Fort Bend County. Obviously, it would be beneficial to the taxpayers of Fort Bend to have greater consistency in staffing and salaries across the county while optimizing staff requirements.

Equipment inventory is another area that heavily impacts expenses. The number of passenger vehicles, cars and pickups inventoried is somewhat dependent on the number of employees in the road and bridge function. Heavy equipment inventory is dependent on mileage, area and the method of operation of the road department. A precinct based system requires a duplication of equipment within the county. Fort Bend County has maintained a significantly larger inventory of tractors, heavy mowers, shredders, bush hogs and chippers than Bell County, but has less road mileage than Bell County. Fort Bend County had 54 pieces of equipment compared to 34 pieces in Bell County in 1990. Graders, maintainers and excavators also followed the same trend. Bell County inventoried 16 while Fort Bend County had 30.

In the final analysis, the cost of a road department depends on the size of the county in road miles, total area and the method of organization. The method of organization dramatically impacts personnel needs, equipment inventories and surfacing material costs. Fort Bend County has had significantly higher staffing requirements at both the administrative and maintenance level, higher equipment inventories and higher material costs. Some of this difference is attributable to differences between precincts within Fort Bend.

An example of potential savings from improved operations is illustrated by differences between current precinct costs. Precinct 1 in Fort Bend has 473 road miles while Precinct 2 has 68 road miles. Using average cost figures from 1990, Precinct 1 cost per mile would be $12,963 while Precinct 2 would be $38,337 per mile. If the techniques used in Precinct 1 to achieve cost effectiveness were applied on a county-wide basis, significant savings could be realized.

Another scenario involving differences between counties is illustrated by excluding costs unique to each county and comparing the remaining costs to analyze potential savings. Road material costs for Bell County were $717,582 ($744 per road mile x 965 miles) and $3,741,804 for Fort Bend County ($4,356 per road mile x 859 miles). If material costs are deducted from Total Road Budgeted Costs of $3,398,225 for Bell County and $11,301,626 for Fort Bend, the remaining cost for Bell County would have been $2,680,643 and $7,903,401 for Fort Bend County. This represents a savings potential of $5,222,758 in costs other than materials with a Unified Road System. Obviously, if Fort Bend County could realize even a portion of this potential, the effect on the budget would be significant.

CONCLUSION

A properly implemented Unified Road System offers the most cost effective means of operating a county road system. Counties that operate under the precinct basis assume that the average citizen elected to public office is fully capable of administering a road construction program. Each county is divided into four precincts with unique characteristics and the elected officials must negotiate and bargain with each other to divide budgeted road and bridge funds among the precincts. There is no consistency in policy, salaries, "perks" or procedures between precincts and frequently battles ensue over who has more miles of road, paved or unpaved, traffic volumes, etc. The inconsistencies are not based on county-wide needs, but on artificial political boundaries that may change from year to year. Our study has shown wide variances in costs between precincts and between counties for similar operations.

The centralized functions provided by a Unified Road System which employs a professional engineer or administrator who is responsible for reviewing the road needs of the county as a whole and distributes resources as needed without regard to precinct lines is the most effective system that we have identified. This system provides increased efficiencies in purchasing, use of labor and equipment needs. A centralized system does not mean that all departmental assets must be in one location. Counties utilizing a Unified Road System have strategically placed their equipment and personnel throughout the county. The main difference is that the distribution of resource is based on county-wide requirements, not on artificial political boundaries and there is a minimal duplication of resource.

RECOMMENDATION

The Unified Road System has worked extremely well in Bell County and is a model for other counties. Bell County would be an excellent example for Fort Bend County to emulate. This is further validated by the positive experiences of Kerr, Williamson and Collin Counties. Comments from these counties are included in this document. *The Taxpayer's Coalition of Fort Bend County urges the County Judge and Commissioners to adopt the Unified Road System as the organization structure of Fort Bend's road and bridge maintenance operations.*

REFERENCE COUNTIES THAT HAVE ADOPTED A UNIFIED ROAD SYSTEM

KERR COUNTY - The Judge and County Commissioners adopted the Unified Road System in 1990. County Judge William Stacy stated that the key to success is the Administrator. The first two administrators that were hired were not successful. However, the third person filling that slot is described as "Cracker Jack". Kerr County has a population of 36,000, road miles of 520 and a Road and Bridge budget of approximately $1,500,000 for 1995. The most difficult part of the transition from Precinct to Unified system was disposal of excess equipment.

WILLIAMSON COUNTY - The Judge and County Commissioners adopted the Unified Road System in October of 1993. Assistant Judge Jane Tableroir feels that all had agreed that this was the most desirable option. An administrator was hired from another county for a salary of $50,000 per year. Also hired were an Assistant Engineer, a Road and Bridge Superintendent, and two foremen to head the Administrative Staff. Williamson County has a population of 150,000, road miles of 1651 and a budget of $5,018,000 for 1995. The county has purchased a large tract of land centrally located to accommodate all facilities. Current plans are to close all five existing barns when the central facility is completed later this year.

COLLIN COUNTY - County Judge Ron Harris and the County Commissioners adopted the Unified Road System in 1981. This county was visited by Fort Bend County officials eight months ago. The Administrator is also titled the Director of Public Works. Collin County has a population of 304,000, 857 miles of road and a 1995 budget for road and bridges of approximately $6,200,000. The four original barns have been consolidated into one location called the "Unitary System". The Administrator has two Assistants, an engineer and a Superintendent of Road and Bridge. Eighty personnel are involved in the Road and Bridge Department.

This is a sampling of a few of the counties that have implemented a Unified Road & Bridge System in the State of Texas. When properly implemented and supported by Count Commissioners, this system has been extremely successful in controlling costs while providing for necessary functions.

Fort Bend County Cost Per Mile By Precinct In 1993-94

Fort Bend County currently operates under a Precinct Road System which means that each County Commissioner maintains the roads in their respective precincts, each has their own staff, county barns and equipment. The county also maintains a separate County Engineer department that is involved in road and bridge maintenance.

The following information compares cost per road mile in each precinct for 1993.

Voters feeling the heat

Regarding the editorial, "Troubling trend — Government job growth outstripping private sector" (Editorial page, April 30):

You articulate some interesting statistics which are relevant to all of us as taxpayers and citizens of the United States and Texas. The situation you describe, the typical Texan working over 25 percent of each work day to pay taxes, is grim and unlikely to change soon unless the voting taxpayers exert some discipline over our government.

Market economics, competition, and the willingness of the customer to pay for a service or product exert the discipline on the private sector which is currently absent in many cases in the government "public service" sector. The voters are the holders of the "discipline" of government services, scope and cost. As customers, we perhaps are happy with the level of service and cost that our state, local and federal governments are providing. Otherwise, we would surely be seeing more voters supporting fiscally sound policies and candidates who support fiscally sound government at all levels.

The doubling in per capita government jobs and spending should give policy-makers in something to ponder. However, perhaps more importantly, we should ask how our policy-makers will focus on this area of concern if their voters give them no signs (at the polls) of their level of concern and wishes for change.

I heard once that you can drop a frog in a pot of boiling water and he will struggle mightily to escape rather than being boiled alive.

Alternatively, if you put the frog in lukewarm, comfortable water and slowly heat the water temperature to boiling, you will boil the unalarmed frog to death. After over 30 years of unchecked growth in government size and spending relative to the private sector, perhaps we voters are beginning to "feel the heat."

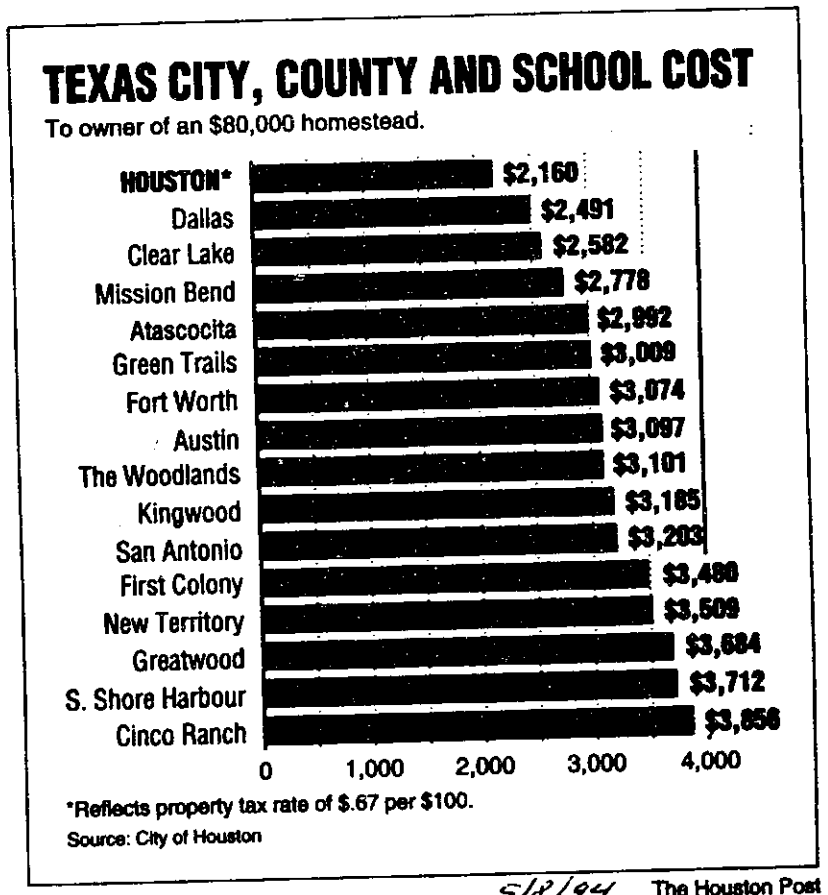

Texans cast their votes at the polls. According to the public-interest group, Citizens for a Sound Economy, the typical Texan spends two hours and 35 minutes out of each eight-hour day throughout the calendar year just to cover taxes.

Your editorial is right. Something has to give, and the first thing has to be the patience of the voters who are and have supported the growth we have seen.

If we are dissatisfied with the past and present trends, then let's campaign for and vote for candidates who support a more restrained level of government services, scope and spending in the upcoming election cycle. Otherwise, we will continue to get more of the same services, scope and spending growth.

COUNTY OF FORT BEND §

COOPERATION AGREEMENT

This Agreement, made and entered into by Fort Bend County, a body corporate and politic under the laws of the State of Texas, hereinafter sometimes referred to as "County", and the City of Meadows, a municipal corporation under the laws of the State of Texas, hereinafter sometimes referred to as "City".

WITNESSETH:

WHEREAS, the City has elected to have its population included as a portion of that population to the County in the County's "urban county" application to the U. S. Department of Housing and Urban Development for funding for the Community Development Block Grant Program, said application being hereinafter sometimes referred to as the "Grant Application;" and

WHEREAS, the City's area and population are within the boundaries of Fort Bend County; and

WHEREAS, the County is willing to include all of the City's population in the Grant Application and to cooperate with the City in the implementation of the City's Community Development Program; and

WHEREAS, the County certifies that it is following an approved Comprehensive Housing Affordability Strategy; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at VTCA Local Government Code §373.001 et seq., which provides, in part, for the authorization of cities to implement a community development program; and

WHEREAS, the governing body of the County duly authorizes this Agreement; and

WHEREAS, the governing body of the City duly authorizes this Agreement; and

WHEREAS, the Texas legislature has further enacted "The Interlocal Cooperation Act," Chapter 791, Texas Government Code, which provides, in part, that the County may contract with the City to perform governmental functions and services for the City;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That the County, and the City, in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the County agree to allow the U. S. Department of Housing and Urban Development to use the City's population and other necessary demographic characteristics in the determination of whether the County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

The City and the County acknowledge that this Cooperation Agreement covers both the Community Development Block Grant (CDBG) Entitlement Program and the HOME Investment Partnership Program; and

II.

The County and the City agree to cooperate in undertaking or assisting in undertaking, community renewal and lower income housing activities, specifically urban renewal and publicly assisted housing.

The City understands that it may not apply for grants under the small cities or State Community Development Block Grant Programs from appropriations during the period in which it is participating in the County's CDBG Program. The City further understands that it may not participate in a HOME consortium except through the County.

III.

The City and the County acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of Housing and Urban Development and that no determination has been made at the time of execution of this Agreement as to where and for what purposes funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such funds for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, the County may in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City has received no assurance, written or oral, from the County to the contrary, and is aware that the execution of this Agreement does not constitute any guarantee on the part of the County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

The City and the County acknowledge that failure by either party to adopt an amendment to the agreement incorporating all changes necessary to meet the requirements for cooperation agreements set forth in the Urban County Qualification Notice applicable for the year in which the next qualification of the urban county is scheduled shall automatically terminate the agreement following the expenditure of all CDBG funds allocated for use in the participating units jurisdiction.

IV.

This Agreement shall remain in full force and effect for the program years 1995 through 1997 (September 1, 1995 - August 31, 1998). The Agreement will be automatically renewed at the end of this period for consecutive three-year periods unless the Agreement is specifically terminated in writing by either party before the end of the County's three-year qualification period. The City and the County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit the County to allow the City and the County to withdraw from this Agreement or otherwise terminate the term of this Agreement at any time during the period covered by the Agreement except as otherwise provided hereinafter in Section XII.

Subject to the termination provisions of Section XII herein, The City and the County acknowledge that this Agreement remains in effect until the CDBG and HOME funds and income received with respect to the three- year qualification period and any successive qualification periods are expended and the funded activities completed and that the County and City may not terminate or withdraw from the Agreement while the Agreement remains in effect.

V.

In the performance of this Agreement, County and all cooperating units of general local government executing this Agreement agree to take all actions necessary to assure compliance with County's certification required by section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, including Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, section 109 of Title I of the Housing and Community Development Act of 1974, and other applicable laws.

VI.

The City agrees to inform Fort Bend County of any income generated by the expenditure of CDBG funds received by the City and that any such income shall be paid to Fort Bend County. Fort Bend County may, in its sole discretion, allow the City to retain program income provided that any and all such income may only be used for eligible activities in accordance with all CDBG requirements as may then apply. The City understands that Fort Bend County has the responsibility for monitoring income and reporting to HUD on the use of any such program income, and the City, therefore, agrees to meet such record keeping and reporting requirements as may be required by the County for this purpose. In the event of close-out or change in status of the City, any program income that is on hand or received subsequent to the close-out or change in status will be paid to Fort Bend County.

VII.

The City agrees and understands that the following terms and conditions will apply with regard to real property acquired or improved in whole or in part using CDBG funds that is within the control of the City during the term of this Agreement.

a) The City shall timely notify Fort Bend County of any modification or change in the use of property from that planned at the time of acquisition or improvement, including disposition.

b) The City shall reimburse Fort Bend County in an amount equal to the current fair market value (less any portion thereof attributable to expenditures of non-CDBG funds) of property acquired or improved with CDBG funds that is sold or transferred for a use which does not qualify under CDBG regulations.

VIII.

The City agrees that program income generated from the disposition or transfer of real property prior to or subsequent to the grant close-out, change of status, or termination of this Agreement shall be treated according to 24 CFR 570.504.

IX.

The County and the City acknowledge that the County shall not fund activities in or in support of any city that does not affirmatively further fair housing within its jurisdiction or that impedes the County's actions to comply with fair housing laws and orders.

X.

The County and the City acknowledge that the City has adopted and is enforcing, to the extent authorized by state law, a policy prohibiting the use of excessive force by law enforcement agencies against any individuals engaged in non-violent civil rights demonstrations in the city. COUNTY OF FORT BEND §

COOPERATION AGREEMENT

This Agreement, made and entered into by Fort Bend County, a body corporate and politic under the laws of the State of Texas, hereinafter sometimes referred to as "County", and the City of Missouri City, a municipal corporation under the laws of the State of Texas, hereinafter sometimes referred to as "City".

WITNESSETH:

WHEREAS, the City has elected to have its population included as a portion of that population to the County in the County's "urban county" application to the U. S. Department of Housing and Urban Development for funding for the Community Development Block Grant Program, said application being hereinafter sometimes referred to as the "Grant Application;" and

WHEREAS, the City's area and population are within the boundaries of Fort Bend County; and

WHEREAS, the County is willing to include all of the City's population in the Grant Application and to cooperate with the City in the implementation of the City's Community Development Program; and

WHEREAS, the County certifies that it is following an approved Comprehensive Housing Affordability Strategy; and

WHEREAS, the Texas Legislature has enacted the "Texas Community Development Act of 1975," codified at VTCA Local Government Code §373.001 et seq., which provides, in part, for the authorization of cities to implement a community development program; and

WHEREAS, the governing body of the County duly authorizes this Agreement; and

WHEREAS, the governing body of the City duly authorizes this Agreement; and

WHEREAS, the Texas legislature has further enacted "The Interlocal Cooperation Act," Chapter 791, Texas Local Government Code, Tex. Rev. Civ. Stats., which provides, in part, that the County may contract with the City to perform governmental functions and services for the City;

NOW, THEREFORE, KNOW ALL MEN BY THESE PRESENTS: That the County, and the City, in consideration of the mutual covenants and agreements herein contained, do mutually agree as follows:

I.

The City and the County agree to allow the U. S. Department of Housing and Urban Development to use the City's population and other necessary demographic characteristics in the determination of whether the County will qualify as an "urban county" as defined in the Housing and Community Development Act of 1974, as amended, and the rules and regulations promulgated pursuant thereto.

The City and the County acknowledge that this Cooperation Agreement covers both the Community Development Block Grant (CDBG) Entitlement Program and the HOME Investment Partnership Program; and

II.

The County and the City agree to cooperate in undertaking or assisting in undertaking, community renewal and lower income housing activities, specifically urban renewal and publicly assisted housing.

The City understands that it may not apply for grants under the small cities or State Community Development Block Grant Programs from appropriations during the period in which it is participating in the County's CDBG Program. The City further understands that it may not participate in a HOME consortium except through the County.

III.

The City and the County acknowledge that they are aware that the Grant Application has not yet been completed or submitted to the U. S. Department of Housing and Urban Development and that no determination has been made at the time of execution of this Agreement as to where and for what purposes funding, if any, for the Community Development Block Grant Program will be sought or expended. In this regard it is agreed that County shall not be obligated to seek funds for expenditure in the City or for assistance to residents of the City in the Grant Application. If such funds for expenditure in the City or for assistance to its residents are awarded as a result of the Grant Application, the County may in its sole discretion, override such distribution of the award and spend such funds elsewhere and/or for other purposes when necessary or desirable in order to achieve compliance with Title I of the Housing and Community Development Act of 1974, as amended, and all appropriate implementing regulations applicable thereto. The City has received no assurance, written or oral, from the County to the contrary, and is aware that the execution of this Agreement does not constitute any guarantee on the part of the County that funds received pursuant to the Grant Application, if any, will be expended for projects within the City limits of the City or for assistance to the residents of the City.

The City and the County acknowledge that failure by either party to adopt an amendment to the agreement incorporating all changes necessary to meet the requirements for cooperation agreements set forth in the Urban County Qualification Notice applicable for the year in which the next qualification of the urban county is scheduled shall automatically terminate the agreement following the expenditure of all CDBG funds allocated for use in the participating units jurisdiction.

IV.

This Agreement shall remain in full force and effect for the program years 1995 through 1997 (September 1, 1995 - August 31, 1998). The Agreement will be automatically renewed at the end of this period for consecutive three-year periods unless the Agreement is specifically terminated in writing by either party before the end of the County's three-year qualification period. The City and the County acknowledge that they have been advised and are aware that federal regulations applicable to the Grant Application do not permit the County to allow the City and the County to withdraw from this Agreement or otherwise terminate the term of this Agreement at any time during the period covered by the Agreement.

The City and the County acknowledge that this Agreement remains in effect until the CDBG and HOME funds and income received with respect to the three- year qualification period and any successive qualification periods are expended and the funded activities completed and that the County and City may not terminate or withdraw from the Agreement while the Agreement remains in effect.

V.

In the performance of this Agreement, County and all cooperating units of general local government executing this Agreement agree to take all actions necessary to assure compliance with County's certification required by section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended, including Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, section 109 of Title I of the Housing and Community Development Act of 1974, and other applicable laws.

VI.

The City agrees to inform Fort Bend County of any income generated by the expenditure of CDBG funds received by the City and that any such income shall be paid to Fort Bend County. Fort Bend County may, in its sole discretion, allow the City to retain program income provided that any and all such income may only be used for eligible activities in accordance with all CDBG requirements as may then apply. The City understands that Fort Bend County has the responsibility for monitoring income and reporting to HUD on the use of any such program income, and the City, therefore, agrees to meet such record keeping and reporting requirements as may be required by the County for this purpose. In the event of close-out or change in status of the City, any program income that is on hand or received subsequent to the close-out or change in status will be paid to Fort Bend County.

VII.

The City agrees and understands that the following terms and conditions will apply with regard to real property acquired or improved in whole or in part using CDBG funds that is within the control of the City during the term of this Agreement.

a) The City shall timely notify Fort Bend County of any modification or change in the use of property from that planned at the time of acquisition or improvement, including disposition.

b) The City shall reimburse Fort Bend County in an amount equal to the current fair market value (less any portion thereof attributable to expenditures of non-CDBG funds) of property acquired or improved with CDBG funds that is sold or transferred for a use which does not qualify under CDBG regulations.

VIII.

The City agrees that program income generated from the disposition or transfer of real property prior to or subsequent to the grant close-out, change of status, or termination of this Agreement shall be treated according to 24 CFR 570.504.

IX.

The County and the City acknowledge that the County shall not fund activities in or in support of any city that does not affirmatively further fair housing within its jurisdiction or that impedes the County's actions to comply with fair housing laws and orders.

X.

The County and the City acknowledge that the City has adopted and is enforcing, to the extent authorized by state law, a policy prohibiting the use of excessive force by law enforcement agencies against any individuals engaged in non-violent civil rights demonstrations in the city. The City has adopted a policy of enforcing applicable State and local laws against physically barring entrance to or exit from a facility or location which is the subject of a non-violent civil rights demonstration within the City.

XI.

The City agrees and understands that pursuant to 24 CFR 570.501(b), it is subject to the same requirements applicable to sub-recipients, including the requirement of a written agreement as set forth in 24 CFR 570.503.

AS PER ORIGINAL

XII.

Should the U. S. Department of Housing and Urban Development reject or refuse to accept this Agreement for any reason, the County may terminate this Agreement by giving written notice of the same to the City.

XIII.

The County and all cooperating units of general local government executing this Agreement agree that the County has authority to carry out activities which will be funded from annual Community Development Block Grants from Federal Fiscal Year appropriations and from any program income generated from the expenditure of such funds.

XIV.

SCOPE OF SERVICES

Derek Consulting Group ("DCG") shall provide project leader and specific consulting and systems implementation services to assist Fort Bend County ("the County") in the continued installation and training of staff in the use of its financial and payroll software (LGFS;GHRS) and to implement recommendations of the Post Implementation Review report.

DCG shall work with County staff to develop appropriate work plans for required tasks, which include responsibility and schedule assignment, as required and directed. This includes work plans for continuing work in existing application areas, as well as developing longer range plans for new applications and other requirements which study findings identify.

DCG shall also conduct two (2) procedures/operations reviews in key department areas to identify appropriate work flows and procedures under the new software environment. Procedures shall be documented in the form of a desk top Accounting Manual. In conjunction with these reviews, DCG shall identify training requirements. In conducting this work, DCG shall work closely with the County's Systems Accountant and MIS staff who are assigned to the project. County staff shall take active work roles in the projects and shall receive "on the job" training in the techniques used by DCG in the procedures/operations reviews.

Finally, DCG shall assist the County in identifying a consultant to assist in the implementation of the TOP SECRET security software for the MIS area.

SPECIFIC TASKS

The following are specific tasks DCG shall perform under the scope of this contract.

Phase I

Phase I tasks represent those items for which an appropriation has been made and approved as part of the initial agreement.

1. Conduct and participate in meetings to present findings of the Post Implementation Review report to Commissioners and other County management and staff as directed.

2. Assist the County in identifying potential candidates for the System Accountant position and other project related positions as requested. Participate in the interview of any finalist candidates/applicants as specifically requested.

3. Develop, in conjunction with County MIS, Auditor, and Treasurers staff, an overall work plan for the Phase I implementation of Post Implementation Review study recommendations. The work plan shall identify specific projects and outline a sequenced approach for their completion. The work plan shall:

   - Document the detailed work tasks associated with each project
   - Assign responsibility (e.g. County staff; consultant; vendor) for individual task/project completion
   - Estimate the time required to complete each task/project
   - Provide the logical sequencing of the projects.

4. Participate in the Working Group established to develop the upgrade approach for the GHRS software, including interim tasks and approaches. The purpose of the Working Group is to identify any issues which would require the GHRS software to be upgraded before January 1, 1996 and to develop the general approach for the upgrade (including interim enhancements required to the current version). This includes evaluating the impact of the new release on the other AMS system components (LGFS; CORE; etc.).

5. Conduct an operations/procedures review of work flows associated with cash management and investment processing, beginning with receipt processing and culminating with investment and management of invested funds. Bank reconciliation is also included in the process. A key deliverable resulting from this work will be procedures documentation in the form of a "desktop" Accounting Manual covering the areas/work flows which were analyzed during the study. The specific tasks include:

   a. Interview Treasurers and Auditors Office staff involved in the process and document the flows in a form that will lend itself to County staff participating in the process of identifying improvement opportunities. During interviews, DCG shall collect the forms and other sample documents required to prepare our "brown papers".

   b. Prepare "brown papers" of key transaction flows which are complex or have high probability of improvement. The "brown papers" are a unique approach DCG uses to help develop a thorough understanding of the organization, functions and process flows (both manual and automated) of an operation. The brown papers will show the following:

      - Overall work flow
      - Key forms and records maintained
      - The individual job functions involved in the flow
      - Interfaces with other organization units
      - Automated systems interfaces

c. Review the documentation for the AMS Treasury Management software to develop understanding of the capabilities of the software. Conduct a high level walkthrough of the software in the test environment, and identify any requirements gaps, as appropriate. Gather literature/brochure information and conduct high-level comparative review of PC-based software which may better meet overall requirements, as appropriate.

d. Facilitate structured walkthroughs with Treasurers and other appropriate County staff (e.g. Auditors Office) to review the documented work flows and identify the improvement opportunities. The session should also serve as a forum where all staff can gain an overall understanding of the Department's work flow. The outside auditor (Null & Associates) will also participate in the walkthroughs.

e. Document findings and opportunities for improvement resulting from the structured walkthroughs in the form of a "bullet point" report.

f. Provide a recommendation as to whether the AMS software is appropriate for the County's treasury management tracking needs. If not, identify potential PC-based software candidates based on the findings of Task 5.c. above.

g. Develop an action plan outlining how Treasurers should proceed with the implementation of the Treasury Management system. The plan should also identify other areas for further study.

h. Document policy and procedures for the work flows covered in the "brown papers" in the form of a desk top "Accounting Manual". The desk top manual will document work flow steps; identify specific staff responsible for conducting steps in the work flow; and, identify AMS procedures/screens/ reports associated with completing the transaction. *(A sample procedure is included as an attachment, demonstrating the general style/level of procedural detail).*

6. Conduct an operations/procedures review of work flows associated with payroll processing, beginning with time keeper functions performed by department/end user staff and culminating with payroll processing and post payroll reconciliation. Human resources functions related to setting up a newly hired employee in the payroll system and terminating an employee will also be included. The specific tasks include:

   a. Interview Treasurers, Department time keepers, and Auditors Office staff involved in the process and document the flows in a form that will lend itself to County staff participating in the process of identifying improvement opportunities. During interviews, DCG shall collect the forms and other sample documents required to prepare our "brown papers".

b. Prepare "brown papers" of key transaction flows which are complex or have high probability of improvement. The "brown papers" are a unique approach DCG uses to help develop a thorough understanding of the organization, functions and process flows (both manual and automated) of an operation. The brown papers will show the following:

- Overall work flow
- Key forms and records maintained
- The individual job functions involved in the flow
- Interfaces with other organization units
- Automated systems interfaces

c. Facilitate structured walkthroughs with appropriate County staff (e.g. Treasurers; Auditors Office; Departments) to review the documented work flows and identify the improvement opportunities. The session should also serve as a forum where all staff can gain an overall understanding of the Department's work flow. The outside auditor (Null & Associates) will also participate in the walkthroughs.

d. Document findings and opportunities for improvement resulting from the structured walkthroughs in the form of a "bullet point" report.

e. Document policy and procedures for the work flows covered in the "brown papers" in the form of a desk top "Accounting Manual". The desk top manual will document work flow steps; identify specific staff responsible for conducting steps in the work flow; and, identify AMS procedures/screens/ reports associated with completing the transaction. *(A sample procedure is included as an attachment, demonstrating the general style/level of procedural detail).*

7. Assist County management to locate a consultant to provide implementation assistance for the installation of the CA Top Secret security software in MIS. DCG will also develop a work scope for the project identifying contractor versus MIS staff responsibilities. Provide project leader user coordination/assistance for the installation as requested.

8. Assist County staff to develop requirements and a plan/strategy for additional training based on the procedures work completed during Phase I. Also, develop the specific work plan for Phase II of the project. Phase II is expected to address procedures studies in additional areas; additional staff training; and, the upgrade of GHRS to the new release. A LGFS upgrade may also need to be considered in Phase II.

9. Provide other general project management services as specifically assigned by the COUNTY PROJECT DIRECTOR. This includes participation in status meetings and presentations, gathering additional research information, and providing other systems related project leader services as defined.

Phase II

Phase II tasks represent additional services which may be required at a later date, subject to the findings of Phase I. *The specific scope, time estimates, and responsibilities associated with these tasks shall be determined at the conclusion of Phase I.* No funds are initially appropriated for services related to these specific tasks.

- Conduct additional operations/procedures reviews of work flows in other County departments as directed.
- Reassess security administration functions in conjunction with the implementation of the security software.
- Provide other systems consulting services as dictated by study findings and as directed by the County.

STAFFING

Fedor Derek, DCG's Principal, shall be the DCG PROJECT MANAGER and will be assigned as the project leader and a principal consultant performing the work on the project.

Assisting Fedor on the project will be Christine Walker, who will serve as an Application Specialist on the project and will be actively involved in the operations/procedures reviews. She is a CPA and is currently completing a similar "brown paper" assignment in the Personnel Department of Spring Branch ISD.

Other DCG consultants required to perform specific tasks will be reviewed for approval with the COUNTY PROJECT DIRECTOR prior to be assigned to the project team.

The County will assign the new System Accountant to the project team on a "full time" basis to assist and obtain "on the job" training in the techniques associated with the procedures review. In addition, the County will make staff in departments available for interviews and walkthroughs as required.

Re: Farmer Road Traffic/Safety Study

Dear Commissioner Lutts:

As per your request a safety study was performed on or about June 9th, 1994. The intersection of Farmer Road and Skinner Road presents three safety hazards due to visibility.

First, The Alignment of Farmer Road has a severe curve just north of the intersection with Skinner Road. Additionally, Farmer Road transitions from a 41 foot concrete paving width to the standard Fort Bend County 22 foot asphalt roadway section with open ditch design.

Second, The Park Patrons park their vehicles on the 41 foot section of pavement just north of the intersection on Farmer Road creating a hazard for South bound traffic.

Third, The visibility is reduced for north bound traffic on Farmer Road as they approach the intersection with Skinner Road due to a line of trees and vegetation along the east right-of-way line, that blocks the view of the park.

The first hazardous situation cannot be changed. The second and third hazardous situations may be changed, but would have to be alleviated by the managing association for the park itself. To remedy the situation, the park association would have to provide additional onsite parking and probably make arrangements to have the trees removed off the east right-of-way line of Farmer Road for a convenient sight distance. However if the safety hazard situation remains, the County has three options that would help the situation if not resolve it:

First, Install a Flashing Red light in all directions at the intersection.

Second, Install flashing amber light for traffic on Farmer Road with the remaining stop sign on Skinner Road.

Third, Install a multiway stop at the intersection for Farmer Road.

AS PER ORIGINAL

Mr. Steve Evans with Fort Bend County Engineering Department has conducted a traffic study previously during May and has recommended some speed reduction and signage. This recommendation has already been completed for the intersection. The traffic study itself could find no warrants to make the intersection a multiway stop.

The options listed above are not warranted by traffic. However, from a safety standpoint, any one of these options could be used to reduce the hazardous situation. The first two options would be to costly to install and it would create a monthly indebtedness for someone to pay.

Should you have any questions, please do no hesitate to call.

Sincerely,

Nathan D. Hatcher
Assistant to the County Engineer

CC: Commissioner Pressley, Precinct 3
