A RESOLUTION OF THE FORT BEND COUNTY COMMISSIONERS' COURT IN COOPERATION WITH OTHER GOVERNMENTAL ENTITIES RELATING TO FEDERAL AND STATE UNFUNDED AND UNDERFUNDED MANDATES

WHEREAS, federal and state unfunded and underfunded mandates have increased significantly in recent years; and

WHEREAS, even though many of the programs and procedures mandated by state and federal governments are needed, useful, and should be implemented, these mandates imposed upon local governmental entities restrict the initiative and judgment by local officials to make decisions based upon local circumstances and needs; and

WHEREAS, federal and state mandates are often inflexible and impose unrealistic time frames and specify policies requiring certain procedures when less costly alternatives might be as effective; and

WHEREAS, unfunded and underfunded mandates do not take into consideration local resources, but instead require citizens to pay higher taxes or receive less services, or both;

NOW, THEREFORE, BE IT RESOLVED that Fort Bend County Commissioners' Court in cooperation with other governmental entities in Texas, endorses efforts to inform citizens of Fort Bend County of the impact of federal and state mandates on the budget of Fort Bend County; and

BE IT FURTHER RESOLVED that Fort Bend County Commissioners' Court resolves to work with state and federal officials to keep them informed of the impact of federal and state mandates and of actions necessary to reduce the burdens on the citizens who pay taxes to support the operations of Fort Bend County; and

BE IT FURTHER RESOLVED that Fort Bend County Commissioners' Court will present copies of this resolution to the Governor and Lieutenant Governor of the State of Texas, and all members of the state and federal legislative branches, and other appropriate governmental officials that represent the citizens within Fort Bend County.

The Regulatory Rumba

There's a new dance craze in Washington. It's called the Regulatory Rumba, and it consists of a lot of gyrating and weaving that enchants spectators but ultimately goes nowhere. The masters of this difficult dance may be found on Capitol Hill and in the White House. These politicos launch into the Rumba whenever anyone points out that federal regulations are exacting a crushing toll on the economy. Now a handful of congressmen, Republicans and Democrats alike, are trying to turn off the music and get the rulers of Washington to deliver some real relief.

At the forefront of change is Rep. Gary Condit (D., Calif.). The California Democrat has watched with dismay as Sen. Dirk Kempthorne (R., Idaho) has bargained away everything but the title of "no money, no mandate" legislation they introduced together. The bill is now so hollow that Rep. John Conyers (D., Mich.), one of the most mandate-loving Members of Congress, has agreed to co-sponsor it in the House, though not to offer a vote on it in his Government Operations Committee.

Gary Condit

So Rep. Condit has struck out on his own, circulating a discharge petition to bring his original mandate-relief bill to a floor vote. More than 100 Members have already signed on. Rep. Condit may have a tough time gathering more signatures, not only because of the implacable opposition of the leadership but because of a sell-out by his natural allies.

The Big Seven groups representing the non-federal layers of government—governors, mayors and so forth—have made a lot of loud noise about the harm caused by unfunded mandates. But at the first opportunity, the Big Seven's Washington representatives jumped at the weak compromise offered by the Democratic pooh-bahs to Sen. Kempthorne. They're not doing anything to aid Rep. Condit's efforts.

Another warrior on the regulatory front line is Rep. Thomas Ewing (R., Ill.). He's been struggling to put some teeth into the 1980 Regulatory Flexibility Act. The law requires federal agencies to report on the impact their regulations will have on small businesses and to minimize those effects. It's been largely ignored for a decade because it didn't offer businesses the option to sue the government for noncompliance. So Rep. Ewing introduced a bill to allow "judicial review." Although it quickly won 251 co-sponsors, the Democratic leadership wouldn't dare offer a vote on the measure.

Like other reformers, Rep. Ewing was forced to circulate a discharge petition. In the meanwhile, the congressman asked House Members to instruct conferees to push for a judicial review provision in the National Competitiveness Act.

The "new" Democrat White House's reaction? You guessed it—more Rumba. Judicial review was actually endorsed by Vice President Gore's reinventing government report last year. So the White House couldn't just come out and oppose it. Instead, the administration has proposed six "modifications" of judicial review. One of these amendments would give businesses only 60 days after a rule is issued to sue the government.

Of course many businesses don't even know about a rule 60 days after it's issued. So the effect of this modification would be to make the Regulatory Flexibility Act as hollow as it is now, while letting the administration claim it's doing something about the crippling burden of federal rules.

Thomas Ewing

Unlike Senator Kempthorne and other paper tigers, judicial review's advocates aren't willing to settle for an empty "compromise." They're insisting that conferees, who are to meet today, adopt the pure version of judicial review. Along with Rep. Condit's efforts, their struggle seems to offer the best chance to cut off the Rumba.

Rules, which has jurisdiction over much of this bill. It is very unlikely that a strong bill would emerge from the Rules Committee for consideration on the floor.

For these reasons, on August 3, 1994, I filed discharge petition number 25 in an attempt to force consideration of H.R. 140, the "no money, no mandate" bill. Fourteen members of Congress joined me in filing the resolution: Rep. Bill Clinger (R-PA), Rep. Charlie Stenholm (D-TX), Rep. Pat Roberts (R-KS), Rep. Tim Penny (D-MN), Rep. Steven Schiff (R-NM), Rep. Jimmy Hayes (D-LA), Rep. Rob Portman (R-OH), Rep. Karen Thurman (D-FL), Rep. Michael Castle (R-DE), Rep. Pete Geren (D-TX), Rep. Richard Pombo (R-CA), and Rep. Collin Peterson (D-MN). The discharge petition also allows for Rep. John Conyers to offer his language as a substitute for H.R. 140 and for Rep. Bill Clinger to offer an amendment to the legislation. As of August 8, 1994 there were 130 members who have signed the petition: House rules require 218 signatures in order to consider the legislation on the floor.

I believe that our discharge petition is fair and that it allows for Members to vote on specific mandate relief legislation rather than watered down versions passed by Committees. I have worked with the House Committee on Government Operations, which has jurisdiction over this issue, for well over two years. The time for Congress to take action is now, but Members of Congress must have an opportunity to vote on meaningful and strong language that would prevent the federal government from placing future unfunded federal mandates on local and state governments.

In addition to the discharge petition, a bi-partisan group of members on the Government Operations Committee are working on developing strengthening amendments to H.R. 4771. We will make every attempt to strengthen the Towns-Conyers bill in Committee.

We need your input. I urge you to adopt a resolution at your next meeting regarding "no money, no mandates" reform. I also urge you to adopt a resolution in support of discharge petition number 25 and for you to send the resolution to my office, to your Member of Congress and to your state and national organization. In addition, please contact your Member of Congress by telephone or during the August recess regarding the discharge petition.

We cannot give up this fight for "no money, no mandates". We have a meritorious case against the federal government, one that should be pursued until the problem is truly solved.

Sincerely,

GARY A. CONDIT

Dear Mr. Cordes:

I am writing to update you on congressional efforts to enact meaningful and strong mandate relief legislation and to ask for your assistance in this effort. Enclosed, please find a copy of an editorial on this subject that appeared in the Wall Street Journal.

First of all, I want you to know that I firmly believe that you have taken the correct and meritorious course of action by calling, pushing, and fighting for "no money, no mandate". Anything short of "no money, no mandate" will not solve the problems that federal mandates pose for local and state governments. It is that simple. Inside the beltway, associations, groups, and federal elected officials will call on you to compromise your principles: They will offer procedural gimmicks and empty promises. I urge you to stay on your course and continue the fight until meaningful "no money, no mandate" legislation is enacted.

As you may know, the Senate worked out a compromise on unfunded federal mandates, S. 993, also known as the Glenn-Kempthorne compromise. This legislation would allow lawmakers to raise a parliamentary point of order against legislation that places over $50 million in unfunded mandates on state and local governments.

Representative Ed Towns (D-NY), Chair of the Subcommittee on Human Resources and Intergovernmental Relations and Chairman John Conyers, Jr. (D-MI) of the full Committee on Government Operations introduced H.R. 4771, the House companion to the Glenn-Kempthorne bill. It is unclear at this point whether or not Chairman Conyers will take action on this legislation in the full Committee on Government Operations.

However, I do not believe that H.R. 4771 provides meaningful mandate relief to local and state governments. For example, the enforcement mechanism in H.R. 4771 remains the point of order requirement. In the House of Representatives, this requirement would not be effective because the House Committee on Rules routinely waives points of orders. By doing so, the legislation becomes meaningless. In addition, H.R. 4771, if passed by the Committee on Government Operations, would be referred and considered by the House Committee on

10. PROPRIETARY RIGHTS. Both Parties reserve the right to control the use of any of its symbols, trademarks and service marks presently existing or hereafter established. Both Parties agree not to use such words, symbols, trademarks, service marks or other devices in advertising, promotional materials or otherwise and that the display of such devices without the prior written consent of either will cease immediately upon termination of this Agreement.

11. RECORDS. The Medical Group agrees to provide NHA with such information as it may require in order to enable it to administer the provisions of the Agreement and to insure that quality care is delivered. The Medical Group and each Medical Group Physician's records bearing on the Agreement and required to determine the respective rights of the parties will be made available for inspection and copying by NHA when and so often as it may reasonably require, subject to the necessary written Participant authorizations.

12. ASSIGNMENT. This Agreement shall not be assigned by either party without prior written consent of the other party.

13. JURISDICTION. This Agreement shall be governed by and construed in accordance with the laws of the State of Texas and Dallas County, Texas.

14. TERMINATION. Either party may terminate this Agreement with or without cause by giving the other prior written notice of at least ninety (90) days.

15. TERM. Unless terminated as provided in Paragraph 14, this Agreement shall continue in force from contract year to year thereafter unless terminated by written notice by either party.

16. ENTIRE AGREEMENT. This Agreement, including Exhibit A (Medical Group Physicians and Specialties) constitutes the entire agreement between NHA and the Medical Group concerning the subject matter herein contained. This agreement supersedes any and all prior or existing agreements between the Medical Group and NHA concerning the subject matter hereof.

17. AMENDMENTS. This Agreement may be amended at any time if in writing presented by certified mail, return receipt requested, and duly signed by both parties.

18. EFFECTIVE DATE. This Agreement shall be effective as of the date first shown above.

4. PAYMENT OF SERVICE. So long as this Agreement remains in effect, the Medical Group agrees to accept a fee equivalent to those stated on Exhibit B as payment in full for Covered Services provided under this Agreement, including payments, co-payments, and deductibles for which the Participant is responsible. The Medical Group agrees not to require the Participant to pay any amount over that specified.

In the event treatment of a Participant is commenced by the Medical Group prior to the termination date of this Agreement, and continues beyond that date, the Medical Group agrees to accept the Physician Fee Schedule as payment in full for Covered Services until the conclusion of the course of treatment or the patient is transferred to the care of a Network Provider.

SPECIAL PAYMENT SITUATIONS.

4.1 Failure to seek Precertification for Non-Emergency Admission. If a Participant is admitted to a healthcare facility on a non-emergency basis without seeking preadmission certification and Provider renders non-emergency medically necessary Covered Services to the Participant during the hospitalization, the standard payment to that network Provider will be reduced by twenty percent (20%). The reduction will apply even if the UR entity certifies the admission during Admission Review. Provider will not bill the Participant for any reduction in payment under this Paragraph.

4.2 Non-Emergency Services at a Non-Network Facility. Non-Emergency use of a hospital or healthcare facility that does not have a network agreement will result in a fifty percent (50%) reduction in the standard payment amount. If a Provider renders non-emergency medically necessary Covered Services on either an inpatient or ambulatory basis in a Non-Network Facility, those charges for the use of the facility will subject to the fifty percent (50%) reduction noted in the foregoing sentence. The Provider is eligible for reimbursement for appropriate services rendered but will not bill the Participant for any reductions in payment under this Paragraph.

Notwithstanding the foregoing, NHA recognizes the right of the Medical Group to bill the participant for any and all charges which may arise from other than Covered Services as may have been contracted for outside the Agreement.

5. TIME OF PAYMENT. Payors will remit to the Medical Group the Amount such Payors are obligated to pay on behalf of a Participant within thirty (30) working days of receipt of a properly completed claim wherein assignment is accepted.

6. IDENTIFICATION OF PARTICIPATING PROVIDERS AND HOSPITALS. NHA will provide the Medical Group with a list of other Professionals and Hospitals who are participating as Preferred Providers.

7. LIABILITY INSURANCE. NHA and Medical Group agree to maintain comprehensive general liability and professional liability insurance or coverage under a legally established insurance trust or self-insured plan. NHA and Medical Group agree to provide satisfactory evidence of such insurance or other coverage upon request. NHA recognizes that Group is indemnified under the Texas Torte Claims Act.

8. MULTIPLE PREFERRED PROVIDER ORGANIZATION (PPO) MEMBERSHIP. It is understood by the parties of this Agreement that the Medical Group or each Medical Group Physician may be a member of one or more managed care organizations.

9. OTHER CONTRACTS. The Medical Group or each Medical Group physician has the right without limitation to enter into other provider agreements with persons other than NHA.

2.5 Referral of Participants. Each Medical Group Physician shall use his best efforts to refer Participants to Network Providers, and to admit or arrange for admission of Participants to Network Provider Hospitals, unless otherwise directed by the participant, provided that such referral or admission is medically appropriate.

2.7 Third Party Beneficiary. SUGGESTIONS FOR RESPONSE AND ACTION [by library staff] RB.

1. Allow older children left at the library at closing to telephone for a ride home.

2. When speaking to any disruptive person, walk over to them and tell them in a quiet voice that their behavior is inappropriate. Use a POSITIVE approach. For example:

   - If a child is running, ask him/her to "Walk, please."
   - If a patron is using a loud voice, ask him/her to "Talk quietly, please," or "Please lower your voice."
   - If a small child is throwing toys, ask him/her firmly but calmly to "Be careful or gentle with the library toys."
   - If a patron is eating or drinking in the library, ask him/her to "Please finish your drink or food outside."
   - If a parent starts to leave their child and/or asks you to "keep an eye on their child," ask the parent to "Please take your child with you. The library can not be responsible for children left unattended. You may take a toy or books to another department with you, but please keep your child with you."
   - If a group or individual is being rowdy, ask them to "Please find an appropriate library activity such as reading, etc."
   - If children are displaying inappropriate behavior, suggest alternative activities such as using the computers or reading a magazine. Have some game sheets available. Enlist older children to help cut out crafts or to help straighten the shelves.
   - If young children are crying, offer a distraction such as a stuffed animal or toy to play with until mom or dad can get their materials checked out. Adult services can offer to locate materials while the parent takes their unhappy child to the children's department's activity center.
   - Keep in mind that it is often not the child but the parent who is the true offender.
   - Be sensitive to cultural differences. For example, do not insist that a child look you in the eye when speaking to them, if you suspect that their culture may see this as inappropriate or offensive.
   - For the safety of children in the library, adults unaccompanied by children who are perceived as offensive should not remain in the children's area unless they have a valid reason for being there, such as parents and teachers selecting books for their children or doing children's literature research. The staff member should tell the offending adult that this area is reserved for children and that he/she might be more comfortable in another part of the library.
   - If a child is being disruptive, tell the child that his/her behavior is unacceptable and express what type of behavior you do expect of him/her.
   - Remember to praise children who are using good library manners.

CHILD LEFT UNATTENDED

1. Children left unattended are often frightened and crying and should be comforted by the staff.

2. If it is determined that a child is lost or left unattended, a staff member should take the child to the Youth Services manager or the person on duty at the Youth Services desk, who will try to identify and locate the parent/care-giver according to the following procedure:

   A. Walk around the children's area with the child, looking for the parent/care-giver.
   B. Page the child's parent/care-giver, using the name if known, or the child's name, if known. If no name is available, describe the child's physical appearance.
   C. When an adult is located, explain the library policy regarding unattended children.
   D. If the parent/care-giver is not found in the building, a staff member should stay with the child until someone can be located, through searching the database, phonebook, etc.
   E. If the parent/care-giver has not been located within an hour, the building manager will call the police.

3. If a youth under age 13 is alone at the library at closing time and appears to be vulnerable:

   - Library staff will attempt to call a parent If staff cannot reach parent on the first attempt, the building manager will call the police to come and assume responsibility for the child.
   - Two staff members (building manager and alternate) will remain with the child inside the library entrance until parent/care-giver or police arrives.
   - Library policy will be explained and a copy of the written policy will be given to the parent. (If there is an ongoing problem with a family, Police Department or Department of Children's Services intervention may be necessary.)
   - Under no circumstances will a staff member transport or take the child away from the library building.

CHILD REPORTED LOST OR MISSING

If a parent/care-giver reports a child age 12 or under missing, staff will follow this procedure:

1. Obtain name, age, and description of child. Ask parent/care-giver how extensively they have searched. Check children's area thoroughly, including bathrooms and offices.
2. Request assistance from library staff in all departments to search their areas. Provide a description of the child. Check the elevators, if your building has them.
3. Check outside the library.
4. Call the police if unable to locate the child.

The library staff reserves the right to seek the intervention of the library security force, the Police Department, and/or an appropriate social service agency in case of emergency (illness, library closing, disruptive behavior, molestation, etc.).

FORT BEND COUNTY LIBRARIES
POLICY ON UNATTENDED, LOST, OR MISSING CHILDREN

STATEMENT OF PURPOSE

It is the intention of this policy to enlist the cooperation of parents and other adults responsible for children to ensure that the Fort Bend County Libraries provides a safe and pleasant experience for all who use it.

POLICY STATEMENT

Parents/care-givers may not leave children aged five and under unattended in the library. Parents/care-givers are responsible for their children's behavior while in the library.

DEFINITIONS:

VULNERABLE CHILD is an unattended child of any age whose safety or well-being would be endangered if he/she were to be sent out of the building. Examples of endangerment include the child being too young to be on his/her own, the child being left alone in an unsafe area, being left alone in the dark, or being left alone outside the facility after business hours.

UNATTENDED CHILD is any young person using public library resources and facilities who is not accompanied by a responsible adult. An unattended child is not necessarily either a disruptive patron nor endangered. However, a vulnerable child under the age of 13, or unable to care for self, or left unattended for long periods of time on a regular basis, or not picked up at closing time is considered endangered.

DISRUPTIVE UNATTENDED CHILDREN OVER AGE 13

1. A staff member should tell the young person (s)he is causing a disturbance and that this is a warning.

2. Give a second warning, if necessary, in the presence of another staff member, to reinforce the message. Tell the youth that this is their last warning, and that at the next incident, (s)he will be asked to leave the library for the remainder of the day.

3. If the disruptive behavior continues, the youth should be asked to leave. Staff should accompany the child to the door and inform both child and staff that the child will not be permitted to return that day.

4. If the child exhibits disruptive behavior on a regular basis, the building manager may write a warning letter to be sent to the parent/care-giver, stating that further disruptions may result in the suspension of the child's library privileges.

DISRUPTIVE CHILDREN'S BEHAVIOR that is unacceptable in the library includes but is not limited to:

- Running, chasing
- Screaming, yelling, shouting
- Pushing, hitting, fighting, biting
- Throwing books or toys
- Prolonged crying or temper tantrums
- Bullying or bothering other people
- Jumping on furniture or stuffed toys
- Playing tag or hide-and-seek
- Dangerous use of toys
- Foul or rude language
- Bringing food or drink into the library
- Misuse of library materials or equipment

ROWDY GROUPS

1. Ask the members of the group calmly but firmly to stop the disruptive behavior and tell them what kind of behavior you expect from them. Ask if there is some kind of materials or information you can help them find, and let them know what services are available at the library. This may help defuse the situation.

2. Give a second warning, if necessary, in the presence of another staff member, to reinforce the message. Tell them this is their last warning, and describe what actions you will take if the warning is ignored. For example: "If you will not be quiet/stop throwing things/ etc., you will have to leave the library and come back when you can behave."

3. If the warnings are ignored, the person in charge should tell the group to leave immediately and that if they refuse, the police will be notified. If necessary, call the police.

4. Alert staff that the individuals are not welcome in the library for the remainder of the day.

DISRUPTIVE ATTENDED CHILDREN

1. Children who are being disruptive will be asked by staff to behave.

2. If the disruptive behavior continues, a staff member should inform the parent/care-giver that his/her child is disturbing others.

3. If the parent/care-giver refuses to cooperate or is unable to control the child, he/she and the child will be asked to leave.

DISRUPTIVE UNATTENDED CHILDREN UNDER AGE 13

If a child is unattended and is behaving in a disruptive manner:

1. The staff member will ask the child to correct the behavior.

2. If the behavior persists, obtain the child's name and attempt to locate the adult responsible for the child within the building. If the adult is located, explain to him/her that the child is being disruptive and inform them of the library policy. If the parent/care-giver refuses or is unable to control the child, he/she and the child should be asked to leave.

3. If the parent/care-giver cannot be located within the building, the staff member will attempt to contact him/her through searching the database, phone book, etc. When the parent/care-giver is contacted, (s)he will be told that the child is being disruptive, will be informed (or reminded) of the library policy, and will be told (s)he must pick up the child immediately. If (s)he is unable to come immediately, (s)he will be told that the child may stay this time, but that if a second incident occurs and (s)he refuses to or is unable to pick up the child if called to do so, the police will be called at that time. A warning letter will then be sent to the parent/care-giver stating that further disruptions may result in the suspension of the child's library privileges.

4. If the parent/care-giver cannot be contacted within an hour, or if the library is closing, the building manager should call the police.

5. If the parent/care-giver cannot be located and the child must leave (to catch a ride), the staff member will give the parent's/care-giver's name, address, and an account of the disruptive behavior to the Youth Services Department Head, who will then write the parent/care-giver, describing the incident and informing him/her of the library policy.

PROCEDURES (Disruptive Behavior)

DISRUPTIVE ADULTS

1. Adults will be told that their behavior is unacceptable and warned that if it continues they will be asked to leave.
2. If the disruptive behavior continues, the person will be asked to leave.

DISRUPTIVE BEHAVIOR is defined as any noisy, boisterous or acting-out behavior that is inappropriate in a setting where business is being conducted. Such behavior may represent a physical danger to the child or others, or may serve to interfere with the legitimate library business of other patrons or staff. Inappropriate activities include: running, throwing, eating, loud or abusive talking, fighting, moving furniture, excessive socializing, or any other activities that disrupt the library. Vandalism will not be tolerated.

FORT BEND COUNTY LIBRARIES

POLICIES AND PROCEDURES FOR DISRUPTIVE PATRONS AND UNATTENDED CHILDREN

DISRUPTIVE PATRONS

Everyone has a right to receive service at Fort Bend County Libraries in a calm, quiet and safe atmosphere, without disturbances from other customers in the library. Library staff has a right to provide services without fear of abuse or threatening behavior from people using the library.

Disruptive behavior, by persons of any age, that infringes on the rights of others using the library is unacceptable. Disruptive individuals will be asked to leave or will be removed from the library if the disruptive behavior is not stopped. Proper authorities may be called to enforce the policy. Library privileges of repeat offenders may be suspended.

Vandalism will not be tolerated.

Police will be called if illegal behavior occurs.

UNATTENDED CHILDREN

Fort Bend County Libraries encourages children of all ages to visit the library and to take advantage of the resources available for them. The library staff hopes that the children who use our libraries will perceive our facilities as warm, inviting and fun places to be. Many programs are offered to make libraries enticing to children and to help them enjoy their visits and develop a love of books, reading and libraries. Unfortunately, if children are left unattended for several hours when no library programs are being offered, they often become bored and disruptive.

Young children are not safe when left unattended in the library. In the United States, more than 50,000 children are abducted every year and never found; library staff cannot know whether children are leaving the building with parents or with strangers. The staff is not responsible for the supervision of children left unattended by their parents. Library staff may notify the appropriate authorities if they have reason to suspect that there is significant evidence of neglect or abuse.

Librarians spend a lot of time trying to get children into libraries, but occasionally, their natural exuberance and vulnerability can cause concern. Programs for children (story times, toddler times, puppet show, films, etc.) may present a problem. If patrons complain about the noise level, explain what the circumstances are. If the program is regularly presented at that time, tell the patron and suggest that (s)he may want to come back at another time.

For the protection and well-being of children who enjoy our libraries, the following policies and procedures have been established It is the responsibility of parents and care-givers to ensure the safety and appropriate behavior of their children while they are in the library.

SUBJECT: Disruptive Patron and Unattended Children Policy

In recent years our libraries have more and more been affected by disruptive behavior of all kinds. As a result, the staff has prepared a policy that deals with this issue, and with a related one--unattended children.

We have spent at least 6 months preparing the policy. It was reviewed and unanimously approved by the Library Board on September 13, 1994. The County Attorney's office was involved since the beginning, and has recently (9/28/94) approved it for your consideration.

We would like your approval on Tuesday, October 11, 1994. It will help us maintain a proper library atmosphere for those of our citizens who value good library service.

RE: **Da Camera Agreement**

Dear Mr. Bohachevsky:

This office has reviewed the proposed agreement with the Da Camera Society to perform a concert at the George Memorial Library. The enclosed Addendum has been prepared to clarify the source of the payment funds, and should be used instead of the addendum prepared by Da Camera. The Addendum is based on our understanding that the entire payment is to come from the grant funds; Da Camera's addendum suggested that only a portion of the money would.

If this Addendum meets with your approval, please have it signed by Da Camera and placed on the Commissioners' Court Agenda. With the Addendum, the Agreement is approved as to form.

Very truly yours,

James Stavinoha

County pursues Channelview firm for cleanup

By Scott Harper
POST ENVIRONMENTAL REPORTER

Harris County has filed new charges against a Channelview company already under court order to fix a landfill that was spilling wastes into the San Jacinto River.

In papers filed Friday, county lawyers allege that Pollution Control Management Corp. missed a mandatory Sept. 10 cleanup deadline. The county now wants a judge to rule the company in contempt of court.

If granted at a hearing next month, the offense could result in $500-a-day fines against company officials and new demands to remedy the landfill, said Ann Burton, an assistant county attorney working on the case.

"All of this is intended to just get them to clean up the property," Burton said Monday. "They've already done 93 percent of the work. But all of a sudden, they stopped."

No one answered repeated phone calls to the company on Monday.

The firm was sued in February for illegally dumping demolition debris and other construction material into its Channelview landfill that is licensed to accept only "inert solid wastes," such as concrete blocks, Burton said.

The illegal debris is often composed of lead-based paints and other chemicals, and officials fear these wastes will pollute soils and waterways.

As part of its lawsuit, the county presented pictures of a bulldozer shoving wastes toward the banks of the San Jacinto River.

A judge issued a temporary injunction against further dumping at the landfill and told operators to dig up all illegal debris so it can be disposed of in an environmentally safe manner.

It had been a hope, a dream, a wish that a reply from your office to my letter of September 15, 1994, with pictures from each of the above sites would say something like this:

> Mr. Strube, we thank you for calling these infractions of the law to our attention. We are instituting similar action to that which we took with regard to Causes 84056 and 84057 prepared by Vinson Elkins and filed by this office to correct these problems.

So help me, it is my opinion that if Vinson Elkins personnel drove 90 mph through the Courthouse Parking Lot your personnel would be out on the Courthouse lawn passing out RATIONALIZATION AND JUSTIFICATION CERTIFICATES. I held off mailing copies of my letter of September 15, 1994 to the majority of the Government Agencies at the end of the letter trusting and hoping that your office would serve the people of Ft. Bend County in correcting these unethical actions without the Agencies assistance.

With it being obvious that YOUR OFFICE IS GOING TO NEED ASSISTANCE IN DOING WHAT IS NEEDED TO BE DONE, you may rest assurred that the letters and pictures are in PRIORITY MAIL now with a copy of this letter included.

If you do not take action similar to the action you took against Frank Moore and George McKenzie in Causes 84056 and 84057 then in my opinion there is just grounds for DISCRIMINATION AND HARRASSMENT action by the Taxpayers involved, of which I am one as I had a loan on the McKenzie property at the time your office filed the litigation.

Certainly politicians are required to make public their list of major donors. In accordance with the Texas Open Records Act I ask that you send me the DONOR DETAILS from your last Political Campaign. I predict there are a number of individuals that are on the staff of Vinson Elkins that I will recognize and or can identify.

In Exhibit "A" attached, quoting from Causes 84056 and 84057, are laws that I suspect the above operating landfills are violating. There is no question that Missouri City is in violation of the 30 TAC 330.845 regarding permit for tire disposal site; 30 TAC 330.22 regarding solid waste storage requirements; and probably 30 TAC 330.123(c); 30 TAC 330.123(e); 30 TAC 335.302 with drums of what could be TOXIC LIQUIDS near Stafford Run Creek.

You are asked to petition the Commissioners Court for a position on the Agenda of their next meeting for me to present this issue and ask for their formal action to assist your office to place priority on filing Injunctions and issue clean up orders. Copies of the litigation necessary from Causes 84056 and 84057 can be copied. THERE IS NO REASON FOR DELAY.

CONSIDER THIS A FORMAL REQUEST BY A TAXPAYER IN FT. BEND COUNTY THAT THE COUNTY ATTORNEY"S OFFICE ENFORCE THE LAWS SET FORTH ABOVE AS APPLICABLE TO THE SOLID WASTE LANDFILLS LISTED HEREIN.

Personally delivered by W. P. Strube, Jr.

SUBJECT: DISCRIMINATION IN ADJUDICATING STATE OF TEXAS & FT. BEND COUNTY SOLID WASTE LAWS.

Attached in Exhibit A are the violations set forth in Causes 84056 and 84057 that warranted your filing $17,460,000.00 lawsuits against George McKenzie and Frank Moore. When the suits were filled in December 1993, I held a First Mortgage on the George McKenzie property so was equally involved though not listed in the suit.

Have these laws all been complied with by the following Solid Waste Dumps that I personally know have been freely operating since June 15, 1994?

(A) 3333 Fifth St., Stafford/Missouri City area (Exhibit C).

(B) 12718 Settmont, Missouri City, Texas (Exhibit D).

(C) 14501 Fondren Road, Missouri City, Texas (Exhibit E); It is my understanding that the Veterans Hospital formerly on Holcombe Blvd. is interred here. Is this correct?

(D) Missouri City property within the Stafford Run Phase of the FBFCWSC was found in October 1990 to be a major violator of the Solid Waste laws (Exhibit F). The Texas Health Department and the Texas Water Commission investigated and took action. Missouri City hauled scores of truck loads of broken concrete, asphalt, etc. to the McKenzie and Moore Sandpit Landfills ultimately the subject of your Causes 84056 and 84057 which you and your staff are well acquainted with, at least Portia Poindexter.

(E) Missouri City property within the Stafford Run Phase of the FBFCWSC today has what I would estimate to be 50,000 Cubic Yards of Illegal Solid Waste Material (Exhibit G). This includes 55 gallon drums of unknown liquids; in excess of 1,000 Mosquito Incubators (tires); tons of scrap metal; broken concrete pipe; tree trimmings; motorcycles; abandoned municipal vehicles; scores of loads of broken concrete; asphalt; clay; gravel; etc. Stafford Run Creek is seriously contaminated as is the lakefront on property Missouri City property acquired 4-5 years ago.

Missouri City in my estimation as an Engineer has 50,000 Cubic Yards of illegal Solid waste on their land within the Ft. Bend Flood Control and Water Supply Corporation in the Stafford Run area. There is contamination in both Stafford Run Creek and the Sand Pit Lake acquired by Missouri City as per the pictures attached hereto. Missouri City has over 1,000 Mosquito Incubators (Rubber Tires) stored on this floodway property in violation of Texas Law. Are you as Commissioners going to authorize the expenditure of tax payers money to clean up these violations or are you going to act to prevent such expenditure of Ft. Bend Tax money on cleaning up the violations of other government entities?

On October 5, 1993, the Commissioners Court ordered the Ft. Bend County Attorney to file suit against Frank Moore and Geroge McKenzie as well as any other person or company that has caused, suffered, allowed or permitted the offending activities, and successor in title or any interest to same, for civil penalties and injunctive relief and for other relief as is provided for in the Texas Clean Air Act, and the Texas Water Code and other polution control and environmental laws, rules, regulation and order of the State of Texas and United States of American and to take all other approrpriate legal action necessary to enforce the pollution control Texas Water Code Ann (Para. 26.124) and Texas Health and Safety Codes Ann. (Para. 382.114) and other environmental laws, rules and regulations of the State of Texas and United States of America with respect to these activities in Ft. Bend County.

You as Commissioners have been provided pictures showing violations of laws as enumerated in Ft. Bend County's Causes 84056 and 84057 resulting from your actions of October 5, 1993 by landfills at

3333 Fifth St. Stafford/Missouri City area.
12718 Settemonth, Missouri City.
14501 Fondren, Missouri City.

City of Missouri City on their land in Stafford Run area.

As a taxpayer, W. P. Strube, Jr. requests that the County Judge and the Commissioners Court take identical action to their action of October 5, 1993, pertaining to the aforementioned unauthorized storage and disposal of Solid Waste and Contaminants in such a manner as to create actual and potential pollution of nature so as to violate the environmental laws and regulations of the State of Texas, and the United States.

To not take identical action for identical violations of Texas Law in Ft. Bend County would obviously be demonstrating an act of DISCRIMINATION on the part of the Ft. Bend County Judge and Ft. Bend County Commissioners. It is the complainant's opinion that a settlement of $500.00 with the aforemewntioned violations of State and Federal law would not be in order.

The necessary formal order for your action today has been prepared for your convenience. This will enable you to take Formal Action Now. This is to advise that a complete report of what has been presented to you has also been sent to the following State and Federal Agencies;

FOR IMMEDIATE RELEASE
W. P. Strube, Jr.

MESSAGE TO FT BEND COUNTY COMMISSIONERS COURT

For approximately twenty five years, Mrs. Strube and I have owned property in Ft. Bend County. Our children were raised in the former Gambling Casino across from W.K.M. Manufacturing Co. on Highway 90-A in Missouri City. The reopening of the DUGOUT as a Casino could prove to be a GOLD MINE taxwise for Ft. Bend County.

Opening a CASINO in Ft. Bend County is not my motivation in being here today. As a few of you have known me this past quarter of a century, you have known me as a CRUSADER. Political Leadership told me in the early Seventies that we could not get Southern Pacific to clean up their Right of Way from Harris County to Rosenberg. I, with the assistance of the MEDIA did get the job done and most of it is kept mowed regularly even today.

Many told me that there was nothing that could be done to stop International Communism in its plans to take over the world. From 1957 - 1963, I spoke over 2,000 times in 30 Countries. In 1968 - 1970 it was my privilege to organize the Fund Raising Program to build two 250,000 Watt Christian Radio Stations to blanket Communist China and the Soviet Union with the Christian Message. This resulted in over 300,000 Radio Bible Churches in Russia and 300,000 Radio Bible Churches in China being spontaneously organized in the Seventies and Eighties. It was not our U,S. Military or our American Diplomats that brought about the removal of the Iron and Bamboo Curtains.

From 1973 - 1983 I served as a Para-Chaplain in Central Prison, Sugarland. Currently, I am working with Carol Vance, Director of the Texas Prison System on two projects planned to reduce the number of Prisoners returning to prison the second time. This could bring about a reduction in taxes.

Today, I am concerned about what appears to be DISCRIMINATION and HARASSMENT in Ft. Bend County. In December 1993, the Ft. Bend County Attorney, with the assistance of Vinson Elkins filed $17,460,000.00 lawsuits against two taxpayers involving their accepting solid waste in their abandoned sand pits. Quite interestingly these two litigations were settled for $500.00 each payable $50.00/month. This $500.00 payment did not even pay the legal fees of Vinson Elkins. To me, any attorny that settles a $17,460,000.00 lawsuit for $500.00 either had no basis for the litigation in the first place, or it was knowingly filed as pure unadulteratered HARASSMENT which I believe was the basic motivation.

Today, in Ft. Bend County there are three similar landfills in operation violating the same laws as set forth in the Ft. Bend County Attorney's Causes 84056 and 84057. These violations have been called to the County Attorny's attention in a letter of September 15, 1994, as per copy enclosed. There is no evidence that any action has been taken to stop these violations of laws pertaining to illegal dumping of Solid Waste in Ft. Bend County. This to me is DISCRIMINATION.

Re: *1994 Funds for New Jail*

Attached are estimated for the funds that will be required for staffing the new jail. We have included estimates allowing for various hire dates. There should be some funds available for the salary and related expense accounts in our current 1994 budget to help defray these costs. However, the exact amount can not be determined at this time. It should be noted that no funds have been added to our current 1994 budget for the Greatwood contract deputy or for any merit raises awarded through pay period 20. Considering information received from Human Resources there will be approximately $98,000 returned unused from the Merit Pool.

There is no reason to amend our budget at this time for salaries and related expenses, psychological fees, or to fully fund uniforms, due to the nebulas hire date. However, funds for the radios, badges, and patches are needed immediately so that requisitions and purchase orders can be prepared. These items all have delivery times of 6 to 8 weeks after the purchase orders are received. The amount currently needed is $39,000 for radios, $1,732 for badges, and $615 for patches, for a total of $41,353.

Honorable Roy L. Cordes, Jr.
County Judge
P. O. Box 368
Richmond, Texas 77469

Dear Judge Cordes:

On June 7, 1994, the Fort Bend County Juvenile Probation Department presented to Commissioner's Court a request for an amendment to the Juvenile Probation Department budget (018-4010) in the amount of $108,000.00. The court approved an amendment of $85,500.00 with the possibility that additional monies may be needed to pay August residential placement costs. During the months of June, July and August, the number of placed juveniles remained between 20-22 juveniles. In addition, 21 juveniles were committed to the Texas Youth Commission, exceeding our cap of 19 beds. Also, through our existing contracts, the Assistant Chief was able to negotiate two (2) free beds, one at Gulf Coast Trade Center and the other at Odyssey House. These two (2) beds represent a savings of $4,602.00 in residential care. Even with the exhaustion of the above resources, August billing for residential care totalled $32,517.85. In an attempt to offset county placement costs, the Juvenile Board unanimously adopted a resolution presented to the Texas Juvenile Probation Commission by Judge Culver and Judge Wagenbach. The resolution specifically outlined justifications and request for more T.Y.C. bed space and/or money, taking into consideration that the juvenile population (10-16) in Fort Bend County has risen from 17,000 to over 36,000 in seven (7) years. The Texas Juvenile Probation Commission granted at least $131,274.00 to the department to assist with diversionary cost. One possibility may be the development of an "In-Home Boot Camp". The money would be designated to hire drill instructors and support services for this project. By use of these funds, we invision that placement costs may be reduced and can remain within budgetary guidelines, if service levels remain the same in 1995.

Please enter this subject on the agenda of the County Commissioner's Court as soon as possible and let me know if I should be available to make a presentation.

Thanking you in advance for your courtesy and assistance, I remain

Yours very truly,

Walter S. McMeans

RE: 1994 Budget Amendments

RECEIVED
SEP 27 1994
COUNTY JUDGE

30,000 of contingency

This is a request to amend the County Court at Law No. 2 1994 Budget by adding $30,000.00 to fees and services, No. 4010, thus increasing the budget line item amount from $70,000.00 to $100,000.00.

This increase should enable me to pay all billed expenses during the 1994 budget year instead of having to carry them forward to 1995.

This increase is requested because of certain unusual expenses such as one criminal appeal which brought about payments of $1300.00 and all of the statements have not been received in that matter. It has been necessary to bring in a sign interpreter for a hearing impaired defendant for a hearing on Motions and it will also be necessary that this interpreter be utilized during the jury trial. Spanish speaking interpreters have been utilized in several cases for which a fee has been paid.

One juvenile certification hearing has been completed and another certification hearing is set in October, 1994. One juvenile respondent is also scheduled for a jury trial in November, 1994. The certification matters necessitate the employment of a psychiatrist, as well as, attorneys in each instance. It has been necessary to employ psychiatrists in several adult criminal cases too.

As you and the other members of the Commissioner's Court know all mental health cases require court appointed attorneys. Most juvenile matters require court appointed attorneys and in some instances payment of court appointed psychiatrist and independent investigation fees. An attempt is made to have the family reimburse the County for all or part of the court costs, attorneys fees, probation fees, and required restitution.

The additional sum of $30,000.00 should be sufficient for the balance of 1994.

Fort Bend County Racial Diversity Task Force

Judge Roy Cordes and commissioners, I appear before you out of concern of several hundred signed petitioners in Fort Bend County, to express the need for ethnic diversity in Fort Bend County Courts.

There are no minority judges with county-wide jurisdiction in Fort Bend County, a county whose minorities comprises approximately 46% of the total population (21% Black, 19% Hispanic and 6% Asian).

The U.S. Justice Department sought and received a temporary order through the U.S. District Court in Washington September 15, 1994. On September 27, 1994 the U.S. District Court ruled to halt elections for new judgeships in Fort Bend, Harris and Tarrant Counties.

In View of the U.S. District Court order and the position of the U.S. Department of Justice, which is that the creation of new courts in Texas will only perpetuate an election process that dilutes minority voting strength, We petition Commissioner's court to seek support of our legislators to change the present way judges are elected to a method that reflect the ethnic diverse representation we deserve.

MAINTENANCE AGREEMENT

Liebert Corporation, acting directly and/or through its designated representative ("Liebert"), agrees to provide and the indentified customer ("Customer") agrees to accept maintenance of the Liebert or other manufactured products, equipment and features identified in the Schedule(s) (individually or collectively, the "Schedule") attached hereto and made a part hereof (the "Equipment") in accordance with the provisions of this Agreement and in consideration of payment by Customer of the appropriate Maintenance Charges as set forth in the Schedule and any other charges hereunder.

I. Maintenance Plans and Services

Provided Liebert has full and free access to the Equipment, Liebert agrees to maintain the Equipment in good working order by providing some or all of the following services in accordance with the particular maintenance plan(s) and service(s) selected by Customer ("Maintenance Plan") as provided in section II below:

a. Scheduled preventative maintenance in accordance with the Maintenance Plan as well as the specific needs of the individual Equipment as determined by Liebert and arranged at times to minimize interruption of Customer's use of the Equipment. Preventative maintenance usually will include necessary lubrication, adjustments, and replacement of unserviceable parts, as described in the Maintenance Plan.

b. Unscheduled on-call corrective maintenance in accordance with the Maintenance Plan. Unscheduled maintenance will include adjustment and replacement of unserviceable parts as determined necessary by Liebert.

c. Conforming maintenance service in accordance with the written maintenance instructions of the manufacturer of the Equipment including the installation, as reflected in the Maintenance Plan or otherwise with the consent of Customer, of mandatory safety engineering changes required by the manufacturer.

d. Diagnostic assistance in determining probiem origin, to include reading log outs, testing and running of diagnostics, until specific failing unit (whether or not part of the Equipment) is isolated.

If included in the Maintenance Plan as selected by Customer, Customer will receive scheduled preventative maintenance services at mutually agreed upon times. If corrective maintenance is not included in the Maintenance Plan, unscheduled on-call corrective maintenance, conforming maintenance and diagnostic assistance will be available to Customer upon request at Liebert's applicable then published and effective time and materials rates.

If included in the Maintenance Plan as selected by Customer, Customer will be entitled to receive all of the above described services including preventative, corrective, conforming and diagnostic services at no extra charge except as otherwise specifically provided therein.

All maintenance services not otherwise scheduled will be available to Customer on a 24-hour, 7-day week basis (except legal holidays) and may be requested by calling, toll free, 1-800-LIEBERT (543-2378).

II. Maintenance Plan Selection

Customer shall select the Maintenance Plan, at the time of execution of this Agreement, from among the plans offered by Liebert and execute a Schedule with respect thereto. The Schedule will become a part of this Agreement upon written acceptance of the Schedule by Liebert at its Columbus, Ohio, offices. Customer may elect to change from one Maintenance Plan to another then available alternative if (a) Liebert is in receipt of written notice thereof from the Customer at least 90 days prior to the desired effective date of the change and (b) a substitute Schedule is executed by the Customer and accepted by Liebert prior to the effective date (upon which date the selected alternative shall become the Maintenance Plan hereunder).

III. Parts

a. Under certain of the alternatives which may be selected by Customer, and to the extent set forth in the Maintenance Plan, parts determined by Liebert to require replacement will be furnished on an exchange basis and installed by Liebert free of charge to the Customer. Parts removed from the Equipment under this type of plan become the property of Liebert.

b. Under certain of the alternatives which may be selected by Customer, and to the extent set forth in the Maintenance Plan, parts determined by Liebert to require replacement will be furnished at the then published and effective Liebert price(s) to customers.

Justification For Transfer of Funds For Part-Time Detention Staff

Due to the increased number of areas that have to be manned during each shift (3 Housing Units, Master Control Room, Intake/Release, Transportation to court/clinic) there are several critical areas that must be closed down whenever regular full-time staff are absent. Constantly closing down programs during a shift causes tremendous hardships and strain on both the staff and detainees alike. Overall security, state mandated out-of-cell time for detainees, therapeutic programs and the orderly routine operation of the facility are adversely affected to some extent whenever there is a shortage of manpower during any given shift.

It is imperative that we have the ability to call upon our trained and well-qualified part-time detention officers whenever a full-time officer is absent due to illness, vacation time, family emergency, holiday, or for training coverage. Our part-time staff also assist with the numerous transportation needs that arise. They also take many of the out-of-county trips and emergency long distant trips, thereby freeing up the full-time Detention Officers, Detention Secretary, Detention Superintendent and Probation Officers to perform their regular duties.

Our pool of part-time detention staff allows the detention center to maintain its standard of efficiency and the required services without having to constantly work short-handed. Security and overall safety of the staff and detainees are not placed in jeopardy whenever we have the ability to call up and pay our part-time detention officers.

We are therefore, requesting to transfer **$15,000** in funds from **018-0200** Salaries to Detention **09-0201** Temporary/Extra Help line item.

These transfer are all from within salary line items and funds are available because of several 90 day Family Leave of Absence (maternity leave) and monies accumulated while interviewing for a vacated Probation Officer position.

Notice of Effective Tax Rate

1994 Property Tax Rates in Fort Bend Parkway Road District

This notice concerns 1994 property tax rates for FB Parkway Road District. It presents information about three tax rates. Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state law. The rates are given per $100 of property value.

Last year's tax rate:

Last year's operating taxes		$ 0.00
+ Last year's debt taxes		$ 128,643.00
= Last year's total taxes		$ 128,643.00
÷ Last year's tax base	$	30,805,520.00
= Last year's total tax rate		$ .4176

This year's effective tax rate:

Last year's adjusted taxes (after subtracting taxes on lost prop)		$ 128,638.00
÷ This year's adjusted tax base (after subtracting value of new prop)	$	25,591,870.00
= This year's effective tax rate		$ .5027
x 1.03 = maximum rate unless unit publishes notices and holds hearings		$ N/A

This year's rollback tax rate:

Last year's adj. oper.taxes (after subtracting taxes on lost prop)		$ 0.00
Last year's adj. oper.taxes (after subtracting taxes on lost prop)		$ 0.00
÷ This year's adjusted tax base	$	25,591,870.00
= This year's effect. oper rate		$ 0.00
x 1.08=This year's max oper rate		$ 0.00
+ This year's debt rate		$ .5016
= This year's rollback rate		$ .5016

MONTHLY REPORT
AUGUST, 1994

The removal of vegetation from channels during August was accomplished by both shredding operations and by herbicide applications. Shredding was done on sixty-two (62) channels that included Big Creek II-B, Brookshire Creek II-F-1, Mustang Creek IV and Oyster Creek II-K.

Herbicides were applied to thirty-six (36) channels that included Clodine Ditch V-b, Dry Branch I-E, Dry Creek II-B-2, and Turkey Creek I-D.

The bridge crews worked on a variety of projects that included the repair of several watergates and two (2) bridges. They also repaired or replaced seven (7) low-water crossings and assisted with the installation of twelve (12) drop inlet pipes into several different channels.

Work continued on the excavation of the Big Creek Bypass with various machinery. The Northwest 9570 dragline dug approximately eleven thousand (11,000) cubic yards of spoil dirt which were leveled by the Dresser TD-25G bulldozers.

The excavation of the Brazos River II-GG-1 also continued, where the LinkBelt LS98-A dragline dug five thousand, three hundred (5,300) cubic yards of spoil material.

The Rapier NCK-305 dragline continued with the reshaping of Mound Creek and dug approximately sixteen thousand, six hundred (16,600) cubic yards of spoil dirt.

The following charge indicate which projects received work during August, 1994 and which machinery were assigned to each.

Drainage Agenda #1

The Honorable Roy L. Cordes, Jr.
P. O. Box 368
Richmond, Texas 77469

RE: DRAINAGE BOARD AGENDA ITEM

Dear Judge Cordes,

The attached Resolution Adopting Second Supplement to Capital Improvements and Impact Fee Order will be placed on the September 27, 1994 Drainage Board agenda for board consideration.

This resolution, if approved, will make a minor change in the Stafford Run - Middle Oyster Creek - Flat Bank Creek Service Area in the Lake Olympia area. This change will result in an even area swap of approximately 15.7 acres between the Middle Oyster and Kitty Hollow Lake watersheds. This change was requested by the developer of Lake Olympia. The resulting watershed divide will better suit his development plans.

The Drainage District staff has reviewed the technical merits of Lake Olympia's proposal and has no objection to approval of the resolution. This resolution has been reviewed by the County Attorney's office.

If you have any questions, please call.

Sincerely,

James Pohl for

Re: Kingsbridge Elementary School Traffic Control Devices

Dear Commissioner Pressley:

Kingsbridge Elementary School is scheduled to open August 17, 1994. This school is located on Bissonett Street just west of Highway 6. The Engineering Department has reviewed the attached school signing and markings plan as proposed in the School Impact Study for Kingsbridge Elementary School by Traffic Engineers Inc., and recommend approval of the devices shown. The speed limit along Bissonett Street should be set at 35 mph with a 20 mph school zone.

It is noted that this section of Bissonett Street is in its 1 year maintenance period and has not been accepted into the County Maintenance System. We are working to complete the final inspection of this project and get it into the County Maintenance System.

If you should have any questions or need any further information, please call me.

RE: TRAFFIC STUDY - DULLES AVENUE
LEXINGTON CREEK ELEMENTARY SCHOOL

Dear Ms. Wey:

Fort Bend County Engineering Department has reviewed the traffic conditions at Lexington Creek Elementary School and has recommended reducing the speed limit on Dulles Avenue from 45 MPH to 35 MPH from Highway 6 to Lexington Avenue. A 25 MPH School Zone limit was also recommended.

As you are aware, Dulles Avenue is a major thoroughfare and must carry in excess of 20,000 vehicles per day. A reduction in the speed limit will limit the capacity of this roadway. The staggered opening and closing times of the school creates the need for a school zone limit from 7:00 AM to 4:00 PM. This time includes the peak hour traffic volumes.

Commissioners Court will hold a public hearing to discuss the speed limits on Dulles at 10:00 AM September 27, 1994 at the Commissioners Courtroom in Richmond.

If there are any questions or need for additional information, please call.

Sincerely,

Louis Hood

RE: DULLES AVENUE TRAFFIC CONTROL

Dear Commissioner:

As per your request, we have reviewed our previous recommendation for the speed limits along Dulles Avenue. The speed limit along Dulles from Highway 6 to Lexington should be set at 35 MPH with the Lexington Creek Elementary School set at 25 MPH.

This reduced speed limit will be difficult to enforce since the school zone is set from 7:00 AM to 4:00 PM due to the staggered opening and closing times. We will continue to monitor the conditions along Dulles after the school opens and can make any adjustments required.

A revised school zone plan is attached for use in signing the school zone. Note the cross walk previously shown on Dulles at Wavertree Drive has been deleted. The contractor for the signal at Plantation Colony Drive will put in the crosswalks at that location.

Should you have any questions or need additional information, please do not hesitate to call.

Sincerely,

Louis E. Hood

Re: Closing 1989 Tax Bank Account #802-900195-6

Dear Marsha,

We have reviewed your letter that explains the transactions that are necessary in order to close the above mentioned bank account. We have traced the origin of these transactions to documentation in your monthly bank reconciliations and also to accountability of money predeposited into that account.

We will be anticipating two checks from the above mentioned account; one payable to the present property tax bank account #802-900218-9 for predeposited money, and the other to the County Treasurer to transfer remaining balances of several years' accounts.

Thank you for your continued cooperation.

17. FORCE MAJEURE: "Force Majeure" means a delay encountered by a party in the performance of its obligations under this Agreement, which is caused by an event beyond the reasonable control of that party. Without limiting the generality of the foregoing, "Force Majeure" shall include but not be restricted to the following types of events: acts of God or public enemy; acts of governmental or regulatory authorities; fires, floods, epidemics or serious accidents; unusually severe weather conditions; strikes, lockouts, or other labor disputes; and defaults by subcontractors. In the event of a Force Majeure, the affected party shall not be deemed to have violated its obligations under this Agreement, and the time for performance of any obligations of that party shall be extended by a period of time necessary to overcome the effects of the Force Majeure, provided that the foregoing shall not prevent this Agreement from terminating in accordance with the termination provisions. If any event constituting a Force Majeure occurs, the affected party shall notify the other parties in writing, within twenty-four (24) hours, and disclose the estimated length of delay, and cause of the delay.

18. ASSIGNMENT-DELEGATION: No right or interest in an order shall be assigned or delegation of any obligation made by Seller without the written permission of Fort Bend County. Any attempted assignment or delegation by Seller shall be wholly void and totally ineffective for all purposes unless made in conformity with this paragraph.

19. WAIVER: No claim or right arising out of a breach of any contract can be discharged in whole or in part by a waiver or renunciation of the claim or right unless the waived or renunciation is supported by consideration and is in writing signed by the aggrieved party.

20. MODIFICATION: A Purchase Order can be modified or rescinded only by a writing signed by both of the parties or their duly authorized agents.

21. PAROL EVIDENCE: This writing is intended by the parties as a final expression of their agreement and is intended also as a complete and exclusive statement of the terms of this agreement. No course of prior dealings between the parties and no usage of the trace shall be relevant to supplement or explain any terms rendered under this agreement and shall not be relevant to determine the meaning of this agreement even though the accepting or acquiescing party has knowledge of the performance and opportunity for objection. Whenever a term defined by the Uniform Commercial Code is used in this agreement, the definition contained in the Code is to control.

22. APPLICABLE LAW: This agreement shall be governed by the Uniform Commercial Code. Whenever the term "Uniform Commercial Code" is used it shall be construed as meaning the Uniform Commercial Code as adopted in the State of Texas and in effective on the date of the purchase order.

9. SPECIAL TOOLS & TEST EQUIPMENT: If the price stated on the face of an order includes the cost of any special tooling or special test equipment fabricated or required by Seller for the purpose of filing this order, such special tooling equipment and any process sheets related thereto shall become the property of the County and to the extent feasible shall be identified by the Seller as such.

10. WARRANTY/PRICE:

a. The price to be paid by the County shall be that contained in Seller's quote or bid which Seller warrants to be no higher than Seller's current prices on orders by others for products of the kind and specification covered by an order for similar quantities under similar or like conditions and methods of purchase. In the event Seller breaches this warranty the prices of the items shall be reduced to the Seller's current prices on orders by others. Fort Bend County may cancel this contract without liability.

b. The Seller warrants that no person or selling agency has been employed or retained to solicit or secure any County order based upon any agreement or understanding for commission, percentage, brokerage, or contingent fee excepting bona fide employees of bona fide established commercial or selling agencies maintained by the Seller for the purpose of securing business. A breach or violation of this warranty gives the County the right, in addition to any other right or rights, to cancel this contract without liability.

11. WARRANTY PRODUCT: Seller shall not limit or exclude any implied warranties and any attempt to do so shall render an order voidable at the option of the County. Seller warrants that the goods furnished will conform to the specifications, drawings, and description listed in the bid invitation and purchase order as applicable, and to the sample(s) furnished by Seller if any. In the event of a conflict between the specifications, drawings, and descriptions, the specifications shall govern.

12. SAFETY WARRANTY: Seller warrants that the product sold to Fort Bend County shall conform to the standards promulgated by the U.S. Department of Labor under the Occupational Safety and Health Act of 1970. In the event the product does not conform to OSHA standards, the County may return the product for correction or replacement at the Seller's expense. In the event Seller fails to make the appropriate correction within 10 days, correction made by the County will be at Seller's expense.

13. NO WARRANTY BY FORT BEND COUNTY AGAINST INFRINGEMENTS: As part of a contract for sale Seller agrees to ascertain whether goods manufactured in accordance with the specifications will give rise to the rightful claim of any third person by way of infringement. Fort Bend County makes no warranty that the production of goods according to the specification will not give rise to such a claim and in no event shall Fort Bend County be liable to Seller for indemnification in the event the Seller is sued on the grounds of infringement or the like. If Seller is of the opinion that an infringement will result, he will notify Fort Bend County to this effect in writing within two days after the receiving Purchase Order. If the County does not receive notice and is subsequently held liable for the infringement, Seller will defend and save the County harmless. If Seller in good faith ascertains that production of the goods in accordance with the specifications will result in infringement, this contract shall be null and void except that the County will pay Seller the reasonable cost of his search as to infringements.

14. RIGHT OF INSPECTION: The County shall have the right to inspect the goods at delivery before accepting them.

4. DELIVERY TERMS: F.O.B. Destination Freight Prepaid, Inside Delivery, unless delivery terms are specified otherwise on Purchase Order.

5. NO REPLACEMENT OF DEFECTIVE TENDER: Every tender or delivery of goods must fully comply with all provisions of the Purchase Order as to time of delivery, quality and the like. If a tender is made which does not fully conform, this shall constitute a breach and Seller shall not have the right to substitute a conforming tender.

6. PLACE OF DELIVERY: The place of delivery shall be that set forth in the block of the purchase order entitled "Ship To". Any change thereto shall be effective by modification as provided for in Clause number 20 "Modifications", hereof. The terms of this agreement are "no arrival, no sale", at the discretion of Fort Bend County.

7. INVOICES AND PAYMENTS:

a. Seller shall submit separate invoices, in duplicate. Invoices shall indicate the purchase order number and the bid number if applicable. b. Fort Bend County's obligation is payable only and solely from funds available for the purpose of this purchase. Lack of funds shall render the order null and void to the extent funds are not available and any delivered but unpaid goods will be returned to Seller by the county.

c. Do not include Federal Excise, State, or City Sales Tax. Fort Bend County is a tax exempt governmental entity.

8. GRATUITIES: Fort Bend County may, by written notice to the Seller, cancel any order without liability, if it is determined by the County that gratuities, in the form of entertainment, gifts, or otherwise were offered or given by the Seller, or any agent or representative of the Seller to any officer or employee of Fort Bend County with a view toward securing an order. In the event an order is canceled by the County pursuant to this provision, the County shall be entitled, in addition to any other rights and remedies, to recover or withhold the amount of the cost incurred by Seller in providing such gratuities.

slopes could be flatter. If a support or shield system is utilized, the construction should be as shown on Item D of Plate 6.

Plate 7 presents minimum timber requirements by OSHA for use in shoring of excavations in Type B soil as encountered at this site. The type of method used to achieve a safe slope is at the discretion of the contractor.

GROUNDWATER

Groundwater was not encountered during our investigation. We believe that groundwater, if encountered, can be controlled by sump pumps. Should waterbearing sands be encountered, a well point system may be utilized.

The geotechnical engineer should be immediately notified should any subsoil conditions be uncovered that will alter the recommendations contained in this report. Further investigation and supplemental recommendations may be required if such a condition is encountered.

ii. After the pipe is laid, it should be backfilled up to 12 inches above top of pipe with the same material as in item "i" above and compacted to the same density. Compaction should be achieved by thorough rodding and other acceptable methods.

iii. Bank sand should then be placed above the cement stabilized sand and compacted to the same density. The bank sand should be placed to a depth (below finished grade) sufficient to allow the construction of a 12-inch layer of select earth backfill. The select earth backfill should contain no rocks, debris or dirt clods exceeding 6 inches in any dimension. It should be placed in 6-inch layers, moistened if necessary and compacted to a density equivalent to the surrounding undisturbed soil. In our opinion, compaction to 95% of the maximum dry density should be adequate.

2. Sanitary Sewer Trench Under Existing Pavement

The guidelines are the same as for item "i" above except that bank sand is replaced with cement stabilized sand; that is, cement stabilized sand extends from the base of the trench to the base of the 12-inch select earth backfill.

D. Lateral Earth Pressure

Temporary bracing, if utilized, will be subjected to lateral earth pressures. A lateral earth pressure diagram is presented on Plate 4. The values shown assume no hydrostatic pressures acting on the bracing.

E. OSHA Trench And Shoring Requirements

The Occupational Safety and Health Administration (OSHA) has guidelines and requirements for trench excavations to protect the health and safety of workers entering excavations. Details of these requirements are contained in 29 Code of Federal Regulations (CFR) Part 1926. The specifications vary depending on local conditions and the size of the excavation. In general, any excavation deeper than 5 feet in which workmen shall enter shall be laid back to a stable slope or shored in some other manner to protect the health and safety of workers.

Based on the results of our investigation, the predominant soil type encountered at the site as defined by 29 CFR Part 1926 is Type B (See Plate No. 7). For the proposed depths of the sewer, we recommend that the trenches be constructed with slopes no steeper than those presented on Plate 5. Actual

RECOMMENDATIONS

A. General

The following conclusions and recommendations are based upon the data obtained in our field exploration and laboratory testing, the project information provided to us by Mr. Kelly R. Kaluza with Kelly R. Kaluza & Associates, Inc., and our experience with similar soils and site conditions. In the event that any changes in the nature, design or location of the structure are made from those described, the conclusions and recommendations contained in this report shall not be considered valid until the changes are reviewed and the conclusions are verified in writing.

B. Allowable Bearing Capacity And Settlement

The sewers will be constructed at depth of 13 feet below the existing ground surface. Based on the results of our investigations, the soils encountered at the site are stiff to very stiff in consistency and should provide a factor of safety of at least 3 against bearing failure. Table 1 below presents our recommended allowable net bearing pressures. Considering the relatively light loads anticipated, settlements should be negligible.

C. Summary of Bedding And Backfill Of Sewer Trenches

1. Sanitary Sewer Trench Under Natural Ground

   i. A 5-inch compacted layer of cement stabilized sand (8% cement) should be placed as bedding material before laying sewer pipe. The soils should be compacted to a minimum of 95 percent of the maximum dry density as determined by the Standard Proctor Density Test (ASTM D-698).

87 0691
AS PER ORIGINAL

The soil samples were extruded in the field, visually classified, sealed and transported to our laboratory for testing. The log of the soil boring is presented on Plate 2. A key to soil classification and symbols used on the logs is attached as Plate 3.

B. Laboratory Testing

In the laboratory each sample was inspected and classified by a qualified engineer. Laboratory tests were performed on selected soil samples to evaluate the physical properties and shear strength characteristics of the subsurface soils.

The type and number of tests performed for this study are as follows:

TYPE OF TEST	NUMBER OF TESTS
Visual Classification	7
Hand Penetrometer Test	7
Water Content	7
Dry Density	2
Atterberg Limits	2
Unconfined Compression	2

The test results shown on the boring logs are presented on Plate No. 2.

SITE AND SUBSURFACE CONDITIONS

A. Site Conditions

The site is relatively level and the location of soil boring was covered with gravel parking lot.

B. Subsurface Conditions

The particular subsurface stratigraphy, as determined by the exploration, is shown in detail on the soil boring log presented on Plate 2.

The encountered soils consists of stiff to very stiff clay with high shrink/swell potential. The plasticity index of these soils varied from 51 to 56 percent with an average of 53. The soils would be classified as (CH) in accordance with the Unified Soil Classification System.

INTRODUCTION

The project entails construction of a sanitary sewer collection system - Phase III, on fifth street area in Fort Bend County, Texas. The sewers will be constructed of 10-inch PVC and will bear at depths ranging from approximately 13 feet below existing ground surface.

PURPOSES AND SCOPE OF STUDY

The purposes of this study were to explore the subsurface conditions on Fifth street area for the sanitary sewer collection system and to develop recommendations for the sewer construction. To aid in this study, our scope of services included:

1. Performing one (1) soil boring to a depth of 20 feet to obtain samples for testing and analysis.

2. Conducting laboratory tests on selected soil samples of the materials recovered to evaluate their engineering characteristics.

3. Performing engineering analysis to develop recommendations for construction of the sewers, and

4. Presenting the results of our studies and recommendations in an engineering report.

FIELD INVESTIGATION AND LABORATORY TESTING

A. Field Investigation

On March 6, 1994, one (1) soil boring was drilled to a depth of 20 feet along the proposed sanitary sewer collection system. The approximate location of the soil boring is shown on plate No. 1.

The soil boring was performed using a truck-mounted drill rig. Undisturbed samples of cohesive soils were obtained in accordance with ASTM Method D-1586 procedures by using a thin-wall steel (Shelby) tube. The undrained shear strength of the cohesive soil was estimated in the field by a hand penetrometer; the penetrometer values are indicated by open circles on the logs of borings.

Fort Bend County Purchase Order Terms & Conditions - May 1992

2.5 Responsibility for damage or claims. The Contractor shall hold harmless the City of Sugar Land and all its representatives from all suits, actions, or claims, of any character brought on account of any injuries or damages sustained by any person or property in consequence of any neglect in safeguarding the work or through the use of unacceptable materials in the construction of the improvement, or on account of any act of omission by the Contractor. He shall not be released from said responsibility until the roadway has been completed and accepted.

BARRICADES AND WARNING DEVICES

1. GENERAL:

1.1 Scope - This item shall consist of providing, installing, moving, replacing, maintaining, cleaning and removing upon completion of work all barricades, except permanent barricades, signs, barriers, cones, lights, signals, and other such devices for handling traffic, as indicated on the plans, or as directed by the Engineer.

1.2 All barricades shall be in accordance with the requirements of Part VI - Traffic Controls for Street and Highway Construction and Maintenance Operations of the latest Manual on Uniform Traffic Control for Streets and Highways; U.S. Department of Transportation, Federal Highway Administration. Detailed drawings of the standard signs illustrated in that manual are available from the Federal Highway Administration, Washington, D.C. 20591.

2. EXECUTION:

2.1 All barricades, signs, and other types of devices listed above shall be installed in accordance with the "Texas Manual on Uniform Traffic Control Devices". (TMUTCD)

2.2 When required, a Traffic Control Plan responsive to the Texas MUTCD shall be established by the Contractor. If this plan is approved by the Engineer, it shall be used.

2.3 In areas where traffic realignment is required, all conflicting existing lane lines shall be obliterated and realignment made by the use of temporary removable lane delineation striping until construction is completed and then the temporary striping removed and permanent striping applied in accordance with the Item, "Traffic Paint Striping" or the Item, "Traffic Buttons and Pavement Markers".

2.4 Whenever temporary pavement marking is required either for realigning existing traffic lane striping or for new temporary locations, a suitable degradable or removable lane marking material shall be used as required by F.H.W.A. Addendum Notice N6160.21, dated May 10, 1976, which amended the Manual on Uniform Traffic Control Devices for Streets and Highways as it relates to temporary traffic lane marking systems.

BARRICADES AND WARNING DEVICES

11. PAYMENT: The work performed and material furnished (including additional binder if required) as prescribed by this item will be paid for at the unit price bid for "Flexible Base" per square yard, which price shall be full compensation for shaping and fine grading the road bed, for furnishing all materials, for all royalty and freight involved, for loosening or blasting, excavation, screening and crushing, for loading all materials and delivering on the road for spreading, blading, shaping, dragging, and finishing and for all manipulations, labor, tools, and incidentals necessary to complete the work.

9. PENALTY FOR DEFICIENT BASE THICKNESS: It is the intent of this specification that the base be constructed in strict conformity with the thickness and typical sections shown on drawings. Where any base is found no so constructed, the following rules relative to adjustment of payment for acceptable base and to replacement of faulty base shall govern.

9.1 The base may be core drilled by the Owner prior to final acceptance. The thickness of the base will be determined by measurement of the cores taken at such points as the Engineer may select. Cores will be drilled from the width of normal thickness of section, and the thickness of individual cores will be determined by averaging at least 3 measurements.

9.2 Base of a thickness within 3/4 inch of the thickness required by drawings will be considered of a satisfactory thickness and the contract unit price bid will be used in payment.

9.3 Base of a thickness less than the thickness shown on the drawings by more than 3/4 inch but less than 1-1/4 inch will be considered of a deficient thickness, and an adjusted unit price will be used in payment. The adjusted unit price as the square of the actual average thickness of the base bears to the square of the thickness shown on the plans. The length of the area of such deficient thickness shall be determined by additional cores taken at intervals of 10 feet along the length of the base in each direction until cores are obtained which are at least plan thickness less 3/4 inch. The width of such shall be the entire width of base as placed in one operation within the length thus determined.

9.4 Payment will not be made for base which is found deficient in thickness 1-1/4 inch or more. The length of the area of such unsatisfactory along the length of the base in each direction until cores are obtained which are not deficient in thickness 1-1/4 inch or more. The width of such area shall be the entire width of base as placed in one operation within the length thus determined. Such base shall be removed and replaced with base of the specified thickness by the Contractor at his entire expense.

9.5 No additional payment over the contract unit price will be made for any base of thickness exceeding that required by drawings.

9.6 Cost of cores taken to define limits of deficient base thickness shall be paid for by the Contractor.

10. MEASUREMENT: The flexible base material shall be measured as the square yard of material placed within the limits of construction.

Material deposited upon the subgrade shall be spread and shaped the same day, if practical, unless otherwise approved by the Engineer. In the event inclement weather or other unforeseen circumstances render impractical the spreading of the material during the first twenty-four (24) hour period, the material shall be scarified and spread as directed by the Engineer. The material shall be sprinkled to optimum moisture as directed, and shall then be manipulated, bladed, rolled, and shaped to conform to typical sections as shown on plans.

All areas and "nests" of segregated coarse of fine material shall be corrected or removed and replaced with well graded material, as directed by the Engineer. If additional binder is considered desirable or necessary after the material is spread and shaped, it shall be furnished and applied in the amount directed by the Engineer. Such binder material shall be carefully and evenly incorporated with the material in place by scarifying, harrowing, brooming, or by other approved methods. The course shall then be sprinkled as required and rolled as directed until a uniform compaction is secured. Throughout this entire operation, the shape of the course shall be maintained by blading, and the surface upon completion shall be smooth and in conformity with the typical sections shown on plans and to the established lines and grades. In that area on which surface pavement is to be placed, and deviation in excess of three-eighths (3/8) inch in sixteen (16) feet as shown by straightedge or template shall be corrected by loosening, adding, or removing material, reshaping and recompacting by sprinkling and rolling. All irregularities, depressions, or weak spots which develop shall be corrected immediately by scarifying the areas affected, adding suitable material as required, reshaping and recompacting by sprinkling and rolling. Successive base courses may be placed when the preceding course has cured and is satisfactory to the Engineer.

6.5 Traffic: The base course shall be kept open for traffic unless otherwise directed by the Engineer. The surface shall be kept in good condition free of ruts or irregularities by sprinkling and blading as directed by the Engineer.

7. MAINTENANCE: The Contractor will be required within the limits of his contract to maintain the base in good condition until all work has been completed and accepted. Maintenance shall include immediate repair of any defects that may occur. This work shall be done by the Contractor at his entire expense and shall be repeated as often as may be necessary to keep the area continuously intact. Repairs to base shall be effected by replacing the base for its full depth rather than by adding a thin layer to the layer of base in need of repair.

8. TESTING: Contractor will be required to take core and have tested by an independent qualified testing service every 500 square yards on subgrade and base courses. The laboratory will furnish written reports covering results of all tests and inspections made. Reports will be made promptly to the Engineer, Contractor, Owner, and/or City. Tests paid for by Contractor.

On super-elevated curves, rolling shall begin at the low sides and progress toward the high sides. Alternate trips of the roller shall be slightly different in length, and rolling shall continue until ordered discontinued by the Engineer. The rollers, unless otherwise directed, shall be operated at a speed between two (20 and three (3) miles per hour, and shall be operated as directed until a density not less than 95% Standard Proctor is obtained.

For material requiring rolling, at least one (1) pneumatic tire roller shall be provided for each one hundred (100) cubic yards or fraction thereof of material placed per hour. The quantity of material placed per hour shall be determined by averaging the total quantity of material placed within any one working day. When operations are so isolated from one another that one roller cannot perform the required compaction satisfactorily, additional rollers shall be provided and operated as directed by the Engineer.

6.2 Rolling (Three Wheel): A three wheel roller shall be used to compact the surface of the base course upon which a bituminous course is to be placed. Three wheel rollers shall conform to the following requirements:

Rolling with this roller shall start longitudinally at the sides and proceed towards the center, overlapping on successive trips by at least one-half (1/2) of the width of the rear wheel of the power roller. On super-elevated curves, rolling shall begin at the low sides and progress toward the high sides. Alternate trips of the roller shall be slightly different in length and rolling shall continue to the extent and as directed by the Engineer. The rollers, unless otherwise directed, shall be operated at a speed between two (2) and thee (3) miles per hour.

The roller shall be the three-wheel, self-propelled type weighing not less than ten (10) tons and shall provide a compression on the rear wheels of not less than three hundred and twenty-five (325) pounds per linear inch of tire width. The rear wheel shall be flat and shall have a diameter of not less than forty-eight (48) inches, and each shall have a tire width of not less than twenty (20) inches.

6.3 Preparation: The subgrade and curb gutter when designated shall be completed in accordance with specifications herein and approved by the Engineer prior to placing base course material.

6.4 Construction: If so designated, the material shall be placed in separate courses. The material shall be delivered in approved vehicles of a uniform capacity, and it shall be the charge of the Contractor that the required amount of specified material shall be uniformly placed in each 100 foot station.

Materials with plasticity index in excess of those specified may be accepted if the P.I. is lowered by addition of lime. The lime for this purpose shall be furnished and incorporated at the Contractor's expense.

The Engineer may accept the material, providing not more than 2 out of 10 consecutive graduation tests performed are outside the specified limit on any individual or combination of sieves by no more than 5% and where no two consecutive tests are outside the specified limit.

The Engineer may accept the material providing not more than 2 out of 10 consecutive plasticity index samples tested are outside the specified limit by no more than 2 points and where no two consecutive tests are outside the specified limits.

5. MATERIAL SOURCES: Should the Contractor elect to produce the specified material from local pits, the material shall be secured from the sources shown on plans or approved by the Engineer. These pits as utilized shall be opened up in such manner as to immediately expose the vertical faces of all of the various strata of acceptable material and unless otherwise directed, the material shall be secured in successive vertical cuts extending through all of the exposed strata.

6. CONSTRUCTION METHODS:

6.1 Pneumatic Rolling: To obtain compaction of the base course, pneumatic tired rollers shall be used. The rollers shall conform to the following requirements:

FLEXIBLE BASE

1. DESCRIPTION: This construction consists of a base course of either caliche, crushed stone, gravel, iron ore, shell, etc. and shall conform to the dimensions, lines, and grades as shown on the plans, or as directed by the Engineer.

2. MATERIAL: The materials shall be crushed or uncrushed as necessary to meet the requirements hereinafter specified, and shall consist of durable coarse aggregate particles mixed with approved binding materials.

3. TYPES:

   3.1 Type "A" material shall consist of crushed or broken aggregate.

   3.2 Type "B" material shall consist of gravel aggregate.

   3.3 Type "C" material shall consist of iron ore top soil.

   3.4 Type "D" material shall consist of shell aggregate with sand admixture.

   3.5 Type "E" material shall consist of shell aggregate with sand and caliche admixture.

   Unless the type of material to be used is specified on the plans, the Contractor may use any one of these types, provided the material proposed for use by the Contractor meets the requirements set forth in the following specifications test limits tabulation.

4. GRADES: It is the intent of this specification that unless otherwise indicated on the plans, the base material shall consist of Grades 1 or 2. All grades shall, when tested by standard Texas Highway Department laboratory test procedures, meet the physical requirements as set forth in the specification test limit tabulation.

   Where pilot grading is required in the plans, the Engineer will designate the grading and allowable tolerances to govern during production. The flexible base produced shall not vary from the designated pilot grading by more than the tolerances specified by the Engineer. The pilot grading may be varied by the Engineer as necessary to insure that the base material produced will meet the physical requirements specified.

FLEXIBLE BASE

3.2 Boring

a. Provide pit for boring equipment and workmen. Obtain approval for the location of the pit. Excavate the pit and install shoring. Securely sheet and brace the pit to prevent earth caving.

b. First, bore a 2-inch pilot hole the entire length of the crossing. From the opposite end, check it for line and grade. The pilot hole will be the centerline for the larger diameter hole to be bored.

c. Bore the large diameter hole by mechanical means. Place excavated material near the top of the working pit and dispose of it as required. Use water or other fluids in boring only to lubricate cuttings. Jetting will not be permitted.

d. In unconsolidated soil formations, use a gel-forming colloidal drilling fluid containing at least 10 percent of high-grade, carefully processing bentonite. The fluid will help to consolidate the cuttings of the bit, seal the hole walls, and later lubricate the removal of cuttings and the installation of the pipe immediately thereafter.

e. The final position of the pipe may vary only 1 inch in 40 feet, laterally or vertically. Such variation must be regular and in only one direction. Remedy overcutting of more than 1 inch by pressure grouting the entire length of the installation.

3.3 Jacking and Boring of Pipe: Annulus of bored or jacked pipe must be mud jacked or pressure grouted if the annulus exceeds one (1) inch around the pipe. Access holes every ten (10) feet along the mud jacking or grouting are required.

c. Install pipe required under street so as not to interfere with traffic or weaken the structure. Furnish and maintain barricades and lights to safeguard traffic until the backfill is complete. Then remove safety items from the site.

d. Provide heavy duty jacks suitable for forcing the pipe through the embankment. Apply even operating pressure. Provide a suitable jacking head, usually timber, and suitable bracing between jacks and jacking head. This assures uniform pressure on the perimeter. Provide a suitable jacking frame or back stop.

e. Set the pipe to be jacked on guides properly braced together to support the pipe section and direct it in the proper line and grade. Line up the jacking assembly with the direction and grade of the pipe.

f. Excavate embankment material just ahead of the pipe, and remove it through the pipe. Then force the pipe through the embankment with jacks into the space thus provided.

g. Excavate beneath the pipe to conform to contour and grade for at least one-third of its circumference. A 2-inch maximum clearance above the pipe shall taper to zero at the point where the excavation conforms to the contour of the pipe.

h. Extend the excavation not more than 2 feet beyond the end of the pipe. This limit may be decreased, as permitted by the character of the material being excavated.

i. Jack the pipe from the low or downstream end. The final position of the pipe may vary only 1 inch in 40 feet, laterally or vertically. Such variation must be regular and in only one direction. The final grade of the flow line must be in the direction indicated by the plans.

j. A cutting edge of steel plate may be installed around the head of the pipe. It may extend a short distance beyond the end of the pipe. Angles or lugs are permitted inside the cutting edge to prevent its slipping back onto the pipe.

k. Once jacking is begun, the operation must continue without interruption, insofar as practicable, to prevent the pipe from becoming firmly set in the embankment.

l. Remove and replace without additional cost, any pipe damaged in jacking operations.

m. Backfill pits or trenches which have been excavated to aid jacking operations, just as soon as the jacking is complete.

Splicing of bars will not be permitted without the written approval of Engineer. Where splicing is unavoidable, the number of splices shall be kept to a minimum and length of splice shall not be less than thirty bar diameters. (Using 3,000 psi concrete and steel as specified above in Paragraph 2.) Should welded splices be employed, a fillet weld shall be applied to each side and the length of weld shall be sufficient to develop the full strength of the bar spliced. When practicable, splices in adjacent bars shall be staggered.

Steel reinforcing shall be placed in the position shown on the plans and held securely in place during the pouring of concrete. Vertical stirrups shall always pass around the main tension members and be securely attached thereto.

The reinforcing steel in all concrete walls shall be spaced its proper distance from the face of the forms by means of approved galvanized metal spacers or approved precast mortar or concrete block. Precast mortar or concrete blocks shall be cast in individual molds, in the form of a frustum of a cone or pyramid, with a suitable tie wire to be used for anchoring the block to the steel. The precast blocks shall be properly cured and aged before use in spacing the steel.

All reinforcing steel shall be securely wired together or welded at all intersections.

Before any concrete is poured, the steel shall be cleaned of all mortar and scale.

Where wire mesh is used, the mesh shall overlap each other sufficiently to maintain a uniform strength and shall be securely fastened at the ends and edges.

The Engineer shall inspect all reinforcing and the placement before any concrete may be deposited in the forms.

4. PLACING DRAWINGS FOR REINFORCEMENT STEEL:

The Contractor shall have the fabricator of the reinforcing steel prepare placing drawing showing details for fabrication and for placing of the steel prior to beginning shop fabrication. These drawings shall be delivered to the Engineer for checking and the Engineer's approval shall be secured before fabrication is begun.

5. MEASUREMENT AND PAYMENT:

No direct compensation will be made for "Reinforcing Steel". Work done under this item shall be considered as included in the price bid for the work, of which reinforced concrete is a component part.

T = 0.0850(D)(K)/(Q) where T = time for pressure to drop 1.0 pound per square inch gauge in seconds
K = 0.000419(D)(L), but not less than 1.0
D = Average inside diameter in inches
L = Length of line in feet of same size being tested
Q = Rate of loss, 0.0015 cubic feet per minute per square foot internal surface shall be used

Since a K value of less than 1.0 shall not be used, there are minimum times for each pipe diameter as follows:

Pipe Diameter (Inches)	Minimum Time (Seconds)	Length for Minimum Time (Feet)	Time for Longer Length (Seconds)
6	340	398	0.855(L)
8	454	298	1.520(L)
10	567	239	2.374(L)
12	680	199	3.419(L)
15	850	159	5.342(L)
18	1020	133	7.693(L)
21	1190	114	10.471(L)
24	1360	100	13.676(L)
27	1530	88	17.309(L)
30	1700	80	21.369(L)
33	1870	72	25.856(L)

The test may be stopped if no pressure loss has occurred during the first 25% of the calculated testing time. If any pressure loss or leakage has occurred during the first 25% of the testing period, then the test shall continue for the entire test duration as outlined in this subparagraph or until failure.

Lines with a 27-inch average inside diameter and larger may be tested at each joint. Pipes greater than 36-inch diameter must be tested for leakage at each joint. If the joint test is used, a visual inspection of the joint shall be performed immediately after testing. The pipe is to be pressurized to 3.5 psi greater than the pressure exerted by groundwater above the pipe. Once the pressure has stabilized, the minimum time allowable for the pressure to drop from 3.5 pounds per square inch gauge to 2.5 pounds per square inch gauge shall be ten seconds.

5. METHOD OF PAYMENT:

5.1 Sanitary Sewer Pipe: This item includes all excavation, backfill, disposal of excess material, pipe laying, joints, complete in place, in the various sizes and depths. Measurement shall be measured between centers of structures.

The pipe shall be laid accurately to line and grade, with the spigot end down-stream entering the barrels to full depth and in such manner to not drag earth into the annular space. All adjustments to line and grade of pipes laid directly upon the bottom must be done by scraping away or filling the earth in under the body of the pipe and not by blocking or wedging up. All sewers must be laid in a perfectly straight line, so that a light can be seen from one manhole to the other even for the smaller size of sewers, and the Contractor will not be authorized to deviate from the given line without the authority of the Engineer. Before laying, the interior of the bell shall be carefully wiped smooth and clean, and the annular space shall be free from dirt, stone or water.

4. FIELD PERFORMANCE AND ACCEPTANCE:

4.1 Water Test:

Maximum allowable infiltration or exfiltration shall be 200 gallons per inch of diameter per mile of sewer pipe per day. The joints shall be tight, and visible leakage in the joints or leakage in excess of that noted above shall be repaired at the Contractor's expense by any means found necessary. The pipe shall be tested in sections as directed by the Engineer. Exfiltration testing shall be used. The line shall be filled to a height of 2 feet above the inside of the top of pipe. The drop in water level in the downstream manhole over a two-hour period shall be used to compute the exfiltration. Final payment will not be made until each section passes the above testing procedure.

4.2 Air Test:

Air testing may be used as an option to water testing. While air testing may be used for final acceptance, should the air test fail, then a water test shall be performed in order to determine if the water leakage is no greater than specified in the above paragraph.

The procedure for the low pressure air test shall conform to the procedures described in ASTM C-828, ASTM C-924, ASTM F-1417, or other appropriate procedures. The time for the pressure to drop must be at least as stringent as the requirements of Commission Rules Section 317.2(a)(4)(B) described below:

For sections of pipe less than 36-inch average inside diameter, the minimum time allowable for the pressure to drop from 3.5 pounds per square inch gauge to 2.5 pounds per square inch gauge shall be computed from the following equation:

3.10 Clean-Up: Contractor's equipment, surplus materials and surplus earth shall be removed from the job following the final test of mains and all street surfaces replaced before the final estimate will be approved.

3.11 Laying Sewer Pipe:

3.11.1 After the trench has been carefully graded, same must receive the approval of the inspector before any pipe is placed therein. Each piece of pipe shall be examined for defects, cut to the correct lengths, and the interior surface and the bell and spigot thoroughly cleaned of all foreign material prior to placing same in the trench in an approved manner. The pipe, valves, fittings, etc., shall be adjusted so as to be at their proper locations and then each spigot properly fitted into position. Each length of pipe shall rest on the bottom of the trench throughout its entire length.

3.11.2 Whenever the laying of pipe is discontinued for the day or for an indefinite period, a cap or plug shall be tightly placed in the end of the last pipe laid.

3.11.3 Instructions for jointing pipes with special couplings shall be in strict conformity with the Manufacturer's printed instructions.

3.11.4 Should a damaged piece of pipe furnished by the Contractor be placed in the sewer line, the Contractor shall furnish at his expense all labor and materials required for removing and replacing the defective pipe.

3.12 Pipe Not To Be Laid Until Inspected: No pipe shall be laid until same has been inspected and accepted by the Engineer.

Unless requested by the Contractor and approved by the Engineer, no pipe shall be laid within ten (10) feet of the excavating. Pipes having any defects which do not cause their rejection shall be so laid as to bring these in the top half of the sewers; and, if the bell or spigot be broken, the defective place must be liberally covered with cement mortar, reinforced with a piece of pipe or pipe-ring.

3.13 Adjustments: The pipes and specials shall be so laid in the trench so that, after the sewer is completed, the interior surface thereof shall conform accurately to the grades and alignments fixed and given by the Engineer.

performed. The Contractor shall make, or cause to be made, all necessary backfill replacements and repairs or replacements appurtenant thereto, within 30 days after notice by the Engineer or Owner.

3.8 Surplus Earth: Any surplus excavated material shall be disposed of onsite as directed by the Engineer. If the Engineer notifies the Contractor that the Owner does not have use for this material, it shall become the property of the Contractor to dispose of as he wishes without injury to the Owner or any individual.

3.9 Street Surfaces: In all streets, the surface of the trenches after being refilled, dried, and settled, shall be finished in the most workmanlike manner without needless delay and shall in every respect be equal in quality, character, material, and workmanship to the street improvements existing over the line of the trench immediately prior to making the excavation. The expense of restoring the streets must be included in the price bid per linear foot for mains, except as otherwise provided herein. All concrete or asphaltic cement paving ordered placed on streets will be paid for at the unit price bid.

On gravel, shell, and asphalt surfaced streets, the trench shall be filled as otherwise specified up to within 4 inches of the surface of the street. The trench shall then be filled with gravel or shell, as ordered by the Engineer, to a point approximately 1 inch higher than the street level. After all work is completed and before the job is finally accepted, the Contractor shall go back and place such additional gravel or shell as is ordered by the Engineer. Gravel or shell shall be paid for at the units prescribed in the proposed scheduling.

On concrete streets the trenches shall be filled as otherwise specified within 4 inches of the surface of the street, and then filled with road gravel or shell to a point approximately 1 inch higher than the street level. After all other work is completed, the Contractor shall go back and remove sufficient shell and install 6 inches of concrete as ordered by the Engineer. The concrete used shall be paid for at the unit price bid in the proposed schedules.

On asphalt surfaced streets, the gravel or shell base shall be placed as stated above. At such time as the gravel or shell base shall be leveled smooth approximately one inch below the existing asphalt surface, the new asphalt pavement shall then be placed and rolled or tamped to a smooth and even surface.

3.6.2 Should the surface over a tunnel settle during the maintenance period of the water or sewer main contract, the Contractor or his sureties must pay for the necessary repairs. Should the street settle prior to the time that the final estimate has been paid, then same may be retained until repairs have been made.

3.6.3 Should the Contractor be instructed to lay the mains in tunnels under trees, sidewalks, driveways and other such surface or subsurface obstructions, there will not be any additional compensation for this work or for furnishing and placing specified sheeting and bracing.

3.7 Backfilling Trenches: Trenches shall be backfilled as follows:

3.7.1 Normal: Selected material shall be deposited in 6" layers and hand tamped between the sides of the trench and the pipe and over the pipe for at least 6" above the top of the pipe and compacted to 90% density the full depth of the trench where water is available and water settlement of earth backfill is permitted, water shall be applied in a manner which will provide effective settlement of the backfill with a minimum amount of water. In no case shall the trenches be permitted to overflow or water be wasted. Settlement by water puddling shall not be done until after trench has been backfilled to or above the ground surface. Water shall be introduced into the bottom of the trench through a long pipe nozzle, so that disturbance of any tamped material below will be held to an absolute minimum. Backfill material to compensate for settlement below surface grade shall be added as necessary and settled during puddling operations.

3.7.2 Under Pavement: For trench through existing or future asphaltic concrete, concrete, asphalt-topped concrete, flexible base with asphalt topping, shell or gravel surfaces, either public or private roads or streets, place sand-cement backfill in pipe zone to bottom of pavement or base. Cement stabilized backfill will be paid at unit price specified in the Bid Proposal.

3.7.3 Backfill Settlement: The Contractor shall be responsible for all settlement of backfill which may occur within a period of one year after the date of final completion of the contract under which the backfilling work was

necessary, to properly support the ends of the beam and pipe which it carries. The width of this box shall be twice and the depth, not to exceed 12", shall be three times the outside diameter of the pipe supported. The box shall then be filled with Class "A" concrete with a sufficient number of bars of reinforcing steel placed one (1) inch above bottom of box extending the entire length thereof, to provide an area of steel equal to one percent of the sectional area of concrete in the beams. Timber used as forms and struts must be left in the trench.

Should it become necessary to change the position of such pipe, conduit or structure, the Engineer shall be notified at once of the locality and circumstances and shall thereupon give directions as to what shall be done, and the Contractor shall conform thereto, and shall be paid (upon the estimate of the Engineer) for materials furnished and for the labor performed upon such change, insofar as it may be additional to that contemplated. The Contractor shall be responsible for injuries to persons and property, for all damage to any pipe, conduit, sewer, or other structure injuriously affected by the work, and the Owner shall not be liable thereof.

3.6 Tunnel Construction

3.6.1 When a water or sewer main crosses a paved roadway having a concrete base, the main shall be laid in a tunnel whenever, in the opinion of the Engineer, the cut is sufficient for tunneling. Openings for removing the excavated material and for placing the pipe shall be made at the locations designated by the Engineer. The tunnel must be sheeted solid on both sides and top and each side supported on a piece of lumber laid longitudinally on the bottom of the trench, but this support must not be wide enough so as to pass under the pipe. When backfilling a tunnel, the space between the sheeting and the pipe shall be rammed, in an approved manner, with earth, gravel or concrete. If concrete is used, 3000 psi concrete shall be used and the unit bid price for such material will be paid. Should gravel be specified, the Owner will pay twice the price bid for gravel as placed on the street and lumber will be paid for at its bid price.

Trenches for pipe sewers smaller than 30-inch shall have a width below the top of the pipe bell or other joint of not less than the outside diameter of the pipe plus 12 inches and not more than the outside diameter of the pipe plus 18 inches. Trenches for pipe sewers 30 inches and larger shall have a width below the top of the pipe plus 16 inches and shall be wide enough to permit making up the joints but shall not be wider than the outside diameter of the pipe plus 24 inches.

No excavated material shall be deposited on the gravel, shell, asphalt, concrete, or other paved area of any roadway or sidewalk, or on any lawn, garden, or shrubbery, and such material shall be handled in such a manner as not to obstruct drainage. Where necessary for compliance with this provision, the material shall be hauled.

Where necessary in the Engineer's opinion, the sides of the trench or other excavation shall be braced and rendered secure to the satisfaction of the Engineer.

In sewer trenches and other excavations having vertical sides, sheeting and bracing necessary to support sides of excavation in a vertical plane shall be installed.

After the excavation has been backfilled, compacted, or water tamped, steel or other sheeting may be pulled, otherwise sheeting and bracing, once installed may not be removed without the consent of the Engineer.

3.3 Rock Excavation: No rock is anticipated and no extra compensation will be allowed for rock excavation.

3.4 Crossing State Highways and Railroads: When sewer lines cross highways, railroads, or streets under the jurisdiction of the State Highway Commission, or other public body or corporation, the Owner will secure permission from the controlling authority before doing any work on the right-of-way of such roads or streets. A written release must be given by the controlling authority before final acceptance of the work.

3.5 Pipe Crossing Trenches: Where any pipe crosses a trench, such as sewer pipe, water or gas pipe, having an exposed joint that will not safely span the trench without danger of breaking, it must be supported with a reinforced concrete beam constructed in the following manner: A trench under said cross pipe shall be opened up to a point varying from two (2) to six (6) feet back from the sides of the main trench as the Engineer may direct, so that a timber box may be placed around the pipe and supported by two (2) struts, one on each side of the trench, and resting on a plank across the bottom on trench, underneath the line and of such dimensions as is

thickness outside the pipe. At the time of construction, the Engineer will designate the locations of the service outlets and the depth to the top of the lateral pipe, if depth is not indicated on the plans. Minimum depth of cover over the end of the lateral pipe shall be 4 feet.

2.8 Water-Tight Manhole Inserts:

The contractor shall furnish and install a FOSROC, Rainguard, No Flow Inflow Dish, or approved equal manhole insert in the top of each manhole as specified on the plans. The rainguard shall be designed to prevent water from entering the manhole during rainfall periods and to allow manual release of the water when the manhole is being opened. The insert shall have a gas release valve that opens automatically when the gas pressure differential reaches .5 psi. A vacuum relief valve shall also be included that will open automatically when the vacuum pressure differential reaches 2.25 psi. Valves shall be self-cleaning and constructed of non-corrosive materials. The size of the retainer ring shall match the dimensions of the existing and/or proposed manhole ring and cover.

2.9 Cleanout Covers:

Cleanout covers shall be of the best quality gray cast iron meeting the requirements of Federal Specification QQ-I-652. Unless otherwise specified, the cover shall be free from perforations and shall conform to the cleanout detail in the drawings.

3. CONSTRUCTION METHOD:

3.1 Location of Sewer Lines: Location of sewer lines with respect to property lines will be indicated on the plans. Parallel water and sewer lines shall be spaced not less than nine feet apart horizontally unless water tight sewer joints are provided as indicated on sewer detail plan sheet.

3.2 Excavation: Except as otherwise specified or shown on the plans, all sewers shall be constructed in open cut trenches with vertical sides. Where machines other than ladder type trenching machines are used, excavated material composed of large chunks and clods shall not be used for backfilling and such material shall be disposed of by the Contractor and other suitable material for backfill shall be provided without additional expense to the Owner.

2.6 Cleanout Structures:

The Contractor shall construct cleanouts where shown on the plans and as specified. These shall consist of a 6-inch riser pipe laid on an angle on undisturbed natural ground. All backfill around and above the pipe shall be machine tamped in layers not exceeding 3 inches in depth so that no settlement shall occur after the cleanout is constructed. The base of the cleanout shall be laid in Class A concrete, and its size, shall be not less than that shown on the plans. Other construction details casting shall conform to the cleanout detail shown on the plans.

2.7 Connections:

SANITARY SEWER SYSTEM

MATERIALS AND CONSTRUCTION

b. Provide cofferdams with enough clearance for the construction and removal of any required forms, for the inspection of their exteriors, and to permit pumping outside the forms.

3.5.2 Requirements:

Extend sheet piling cofferdams well below the bottom of footings. Brace the piling well and make as watertight as possible.

3.6 Flooding and Removal of Cofferdams:

3.6.1 Procedure:

Provide for admitting water gradually behind the cofferdam to equalize the water level on the two sides of the cofferdam before it is flooded or breached. Use this feature before the cofferdam is removed, and in the event of a flood that could overtop the cofferdam.

3.6.2 Requirements:

Do not breach cofferdams where the water level differential is more than 2 feet between the two sides of the cofferdam, unless the water depth on the high side is no more than 3 feet at the point of breaching.

3.7 Protection of Structures

3.7.1 Requirements:

Operate construction equipment over completed slabs or structures only with approval. Rubber tire equipment heavier than five (5) tons and crawlers heavier than seven (7) tons will require adequate load spreading by sand fill or other means.

3.8 Repair or Damage:

Assume full responsibility for all loss and damage due to flood, rising water, or seepage in any part of the work. Repair any damage to partially completed work from these or other causes, including the removal of slides, repair of foundation beds, and performance of any other work necessitated by failure or slippage of cofferdams or lack of adequate dewatering or drainage facilities.

3.2.2 Alternatives:

Produce a downward seepage of water through the sandy materials in the foundation beds, promoting their compaction as the water table drops. Be prepared to demonstrate that the method proposed will produce the desired results. Be prepared to adopt other means of obtaining these effects if the proposed method fails.

3.3 Requirements for Well Points:

3.3.1 Installation and Acceptance:

Well points, where used, must be furnished, installed, and operated by a reputable contractor regularly engaged in this business, and approved. Submit the design of the well point system for review by the Engineer. Predrain by well point vacuum method.

3.3.2 Alternatives:

Well points may be omitted for portions of underdrains or other trenches only where auger borings and piezometers show that the soil is predrained by an exterior system.

3.4 Duration of Drainage:

3.4.1 Procedure:

In areas where concrete is to be placed, carry out the foundation drainage so that the required lowering of the water table will be effected prior to placing reinforcing steel. Keep foundation beds free from water to the same levels for three days after pouring concrete.

3.4.2 Operation:

Operate pumps to keep each underdrain system drained to the approximate level of the top of the lowest pipe of the system until the removal or flooding of cofferdams. Pipe manholes are provided for this purpose adjacent to the structures.

3.5 Cofferdam Requirements:

3.5.1 Procedure:

Provide a suitable cofferdam for each excavation where necessary to control water, so the foundation can be placed dry. Also provide a suitable cofferdam to prevent sliding and caving of walls of the excavation.

a. Where no ground or surface water is encountered, the cofferdam only need be sufficient to protect workmen and to avoid having cave-ins or slides extend beyond the limits of the excavation, as drawn.

2. PRODUCTS:

Select equipment and material desired.

3. EXECUTION:

3.1 Dewatering Excavations:

3.1.1 Installation and Maintenance:

Furnish, install, operate, and maintain all necessary pumping for dewatering and the various parts of the work and for maintaining free of water the foundations, trenches, and such other parts of the work as required for construction operations. Also, as required for inspections and safety, or for any reason determined by the Engineer to be desirable.

3.1.2 Procedure:

Continue dewatering in all required areas, until the concrete structure, the trench, or other structure, has been completed to the top of the slopes of the excavation, or to another designated level.

3.1.3 Drain Pipe:

Provide a uniform diameter for each pipe drain run constructed for dewatering. Remove the drain pipe when it has served its purpose. If removal of the pipe is impractical, provide grout connections at 50 foot intervals, and fill the pipe with clay grout or cement and sand grout when the pipe has served its purpose.

3.1.4 Removal of Cofferdam:

After completion of construction at the site, remove the cofferdams and dispose of the material.

3.1.5 Replacement of Disturbed Material:

Replace any excavation performed for convenience in the foundation beds with materials as impermeable as the original foundation material, and compacted to not less than 95% maximum density.

3.2 Drainage of Foundation Beds:

3.2.1 Procedure:

Dewater foundation beds for concrete structures by using well points or another approved method. Maintain the saturation line at least 2 feet below the lowest elevations where concrete is to be placed. Drain foundations in areas where concrete is to be placed before placing reinforcing steel. Keep foundation beds free from water for three (3) days after concrete is placed.

DEWATERING AND DRAINAGE OF EXCAVATION

1.1 Scope:

This section provides for furnishing all labor, materials, equipment, power, and incidentals, and for performing all operations necessary to dewater, drain, and maintain excavations and foundation beds as described herein and as necessary for construction of structures and appurtenances. Included are construction, maintenance, and removal of cofferdams; installing, maintaining, operating, and removing well point systems and other approved devices for lowering water table within an excavation; removal of standing water, surface drainage and seepage from excavation or other work, and protecting work against rising waters and floods, and repair of any resulting damage.

1.2 Contractor's Responsibility:

Contractor shall assume sole responsibility for dewatering systems and for all loss or damage resulting from partial or complete failure of protective measures, except as otherwise provided in the General and Special Conditions.

1.3 Plans and Other Data to be Submitted:

Submit plans for review by the Engineer of proposed methods of dewatering, foundation drainage and diversion, in accordance with sound engineering practice.

1.3.1 Well Point System:

Show the well point system in clear detail, including the pump capacity, or other proposed method for lowering the water table within the areas where sewer pipe, concrete structures, compacted fill and backfill are to be constructed.

1.3.2 Equipment Supplier:

Name the supplier of well point or other foundation drainage equipment.

1.3.3 Review:

Do not start dewatering or other foundation drainage until construction plans and other data required in this paragraph are reviewed.

1.4 Related Work:

Excavation, trenching, and backfilling for utilities.
Structural excavation and backfill.

1.5 Measurement and Payment:

Measurement and payment will be by the linear foot of well point system, if used, parallel to the trench regardless of whether one or more "systems" are used. No separate payment will be made for dewatering of trench or excavations due to rainfall.

DEWATERING AND DRAINAGE OF EXCAVATION

21. BACKFILL SETTLEMENT:

The Contractor shall be responsible for all settlement of backfill which may occur within a period of one year after the date of final completion of the contract under which the backfilling work was performed. The Contractor shall make, or cause to be made, all necessary backfill replacements, and repairs or replacement appurtenant thereto, within 30 days after notice by the Engineer or Owner.

15. EXISTING UNDERGROUND CONDUIT AND PIPING:

Cooperate with the authorities to facilitate permanent protection, re-routing, and removal of such lines. If so directed, remove and cap or plug any such lines found to be abandoned or inactive.

16. SPECIAL REQUIREMENTS:

Fill all holes and depressions left by removal of trees, shrubs, improvements, etc. with approved fill and compact to 95% density.

17. PROTECTION:

Adequately protect newly graded areas to prevent washing.

18. BACKFILL MATERIALS:

Material for backfill other than sand backfill shall be composed of earth only and shall contain no wood, grass, roots, broken concrete, stones, trash, or debris of any kind. 19. DRAINAGE MAINTENANCE:

Trenches across roadways, driveways, or other trafficways adjacent to drainage ditches or water courses shall not be backfilled prior to the completion of backfilling of the trench on the upstream side of the trafficway, to prevent the impounding of water after the pipe has been laid. Backfilling shall be done so that the water will not accumulate in unfilled or partially filled trenches.

All material deposited in roadway ditches or other water courses crossed by the line of trench shall be removed immediately after backfilling is completed and the section, grade, and contours of ditches or water courses shall be restored to their original condition. Surface drainage shall not be obstructed longer than necessary.

11. PIPE EMBEDMENT:

The trench bottom shall be shaped to give uniform and continuous support to the bottom quadrant of the pipe between joints. Selected trench excavated materials shall be used for pipe embedment in accordance with detail on plans.

11.1 After each pipe has been graded, aligned, and placed in final position, and shoved home, sufficient pipe embedment material shall be deposited and compacted under and around each side of the pipe and back of the bell or end thereof to firmly hold and maintain the pipe in proper position and alignment during subsequent pipe jointing, embedment, and backfilling operations as indicated in detail shown on plans.

11.2 Embedment material shall be deposited and compacted uniformly and simultaneously on each side of the pipe to prevent lateral displacement of the pipe.

11.3 Tamped backfill materials shall be placed in uniform layers and shall have a moisture content which will insure that the maximum density will be obtained with the compaction method used.

12. TRENCH BACKFILL:

Bank sand shall be placed and tamped in six inch layers until backfill is six inches above top of the pipe, then the balance of the backfill consisting of native soil may be placed with the following method:

12.1 Placement and Tamping in 12 Inch Layers: Mechanical compaction shall be approximately equal to that of adjacent undisturbed material.

12.2 Water tamping not allowed.

13. STRUCTURE BACKFILL:

Cement stabilized sand backfill shall be compacted in six inch layers to a density equal to at least 95 percent of maximum density as determined by AASHO Method T-180. 7.2 Surface water shall be diverted or otherwise prevented from entering excavated areas or trenches, to the greatest extent practicable without causing damage to adjacent property.

7.3 The Contractor will be held responsible for the condition of any pipe or conduit which he may use for drainage purposes, and all such pipes or conduits shall be left clean and free from sediment.

8. SHEETING AND SHORING:

Except where banks are cut back on a stable slope, excavation for structures and trenches shall be properly and substantially sheeted, braced, and shored as necessary to prevent caving or sliding, to provide protection for the workmen and the work, and to provide protection for existing structures and facilities. Sheeting, bracing, and shoring shall be designed and built to withstand all loads that might be caused by earth movement or pressure, and shall be rigid, maintaining shape and position under all circumstances.

9. STABILIZATION:

Trench bottoms and subgrades for concrete structures shall be firm, dense, and thoroughly compacted and consolidated and shall be free from mud and much and shall be sufficiently stable to remain firm and intact under the feet of the workmen.

10. TRENCH EXCAVATIONS:

10.1 Mechanical Excavation: Mechanical equipment used for trench excavation shall be of a type, design, and construction, and shall be so operated, that the rough trench excavation bottom elevation can be controlled, that uniform trench widths and vertical side walls are obtained at least from an elevation six (6) inches above the top of the installed pipe to the bottom of the trench, and that the trench alignment is such that the pipe, when accurately laid to specified alignment clearance between the pipe and side walls of the trench. Undercutting of the trench side wall to obtain clearance will not be permitted.

10.2 Maintain all mechanical trenching equipment in good operating condition. Maintain and comply with safe operating procedures.

Equal Employment Opportunity is...

THE LAW

Private Employment, State and Local Government, Educational Institutions

Race, Color, Religion, Sex, National Origin
Title VII of the Civil Rights Act of 1964, as amended, prohibits discrimination in hiring, promotion, discharge, pay, fringe benefits, and other aspects of employment, on the basis of race, color, religion, sex or national origin.

Applicants to and employees of most private employers, State and local governments and public or private educational institutions are protected. Employment agencies, labor unions and apprenticeship programs also are covered.

Age
The Age Discrimination in Employment Act of 1967, as amended, prohibits age discrimination and protects applicants and employees aged 40-70 from discrimination in hiring, promotion, discharge, pay, fringe benefits and other aspects of employment. The law covers most private employers, State and local governments, educational institutions, employment agencies and labor organizations.

Sex (wages)
In addition to the sex discrimination prohibited by Title VII of the Civil Rights Act (see above) The Equal Pay Act of 1963, as amended, prohibits sex discrimination in payment of wages to women and men performing substantially equal work in the same establishment. The law covers most private employers, State and local governments and educational institutions. Labor organizations cannot cause employers to violate the law. Many employers not covered by Title VII, because of size, are covered by the Equal Pay Act.

If you believe that you have been discriminated against under any of the above laws, you should immediately contact:

The U.S. Equal Employment Opportunity Commission
2401 "E" Street, N.W.
Washington, D.C. 20506
or an EEOC District Office, listed in most telephone directories under U.S. Government.

Employers holding Federal contracts or subcontracts

Race, Color, Religion, Sex, National Origin
Executive Order 11246, as amended, prohibits job discrimination on the basis of race, color, religion, sex or national origin, and requires affirmative action to ensure equality of opportunity in all aspects of employment.

Handicap
Section 503 of the Rehabilitation Act of 1973, as amended, prohibits job discrimination because of handicap and requires affirmative action to employ and advance in employment qualified handicapped individuals who, with reasonable accommodation, can perform the functions of a job.

Vietnam Era and Disabled Veterans
Section 402 of the Vietnam Era Veterans Readjustment Assistance Act of 1974 prohibits job discrimination and requires affirmative action to employ and advance in employment qualified Vietnam era veterans and qualified disabled veterans.

Applicants to and employees of companies with a Federal government contract or subcontract are protected under the authorities above. Any person who believes a contractor has violated its nondiscrimination or affirmative action obligations under Executive Order 11246, as amended, Section 503 of the Rehabilitation Act or Section 402 of the Vietnam Era Veterans Readjustment Assistance Act should contact immediately:

The Office of Federal Contract Compliance Programs (OFCCP)
Employment Standards Administration
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, D.C. 20210
or an OFCCP regional or area office, listed in most telephone directories under U.S. Government, Department of Labor.

Programs or activities receiving Federal financial assistance

Handicap
Section 504 of the Rehabilitation Act of 1973, as amended, prohibits employment discrimination on the basis of handicap in any program or activity which receives Federal financial assistance. Discrimination is prohibited in all aspects of employment against handicapped persons who, with reasonable accommodation, can perform the essential functions of a job.

Race, Color, National Origin
In addition to the protection of Title VII of the Civil Rights Act of 1964, Title VI of the Civil Rights Act prohibits discrimination on the basis of race, color or national origin in programs or activities receiving Federal financial assistance. Employment discrimination is covered by Title VI if the primary objective of the financial assistance is provision of employment, or where employment discrimination causes or may cause discrimination in providing services under such programs.

If you believe you have been discriminated against in a program which receives Federal assistance, you should immediately contact the Federal agency providing such assistance.

(3) That each laborer or mechanic has been paid not less than the applicable wage rates and fringe benefits or cash equivalents for the classification of work performed, as specified in the applicable wage determination incorporated into the contract.

In the event of failure to pay any laborer or mechanic, including any apprentice, trainee or helper, employed or working on the site of the work (or under the United States Housing Act of 1937 or under the Housing Act of 1949 in the construction or development of the project), all or part of the wages required by the contract, HUD or its designee may, after written notice to the contractor, sponsor, application, or owner take such action as may be necessary to cause the suspension of any further payment, advance, or guarantee of funds until such violations have ceased. Whenever the Secretary of Labor has found under 29 CFR 5.5(a)(1)(iv) that the wages of any laborer or mechanic include the amount of any costs reasonably anticipated in providing benefits under a plan or program described in Section 1(b)(2)(B) of the Davis-Bacon Act, the contractor shall maintain records which show that the commitment to provide such benefits is enforceable, that the plan or program is financially responsible, and that the plan or program has been communicated in writing to the laborers or mechanics affected, and records which show the costs anticipated or the actual cost incurred in providing such benefits. Contractors employing apprentices or trainees under approved programs shall maintain written evidence of the registration of apprenticeship programs and certification of trainee programs, the registration of the apprentices and trainees, and the ratios and wage rates prescribed in the applicable programs. (Approved by the Office of Management and Budget under OMB Control Numbers 1215-0140 and 1215-0017.)

(4) With respect to helpers as defined in 29 CFR 5.2(n)(4), such a classification prevails in the area in which the work is performed.

(b)If the contractor and the laborers and mechanics to be employed in the classification (if known), or their representatives, and HUD or its designee agree on the classification and wage rate (including the amount designated for fringe benefits where appropriate), a report of the action taken shall be sent by HUD or its designee to the Administrator of the Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, D.C., 20210. The Administrator, or an authorized representative, will approve, modify, or disapprove every additional classification action within 30 days of receipt and so advise HUD or its designee or will notify HUD or its designees within the 30-day period that additional time is necessary. (Approved by the Office of Management and Budget under OMB control number 1215-0140.)

(c)In the event the contractor, the laborers or mechanics to be employed in the classification or their representatives, and HUD or its designee do not agree on the proposed classification and wage rate (including the amount designated for fringe benefits, where appropriate), HUD or its designee shall refer the questions, including the views of all interested parties and the recommendation of HUD or its designee, to the Administrator, for determination. The Administrator, or an authorized representative, will issue a determination within 30 days of receipt and so advise HUD or its designee or will notify HUD or its designee within the 30-day period that additional time is necessary (Approved by the Office of Management and Budget under OMB Control Number 1215-0140.)

(iv) If the contractor does not make payments to a trustee or other third person, the contractor may consider as part of the wages of any laborer or mechanic the amount of any costs reasonably anticipated in providing bona fide fringe benefits under a plan or program: Provided, that the Secretary of Labor has found, upon the written request of the contractor, that the applicable standards of the Davis-Bacon Act have been met. The Secretary of Labor may require the contractor to set aside in a separate account assets for the meeting of obligations under the plan or program. (Approved by the Office of Management and Budget under OMB control Number 1215-0140.)

Women's Business Enterprise and Labor Surplus Area Firms

It is national policy to award a fair share of contracts to small and minority business firms, as well as women-owned firms. Accordingly, affirmative steps must be taken by Contractors to assure that small, minority, or women-owned businesses are utilized when possible as sources of supplies, equipment, construction and services, especially from labor surplus areas. Affirmative steps shall include taking the following good faith efforts:

A. Good Faith Efforts

(3) When economically feasible, dividing total requirements into smaller tasks or quantities so as to permit maximum small, minority, or women-owned businesses participation;

PART IV

Employment Opportunities for Businesses
and Lower Income Persons

1. The work to be performed under this contract is on a project assisted under a program providing direct Federal financial assistance from the Department of Housing and Urban Development and is subject to the requirements of Section 3 of the Housing and Urban Development Act of 1968, as amended, 12 U.S.C. 170lu. Section 3 requires that to the greatest extent feasible, opportunities for training and employment be given to lower income residents of the project area and contracts of work in connection with the project be awarded to business concerns which are located in, or owned in substantial part by persons residing in the area of the project.

2. The parties to this contract will comply with provisions of said Section 3 and the regulations issued pursuant thereto by the Secretary of Housing and Urban Development set forth in 24 CFR Part 135, and all applicable rules and orders of the Department issued thereunder prior to the execution of this contract. The parties to this contract certify and agree that they are under no contractual or other disability which would prevent them from complying with these requirements.

3. The Contractor will send to each labor organization or representative of workers with which he or she has a collective bargaining agreement or other contract or understanding, if any, a notice advising the said labor organization or workers' representative of the Contractors' commitments under this Section 3 clause and shall post copies of the notice in conspicuous places available to employees and applicants for employment or training.

4. The Contractor will include this Section 3 clause in every subcontract for work in connection with the project and will, at the direction of the applicant for or recipient of Federal financial assistance, take appropriate action pursuant to the subcontract upon a finding that the Subcontractor is in violation of regulations issued by the Secretary of Housing and Urban Development, 24 CFR Part 135. The Contractor will not subcontract with any Subcontractor where it has notice or knowledge that the latter has been found in violation of regulations under 24 CFR Part 135 and will not let any subcontract unless the Subcontractor has first provided it with a preliminary statement of ability to comply with the requirements of these regulations.

(15) Nothing herein provided shall be construed as a limitation upon the application of other laws which establish different standards of compliance or upon the application of requirements for the hiring of local or other area residents (e.g., those under the Public Works Employment Act of 1977 and the Community Development Block Grant Program).

Notice of Requirements for Affirmative Action To Ensure Equal Employment Opportunity (Executive Order 11246)

1. The Offeror's or Bidder's attention is called to the "Equal Opportunity Clause" and the "Standard Federal Equal Employment Specifications" set forth herein.

2. The goals and timetables for minority and female participation, expressed in percentage terms for the Contractor's aggregate world in each trade on all construction work in the covered area, are as follows:

TIMETABLES

Goals for Minority Participation for each Trade: 27.3%	Goals for Female Participation for each Trade: 6.9%

These goals are applicable to all the Contractor's construction work (whether or not it is Federal or federally assisted) performed in the covered area. If the Contractor performs construction work in a geographical area located outside of the covered area, it shall apply goals established for such geographical area where the work is actually performed. With regard to this second area, the Contractor also is subject to the goals for both its federally involved and nonfederally involved construction. The Contractor's compliance with the Executive Order and the regulations in 41 CFR Part 60-4 shall be based on its implementation of the Equal Opportunity Clause, specific affirmative action obligations required by the specifications set forth in 41 CFR 60-4.3(a), and its efforts to meet goals. The hours of minority and female employment and training must be substantially uniform throughout the length of the contract, and in each trade, and the Contractor shall make a good faith effort to employ minorities and women evenly on each of its projects. The transfer of minority or female employees or trainees from Contractor to Contractor or from project to project for the sole purpose of meeting the Contractor's goals shall be a violation of the contract, the Executive Order and the regulation in 41 CFR Part 60-4. Compliance with the goals will be measured against the total work hours performed.

3. The Contractor shall provide written notification to the Director of the Office of Federal Contract Compliance Programs within 10 working days of award of any construction subcontract in excess of $10,000 at any tier for construction work under the contract resulting from this solicitation. The notification shall list the name, address and telephone number of the Subcontractor; employer identification number of Subcontractor; estimated dollar amount of the subcontract; estimated starting date of the subcontract; and the geographical area in which the subcontract is to be performed.

participates in the group, makes every effort to assure that the group has a positive impact on the employment of minorities and women in the industry, ensures that the concrete benefits of the program are reflected in the Contractor's minority and female work force participation, makes good faith effort to meet its individual goals and timetables, and can provide access to documentation which demonstrates the effectiveness of actions taken on behalf of the Contractor. The obligation to comply, however, is the Contractor's and failure of such a group to fulfill an obligation shall not be a defense for the Contractor's noncompliance.

(9) A single goal for minorities and separate single goal for women have been established. The Contractor, however, is required to provide equal employment opportunity and to take affirmative action for all minority groups, both male and female, all women, both minority and non-minority. Consequently, the Contractor may be in violation of the Executive Order if a particular group is employed in a substantially disparate manner (for example, even though the Contractor has achieved its goals for women generally, the Contractor may be in violation of the Executive Order if a specific minority group of women is underutilized).

(10) The Contractor shall not use the goal and timetables or affirmative action standards to discriminate against any person because of race, color, religion, sex, or national origin.

(11) The Contractor shall not enter into any subcontract with any person or firm debarred from Government contracts pursuant to Executive Order 11246.

(12) The Contractor shall carry out such sanctions and penalties for violation of these specifications and of the Equal Opportunity Clause, including suspension, termination and cancellation of existing subcontracts as may be imposed or ordered pursuant to Executive Order 11246, as amended, and its implementing regulations, by the Office of Federal Contract Compliance Programs. Any Contractor who fails to carry out such sanctions and penalties shall be in violation of these specifications and Executive Order 11246, as amended.

(13) The Contractor, in fulfilling its obligations under these specifications, shall implement specific affirmative action steps, at least as extensive as those standards prescribed in paragraph 7 of these specification, so as to achieve maximum results from its efforts to ensure equal opportunity. If the Contractor fails to comply with the requirements of the Executive Order, the implementing regulations, or these specifications, the Director shall proceed in accordance with 41 CFR 60-4.8.

(14) The Contractor shall designate a responsible official to monitor all employment related activity o ensure that the company EEO policy is being carried out, to submit reports relating to the provisions hereof as may be required by the Government and to keep records. Records shall at least include for each employee the name, address, telephone numbers, construction trade, union affiliation, if any, employee identification number when assigned, social security number, race, sex, status (e.g., mechanic, apprentice trainee, helper, or laborer), dates of changes in status, hours worked per week in the indicated trade, rate of pay, and locations at which the work was performed. Records shall be maintained in an easily understandable and retrievable form; however, to the degree that existing records satisfy this requirement, Contractors shall not be required to maintain separate records.

h. Disseminate the Contractor's EEO policy externally by including it in any advertising in the news media, specifically including minority and female news media, and providing written notification to and discussing the Contractor's EEO policy with other Contractors and Subcontractors with whom the Contractor does or anticipates doing business.

i. Direct its recruitment efforts, both oral and written, to minority, female and community organizations, to schools with minority and female students and to minority and female recruitment and training organizations serving the Contractor's recruitment area and employment needs. Not later than one month prior to the date for the acceptance of applications for apprenticeship or other training by any recruitment source, the Contractor shall send written notification to organizations such as the above, describing the openings, screening procedures, and tests to be used in the selection process.

j. Encourage present minority and female employees to recruit other minority persons and women and, where reasonable, provide after school, summer and vacation employment to minority and female youth both on the site and in other areas of a Contractor's work force.

k. Validate all tests and other selection requirements where there is an obligation to do so under 41 CFR Part 60-3.

l. Conduct, at least annually, an inventory and evaluation at least of all minority and female personnel for promotional opportunities and encourage these employees to seek or to prepare for, through appropriate training etc., such opportunities.

m. Ensure that seniority practices, job classifications, work assignments and other personnel practices, do not have a discriminatory effect by continually monitoring all personnel and employment related activities to ensure that the EEO policy and Contractor's obligations under these specifications are being carried out.

n. Ensure that all facilities and company activities are nonsegregated except that separate or single-user toilet and necessary changing facilities shall be provided to assure privacy between the sexes.

o. Document and maintain a record of all solicitations of offers for subcontracts from minority and female construction Contractors and suppliers, including circulation of solicitations to minority and female construction Contractors and suppliers, including circulation of solicitations to minority and female Contractor associations and other business associations.

p. Conduct a review, at least annually, of all supervisors' adherence to and performance under the Contractor's EEO policies and affirmative action obligations.

(8) Contractors are encouraged to participate in voluntary associations which assist in fulfilling one or more of their affirmative action obligations (7a through p). (6) In order for the nonworking training hours of apprentices and trainees to be counted in meeting the goals, such apprentices and trainees must be employed by the Contractor during the training period, and the Contractor must have made a commitment to employ the apprentices and trainees at the completion of their training subject to the availability of employment opportunities. Trainees must be trained pursuant to training programs approved by the U.S. Department of Labor.

C. Any discrepancies which may be discovered between actual conditions and those represented by the drawings and maps shall at once be reported to the Locality and work shall not proceed except at the Contractor's risk, until written instructions have been received by him from the Locality.

PROJECT #94-084

PHASE III
FIFTH STREET
SANITARY SEWER COLLECTION SYSTEM
FORT BEND COUNTY, TEXAS

THE UNDERSIGNED BIDDER, having examined the plans, specifications, and other proposed Contract Documents, and all Addenda thereto and being acquainted with and fully understanding:

(a) the extent and character of the work covered by this bid form;

(b) the location, arrangement, and specified requirements for the proposed work;

(c) the location, character, and condition of existing facilities, pavements, walks, driveways, gutters, trees, and utilities, which may affect or be affected by the proposed work;

(d) the nature and extent of the work to be made, and the type, character and general condition of materials to be excavated;

(e) the difficulties and hazards to the work which might be caused by bad weather;

(f) local conditions relative to labor, transportation, hauling and rail delivery facilities;

(g) all other factors and conditions affecting or which may be affected by the work.

WE HEREBY PROPOSE to furnish all required materials, supplies, equipment, tools, and to perform all necessary labor and supervision; and to construct, install, erect, equip, and complete all work stipulated in, required by, and in accordance with the contract documents and the plans, specifications, and other documents referred to therein (as altered, amended, or modified by all addenda thereto) for and in consideration of the following prices:

BID FORM - 1

87 0516

BID FORM

B. The failure of the successful bidder to execute the agreement and supply the required bonds within ten (10) days after the prescribed forms are presented for signature, or within such extended period as the County may grant, shall constitute a default and the County may, at its option, either award the contract to the next lowest responsible bidder, or re-advertise for bids. In either case, the County may charge against the bidder the difference between the amount of the bid, and the amount for which a contract is subsequently executed irrespective of whether this difference exceeds the amount of the bid bond. If a more favorable bid is received through re-advertisement, the defaulting bidder shall have no claim against the County for a refund.

16. Wages and Salaries

Attention is particularly called to the requirement of paying not less than the prevailing wage rates specified in the Contract Documents. These rates are minimums to be paid during the life of the contract. It is therefore the responsibility of the Bidders to inform themselves as to local labor conditions.

17. Equal Employment Opportunity

Attention is called to the requirements for ensuring that employees and applicants for employment are not discriminated against because of their race, color, creed, sex, or national origin.

11. Time for Receiving Bids

Bids received prior to the advertised hour of opening shall be kept securely sealed in the office of the County Purchasing Agent. The County Purchasing Agent shall decide when the specified time has arrived and no bids received thereafter will be considered.

12. Opening of Bids

The County shall, at the time and place fixed for the opening of bids, cause each bid to be publicly opened and read aloud, irrespective of any irregularities therein. Bidders and other interested individuals may be present.

13. Withdrawal of Bids

Bids may be withdrawn by written request dispatched for delivery in the normal course of business prior to the bid opening. The bid guaranty of any bidder withdrawing his bid in accordance with the above will be returned promptly.

14. Award of Contract/Rejection of Bids

A. The contract will be awarded to the responsive, responsible Bidder submitting the lowest/best bid. The bidder selected will be notified at the earliest possible date. The County reserves the right to reject any or all bids and to waive any informality in bids received where such rejection or waiver is in its interest.

B. The County reserves the right to consider as unqualified to do the work any bidder who does not habitually perform with his own forces the major portions of the work involved in construction of the improvements embraced in this contract.

15. Execution of Agreement/Performance and Payment Bonds

A. Full (100%) payment bonds are required on all contracts in excess of $25,000.00. Performance bonds are required for all contracts exceeding $50,000.00. The only exception is that if the contract is less than $50,000.00, the entity may hold all payment until final completion, in lieu of the performance bond. Such bonds must be issued by a corporate surety authorized to do business in the State of Texas.

C. Bid documents, including the bid form, signed standard contract, the bid bond, the non-collusion affidavit and the statement of bidders qualifications shall be sealed in an envelope and clearly labeled "Phase III Fifth Street Sanitary Sewer Collection System, Bid #94-084" and the name of the bidder.

D. The County may consider as irregular any bid on which there is an alteration of or departure from the bid form and, at its option, may reject any irregular bid.

E. If a contract is awarded, it will be awarded to a responsible bidder on the basis of the lowest/best bid and the selected alternate bid items, if any. The contract will require the completion of the work in accordance with the contract documents.

6. Bid Bond

A. A bid bond in the amount of five percent (5%) of the bid issued by an acceptable surety shall be submitted with each bid. A certified check payable to the County may be submitted in lieu of the bid bond.

B. The bid bond or it's comparable, will be returned to the unsuccessful bidder upon receipt by the County Purchasing Agent of a written request to do so.

8. Statement of Bidders Qualifications

Each bidder shall submit on the form furnished for that purpose a statement of the bidder's qualifications. The County shall have the right to take such steps as it deems necessary to determine the ability of the bidder to perform his obligations under the contract, and the bidder shall furnish the County all such information and data for this purpose as it may request. The right is reserved to reject any bid where an investigation of the available data does not satisfy the County that the bidder is qualified to carry out properly the terms of the contract.

9. The unit price for each of the several items in the bid shall include its pro rata share of overhead so that the sum of the products obtained by multiplying the quantity shown for each item by the unit price bid represents the total bid. Any bid not conforming to this requirement may be rejected as informal. Special attention is drawn to this condition, as the unit prices will be used to determine the amount of any change orders resulting from an increase or decrease in quantities.

10. Corrections

Erasures or other corrections in the bid must be noted over the signature of the bidder.

INSTRUCTION TO BIDDERS

1. Use of Separate Bid Forms

These contract documents include a complete set of bid and contract forms which are for the convenience of the bidders and are not to be detached from the contract document, completed or executed. Separate bid forms are provided for your use.

2. Interpretations or Addenda

No oral interpretations will be made to any bidder. Each request for an interpretation shall be made in writing to Fort Bend County Purchasing Agent, 500 Liberty Street, Suite No. 103, Richmond, Texas 77469 (Fax No. 713-341-8642) no less than seven (7) days prior to the bid opening. Each interpretation made will be in the form of an Addendum to the contract documents and will be distributed to all parties holding contract documents. It is, however, the bidder's responsibility to make inquiry as to any addenda issued. All such addenda shall become part of the contract documents and all bidders shall be bound by such addenda, whether or not received by the bidders.

3. Inspection of Site

Each bidder should visit the site of the proposed work and fully acquaint himself with the existing conditions there and should fully inform himself as to the facilities involved, the difficulties and restrictions attending the performance of the contract. The bidder should thoroughly examine and familiarize himself with the drawings, technical specifications and all other contract documents. The contractor by the execution of the contract shall in no way be relieved of any obligation under it due to his failure to receive or examine any form or legal document or to visit the site or acquaint himself with the conditions there existing. The County will be justified in rejecting any claim based on facts regarding which he should have been on notice as a result thereof.

4. Alternate Bid Items

No alternate bids or bid items will be considered unless they are specifically requested by the technical specifications.

5. Bids

A. All bids must be submitted on the forms provided and are subject to all requirements of the Contract Documents, including the Drawings.

B. All bids must be regular in every respect and no interlineation, excisions, or special conditions may be made or included by the bidder.

FT. BEND COUNTY LANDFILL GAS REMEDIATION PLAN
ACTIVITIES BILLING
P.O. NO. PC 04300000213

Dear Mr. Drachenberg:

MRA has recently assisted you in submitting a revised Landfill Gas Remediation Plan (LGRP) to the Texas Natural Resource Conservation Commission (TNRCC) concerning the Ft. Bend County Landfill. The original proposal submitted by MRA had a time and expense budget of $4,000.00. The scope of work under this budget was to generate and submit a landfill gas remediation plan. A partial invoice of $3,061.55 was previously billed for the LGRP generation activities.

On April 22, 1994 a meeting was held between MRA and you to discuss possible groundwater remediation options in response to problems suspected to be associated with landfill gas activities. At the meeting you verbally approved a change in scope of work for this project to investigate groundwater quality downgradient of the landfill using a temporary probe sampling technique. The additional field work was completed and sampling results were later submitted to you verbally.

The LGRP was submitted to the TNRCC in Mid-May 1994 and, as indicated by you, has been approved without further changes or additions needed. The total charges for this program, including field activities, is $7,893.92. Based on completion of the field activities and approval of the LGRP, MRA has prepared a final invoice that reflects a partial invoice of the original scope of work and the additional field work. This final invoice is $4,832.37.

Closing

MRA appreciates the opportunity to assist you in this project. If you have any questions in this matter, please call us.

Sincerely,
McBRIDE-RATLCIFF AND ASSOCIATES, INC.

average delay to minor street vehicular traffic of a t least 30 seconds per vehicle during the maximum hour, but,
c. When the 85 - percentile approach speed of the major street traffic exceed 40 miles per hour, the minimum vehicular volume warrant is 20 percent of the above requirements.

The approach speed average on Green Fields Drive (2 locations) and Austin Parkway into this subdivision is approximately 25-30 MPH which does not comply with warrant 3c. The reason for this is the speed limit on Bee Bayou Lane, Flintrock Lane and Settlers Grove Way is 25 MPH throughout the subdivision. As to warrants 3a and 3b, the traffic does not exceed the minimum as stated in each warrant.

General facts about this intersection for safety concern are as follows.

1. Close proximity to the Chimneystone Elementary School with probable high pedestrian traffic.
2. Bee Bayou Lane/Flintrock Lane curves continuously through these intersections creating visibility problems for school traffic.
3. Location of subdivision between Settlers Way Blvd, Green Fields Dr.,Austin Parkway and Oil Field Road allows for easy cut through traffic.

These facts listed are probable reasons for safety concern from the residents and school officials. Based on visibility problems created by the extreme curvature of the street and the pedestrian traffic created by the school, our recommendation is for multiway stops at certain locations. Multiway stops would be best served at the intersections of Bee Bayou at Bartons Lane, Flintrock Lane at Bartons Land and Bee Bayou Lane at Settlers Grove Way.

Should you have any questions or need additional information, please do not hesitate to call.

Nathan D. Hatcher

RE: TRAFFIC STUDY - BEE BAYOU AT BARTONS; BEE BAYOU AT SETTLERS GROVE; FLINTROCK AT WEST RANGECREST AND FLINTROCK AT BARTONS.

Dear Commissioner Lutts:

As per your request, a traffic count and subsequent study was performed on these intersections on August 23rd and 24th to determine traffic warrants for multiway stop signs. Please find the results and recommendation as follows.

Multiway Stop Signs - Warrants

Multiway stop signs should be used only where the volume of traffic on the intersecting roads is approximately equal unless they meet these warrants.

Warrant 1. Where traffic signals are warranted and urgently needed, the multiway stop is an interim measure that can be installed quickly to control traffic while arrangements are being made for the signal installation.

These intersections do not meet this warrant because warrant for multiway stop signs states all traffic should be equal in all directions, therefore it also would not warrant traffic signals. See Traffic Count Attachment "A".

Warrant 2. An accident problem, as by five or more reported accidents of a type susceptible of correction by a multistop installation in a 12 month period. Such accidents include right and left turn collisions as well as right angle collisions.

A request was submitted to The Texas Department of Public Safety for accidents reported in the last 12 months. We are awaiting a response, however we do not expect this warrant to be met.

Warrant 3. Minimum Traffic Volumes
a. The total vehicular volume entering the intersection from all approaches must average at least 500 vehicles per hour for any 8 hours of an average day and,
b. The combined vehicular and pedestrian volume from the minor street or highway must average at least 200 units per hour for the same 8 hours, with an

4. Explain how you will measure the success of your project. (Limit to space provided)

The initial measurement of the success of a project is the completion of the tasks identified for each goals group. The next measure will be the meeting tentatively set for August, 1994, when the goals groups are brought back together as well as all participants of the August meeting to review the work product and reach consensus on that work product. The true success of the project will be measured over a long period of time as the project is implemented. This vision and plan does include goals that will be measurable over time.

3. Describe how this project will encourage economic growth in your community or throughout the state. (Limit to space provided)

Fort Bend County is recognized as continually being one of the ten fastest-growing counties in the United States and, in addition, has been rated as the third fastest-growing white-collar county in the United States. This raises issues of how the growth may be managed within our community and how we develop a community to encourage diversified growth including residents, business, and industry. The vision process, which has brought together over 200 citizens as volunteers in our county to develop this vision, includes specific goal groups on economy and infrastructure and environment/recreation. This will have a dramatic impact on the county's ability to attract industry, business, and expand current businesses.

With a plan that is developed as a result of the vision, the County should be able to obtain a cohesive and concentrated effort to develop and maintain our infrastructure and "quality of life" so that businesses will continue to look at Fort Bend County as the home of choice.

2. Provide a detailed budget (including salaries, materials, etc.). If additional funds are available, please list.    Include:

   - The boundaries of your jurisdiction and the location of your project (if applicable).
   - The needs that your project will address.
   - A tentative timeline for completion.

1. On Saturday, August 28, 1993 a large diverse group of Fort Bend County residents met for the purpose of creating a vision for the future of Fort Bend County. This "Vision Day" was the first step in a process to create and pursue a comprehensive vision and set specific goals for the future. Organizations active in Fort Bend County sent representatives to the meeting. These organizations included cities, school districts, and civic groups, including homes associations, service organizations, and political groups. They were all asked, "Will you help create the future we want for our County?"

   A draft of the vision for Fort Bend County in the next century was mailed to all participants in October of 1993. The input or comments of participants were requested from them as individuals, or after circulation among their organization's members. Eleven task groups were identified: Economy, Infrastructure and Environment/Recreation, Social Services/Health Services, Education, Law Enforcement, Government Performance, Citizen Participation/Civic Education/Community Leadership, Volunteerism and Philanthropy, Multicultural Life, Community Information Sharing, Cooperation and Consensus Building, and Community Vision and Pride. Each group is responsible for the following work products: (1) further definition of the statement of vision in the goals areas; (2) description of the current reality in the goals groups characterization of the gap between vision and reality; (3) identification of specific goals to be achieved to close the gap; and (4) assignment of responsibility for achieving the specific goals to specific organizations, entities, or bodies.

   These groups are currently meeting to accomplish this task. Tentatively August 27, 1994, has been set for the date for participants to come back together and review the work product of each goals group.

RE: SERVICE FEES

Please read the attached letter from the state comptroller and the current fees charged, as ordered by commissioners court in 1993, based on our recommendation.

I will place this item on the September 27 agenda for action by the court. I am not recommending any changes, but you may think differently. Therefore, if you are recommending any changes to the fee structure, please send a letter to the court (send a copy to me) listing the service you want to increase or decrease.

If I receive no recommended changes, then the matter will be presented to the court for approval with the same service fees previously approved. Thank you for reviewing this matter.

Dear Judge Cordes:

Over a year ago, Commissioner's Court directed the Sheriff's Department to determine the actual costs to the County for housing Class "C" misdemeanor prisoners on municipal charges only. The results of this research reflected a cost of thirty-two dollars ($32.00) for the booking process, based upon the man-hours needed to intake one prisoner. Additionally, a twenty-eight dollar ($28.00) per 24 hour day cost was determined, once the prisoner was placed in housing. These figures were based upon a jail population of 400 plus inmates, in a facility costing about two million dollars. The cost factor varies with the number of prisoners in the facility, cost of the facility and fixed costs to operate the facility; therefore the figures of $32.00 and $28.00 will significantly increase after the new detention facility opens.

These figures were presented to the Court to re-adjust the fee structure, if the Court chose to do so. At that time, the Court did not see fit to make any changes in the flat rate of twenty-five dollars ($25.00) per prisoner/day, which is still in effect.

Several of the municipalities within Fort Bend County are in the process of constructing new Police Department/Jail facilities. Others are in no position to house their own class "C" prisoners and rely totally on the Sheriff's Department for that service. All Police Chiefs have expressed concern in the past with the suggestion that the $25.00 flat rate might be increased. Several Chiefs were concerned that their budgets are approved prior to that of Fort Bend County, hence an increase in the prisoner housing fee by the County would not be anticipated in their budget process.

This letter is not to suggest an increase in the current flat rate of $25.00 per prisoner/day, but simply to remind the Court that no action has been taken to change the current fee charged;

Dear Ms. Wilson:

Re: Fee schedule for services performed by Sheriff and Constables

I have reviewed the current fee schedule which you furnished, and find that it would be inappropriate for the Sheriff to make specific recommendations to change all but one of the fees. The fee charged municipalities for housing of inmates charged solely with class "C" municipal offenses, is addressed separately with Commissioner's Court. The enclosed letter has been sent to the Court for their action on that particular fee.

I am told that the fee for mental health commitments may be waived or charged, depending on the financial circumstances of the individual requesting the commitment. This decision is made by the County Attorney's Office.

All other listed fees are for services performed by the various Constables. Accordingly, the Sheriff has no specific recommendations for alteration of any fees listed on your fee schedule for 1995. Thank you for bringing this matter to our attention.

Sincerely,

H. C. Gregory

Every year, under Section 118.131 of the Local Government Code, each commissioners court is required to set fees that will be charged for services rendered by the sheriffs' and constables' offices. Commissioners are required to set these fees before October 1 so that they will become effective on January 1 of the following year, and they must notify the Comptroller's office of these charges on or before October 15.

Each year before December 15, the Comptroller's office is required to compile and distribute the *Texas Sheriffs' and Constables' Fees* manual, which lists the fees, to each commissioners court and others as required under Section 118.131.

Please complete and return the attached form by October 15, 1994. Enclosed is a self-addressed envelope for your convenience. By using this form, you will help to ensure that we have an accurate account of the fees set by your county.

Hon. Roy L. Cordes Jr.
County Judge, Fort Bend County
P. O. Box 368

Dear Judge Cordes:

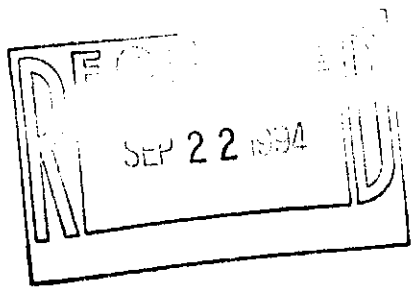

As you are aware, the new section of SH 99 from FM 1093 to US 59 was recently opened to the traveling public. With the construction of the section between FM 1093 and US 90A, a section of the south end of FM 1464 was realigned to tie into the new SH 99. This realignment was done to create a safer intersection at US 90A.

A map has been attached for your review of the situation. As you can see, the highlighted area is the old section of FM 1464 that was abandoned after the realignment. However, this will still be a state maintained road since it is access to the new pump house for the underpass and there are still houses that this section serves.

Due to this realignment, we will have to redesignate this small section of highway and it is our suggestion to designate it as Spur 1464. It is our feeling that this would be most acceptable and easy for the traveling public.

In order for us to proceed with this redesignation, we require a letter of concurrence from Fort Bend County. We would appreciate your reply by October 7, 1994.

If you require further information, please contact Ms. Liz Gerstenberger of my office at 713/802-5567.

III.8. **Workers' Compensation and Personal Injury Cases**—A participant is not entitled to legal services in matters or cases involving workers' compensation or personal injury. Nevertheless, a participant may consult a CLEAT attorney in these regards for legal assistance on a private fee basis for referral to another attorney. CLEAT staff attorneys may engage in private practice at the discretion of the Executive Board so long as such private practice does not interfere with their practice under this plan. CLEAT staff attorneys may accept reasonable and customary referral fees if the client is informed, provided that the Executive Board is apprised of the amounts received.

ARTICLE IV
Exclusions and Limitations

In addition to exclusions and limitations set forth elsewhere in this plan, the following exclusions and limitations shall apply.

IV.1. **Exclusions**—The provisions of benefits under this plan shall be subject to the following exclusions:

(a) No benefits shall be provided under this plan for any action or case arising out of violation of or covered by provisions of the Federal Equal Employment Opportunity Act (42 U.S.C. Section 2000[3] et seq.) or any other similar state, county, city or city and county law, statute, ordinance, regulation or rule of a similar type or description.

(b) No benefits shall be provided under this plan for any action to obtain, protect, preserve or set aside pension or retirement benefits without 30 days advanced written notice to the local association by the participant seeking such an affirmative action.

(c) No benefits shall be provided under this plan for any action to obtain a promotion or assignment, or to establish any position for a participant on an eligibility list for any promotion or assignment.

(d) No benefits shall be provided under this plan for legal services to one participant when such legal service if successful would cause legal injury to another participant unless the Executive Board first approves legal services for defense of the other participant against such a potential injury. Approval of legal representation for such competing interests shall be at the broad discretion of the Executive Board in the best interests of the plan.

(e) No benefits shall be provided under this plan to cover any monetary award for damages or otherwise, whether by judgment, settlement or otherwise, against a participant in any action.

(f) No benefits shall be provided to cover the attorney's fees or costs of an opposing party, or any party other than the participant awarded against a participant in any action.

(g) No benefits shall be provided under this plan related to proceedings brought against a participant for breach of an agreement with his employer to remain employed.

(h) No benefits shall be provided under this plan related to proceedings involving the medical condition of a participant.

(i) No benefits shall be provided under this plan which are otherwise available to the participant, except as specifically provided by this plan in Section IV.2. of this article.

IV.2. **Limitations**—The provision of benefits under this plan shall be subject to the following limitations.

(a) No benefits shall be provided under this plan in any proceeding in which the participant's employer or its insurer, whether by agreement, policy or operation of law (e.g.) agrees or undertakes to provide a defense and further agrees to, or undertakes to, indemnify a participant for all compensatory damages arising out of the proceeding.

(b) In the event a participant's employer agrees to defend the participant but refuses to fully indemnify the participant or asserts a reservation of rights to indemnification of the participant, pending outcome of the proceeding, then the participant may have his case monitored by a staff attorney, but no other benefits shall be provided under this plan.

(c) In the event the employer and its insurer refuses to defend a participant in a civil action, the participant may be represented under Section III.3. of this plan only where the participant presents proof of a written request delivered to his employer and where the participant executed an agreement subordinating CLEAT to his rights against his employer or its insurer.

(d) In the event a participant shall recover from any third person or party any amounts as damages (other than for lost compensation), attorney's fees or costs in a case in which the benefits have been provided under this plan, CLEAT shall be entitled to reimbursement from such participants to the full extent of the outlays made by CLEAT on behalf of said participant hereunder. Participants agree to cooperate with CLEAT in this regard, and to that end, upon request, execute any and all documents necessary or convenient to facilitate such recovery by CLEAT and if such participant shall have a right of action against any such third party for such damages, attorney's fee or costs and does not wish to pursue the same, he will upon request, assign such right of action to CLEAT to the extent lawfully permissible and assist CLEAT in prosecution of such cause of action.

(e) No benefits shall be provided to a participant who is untruthful with his counsel or who does not cooperate with his counsel. In such a case, the right of said participant to legal services hereunder may be terminated or suspended by the General Counsel subject to appeal to Executive Board. Furthermore, if benefits are provided to a participant based upon misrepresentation by the participant to the General Counsel or Executive Board, CLEAT shall be entitled to terminate or suspend benefits hereunder, and to reimbursement from the participant of the cost of benefits provided based on the misrepresentation.

(f) No provision of this plan shall require CLEAT, its employees or attorneys, or any attorneys associated with them, to perform any act in violation of the Code of Professional Responsibility of the State Bar of Texas including, but not limited to, the prohibition against interference by any organization interfering with or controlling the performance of an attorney's duty to his client.

(g) Benefits shall be terminated in the event it is determined by the General Counsel that it is in the best interests of the participant to cease his representation in a case, e.g., in cases where continued proceedings may subject the participant to more severe civil, criminal or administrative sanctions, to damages or attorney's fees, or where the participant has rejected a reasonable settlement proposal to resolve his case, etc.

(h) No benefits shall be provided to appeal a decision unless the General Counsel determines, upon written request, that there exists a reasonable likelihood of a favorable award for the participant and recovery of damages, attorney's fees, and costs from the proposed defendants.

IV.3. **Coordination of Benefits**—Benefits under this plan shall not be provided to the extent they are furnished to a participant by any other plan, program or policy which provides group legal services to peace officers, correctional officers and public safety employees.

IV.4. **Executive Policy and Attorney Selection**—Benefits under this plan will be provided in accordance with the policies of the Executive Board, and legal representation in each case shall be by counsel selected by the General Counsel, subject to appeal to the Executive Board.

ARTICLE V
Claims Procedure

V.1. A participant shall be obligated to notify a CLEAT office of his claim for benefits before he is entitled to any benefits under this plan. To this end, CLEAT will maintain a WATS line (and local members where feasible) for requests during normal business hours and at 24-hour-a-day telephone services for matters requiring immediate attention when the office is closed. The WATS line number is currently 800 252-8153 (Austin).

The 24-hour-a-day numbers are currently: 512/228-0552 (San Antonio), 512/495-9111 (Austin), 713/237-8505 (Houston) and 817/535-8905 (Ft. Worth).

After 5 p.m. on weekends and on holidays, participants seeking emergency legal representation in El Paso may call 915 566-3865. Such numbers may be changed at the direction of the president of CLEAT upon notice to the Board of Directors.

V.2. In an emergency where for whatever reason participant is unable to secure benefits under Section V.1. of this plan, he should contact his regional director or local association president who are authorized to temporarily secure legal services and benefits under this plan to cover emergencies. Only after all the foregoing attempts have been exhausted may the participant temporarily obtain benefits directly from a CLEAT regional attorney. In this article this plan temporarily means until the next business day when the participant and attorney are required to make claim to a CLEAT office or forfeit benefits until the claim is made.

V.3. The CLEAT office receiving a claim will tender it to a CLEAT staff attorney who will hear the claim and submit it for approval by the General Counsel or approve it in accordance with standing instructions from the General Counsel.

V.4. The General Counsel shall approve or cause to be approved any claim automatically entitling a participant to benefit under this plan.

V.5. The General Counsel shall initially deny any claim for benefits not automatically covered, or any claim excluded or limited from coverage and inform the claimant that he may appeal that initial denial to the Executive Board in writing within 60 days or waive such appeal.

V.6. In the case of claims where delay may result in legal harm to a participant who orally expresses his wish to appeal, the General Counsel shall inform the president of CLEAT so that a telephonic Executive Board meeting may be convened to decide whether the participant will receive benefits under this plan.

V.7. The Executive Board shall hear any timely appeal brought by a participant from a partial or total denial of requested benefits by the General Counsel. The participant shall be represented on appeal by his regional director unless the participant elects to be represented by the president of his local association. Should a member of the Executive Board represent a member in these regards, he shall abstain from voting, but may fully participate in deliberations on the matter. The plan shall bear no responsibility for any legal consultation or representation of the participant in connection with his appeal. The Executive Board may consult the General Counsel concerning the basis for this initial denial of benefits.

V.8. A decision of the Executive Board is final and binding concerning the interpretation and application of this plan.

ARTICLE VI
Amendment and Termination

VI.1. In order that the Executive Board may carry out its obligation to maintain, within the limits of available CLEAT resources budgeted by the Board of Directors a program dedicated to providing the maximum possible benefits for all participants, the Board of Directors expressly reserves the right in accordance with Sections VI.2 and/or Section VI.3., at any time and from time to time, but upon a non-discriminatory basis,

(a) To amend or terminate any benefit, even though such amendment or termination affects cases already accepted by the legal administrator provided that claims for legal services rendered shall not be affected; and

(b) To amend or rescind any other provision of this plan.

VI.2. By majority vote the Executive Board may alter this plan as provided in Section VI.1. at any regular or special meeting including telephone meetings, provided, however, the Executive Board must thereafter submit such alteration to the Board of Directors at its next regularly scheduled meeting. If the alteration made by the Executive Board is approved by the Board it shall be continued, otherwise it will become void.

VI.3. This plan and any clause thereof may be amended, altered, modified, terminated, reduced or increased in any manner by the Board in accordance with the constitution and Bylaws of CLEAT and the constitution and laws of the state of Texas.

VI.4. This plan shall be amended to conform to the Constitution and Bylaws of CLEAT.

ARTICLE VII
Miscellaneous

HERE'S WHEY MORE THAN 16,000 TEXAS LAW ENFORCEMENT OFFICERS CARRY A CLEAT MEMBERSHIP CARD:

* They're worried about being disciplined, indicted or sued for doing their job.
* Decent and safe working conditions are important to them.
* They know CLEAT is the only state-wide law enforcement organization which deals with these problems. That's because CLEAT understands what Texas law enforcement officers need.

HERE'S THE CLEAT PHILOSOPHY

1. LEGAL REPRESENTATION: Police officers, deputies, and detention officers must have the best possible legal representation when faced with a job-related problem, discipline, civil action or criminal indictment. CLEAT provides **the most comprehensive legal plan available in Texas.**
2. **Criminal Proceedings.** CLEAT is the **only** organization that provides full representation in a criminal proceeding where the conduct is related to the official performance of duty.

It's dangerous out on the street , and Texas Law enforcement officers need as much protection as they can get. Officers wouldn't think of going to work every day without their service revolver and body armor. And there's one more thing that more than 16,000 Texas law enforcement officers wouldn't leave home without a membership card in their wallet which reads:

Combined Law Enforcement Associations of Texas (CLEAT)

HERE'S WHAT YOU GET WHEN YOU JOIN CLEAT

1. Full-time legal representation anywhere in the state for job-related matters, both **on duty and off-duty!**
2. Full-time administrative support at any of our five offices.
3. $10,000 line-of-duty death benefit payable to the deceased member's designated beneficiary.

REMEMBER THESE FACTS ABOUT CLEAT

1. CLEAT is not the **best** because it's the **biggest**... CLEAT is the **biggest** because it's the **best!**
2. Unlike other statewide groups which run high-pressure, unsuccessful phone solicitations to meet expenses, CLEAT is funded 100% by members' dues.
3. More than 16,000 police officers, deputies and detention officers now belong to CLEAT. More than 80 Police and Deputy associations from across the state are affiliated with CLEAT.
4. CLEAT is a multi-million dollar organization - our revenues from dues and various benefit trusts total over $7 million annually!
5. Decentralized operations: CLEAT has offices in Austin, Houston, San Antonio, Fort Worth and El Paso, which makes the organization more accessible to all members.

Agenda 9/27

September 1, 1994

Gentlemen:

I would like to thank you for the opportunity to present our request for payroll deduction of Association dues and provide you with the information desired pertaining to the Fort Bend County Deputy Sheriff's Association.

I have enclosed copies of all the information requested, in reference to our non-profit organization and our non-profit affiliates. Those items include the Charter issued by the Secretary of State, Articles of Incorporation, Constitution and By-Laws, Internal Revenue Service Tax Exempt Determination Letter, and basic benefits list (which does not include numerous minor benefits and discounts to members).

To clarify an important fact, our Association was not formed to create a union against the local government. It was created to act as a friend to the local government and citizens and also to accomplish important, meaningful tasks which create beneficial community relations that can not be performed on duty. An example of this is the child finger print program that assisted the citizens and their children and also raised donations for the Fort Bend County Explorer Program. The Association's current main goal is the creation of a Peace Officers Memorial Park and Monument to be erected in the memory of all Fort Bend County Peace Officers who have fallen in the line of duty.

During the presentation Tuesday, Commissioner Pressley referred to a "Stafford Union". I am unaware of a union organization in Stafford, but I believe the reference was in regard to Sugarland Police Department's Association, which does not and never has had payroll deductions of dues. I would like to be clear in stating that the Fort Bend County Deputy Sheriff's Association, C.L.E.A.T. and the Texas Deputy Sheriff's Association (Caucus) are not associated or affiliated with Sugarland's organization or it's "TCOPS affiliate.

RE: Waiver of Penalty and Interest - Marvin F. Poer & Company & ClubCorp
Account #'s 5915-02-000-0010-907, 5915-02-000-0020-907, 5915-02-000-0060-907
Precinct #4

Marvin F. Poer & Company and ClubCorp are both requesting waiver of penalty, interest and attorney fees for the above referenced accounts for 1993.

1. On December 17, 1993, the tax office received a check from Quail Valley World of Clubs for $31,129.04 along with twenty-seven 1993 tax statements.
2. All statements were in the name of either Quail Valley Golf Club or Quail Valley World of Clubs.
3. The statements totaled $29,787.80. Prior to the tax office issuing a refund for $1,341.24, the tax system was checked for any other accounts under either of the two names for posting. No additional accounts were located.
4. The refund was processed on December 22, 1993 and mailed to Quail Valley World of Clubs at P.O. Box 445, Missouri City, Texas 77459.
5. The three accounts in question were on the 1993 tax roll under the name of MacNaughton & Co, c/o Farm & Home Savings Association.
6. Delinquent notices were mailed in March and May 1994 on these accounts.
7. On June 21, 1994, Debbie Thayer with ClubCorp contacted us regarding these delinquencies.
8. Ms. Edie Krisa with ClubCorp feels that although they made payment without proper backup and by not cashing the refund check (unable to locate check and does not recall ever seeing it), these accounts should not be assessed penalty, interest and attorney fees.

Breakdown of Taxes Paid:

Base Tax	$1,336.94
Penalty & Interest	240.65
Attorney Fees	236.64
Total Paid	$1,814.23

477.29

Due to failure on the part of Quail Valley World of Clubs to include proper disbursement with their payment and apparent mishandling of the refund check issued to them in a timely manner to allow payment of any accounts in question before the delinquency date, I do not recommend a waiver. There is no evidence of error on the part of the appraisal district or the tax office.

Lt. Richard Pring
Constable Precinct 2 - Fort Bend County
7133 West Fuqua
Missouri City, TX 77489

Dear Lt. Pring:

Thank you for entering the 1994 Best Dressed Police Department Competition.

This year's competition was particularly fierce, with 529 departments competing in the overall contest. While all entrants displayed a deep commitment to creating a positive professional image, we can unfortunately name only one winner in each category. They are:

- Fresno, CA, Police Department, best dressed city, over 200 officers
- Kokomo, IN, Police, best dressed city, under 200 officers
- Erie County, NY, Sheriff's Office, best dressed county department
- Alaska State Troopers, best dressed state department
- Oneida Indian Nation of New York and
  Ft. Myer Military Police Co., best dressed specialized agencies

A certificate of achievement honoring your effort is enclosed. Those departments requesting the return of photographs will find them enclosed as well.

Many thanks for participating in this year's program. As a past entrant, you'll automatically receive an entry blank for the 1995 contest. Look for it in January. We do hope you'll consider entering again, and wish you all the best in future endeavors.

Questions? Contact me at the number below.

Sincerely,

Jackie Rosselli
Director of Public Relations
